USDA Offers Disaster Assistance for Producers Facing Inclement Weather

Severe weather events create significant challenges and often result in catastrophic loss for agricultural producers. Despite every attempt to mitigate risk, your operation may suffer losses. USDA offers several programs to help with recovery.

Risk Management

For producers who have risk protection through Federal Crop Insurance or the Noninsured Crop Disaster Assistance Program (NAP), we want to remind you to report crop damage to your crop insurance agent or the local Farm Service Agency (FSA) office.

If you have crop insurance, contact your agency within 72 hours of discovering damage and be sure to follow up in writing within 15 days. If you have NAP coverage, file a Notice of Loss (also called Form CCC-576) within 15 days of loss becoming apparent, except for hand-harvested crops, which should be reported within 72 hours.

Disaster Assistance

USDA also offers disaster assistance programs, which is especially important to livestock, fruit and vegetable, specialty and perennial crop producers who have fewer risk management options.

First, the Livestock Indemnity Program (LIP) and Emergency Assistance for Livestock, Honeybee and Farm-raised Fish Program (ELAP) reimburses producers for a portion of the value of livestock, poultry and other animals that died as a result of a qualifying natural disaster event or for loss of grazing acres, feed and forage. And, the Livestock Forage Disaster Program (LFP) provides assistance to producers of grazed forage crop acres that have suffered crop loss due to a qualifying drought. Livestock producers suffering the impacts of drought can also request Emergency Haying and Grazing on Conservation Reserve Program (CRP) acres.

Next, the Tree Assistance Program (TAP) provides cost share assistance to rehabilitate and replant tree, vines or shrubs loss experienced by orchards and nurseries. This complements NAP or crop insurance coverage, which cover the crop but not the plants or trees in all cases.

For LIP and ELAP, you will need to file a Notice of Loss for livestock and grazing or feed losses within 30 days and honeybee losses within 15 days. For TAP, you will need to file a program application within 90 days.

Documentation
It’s critical to keep accurate records to document all losses following this devastating cold weather event. Livestock producers are advised to document beginning livestock numbers by taking time and date-stamped video or pictures prior to after the loss.

Other common documentation options include:

- Purchase records
- Production records
- Vaccination records
- Bank or other loan documents
- Third-party certification

**Other Programs**

The [Emergency Conservation Program](https://www.fsa.usda.gov/emergencywarm) and [Emergency Forest Restoration Program](https://www.fsa.usda.gov/emergencywarm) can assist landowners and forest stewards with financial and technical assistance to restore damaged farmland or forests.

Additionally, FSA offers a variety of loans available including emergency loans that are triggered by disaster declarations and operating loans that can assist producers with credit needs. You can use these loans to replace essential property, purchase inputs like livestock, equipment, feed and seed, or refinance farm-related debts, and other needs.

Meanwhile, USDA’s Natural Resources Conservation Service (NRCS) provides financial resources through its [Environmental Quality Incentives Program](https://www.fsa.usda.gov/nrcs) to help with immediate needs and long-term support to help recover from natural disasters and conserve water resources. Assistance may also be available for emergency animal mortality disposal from natural disasters and other causes.

**Additional Resources**

Additional details – including payment calculations – can be found on our [NAP](https://www.fsa.usda.gov/nrcs), [ELAP](https://www.fsa.usda.gov/nrcs), [LIP](https://www.fsa.usda.gov/nrcs), and [TAP](https://www.fsa.usda.gov/nrcs) fact sheets. On farmers.gov, the [Disaster Assistance Discovery Tool](https://www.farmers.gov/disaster-assistance), [Disaster-at-a-Glance fact sheet](https://www.farmers.gov/), and [Farm Loan Discovery Tool](https://www.farmers.gov/) can help you determine program or loan options.

While we never want to have to implement disaster programs, we are here to help. To file a Notice of Loss or to ask questions about available programs, contact your local USDA Service Center. All [USDA Service Centers](https://www.fsa.usda.gov/servicecenters) are open for business, including those that restrict in-person visits or require appointments because of the pandemic.

---

**USDA Supports Military Veteran’s Transition to Farming**

Are you a military veteran interested in farming? USDA offers resources to help you:

- **Fund Your Operation:** USDA’s Farm Service Agency offers a variety of [funding opportunities](https://www.fsa.usda.gov/funding) to help agricultural producers finance their businesses. Certain funds are targeted for veterans and beginning farmers and ranchers.

