Biden Administration Appoints William Bunce to Serve as State Executive Director for USDA's Farm Service Agency in Wyoming

The Biden Administration recently appointed William 'Bill' Bunce as the new State Executive Director (SED) for the USDA Wyoming Farm Service Agency (FSA).

"Individuals selected to serve as FSA State Executive Directors are incredible public servants who have a proven track record when it comes to their commitment to advance their states and communities," said Agriculture Secretary Tom Vilsack. "Each will serve on the frontlines, carrying out USDA's mission at the state level and ensuring the voice of each and every USDA customer is heard. We are fortunate to have each of these talented individuals at this critical time for farmers and producers and rural communities across America."

Bunce brings decades of agriculture production and agribusiness experience to USDA's FSA, having managed multiple large-scale Wyoming ranches, including livestock, sheep, and cattle feedlot operations.

A graduate of the University of Missouri, Bunce's career has spanned ranch management, agribusiness, and livestock breed association management, including service as senior operational management with the American Quarter Horse Association, the Quarter Horse Journal, and the Quarter Racing Journal.

He has also served as the Vice President of the American Polled Hereford Association and as the Executive Director of the New Mexico Livestock Board. Bunce served the State of Wyoming as the Marketing Director for the Wyoming Department of Agriculture and was a staff director for the Wyoming Business Council.

As SED, Bunce will be responsible for overseeing the delivery of FSA programs to agricultural producers in Wyoming. These commodity, conservation, credit, and disaster assistance programs ensure a safe, affordable, abundant, and nutritious food, fiber, and fuel supply for consumers.

“The State Executive Director is a pivotal leadership position for the Agency and for the agricultural producers we serve,” said Marcus Graham, FSA Deputy Administrator for Field Operations. “These leaders, appointed by the Biden-Harris Administration, bring a wealth of knowledge and expertise to their respective states. We are happy to have them on board and wish them much success.”

Farm Service Agency serves farmers, ranchers, foresters, and agricultural partners through the effective, efficient, and equitable delivery of federal agricultural programs. The Agency offers producers a strong safety net through the administration of farm commodity and disaster programs. Additionally, through conservation programs, FSA continues to preserve and protect natural resources and provides credit to agricultural producers who are unable to receive private, commercial credit, including targeted loan funds for beginning, underserved, women and military veterans involved in production agriculture.

USDA touches the lives of all Americans each day in so many positive ways. In the Biden-Harris administration, USDA is transforming America’s food system with a greater focus on more resilient local and regional food production, fairer markets for all producers, ensuring access to safe, healthy and nutritious food in all communities, building new markets and streams of income for farmers and producers using climate smart food and forestry practices, making historic investments in infrastructure and clean energy capabilities in rural America, and committing to equity across the Department by removing systemic barriers and building a workforce more representative of America. To learn more, visit usda.gov.

USDA Releases Nationwide Farmer, Rancher and Forest Manager Prospective Customer Survey

You can now take a nationwide survey to help the USDA improve and increase access to its programs and services for America’s farmers, ranchers, and forest managers. The survey includes new and existing customers. USDA encourages all agricultural producers to take the survey, especially those who have not worked with USDA previously. The survey gathers feedback on programs and services available through USDA’s Farm Service Agency (FSA), Natural Resources Conservation Service (NRCS) and Risk Management Agency (RMA).

The survey is available online at farmers.gov/survey, and you should complete it by March 31, 2023. Stakeholder organizations are also encouraged to share the survey link through their networks. The survey is available in 14 different languages including Arabic, Chinese, English, French, Hmong, Korean, Navajo, Punjabi, Somali, Spanish, Tagalog, Thai, Urdu and Vietnamese.

In addition to the online survey, the FPAC Business Center, which is administering the survey, will also mail 11,000 printed surveys to various local state stakeholder organizations and farmers markets.

Applying for NAP Payments

The Noninsured Crop Disaster Assistance Program (NAP) provides financial assistance to you for crops that aren’t eligible for crop insurance to protect against lower yields or crops unable to be planted due to natural disasters including freeze, hail, excessive moisture, excessive wind or hurricanes, flood, excessive heat and qualifying drought (includes native grass for grazing), among others.

In order to participate, you must obtain NAP coverage for the crop year by the applicable deadline using form CCC-471 “Application for Coverage” and pay the service fee. Application closing dates vary by crop. Producers are also required to submit an acceptable crop acreage report. Additionally, NAP participants must provide:

- The quantity of all harvested production of the crop in which the producer held an interest during the crop year
- The disposition of the harvested crop, such as whether it is marketable, unmarketable, salvaged or used differently than intended

- Acceptable crop production records (when requested by FSA)

Producers who fail to report acreage and production information for NAP-covered crops could see reduced or zero NAP assistance. These reports are used to calculate the approved yield.

