### Farmers and Ranchers in Wyoming Can Now Apply for Financial Assistance through USDA's Coronavirus Food Assistance Program

*Online Tools and Toll-Free Number Available to Assist Producers*

Agricultural producers can now apply for USDA's Coronavirus Food Assistance Program (CFAP), which provides direct payments to offset impacts from the coronavirus pandemic. The application and a payment calculator are now available online, and USDA's Farm Service Agency (FSA) staff members are available via phone, fax and online tools to help producers complete applications. The agency set up a call center in order to simplify how they serve new customers across the nation.

Applications will be accepted through August 28, 2020. Through CFAP, USDA is making available \$16 billion for vital financial assistance to producers of agricultural commodities who have

Ronald Givens - Member

To find contact information for your local office go to [www.fsa.usda.gov/wy](http://www.fsa.usda.gov/wy)

suffered a five-percent-or-greater price decline due to COVID-19 and face additional significant marketing costs as a result of lower demand, surplus production, and disruptions to shipping patterns and the orderly marketing of commodities.

We also want to remind producers that the program is structured to ensure the availability of funding for all eligible producers who apply.

In order to do this, producers will receive 80 percent of their maximum total payment upon approval of the application. The remaining portion of the payment, not to exceed the payment limit, will be paid at a later date nationwide, as funds remain available.

Producers can download the CFAP application and other eligibility forms from [farmers.gov/cfap](http://farmers.gov/cfap). Also, on that webpage, producers can find a payment calculator to help identify sales and inventory records needed to apply and calculate potential payments.

Additionally, producers in search of one-on-one support with the CFAP application process can call 877-508-8364 to speak directly with a USDA employee ready to offer assistance. This is a good first step before a producer engages the team at the FSA county office at their local USDA Service Center.

### **Applying for Assistance**

Producers of all eligible commodities will apply through their local FSA office. Those who use the online calculator tool will be able to print off a pre-filled CFAP application, sign, and submit to your local FSA office either electronically or via hand delivery. Please contact your local office to determine the preferred method. Find contact information for your local office at [farmers.gov/cfap](http://farmers.gov/cfap).

Documentation to support the producer's application and certification may be requested after the application is filed. FSA has streamlined the signup process to not require an acreage report at the time of application and a USDA farm number may not be immediately needed.

### **Additional Commodities**

USDA is also establishing a process for the public to identify additional commodities for potential inclusion in CFAP. Specifically, USDA is looking for data on agricultural commodities, that are not currently eligible for CFAP, that the public believes to have either:

1. suffered a five percent-or-greater price decline between mid-January and mid-April as a result of the COVID-19 pandemic,
2. shipped but subsequently spoiled due to loss of marketing channel, or

3. not left the farm or remained unharvested as mature crops.

More information about this process is available on [farmers.gov/cfap](https://farmers.gov/cfap).

#### **More Information**

To find the latest information on CFAP, visit [farmers.gov/cfap](https://farmers.gov/cfap) or call 877-508-8364.

USDA Service Centers are open for business by phone appointment only, and field work will continue with appropriate social distancing. While program delivery staff will continue to come into the office, they will be working with producers by phone and using online tools whenever possible. All Service Center visitors wishing to conduct business with the FSA, Natural Resources Conservation Service, or any other Service Center agency are required to call their Service Center to schedule a phone appointment. More information can be found at [farmers.gov/coronavirus](https://farmers.gov/coronavirus).

## **USDA Announces Loan Maturity for Marketing Assistance Loans Now Extended to 12 Months**

Agricultural producers now have more time to repay Marketing Assistance Loans (MAL) as part of the U.S. Department of Agriculture's implementation of the Coronavirus Aid, Relief, and Economic Security (CARES) Act of 2020. The loans now mature at 12 months rather than nine, and this flexibility is available for most commodities.

Effective immediately, producers of eligible commodities now have up to 12 months to repay their commodity loans. The maturity extension applies to nonrecourse loans for crop years 2018, 2019 and 2020. Eligible open loans must in good standing with a maturity date of March 31, 2020, or later or new crop year (2019 or 2020) loans requested by September 30, 2020. All new loans requested by September 30, 2020, will have a maturity date 12 months following the date of approval.

The maturity extension for current, active loans will be automatically extended an additional 3 months. Loans that matured March 31 have already been automatically extended by USDA's Farm Service Agency (FSA). Producers who prefer a nine-month loan will need to contact their local FSA county office. Loans requested after September 30, 2020, will have a term of nine months.

