Big Horn County FSA Updates

Big Horn County FSA Office
408 Greybull Ave.
Greybull, WY 82426
Phone: 307-765-2689
Fax: 855-415-3432

County Executive Director:
Brenda Miller

Farm Loan:
Bill Morrison- Worland
Tom Schambow- Powell

Program Technician:
Connie Werbelow

County Committee:
Michael Rasmussen- Chairman
Spencer Ellis- Vice-Chairman
Martin Mercer- Member

Next County Committee Meeting: July 9, 1:30PM

CED Notes

With planting finishing up, it is time to file your acreage reports with our office and your crop insurance agent. If you choose to report to crop insurance first, remember you will still need to report any uninsured crops to FSA. We require a crop report on all cropland acres to be eligible for farm program benefits. With the new farm bill programs coming this fall it is very important to file your complete report by the **July 15**, deadline to ensure compliance with program provisions. We will be having office days in Lovell on Tuesday and Thursday starting June 25 and going through July 11. If you would like to meet with us there, please contact our office to set up an appointment since we will have to bring all the files with us.

It's time to start thinking about our County Committee election process. We are accepting nominations for Local Administrative Area (LAA): 2 which covers all ground west of the Big Horn River, south of sheep mountain, including all land south of Manderson to the Washakie County line. Nominations will be accepted in our office until August 1, 2019. This LAA is currently represented by Michael Rasmussen. If you or your neighbor would be interested in running for the committee stop by our office and complete a nomination form prior to the deadline.

Wishing everyone a successful year and good weather. As always, we are here to serve your agricultural needs, please feel free to stop by or call our office at any time.

New Improvement to Streamline Crop Reporting

Update Lets Farmers and Ranchers Report Common Acreage Information Once

Farmers and ranchers filing crop acreage reports with the Farm Service Agency (FSA) and participating insurance providers approved by the Risk Management Agency (RMA) now can provide the common information from their acreage reports at one office and the information will be electronically shared with the other location.

This new process is part of the USDA Acreage Crop Reporting Streamlining Initiative (ACRSI). This interagency collaboration also includes participating private crop insurance agents and insurance companies, all working to streamline the information collected from farmers and ranchers who participate in USDA programs.

Once filing at one location, data that's important to both FSA and RMA will be securely and electronically shared with the other location avoiding redundant and duplicative reporting, as well as saving farmers and ranchers time.

Producers must still visit both their local FSA office and their insurance provider to validate and sign acreage reports, complete maps, or provide program-specific information, including reporting uninsured crops to FSA. The common data from the first-filed acreage report will now be available to pre-populate and accelerate completion of the second report.

USDA has been working to streamline the crop reporting process for agricultural producers, who have expressed concerns with providing the same basic common information for multiple locations. In 2013, USDA consolidated the deadlines to 15 dates for submitting these reports, down from the previous 54 dates at RMA and 17 dates for FSA. USDA representatives believe farmers and ranchers will experience a notable improvement in the coming weeks as they approach the peak season for crop reporting later this summer.

More than 93 percent of all annual reported acres to FSA and RMA now are eligible for the common data reporting, and USDA is exploring adding more crops. Plans are underway at USDA to continue building upon the framework with additional efficiencies at a future date.

Farmers and ranchers are also reminded that they can now access their FSA farm information from the convenience of their home computer. Producers can see field boundaries, images of the farm, conservation status, operator and owner information and much more.

The new customer self-service portal, known as **FSAFarm+**, gives farmers and ranchers online access to securely view, print or export their personal farm data. To enroll in the online service, producers are encouraged to contact their local FSA office for details. To find a local FSA office in your area, visit <http://offices.usda.gov>.

Eligibility for Nominations for the 2019 County Committee Elections

The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) county committees are a critical component of the day-to-day operations of FSA and allow grassroots input and local administration of federal farm programs.

Committees are comprised of locally elected agricultural producers responsible for the fair and equitable administration of FSA farm programs in their counties. Committee members are accountable to the Secretary

of Agriculture. If elected, members become part of a local decision making and farm program delivery process.

A county committee is composed of three to 11 elected members from local administrative areas (LAA). Each member serves a three-year term. To be eligible for nomination and hold office as a committee member or alternate, a person must fulfill each of the following requirements: (1) be a producer with an interest in farming or ranching operations, (2) participate or cooperate in any FSA program provided for by law, (3) be a U.S. citizen, (4) be of legal voting age, (5) meet the basic eligibility requirements, and (6) reside in the county or multi-county jurisdiction in which they will be serving.

All nomination forms for the 2019 election must be postmarked or received in the local USDA service center by Aug. 1, 2019. For more information on FSA county committee elections and appointments, refer to the FSA fact sheet: *Eligibility to Vote and Hold Office as a COC Member* available online at: fsa.usda.gov/elections.

Farm Storage Facility Loans

FSA's Farm Storage Facility Loan (FSFL) program provides low-interest financing to producers to build or upgrade storage facilities and to purchase portable (new or used) structures, equipment and storage and handling trucks.

The low-interest funds can be used to build or upgrade permanent facilities to store commodities. Eligible commodities include corn, grain sorghum, rice, soybeans, oats, peanuts, wheat, barley, minor oilseeds harvested as whole grain, pulse crops (lentils, chickpeas and dry peas), hay, honey, renewable biomass, fruits, nuts and vegetables for cold storage facilities, floriculture, hops, maple sap, rye, milk, cheese, butter, yogurt, meat and poultry (unprocessed), eggs, and aquaculture (excluding systems that maintain live animals through uptake and discharge of water). Qualified facilities include grain bins, hay barns and cold storage facilities for eligible commodities.

Loans up to \$50,000 can be secured by a promissory note/security agreement and loans between \$50,000 and \$100,000 may require additional security. Loans exceeding \$100,000 require additional security.

Producers do not need to demonstrate the lack of commercial credit availability to apply. The loans are designed to assist a diverse range of farming operations, including small and mid-sized businesses, new farmers, operations supplying local food and farmers markets, non-traditional farm products, and underserved producers.

To learn more about the FSA Farm Storage Facility Loan, visit www.fsa.usda.gov/pricesupport or contact your local FSA county office. To find your local FSA county office, visit <http://offices.usda.gov>.

Persons with disabilities who require accommodations to attend or participate in this meeting should contact Brenda Miller at 307-765-2689 extension 2 or Federal Relay Service at 1-800-877-8339.
