Laramie County Comments

Happy May Laramie County Farmers and Ranchers!

The office remains open for appointments by phone only. We are also available by email. More information is listed in below article.

Please let us know when you are done planting all your spring crops, so that we can complete your crop acreage reports for the 2020 crop year. With coronavirus measures in place; we ask for extra patience as we navigate this new route of completing them. Please see below article and/or call the office for more information or to start the process.

2020 ARC/PLC sign up is ongoing-please contact the office to finish signing up by June 30, 2020.

Please contact the office if you have any NAP crop losses within 15 days of when the loss is apparent. If you have any livestock losses; please contact the office within 30 days.

For any producers who are anticipating signing up for the Coronavirus Food Assistance Program (CFAP). Please contact the office to make sure we have your eligibility paperwork in place. This will help make the signup process go faster and smoother for both you and the office.

USDA Reminds Producers to Complete Crop Acreage Reports

The Laramie County office for USDA's Farm Service Agency (FSA) is currently open to phone and virtual appointments only but can still work with producers on timely filing crop acreage reports. FSA staff can provide assistance over the phone, by email and through virtual meetings via Microsoft Teams.

The following acreage reporting dates are applicable for Laramie County:

July 15, 2020 All spring crops, CRP, and grass.

In order to comply with FSA program eligibility requirements, all producers must file an accurate crop acreage report by the applicable deadline. FSA staff is still able to assist producers in completing acreage reports, including providing maps.

The Laramie County FSA office will provide maps to producers through mail or email with instructions for completing the maps. After planting is complete, producers should return completed maps and the acreage reporting sheet by mail or email by July.

The Laramie County FSA office is using Microsoft Teams software to virtually meet with producers to review maps and documents for certification. Producers who want to schedule a virtual appointment can download the Microsoft Teams app on their smart phones and call the FSA office for an appointment. You can also use Microsoft Teams from your personal computer without downloading software.

After completed maps and all acreage reporting information is received, FSA will make software updates and mail or email producers the completed *Report of Acreage* form (FSA-578) to sign. Producers must return the signed form certifying their acreage report to the FSA office through mail or email by July 15th.

The following exceptions apply to acreage reporting dates:

- If the crop has not been planted by the acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.
- If a producer acquires additional acreage after the acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.

Producers should also report crop acreage they intended to plant, but due to natural disaster, were unable to plant. Prevented planting acreage must be reported on form CCC-576, Notice of Loss, no later than 15 calendar days after the final planting date as established by FSA and USDA's Risk Management Agency.

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP-covered crops is the earlier of the dates listed above or 15 calendar days before grazing or harvesting of the crop begins. For questions, please contact FSA's Laramie County office at 307-772-2314 ext. 2.

USDA Service Centers Open for Business by Phone Appointment Only

U.S. Department of Agriculture Service Centers are encouraging visitors to take precautionary measures to help prevent the spread of coronavirus.

The Laramie County USDA Service Center will continue to be open for business by phone appointment only and field work will continue with appropriate social distancing. While our program delivery staff will continue to come into the office, they will be working with our producers by phone, and using online tools whenever possible. All Service Center visitors wishing to conduct business with the Farm Service Agency, Natural Resources Conservation Service, or any other Service Center agency are required to call to schedule a phone appointment.

Farm Service Agency: 307-772-2314 extension 2

Natural Resources Conservation Service: 307-772-2314 extension 3

Employees may also be contacted by email at:

robin.hudson@usda.gov
sarah.marquardt@usda.gov
karla.warren@usda.gov
catelyn.cornils@usda.gov

Online services are available to customers with an eAuth account, which provides access to the farmers.gov portal where producers can view USDA farm loan information and payments and view and track certain USDA program applications and payments. Online NRCS services are available to customers through the [Conservation Client Gateway](#). Customers can track payments, report completed practices, request conservation assistance, and electronically sign documents. Customers who do not already have an eAuth account can enroll at farmers.gov/sign-in.

For the most current updates on available services and Service Center status visit farmers.gov/coronavirus.

New Farmers.gov Feature Helps Producers Find Farm Loans that Fit Their Operation

A new online tool can help farmers and ranchers find information on U.S. Department of Agriculture (USDA) farm loans that may best fit their operations. USDA has launched the new *Farm Loan Discovery Tool* as the newest feature on farmers.gov, the Department's self-service website for farmers.

USDA's Farm Service Agency (FSA) offers a variety of loan options to help farmers finance their operations. From buying land to financing the purchase of equipment, FSA loans can help. Compared to this time last year, FSA has seen an 18 percent increase in the amount it has obligated for direct farm ownership loans, and through the 2018 Farm Bill, has [increased the limits](#) for several loan products.

USDA conducted field research in eight states, gathering input from farmers and FSA farm loan staff to better understand their needs and challenges.

How the Tool Works

Farmers who are looking for financing options to operate a farm or buy land can answer a few simple questions about what they are looking to fund and how much money they need to borrow. After submitting

their answers, farmers will be provided information on farm loans that best fit their specific needs. The loan application and additional resources also will be provided.

Farmers can download application quick guides that outline what to expect from preparing an application to receiving a loan decision. There are four guides that cover loans to individuals, entities, and youth, as well as information on microloans. The guides include general eligibility requirements and a list of required forms and documentation for each type of loan. These guides can help farmers prepare before their first USDA service center visit with a loan officer.

Farmers can access the *Farm Loan Discovery Tool* by visiting farmers.gov/fund and clicking the “Start” button. Follow the prompts and answer five simple questions to receive loan information that is applicable to your agricultural operation. The tool is built to run on any modern browser like Chrome, Edge, Firefox, or the Safari browser, and is fully functional on mobile devices. It does not work in Internet Explorer.

About Farmers.gov

In 2018, USDA unveiled farmers.gov, a dynamic, mobile-friendly public website combined with an authenticated portal where farmers will be able to apply for programs, process transactions, and manage accounts.

The *Farm Loan Discovery Tool* is one of many resources on farmers.gov to help connect farmers to information that can help their operations. Earlier this year, USDA launched the *My Financial Information* feature, which enables farmers to view their loan information, history, payments, and alerts by logging into the website.

USDA is building farmers.gov for farmers, by farmers. In addition to the interactive farm loan features, the site also offers a Disaster Assistance Discovery Tool. Farmers can visit farmers.gov/recover/disaster-assistance-tool/#step-1 to find disaster assistance programs that can help their operation recover from natural disasters.

With feedback from customers and field employees who serve those customers, farmers.gov delivers farmer-focused features through an agile, iterative process to deliver the greatest immediate value to America’s agricultural producers – helping farmers and ranchers do right, and feed everyone.

For more information or to locate your USDA Service Center, visit farmers.gov.

Persons with disabilities who require accommodations to attend or participate in this meeting should contact [Robin Hudson](#) at [307-772-2314](tel:307-772-2314) extension 2 or Federal Relay Service at 1-800-877-8339.
