Part 1 Introduction and Purpose

1 Purpose and Sources of Authority

A Handbook Purpose

[7 CFR 761.1(d)] This part describes the Agency's general and administrative policies for its guaranteed and direct Farm Loan Programs. In general, this part addresses issues that affect both guaranteed and direct loan programs.

This handbook is designed to assist FSA in understanding:

- general and administrative regulations governing FLP's
- roles and responsibilities in implementing those regulations and other general and administrative responsibilities.

B Sources of Authority

The sources of authority for this handbook include:

- 7 CFR Part 761 and other regulations that may be referenced throughout this handbook
- the various laws and statutes passed by Congress, including CONACT.

C Regulation References

Text in this handbook that is published in the CFR is printed in **bold** text. The CFR citation is printed in brackets in front of the text. The references and text:

- are intended to highlight the requirement spelled out in CFR
- may be used to support FSA adverse decisions.

*--D FLP Objectives

7 CFR Parts 761 through 767 set forth FSA's regulations for FLP's. The objective of these programs is to provide supervised credit and management assistance to eligible farmers to become owners or operators, or both, of family farms, to continue such operations when credit is not available elsewhere, or to return to normal farming operations after sustaining substantial losses as a result of a designated or declared disaster. These regulations apply to loan applicants, borrowers, lenders, holders, Agency personnel, and other parties involved in making, guaranteeing, holding, servicing, or liquidating such loans. The programs are designed to allow those who participate to transition to private commercial credit or other sources of credit in the shortest period of time practicable through the use of supervised credit, including farm assessments, borrower training, market placement, and borrower graduation requirements.--*

C State Supplements

See Exhibit 4 for State supplements required by this handbook. SED's are authorized to issue State supplements to this handbook in addition to State supplements listed in Exhibit 4.

Note: Additional State supplements may:

- **not** be issued to simply state verbatim, policies already established in the national handbook
- be issued:
 - when the national handbook does not provide complete guidance
 - to provide additional guidance for employees with limited experience
 - when State law requirements are not specifically addressed in the national handbook.

SED's shall:

- issue required supplements, and any additional supplements, according to 1-AS, paragraph 216
- obtain approval of State supplements according to 1-AS, paragraph 220
- •*--submit for prior approval State supplements requiring the use of State-modified national forms and State-created forms

Exception: State-specific FSA-2029's do not require issuance of State supplement.

• follow guidance in subparagraph 3 H for clearance of State modified national forms and State-created forms.--*

3 FLP Forms

A Form References

--Except as provided in this paragraph, this handbook references forms according to the forms numbering system that became effective December 31, 2007. Forms executed before--

December 31, 2007, may have a number different from that referenced. See Exhibit 5 for a comparison of form numbers before and after December 31, 2007.

Note: See Exhibit 1 for titles of forms referenced in this handbook.

With the exception of FSA-2510, FSA-2512, and FSA-2514, form numbers are not referenced in CFR (**bold**) text. CFR refers to forms by either:

• the common name of the form

Example: CFR may state "a promissory note" instead of stating "FSA-2026".

• purpose or the information collected.

Example: CFR may state "a conservation contract" instead of stating "FSA-2535".

This handbook may refer to the following forms by title and/or form number.

Form Number	Form Title
FSA-2026	Promissory Note
FSA-2543	Shared Appreciation Agreement

B FSA-2029

All references to FSA-2029 within this handbook are intended as a reference to the applicable State-specific Mortgage or Deed of Trust. State-specific Mortgages or Deeds of Trust are available on the FFAS Employee Forms/Publications Online Website at http://intranet.fsa.usda.gov/dam/ffasforms/forms.html and are numbered FSA-2029 "ST".

Notes: "ST" represents the appropriate State acronym.

SED is not required to issue a State supplement for the State-specific version of FSA-2029.

C Notary Acknowledgement

Forms do not include preprinted text for the Notary Acknowledgement because numerous States have State-specific laws establishing required text. Therefore, a fillable text area is provided under the "Acknowledgement" heading. SED's shall issue State supplements providing the appropriate Notary Acknowledgement text to be inserted.

3 FLP Forms (Continued)

D Applicant and Borrower Signatures

Forms completed by applicants or borrowers include a signature box to accommodate multiple signatures. Separate signature lines are not provided because the number of signatures required for an entity applicant or borrower cannot be determined in advance. Instructions for completing forms will provide guidance to applicants or borrowers on signature requirements.

Forms prepared by FSA for the applicant or borrower's signature include a fillable area instead of preprinted signature lines. County Offices shall insert a signature line and the name of each applicant, borrower, entity member, or other individual required to sign the form.

SED's shall issue a State supplement addressing State-specific signature requirements.

*--E State-Modified National Forms

State and County Offices shall use national forms unless their use is prohibited by State law. In such cases, the State Office may modify the national form. Follow guidance in subparagraph H for obtaining clearance for State-modified national forms.

Note: State-modified national forms based on national forms will be made available on--* the FFAS Employee Forms/Publications Online Website at **http://intranet.fsa.usda.gov/dam/ffasforms/forms.html** with the same form number as the national form, followed by the State acronym.

3 FLP Forms (Continued)

F State-Created Forms

State Offices may create forms, as necessary, when a national form is not available. State-created forms shall be assigned a 5-digit number establishing linkage to the appropriate FLP handbook, followed by the State acronym, according to the following.

IF the form pertains to	THEN the form number shall be		
more than one FLP handbook	FSA-2000-1 ST, FSA-2000-2 ST, FSA-2000-3 ST, etc.

6-FLP	FSA-2600-1 ST, FSA-2600-2 ST, FSA-2600-3 ST, etc.		

Notes: "ST" represents the appropriate State acronym.

- *--Before using State-created forms imposing information collections on 10 or more--* persons per year, State Offices shall work with the National Office to obtain OMB approval.
- *--State-created forms will be made available on the FFAS Employee Forms/Publications Online Website at http://intranet.fsa.usda.gov/dam/ffasforms/forms.html.--*

G Other Sources of Forms

FSA does not provide forms that establish an agreement or contract between applicants/borrowers and third parties only, such as leases. Advise applicants/borrowers to obtain such forms from other sources, such as Extension Service, on-line services, attorney, etc.

Part 2 FLP Authorities

21 Overview

A Purpose

This Part provides information and guidance on:

- FSA's authority to administer FLP
- delegating loan approval, loan servicing, and appraisal authorities
- redelegating SED authority
- maximum loan approval authority by grade and position
- maximum loan limits.

B Program Authority

CONACT, Section 339 provides the Secretary of Agriculture authority to issue regulations and make delegations of authority as necessary to administer FLP. The Secretary delegated FLP authorities to the Under Secretary for FFAS in 7 CFR 2.16. The Under Secretary further delegated these authorities to the FSA Administrator in 7 CFR 2.42. The Administrator delegates authorities to SED's, as applicable.

[7 CFR 761.1] (a) The Administrator delegates the responsibility to administer Farm Loan Programs of the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.) to the Deputy Administrator for Farm Loan Programs subject to any limitations established in 7 CFR 2.16 (a) (2) and 7 CFR 2.42.

- (b) The Deputy Administrator may:
- (1) Redelegate authorities received under subparagraph (a); and
- (2) Establish procedures for further redelegation of authority.

CONACT, Section 376 provides the Secretary of Agriculture authority to use CED's to make and service FLP loans to the extent CED's have been trained to do so.

22 General Delegation Requirements

A General Provisions

The following general provisions apply to FLP delegations of authority.

- SED shall consult with FLC before issuing, revising, or revoking delegations of authority.
- Authority should be delegated to the lowest level possible, consistent with employee training and experience, program requirements, and available resources.
- All delegations of authority must be in writing; the format provided in subparagraph B may be used.

Note: When a delegation is made to a specific individual, a specific memorandum must be sent to that person, with copies maintained in the appropriate files. However, if SED delegates a position, such as "All District Directors" or "All FLP Specialists", then a State Supplement to the handbook should be issued establishing the delegation. Only positions should be used and not individual names.

• An employee who has been delegated an authority listed in Exhibit 7, may not redelegate their authority to another employee.

Note: This does not apply when designating acting officials.

• Once authority is delegated, it is retained until revised or revoked according to subparagraph C.

Notes: See subparagraph 27 A for information about the impact of a change in grade or position on loan approval authority.

--A new delegation of authority is not required when SED, FLC, or FLM who issued the original delegation changes. The new SED, FLC, or FLM may-- modify delegations according to subparagraph C.

General Delegation Requirements (Continued)

B Sample Delegation Letter

The following letter may serve as a template for delegating authority.

•	
•	
This/these dele	gation(s) will continue until revoked or revised in writing.
(Signature)	
(Title)	
(Date)	
cc: State Offic	e (2 copies)

C Revising and Revoking Delegated Authority

--SED, FLC, or FLM may revise or revoke any authority they have delegated to an employee as justified by the employee's performance and need for the authority. FLM or FLC may-- not revise or revoke any authority delegated by SED. Any revision or revocation of authority must be in writing. When an individual's authority is reduced or revoked, the employee must be given specific reasons for the action.

23 State Office and Service Center Authorities

A Overview

FSA's decisions to approve or reject a loan or servicing request have broad implications for the applicant or borrower and FSA. These decisions affect the applicants' lives, the achievement of program objectives, and FSA's risk exposure. Therefore, it is imperative that certain authorities be limited to those employees who have met the training and experience requirements and have been formally delegated authority.

B State Office Employees

FLP authorities, except those in Exhibit 7, subparagraph A, are inherent to the position for FLC, FLS, and DD. FLC may delegate authorities in Exhibit 7, subparagraph B to AS, LOA, or LRS, who have demonstrated experience and have received adequate training.

C Service Center Employees

FLP authorities, except those in Exhibit 7, subparagraph A, are inherent to the positions of FLM and SFLO. FLM and SFLO may delegate authorities in Exhibit 7, subparagraph B to FLO, LOA, or PT.

Authorities listed in Exhibit 7, subparagraph B may be delegated to other Service Center employees, if necessary, based on the State organizational structure, as follows:

- FLM, in consultation with CED, may delegate authorities to CO PT's
- SED, in consultation with FLC, may delegate authorities to CED's who are deemed by them to have demonstrated experience and have received adequate training.

--Note: FLOT's are FLO's in training, therefore, may be delegated authorities according to Exhibit 7 as proficiencies are demonstrated. Caution should be taken, however, not to overburden FLOT's with duties not associated with their current position.--

23 State Office and Service Center Authorities (Continued)

D Acting Officials

Acting officials, other than SED, have the inherent authorities of their regular position and the inherent authorities of the acting position, unless otherwise restricted on the designation document. An acting designation does not increase an employee's loan approval authority.

*--However, SED may increase the loan approval authority of FLO-GS-11 who is acting FLM for an extended period of time, because of a vacancy or illness, to that of FLM-GS-11 or FLM-GS-12 level, if justified by the employee's performance and FSA's need.

The loan approval authority for employees temporarily promoted, according to 3-PM, paragraph 47, will increase for the duration of the temporary promotion.--*

Acting SED is authorized to approve:

- loans up to the maximum limits established in subparagraph 29 D
- actions which will result in a loss to the Government.

Note: The acting FLM will be designated according to 16-AO, subparagraph 287 E.

The following letter may serve as a template for designating acting officials.

23 State Office and Service Center Authorities (Continued)

E Limitations on Inherent Authorities

SED must:

- provide a State Office employee, FLM, or SFLO written notification of any limitations on inherent authorities
- limit inherent authorities of employees selected as DD, FLS, FLM, or SFLO who have not completed required training.

F Redelegating SED Authorities

SED's may redelegate their:

- loan approval authority to FLC, FLS, or DD
- authority to allow the use of a restricted appraisal report to the designated State staff appraiser
- authority to approve subordinations, or release of refinancing lien instruments instead of subordinations, to FLC, FLS, or DD
- authority to approve surface leases for farm property no longer in use (such as old barns)
 or for nonfarm purposes (such as wind turbines, communication towers, or other similar
 installations) to FLC, FLS, or DD.

SED's may **not** redelegate their authority to:

- approve any action that will result in a loss to the Government
- approve subordination of real estate security for operating-type loan purposes
- approve release of chattel or real estate security with no compensation
- •*--approve cancellation of undisbursed loan funds after all PLS options have been exhausted
- approve alternative repayment agreements in lieu of offset--*
- request an Administrator's exception.

24 Delegating Appraisal Authority

A General Requirements

Only SED's may delegate appraisal authority according to Exhibit 7, subparagraph A. SED's may delegate appraisal authority to FSA employees who have completed the required training and have the necessary experience.

B Chattel Appraisals

SED may delegate chattel appraisal authority to employees who have completed the training requirements in subparagraph 145 A.

C Real Estate Appraisals Involving Transactions of \$100,000 or Less

SED may delegate authority to prepare real estate appraisals when the total credit transaction is less than \$100,000 to employees who have completed the training requirements in subparagraph 146 C.

D Administrative Appraisal Reviews

SED may delegate authority to complete administrative appraisal reviews to employees who have completed the training requirements in subparagraph 143 B.

25 Delegating Loan Approval Authority

A Receiving Approval Authority

Loan approval authority must be obtained by:

- employees hired as FLO's
- employees who have not been previously delegated loan approval authority and are selected for a DD or FLS position
- CED's designated to obtain loan approval authority according to subparagraph C.

To obtain loan approval authority, employees must:

- complete Phase 1 of the FLOT program according to 6-PM, Part 13
- *--Note: All trainees (DD, FLS, FLM, FLO, FLOT and CED) have 1 calendar year to complete Phase 1 required training and testing, as stated in 6-PM, subparagraph 198 A.
- complete Phase 2 of the FLOT program as follows:
 - FLM's, FLO's, FLOT's and CED's working toward obtaining loan approval authority shall:
 - meet the State-established credit quality standards on a minimum of 5 but not more than 7 independently prepared files, of which at least 2 must be term loans
 - be required to submit additional loan files meeting the State-established credit quality standards, until the trainee demonstrates the ability to make good credit decisions and analyze the operation proficiently

Note: The trainer, DD, and FLC will establish the number of files required.

• be placed on OTI or PIP, as appropriate, if the trainee's 3 of the maximum of 7, independently prepared loan files fail to meet the State-established credit quality standards

Note: If the trainee is placed on OTI or PIP because of failure to meet the State-established credit quality standards on the required independently prepared loan files, this action must be documented in the comments section of FLOTRACK.

• submit, at the end of the OTI or PIP, a new set of loan files that meet the State-established credit quality standards. If the trainee's 3 of the maximum of 7 independently prepared loan files again fail to meet the State-established credit quality standards, follow 6-PM, subparagraph 198 D to determine next action--*

A Receiving Approval Authority (Continued)

- have an additional 1 calendar year to complete Phase 2 and be delegated loan approval authority, after completing Phase 1, training
- DD's and FLS' working toward obtaining loan approval authority shall:
 - meet the State-established credit quality standards on a minimum of 3 files of which at least 1 must be a term loan. Not more than 4 files may be submitted to meet this requirement
 - submit a minimum of 4 acceptable file reviews. Not more than 6 file reviews may be submitted to meet this requirement

Note: When recording trainee file reviews in FLOTRACK Docket information, *--choose "Docket Type:

- File Review Direct Loan
- File Review Guaranteed Loan (SEL)
- File Review: PLS.--*
- be placed on an OTI or PIP as appropriate, if the trainee's:
 - 3 of the maximum of 4 independently prepared loan files fail to meet the State-established credit quality standards
 - 4 of the maximum of 6 file reviews are not acceptable.

Note: If trainee is placed on an OTI or PIP due to failure to meet the State-established credit quality standards on the independently prepared loan files or file reviews, this action must be documented in the "Comments" section of FLOTRACK.

• submit, at the end of the OTI or PIP, a new set of loan files that meet the State credit quality standards

Note: If the trainee's 3 of the maximum of 4 independently prepared loan files again fail to meet the State-established credit quality standards, or 4 of the maximum of 6 file reviews are not acceptable, follow 6-PM, subparagraph 198 D to determine next action.

• have an additional 6 months to complete Phase 2 and be delegated loan approval authority, after completing Phase 1 training.

A Receiving Approval Authority (Continued)

The files trainees submit for State Office review and approval must be of sufficient complexity to reflect the ability to make good credit decisions and analyze an applicant's or borrower's operation. The files submitted must include **all** of the following types of loans:

direct loans

--Notes: May submit no more than 1 Microloan.--

May **not** submit youth loans.

- guaranteed loan applications from SEL only
- PLS applications.

Notes: In cases where SEL and/or PLS applications are **not** available, FLC may substitute direct loans, excluding youth loans, to meet this requirement.

