The table below provides data on the 2020 Dairy Margin Coverage Program (DMC) enrollment report by state as of September 6, 2022, at 7:00 AM. The report includes the number of licensed dairy operations, the number of operations with established production history, the DMC enrolled production history, and the estimated DMC payments for disbursement. The percentages and total amounts are also included, providing a comprehensive view of the program's coverage and payments across different states. The table is structured with clear headers and entries, allowing for easy reference and analysis of the data.
