AZ State FSA Office Updates

AZ State FSA Office

230 N 1st Ave, Phoenix, AZ
85003

Phone: 602-285-6300

Fax: 602-285-6325

State Executive Director:

Mark Grubbs (acting)

Farm Loan Manager:

Sharon Kinnison

Program Technicians:

Ryan Hunt, Carla Hill and
Dianna Kazee

Next County Committee

**Meeting: Please check with
your local FSA Office for
meeting dates and time.**

USDA NOTIFIES PRODUCERS ON ACREAGE HISTORY AND YIELDS

Written notifications from USDA are underway to farmers that provide updates on their current base acres, yields and 2009-2012 planting history.

Please cross check the letter from USDA with your farm records. If the information is correct, no further action is needed at this time, but if our letter is incomplete or incorrect, contact your local FSA office as soon as possible.

Verifying the accuracy of data on a farm's acreage history is a required early step for enrolling in the upcoming Agriculture Risk Coverage (ARC) program and the Price Loss Coverage (PLC) program. Farmers and ranchers can update their crop yield information and reallocate base acres.

By mid-winter all producers on a farm will be required to make a one-time, unanimous and irrevocable election between price protection and county revenue protection or individual revenue protection for 2014-2018 crop years. Producers can expect to sign contracts for ARC or PLC for the 2014 and 2015 crop years in the spring of 2015.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (includes short grain rice and temperate japonica rice), safflower seed, sesame, soybeans, sunflower seed, and wheat. Upland cotton is no longer a covered commodity.

Visit www.fsa.usda.gov or the local FSA office for information about FSA and the 2014 Farm Bill programs.

LIVESTOCK PRODUCERS URGED TO ENROLL IN DISASTER ASSISTANCE PROGRAM BY OCT. 1

Producers who have suffered eligible disaster-related losses are encouraged to act to secure assistance by Sept. 30, 2014, as congressionally mandated payment reductions will take place for producers who have not acted before that date. Livestock producers that have experienced grazing losses since October 2011 and may be eligible for benefits but have not yet contacted their local Farm Service Agency (FSA) office should do so as soon as possible.

The Budget Control Act passed by Congress in 2011 requires USDA to implement reductions of 7.3 percent to the Livestock Forage Disaster Program (LFP) in the new fiscal year, which begins Oct. 1, 2014. However, producers seeking LFP support who have scheduled appointments with their local FSA office before Oct. 1, even if the appointment occurs after Oct. 1, will not see reductions in the amount of disaster relief they receive.

USDA is encouraging producers to register, request an appointment or begin a Livestock Forage Disaster Program application with their county FSA office before Oct. 1, 2014, to lock in the current zero percent sequestration rate. As an additional aid to qualified producers applying for LFP, the Farm Service's Agency has developed an online registration that enables farmers and ranchers to put their names on an electronic list before the deadline to avoid reductions in their disaster assistance. This is an alternative to visiting or contacting the county office. To place a name on the Livestock Forage Disaster Program list online, visit <http://www.fsa.usda.gov/disaster-register>.

USDA REMINDS FARMERS OF 2014 FARM BILL CONSERVATION COMPLIANCE CHANGES

Changes mandated through the 2014 Farm Bill require producers to have a Highly Erodible Land Conservation and Wetland Conservation Certification (AD-1026) on file.

For farmers to be eligible for premium support on their federal crop insurance, a completed and signed AD-1026 form must be on file with the FSA. Since many FSA and Natural Resource Conservation (NRCS) programs have this requirement, most producers should already have an AD-1026 on file. If producers have not filed, they must do so by June 1, 2015.

When a farmer completes the AD-1026, FSA and NRCS staff will outline any additional actions that may be required for compliance with the provisions. The Risk Management Agency, through the Federal Crop Insurance Corporation (FCIC), manages the federal crop insurance program that provides the modern farm safety net for American farmers and ranchers.

Since enactment of the 1985 Farm Bill, eligibility for most commodity, disaster, and conservation programs has been linked to compliance with the highly erodible land conservation and wetland conservation provisions. The 2014 Farm Bill continues the requirement that producers adhere to conservation compliance guidelines to be

eligible for most programs administered by FSA and NRCS. This includes the new price and revenue protection programs, the Conservation Reserve Program, the Livestock Disaster Assistance programs and Marketing Assistance Loans implemented by FSA. It also includes the Environmental Quality Incentives Program, the Conservation Stewardship Program, and other conservation programs.

FSA recently released a revised form AD-1026, which is available at USDA Service Centers and online at: www.fsa.usda.gov. USDA will publish a rule later this year that will provide details outlining the connection of conservation compliance with crop insurance premium support. Producers can also contact their local USDA Service Center for information. A listing of service center locations is available at www.nrcs.usda.gov/wps/portal/nrcs/main/national/contact/local/.

MARGIN PROTECTION PROGRAM FOR DAIRY PRODUCERS

The 2014 Farm Bill authorized the Margin Protection Program (MPP-Dairy) for dairy producers. The new, voluntary risk management program replaces the Milk Income Loss Contract (MILC) program which expires on Sept. 1, 2014.

MPP-Dairy offers protection to dairy producers when the difference (the margin) between the all-milk price and national average feed cost falls below a certain producer selected amount.

Eligible producers may purchase coverage for their dairy operation by paying an annual administrative fee of \$100 and a premium, as applicable, for higher levels of coverage. Producers in the dairy operation will have to select a desired coverage level ranging from \$4.00 to \$8.00, in \$0.50 increments and a desired coverage percentage level ranging from 25 to 90 percent, in 5 percent increments. Producers will also have to decide whether or not to participate in the MPP-Dairy Program or the Livestock Gross Margin program administered by the Risk Management Agency (RMA), but they will not be allowed to participate in both.

