8:00 a.m. - 4:30 p.m.

FSA Office Staff

Katie Delbar,
County Executive Director

Lesalee Miles-Miller

Joleen Logan

Farm Loan Team

Belle Davis,
Farm Loan Manager

Karri Bartolomei,
Farm Loan Officer Trainee

Danya Hildebrand

Mendocino/Lake County Committee:

Dan Campbell

Nellie Dorn

Tim Strong

Larry Mailliard

Richard LaMalfa

Stephanie Williamson

From Left to Right: Erin O'Farrell, NRCS Engineer, Joleen Logan, Lesalee Miles-Miller, FSA Program Technicians, Becky Fairbairn, NRCS Farm Bill Assistant, Katie Delbar, FSA County Executive Director, Emma Chow, NRCS Soil Conservationist, and Danya Hildebrand, FSA Farm Loan Program Technician.

On April 17, 2011 the USDA Service Center staff participated in the 4th Annual Walk/Run in Potter Valley. This Annual Cancer benefit started in 2008 to assist community members who were battling cancer. All proceeds from the event goes to the selected families to help with the costs of treatment, including gas, food and other family expenses.

Acreage Certification

Time is nearing for producers to certify their 2011 acreage. Filing an accurate acreage report for all crops and land uses, including failed acreage and prevented planting acreage, can prevent the loss of benefits for a variety of programs.

Failed acreage must be reported within 15 days of the disaster event and before disposition of the crop. Prevented planting must be reported no later than 15 days after the final planting date.

Acreage reports are required for many Farm Service Agency programs. For crops enrolled in programs other than NAP (Noninsured Crop Disaster Assistance Program), acreage reports are to be certified by the July 15th deadline.

Acreage reports on crops covered by NAP are due in the county office by the earlier of April 30th for small grains and July 15th for all other crops, or 15 calendar days before the onset of harvest or grazing of the specific crop acreage being reported.

Adjusted Gross Income

USDA and the Internal Revenue Service have established an electronic information exchange process for verifying compliance with the adjusted gross income (AGI) provisions for farm programs. Written consent is required from each producer or payment recipient for the tax review process. No actual tax data will be included in the report that IRS sends to FSA.

This ensures that payments are not issued to producers whose AGI exceeds certain limits. The limits set in the 2008 Farm Bill are \$500,000 nonfarm average AGI for commodity and disaster programs; \$750,000 farm average AGI for direct payments; and \$1 million nonfarm average AGI for conservation programs.

Participants in CCC programs subject to average AGI rules must submit form CCC-927 (Individual) and/or CCC-928 (Legal Entity) to the Internal Revenue Service by June 15 to avoid interruption of program benefits. These forms may be obtained from local FSA and NRCS offices or online at:

<http://forms.sc.egov.usda.gov/eforms/mainservlet>.

Farm Record Changes

June 1, 2011 is the deadline to provide changes to your farm records at the local FSA office for the 2011 crop year. If you are changing your operation entity type, adding or dropping cropland or farms, or adding entities to your operation, contact the FSA county office by June 1.

Cold Storage Facility Loans

The Farm Storage Facility Loan program allows producers to build cold storage facilities to store their fresh fruits and vegetables. To be eligible, cold storage facilities must have a useful life of 15 years and include:

- New structures suitable for a cold storage facility;
- New walk-in, prefabricated, permanently-installed coolers suitable for storing fresh fruits and vegetables;
- New permanently affixed cooling, circulating and monitoring equipment;
- Electrical equipment integral to the proper operation of a cold storage facility;
- An addition or modification to an existing storage facility.

USDA will not make cold storage facility loans for portable structures, portable handling and cooling equipment, used or pre-owned structures, cooling equipment or structures deemed unsuitable.

The maximum loan amount for a Farm Storage Facility loan is \$500,000 per loan, which requires a down payment of at least 15 percent. Applications must be approved before construction can begin. Loan terms of seven, 10 or 12 years are available depending on the amount of the loan.

For more information on this program or other FSA farm programs please contact the local FSA county office or visit <http://www.fsa.usda.gov>.

Direct and Guaranteed Loans

The Farm Service Agency is committed to providing family farmers with loans to meet their farm credit needs. If you are having trouble getting the credit you need for your farm, or regularly borrow from FSA, direct and guaranteed loans are currently available.

Farm ownership loans or farm operating loans may be obtained as direct loans for a maximum of

up to \$300,000. Guaranteed loans can reach a maximum indebtedness of \$1,119,000. Producers are encouraged to apply early so a loan can be processed in a timely manner.