- **Conserve Natural Resources:** USDA’s Natural Resources Conservation Service offers [conservation programs and expert one-on-one technical assistance](https://www.fsa.usda.gov/nrcs) to strengthen agricultural operations now and into the future. Veterans may be eligible for a cost share of up to 90 percent and advance payments of up to 50 percent to cover certain conservation practices.

- **Manage Risks:** USDA is here to help you prepare for and recover from the unexpected. Veterans who are beginning farmers may be eligible for reduced premiums, application fee waivers, increased insurance coverage, and other incentives for multiple [USDA programs that support risk management](https://www.fsa.usda.gov/riskmanagement).

USDA wants to ensure that veterans transitioning to agriculture have the resources needed to succeed. While USDA offices are currently closed to visitors because of the pandemic, Service Center staff continue to work with agricultural producers via phone, email, and other digital tools. To conduct business, please contact your local USDA Service Center. Additionally, more information related to USDA’s response and relief for producers...
can be found at farmers.gov/coronavirus. If you’re a new farmer, you can also reach out to your state Beginning Farmer and Rancher Coordinator.

USDA Announces June 2021 Lending Rates for Agricultural Producers

USDA announced loan interest rates for June 2021, which are effective June 1. USDA’s FSA loans provide important access to capital to help agricultural producers start or expand their farming operation, purchase equipment and storage structures, or meet cash flow needs.

FSA offers farm ownership and operating loans with favorable interest rates and terms to help eligible agricultural producers, whether multi-generational, long-time or new to the industry, obtain financing needed to start, expand or maintain a family agricultural operation. For many loan options, FSA sets aside funding for historically disadvantaged producers, including beginning, women, American Indian or Alaskan Native, Asian, Black or African American, Native Hawaiian or Pacific Islander, and Hispanic farmers and ranchers.

Interest rates for Operating and Ownership loans for June 2021 are as follows:

- **Farm Operating Loans** (Direct): 1.875%
- **Farm Ownership Loans** (Direct): 3.250%
- **Farm Ownership Loans** (Direct, Joint Financing): 2.500%
- **Farm Ownership Loans** (Down Payment): 1.500%
- **Emergency Loan** (Amount of Actual Loss): 2.875%

FSA also offers guaranteed loans through commercial lenders at rates set by those lenders. You can find out which of these loans may be right for you by using our Farm Loan Discovery Tool.

**Commodity and Storage Facility Loans**

Additionally, FSA provides low-interest financing to producers to build or upgrade on-farm storage facilities and purchase handling equipment and loans that provide interim financing to help producers meet cash flow needs without having to sell their commodities when market prices are low. Funds for these loans are provided through the Commodity Credit Corporation (CCC) and are administered by FSA.

- **Commodity Loans** (less than one year disbursed): 1.125%
- **Farm Storage Facility Loans**:
  - Three-year loan terms: 0.375%
  - Five-year loan terms: 0.875%
  - Seven-year loan terms: 1.250%
  - Ten-year loan terms: 1.625%
  - Twelve-year loan terms: 1.750%
- **Sugar Storage Facility Loans** (15 years): 2.000%

**Disaster Support**

FSA also reminds rural communities, farmers and ranchers, families and small businesses affected by the year’s winter storms, drought, and other natural disasters that USDA has programs that provide assistance. USDA staff in the regional, state and county offices are prepared with a variety of program flexibilities and other assistance to residents, agricultural producers and impacted communities. Many programs are available without an official disaster designation, including several risk management and disaster assistance options.
Pandemic Support

Through September 1, 2021, FSA’s Disaster Set-Aside provision is available to direct loan borrowers who have been impacted by the pandemic. This enables an upcoming annual installment to be set aside for the year and added to the final installment. For annual operating loans, the loan maturity date may be extended up to twelve months in order to set aside the installment. This provision is normally used in the wake of natural disasters, and a second Disaster Set-Aside may be available for direct loan borrowers who already have a DSA in place on a loan due to another designated natural disaster.

Producers can explore available options on all FSA loan options at fsa.usda.gov or by contacting your local USDA Service Center.