When substituting a direct loan for SEL and/or PLS, note "File Substitution for SEL or PLS" in the "Comments" section.

Files submitted for review may include credit actions recommended for approval or rejection.

B Failure to Receive Loan Approval Authority

Follow 6-PM, subparagraph 198 D if an employee (DD, FLS, FLM, FLO, or FLOT) whose position description requires the employee to obtain loan approval authority, or CED designated to obtain loan approval authority, does not successfully meet the criteria in subparagraph A.

C CED Loan Approval Authority

SED's, in consultation with FLC and the appropriate DD, may designate CED's to obtain loan approval authority if CED:

- agrees to maintain competency with ongoing FLP activity
- while completing the FLOT program and working toward obtaining loan approval authority, agrees to have added to the performance plan under Program Management, Execution of Duties, or similar element the following standard, "Successfully completes assigned training and training activities within established timeframes"

C CED Loan Approval Authority (Continued)

• is able to perform the duties according to 27-PM, Exhibit 4.4

Note: 27-PM, Exhibit 4.4 will be attached to the CED's position description when loan approval authority has been delegated.

- completes the formal FLOT program
- meets the requirements established in subparagraph A.

CED's, who held FLP loan approval authority **within** the previous 12 months immediately before the SED designation, may submit a statement requesting waiver of additional training. SED, in consultation with FLC and DD, shall determine any training required before CED is delegated loan approval authority.

CED's, who held FLP loan approval authority but **not** within the previous 12 months immediately before the SED designation, must submit the number of independently prepared files required under subparagraph A. SED, in consultation with FLC and DD, shall evaluate the CED's knowledge of **current** FLP loan requirements, financial analysis, and FBP to determine required training before CED is delegated loan approval authority.

D Circumstances for Designating CED's

SED's, in conjunction with FLC, should identify areas of their State that could justify and benefit from CED having loan approval and servicing authority.

The office or area where CED would be designated by SED to obtain loan making and servicing approval authority must meet both of the following conditions.

 Direct and/or guaranteed caseload in the office or area is high, complex, or geographically challenging and FLM, SFLO, or FLP team servicing the office or area needs additional help.

Notes: The requirement established in subparagraph 27 D shall be considered when evaluating this condition.

D Circumstances for Designating CED's (Continued)

FLM or SFLO is responsible for managing loan making and servicing activity in Service Centers considered to be Type 1 offices when CED with loan approval authority is headquartered in the office.

• CED has sufficient time for additional responsibilities required to obtain and maintain loan making and servicing authority without negatively impacting CED's current farm program obligations.

E COC Concurrence

COC will be required to concur in writing:

- with the additional FLP responsibilities that CED will be incurring
- that while CED is completing the FLOT program and working toward obtaining loan approval authority, has added to the performance plan under Program Management, Execution of Duties, or similar element the following standard, "Successfully completes assigned training and training activities within established timeframes".

F National Office Approval for CED's Receiving Loan Approval Authority

SED's shall submit FSA-2127 to the National Office to request approval for all CED's designated to obtain loan making and servicing authority by e-mailing the completed FSA-2127 to Teresa Martin, National Office FLOT Coordinator, at **teresa.martin@wdc.usda.gov**.

The National Office FLOT Coordinator will notify SED when DAFO and DAFLP approval has been granted.

26 Delegating Loan Servicing Authority

A Delegations to FLO

FLM or SFLO may delegate loan servicing authorities to FLO according to Exhibit 7, subparagraph B.

--Note: Loan servicing authorities may be delegated to FLOT's who have the appropriate training and experience. Use caution in delegating authority to employees still in training.--

B Delegations to PT

FLM or SFLO may delegate loan servicing authorities to PT, who has the appropriate training and experience, according to Exhibit 7, subparagraph B.

Delegating Loan Servicing Authority (Continued)

C Delegations to CED

See 27-PM, Exhibit 4.4 for FLP responsibilities that may be performed by CED's designated by SED to obtain loan servicing authority.

D Delegations to AS, LOA, and LRS

FLC, FLM, or SFLO may delegate loan servicing authorities to AS, LOA, or LRS who has the appropriate training and experience, according to Exhibit 7, subparagraph B.

27 Maintaining Approval Authority

A Employee Who Accepts New FLP Position Within the State

When an FLP employee with loan approval and servicing authority accepts a new FLP position within the State, a new delegation of authority is not required.

Loan approval authority is automatically increased when the employee's grade increases, unless:

- SED issues a new delegation of authority limiting the authority
- the original delegation of authority established limitations on approval authority.

B Hires With Prior Loan Approval Authority in Another State

Employees who held FLP loan approval authority for at least 1 year immediately before the selection to the new position, may submit a copy of the previous delegation letter, and a statement from the previous FLC, reflecting the quality of docket reviews based upon credit quality review guidelines.

This information shall be used to establish the following:

- necessary actions for obtaining FLP loan approval in the new State
- •*--determining whether the employee will be required to submit dockets for review, and if so, the number of dockets to be submitted in the new State to determine whether approval authority will be delegated to the employee--*.

New employees who did not hold FLP loan approval authority for at least 1 year immediately before the selection to the position, must submit the number of independently prepared files required under subparagraph 25 A. SED, in consultation with FLC, shall determine any training required for the employee to be delegated approval authority.

27 Maintaining Approval Authority (Continued)

C FLM's, SFLO's, FLO's, and CED's Maintaining Loan Approval Authority

After loan approval and servicing authority is granted, FLC's will continue to monitor the loan making and servicing activities of employees to ensure that loan making and servicing actions meet the established State credit quality standards.

This will require that FLM's, SFLO's, FLO's, and CED's submit files that meet the credit quality standard established by SED and FLC in subparagraph 28 A, on a sufficient number of independently prepared files to show continued proficiency. Each State will set a minimum number, no less than 3, of files that must meet the standard. The files submitted for review must be of sufficient complexity to reflect the ability to make good credit decisions and analyze an applicant's or borrower's operation. Files submitted must meet the requirements in subparagraph 25 A.

D CED's Maintaining Responsibility for FLP Activities

SED, in conjunction with FLC, must determine whether circumstances warranting the granting of loan approval to CED continue to exist according to subparagraph 25 D. If the circumstances warranting the granting of loan approval authority no longer exist, CED should be advised their loan approval authority will be suspended. Suspension of loan approval authority based on these circumstances will not be considered as a performance issue.

CED's, with only loan servicing responsibilities, will be required at a minimum to service 10 case files according to their servicing authorities each year.

To meet the minimum number of files required each year, CED may be required to process cases outside of their immediate County Office area.

Note: Actions that may be counted include, but are not limited to the following:

- PLS
- disaster set-aside
- subordinations
- partial releases.

E Failure to Maintain Loan Approval Authority

Follow appropriate PM directives for guidance if an employee, whose position description requires the employee to maintain loan approval authority, does not successfully meet the criteria in subparagraphs C and D.--*

^{*--}DD will be responsible for tracking the number of case files on which CED completed loan servicing actions.

A Credit Quality Reviews

SED, after consulting with FLC, shall issue a State supplement establishing the method and standards, including what constitutes an acceptable score, for monitoring and evaluating the State's credit quality standards. The supplement must identify the minimum and maximum number of files that will be reviewed, as well as the frequency of credit quality reviews to obtain and maintain loan approval and servicing authority. These credit quality reviews will determine whether an employee's loan approval and/or servicing authority will be granted, revised, limited, or revoked.

Note: The State supplement must specify that if the office being reviewed made any loans using ARRA funds, a minimum of 1 file that used ARRA funds must be included in credit quality reviews.

In developing credit quality standards and completing reviews, States may use FSA-2103, FSA-2104, FSA-2119, FSA-2129, or any other alternative evaluation guide provided, and, at a minimum, must include the critical items from each of the following:

- FSA-2103, items 2M, 2Q, 2S, and 2U
- FSA-2104, items 2A, 2H, and 2I
- FSA-2119, items 2A, 2B, 2H, 2J, and 2M.
- •*--FSA-2129, items 2L, 2P, and 2R.--*

Each quarter FLC will review at least 2 restructured accounts, if available, to ensure that they are processed correctly. These reviews will be completed in conjunction with or in addition to reviews completed under subparagraph 27 C.

Notes: All completed FSA-2103's, FSA-2104's, FSA-2119's, FSA-2129's, and/or alternative evaluations must be filed in operational file FLP 1-4. No original or copy will be filed in the borrower case file.

SED should take into consideration available staff and resources when developing the credit quality review process. SED and FLC may:

- consider establishing a credit quality team in the State Office or using existing FLP underwriting staff with loan approval and servicing authority, if resources are available
- want to consider establishing the process on a district or FLP team basis.

All employees completing credit quality reviews must have approval authority and a good background in loan making and servicing.

28 Establishing Credit Quality Standards (Continued)

B Continuing Education Requirements

Beginning in FY 2014, FLP continuing education shall become mandatory annual training for all employees with loan approval or servicing authority. SED shall:

- add the requirement for completing continuing education to the State supplement that addresses the State's credit quality standards
- monitor AgLearn to ensure that required continuing education released the previous FY
 was completed by employees with loan approval or servicing authority at the time credit
 quality reviews are conducted.

Notes: Annually, the National Office will issue a FLP notice to:

- announce the year's new continuing education courses
- provide employees required to complete the new courses.

Failure to complete the required continuing education courses will result in a failed credit quality review.

29 Maximum Loan Authorities

A OL, FO, CL, and EM Program Loan Limitations

Limitations on maximum loan amounts for OL, FO, and EM are established in CONACT. The Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act of 1999 (Pub. L. 105-277), amended the limitations applicable to guaranteed OL and FO by providing for an annual adjustment based on the rate of inflation applicable to FY.

[7 CFR 761.8 (a)] The outstanding principal balances for a farm loan applicant or anyone who will sign the promissory note cannot exceed any of the following at the time of loan closing or assumption of indebtedness. If the outstanding principal balance exceeds any of the limits at the time of approval, the farm operating plan must reflect that funds will be available to reduce the indebtedness prior to loan closing or assumption of indebtedness.

- (1) Farm Ownership, Down payment loans, Conservation loans, and Soil and Water loans:
- (i) Direct--\$300,000;

--Notes: FY 2016 loan limit is \$2,199,000.--

This limit includes land contract guarantees.

B Adjustment for Guaranteed Loans

[7 CFR 761.8 (b)] The dollar limits of guaranteed loans will be increased each fiscal year based on the percentage change in the Prices Paid by Farmers Index as compiled by the National Agricultural Statistics Service, USDA. The maximum loan limits for the current fiscal year are available in any FSA office and on the FSA website at http://www.fsa.usda.gov.

C LOC Advances

[7 CFR 761.8 (c)] The total dollar amount of guaranteed line of credit advances and income releases cannot exceed the total estimated expenses, less interest expense, as indicated on the borrower's cash flow budget, unless the cash flow budget is revised and continues to reflect a feasible plan.

A Standard Eligible Lender must obtain Agency approval before issuing future year's funds according to 2-FLP, subparagraph 265 C. Approval may be provided by any Agency official with loan approval authority, and is not subject to the maximum loan limits established in subparagraph D.

Note: PLP and CLP lenders may provide future years' funds without prior FSA approval.

D Official Loan Approval Limitations for OL, FO, CL, and EM

The following identifies the maximum loan approval authority for OL, FO, CL, and EM by grade and title of approval officials at the time of loan closing. All loan approval limitations include the loan being made plus any outstanding principal balances owed by anyone who will sign the promissory note. For LOC's, the maximum amount of the LOC ceiling will be considered the outstanding principal balance. An approval official cannot approve or reject a loan request that will exceed the official's approval authority at the time of loan closing. The official must forward the loan and recommendations to the appropriate approval official for action.

* * * County Office employees who have loan approval authority may not exceed the authority of the equivalent grade FLO or FLM.

SED, in consultation with FLC, may raise the loan approval authority limits for FLM's and senior FLO's who routinely show a higher than average loanmaking proficiency by the following:

- direct loanmaking, increase up to an additional \$50,000
- guaranteed or a combination of direct and guaranteed loanmaking, increase up to an additional \$200,000.

SED, after consulting with FLC, shall issue a State supplement establishing the method and standards, including what constitutes higher than average proficiency, for monitoring and evaluating the basis for raising loan approval authorities. This State supplement must be submitted for preapproval.

Note: Loans to employees in a County Office must be approved by the State Office. Loans to State Office employees must be approved by the National Office.

29 Maximum Loan Authorities (Continued)

D Official Loan Approval Limitations for OL, FO, CL, and EM (Continued)

Four loan approval criteria need to be considered when determining whether a loan is within an approval official's authority. Each loan approval decision must meet all applicable criteria. Approval limitation I establishes the maximum by assistance type. Approval limitation II establishes the maximum for combinations of direct and guaranteed by assistance type. Approval limitation III establishes the maximum for combinations of all direct and guaranteed assistance types, except EM. In addition, it provides total guaranteed assistance limits. Approval limitation IV establishes the maximum for combinations of all direct and guaranteed assistance types.

A loan official can determine an applicant eligible when the loan request exceeds the official's loan approval authority at the time eligibility is determined. This decision of eligibility will be reviewed by the approval official at the time of approval. However, a loan official cannot determine an applicant ineligible if the loan request exceeds their approval level at the time the decision is made. They can recommend that the applicant be determined ineligible, but since this determination will result in a loan being rejected it can only be made by an approval official whose approval authority level would allow them to approve the loan.

E Official Loan Approval Limitations for SALP and Emergency Loans for Seed Producers (Continued)

Outstanding loan balances from other direct or guaranteed FLP loans will not affect the amount an applicant is eligible to receive under these programs or the amount an approval official is authorized to approve. Any outstanding SALP or Emergency Loan for Seed Producers loan balances will not affect the amount an applicant is eligible to receive under any other FLP loan program.

F Official Loan Approval Limitations for Nonprogram Loans

The following table identifies the maximum loan approval authority for nonprogram loans by grade and title of approval officials.

Type of Loan	*FLM, SFLO* GS-11/12	DD, FLS, or FLC	SED
Real Estate	\$400,000	\$500,000	Any amount
Chattels	\$200,000	\$300,000	Any amount
Recreation Loans to Individuals	\$175,000	\$300,000	Any amount

Note: Approval authority for recreation loans to individuals applies only to property that secured a recreation loan to an individual or farming corporation, not a recreation association.

Outstanding loan balances from other direct or guaranteed FLP loans will not affect the amount an applicant is eligible to receive under nonprogram loans. Any outstanding nonprogram loan balances will not affect the amount an applicant is eligible to receive under any other FLP.

29 Maximum Loan Authorities (Continued)

G Limitations for Loan Servicing Actions

In general, approval authority for loan servicing actions, such as subordinations, and transfer and assumptions, is limited to the approval official's maximum loan approval authority. However, the approval official shall review the appropriate FLP handbook for the specific transaction for further guidance.

Exceptions include the following.

- SED may approve subordinations of any amount unless the total EM indebtedness exceeds \$1 million.
- All PLS may be approved by any authorized agency official, except SED must approve PLS if any debt is forgiven.
- Any authorized agency official may approve all Disaster Set-Aside actions.
- For action on debt settlement applications that exceed the approval official's authority, see RD Instruction 1956-B, Exhibit A.

An approval official cannot approve or reject a servicing request that exceeds the official's approval authority. The official must forward the servicing action and recommendations to the appropriate servicing official for action. Approval officials who have not been delegated loan approval authority may not approve these loan servicing actions.

Part 3 Miscellaneous Procedures and Systems

41 Nondiscrimination in FLP

A Federal ECOA

FLP must comply with the provisions of ECOA and the implementing regulations of the Federal Reserve System published in 12 CFR Part 202, which requires in part, the following notice be included on all adverse decisions.

[12 CFR 202.9(b)(1)] The Federal Equal Credit Opportunity Act prohibits creditors from discriminating against credit applicants on the basis of race, color, religion, national origin, sex, marital status, age (provided the applicant has the capacity to enter into a binding contract); because all or part of the applicant's income derives from any public assistance program; or because the applicant has in good faith exercised any right under the Consumer Credit Protection Act. The Federal agency that administers compliance with this law is the Federal Trade Commission, Equal Credit Opportunity, Washington, D.C. 20580.

B USDA Nondiscrimination Policy

*--[7 CFR 15d.3(a)] No agency, officer, or employee of the USDA shall, on the ground of race, color, national origin, religion, sex, sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or gender identity, exclude from participation in, deny the benefits of, or subject to discrimination any person in the United States under any program or activity conducted by the USDA.

[7 CFR 15d.3(b)] No person shall be subjected to reprisal for opposing any practice(s) prohibited by this part, for filing a complaint, or for participating in any other--* manner in a proceeding under this part.