FSA employees will help you complete the necessary application and other forms, and help you understand what information is required, where to find it or who to contact to get it. To find out more about FSA loan programs, contact the county office staff.

Beginning and Limited Resource Loans

FSA has a program to assist beginning farmers and or members of socially disadvantaged groups to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

- Has operated a farm for not more than 10 years
- Will materially and substantially participate in the operation of the farm
- Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA
- Does not own a farm in excess of 30 percent of the county's median size.

Each member of an entity must meet the eligibility requirements. Loan approval is not guaranteed.

Additional program information is available at the local USDA Service Center or visit www.fsa.usda.gov and www.nrcs.usda.gov.

Farm Safety

Flowing grain in a storage bin or gravity-flow wagon is like quicksand, it can kill quickly. It takes less than five seconds for a person caught in flowing grain to be trapped.

The mechanical aspects of grain handling equipment, also presents a real danger. Augers, power take offs, and other moving parts can grab people or clothing.

These hazards, along with pinch points and missing shields, are dangerous enough for adults; not to mention children. It is always advisable to keep children a safe distance from operating farm equipment. Always use extra caution when backing or maneuvering farm machinery. Ensure everyone

is visibly clear and accounted for before machinery is engaged. FSA wants all farmers to have a productive crop year that begins with putting safety first.

Hispanic and Women Farmers

A process to resolve the claims of Hispanic and women farmers and ranchers who believe they were discriminated against when seeking USDA farm loans has been established.

If you believe that the United States Department of Agriculture (USDA) improperly denied farm loan benefits to you between 1981 and 2000 because you are Hispanic, or because you are female, you may be eligible for compensation.

To register for a claims package or for additional information on this and other settlement issues contact:

Hispanic and Women Farmer Claims Process:

www.farmerclaims.gov or call 1-888-508-4429

Pigford – The Black Farmers Discrimination Litigation:

www.blackfarmercase.com or call 1-866-950-5547

Keepseagle - The Native American Farmers Class Action Settlement:

www.IndianFarmClass.com or call 1-888-233-5506.

SURE

The Supplemental Revenue Assistance Program (SURE) provides benefits for farm revenue losses due to natural disaster through Sept. 30, 2011. To be eligible for SURE payments, a producer is required to obtain crop insurance on all crops in all counties or, if crop insurance is not available, to participate in the Non-Insured Assistance Program (NAP). Grazed acreage is not eligible for the SURE program. Crop insurance or NAP coverage is no longer required for crops that are not of economic significance or those where the administrative fee required to buy NAP coverage exceeds 10 percent of the value of the coverage. See the local FSA office for details.

Earth Day 2011 – Thanks to Our Farmers and Ranchers... A Message from Acting California Farm Service Agency State Director, David Schaad

For America's farmers and ranchers, tending to the earth is not a weekend hobby or a once a year celebration. It is a tradition, a way of life and for many, a calling that spans generations. On Earth Day, let's thank our California farmers and ranchers for the stewardship of our resources.

Working for the USDA Farm Service Agency as the California State Executive Director has strengthened my appreciation for everyone involved in the agriculture industry. These are the good people who practice an every-day, lifetime commitment to protecting our natural resources.

Since the first Earth Day, forty one years ago, Americans from every walk of life have joined forces to encourage proactive stewardship of our natural resources. But before Earth Day was conceived, our country's farmers and ranchers not only "talked the talk," they also "walked the walk," when it came to conservation -- constantly seeking and adopting management practices to reduce soil erosion, improve water quantity and quality, reduce air pollutants and improve habitat and related wildlife populations.

As a society, we've made significant advances in medicine, transportation, communication and in food production. We've used biotechnology to increase soil and plant productivity in ways unknowable just a few decades ago -- important factors in feeding our planet's ever-growing population. Every day we learn improved methods to protect the land, water and air that has been gifted to us and for which each of us is responsible during our short time on this Earth.

So on this special day as we pause to reflect on the beauty and wonder of our planet's resources, let's also renew our pledge to protect these resources for future children and grandchildren, not just on Earth Day, but 365 days of the year.

And let's join with those who farm and ranch and give thanks for the bounty of food, fiber, flowers and fuel that our planet's resources provide. Like us, America's farmers and ranchers depend on the earth's productivity to feed their own families and to help feed the entire world.

They appreciate and respect the fragile nature of our natural resources and know it is important to safeguard the environment today, tomorrow and always. On Earth Day 2011, FSA salutes the American farmer and rancher.