If your NAP-covered crops are affected by a natural disaster, notify your FSA office by completing Part B of form CCC-576 "Notice of Loss and Application for Payment." This must be completed within 15 calendar days of the occurrence of the disaster or when losses become apparent or 15 days of the final harvest date. For hand-harvested crops and certain perishable crops, you must notify FSA within 72 hours of when a loss becomes apparent.

To receive benefits, you must also complete Parts D, E, F and G of the CCC-576 "Notice of Loss and Application for Payment" within 60 days of the last day of coverage for the crop year for any NAP covered crops. The CCC-576 requires acceptable appraisal information. Producers must provide evidence of production and note whether the crop was marketable, unmarketable, salvaged or used differently than intended.

Eligible crops must be commercially produced agricultural commodities for which crop insurance is not available, including perennial grass forage and grazing crops, fruits, vegetables, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, bioenergy, and industrial crops.

For more information on NAP, contact your local County USDA Service Center at or visit fsa.usda.gov/nap.

USDA Announces Details for the Upcoming Census of Agriculture

America's farmers and ranchers will soon have the opportunity to be represented in the nation's only comprehensive and impartial agriculture data for every state, county and territory. The U.S. Department of Agriculture (USDA) will mail the 2022 Census of Agriculture to millions of agriculture producers across the 50 states and Puerto Rico this fall.

The 2022 Census of Agriculture will be mailed in phases, starting with an invitation to respond online in November followed by paper questionnaires in December. Farm operations of all sizes, urban and rural, which produced and sold, or normally would have sold, \$1,000 or more of agricultural product in 2022 are included in the ag census.

Collected in service to American agriculture since 1840 and now conducted every five years by USDA's National Agricultural Statistics Service (NASS), the Census of Agriculture tells the story and shows the value of U.S. agriculture. It highlights land use and ownership, producer characteristics, production practices, income and expenditures, among other topics. Between ag census years, NASS considers revisions to the questionnaire to document changes and emerging trends in the industry. Changes to the 2022 questionnaire include new questions about the use of precision agriculture, hemp production, hair sheep, and updates to internet access questions.

To learn more about the Census of Agriculture, visit nass.usda.gov/AgCensus or call 800-727-9540. On the website, producers and other data users can access frequently asked questions, past ag census data, [partner tools](#) to help spread the word about the upcoming ag census, special study information, and more. For highlights of these and the latest information on the upcoming Census of Agriculture, follow USDA NASS on twitter [@usda_nass](https://twitter.com/usda_nass).

USDA Opens People's Garden Initiative to Gardens Nationwide

The U.S. Department of Agriculture (USDA) is expanding its People's Garden Initiative to include eligible gardens nationwide. School gardens, community gardens, urban farms, and small-scale agriculture projects in rural, suburban and urban areas can be recognized as a "People's Garden" if they register on the USDA website and meet criteria including benefitting the community, working collaboratively, incorporating conservation practices and educating the public. Affiliate People's Garden locations will be indicated on a map on the

USDA website, featured in USDA communications, and provided with a People's Garden sign.

About the Gardens

USDA originally launched the People's Garden Initiative in 2009. It's named for the "People's Department," former President Abraham Lincoln's nickname for USDA, which was established during his presidency in 1862.

People's Gardens grow fresh, healthy food and support resilient, local food systems; teach people how to garden using conservation practices; nurture habitat for pollinators and wildlife and create greenspace for neighbors.

How to Register

To learn more about People's Garden or to register one, visit the People's Garden webpage at usda.gov/Peoples-Garden. The location and information on each garden will be displayed on a map. USDA will send a "People's Garden" sign to each garden and invite continued engagement through photos and information sharing. Gardens on federal property, such as USDA offices, are required to donate produce. We invite these gardens to report how much is being donated.

To be eligible, gardens:

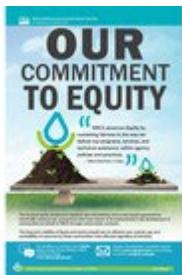

- **Benefit the community** by providing food, green space, wildlife habitat, education space.
- **Are a collaborative effort.** This can include groups working together with USDA agencies, food banks, after school programs, Girl Scouts, Master Gardeners, conservation districts, etc.
- **Incorporate conservation management practices**, such as using native plant species, rain barrels, integrated pest management, xeriscaping.
- **Educate the public** about sustainable gardening practices and the importance of local, diverse, and resilient food systems providing healthy food for the community.