C ECOA Notice and USDA Nondiscrimination Statement on Adverse Decisions

Include the following combined ECOA notice and USDA nondiscrimination statement on all adverse decision letters.

The Federal Equal Credit Opportunity Act prohibits creditors from discriminating against credit applicants on the basis of race, color, religion, national origin, sex, marital status, age (provided the applicant has the capacity to enter a binding contract); because all or part of the applicant's income derives from any public assistance program; or because the applicant has in good faith exercised any right under the Consumer Credit Protection Act. The Federal agency that administers compliance with this law is the Federal Trade Commission, Equal Credit Opportunity, Washington, D.C. 20580.

*--In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at http://www.ascr.usda.gov/complaint_filing_cust.html and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov. USDA is an equal opportunity provider, employer, and lender.--*

D Nondiscrimination Statement on Advertisement of Sale for Inventory Property

Include the following nondiscrimination statement on advertisements announcing the sale of inventory property.

*--In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). F Discrimination Complaints

[7 CFR 15d.4(a)] Any person who believes that he or she (or any specific class of individuals) has been, or is being, subjected to practices prohibited by this part may file on his or her own, or through an authorized representative, a written complaint alleging such discrimination. No particular form of complaint is required. The written complaint must be filed within 180 days from the date the person knew or reasonably should have known of the alleged discrimination, unless the time is extended for good cause by the Director of the Office of Civil Rights or his or her designee. Any person who complains of discrimination under this part in any fashion shall be advised of his or her right to file a complaint as herein provided.

[7 CFR 15d. 4(b)] All complaints under this part should be filed with the Director of the Office of Civil Rights, United States Department of Agriculture, Washington, D.C. 20250, who will investigate the complaints. The Director of the Office of Civil Rights will make final determinations as to the merits of the complaints under this part and as to the corrective actions required to resolve program complaints. The complainant will be notified of the final determination on his or her complaint.

Note: If the borrower files a civil rights complaint with FLP personnel, FLP personnel will immediately submit it to CR.

[7 CFR 15d.4(c)] Any complaint filed under this part alleging discrimination on the basis of disability will be processed under 7 CFR Part 15e.

G Processing Loan and Servicing Applications When an Applicant Files a Discrimination Complaint

Under no circumstances will FSA:

- delay the processing of a loan or servicing application pending the outcome of a filed discrimination complaint
- deny a loan or servicing request because a discrimination complaint has been filed
- accelerate or foreclose a loan before a discrimination complaint is closed.

Note: See subparagraph H for guidance on determining if a discrimination complaint has been filed.

G Processing Loan and Servicing Applications When an Applicant Files a Discrimination Complaint (Continued)

If an applicant or borrower files, or has filed, a discrimination complaint against the agency official responsible for processing the loan or servicing application, DD or SED will assign a different official to process the request. Processing responsibility may be reassigned to:

- an authorized agency official from either of the following:
 - same district, but a different county
 - another district
- DD.

Note: Reassignment of processing loan or servicing applications is temporary. When the investigation is closed, and if it is determined that discrimination did not occur, the loan or servicing application will be returned to the appropriate office.

H Determining if a Discrimination Complaint Has Been Filed at CR

FLC or designee will contact the National Office by e-mail to ensure that a discrimination complaint has not been filed before borrower account acceleration, again before borrower account foreclosure, and if needed, just before reclassifying debt as CNC. Before:

- acceleration, State Office must contact the National Office for civil rights filing clearance after conclusion of all primary and preservation loan servicing and related appeal rights
- foreclosure, States with:
 - judicial foreclosure, FLC must contact the National Office after account acceleration and before referring the account to OGC for liquidation action

Note: If a discrimination complaint is filed after referral to DOJ, then DOJ will decide if the foreclosure shall proceed.

- nonjudicial foreclosure, FLC must contact the National Office after the account has been accelerated and before the collateral is advertised for foreclosure sale
- reclassifying an account as CNC, State Offices must contact the National Office for civil rights filing clearance.

Note: See Exhibit 12 for * * * the process used to determine if a discrimination complaint has been filed and is open at CR.

* * *

H Determining if a Discrimination Complaint Has Been Filed at CR (Continued)

See Exhibit:

- 13 for information to be included in e-mail to the National Office for civil rights clearance
- 13.5 for instructions on servicing settlement claimants and National Office FLP programmatic reviews.

Discrimination complaints will be processed according to 18-AO, Part 7.

I 2008 Farm Bill Acceleration and Foreclosure Moratorium

[7 CFR 766.358(a)] Notwithstanding any other provisions of this subpart, borrowers who file or have filed a program discrimination complaint that is accepted by USDA Office of Adjudication or successor office (USDA), and have been serviced to the point of acceleration or foreclosure on or after May 22, 2008, will not have their account accelerated or liquidated until such complaint has been resolved by USDA or closed by a court of competent jurisdiction. This moratorium applies only to program loans made under subtitle A, B, or C of the Act (for example, CL, FO, OL, EM, SW, or RL). Interest will not accrue and no offsets will be taken on these loans during the moratorium. Interest accrual and offsets will continue on all other loans, including, but not limited to, non-program loans.

Under the 2008 Farm Bill, there is a moratorium on the acceleration or foreclosure for certain borrowers who have a pending program discrimination complaint, or file a program discrimination complaint that is accepted as valid by OA.

When the State Office is notified by OCR or LSPMD that the borrower has an accepted complaint, it will process DLS Transaction "5G", * * * using Descriptive Code "7" to establish the indicator for accounts that may be eligible for a moratorium. The effective date of the "5G" transaction will be the date the complaint was accepted by OA.

Note: State Offices will monitor all accounts flagged "OAC1". The State Office will process DLS Transaction "5H", * * * using Descriptive Code "7" at the conclusion of the moratorium.

If the borrower has an accepted complaint at OA and the account is at the point of acceleration or in foreclosure, interest will not accrue and no offsets will be taken on any CL's, FO's, SW's, RL's, OL's, and EM's and any recoverable costs associated with these loans.

The moratorium will end on the date the claim is resolved.

If any requests for debt settlement or payoff during the moratorium are received, contact LSPMD.

*--I 2008 Farm Bill Acceleration and Foreclosure Moratorium (Continued)

For the purpose of the 2008 Farm Bill noted in this subparagraph:

- FSA was not directed to suspend interest or offsets on any loans other than CL's, FO's, SW's, RL's, OL's, and EM's
- interest accrual and offsets will continue to be taken on other loans, including NP loans
- accounts that have no security remaining that have been accelerated or where all loans are
 mature, such as those classified as CNC, also will continue to accrue interest and be
 subject to offset.

Note: Other moratoriums as directed by the Secretary of Agriculture or the Administrator will be followed on their own terms and in some cases will interact with accounts affected by the 2008 Farm Bill.

[7 CFR 766.358(a)(1)] If the Agency prevails on the program discrimination complaint, the interest that would have accrued during the moratorium will be reinstated on the account when the moratorium terminates, and all offsets and servicing actions will resume.

[7 CFR 766.358(a)(2)] If the borrower prevails on the program discrimination complaint, the interest that would have accrued during the moratorium will not be reinstated on the account, unless specifically required by the settlement agreement or court order.

[7 CFR 766.358(b)] The moratorium will begin on:

- (1) May 22, 2008, if the borrower had a pending program discrimination claim that was accepted by USDA as valid and the account was at the point of acceleration or foreclosure on or before that date or
- (2) The date after May 22, 2008, when the borrower has a program discrimination claim accepted by USDA as valid and the borrower's account is at the point of acceleration or foreclosure.--*

*--I 2008 Farm Bill Acceleration and Foreclosure Moratorium (Continued)

For borrowers who:

- had a pending program discrimination claim **and** were at the point of acceleration or foreclosure as of May 22, 2008, the moratorium was effective as of May 22, 2008
- have a program discrimination claim accepted by OA after the effective date of the 2008 Farm Bill (May 22, 2008) **and** later reach the point of acceleration or foreclosure, the moratorium will begin at the point of acceleration or foreclosure
- are at the point of acceleration or foreclosure **and** then have a program discrimination claim accepted by OA after the effective date of the 2008 Farm Bill (May 22, 2008), the moratorium will begin on the date the claim is accepted by OA.

[7 CFR 766.358(c)] The point of acceleration under this section is the earliest of the following:

- (1) The day after all rights offered on the Agency notice of intent to accelerate expire if the borrower does not appeal;
- (2) The day after all appeals resulting from an Agency notice of intent to accelerate are concluded if the borrower appeals and the Agency prevails on the appeal;
- (3) The day after all appeal rights have been concluded relating to a failure to graduate and the Agency prevails on any appeal;
- (4) Any other time when, because of litigation, third party action, or other unforeseen circumstance, acceleration is the next step for the Agency in servicing and liquidating the account.

The point of acceleration is the **earliest** of the following:

- the day after all rights offered on FSA-2521 or FSA-2525 have expired, if the borrower does not appeal
- the day after all appeals resulting from FSA-2521 or FSA-2525 are concluded, if the borrower did appeal and FSA prevailed on the appeal
- the day after any appeal rights have concluded relating to the failure to graduate under 4-FLP, paragraph 48
- any other time when, because of litigation, third party action, or other unforeseen circumstance, acceleration is the next step for FSA in liquidating the account.--*

I 2008 Farm Bill Acceleration and Foreclosure Moratorium (Continued)

[7 CFR 766.358(d)] A borrower is considered to be in foreclosure status under this section anytime after acceleration of the account.

A borrower is considered to be at the point of foreclosure anytime **after** acceleration.

The borrower will be notified of the temporary moratorium of interest accrual and offset by *--SED, or State Office designee, using FSA-2120 with a courtesy copy FAXed to FaSB according to subparagraph 5 B.

Note: The offset is **not** canceled, but only temporarily suspended until the claim is resolved.

FaSB will update the borrower's account to suspend interest accrual and offset activity.--*

[7 CFR 766.358(e)] The moratorium will end on the earlier of:

- (1) The date the program discrimination claim is resolved by USDA or
- (2) The date that a court of competent jurisdiction renders a final decision on the program discrimination claim if the borrower appeals the decision of USDA.

FSA-2121 will be used by SED, or State Office designee, to inform the borrower that the *--moratorium has ended. FaSB will be FAXed a courtesy copy and notified by separate--* correspondence of the requirements of any Settlement Agreement about interest accrual and offsets.

If FSA prevails, the suspended interest will be reinstated and interest accrual and offsets will immediately resume.

42 Appeals

A General Requirements

FLP applicants and borrowers have the right to request reconsideration, file appeals, and enter into ADR about adverse decisions according to 7 CFR Part 780 and 7 CFR Part 11. See 1-APP for FSA's appeal procedure.

Exceptions: For adverse decisions on:

• loan servicing requests under 5-FLP, use the appropriate forms and exhibits to notify borrowers

Note: Appraisals used for homestead protection, including appraisals used in exercising the option to purchase homestead property, or used to determine the amount due under shared appreciation agreements under 5-FLP, may be appealed according to paragraph 144 and 1-APP.

• nonprogram loan borrowers, see 4-FLP, paragraph 248.

Note: Regulations published in 7 CFR are available on the GPO web site at http://www.gpoaccess.gov/cfr/index.html.

B Mandatory Language for Adverse Decision Letters

See 1-APP for mandatory language about reconsideration, appeal, and ADR, to be included in adverse decision letters. Additional guidance may be issued under the APP notice series.

C Adverse Decisions Involving Appraisals

Text on appraisal reviews provided in subparagraphs D and E will be added to the reconsideration language provided in 1-APP or APP notices, as applicable, when an adverse decision is based on real estate or chattel appraisal, except when either of the following applies:

- the appraisal is for PLS or preservation servicing and 5-FLP requires using a specific form or exhibit
- the appraisal in question was associated with or connected to, an FSA decision wherein appeal rights were previously offered and concluded.

Notes: Appraisals may only be reconsidered or appealed. Mediation is not available on real estate or chattel appraisals.

See subparagraph 144:

- D for additional guidance about handling real estate independent technical appraisal reviews received from an applicant or borrower
- E for additional guidance about handling chattel independent appraisal reviews received from an applicant or borrower
- G for additional guidance when an applicant or borrower identifies errors in an appraisal.

D Real Estate Appraisals

The following text shall be added to the reconsideration paragraph in adverse decision letters involving a real estate appraisal.

You may request a copy of the real estate appraisal used in our decision. We will provide you with a copy within five days of your request. If you would like to discuss the appraisal, or you believe there are errors, including mathematical or property description errors in the appraisal, you should request reconsideration.

Independent Technical Appraisal Review

If you believe the real estate appraisal FSA obtained is incorrect for reasons other than those stated above, you may obtain an independent technical appraisal review. The issue under reconsideration will be whether FSA's real estate appraisal is consistent with the Uniform Standards of Professional Appraisal Practice. If you want this option, you must include a copy of the independent technical appraisal review, or notify this office of your intent to obtain an independent technical appraisal review, in your request for reconsideration. This review must be provided to this office at the time of or before the reconsideration meeting. You must pay to obtain a current independent technical

--appraisal review from a State-certified general appraiser. The appraiser and the--
independent technical appraisal review must meet the standards contained in FSA
regulations. You may request a copy of the regulations from this office. If you cannot
find a qualified appraiser to conduct the independent technical appraisal review, a list of
qualified appraisers is available in this office.

If you do not submit an independent technical appraisal review at the time of or before the reconsideration meeting, you waive your right to have us reconsider the appraisal. If you submit an independent technical appraisal review, we will determine whether the appraiser and the independent technical appraisal review meet FSA requirements. If the independent technical appraisal review meets FSA requirements, we will consider all comments contained in the independent technical appraisal review and determine if the appraisal obtained by FSA should be revised.

E Chattel Appraisals

The following text shall be added to the reconsideration paragraph in adverse decision letters involving a chattel appraisal.

You may request a copy of the chattel appraisal used in our decision. We will provide you with a copy within five days of your request. If you would like to discuss the appraisal, or you believe there are errors, including mathematical or property description errors in the appraisal, you should request reconsideration.

Independent Appraisal Review

If you believe the chattel appraisal FSA obtained is incorrect for reasons other than those stated above, you may obtain an independent appraisal review. The issue under reconsideration will be whether FSA's chattel appraisal is consistent with the present market value of like items in your area. If you want this option, you must include a copy of the independent appraisal review, or notify this office of your intent to obtain an independent appraisal review, in your request for reconsideration. You must pay to obtain a current independent appraisal review from a qualified appraiser. This review must be provided to this office at the time of or before the reconsideration meeting. The appraiser and the appraisal review must meet standards contained in FSA regulations. You may request a copy of the regulations from this office. If you cannot find a qualified appraiser to conduct the independent appraisal review, a list of qualified appraisers is available in this office.

If you do not submit an independent appraisal review at the time of or before the reconsideration meeting, you waive your right to have us reconsider the appraisal. If you submit an independent appraisal review, we will determine whether the appraiser and the appraisal review meet FSA requirements. If the independent appraisal review meets FSA requirements, we will consider all comments contained in the independent appraisal review and determine if the appraisal obtained by FSA should be revised.

F Nondiscrimination Statement

The nondiscrimination statement in subparagraph 41 C must be included in all adverse decision letters.

*--G Actions When Loan Servicing Denial Is Overturned in NAD Final Determination

1-APP, subparagraph 135 A requires that FSA implement a final determination not later than 30 calendar days after the effective date of the notice of final determination. An appeal determination is administratively final when the provisions of 1-APP, subparagraph 135 B have been met.

The authorized agency official will advise the borrower of the next steps to be taken in the loan servicing request within 5 workdays of the date the appeal decision becomes administratively final, or the date FSA determines that it will not pursue a further review of the hearing officer's decision, whichever comes first. The contact will be by telephone or in person, with a written followup.

1-APP, subparagraph 135 D provides that, according to FSA regulations, FSA may consider changes in the borrower's condition in implementing NAD's final determination. If there have been significant changes to the borrower's financial or farming situation since the date of the original FSA decision, only the information that has changed needs to be submitted or revised. Any revised or new documents must be initialed or signed, as appropriate, by both the borrower and the authorized agency official.

Note: A significant change is a change that would materially affect the feasibility of, or eligibility for, the proposed loan servicing action.

FSA may request updated financial or production information as the borrower's circumstances may have changed during the pendency of the appeal that may adversely affect the borrower's farming operation.

Note: Adversely affect means that a change unrelated to the issue resolved through the appeal will result in the borrower no longer being eligible for the loan servicing action requested, or the previously developed FBP not being feasible.