Eligible commodities include barley, chickpeas (small and large), corn, cotton (upland and extra-long staple), dry peas, grain sorghum, honey, lentils, mohair, oats, peanuts, rice (long and medium grain), soybeans, unshorn pelts, wheat, wool (graded and nongraded); and other oilseeds, including canola, crambe, flaxseed, mustard seed, rapeseed, safflower, sunflower seed, and sesame seed. Seed cotton and sugar are not eligible.

## About MALs

Placing commodities under loan provides producers interim financing to meet cash flow needs without having to sell their commodities when market prices are low and allows producers to store production for more orderly marketing of commodities throughout the year.

These loans are considered nonrecourse because the commodity is pledged as loan collateral, and producers have the option of delivering the pledged collateral to the Commodity Credit Corporation (CCC) for repayment of the outstanding loan at maturity.

## MAL Repayment

Under the new maturity provisions, producers can still repay the loan as they would have before the extension:

- repay the MAL on or before the maturity date;
- upon maturity by delivering or forfeiting the commodity to CCC as loan repayment; or
- after maturity and before CCC acquires the farm-stored commodity by repaying the outstanding MAL principle and interest.

## Marketing Loan Gains

A Marketing Loan Gain occurs when a MAL is repaid at less than the loan principal. If market gain is applicable during the now-extended loan period, producers can receive a gain on the repayment made before the loan matures.

For more information on MALs, contact the nearest FSA county office. USDA Service Centers, including FSA county offices, are open for business by phone appointment only, and field work will continue with appropriate social distancing. While program delivery staff will continue to come into the office, they will be working with producers by phone and using online tools whenever possible. All Service Center visitors wishing to conduct business with the FSA, Natural Resources Conservation Service, or any other Service Center agency are required to call their Service Center to schedule a phone appointment. More information can be found at [farmers.gov/coronavirus](https://farmers.gov/coronavirus).

## USDA Reports Record Enrollment in Key Farm Safety-Net Programs

Producers signed a record 1.77 million contracts for the U.S. Department of Agriculture's Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) programs for the 2019 crop year, which is more than 107 percent of the total contracts signed compared with a 5-year average. USDA also reminds producers that June 30 is the deadline to enroll in ARC and PLC for the 2020 crop year.

Producers interested in enrolling for 2020 should contact their FSA county office. Producers must enroll by June 30 and make their one-time update to PLC payment yields by September 30.

FSA attributes the significant participation in the 2019 crop year ARC and PLC programs to increased producer interest in the programs under the 2018 Farm Bill and to an increase in eligible farms because of the selling and buying of farms and new opportunities for beginning farmers and military veterans with farms having 10 or fewer base acres. Enrollment for 2019 ended March 16.

USDA Service Centers, including FSA county offices, are open for business by phone only, and field work will continue with appropriate social distancing. While program delivery staff will continue to come into the office, they will be working with producers by phone and using online tools whenever possible. All Service Center visitors wishing to conduct business with the FSA, Natural Resources Conservation Service or any other Service Center agency are required to call their Service Center to schedule a phone appointment. More information can be found at [farmers.gov/coronavirus](https://farmers.gov/coronavirus).

For more information on ARC and PLC, download the [program fact sheet](#) or the [2014-2018 farm bills comparison fact sheet](#). Online ARC and PLC election decision tools are available at [www.fsa.usda.gov/arc-plc](http://www.fsa.usda.gov/arc-plc). To locate the nearest USDA Service Center, visit [farmers.gov/service-center-locator](https://farmers.gov/service-center-locator).

## FSA Reminds Producers of Ongoing Disaster Assistance Program Signup

The U.S. Department of Agriculture (USDA) has started making payments through the Wildfire and Hurricane Indemnity Program – Plus (WHIP+) to agricultural producers who suffered eligible losses because of drought or excess moisture in 2018 and 2019. Signup for these causes of loss opened March 23, and producers who suffered losses from drought (in counties designated D3 or above), excess moisture, hurricanes, floods, tornadoes, typhoons, volcanic activity, snowstorms or wildfires can still apply for assistance through WHIP+.

To be eligible for WHIP+, producers must have suffered losses of certain crops, trees, bushes or vines in counties with a Presidential Emergency Disaster Declaration or a Secretarial Disaster Designation (primary counties only) for qualifying natural disaster events that occurred in calendar years 2018 or 2019. Also, losses located in a county not designated by the Secretary as a primary county may be eligible if a producer provides documentation showing that the loss was due to a qualifying natural disaster event.

For losses due to drought, a producer is eligible if any area of the county in which the loss occurred was rated D3, or extreme drought, or higher on the U.S. Drought Monitor during calendar years 2018 or 2019. Producers who suffered losses should contact their FSA county office.

In addition to the recently added eligible losses of drought and excess moisture, FSA will implement a WHIP+ provision for crop quality loss that resulted in price deductions or penalties when marketing crops damaged by eligible disaster events. To ensure an effective program for all impacted farmers, the Agency is currently gathering information on the extent of quality loss from producers and stakeholder organizations.

