Deadlines Approaching for FSA Livestock Disaster Assistance Programs

Livestock producers are reminded that deadlines for the Livestock Forage Disaster Program (LFP) and the Livestock Indemnity Program (LIP) are quickly approaching.

The deadline to apply for LFP benefits for 2017 grazing losses is Jan. 30, 2018. Eligible livestock producers must complete a CCC-853 and submit the required supporting documentation by the deadline. LFP provides compensation to eligible livestock producers who suffer grazing losses for covered livestock due to drought on

State Committee:

privately owned or cash leased land or fire on federally managed land.

Producers with eligible livestock losses must submit a LIP application for payment by March 31, 2018. LIP provides assistance to eligible producers for livestock death losses in excess of normal mortality due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law.

For 2017, eligible LIP losses must occur on or after Jan. 1, 2017, and no later than 60 calendar days from the ending date of the applicable adverse weather event or attack. A notice of loss must be filed with FSA within 30 days of when the loss of livestock is apparent. Participants must provide the following supporting documentation to their local FSA office no later than 90 calendar days after the end of the calendar year in which the eligible loss condition occurred.

- Proof of death documentation
- Copy of growers contracts
- Proof of normal mortality documentation

Please contact to your local FSA office to make an appointment to apply for LFP or LIP benefits.

Environmental Review Required Before Project Implementation

The National Environmental Policy Act (NEPA) requires Federal agencies to consider all potential environmental impacts for federally-funded projects before the project is approved.

For all Farm Service Agency (FSA) programs, an environmental review must be completed before actions are approved, such as site preparation or ground disturbance. These programs include, **but are not limited to**, the Emergency Conservation Program (ECP), Farm Storage Facility Loan (FSFL) program and farm loans. If project implementation begins before FSA has completed an environmental review, this will result in a denial of the request. There are exceptions regarding the Stafford Act and emergencies. It is important to wait until you receive written approval of your project proposal before starting any actions, including, but not limited to, vegetation clearing, site preparation or ground disturbance.

Remember to contact your local FSA office early in your planning process to determine what level of environmental review is required for your program application so that it can be completed timely.

Applications cannot be approved contingent upon the completion of an environmental review. FSA must have copies of all permits and plans before an application can be approved.

USDA Processing Pending Conservation Reserve Program Continuous Enrollment Offers

Acceptance of Most 2018 Offers Temporarily Suspended

USDA's Farm Service Agency (FSA) will process many pending eligible offers for land enrollment in the Conservation Reserve Program (CRP), and will temporarily suspend accepting most new offers until later in the 2018 fiscal year.

All current, eligible CRP continuous enrollment offers made through Sept. 30, 2017, except for those made under the Pollinator Habitat Initiative (CP42), will be approved. Additionally, FSA is temporarily suspending acceptance of most offers going forward to provide time to review CRP allocation levels, and to avoid exceeding the statutory cap of 24 million acres.

The CRP acreage cap is a provision of the 2014 Farm Bill. Current enrollment is about 23.5 million acres nationwide. USDA is accepting all pending continuous enrollment offers that were made beginning on May 4, 2017, and extending through Sept. 30, 2017, except Pollinator Habitat Initiative offers. Pollinator acreage offers are being declined because the program has met its acreage enrollment goal. Effective immediately, USDA is suspending acceptance of all new CRP continuous offers received or submitted after Sept. 30, 2017. The suspension will continue until later in the 2018 fiscal year.

However, FSA will continue to accept eligible offers for state-specific Conservation Reserve Enhancement Program (CREP) and CRP Grasslands enrollment. Offers received on or after Oct. 1, 2017, are subject to fiscal year 2018 rental rates which have been adjusted to reflect current market conditions and were established after careful review of the latest USDA National Agricultural Statistics Service (NASS) cash rent data.

In return for enrolling in CRP, USDA, through FSA, provides participants with rental payments and cost-share assistance. Landowners enter into contracts that last between 10 and 15 years. CRP pays farmers and ranchers who remove sensitive lands from production and plant certain grasses, shrubs and trees that improve water quality, prevent soil erosion and increase wildlife habitat. Payment totals for 2017 were announced earlier this week totaling over \$1.6 billion.

For more information about CRP, contact your local FSA office or visit www.fsa.usda.gov/crp. To locate your local FSA office, visit <http://offices.usda.gov>.

USDA Announces Enrollment Period for Safety Net Coverage in 2018

FSA today announced that starting Nov. 1, 2017, farmers and ranchers with base acres in the Agriculture Risk Coverage (ARC) or Price Loss Coverage (PLC) safety net program may enroll for the 2018 crop year. The enrollment period will end on Aug. 1, 2018.