After completing the review and evaluation of all necessary revisions, the authorized agency official will approve or deny the loan servicing request according to the applicable FLP handbook. Any loan servicing denial will be handled according to 1-APP, subparagraph 135 E.

The State appeals coordinator will monitor receipt and implementation of final NAD determinations to ensure that they are properly and timely implemented.--*

43 Debarment and Suspension

A Purpose

Individuals and entities, other than loan recipients, who have been debarred or suspended from Government procurement or nonprocurement programs cannot participate in transactions with FSA. See 2 CFR 180.115 and 417.10.

Note: This does not apply to individuals and entities entering into transactions with applicants and borrowers without FSA involvement.

Obtain current copy of 2 CFR Parts 180 and 417 from the Internet at http://ecfr.gpoaccess.gov.

B Direct Loanmaking

Loan approval officials shall check the debarment and suspension list before providing FSA-2341 or FSA-2342, as appropriate, to attorneys, title companies, title insurance companies, or closing agents conducting loan closing activities.

Notes: Loan approval officials may obtain reports containing debarment and suspension lists *--from the Internet at https://www.sam.gov/portal/public/SAM. It is not necessary to create an account to search the Excluded Parties List System database. On the SAM Home Page, CLICK "Search Records". On the Search Records Screen, enter the

Home Page, CLICK "Search Records". On the Search Records Screen, enter the name or DUNS number of the person or entity being checked for exclusion. SAM does not have DUNS or Cage Code identifiers for every record.

When matches are found, there may be instances where an individual or entity has the same or similar name as the search request but is actually a different party. Therefore, it is important to verify the intended search to the returned results. If the attorney, title company, title insurance company, or closing agent selected is debarred or suspended, the applicant must make a new selection.

A copy of the returned search record will be filed in the applicant's case file.--*

43 Debarment and Suspension (Continued)

C Guaranteed Loanmaking

SED shall review CLP and PLP lenders and their officers and agents for debarment or suspension as follows:

- before submitting to DAFLP for approval to obtain status
- during the annual review of lender's status according to 2-FLP, paragraph 267.

Loan approval officials shall review SEL's and their officers and agents before issuing FSA-2232.

D Causes for Debarment or Suspension

The causes for initiating and the actions required to initiate:

- •*--debarment are in 2 CFR Part 180, Subparts F and H, and 2 CFR Part 417, Subpart H
- suspension are in 2 CFR Part 180, Subparts F and G, and 2 CFR Part 417, Subpart G.--*

E Exceptions

The Secretary of Agriculture or designee may grant a written exception permitting a debarred or suspended person or entity to participate in a covered transaction according to *--2 CFR 180.135.--*

44 Collecting and Coding Ethnicity, Race, and Gender Information

A Purpose

FSA collects ethnicity, race, and gender information for reporting purposes and to ensure that targeted funds are made available to SDA's and monitor SDA participation rates in FLP.

B Procedure for Collecting and Coding Ethnicity, Race, and Gender Information

FSA-2001, FSA-2211, FSA-2212, FSA-2301, FSA-2330, and FSA-2683 are used to request ethnicity, race, and gender information of the applicant. This information may be requested only on an FSA approved form. An applicant's response to this request is optional. However, the authorized agency official must inform all applicants that for an applicant to be *--eligible for targeted funds, FSA will need his or her ethnicity, race, and gender information.

When FSA receives a loan application, FSA will enter the ethnicity, race, and gender information into BP and GLS if guaranteed customer.--*

44 Collecting and Coding Ethnicity, Race, and Gender Information (Continued)

C Ethnicity, Race, and Gender Classifications

An applicant, including individual entity members, may identify:

- his or her ethnicity as either of the following:
 - Hispanic or Latino a person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish Culture or origin, regardless of race
 - not Hispanic or Latino
- himself or herself as a member of 1 or more of the following races:
 - Asian a person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian Subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam
 - American Indian or Alaskan Native a person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment
 - Black or African American a person having origins in any of the black racial groups of Africa
 - Native Hawaiian or other Pacific Islander a person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands
 - White a person having origins in any of the original peoples of Europe, North Africa, or the Middle East
- his or her gender as male or female.

45 Allocating Loan Program Funds

A General

[7 CFR 761.201(a)] This subpart addresses:

- *--(1) The allocation of funds for direct and guaranteed FO, CL, and OL loans:--*
 - (2) The establishment of socially disadvantaged target participation rates; and
 - (3) The reservation of loan funds for beginning farmers.

[7 CFR 761.201(b)] The Agency does not allocate EM loan funds to State Offices but makes funds available following a designated or declared disaster. EM loan funds are available on a first-come first-served basis.

*--B Timing of the Allocation of FO, CL, and OL Funds

[7 CFR 761.202] The Agency's National Office allocates funds for FO, CL, and OL--* loans to the State Offices on a fiscal year basis, as made available by the Office of Management and Budget. However, the National Office will retain control over the funds when funding or administrative constraints make allocation to State Offices impractical.

[7 CFR 761.201(c)] State funding information is available for review in any State Office.

C National Reserves for FO and OL Funds

[7 CFR 761.203(a)] At the start of each fiscal year, the National Office reserves a portion of the funds available for each direct and guaranteed loan program. These reserves enable the Agency to meet unexpected or justifiable program needs during the fiscal year.

[7 CFR 761.203(b)] The National Office distributes funds from the reserve to one or more State Offices to meet a program need or Agency objective.

- 45 Allocating Loan Program Funds (Continued)
 - **D** Methods of Allocating Funds to State Offices
 - *--[7 CFR 761.204] FO, CL, and OL loan funds are allocated to State Offices using one--* or more of the following allocation methods:

[7 CFR 761.204(a)] Formula allocation, if data, as specified in § 761.205 (subparagraph 45 E), is available to use the formula for the State.

[7 CFR 761.204(b)] Administrative allocation, if the Agency cannot adequately meet program objectives with a formula allocation. The National Office determines the amount of an administrative allocation on a case-by-case basis.

[7 CFR 761.204(c)] Base allocation, to ensure funding for at least one loan in each State, District, or County Office. In making a base allocation, the National Office may use criteria other than those used in the formula allocation, such as historical Agency funding information.

- **E** Computing a Formula Allocation
- *--[7 CFR 761.205(a)] The formula allocation for FO, CL, or OL loan funds is equal to:--*
 - (1) The amount available for allocation by the Agency minus the amounts held in the National Office reserve and distributed by base and administrative allocation, multiplied by:

formula allocation = (amount available for allocation - national reserve - base allocation - administrative allocation) x State Factor

- (2) The State Factor, which represents the percentage of the total amount of the funds for a loan program that the National Office allocates to a State Office.
- [7 CFR 761.205(b)] To calculate the State Factor, the Agency:
- (1) Uses the following criteria, data sources, and weights:

E Computing a Formula Allocation (Continued)

CRITERIA	LOAN TYPE CRITERION IS USED FOR	DATA SOURCE	WEIGHT FOR *FO AND CL (percent)	WEIGHT FOR OL LOANS* (percent)
Farm operators with sales of \$2,500-\$39,999 and less than 200 days work off the farm	*FO, CL, and OL loans	U.S. Census of Agriculture	15	15
Farm operators with sales of \$40,000 or more and less than 200 days work off farm	FO, CL, and OL loans	U.S. Census of Agriculture	35	35
Tenant farm operators	FO, CL, and OL loans	U.S. Census of Agriculture	25	20
Three-year average net farm income	FO, CL, and OL loans	USDA Economic Research Service	15	15
Value of farm real estate assets	FO and CL*	USDA Economic Research Service	10	N/A
Value of farm non-real estate assets	OL loans	USDA Economic Research Service	N/A	15

- (2) Determines each State's percentage of the national total for each criterion;
- (3) Multiplies the percentage for each State determined in paragraph (b)(2) of this section by the applicable weight for that criterion;
- (4) Sums the weighted criteria for each State to obtain the State factor.
- F Pooling of Unobligated Funds Allocated to State Offices
- *--[7 CFR 761.206] The Agency periodically pools unobligated FO, CL, and OL loan--* funds that have been allocated to State Offices. When pooling these funds, the Agency places all unobligated funds in the appropriate National Office reserve. The pooled funds may be retained in the national reserve or be reallocated to the States.

A FLP notice will be issued before pooling of funds occurs.

G Distribution of Farm Loan Funds by State Offices

[7 CFR 761.207] A State Office may distribute its allocation of loan funds to District or County level using the same allocation methods that are available to the National Office. State Offices may reserve a portion of the funds to meet unexpected or justifiable program needs during the fiscal year.

H Target Participation Rates for Socially Disadvantaged Target Groups

[7 CFR 761.208(a)] (1) The Agency establishes target participation rates for providing *--FO, CL, and OL loans to members of socially disadvantaged groups.--*

- (2) The Agency sets the target participation rates for State and County levels annually.
- (3) When distributing loan funds in counties within Indian reservations, the Agency will allocate the funds on a reservation-wide basis.
- (4) The Agency reserves and allocates sufficient loan funds to achieve these target participation rates. The Agency may also use funds that are not reserved and allocated for socially disadvantaged groups to make or guarantee loans to members of socially disadvantaged groups.

*--I FO and CL's Based on Ethnicity or Race

[7 CFR 761.208(b)] The FO and CL loan target participation rate based on ethnicity--* or race in each:

- (1) State is equal to the percent of the total rural population in the State who are members of such socially disadvantaged groups.
- (2) County is equal to the percent of rural population in the county who are members of such socially disadvantaged groups.

J OL Based on Ethnicity or Race

[7 CFR 761.208(c)] The OL loan target participation rate based on ethnicity or race in each:

- (1) State is equal to the percent of the total number of farmers in the State who are members of such socially disadvantaged groups.
- (2) County is equal to the percent of the total number of farmers in the county who are members of socially disadvantaged ethnic groups.

K Target Participation Rate for Women Farmers

[7 CFR 761.208(d)] (1) The target participation rate for women farmers in each:

- (i) State is equal to the percent of farmers in the State who are women.
- (ii) County is equal to the percent of farmers in the county who are women.
- (2) In developing target participation rates for women, the Agency will consider the number of women who are current farmers and potential farmers.

L Loan Funds for Beginning Farmers

[7 CFR 761.209] Each fiscal year, the Agency reserves a portion of direct and guaranteed FO and OL loan funds for beginning farmers in accordance with section 346(b)(2) of the Act.

Direct FO and OL funds are reserved until September 1 of each FY. Beginning farmer downpayment funds are reserved until April 1 of each FY.

Note: Between April 1 and September 1 of each FY, beginning farmer downpayment funds may be used by any eligible beginning farmer.

Guaranteed FO and OL funds are reserved until April 1 of each FY.

Note: An FLP notice will be issued before the lifting of targets.

*--M CL Funds

[7 CFR 761.210(a)] The following applicants and conservation projects will receive priority for CL funding:

- (1) Beginning farmer or socially disadvantaged farmer;
- (2) An applicant who will use the loan funds to convert to sustainable or organic agriculture production system as evidenced by one of the following:
 - (i) A conservation plan that states the applicant is moving toward a sustainable or organic production system, or
 - (ii) An organic plan, approved by a certified agent and the State organic certification program, or
 - (iii) A grant awarded by the Sustainable Agriculture Research and Education (SARE) program of the National Institute of Food and Agriculture, USDA.--*

M CL Funds (Continued)

(3) An applicant who will use the loan funds to build conservation structures or establish conservation practices to comply with 16 U.S.C. 3812 (section 1212 of the Food Security Act of 1985) for highly erodible land.

N Transfer of Funds

[7 CFR 761.211] If sufficient unsubsidized guaranteed OL funds are available, then beginning on:

- (a) August 1 of each fiscal year, the Agency will use available unsubsidized guaranteed OL loan funds to make approved direct FO loans to beginning farmers and socially disadvantaged farmers under the Downpayment loan program; and
- (b) September 1 of each fiscal year the Agency will use available unsubsidized guaranteed OL loan funds to make approved direct FO loans to beginning farmers.

46 Maintaining Borrower Addresses and Service Center Office Codes

A Changing Borrower Address Records

An authorized agency official must maintain correct addresses for all direct and guaranteed loan borrowers within the authorized agency official's jurisdiction and caseload.

An authorized agency official should make borrower address changes for borrowers with the following:

- •*--direct loans only, by updating BP
- both direct and guaranteed loans, by updating BP and by processing a PLAS TC 4C in GLS
- guaranteed loans only, by updating BP and processing a PLAS TC 4C in GLS.

Note: Name and address data entered in GLS for a customer should exactly match BP--* data for the same customer.

See 1-CM, paragraph 198 for documenting customer data changes * * *.

Forms for requesting updated addresses include FSA-470, which FSA mails to the borrower's last known address, and FSA-137, which requests address information from USPS.

46 Maintaining Borrower Addresses and Service Center Office Codes (Continued)

B Maintaining the Accuracy of Name and Address Information * * *

SCIMS information is matched nightly against PLAS information to detect variances. Any variances between SCIMS and PLAS systematically generate TC 4C to update PLAS.

County Offices shall view the following reports, available through the FSA Data Marts, using the Oracle EPM 11 Data Mart, at least monthly to ensure name and address

--information in BP and SCIMS is accurate:--

- SCIMS-PLAS Exception
- SCIMS-PLAS Update
- SCIMS-PLAS Discrepancy.

Notes: County Offices shall contact State Offices regarding questions about how to process corrections.

BP is a multi-agency database shared by FSA, NRCS, and RD. Consult CED and other agency representatives, as applicable, before making changes/corrections in BP.--*

C Related Instructions

See 4-FLP, Part 12 for transferring servicing responsibilities when an existing borrower moves to an area serviced by a different County Office.

D Changing Servicing Office Codes

FSA-2125 will be used by State Offices to change servicing office codes and mail codes when all files for 1 or more County Office are moved.

^{*--}Any necessary corrections to BP or PLAS must be made immediately. See Exhibit 14 for guidance on accessing and using the reports, and correcting data.

47 Ensuring Borrower Compliance With Restrictions on Lobbying

A Overview

[7 CFR 761.5] A person who applies for or receives a loan made or guaranteed by the *--Agency must comply with the restrictions on lobbying in 2 CFR Part 418.

USDA regulations about restrictions on lobbying are published in 2 CFR Part 418. This paragraph provides guidance for implementing 2 CFR Part 418 for FLP loan applicants--* and borrowers.

Note: CFR citations refer to Departmental regulations.

B Applicant and Lender Certification

Any applicant for a direct or guaranteed loan exceeding \$150,000 must certify compliance with lobbying activities requirements. The certification is obtained from all loan applicants on FSA-2001, FSA-2211, FSA-2212, FSA-2301, and FSA-2683.

Lenders applying for a loan guarantee exceeding \$150,000 must certify compliance with lobbying activities requirements. The certification is obtained from all lenders on FSA-2201.

--Additional information on certification requirements is available in 2 CFR 418.110, which-- is included in subparagraph D.

47 Ensuring Borrower Compliance With Restrictions on Lobbying (Continued)

C Disclosure of Lobbying Activities

Any person or entity that is required to certify compliance with lobbying activities requirements may have to complete SF-LLL. In particular, any person or entity must complete SF-LLL if they have made or have agreed to make any payment using funds other than appropriated funds to influence a decision in connection with the loan or loan guarantee. This requirement also applies to any person who requests or receives a contract or subcontract of at least \$100,000 under a loan or loan guarantee exceeding \$150,000.

SF-LLL must be submitted at the time of loan or guarantee application and in each calendar quarter in which there occurs any event that requires disclosure or that materially affects the accuracy of the information contained in any disclosure form previously filed by such person *--under paragraphs (a) or (b) of 2 CFR 418.110 (subparagraph D). An event that materially--* affects the accuracy of the information reported includes 1 or more of the following.

- A cumulative increase of \$25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered Federal action.
- A change in the persons or individuals influencing or attempting to influence a covered Federal action.
- A change in the officers, employees, or members contacted to influence or attempt to influence a covered Federal action.

A new SF-LLL must be submitted if and when a borrower changes contractors or subcontractors.

All involved contractors, subcontractors, and grantees must collect disclosures from lower tiers and submit them to higher tiers. The borrower or lender must submit all the disclosures to FSA.