USDA Service Centers, including FSA county offices, are open for business by phone only, and field work will continue with appropriate social distancing. While program delivery staff will continue to come into the office, they will be working with producers by phone and using online tools whenever possible. All Service Center visitors wishing to conduct business with the FSA, Natural Resources Conservation Service or any other Service Center agency are required to call their Service Center to schedule a phone appointment. More information on Service Centers can be found at [farmers.gov/coronavirus](https://farmers.gov/coronavirus), and more information on WHIP+ can be found at [farmers.gov/whip-plus](https://farmers.gov/whip-plus).

## New Farmers.gov Feature Helps Producers Find Farm Loans that Fit Their Operation

A new online tool can help farmers and ranchers find information on U.S. Department of Agriculture (USDA) farm loans that may best fit their operations. USDA has launched the new *Farm Loan Discovery Tool* as the newest feature on farmers.gov, the Department's self-service website for farmers.

USDA's Farm Service Agency (FSA) offers a variety of loan options to help farmers finance their operations. From buying land to financing the purchase of equipment, FSA loans can help. Compared to this time last year, FSA has seen an 18 percent increase in the amount it has obligated for direct farm ownership loans, and through the 2018 Farm Bill, has [increased the limits](#) for several loan products.

USDA conducted field research in eight states, gathering input from farmers and FSA farm loan staff to better understand their needs and challenges.

### How the Tool Works

Farmers who are looking for financing options to operate a farm or buy land can answer a few simple questions about what they are looking to fund and how much money they need to borrow. After submitting their answers, farmers will be provided information on farm loans that best fit their specific needs. The loan application and additional resources also will be provided.

Farmers can download application quick guides that outline what to expect from preparing an application to receiving a loan decision. There are four guides that cover loans to individuals, entities, and youth, as well as information on microloans. The guides include general eligibility requirements and a list of required forms and documentation for each type of loan. These guides can help farmers prepare before their first USDA service center visit with a loan officer.

Farmers can access the *Farm Loan Discovery Tool* by visiting [farmers.gov/fund](https://farmers.gov/fund) and clicking the "Start" button. Follow the prompts and answer five simple questions to receive loan information that is applicable to your agricultural operation. The tool is built to run on any modern browser like Chrome, Edge, Firefox, or the Safari browser, and is fully functional on mobile devices. It does not work in Internet Explorer.

### About Farmers.gov

In 2018, USDA unveiled farmers.gov, a dynamic, mobile-friendly public website combined with an authenticated portal where farmers will be able to apply for programs, process transactions, and manage accounts.

The *Farm Loan Discovery Tool* is one of many resources on farmers.gov to help connect farmers to information that can help their operations. Earlier this year, USDA launched the *My Financial Information* feature, which enables farmers to view their loan information, history, payments, and alerts by logging into the website.

USDA is building farmers.gov for farmers, by farmers. In addition to the interactive farm loan features, the site also offers a Disaster Assistance Discovery Tool. Farmers can visit

[farmers.gov/recover/disaster-assistance-tool#step-1](https://farmers.gov/recover/disaster-assistance-tool#step-1) to find disaster assistance programs that can help their operation recover from natural disasters.

With feedback from customers and field employees who serve those customers, farmers.gov delivers farmer-focused features through an agile, iterative process to deliver the greatest immediate value to America's agricultural producers – helping farmers and ranchers do right, and feed everyone.

For more information or to locate your USDA Service Center, visit [farmers.gov](https://farmers.gov).

---

## Maintaining Good Credit History

Farm Service Agency (FSA) Farm Loan programs require that applicants have a satisfactory credit history. A credit report is requested for all FSA direct farm loan applicants. These reports are reviewed to verify outstanding debts, if bills are paid timely and to determine the impact on cash flow.

Information found on a customer's credit report is strictly confidential and is used only as an aid in conducting FSA business.

Our farm loan staff will discuss options with you if you have an unfavorable credit report and will provide a copy of your report. If you dispute the accuracy of the information on the credit report, it is up to you to contact the issuing credit report company to resolve any errors or inaccuracies.

There are multiple ways to remedy an unfavorable credit score.

- Make sure to pay bills on time. Setting up automatic payments or automated reminders can be an effective way to remember payment due dates.
- Pay down existing debt.
- Keep your credit card balances low.
- Avoid suddenly opening or closing existing credit accounts.

FSA's farm loan staff will guide you through the process, which may require you to reapply for a loan after improving or correcting your credit report.

For more information on FSA farm loan programs, visit [fsa.usda.gov](https://fsa.usda.gov).
