County Committee:
Michael Rasmussen- Chairman
Spencer Ellis- Vice-Chairman
Martin Mercer- Member

County Office Notes

Connie and I would like to wish each and every one of you a Merry Christmas and Happy New Year. We hope this newsletter finds each of you enjoying the holiday season. A few reminders for all of you:

- The Marketing Facilitation Program for Wheat and Corn has a signup deadline of **January 15, 2019**. If you haven't stopped by to complete your paperwork please do so before the deadline. The second payment will be made hopefully by the end of the year or just after the new year.
- Livestock losses. Good recordkeeping is vitally important for livestock programs. As you are having losses, please keep track of them on your calendar along with the conditions that caused the losses. It is important to notate not only losses due to extreme conditions, but also normal mortality. Proof of inventory and losses are required for program participation.

If you have any questions concerning any of our programs, please feel free to contact our office at any time. We are here to serve your agricultural needs.

**Next County Committee
Meeting: January 8,
1:30PM**

USDA Market Facilitation Program

USDA launched the trade mitigation package aimed at assisting farmers suffering from damage due to unjustified trade retaliation by foreign nations. Producers of certain commodities can now sign up for the Market Facilitation Program (MFP).

USDA's Farm Service Agency (FSA) will administer MFP to provide payments to corn (fresh and processed), cotton, dairy, hog, sorghum, soybean (fresh and processed), wheat, shelled almond, and fresh sweet cherry producers. An announcement about further payments will be made in the coming months, if warranted.

The sign-up period for MFP runs through Jan. 15, 2019, with information and instructions provided at www.farmers.gov/mfp. MFP provides payments to producers of eligible commodities who have been significantly impacted by actions of foreign governments resulting in the loss of traditional exports. Eligible producers should apply after harvest is complete, as payments will only be issued once production is reported.

A payment will be issued on 50 percent of the producer's total production, multiplied by the MFP rate for a specific commodity. A second payment period, if warranted, will be determined by the USDA.

For a list of initial MFP payments rates, view the [MFP Fact Sheet](#).

MFP payments are capped per person or legal entity as follows:

- A combined \$125,000 for eligible crop commodities
- A combined \$125,000 for dairy production and hogs
- A combined \$125,000 for fresh sweet cherries and almonds

Applicants must also have an average adjusted gross income for tax years 2014, 2015, and 2016 of less than \$900,000. Applicants must also comply with the provisions of the Highly Erodible Land and Wetland Conservation regulations.

Expanded Hog Timeline

USDA has expanded the timeline for producers with whom the Aug. 1, 2018, date does not accurately represent the number of head of live hogs they own. Producers may now choose any date between July 15 to Aug. 15, 2018, that correctly reflects their actual operation.

MFP applications are available online at www.farmers.gov/mfp. Applications can be completed at a local FSA office or submitted electronically either by scanning, emailing, or faxing. To locate or contact your local FSA office, visit www.farmers.gov.

Livestock Losses

The Livestock Indemnity Program (LIP) provides assistance to eligible producers for livestock deaths in excess of normal mortality caused by adverse weather, disease and attacks by animals reintroduced into the wild by the federal government or protected by federal law.

LIP compensates livestock owners and contract growers for livestock death losses in excess of normal mortality due to adverse weather, including losses due to hurricanes, floods, blizzards, wildfires, extreme heat or extreme cold.

For disease losses, FSA county committees can accept veterinarian certifications that livestock deaths were directly related to adverse weather and unpreventable through good animal husbandry and management.

For 2018 livestock losses, eligible livestock owners must file a notice within 30 calendar days of when the loss is first apparent.

Participants must provide the following supporting documentation to their local FSA office no later than 90 calendar days after the end of the calendar year in which the eligible loss condition occurred.

- Proof of death documentation
- Copy of growers contracts
- Proof of normal mortality documentation

USDA has established normal mortality rates for each type and weight range of eligible livestock, i.e. Adult Beef Cow = 2% and Non-Adult Beef Cattle (less than 400 pounds) = 4.3%. These established percentages reflect losses that are considered expected or typical under “normal” conditions.

In addition to filing a notice of loss, producers must also submit an application for payment by March 1, 2019. Additional Information about LIP is available at your local FSA office or online at: www.fsa.usda.gov.

Storage and Handling Trucks Eligible for Farm Storage Facility Loans

Farm Storage Facility Loans (FSFL) provide low-interest financing so producers can build or upgrade facilities to store commodities. Some storage and handling trucks are eligible for the FSFL. These include:

- **Cold Storage Trucks**-A van or truck designed to carry perishable freight at specific temperatures. Cold storage trucks can be ice-cooled or equipped with any variety of mechanical refrigeration systems.
- **Flatbed Trucks**-Truck with an open body in the form of a platform with no side walls for easy loading and unloading. These trucks can be categorized into different sizes which range from light, medium, or heavy duty, compact or full-size, or short and expandable beds.
- **Grain Trucks**-A piece of farm equipment specially made to accommodate grain products and are traditionally truck chassis units with a mounted grain “dump” body where grain commodities are transported from a field to either a grain elevator or a storage bin.
- **Storage Trucks with a Chassis Unit**-Commonly referred to as a box truck, box van or straight truck, is a truck with a cargo body mounted on the same chassis with the engine and cab.

To be eligible for FSFL, the storage and handling truck must be less than 15 years old and have a maximum of four axles with a gross weight rating of 60,000 pounds or less. Pick-up trucks, semi-trucks, dump trucks, and simple insulated and ventilated vans are ineligible for FSFL.

FSFL for storage and handling trucks must be \$100,000 or less. FSFL-financed storage and handling trucks must be used for the purpose for which they were acquired for the entire FSFL term.

Eligible commodities include grains, oilseeds, pulse crops, hay, honey, renewable biomass commodities, fruits and vegetables, floriculture, hops, maple sap, milk, cheese, yogurt, butter, eggs, meat/poultry (unprocessed), rye and aquaculture.

For more information or to apply for a FSFL, contact your local [FSA Service Center](#).

Persons with disabilities who require accommodations to attend or participate in this meeting should contact Brenda Miller at 307-765-2689 extension 2 or Federal Relay Service at 1-800-877-8339.