The authorized agency official must file all original disclosures and immediately send copies to the following:

D USDA Certification and Disclosure Requirements

***_**_

2 CFR 418.110 Certification and Disclosure*

- (a) Each person shall file a certification, and a disclosure form, if required, with each submission that initiates agency consideration of such person for:
 - (1) Award of a Federal contract, grant, or cooperative agreement exceeding $\$100,\!000;$

 \mathbf{or}

- (2) An award of a Federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding \$150,000.
- (b) (1) Each person shall file a certification, and a disclosure form, if required, upon receipt by such person of:
 - (i) A federal contract, grant, or cooperative agreement exceeding \$100,000; or
 - (ii) A Federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding \$150,000,
 - (2) Unless such person previously filed a certification, and a disclosure form, if required, under paragraph (a) of this section.
- (c) Each person shall file a disclosure form at the end of each calendar quarter in which there occurs any event that requires disclosure or that materially affects the accuracy of the information contained in any disclosure form previously filed by such person under paragraphs (a) or (b) of this section. An event that materially affects the accuracy of the information reported includes:
 - (1) A cumulative increase of \$25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered Federal action; or
 - (2) A change in the person(s) or individual(s) influencing or attempting to influence a covered Federal action; or
 - (3) A change in the officer(s), employee(s), or Member(s) contacted to influence or attempt to influence a covered Federal action.
- (d) Any person shall file a certification, and a disclosure form, if required, to the next tier above who requests or receives from a person referred to in paragraphs (a) or (b) of this section:
 - (1) A subcontract exceeding \$100,000 at any tier under a Federal contract;
 - (2) A subgrant, contract, or subcontract exceeding \$100,000 at any tier under a Federal grant;
 - (3) A contract or subcontract exceeding \$100,000 at any tier under a Federal loan exceeding \$150,000; or
 - (4) A contract or subcontract exceeding \$100,000 at any tier under a Federal cooperative agreement,

D USDA Certification and Disclosure Requirements (Continued)

*__

- (e) All disclosure forms, but not certifications, shall be forwarded from tier to tier until received by the person referred to in paragraphs (a) and (b) of this section. That person shall forward all disclosure forms to the agency.
- (f) Any certification or disclosure form filed under paragraph (e) of this section shall be treated as a material representation of fact upon which all receiving tiers shall rely. All liability arising from an erroneous representation shall be borne solely by the tier filing that representation and shall not be shared by any tier to which the erroneous representation is forwarded. Submitting an erroneous certification or disclosure constitutes a failure to file the required certification or disclosure, respectively. If a person fails to file a required certification or disclosure, the United States may pursue all available remedies, including those authorized by section 1352, title 31, U.S. Code.
- (g) For awards and commitments in process prior to December 23, 1989, but not made before that date, certifications shall be required at award or commitment, covering activities occurring between December 23, 1989, and the date of award or commitment. However, for awards and commitments in process prior to the December 23, 1989 effective date of these provisions, but not made before December 23, 1989, disclosure forms shall not be required at time of award or commitment but shall be filed within 30 days.
- (h) No reporting is required for an activity paid for with appropriated funds if that activity is allowable under either Subpart B or C [of 2 CFR Part 418].

48 Credit Reports

A Overview

FSA uses credit reports to assist in determining:

- eligibility of applicants and borrowers requesting FSA loans and loan servicing options
- feasibility of the applicant's farming operation
- debt settlement eligibility and feasibility.

See 3-FLP for direct loanmaking and 4-FLP and 5-FLP for direct loan servicing to specify when credit reports are required.

B Confidentiality

The information in a credit report is confidential and is used only as an aid in conducting FSA business. FSA must make credit reports available to the subject of the report in response to a request made under the Privacy Act of 1974. See 3-INFO.

C Mortgage Credit Reports

The following are the 2 types of mortgage credit reports:

- an individual report provides information on 1 person only
- a joint report provides information on a married couple.

FSA will order a mortgage credit report to obtain all credit and public record information available for at least the previous 2 years.

D Commercial Credit Report

A commercial credit report provides information on an entity. A commercial credit report is available only for a separate legal entity. Thus, FSA will order a mortgage credit report rather than a commercial credit report when the applicant is an informal partnership. FSA also may order an individual mortgage credit report on the majority owners (principal members) of an entity.

A commercial credit report normally consists of BIR. BIR is a component of a commercial credit report that includes the following:

- summary section that highlights important data elements
- historical background on the business entity's principals and the entity itself
- review of the entity's financial condition and trend of sales and earnings
- payment record reported by suppliers
- brief description of related entities
- public filings
- special events
- description of the entity's operation.

48 Credit Reports (Continued)

E Ordering Mortgage Credit Report

Authorized agency officials who have access to FBP will access Equifax, Experian, and Trans Union data through the FBP "General" menu screen.

See Exhibit 15 for ordering credit reports through FBP.

F Ordering Credit Reports for Nonapplicants

There may be instances when FSA must order a joint credit report in which the spouse is required to sign the promissory note for repayment purposes, but the spouse may not have to sign the application as a co-applicant. The credit report will be ordered in the same manner that all other joint credit reports are ordered. The County Office must however, have the nonapplicant spouse sign FSA-2007 before the credit report is ordered.

G When Mortgage and Commercial Credit Reports Are Not Acceptable

If a County Office has problems with a credit report or credit reporting agency (e.g. data on the report is incomplete or the contractor is not complying with contract terms), then the County Office will contact the State Office for assistance.

Note: Agency officials will not intervene on behalf of the applicant/borrower in matters about disputed information, balances, or credit scores or ratings. These disputes will be handled according to subparagraph H.

If the issue is significant and the State Office needs assistance in resolving, the State Office *--shall contact DAFLP according to subparagraph 4 D.--*

H When the Applicant Disputes Information on the Credit Report

If the applicant/borrower disagrees with or disputes information reflected on the credit report, refer the applicant/borrower to the company or companies issuing the credit report at the following phone numbers:

- Trans Union at 312-258-1717 to obtain a copy of their credit report or 800-916-8800 for customer service
- Experian at 888-397-3742 to obtain a copy of their credit report or 800-831-5614, extension 3 for customer service
- Equifax at 800-685-1111 to obtain a copy of their credit report or 800-685-5000, extension 2 for customer service.

Note: Agency officials will not intervene on behalf of the applicant/borrower in matters concerning disputed information, balances, credit scores, or ratings.

I Credit Report Fees - Cost to the Applicant

Applicants will be charged for reports according to the following.

Applicant	Cost
Individual	\$13.50
Joint	\$20.25
Entity	\$75.00

Notes: A husband and wife, who are members of an entity, **will** be charged a joint credit report fee. Individual credit reports will then be obtained for each.

No fee will be collected for servicing only applications according to 4-FLP, subparagraph 116 A or 5-FLP, subparagraph 81 C.

J Recording Fees

The appropriate fee for credit reports collected will be recorded on FSA-2001, FSA-2301, *--FSA-2314, FSA-2330, and FSA-2683.--*

K Processing Credit Report Fees

See 3-FI to process credit report fees.

L Payment of Invoices for Credit Reports

The National Office will:

- receive monthly invoices showing State usage
- submit payment to the vendor for credit reports generated through FBP.

49 DLS

--A DLS Uses--

DLS is the required system for loan making and * * * servicing information and activities.

DLS:

- tracks each loan request in an application package from receipt to final disposition
- obligates loans through its interaction with PLAS
- submits check/EFT requests through PLAS
- submits loan closings to PLAS
- provides an interactive tasks checklist
- monitors the disbursement of loan funds
- provides reports of loanmaking activities and processing timeframes
- tracks routine loan servicing activities, and timeframes
- has automated follow-up reminders to assist County Office employees in meeting deadlines for routine loan servicing activities
- provides loan account information, such as principal and interest amounts, and account flags
- provides the ability to manage case numbers and mail codes for customer accounts
- warehouses information for reporting purposes
- has automated reporting capabilities.

The National Office uses DLS data in reports to Congress, CR, and FSA senior management. In addition, the data is used to determine whether FSA loan servicing goals are being/have been met.

B User Assistance

The DLS Loan Making and Loan Servicing User's Guides can be referenced for any specific questions. They may be obtained by accessing the FLP web site's manuals page located at https://amistad.sc.egov.usda.gov/flp/IndexServlet and then selecting manuals on the left navigation bar.

C Maintaining and Updating DLS

FCAO is responsible for computer implementation and upgrades. The National Office is responsible for user requirements, updates to accommodate regulatory and statutory changes, and other revisions as needed. State and County Office employees are responsible for data entry of customer and loan information as it is received.

D Security

To obtain an ID and password, users must submit requests according to appropriate IRM directives.

*--E Important Calendar Year 2015 Year-End Dates

Various transactions are suspended or disabled as needed to perform calendar year-end activities. The following dates are applicable to the availability of DLS.

A Purpose and Overview

GLS was designed to account for all loan making and servicing activity for guaranteed loans. GLS is used to:

- track the processing of guaranteed loan applications, including obligation and loan closing
- process all loan servicing transactions, including interest assistance claims, transfers and assumptions, repurchases, reamortizations, and loss claims
- record guaranteed loan status and default status reports
- maintain lender information, including lender status
- obtain reports for monitoring the guaranteed loan portfolio.

The data entered into GLS is used to monitor individual loan accounts, as well as to provide reports to Congress, CR, Executive Branch, FSA senior management, and parties making FOIA requests. It is FSA's accounting tool for the Guaranteed Loan Program.

B GLS User Assistance

*--For specific guidance, the GLS User Guide can be found by doing either of the following:

- logging in the GLS web site using required eAuthentication permissions and selecting "Help"
- selecting the GLS User Guide from the Farm Loan Programs Home Page.--*

50 GLS (Continued)

C Responsibility for Maintaining and Updating GLS

FCSB is responsible for system upgrades. The National Office is responsible for user requirements, updates to accommodate regulatory and statutory changes, and other revisions as needed. County Office and FCSB employees are responsible for data entry of customer and loan information.

D Security

To obtain a GLS ID and password, users must submit requests according to appropriate IRM directives.

51 FOCUS

A Purpose and Overview

FOCUS is an ad-hoc reporting system used by the National and State Offices for monitoring purposes. Users may choose to use "canned" reports or may prepare specific reports, as needed, using:

- direct loan data entered through ADPS
- application data entered in DLS.

B User Assistance

Refer to the USDA FOCUS Ad Hoc Reporting System Manual – Field Office User's Manual for guidance. The User's Manual may be obtained by ordering Item 257 from the Kansas City Warehouse.

C Training

State Office employees shall submit requests for training, through SED, to either of the following:

- USDA FSA DAFLP STOP 0520 1400 INDEPENDENCE AVE SW WASHINGTON DC 20250-0520
- FAX: 202-690-3573

D Security

To obtain an ID and password, users must submit requests according to appropriate IRM directives.

52 ADPS

A Purpose

ADPS is a terminal application system that allows users to process FLP accounting transactions and view borrower or acquired property information. ADPS connects users *--located at State and County Offices to FaSB, FCSB, and PLAS. Authorized users shall---* enter and use information in ADPS for both loan making and servicing purposes.

B Overview

ADPS is used to:

- manuscript select transactions and analyze and correct those transactions if rejected from PLAS (discrepancies)
- view a borrower's loan status information, which lists the following:
 - unpaid balances of existing direct loans along with basic information about each loan
 - cross-reference data from throughout the nation
 - detailed history of transactions
- route selected ADPS-manuscripted or discrepancy transactions that are only processed *--by FaSB using special routing codes--*
- view received, processed, and corrected payment activity
- view acquired property information and detailed history of transactions processed for an acquired property.

C ADPS Assistance

ADPS Online Help is:

- a computer-based system that provides ADPS processing information in the form of online reference material (Reference) and pop-up windows
- accessed from the terminal screen.

The online material reference provides general information about ADPS transactions, definitions, and code values for all short descriptions and mnemonics on transaction detail screens and status screens, discrepancy code definitions, and corrective actions. Pop-up windows provide information for pre-manuscripting validations and manuscript transactions.

For information on ADPS, contact the State Office Automation Coordinator or, if authorized, the Help Desk at 1-800-457-3642. The Help Desk will provide information, guidance, and technical assistance in resolving problems about ADPS operations.

D Requesting Changes to the User Documentation

To initiate a change to the user documentation, submit FmHA 2006-21 to the following.

USDA RURAL DEVELOPMENT USER DOCUMENTATION STAFF MAIL CODE 421 *--4300 GOODFELLOW BOULEVARD--* ST LOUIS MO 63120

E Maintaining Program Records

--When submitting transaction information through ECM to FaSB and FCSB, the-- authorized agency official must retain the original documents, screen printouts, and transmittal letters. These will be filed in the case folder after verifying that the transaction has been processed.

ADPS screen printouts must be retained in position 2 of the case folder according to 25-AS retention requirements for the folder and its entire contents.

When applicable, users must access ADPS to determine that the selected transactions have been processed or rejected. Users must file processed transaction screens, correct discrepancies, and annotate the related source/input document with the corrected information. Users must generate screen printouts of all corrections and file them with the original input document.

F Using "OK to Apply Codes"

"OK to Apply Codes" are used to process a transaction or correct a discrepancy as required by the online assistance for processing transactions. The user shall file a copy of the screen printout to verify the use of an "OK to Apply Code". Screen printouts will be retained in the case folder according to 25-AS retention requirements for the folder and its entire contents.

G Processing Schedule

Users must process transactions within 10 calendar days of the effective date. If a discrepancy occurs, the transaction must be corrected within 5 calendar days of the initial rejection date. An additional 15 calendar days are allowed for correcting discrepancies with a suspend code on the borrower account.

H State Office Action

SED shall ensure timely automation processing and that a County Office is at an acceptable level by:

- training at least 2 employees to process transactions
- processing ADPS transactions as of the effective date or the next workday thereafter
- using "Action Pending Codes" from Online Help when necessary to delay initial processing or make discrepancy corrections.

A Requesting CAIVRS ID and Password

Employees who perform CAIVRS checks shall request a CAIVRS ID and password according to the following.

Step	Action
1	*Access the CAIVRS web site at
	https://entp.hud.gov/caivrs/public/home.html*
2	CLICK "Using CAIVRS".
3	Under "Government Agencies", CLICK "Registration for Government User ID".
4	Follow the instructions to obtain a government user ID.
	For "Select Agency/Program", CLICK "USDA/Farm Service" and continue entering the required information.
5	CLICK "Send Application" and the request for a government user ID will be
	processed.

Once the CAIVRS ID and password request has been completed, users must:

- complete FSA-13-A, items 1 through 13 and item 37
- forward the completed FSA-13-A to the State SLR.

The State SLR must enter FSA-13-A information into ERSR before a CAIVRS ID and password can be issued.

Upon receiving ERSR from the State SLR, the FSA CAIVRS administrator will provide by e-mail, a CAIVRS ID and password to the requesting employee within 3 working days.

Note: CAIVRS passwords are valid for 21 calendar days and must be reset before expiring. *--Passwords must be exactly 8 characters, are case sensitive, and must contain at least 1 letter, 1 number, and 1 special character. For forgotten or expired password--* assistance, contact the Security Operations Help Desk at 800-255-2434, option 2.

53 CAIVRS (Continued)

B Using CAIVRS

Perform a CAIVRS inquiry according to the following.

Step	Action
1	Access the CAIVRS web site at https://entp.hud.gov/caivrs/public/home.html.
2	CLICK "Government User Menu".
3	Enter CAIVRS ID and password.
4	Select the function to perform when prescreening an applicant, such as "CAIVRS"
	Authorization".
5	Select the agency or program that is prescreening the applicant from the agency
	list.
6	Enter the applicant's Social Security number or EIN and select the appropriate
	Social Security number or EIN indicator.
7	CLICK "Submit".
8	Print the "CAIVRS Authorization Results" and place in case file.

Note: If there are no claims, defaults, or foreclosures reported to CAIVRS, then CAIVRS will respond that there are no cases and provide a confirmation number.

*--54 Oracle EPM 11 Data Mart

A Purpose and Overview

The Oracle EPM 11 Data Mart is an ad-hoc reporting system used by the National Office and State Offices for monitoring purposes. FLP users who request and are granted access to the Oracle EPM 11 Data Mart will be given access to the FLP Data Mart folder within the Oracle EPM 11 Data Mart. A user with access to the FLP Data Mart folder can pull direct loanmaking and loan servicing data as entered through DLS. Reports can be downloaded to Hyperion, Excel, or PDF format.

B User Assistance

The Oracle EPM 11 Data Mart may be accessed on the FSA Data Warehouse Home Page at https://fsadwhouse.sc.egov.usda.gov/FSA-DataMarts/FSAdataMartsHomePage.htm by clicking "Oracle EPM 11 Data Marts".

The Oracle EPM 11 Reports User Guide for FLP Data Mart may be accessed on the FSA - Farm Loan Programs Systems Manual web site at https://amistad.sc.egov.usda.gov/flp/InformationalLinks?Action=Manuals&caller=index by clicking "Oracle EPM 11 Reports User Guide".

C Security

Authorized users may access the Oracle EPM 11 Data Mart reporting system using their eAuthentication ID. New users can be requested by completing and submitting FSA-13-A according to appropriate IRM directives.

