The Department of Agriculture's Commodity Credit Corporation announced the adjusted world price (AWP) for Strict Low Middling (SLM) 1-1/16 inch (leaf grade 4, micronaire 3.5-3.6 and 4.3-4.9, strength 26.0-28.9 grams per tex, length uniformity of 80.0-81.9 percent) upland cotton (base quality), adjusted to U.S. quality and location, the fine count adjustment (FCA), the coarse count adjustment (CCA), and the loan deficiency payment (LDP) rate that will be in effect from 12:01 a.m., Eastern Time, July 25, 2019, through midnight, Eastern Time, Thursday, August 1, 2019. The next announcement of the AWP, FCA, CCA, and LDP rate for upland cotton will be on Thursday, August 1, 2019, at 4:00 p.m., Eastern Time. **Please note the announcement regarding the 2019/20 “cost to market” adjustment at the end of this announcement.**

If sufficient data are not available to determine a CCA for the week, regulations governing the CCA require that the latest available CCA will remain in effect. The current CCA of 0.00 cents per pound will remain in effect through midnight, August 1, 2019.

The Agricultural Act of 2014 provides that the AWP may be further adjusted if the Secretary determines adjustment is necessary to 1) minimize potential loan forfeitures, 2) minimize accumulation of Government stocks, 3) ensure free and competitive marketing of upland cotton, both domestically and internationally, and 4) ensure an appropriate transition between current-crop and forward-crop price quotations. No adjustment has been made this week.

Because the AWP for the period exceeds 52.00 cents per pound, which is the base quality loan rate, the loan repayment rate during this period is equal to the loan rate, adjusted for the specific quality plus applicable interest and storage charges. **Note that the "cost to market" adjustment for the 2019/20 crop year will be 15.20 cents/lb. and will become effective for the week ending August 8, 2019**