New gardens will join the People's Garden at USDA headquarters in Washington, D.C. and 17 other flagship gardens established earlier this year.

More Information

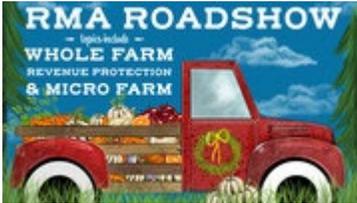

The People's Garden Initiative is part of USDA's broader efforts to advance equity, support local and regional food systems and access to food, and encourage use of conservation and climate-smart practices.

New Guide Available for Underserved Farmers, Ranchers

A new multi-agency guide for USDA assistance for underserved farmers and ranchers is now available. If you are a farmer or rancher and are a minority, woman, veteran, beginning, or limited resource producer, you can use this booklet to learn about assistance and targeted opportunities available to you. This includes programs offered through the Farm Service Agency, Natural Resources Conservation Service, and Risk Management Agency. The guide is also available in Spanish, Hmong, Korean, Vietnamese, Thai and Chinese on farmers.gov/translations.

RMA Offers Virtual and In-Person “Roadshow” Workshops About Improvements to the Whole-Farm Revenue Protection and Micro Farm Insurance Options

USDA is offering a virtual workshop on Dec. 13 and two in-person workshops on Jan. 10, for agricultural producers and stakeholders to learn about the latest updates and improvements to the [Whole-Farm Revenue Protection](#) (WFRP) and the [Micro Farm](#) insurance options. WFRP and Micro Farm are two of the most comprehensive risk management options available. These insurance options are especially important to specialty crop, organic, urban and direct market producers. Both programs serve as safety nets for all commodities on a farm under one policy and are available in all counties nationwide. The roadshow workshops are part of RMA’s broader efforts to increase participation in crop insurance and educate producers about policy improvements.

Improvements include:

- Doubling the maximum insurable revenue under WFRP, now up to \$17 million
- More than tripling the size of farm operations eligible for Micro Farm to \$350,000 in approved revenue
- Reducing paperwork requirements for WFRP

Virtual Roadshow Workshop:

The virtual workshop will take place via Microsoft Teams events. RSVP is not required. Attendees will have a chance to submit written questions during the virtual event.

- **December 13, 2022, 11:00 a.m. ET** Virtual: [Join the roadshow meeting](#) Add to your calendar: [Google Calendar](#), [iCalendar](#), and [Outlook](#)

In-person Roadshow Workshops:

- **January 10, 2023, 9:00 a.m. ET** In-person event: Vernon, Connecticut Address: [Tolland Agricultural Center](#), Tolland County UConn Extension, 24 Hyde Ave Hosted by: RMA Raleigh Regional Office Add to your calendar: [Google Calendar](#), [iCalendar](#), and [Outlook](#) **January 10, 2023, 10:00 a.m. – Noon ET** In-person event: Live Oak, Florida Address: [NFREC-Suwannee Valley Farm](#), Conference Room & Pavilion, 8202 County Road 417 Hosted by: RMA Valdosta Regional Office Add to your calendar: [Google Calendar](#), [iCalendar](#), and [Outlook](#)

More information is available on the [RMA Roadshow webpage](#).

Applying for Farm Storage Facility Loans

The Farm Service Agency’s (FSA) Farm Storage Facility Loan (FSFL) program provides low-interest financing to help you build or upgrade storage facilities and to purchase portable (new or used) structures, equipment and storage and handling trucks.

Eligible commodities include corn, grain sorghum, rice, soybeans, oats, peanuts, wheat, barley, minor oilseeds harvested as whole grain, pulse crops (lentils, chickpeas and dry peas), hay, honey, renewable biomass, fruits, nuts and vegetables for cold storage facilities, floriculture, hops, maple sap, rye, milk, cheese, butter, yogurt, meat and poultry (unprocessed), eggs, and aquaculture (excluding systems that maintain live animals through uptake and discharge of water). Qualified facilities include grain bins, hay barns and cold storage facilities for eligible commodities.

Loans up to \$50,000 can be secured by a promissory note/security agreement, loans between \$50,000 and \$100,000 may require additional security, and loans exceeding \$100,000 require additional security.

You do not need to demonstrate the lack of commercial credit availability to apply. The loans are designed to assist a diverse range of farming operations, including small and mid-sized businesses, new farmers, operations supplying local food and farmers markets, non-traditional farm products, and underserved producers.

For more information, contact your local County USDA Service Center or visit fsa.usda.gov/pricesupport.