D Available Reports

See Exhibit 18 for a list of available reports.--*

55 Type of Assistance and Fund Codes

A Fund Codes

Fund codes are used to identify a type of loan. For example, Fund Code 44 indicates OL.

Obsolete fund codes are not used for new loans; however, obsolete fund codes will be reassigned if the loan is assumed.

See Exhibit 16 for a list of fund codes.

B Type of Assistance Codes

Type of assistance codes identify the specific type of loan for DLS obligation purposes. For example, a Type of Assistance Code 152 is a 1-year Rural Youth loan for an SDA applicant.

See Exhibit 16 for a list of types of assistance codes.

56-59 (Reserved)

60 Interest Rates

A Interest Rates for Direct Loans

[7 CFR 761.9] Interest rates for all direct loans are set in accordance with the Act. A copy of the current interest rates may be obtained in any Agency Office.

Note: See Exhibit 17 for current interest rates.

Part 4 Supervised Bank Accounts

101 Overview

A Supervised Bank Account

A <u>supervised bank account</u> is an account with a financial institution established through a deposit agreement entered into between the borrower, FSA, and the financial institution.

B Establishing a Supervised Bank Account

[7 CFR 761.51 (a)] Supervised bank accounts will be used to:

- (1) Assure correct use of funds planned for capital purchases or debt refinancing and perfection of the Agency's security interest in the assets purchased or refinanced when electronic funds transfer or treasury check processes are not practicable;
- (2) Protect the Agency's security interest in insurance indemnities or other loss compensation resulting from loss or damage to loan security; or
- (3) Assist borrowers with limited financial skills with cash management, subject to the following conditions:
- (i) Use of the supervised bank account for this purpose will be temporary and infrequent;
- (ii) The need for a supervised bank account in this situation will be determined on a case-by-case basis; and
- (iii) The borrower agrees to the use of a supervised bank account for this purpose by executing the deposit agreement.

*--Until CFR is amended, supervised bank accounts may be used to:

- protect the Agency's security interest in insurance indemnities or other loss compensation resulting from loss or damage to loan security
- assure correct use of funds planned with proceeds from the sale of basic security and perfection of the Agency's security interest in the assets purchased
- assure correct use of funds planned for performing construction and other development work.--*

101 Overview (Continued)

B Establishing a Supervised Bank Account (Continued)

*--FSA-2140 will be signed by all borrowers.

A supervised bank account will be used, only when necessary, to ensure that loan or security proceeds are used according to the farm operating plan, agreement to use proceeds, construction and development plan, or other agreement with FSA.

Note: Supervised bank accounts must **not** be used in place of EFT or Treasury checks, according to 7 CFR 764.402(e)(3) (3-FLP, subparagraph 431 A), if practicable.--*

C Justification for Using a Supervised Bank Account

County Offices must:

- ensure that a supervised bank account is established according to this Part
- document in FBP Credit Presentation the reason a supervised bank account was established.

Note: For servicing actions that do not require a Credit Presentation be completed, justification will be documented in FBP.

See 3-FLP, 4-FLP, and 5-FLP for specific loan making and servicing situations where a supervised bank account is needed.

DD's and State Offices must review case files of borrowers with supervised bank accounts during County Office reviews to:

- verify that documentation is in place
- document in FBP their concurrence that the supervised bank account is needed.

If the review determines that the supervised bank account is not needed, DD or State Office must:

- document the results of the review in FBP
- instruct the authorized agency official to close the supervised bank account.

A Selecting a Financial Institution

[7 CFR 761.51(b)] The borrower may select the financial institution in which the account will be established, provided the institution is Federally insured. If the borrower does not select an institution, the Agency will choose one.

[7 CFR 761.51(c)] Only one supervised bank account will be established for any borrower.

[7 CFR 761.51(d)] If both spouses sign an FLP note and security agreement, the supervised bank account will be established as a joint tenancy account with right of survivorship from which either borrower can withdraw funds.

B Opening a Supervised Bank Account

The authorized agency official must provide the financial institution with FSA-2140, which addresses:

- services to be provided
- frequency and method of transmission for account statements
- countersignature requirements
- waiving of service charges whenever possible.

The authorized agency official, the financial institution, and any borrower authorized to write checks must sign FSA-2140. File the original in the borrower's case file and provide 1 copy to the borrower and 1 copy to the financial institution.

The authorized agency official is not required to provide his or her SSN to the financial institution. Government agencies are exempt from the requirements of the Customer *--Identification Program. See 3-FI and 64-FI.--*

Note: Supervised bank accounts shall remain open no longer than 12 months, unless justified by the loan official, and concurrence by DD. DD must document the reason in the FBP running record.

C Type of Account

[7 CFR 761.53(a)] A supervised bank account, if possible, will be established as an interest bearing deposit account provided that funds will not be immediately disbursed, and the account is held jointly by the borrower and the Agency if this arrangement will benefit the borrower.

The authorized agency official, the borrower, and the financial institution must complete FSA-2141 when an interest bearing account is used.

D Account Balance Exceeding the Maximum Amount Insured by the Government

[7 CFR 761.51(e)] If the funds to be deposited into the account cause the balance to *--exceed the maximum amount insurable by the Federal Government, the financial--* institution must agree to pledge acceptable collateral with the Federal Reserve Bank for the excess over the insured amount, before the deposit is made.

* * *

Agency officials should use EFT or multiple advances when possible to minimize instances where the balance in supervised bank accounts will exceed the maximum insurable amount.

If an account balance will exceed \$250,000, County Offices must complete FSA-2144 and forward it to the State Office. The State Office shall submit FSA-2144 to:

- FMD FINANCIAL SYSTEMS AND PROCEDURES BRANCH STOP 0581 1400 INDEPENDENCE AVE SW WASHINGTON DC 20250-0581
- FAX: 703-305-1144.

FMD will coordinate the collateralization with the financial institution.

[7 CFR 761.51(e)] (1) If the financial institution is not a member of the Federal Reserve System, the institution must pledge acceptable collateral with a correspondent bank that is a member of the Federal Reserve System. The correspondent bank must inform the Federal Reserve Bank that it is holding securities pledged for the supervised bank account in accordance with 31 CFR Part 202 (Treasury Circular 176).

(2) When the balance in the account has been reduced, the financial institution may request a release of part or all of the collateral, as applicable, from the Agency.

Requests for release of collateral will be forwarded to FMD, Financial Systems and Procedures Branch.

103 Supervised Bank Account Transactions and Monitoring

A Deposits

[7 CFR 761.52(a)] Checks or money orders may be deposited into a supervised bank account provided they are not payable:

- (1) Solely to the Federal Government or any agency thereof; or
- (2) To the Treasury of the United States as joint payee.

The authorized agency official must prepare the deposit slip and deliver the deposit to the financial institution. Copies are distributed to the borrower and the borrower's case file.

FSA must maintain a record of all deposits, including funds from other sources, on FSA-2142.

B EFT Transactions

[7 CFR 761.52(b)] Loan proceeds may be deposited electronically.

The authorized agency official should use EFT to deposit loan funds to a supervised bank account.

The authorized agency official will make the initial deposit to the supervised bank account with a paper check only when required by the financial institution or if an EFT waiver is on file. FSA may then make subsequent advances by initiating EFT transactions.

103 Supervised Bank Account Transactions and Monitoring (Continued)

C Withdrawals from a supervised bank account

[7 CFR 761.54(a)] The Agency will authorize a withdrawal from the supervised bank account for an approved purpose after ensuring that:

- (1) Sufficient funds in the supervised bank account are available;
- (2) No loan proceeds are disbursed prior to confirmation of proper lien position, except to pay for any lien search if needed;
- (3) No checks are issued to "cash"; and
- (4) The use of funds is consistent with the current farm operating plan or other agreement with the Agency.

[7 CFR 761.54(b)] A check must be signed by the borrower with countersignature of the Agency, except as provided in Paragraph (c) of this section (subparagraph 103 D). All checks must bear the legend "countersigned, not as co-maker or endorser."

D Withdrawal Without Borrower Signature

[7 CFR 761.54(c)] The Agency will withdraw funds from a supervised bank account without borrower counter signature only for the following purposes:

- (1) For application on Agency indebtedness;
- (2) To refund Agency loan funds;
- (3) To protect the Agency's lien or security;
- (4) To accomplish a purpose for which such advance was made; or
- (5) In the case of a deceased borrower, to continue to pay necessary farm expenses to protect Agency security in conjunction with the borrower's estate.

The authorized agency official must submit recommendations for withdrawal to SED, in writing. SED may withdraw funds from a supervised bank account using FSA-2145.

103 Supervised Bank Account Transactions and Monitoring (Continued)

E Documentation

The authorized agency official may retain copies of invoices, receipts, or other documentation, as necessary, to support withdrawals from the supervised bank account.

F Interest

[7 CFR 761.53(b)] Interest earned on a supervised bank account will be treated as normal income security.

See 4-FLP for further information on normal income security.

G Reconciliation

The authorized agency official must reconcile the supervised bank account statement with FSA-2142. Items to be reconciled are the payee, amount of each check, and the balance in the account. Deposits and withdrawals verified during the reconciliation will be initialed and *--dated. Any discrepancies must be resolved and documented in the FBP running record.

The authorized agency official must return the statement and canceled checks to the borrower after the reconciliation has been completed. The results of the reconciliation must be documented in the FBP running record.

Note: Signing checks and reconciliation must be completed by separate agency officials.

H Annual Report

The State Office will review all SBA's at least annually. Each State Office will submit the annual SBA Review Report, as of September 30 through SDMS, documenting the number of SBA accounts that are open, total present balance in all accounts, and justification for all accounts open longer than 12 months no later than October 31.

Note: See 1-AS, Exhibit 8 for guidance on using SDMS. ENTER "SBA Review Report" as the title.--*

104 Closing Accounts

A Account No Longer Needed

[7 CFR 761.55(a)] If the supervised bank account is no longer needed and the loan account is not paid in full, the Agency will determine the source of the remaining funds in the supervised bank account. If the funds are determined to be:

- (1) Loan funds:
- (i) From any loan type, except Youth loan, and the balance is less than \$1000, the Agency will provide the balance to the borrower to use for authorized loan purposes;
- (ii) From a Youth loan, and the balance is less than \$100, the Agency will provide the balance to the borrower to use for authorized loan purposes;
- (2) Loan funds:
- (i) From any loan type, except Youth loan, and the balance is \$1000 or greater, the Agency will apply the balance to the FLP loan;
- (ii) From a Youth loan, and the balance is \$100 or greater, the Agency will apply the balance to the FLP loan;
- (3) Normal income funds, the Agency will apply the balance to the remaining current year's scheduled payments and pay any remaining balance to the borrower; and
- (4) Basic security funds, the Agency will apply the balance to the FLP loan as an extra payment or the borrower may apply the balance toward the purchase of basic security, provided the Agency obtains a lien on such security and its security position is not diminished.

B Uncooperative Borrowers

[7 CFR 761.55(b)] If the borrower is uncooperative in closing a supervised bank account, the Agency will make written demand to the financial institution for the balance and apply it in accordance with paragraph (a) (subparagraph 104A) of this section.

Written demand will be made by SED according to subparagraph 103 D.

104 Closing Accounts (Continued)

C Death of Borrower

[7 CFR 761.55(c)] In the event of a borrower's death, the Agency may:

- (1) Apply the balance to the borrower's FLP loan;
- (2) Continue with a remaining borrower, provided the supervised bank account was established as a joint tenancy with right of survivorship account;
- (3) Refund unobligated balances from other creditors in the supervised bank account for specific operating purposes in accordance with any prior written agreement between the Agency and the deceased borrower; or
- (4) Continue to pay expenses from the supervised bank account in conjunction with the borrower's estate.

Deceased borrower's supervised bank accounts will be handled according to 4-FLP. SED may withdraw funds according to subparagraph 103 D after obtaining approval from OGC.

105-120 (Reserved)

Part 5 Planning and Performing Construction and Other Development

121 Overview

A Purpose

[7 CFR 761.10(a)] This section describes Agency policies regarding the planning and performing of construction and other development work performed with:

- (1) Direct FLP loan funds; or
- (2) Insurance or other proceeds resulting from damage or loss to direct loan security.

A Applicability

An applicant for an FLP loan for construction or repair of farm dwellings, service buildings, *--or land development must submit a construction and development plan to FSA before loan approval.--*

A borrower using insurance or other proceeds resulting from the damage or loss of loan security for construction, repair, or land development must submit a construction and development plan to FSA before the release of any proceeds.

B Funds for Development Work

[7 CFR 761.10(b)] The applicant or borrower:

(1) Must provide the Agency with an estimate of the total cash cost of all planned development prior to loan approval.

Note: Estimates must be provided from the supplier or contractor who will provide services or perform the repair.

- (2) Must show proof of sufficient funds to pay for the total cash cost of all planned development at or before loan closing.
- (3) Must not incur any debts for materials or labor or make any expenditures for development purposes prior to loan closing with the expectation of being reimbursed from Agency funds.

Acceptable sources of funds to pay for the planned development include loan proceeds, any cash furnished by the borrower, proceeds from cost sharing programs, or proceeds from the sale of property.

C Scheduling, Planning, and Completing Development Work

[7 CFR 761.10(c)] The applicant or borrower:

(1) Is responsible for scheduling and planning development work in a manner acceptable to the Agency and must furnish the Agency information fully describing the planned development, the proposed schedule and the manner in which it will be accomplished.

Construction and development work may be performed either by the contract method or the borrower method.

Under the contract method, construction and development contractors perform work according to a written contract with the applicant or borrower. Under the borrower method, the applicant or borrower will perform the construction and development work.

The borrower method may only be used when the authorized agency official determines, based on information from the applicant, that both of the following conditions apply.

- The applicant possesses or arranges to obtain the necessary skill and managerial ability to complete the work satisfactorily
- Such work will not interfere with the applicant's farming operation or work schedule.

An applicant or borrower must submit FSA-2150 along with the following information:

- cost estimates that fully describe the materials to be used and the work to be performed according to subparagraph B
- certified drawings, specifications, or contract documents that completely describe the work, including all landscaping, repairs, and site development
- technical data, tests, or engineering evaluations, if requested by FSA.

D Qualified Technical Services

The applicant or borrower:

[7 CFR 761.10(c)(5)] Is responsible for obtaining any required technical services from qualified technicians, trades-people, and contractors.

The applicant should be advised to review copies of license, liability insurance, and bond coverage; however, copies are not required for the borrower's file.

^{*--}The applicant or borrower must identify and inform FSA of the authorities or professionals who will perform inspections before initiating conservation or development projects.--*

E Construction and Repair Standards

[7 CFR 761.10(d)] (1) The construction of a new building and the alteration or repair of an existing building must conform with industry-acceptable construction practices and standards.

- (2) All improvements to a property must conform to applicable laws, ordinances, codes, and regulations.
- (3) The applicant or borrower is responsible for selecting a design standard that meets all applicable local and state laws, ordinances, codes, and regulations, including building, plumbing, mechanical, electrical, water, and waste management.
- (4) The Agency will require drawings, specifications, and estimates to fully describe the work as necessary to protect the Agency's financial interests. The drawings and specifications must identify any specific development standards being used. Such information must be sufficiently complete to avoid any misunderstanding as to the extent, kind, and quality of work to be performed.
- (5) The Agency will require technical data, tests, or engineering evaluations to support the design of the development as necessary to protect its financial interests.
- (6) The Agency will require the applicant or borrower to provide written certification that final drawings and specifications conform with the applicable development standard as necessary to protect its financial interests. Certification must be obtained from individuals or organizations trained and experienced in the compliance, interpretation, or enforcement of the applicable development standards, such as licensed architects, professional engineers, persons certified by a relevant national model code organization, authorized local building officials, and national code organizations.

- permits issued by local building authorities, based on review of detailed plans and specifications
- licensed general contractor
- local building company.--*

^{*--}Certification required may vary based on type of construction and amount needed and may include, but not be limited to:

F Scheduling Construction

The applicant or borrower:

[7 CFR 761.10(c)(4)] Must schedule development work to start as soon as feasible after the loan is closed and be completed as quickly as practicable.

Development work should be completed no later than 12 months from the date of loan closing. The authorized agency official must document any extension beyond 12 months in *--FBP.--*

G Approvals and Permits

The applicant or borrower:

[7 CFR 761.10(c)(2)] Is responsible for obtaining all necessary State and local construction approvals and permits prior to loan closing.

All necessary State and local construction approvals and permits should be obtained before loan closing. Failure to obtain such approvals and permits in a timely manner may delay the project and increase costs. In some cases, all approvals and permits may not be available until after construction.