Since shares and ownership of a farm can change year-to-year, producers must enroll by signing a contract each program year.

The producers on a farm that are not enrolled for the 2018 enrollment period will not be eligible for financial assistance from the ARC or PLC programs for the 2018 crop should crop prices or farm revenues fall below the historical price or revenue benchmarks established by the program. Producers who made their elections in previous years must still enroll during the 2018 enrollment period.

The ARC and PLC programs were authorized by the 2014 Farm Bill and offer a safety net to agricultural producers when there is a substantial drop in prices or revenues for covered commodities. Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain and sweet rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity. For more details regarding these programs, go to www.fsa.usda.gov/arc-plc.

For more information, producers are encouraged to visit their local FSA office. To find a local FSA office, visit <http://offices.usda.gov>.

Fruit, Vegetable and Wild Rice Planting Rules

Farm Service Agency (FSA) has announced fruit, vegetable and wild rice provisions that affect producers who intend to participate in certain programs authorized by the Agricultural Act of 2014.

Producers who intend to participate in the Agriculture Risk Coverage (ARC) or Price Loss Coverage (PLC) programs are subject to an acre-for-acre payment reduction when fruits and nuts, vegetables or wild rice are planted on the payment acres of a farm. Payment reductions do not apply to mung beans, dry peas, lentils or chickpeas. Planting fruits, vegetables or wild rice on acres that are not considered payment acres will not result in a payment reduction. Farms that are eligible to participate in ARC/PLC but are not enrolled for a particular year may plant unlimited fruits, vegetables and wild rice for that year but will not receive ARC/PLC payments for that year. Eligibility for succeeding years is not affected.

Planting and harvesting fruits, vegetables and wild rice on ARC/PLC acreage is subject to the acre-for-acre payment reduction when those crops are planted on either more than 15 percent of the base acres of a farm enrolled in ARC using the county coverage or PLC, or more than 35 percent of the base acres of a farm enrolled in ARC using the individual coverage.

Fruits, vegetables and wild rice that are planted in a double-cropping practice will not cause a payment reduction if the farm is in a double-cropping region as designated by the USDA's Commodity Credit Corporation.

Communication is Key in Lending

Farm Service Agency (FSA) is committed to providing our farm loan borrowers the tools necessary to be a success. A part of ensuring this success is providing guidance and counsel from the loan application process through the borrower's graduation to commercial lending institutions. While it is FSA's commitment to advise borrowers as they identify goals and evaluate progress, it is crucial for borrowers to communicate with their farm loan staff when changes occur. It is the borrower's responsibility to alert FSA to any of the following:

- Any proposed or significant changes in the farming operation;
- Any significant changes to family income or expenses;
- The development of problem situations;
- Any losses or proposed significant changes in security In addition, if a farm loan borrower cannot make payments to suppliers, other creditors, or FSA on time, contact your farm loan staff immediately to discuss loan servicing options.

For more information on FSA farm loan programs, visit www.fsa.usda.gov

Loan Servicing

There are options for Farm Service Agency loan customers during financial stress. If you are a borrower who is unable to make payments on a loan, contact your local FSA Farm Loan Manager to learn about the options available to you.

Firearms and Dangerous Weapons Forbidden In Federal Facilities

This is an important reminder to all customers and patrons of USDA Farm Service Agency (FSA) offices and USDA Service Centers statewide that **firearms are forbidden (even with a permit/license) in Federal Buildings**. A Federal Building by definition is any building owned, leased or rented by the Federal Government, where Federal employees are regularly present for the purpose of performing their official duties.

The items that are prohibited in Federal facilities include any item prohibited by any applicable Federal, State, local, and tribal law and/or ordinance, as well as firearms, dangerous weapons, explosives, or other destructive devices (including their individual parts or components) designed, redesigned, used, intended for use, or readily converted to cause injury, death, or property damage. Possession of firearms and dangerous weapons in Federal facilities as outlined above is a crime punishable by fines and imprisonment.

For a complete list of items prohibited in Federal facilities, please view and/or download the document titled, **Items Prohibited from Federal Facilities: An Interagency Security Committee Standard:** <http://www.dhs.gov/sites/default/files/publications/isc-items-prohibited-federal-facilities-feb-2013-508.pdf>. **The lists of prohibited items outlined in this document apply to all facility occupants, contractors, and the visiting public.**

If you have questions or concerns regarding this notification, please contact your local Farm Service Agency office—<http://offices.usda.gov>.

