Mary Ann Boles, Member
Robin Carter, Member

Next County Committee Meeting: TBD

From the CED

Greetings Carbon and Albany county customers!

Wow, we are more than halfway through February! The days are getting longer, and spring is right around the corner. As everyone will be getting busy with calving and lambing soon, I would like to take this opportunity to remind you of available programs and upcoming deadlines.

February 28th, the final deadline to submit a Conservation Reserve program (CRP) general offer for this year's signup.

March 1st, the final date to submit your application for payment for 2019 Livestock Indemnity Program (LIP) livestock losses.

March 15th, final day to make a 2019 election for the Agricultural Risk Coverage/Price Loss Coverage (ARC/PLC) program. Please do not let these program deadlines slip if you have base acres.

Sheep producers, please be aware that there is currently a \$0.02/pound Loan Deficiency Payment (LDP) for ungraded wool right now and if your micros test 29 or higher, there is a \$0.06/pound payment. Please contact the office to sign the page 1 of form CCC-633EZ prior to loss of beneficial interest in your wool. For most of you, beneficial interest is lost at shearing. Once you have delivered your wool to market or have a weight, we can complete your LDP application for payment, if there is still a payment in effect. More detailed information can be found in this bulletin.

Lastly, you must file a Notice of Loss for livestock losses under the Livestock Indemnity Program (LIP) and/or additional feed purchases under the Emergency Livestock Assistance Program (ELAP) within 30 days of knowing that you have a loss or additional feed expenses resulting from an eligible weather event. You must also file a Notice of Loss under the Non-Insurable Assistance Program (NAP) within 15 days of knowing you have a loss due to an eligible weather event.

Best wishes for a successful calving and lambing season!

Sheryl Hunter

County Executive Director

Wool Triggers Loan Deficiency payment in Carbon and Albany Counties

The 2018 Farm Bill extends loan authority through 2023 for Marketing Assistance Loans (MALs) and Loan Deficiency Payments (LDPs).

MALs and LDPs provide financing and marketing assistance for wheat, feed grains, soybeans, and other oilseeds, pulse crops, rice, peanuts, cotton, wool and honey. MALs provide producers interim financing after harvest to help them meet cash flow needs without having to sell their commodities when market prices are typically at harvest-time lows. A producer who is eligible to obtain a loan, but agrees to forgo the loan, may obtain an LDP if such a payment is available. Marketing loan provisions and LDPs are not available for sugar and extra-long staple cotton.

FSA is now accepting requests for 2019 MALs and LDPs for all eligible commodities after harvest. Requests for loans and LDPs shall be made on or before the final availability date for the respective commodities.

Commodity certificates are available to loan holders who have outstanding nonrecourse loans for wheat, upland cotton, rice, feed grains, pulse crops (dry peas, lentils, large and small chickpeas), peanuts, wool, soybeans and designated minor oilseeds. These certificates can be purchased at the posted county price (or adjusted world price or national posted price) for the quantity of commodity under loan, and must be immediately exchanged for the collateral, satisfying the loan. MALs redeemed with commodity certificates are not subject to Adjusted Gross Income provisions.

Marketing assistance loans are available for the following commodities: wheat, corn, grain sorghum, barley, oats, upland cotton, extra-long staple cotton, long grain rice, medium grain rice, soybeans and other oilseeds (including sunflower seed, rapeseed, canola, safflower, flaxseed, mustard seed, crambe and sesame seed), dry peas, lentils, small chickpeas, large chickpeas, graded and non-graded wool, mohair, unshorn pelts, honey and peanuts.

Producers who are eligible for marketing loans, but choose to forgo the loan, are eligible for LDPs if the posted county price falls below the county loan rate. Producers also can purchase a commodity certificate that may be exchanged for the outstanding loan collateral. Producers can check their daily LDP rates online at fsa.usda.gov

To be considered eligible for an LDP, producers must have form [CCC-633EZ, Page 1](#) on file at their local FSA Office before losing beneficial interest in the crop. Pages 2, 3 or 4 of the form must be submitted when payment is requested.

Marketing loan gains (MLGs) and loan deficiency payments (LDPs) are no longer subject to payment limitations, actively engaged in farming and cash-rent tenant rules.

Adjusted Gross Income (AGI) provisions state that a producer whose total applicable three-year average AGI exceeds \$900,000 is not eligible to receive an MLG or LDP. Producers must have a valid CCC-941 on file to earn a market gain of LDP. The AGI does not apply to MALs redeemed with commodity certificate exchange.

For more information and additional eligibility requirements, please visit a nearby USDA Service Center or FSA's website fsa.usda.gov.

New Farmers.gov Feature Helps Producers Find Farm Loans that Fit Their Operation

A new online tool can help farmers and ranchers find information on U.S. Department of Agriculture (USDA) farm loans that may best fit their operations. USDA has launched the new *Farm Loan Discovery Tool* as the newest feature on farmers.gov, the Department's self-service website for farmers. USDA's Farm Service Agency (FSA) offers a variety of loan options to help farmers finance their operations. From buying land to financing the purchase of equipment, FSA loans can help. Compared to this time last year, FSA has seen an 18 percent increase in the amount it has obligated for direct farm ownership loans, and through the 2018 Farm Bill, has [increased the limits](#) for several loan products.

USDA conducted field research in eight states, gathering input from farmers and FSA farm loan staff to better understand their needs and challenges.

How the Tool Works

Farmers who are looking for financing options to operate a farm or buy land can answer a few simple questions about what they are looking to fund and how much money they need to borrow. After submitting their answers, farmers will be provided information on farm loans that best fit their specific needs. The loan application and additional resources also will be provided.

Farmers can download application quick guides that outline what to expect from preparing an application to receiving a loan decision. There are four guides that cover loans to individuals, entities, and youth, as well as information on microloans. The guides include general eligibility requirements and a list of required forms and documentation for each type of loan. These guides can help farmers prepare before their first USDA service center visit with a loan officer.

Farmers can access the *Farm Loan Discovery Tool* by visiting farmers.gov/fund and clicking the "Start" button. Follow the prompts and answer five simple questions to receive loan information that is applicable to your agricultural operation. The tool is built to run on any modern browser like Chrome, Edge, Firefox, or the Safari browser, and is fully functional on mobile devices. It does not work in Internet Explorer.

About Farmers.gov

In 2018, USDA unveiled farmers.gov, a dynamic, mobile-friendly public website combined with an authenticated portal where farmers will be able to apply for programs, process transactions, and manage accounts.

The *Farm Loan Discovery Tool* is one of many resources on farmers.gov to help connect farmers to information that can help their operations. Earlier this year, USDA launched the *My Financial Information* feature, which enables farmers to view their loan information, history, payments, and alerts by logging into the website.

USDA is building farmers.gov for farmers, by farmers. In addition to the interactive farm loan features, the site also offers a Disaster Assistance Discovery Tool. Farmers can visit farmers.gov/recover/disaster-assistance-tool/#step-1 to find disaster assistance programs that can help their operation recover from natural disasters.

With feedback from customers and field employees who serve those customers, farmers.gov delivers farmer-focused features through an agile, iterative process to deliver the greatest immediate value to America's agricultural producers – helping farmers and ranchers do right, and feed everyone.

Persons with disabilities who require accommodations to attend or participate in this meeting should contact Sheryl Hunter at 307-326-5657 extension 2 or Federal Relay Service at 1-800-877-8339.