H Environmental Review

The applicant or borrower:

[7 CFR 761.10(c)(3)] Must ensure that all development work meets the environmental requirements established in subpart G of 7 CFR part 1940.

See 1-EQ and the State Natural Resources Guide for additional guidance.

I Warranty and Lien Waivers

[7 CFR 761.10(f)] The applicant or borrower must obtain and submit all lien waivers on any construction before the Agency will issue final payment.

The borrower must submit a completed FSA-2153 and FSA-2154 or other documentation acceptable to FSA before FSA will issue final payment. The authorized agency official must place the completed FSA-2153 or other acceptable documentation in the borrower's case file.

The borrower should obtain warranties as applicable.

123 Review of Proposed Construction and Development Plans

A Review Process and Criteria

FSA will review the proposed method of doing the work and determine whether the work can be performed satisfactorily under the proposed method. To facilitate its review, FSA will visit the farm or site of the proposed construction or development.

In this review, the authorized agency official must:

- review the cost estimate for reasonableness
- analyze the adequacy of the planned construction or development in achieving applicant goals according to the farm assessment, as outlined in Part 8, Section 2
- determine that the applicant has adequate funds to complete the project according to subparagraph 122 B
- determine whether the contractor will be able to obtain surety according to paragraph 126
- determine whether the applicant will be able to obtain a warranty and a lien waiver according to subparagraph 122 I
- determine that the location is appropriate and adequate for the proposed development
- examine the project for compliance with environmental (e.g., lead paint, water, waste disposal), and cultural protection requirements, consistent with 1-EQ
- determine that the proposed schedule is realistic and results in completion as quickly as practicable and within no more than 12 months according to subparagraph 122 F
- if required, determine that the applicant has obtained a written certification from a State-licensed engineer or architect that final drawings and specifications meet appropriate development standards according to subparagraph 122 E.

123 Review of Proposed Construction and Development Plans (Continued)

B Security Considerations

The authorized agency official should ensure that the Government's security interest in the development is adequately protected by completing inspections and monitoring progress, as appropriate. Examples of potential lending risks include the following:

- incomplete construction caused by undisclosed or undiscovered site characteristics, structural problems arising from inadequate or incompetent engineering or design, local opposition to the project, or environmental problems
- cost overruns resulting from delays, changes in building materials or labor markets, changes in cost or failure to estimate properly, unexpected increases in financing costs
- financial failure because of unfavorable market conditions or inability of the borrower to complete the project.

124 Inspections

A Applicant/Borrower Inspections

[7 CFR 761.10(e)(1)] The applicant or borrower is responsible for inspecting development work as necessary to protect their interest.

The borrower's inspection ascertains that the actual construction and development work conforms with all plans, applicable design standards, and local, State, and Federal laws and regulations. In addition, an inspection helps to ensure that contractors and subcontractors comply with the contract terms and that structures are in livable and operable condition before final payment.

The authorized agency official will evaluate the following in determining if FSA inspections are needed:

- total cost of construction
- complexity of project
- whether State or local Government inspections address the full scope of design or performance issues of concern to FSA
- cost of obtaining inspections and availability of professional inspection services.
- *--[7 CFR 761.10(e)(2)] The applicant or borrower must provide the Agency written--* certification that the development conforms to the plans and good construction practices, and complies with applicable laws, ordinances, codes and regulations.

Where required by applicable State or local laws, ordinances, codes, and regulations, the borrower must have inspections performed by responsible State or other Government authorities. The borrower must provide a copy of the written certification obtained from the State or local authorities as appropriate.

* * *

Complex projects may require several inspections. For example, inspections may be appropriate for major building components (e.g., wiring) that would not be visible when construction is complete. At a minimum, inspections of most new construction should include mechanical, plumbing, electrical, and all applicable requirements about water and sewage disposal. Inspections for repairs and some types of new construction (e.g., service buildings without utilities) are more limited in scope.

124 Inspections (Continued)

B Other Inspections

[7 CFR 761.10(e)(3)] The Agency will require the applicant or borrower to obtain professional inspection services during construction as necessary to protect its financial interests.

(4) Agency inspections do not create or imply any duty or obligation of the Government to the applicant or borrower.

When performed, FSA inspections are for FSA's benefit, not to assure the borrower that the construction is according to plans and specifications. The purpose of an inspection is to determine that FSA has adequate security for its loan and loan funds or security proceeds are used as planned.

Inspections by FSA staff are not mandatory. However, to protect the interest of the Government, an authorized agency official should participate in final inspections, accompanied by the borrower if practicable. FSA inspections will be to certify that funds were used for authorized purposes and not to guarantee workmanship or construction soundness.

--Inspections will be documented in FBP.--

C Correction of Deficiencies

The borrower is responsible for following up on the correction of deficiencies noted in any inspection and must provide FSA with documentation of follow-up and correction of deficiencies.

If the borrower or the contractor refuses to correct the deficiencies, the authorized agency official will contact the State Office for guidance.

D Reviewing Incomplete Developments

If the borrower has not completed development work within a reasonable time after the date of loan closing or receipt of security proceeds and the authorized agency official has determined that the borrower cannot or will not complete the development, the authorized agency official must contact the State Office for guidance.

Note: Any funds remaining in the supervised bank account should be handled according to subparagraph 103 D.

125 Changing the Planned Development

A Permissible Changes

[7 CFR 761.10(h)] An applicant or borrower must request, in writing, Agency approval for any change to a planned development. The Agency will approve a change if all of the following are met:

- (1) It will not reduce the value of the Agency's security;
- (2) It will not adversely affect the soundness of the farming operation;
- (3) It complies with all applicable laws and regulations;
- (4) It is for an authorized purpose;
- (5) It is within the scope of the original loan proposal;
- (6) If required, documentation that sufficient funding for the full amount of the planned development is approved and available;
- (7) If required, surety to cover the full revised development amount has been provided; and,
- (8) The modification is certified in accordance with paragraph (d)(6) (subparagraph 122 E) of this section.

B Change Orders Procedures

When a borrower completing construction or development under the borrower method requests FSA approval of changes, the authorized agency official and the borrower will revise, date, and initial FSA-2150. Revised plans and specifications will be obtained as appropriate when a borrower completing construction or development under the contract method requests FSA approval of changes.

The borrower will submit revised contract documents, plans, and specifications, as appropriate.

The borrower and the borrower's contractors and subcontractors may not proceed with a proposed change and may not reflect the change in payment requests until FSA approves the requested change.

126 Surety Bonds

A Surety

[7 CFR 761.10(g)] The Agency will require surety to guarantee both payment and performance for construction contracts as necessary to protect its financial interests.

An applicant for a direct loan to finance a construction project must obtain from a construction contractor a surety bond that guarantees both payment and performance in the amount of the construction contract when 1 or more of the following conditions exist:

- contract exceeds \$100,000
- authorized agency official determines that a surety bond appears advisable to protect the borrower against default of the contractor
- contract provides for partial payments in excess of the amount of 60 percent of the value of the work in place.

When the surety is required, the applicant's contract with the contractor must indicate that the contractor will furnish a properly executed surety bond before starting any work.

FSA will incur no liability to a surety bond issued in connection with a construction contract. The contractors must name FSA as a co-beneficiary in all surety bonds unless prohibited by State law.

B Sources of Surety

A contractor must obtain the surety bonds from a corporate bonding company listed on the current Department of Treasury Circular 570.

Note: The Treasury Department publishes this circular in the Federal Register annually. A current copy may be obtained from http://www.fms.treas.gov/c570/index.html.

The contractor may use a corporate bonding company not listed on Department of Treasury Circular 570 with SED approval. In no case may the applicant or any person or organization with an interest in the applicant's operation provide the required surety bond.

126 Surety Bonds (Continued)

C Exceptions to Surety Requirements

If the contractor is unable to obtain a surety bond meeting the requirements in subparagraphs A and B, the applicant may submit a written request for an exception from SED. The request must specifically state why the contractor is unable to obtain an acceptable surety bond and why it is financially advantageous for the applicant to proceed with the proposed contractor without such a bond.

SED may grant an exception if the proposed contractor is reliable and experienced in the construction of projects of similar size, design, scope, and complexity and has financial assurance comparable to being bonded.

127-140 (Reserved)

Part 6 Appraisals

141 General Appraisal Requirements

A General

[7 CFR 761.7(a)] This section describes the requirements for:

- (1) Real estate and chattel appraisals made in connection with the making and servicing of direct FLP loans and Nonprogram loans
- (2) appraisal reviews conducted on appraisals made in connection with the making and servicing of direct and guaranteed FLP and Non-program loans.

B Purpose

FSA uses appraisals to determine the value of real and personal property or other security pledged or to be pledged to support direct loans and loan servicing actions. FSA requires a lender to obtain an appraisal in certain guaranteed loan making and servicing cases.

--Appraisals are an integral part of determining whether there is adequate security to support-- a loan or servicing action.

C USPAP Compliance

[7 CFR 761.7(b)(1)] Real estate appraisals, technical appraisal reviews and their respective forms must comply with the standards contained in USPAP, as well as applicable Agency regulations and procedures for the specific FLP activity involved. Applicable procedures and regulations are available for review in each Agency State Office.

To comply with OMB Circular No. A-129, the employee making a real estate appraisal may not approve any action in which the real estate appraisal was used, including loan approval or any servicing action.

141 General Appraisal Requirements (Continued)

D Appraisal Costs

- *--Responsibility for payment of appraisal costs is as follows:
 - FSA, for cost of obtaining an appraisal associated with direct loan making and loan servicing activities

Note: See Part 7 for information on FSA appraisal costs and payments.

the applicant or borrower for costs associated with appealing or negotiating FSA--*
appraisals.

Note: See paragraph 144 for information on appraisal appeals.

E Obtaining Appraisals

A chattel appraisal may be conducted by either an FSA employee who has been delegated chattel appraisal authority from SED or a contract appraiser.

*--For direct credit transactions, a real estate appraisal is obtained according to the following table.

IF credit

__*

Notes: A credit transaction includes any action or existing debt secured by real estate and any proposed loans, subordinations, prior liens, or guarantees.

141 General Appraisal Requirements (Continued)

E Obtaining Appraisals (Continued)

--A State-certified residential appraiser can appraise residential properties, including 1 to 4 single family units, and small agricultural properties or bare land. The property must be determined to be within the scope of the State license authority in which the subject property is located. Any other properties usually will be beyond the scope of a State-certified residential appraiser. If there are concerns whether the property under consideration may be appraised by a State-certified residential appraiser, consult an FSA staff appraiser.--

SED shall issue a State supplement providing guidance on the process to request:

- a chattel appraisal from a contract appraiser
- a real estate appraisal.

FSA offices shall release information requested by the appraiser to complete real estate appraisals.

F Using an Existing Appraisal

[7 CFR 761.7(c)] Except where specified elsewhere, when a real estate appraisal is required, the Agency will use an existing real estate appraisal to reach loan making or servicing decisions under either of the following conditions:

- (1) The appraisal was completed within the previous 12 months and the Agency determines that:
- (i) The appraisal meets provisions of this section and applicable Agency loan making and servicing requirements, and
- (ii) Market values have remained stable since the appraisal was completed; or
- (2) the appraisal was not completed in the previous 12 months, but has been updated by the appraiser or appraisal firm that completed the appraisal and both the update and original appraisal were completed in accordance with USPAP.

Note: Current USPAP requirements provide that an update of an appraisal is a new appraisal assignment. The appraiser may provide a new report:

- without incorporating the prior report
- by incorporating the prior report by attachments
- by incorporating the prior report by reference only if the original appraiser's firm and original intended users agree.

141 General Appraisal Requirements (Continued)

F Using an Existing Appraisal (Continued)

An existing chattel appraisal may be used if it was completed within the previous 24 months and:

- FSA determines that the appraisal meets the loan making and/or servicing requirements
- market values have remained stable since the appraisal was completed.

G Using Third Party Appraisals

FSA may use an appraisal that has been completed by a third party for any direct or guaranteed loan making or servicing action, provided the appraisal meets all of the following:

- appraisal was completed within the previous 12 months
- appraisal was signed by a State-certified general appraiser licensed in the State where the property is located
- intended use stated in the report is consistent with FSA's need.

Notes: FSA does not need to be listed as an intended user in a third party appraisal report for any direct or guaranteed loan making or servicing action; however, FSA must verify that the appraisal was ordered by and prepared for a financial institution or land trust. Borrower-ordered appraisals are not acceptable for loan making or servicing actions except as provided in 5-FLP for special servicing actions.

If the administrative review concludes the appraisal is **not** acceptable for FSA use, a technical review should **not** be completed, nor should the report be used.

H Contracts for Appraisal Services

Contracts for obtaining real estate appraisals and technical reviews or chattel appraisals shall be established according to Part 7.

Contract appraisers must remain independent from other FSA processes that are not appraisal-related.

Note: FSA processes that are not appraisal-related include completion of environmental screening questionnaires or forms.

142 Appraisal Reports

A Chattel Appraisals

[7 CFR 761.7(b)(2)] When a chattel appraisal is required it must be completed on an applicable Agency form (available in each Agency State Office) or other format containing the same information.

FSA may use FSA-2160. If FSA-2160 is not used, the chattel appraisal, as a minimum, will identify all chattel items appraised, including the following details:

• the quantity, kind, sex, breed, color, weight or average weight, brands or other identification, and value of livestock

Note: Weight is not required for breeding stock.

• the quantity, kind, manufacturer, size and type, condition, year of manufacture, serial or motor number, and value of machinery and other equipment.

The appraised value of chattel property will be based on public sales of the same or similar property in the market area. In the absence of public sale data, reputable publications may be used to establish market value. ***

142 Appraisal Reports (Continued)

B Real Estate Appraisals

A real estate appraisal, as a minimum, will be an appraisal report as defined by USPAP. Any exception to allow the use of a restricted report requires prior written approval by SED. SED may redelegate this authority to the designated State staff appraiser. Approval of restricted reports will only be granted under extraordinary circumstances, limited to situations where there will be only a single user of the report.

Real estate appraisals must include as a minimum, the following details:

 documentation of the physical onsite inspection of the subject and comparable properties by the appraiser

Note: Physical inspections are required for the appraisal unless an exception in writing is provided by an FSA appraiser.

- documentation of the results of the following 3 approaches to estimating value, as
 determined to be applicable and necessary, except as provided in the scope of work in
 USPAP:
 - sales comparison approach
 - cost approach
 - income approach
- if adjustments are made, the basis for these adjustments as recognized by the market and supported by adequate documentation in the appraisal
- at least a 3-year sales history of the property
- the comparable sales used, including a breakdown of land and improvement features and photographs of improvements and land.

Note: Using the subject property's pending sale as a comparable is prohibited.

* * *

142 Appraisal Reports (Continued)

B Real Estate Appraisals (Continued)

*--Before the passage of the Agricultural Act of 2014 (Pub. L. 113-79) on February 7, 2014, CONACT provided for direct FO loans secured by real estate after December 23, 1985, the appraisal must consider the value of oil, gas, and other minerals for FSA to perfect its lien on the minerals. FSA is no longer required to include the value, even if nominal, of oil, gas, and other minerals to perfect its lien.

When the value of mineral rights is needed to adequately collateralize the loan, FSA-2164,--* Part D or other formats that provide the same information, will be included in the appraisal report to support the market value arrived at by the appraiser.

* * *

C Approved Appraisal Formats

Any appraisal format that meets USPAP requirements is acceptable.

FSA has the following available formats that may be used along with additional documentation to meet USPAP requirements:

- FSA-2161
- FSA-2162
- FSA-2163
- FSA-2164.

D Real Estate Appraisal Software

FSA has appraisal software available for full-time and part-time staff appraisers/reviewers. To obtain a copy of the software, or if there are questions about the software, contact Thomas Dobbin, Chief Appraiser, by either of the following:

- e-mail at thomas.dobbin@wdc.usda.gov
- telephone at 208-378-5671.

143 FSA Review of Appraisal Reports

A Overview

[7 CFR 761.7(d)(1)] With respect to a real estate appraisal, the Agency may conduct a technical appraisal review or an administrative appraisal review, or both.

[7 CFR 761.7(d)(2)] With respect to a chattel appraisal, the Agency may conduct an administrative appraisal review.

Real estate appraisals used for any direct or guaranteed loan making or servicing purpose are subject to a technical appraisal review or an administrative appraisal review by FSA for compliance with applicable FSA regulations and procedures.

--Chattel appraisal administrative reviews will be completed on FSA-2167.--

B Administrative Appraisal Reviews

Administrative appraisal reviews are conducted by FSA employees, other than an FSA full-time or part-time State-designated appraiser/reviewer, delegated the responsibility by SED. Employees must have completed training on conducting appraisal reviews, according to paragraph 147, before receiving this delegation.

