## **Natrona and Converse County Farm Service Agency Announces County Committee Election Results**

Natrona and Converse County U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) announced that County Committee elections are over and the ballots have been counted.

William Kossert of Natrona was elected to represent local administrative area (LAA) 1 and Lee Moore of Converse was elected to represent local administrative area (LAA) 5.

Patrick Rodgers of Natrona will serve as the first alternate.

County committee members are a critical component of the day-to-day operations of FSA. They help deliver programs at the county level and work to serve the needs of local producers. All recently elected county committee members will take office in January 2020 and will be joining the existing committee. Every FSA office is required to have a county committee, and they are made up of local farmers, ranchers and foresters who are elected by local producers.

Nearly 7,800 FSA county committee members serve FSA offices nationwide. Each committee has three to 11 elected members who serve three-year terms of office. One-third of county committee seats are up for election each year. County committee members impact the administration of FSA within a

**Next County Committee Meeting: Jan 28, 2020 Time:1:00pm**

community by applying their knowledge and judgment to help FSA make important decisions on its commodity support programs, conservation programs, indemnity and disaster programs, emergency programs and eligibility.

County committee members impact producers through their decision making and help shape the culture of a local FSA office. They also ensure the fair and equitable administration of FSA farm programs in their counties and are accountable to the Secretary of Agriculture. Members conduct hearings and reviews as requested by the state committee, ensure underserved farmers, ranchers and foresters are fairly represented, make recommendations to the state committee on existing programs, monitor changes in farm programs and inform farmers of the purpose and provisions of FSA programs. They also assist with outreach and inform underserved producers such as beginning farmers, ranchers and foresters, about FSA opportunities.

For more information, visit the FSA website at [fsa.usda.gov/elections](https://fsa.usda.gov/elections) or contact the Natrona and Converse County FSA office at 307-261-5436.

## 2019 Acreage Reporting Dates

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit their local FSA office to file an accurate crop certification report by the applicable deadline.

Acreage reporting dates vary by crop and by county so please contact your local FSA office for a list of county-specific deadlines.

The following exceptions apply to acreage reporting dates:

- If the crop has not been planted by the applicable acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.
- If a producer acquires additional acreage after the applicable acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.
- If a perennial forage crop is reported with the intended use of "cover only," "green manure," "left standing," or "seed," then the acreage must be reported by July 15th.

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the applicable dates or 15 calendar days before grazing or harvesting of the crop begins.

For questions regarding crop certification and crop loss reports, please contact your local FSA office

---

## Submit Loan Requests for Financing Early

The Farm Loan team in Goshen County is already working on operating loans for spring 2020 so it is important that potential borrowers submit their requests early so they can be timely processed. The farm loan team can help determine which loan programs are best for applicants.

FSA offers a wide range of low-interest loans that can meet the financial needs of any farm operation for just about any purpose. The traditional **farm operating and farm ownership loans** can help large and small farm operations take advantage of early purchasing discounts for spring inputs as well expenses throughout the year.

**Microloans** are a simplified loan program that will provide up to \$50,000 for both Farm Ownership and Operating Microloans to eligible applicants. These loans, targeted for smaller operations and non-traditional operations, can be used for operating expenses, starting a new agricultural enterprise, purchasing equipment, and other needs associated with a farming operation. The staff at the Goshen County FSA office can provide more details on farm operating and microloans and provide loan applications. Loans to beginning farmers and members of underserved groups are a priority. Other types of loans available include:

**Marketing Assistance Loans** allow producers to use eligible commodities as loan collateral and obtain a 9-month loan while the crop is in storage. These loans provide cash flow to the producer and allow them to market the crop when prices may be more advantageous.

**Farm Storage Facility Loans** can be used to build permanent structures used to store eligible commodities, or for storage and handling trucks, or portable or permanent handling equipment. A variety of structures are eligible under this loan, including bunker silos, grain bins, hay storage structures and refrigerated structures for vegetables and fruit. A producer may borrow up to \$500,000 per loan.

Please call the Goshen County office if you have questions about any of the loans available through FSA.