American Rescue Plan Socially Disadvantaged Farmer Debt Payments

USDA recognizes that socially disadvantaged farmers and ranchers have faced systemic discrimination with cumulative effects that have, among other consequences, led to a substantial loss in the number of socially disadvantaged producers, reduced the amount of farmland they control, and contributed to a cycle of debt that was exacerbated during the COVID-19 pandemic. During the pandemic, socially disadvantaged communities saw a disproportionate amount of COVID-19 infection rates, loss of property, hospitalizations, death, and economic hurt.

To address these systemic challenges, the American Rescue Plan Act of 2021 provides historic debt relief to socially disadvantaged producers including Black/African American, American Indian or Alaskan native, Hispanic or Latino, and Asian American or Pacific Islander.

USDA is now reviewing and working to gather feedback to implement the Act, and more guidance will be forthcoming for socially disadvantaged borrowers with direct or guaranteed farm loans as well as Farm Storage Facility Loans. As information becomes available, it will be provided directly to socially disadvantaged borrowers and stakeholder groups representing socially disadvantaged producers, posted here on farmers.gov, and shared through our social media channels, email newsletters, and the media.

Who qualifies for this debt relief?

Any socially disadvantaged borrower with direct or guaranteed farm loans as well as Farm Storage Facility Loans qualifies. The American Rescue Plan Act uses the 2501 definition of socially disadvantaged, which includes Black/African American, American Indian or Alaskan native, Hispanic or Latino, and Asian American or Pacific Islander. Gender is not a criterion in and of itself, but of course women are included in these categories.

I qualify as socially disadvantaged under the American Rescue Plan definition, but I am not late on my payments. Do I still qualify?

Yes. Any socially disadvantaged borrower with direct or guaranteed farm loans as well as Farm Storage Facility Loans qualifies.

When will qualified borrowers begin to see a loan pay-off or other payment in response to the American Rescue Plan?

USDA is now reviewing and working to gather feedback to implement the Act, and more guidance will be forthcoming for socially disadvantaged borrowers with direct or guaranteed farm loans as well as Farm Storage Facility Loans. For borrowers in arrears, the moratorium established on January 26th to stop all debt collections, foreclosures and evictions for all borrowers, including socially disadvantaged producers, remains in effect.

Producers who have worked with USDA’s Farm Service Agency previously may have their ethnicity and race on file. A borrower, including those with guaranteed loans, can contact their local their local USDA Service Center to verify, update or submit a new ethnicity and race designation using the AD-2047. Find your nearest service center at farmers.gov/service-locator.
USDA Extends General Signup for Conservation Reserve Program

The USDA is extending the Conservation Reserve Program (CRP) General Signup period, which had previously been announced as ending on Feb. 12, 2021. USDA will continue to accept offers as it takes this opportunity for the incoming Administration to evaluate ways to increase enrollment. Under the previous Administration, incentives and rental payment rates were reduced resulting in an enrollment shortfall of over 4 million acres. The program, administered by USDA’s Farm Service Agency (FSA), provides annual rental payments for 10 to 15 years for land devoted to conservation purposes, as well as other types of payments. Before the General CRP Signup period ends, producers will have the opportunity to adjust or resubmit their offers to take advantage of planned improvements to the program.

This signup for CRP gives producers an opportunity to enroll land for the first time or re-enroll land under existing contracts that will be expiring Sept. 30, 2021. All interested producers, including those on Indian reservations and with trust lands, are encouraged to contact their local USDA Service Center for more information.

Heirs’ Property Landowners

USDA recently launched a new website for producers to find information on heirs’ property.

Heirs’ property is family owned land that is jointly owned by descendants of a deceased person whose estate did not clear probate. The descendants, or heirs, have the right to use the property, but they do not have a clear or marketable title to the property since the estate issues remain unresolved.

The 2018 Farm Bill authorized alternative documentation for heirs’ property operators to establish a farm number. A farm number is required to be eligible for many different USDA programs, including lending, disaster relief programs, and participation in county committees.

For more information visit farmers.gov/manage/HeirsPropertyLandowners.

Additional USDA Programs and Services

USDA offers a variety of farm loan, risk management, disaster assistance, and conservation programs to support farmers, including heirs’ property landowners once they have a farm number.

USDA also has several special provisions and resources for heirs’ property landowners, including:

- Targeted funding through farm loans
- Crop insurance benefits
- Conservation program benefits