A decision tool will be made available in the fall of 2014 to help producers make coverage level decisions. Enrollment will also begin this fall. Dairy operators will establish their production history during signup. Verification of the production records will be required. The regulations for MPP-dairy are still being developed. Additional information will be provided as it becomes available.

USDA ANNOUNCES NEW SUPPORT FOR BEGINNING FARMERS AND RANCHERS

Department Implementing New Farm Bill Programs, Unveiling New Centralized Online Resource to Support Next Generation of Farmers

USDA has announced the implementation of new Farm Bill measures and other policy changes to improve the financial security of new and beginning farmers and ranchers. USDA also unveiled www.USDA.gov/newfarmers, a new website that will provide a centralized, one-stop resource where beginning farmers and ranchers can explore the variety of USDA initiatives designed to help them succeed.

USDA's www.usda.gov/newfarmers has in depth information for new farmers and ranchers, including: how to increase access to land and capital; build new market opportunities; participate in conservation opportunities; select and use the right risk management tools; and access USDA education, and technical support programs. These issues have been identified as top priorities by new farmers. The website will also feature instructive case studies about beginning farmers who have successfully utilized USDA resources to start or expand their business operations.

Today's policy announcements in support of beginning farmers and ranchers include:

- Waiving service fees for new and beginning farmers or ranchers to enroll in the Non-Insured Crop Disaster Assistance Program (NAP) for the 2014 crop year. NAP provides risk management tools to farmers who grow crops for which there is no crop insurance product. Under this waiver, announced via an [official notice](#) to Farm Service Agency offices, farmers and ranchers whom already enrolled in NAP for the 2014 crop year and certified

to being a beginning farmer or social disadvantaged farmer are eligible for a service fee refund.

- Eliminating payment reductions under the [Conservation Reserve Program](#) (CRP) for new and beginning farmers which will allow routine, prescribed, and emergency grazing outside the primary nesting season on enrolled land consistent with approved conservation plans. Previously, farmers and ranchers grazing on CRP land were subject to a reduction in CRP payments of up to 25 percent. Waiving these reductions for new and beginning farmers will provide extra financial support during times of emergency like drought and other natural disasters.
- Increasing payment rates to beginning farmers and ranchers under Emergency Assistance for [Livestock, Honeybees and Farm-Raised Fish Program \(ELAP\)](#). Under this provision, beginning farmers can claim up to 90 percent of losses for lost livestock, such as bees, under ELAP. This is a fifty percent increase over previously available payment amounts to new and beginning farmers.

In the near future, USDA will also announce additional crop insurance program changes for beginning farmers and ranchers – including discounted premiums, waiver of administrative fees, and other benefits.

Additional information about USDA actions in support of beginning farmers and ranchers is available [here](#).

USDA'S FARM SERVICE AGENCY (FSA) OFFERS FARM BILL WEBSITE AND ONLINE OVERVIEW OF FARM BILL PROGRAMS

The Agricultural Act of 2014 (the Act), also known as the 2014 Farm Bill, was signed by President Obama on Feb. 7, 2014. The Act repeals certain programs, continues some programs with modifications, and authorizes several new programs administered by the Farm Service Agency (FSA). Most of these programs are authorized and funded through 2018.

For the latest on 2014 Farm Bill programs administered by FSA, please visit our Farm Bill website at www.fsa.usda.gov/farmbill and for an FSA program overview please read, download and/or print our recently posted FSA Farm Bill Fact Sheet titled, [What's in the 2014 Farm Bill for Farm Service Agency Customers?](#)

For more information on FSA, please contact your local USDA Service Center or visit us online at www.fsa.usda.gov.

USDA ENHANCES FARM STORAGE FACILITY LOAN PROGRAM

The U.S. Department of Agriculture (USDA) today announced the expansion of the Farm Storage and Facility Loan program, which provides low-interest financing to producers. The enhanced program includes 22 new categories of eligible equipment for fruit and vegetable producers.

Producers with small and mid-sized operations, and specialty crop fruit and vegetable growers, now have access to needed capital for a variety of supplies including sorting bins, wash stations and other food safety-related equipment. A new more flexible alternative is also provided for determining storage needs for fruit and vegetable producers, and waivers are available on a case-by-case basis for disaster assistance or insurance coverage if available products are not relevant or feasible for a particular producer.

Additionally, Farm Storage Facility Loan security requirements have been eased for loans up to \$100,000. Previously, all loans in excess of \$50,000 and any loan with little resale value required a promissory note/security agreement and additional security, such as a lien on real estate. Now loans up to \$50,000 can be secured by only a promissory note/security agreement and some loans between \$50,000 and \$100,000 will no longer require additional security.

The low-interest funds can be used to build or upgrade permanent facilities to store commodities. Eligible

commodities include grains, oilseeds, peanuts, pulse crops, hay, honey, renewable biomass commodities, fruits and vegetables. Qualified facilities include grain bins, hay barns and cold storage facilities for fruits and vegetables.

Contact your local FSA office or visit www.fsa.usda.gov for more about FSA programs and loans, including the Farm Storage Facility Loan Program.

YOUTH LOANS

The Farm Service Agency makes loans to youth to establish and operate agricultural income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5000.

Youth Loan Eligibility Requirements:

- Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien
- Be 10 years to 20 years of age
- Comply with FSA's general eligibility requirements
- Be unable to get a loan from other sources
- Conduct a modest income-producing project in a supervised program of work as outlined above
- Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the youth loan applicant, along with providing adequate supervision.

Stop by the county office for help preparing and processing the application forms.