Annual Review of Payment Eligibility for New Crop Year

All participants of FSA programs who request program benefits are required to submit a completed CCC-902 (Farming Operation Plan) and CCC-941 Average Gross Income (AGI) Certification and Consent to Disclosure of Tax Information to be considered for payment eligibility and payment limitation applicable for the program benefits.

Participants are not required to annually submit new CCC-902s for payment eligibility and payment limitation purposes unless a change in the farming operation occurs that may affect the determination of record. A valid CCC-902 filed by the participant is considered to be a continuous certification used for all payment eligibility and payment limitation determinations applicable for the program benefits requested.

Participants are responsible for ensuring that all CCC-902 and CCC-941 and related forms on file in the county Office are correct at all times. Participants are required to timely notify the county office of any changes in the farming operation that may affect the determination of record by filing a new or updated CCC-902 as applicable.

Changes that may require a NEW determination include, but are not limited to, a change of:

- Shares of a contract, which may reflect:
 - A land lease from cash rent to share rent
 - A land lease from share rent to cash rent (subject to the cash rent tenant rule)
 - A modification of a variable/fixed bushel-rent arrangement
- The size of the producer's farming operation by the addition or reduction of cropland that may affect the application of a cropland factor
- The structure of the farming operation, including any change to a member's share
- The contribution of farm inputs of capital, land, equipment, active personal labor, and/or active personal management
- Farming interests not previously disclosed on CCC-902 including the farming interests of a spouse or minor child
- Financial status that may affect the 3-year average for the determination of average AGI or other changes that affects eligibility under the average adjusted gross income limitations.
-

Participants are encouraged to file or review these forms within the deadlines established for each applicable program for which program benefits are being requested.

Payment Limitation

Program payments are limited by direct attribution to individuals or entities. A legal entity is defined as an entity created under Federal or State law that owns land or an agricultural commodity, product or livestock. Through direct attribution, payment limitation is based on the total payments received by the individual, both directly and indirectly. Qualifying spouses are eligible to be considered separate persons for payment limitation purposes, rather than being automatically combined under one limitation.

Payments and benefits under certain FSA programs are subject to some or all of the following:

- payment limitation by direct attribution
- payment limitation amounts for the applicable programs
- actively engaged in farming requirements
- cash-rent tenant rule
- foreign person rule
- average AGI limitations
- programs subject to AGI limitation
- effective date of implementation of AGI limitation

No program benefits subject to payment eligibility and limitation will be provided until all required forms for the specific situation are provided and necessary payment eligibility and payment limitation determinations are made.

Payment eligibility and payment limitation determinations may be initiated by the County Committee or requested by the producer.

There are statutory provisions that require entities, earning program benefits that are subject to limitation, to provide the names, addresses, and TINs of the entities' members to the County Committee.

All applicable payment eligibility and payment limitation forms submitted by producers are subject to spot check through the end-of-year review process.

Producers selected for end-of-year review must provide the County Committee with operating loan documents, income and expense ledgers, canceled checks for all expenditures, lease and purchase agreements, sales contracts, property tax statements, equipment listings, lease agreements, purchase contracts, documentation of who provided actual labor and management, employee time sheets or books, crop sales documents, warehouse ledgers, gin ledgers, corporate or entity papers, etc.

A determination of not actively engaged in farming results in the producer being ineligible for any payment or benefit requiring a determination of actively engaged in farming.

Noncompliance with AGI provisions, either by exceeding the applicable limitation or failure to submit a certification and consent for disclosure statement, will result in the determination of ineligibility for all

program benefits subject to AGI provisions. Program benefits shall be reduced in an amount that is commensurate with the direct and indirect interest held by an ineligible person or legal entity in any legal entity, general partnership, or joint operation that receives benefits subject to the average AGI limitations.

If any changes occur that could affect an actively engaged in farming, cash-rent tenant, foreign person, or average Adjusted Gross Income (AGI) determination, producers must timely notify the county Office by filing revised farm operating plans and/or supporting documentation, as applicable. Failure to timely notify the County Office may adversely affect payment eligibility.

Change in Farming Operation

If you have bought or sold land, or if you have picked up or dropped rented land from your operation, make sure you report the changes to the office as soon as possible. You need to provide a copy of your deed or recorded land contract for purchased property. Failure to maintain accurate records with FSA on all land you have an interest in can lead to possible program ineligibility and penalties. Making the record changes now will save you time in the spring. Update signature authorization when changes in the operation occur. Producers are reminded to contact the office if there is a change in operations on a farm so that records can be kept current and accurate.