An administrative appraisal review is performed as a due diligence function in the context of a loan making or servicing decision and to ensure compliance with organizational requirements. After the administrative appraisal review, the appraisal user will be in a position to understand the strengths and weaknesses of the information in the report. An administrative appraisal review is completed to verify that the:

- correct property was appraised
- math is correct
- appraisal is logical and understandable
- appraisal complies with FSA contracting requirements.

Note: An administrative appraisal review does not include a determination of compliance with USPAP.

The administrative reviewer will refer to the designated State staff appraiser any areas of concern or problems detected. An administrative reviewer may not express a different opinion of value and may not certify to the type and extent of review.

The administrative appraisal review is completed for farm properties on FSA-2165 and for residential properties on RD 1922-15, or in any other format containing, at a minimum, the same information.

*--C Conducting Administrative Appraisal Reviews

FSA will complete an administrative appraisal review:--*

- within 7 workdays of receiving a contracted appraisal obtained for any direct loan purpose
- on 20 percent of appraisals obtained during each FY by CLP and PLP lenders for any guaranteed loan purpose
- on all appraisals obtained during each FY by SEL's for any guaranteed loan purpose
- of chattel and real estate appraisals completed by FSA employees, as determined by SED
- on all third party appraisals.

D Technical Appraisal Reviews Overview

A technical appraisal review will be in writing to address all requirements of USPAP, Standard 3. Under the scope of the technical appraisal review, the appraiser/reviewer forms an opinion as to:

- the adequacy and relevance of the data used
- the propriety of any adjustments to the data
- the appropriateness of the appraisal methods and techniques used
- whether the analysis and conclusion of the appraisal under review is credible, and if not, the reason for expressing different opinion of value.

Unless written authority is granted by DAFLP, a technical appraisal review must be *--completed by a State-certified general appraiser, whose services are obtained under a contract, or FSA full-time or part-time State-designated appraiser/reviewer who will--* determine whether the appraisal is in compliance with USPAP Standards. The appraiser/reviewer must certify as to the type and extent of the review process. A technical appraisal review may include a desk review and/or a field review. The appraiser/reviewer may express a different opinion of value from the appraiser, only after complying with USPAP Standards 1 and 2.

The technical appraisal review is completed for agriculture properties on FSA-2166, or any other format containing, at minimum, the same information and complies with USPAP standards.

A technical desk review:

- is an analysis of the material presented in the appraisal report as to the adequacy of the documentation of the final value estimate
- may reveal concerns, such as math errors, discrepancies of legal descriptions, comparable sales used that are not recent or similar to the subject property, failure to give value consideration to all items located on the subject property, and failure to address the condition of the subject and comparable sales.

A technical field review involves an examination of all aspects of making the appraisal. All information contained in the appraisal report is verified, inspected, and researched. Other information, such as other comparable sales, not included in the report may be addressed.

Problems or areas of concern detected during the technical appraisal review will be referred to the appraiser who conducted the appraisal.

E Conducting Technical Appraisal Reviews

FSA will complete a technical appraisal review of the following:

- first direct loan appraisal completed by a contract appraiser and then 1 every 2 FY's thereafter
- first third party appraisal used for direct loan appraisals completed by an appraiser with whom FSA has had no appraisal experience and then 1 appraisal every 2 FY's thereafter

* * *

Note: If an appraisal has been technically reviewed under any of the previous bullets, it is **not** necessary to conduct another review of another appraisal completed by the same appraiser on a different category, such as appraisal reviewed with a

- *--direct loan and the same appraiser subsequently completes another assignment--* that is submitted to FSA as a third party appraisal. A review would **not** be necessary.
- 1 appraisal (or technical review when an appraisal has not been completed during the cycle) completed by FSA staff appraisers every 2 FY's

Note: The National Office will coordinate peer desk type reviews and monitor completion and results. Peer reviewers and appraisal/technical reviews selected for review will be on a random basis.

- direct or guaranteed loan appraisals when an administrative review detects serious problems
- all appraisals completed by limited authority appraisers
- of appraisals conducted by contractors and FSA employees in a random spot check method that is established by SED

Note: Each year, SED will vary the method used to select appraisals for review to ensure that adequate internal controls are established.

- on a more frequent basis, if problems have been detected in the scheduled spot check review
- upon request of the loan approval official anytime before loan approval.

F Recordkeeping and Internal Management Controls

Each State must maintain a recordkeeping system and internal management controls to *--ensure that all administrative, technical (desk and field) reviews, and compliance activities--* are accomplished according to 25-AS, Exhibit 40.5.

G USPAP Records Retention

USPAP requires that appraisers retain documentation about appraisal reviews and technical appraisal reviews they conduct for whichever of the following is longer:

- 5 years from date of completion
- 2 years from the date all appeals and litigation about the appraisal are concluded.

SED's shall provide adequate storage space to staff appraisers for the duration of the required documentation retention period.

H FLP Appraisal Work Files

Appraisal work files **must**:

- **not** be destroyed or otherwise removed from FSA when USPAP retention requirements expire
- be relinquished when appraisers leave FSA employment positions.

Note: Appraisers may make copies of their work files at no cost before departing. Appraisers will be provided access to their work files on an as-needed basis to address State board concerns.

144 Appeals of Decisions Based on Appraisals

A Scope

This paragraph provides general information on appealing a direct loan making or loan servicing decision based on an appraisal. See 1-APP and paragraph 42 for additional information on appeals.

B When a Decision Based on an Appraisal May Be Challenged

An applicant or borrower may request reconsideration or appeal of any adverse decision based on an FSA appraisal. However, when the appraisal was obtained in connection with a request for PLS and negotiation of the appraisal has been completed according to 5-FLP, paragraph 230, the negotiated value is not appealable.

C Reconsideration of Real Estate Appraisals

An applicant or borrower may request reconsideration of an adverse decision based on a real estate appraisal and provide an independent technical appraisal review, completed by a State-certified general appraiser.

The independent technical appraisal review:

- is performed to determine whether the analysis, opinions, and conclusions in the appraisal report obtained by FSA are appropriate and reasonable
- may include either a desk review and/or a field review.

Note: The appraiser conducting the technical appraisal review must certify as to the type and extent of the review process.

At the applicant's or borrower's request, the agency official shall provide a list of State-certified general appraisers. The applicant or borrower may select an appraiser from the list or retain any other State-certified general appraiser to conduct the independent technical appraisal review according to USPAP Standard 3. The applicant or borrower must pay the cost of the independent technical appraisal review.

FSA will review the independent technical appraisal review, as well as the appraisal used to *--make the decision, and determine the final appraisal report to be used. The authorized--* agency official will notify the applicant or borrower of the outcome of reconsideration according to 1-APP.

144 Appeals of Decisions Based on Appraisals (Continued)

D Reconsideration of Chattel Appraisals

An independent appraisal review is performed to determine whether the analysis, opinions, and conclusions in the appraisal report obtained by FSA are appropriate and reasonable.

FSA will review the chattel independent appraisal received from the applicant or borrower, along with a copy of the appraisal, and decide the chattel's final appraised value. The authorized agency official will notify the applicant or borrower of the outcome of reconsideration according to 1-APP.

E Real Estate and Chattel Appraisal Appeals

[7 CFR 761.7(e)] Challenges to an appraisal used by the Agency are limited as follows:

(1) When an applicant or borrower challenges a real estate appraisal used by the Agency for any loan making or loan servicing decision, except primary loan servicing decisions as specified in § 766.115 of this chapter (5-FLP, paragraph 230), the issue for review is limited to whether the appraisal used by the Agency complies with USPAP. The applicant or borrower must submit a technical appraisal review prepared by a State Certified General Appraiser that will be used to determine whether the Agency's appraisal complies with USPAP. The applicant or borrower is responsible for obtaining and paying for the technical appraisal review.

Note: The applicant or borrower does **not** have the right to provide a second independent appraisal for consideration.

- (2) When an applicant or borrower challenges a chattel appraisal used by the Agency for any loan making or loan servicing decision, except for primary loan servicing decisions as specified in § 766.115 of this chapter (5-FLP, paragraph 230), the issue for review is limited to whether the appraisal used by the Agency is consistent with present market values of similar items in the area. The applicant or borrower must
- *--submit an independent appraisal review that will be used to determine whether the appraisal is consistent with present market values of similar items in the area. The applicant or borrower is responsible for obtaining and paying for the independent appraisal review.

Note: Applicants or borrowers challenging a chattel appraisal must submit an independent chattel appraisal review. This CFR text will be amended in a forthcoming rule to correctly reflect this requirement.--*

144 Appeals of Decisions Based on Appraisals (Continued)

*--E Real Estate and Chattel Appraisal Appeals (Continued)

If the borrower:

• is being considered for PLS under 5-FLP, the appeal challenging FSA's appraisal may include the borrower's independent appraisal according to 5-FLP, paragraph 230

Note: In Homestead Protection under 5-FLP, Part 7, the borrower has the right to select an independent appraiser from a list of appraisers provided by the authorized agency official. The issue on appeal will be whether FSA's appraisal is consistent with USPAP and the borrower may only provide an independent technical appraisal review of FSA's appraisal. The borrower does **not** have the right to provide a second independent appraisal for consideration or negotiation of the appraisal.

• disagrees with the appraised value used to determine the amount due under a shared appreciation agreement or net recovery buyout recapture agreement, the issue on appeal will be whether FSA's appraisal is consistent with USPAP, and the borrower may only provide an independent technical appraisal review of FSA's appraisal.

Note: Subparagraphs 42 D and E provide text to be added to the reconsideration paragraph in adverse decision letters involving appraisals.--*

144 Appeals of Decisions Based on Appraisals (Continued)

F Releasing FSA Appraisal Reviews

*--Administrative appraisal reviews performed by an FSA employee:

- before an initial decision are part of the FSA record and must be submitted to NAD as part of the appeal process
- after an initial decision are not part of the FSA record and would not be releasable except under a subpoena from NAD according to 7 CFR 11.8(a), and only after any information prohibited from disclosure is deleted.

Technical appraisal reviews performed before or after an initial decision are part of the FSA record and must be submitted to NAD as part of the appeal process.--*

G Errors Identified in an Appraisal

If either the authorized agency official or borrower discovers any mathematical or property description errors in the appraisal, the discrepancies must be reported to SED or designated State staff appraiser. The designated State staff appraiser shall review the nature of the discrepancy and make a determination to:

- contact the appraiser to correct the appraisal
- determine whether the discrepancies are material to the final value determined in the appraisal report.

The appraiser may make corrections to the appraisal up until the time the appeal hearing begins or as a result of the appeal hearing.

145 Appraiser Qualifications

A Chattel Appraisals

An FSA employee delegated chattel appraisal authority from SED, or a contractor hired to complete chattel appraisals, must:

- possess sufficient experience or training to establish market value of chattel property based on public sales of the same or similar property in the market area
- demonstrate, to SED's or designee's satisfaction, sufficient experience and training to establish market values of chattel property.

Note: A contract appraiser's qualifications shall be documented by the appraiser and maintained in the contract file.

B Real Estate Contract Appraisers

Real estate contract appraisers must be State-certified general appraisers in the State in which the property to be appraised is located.

C Full-Time and Part-Time FSA Real Estate Appraisers/Reviewers

A full-time appraiser/reviewer is an FSA employee who is responsible only for real estate appraisals and technical real estate appraisal reviews, and who has or is fulfilling the training requirements in paragraph 146.

A part-time appraiser/reviewer is an FSA employee who has significant responsibilities for real estate appraisal and technical real estate appraisal reviews, but has other FSA program responsibilities as well, and who has or is fulfilling the training requirements in paragraph 146.

Both full-time and part-time appraisers/reviewers must be a State-certified general appraiser or obtain State-certified general appraiser status within * * * 5 years of being designated as an appraiser/reviewer.

D FSA Limited Authority Real Estate Appraisers

An FSA limited authority appraiser is an employee who is primarily responsible for the administration of FSA programs, but has been delegated limited authority to perform real estate appraisals when the total credit transaction is less than \$100,000, as described in subparagraph 141 E.

FSA limited authority appraisers are not:

- required to obtain State-certified general appraiser status
- authorized to complete technical real estate appraisal reviews.

146 Appraiser Training Requirements

A Obtaining State-Certified General Appraiser Status

Both full-time and part-time FSA appraisers/reviewers must acquire State-certified general appraiser status within 5 years from being designated as an appraiser/reviewer. To acquire this status, the appraiser/reviewer must meet their respective State licensing requirements and complete the following categories, at a minimum.

Category	Description	
1	220 hours of appraisal training, of which a majority must concentrate in farm	
	real estate-related courses, in:	
	• sales comparison approach	
	• cost approach	
	• income approach.	
2	16 hours of training in USPAP.	
3	24 hours of training in narrative report writing.	
4	A minimum of 40 hours of technical appraisal review.	

Required courses may be taken from approved institutions, such as:

- colleges or universities
- community or junior colleges
- real estate appraisal or real estate-related organizations
- State or Federal agencies or commissions
- proprietary schools
- other providers approved by the State certification-licensing agency.

The appraiser/reviewer, with supervisor approval, should select courses accredited by the State Appraisal Board and meet required general course guidelines and directions.

In addition, the appraiser/reviewer must meet State experience requirements for obtaining a State-certified general license.

If a designated appraiser/reviewer cannot acquire State-certified general appraiser status within 5 years because of State requirements, SED or FLC must request an extension from the National Office for the appraiser/reviewer to complete the requirements. The request

*--should be e-mailed to Thomas Dobbin, Chief Appraiser, at

thomas.dobbin@wdc.usda.gov.--*

146 Appraiser Training Requirements (Continued)

B Maintaining State-Certified General Appraiser Status

Full-time and part-time appraisers/reviewers are required to maintain their State-certified general appraiser status by completing continuing education courses according to the standards established by the State Appraisal Board.

These courses must be:

- taken from approved institutions
- accredited by the State Appraisal Board.

The appraiser/reviewer, with supervisor approval, should select the continuing education course topics.

C Training Requirements for FSA Limited Authority Appraisers

SED or full-time appraisers/reviewers shall establish the minimum training needs for FSA-limited authority appraisers.

The training must ensure satisfaction of the following:

- ethics
- competency
- scope of work
- jurisdictional exception rule
- USPAP Standards 1 and 2
- appropriate FSA appraisal requirements.

Full-time or part-time appraisers/reviewers shall provide in-house or on-the-job training to FSA-limited authority appraisers.

146 Appraiser Training Requirements (Continued)

D Payment of Training Fees

By August 1 of each FY, each SED must request, in writing, from the National Office appraisal training funds for the following FY for both basic and continuing education costs.

For staff appraiser/reviewers who are:

- not State-certified or have not completed FSA's basic education, request shall include the following:
 - name of individual to receive training
 - date hired into position
 - dates and courses to be taken in the coming FY
 - category in which course applies
 - course hours accredited by the State Appraisal Board for each course
 - cost of tuition, books, site fee, travel, and per diem
- State-certified and are fulfilling continuing education requirements, requests shall include the following:
 - name of individual to receive training
 - dates and courses to be taken in the coming FY
 - course hours accredited by the State Appraisal Board for each course
 - cost of tuition, books, site fee, travel and per diem.
 - •*--number of hours required by State for continuing education per license cycle
 - number of hours of continuing education completed for the current license cycle.

Note: Training fee requests should only be courses in aggregate that provide the minimum hours necessary to meet basic qualification or continuing education requirements. Requests in excess of basic qualification or continuing education requirements will be denied.

The travel and per diem costs requested will be added to the State's normal allotment of travel funds by BUD. It is the appraisers/reviewers and their supervisor's responsibility to--* communicate to the State administrative section of the travel funds requested for appraisal training and to establish a basis to use those funds for the intended purpose.

146 Appraiser Training Requirements (Continued)

D Payment of Training Fees (Continued)

SED must mail the request for training funds to the following.

APPRAISAL TRAINING AND FUNDING USDA FSA DAFLP PDEED STOP 0521 1400 INDEPENDENCE AVE SW WASHINGTON DC 20250-0521

FSA shall reimburse all full-time and part-time appraisers/reviewers for the ongoing dues and fees associated with obtaining and maintaining State-certified general appraiser status.

When claiming reimbursement of dues and fees, appraisers/reviewers must complete SF-1164 together with proof of payment and submit it to the following address unless otherwise directed in the annual notice, "Reimbursement of Dues and Fees for State Certified General Appraisers and * * * Training Program Expense Authorization".

FINANCIAL ACCOUNTING DIVISION USDA FSA PO BOX 419205 KANSAS CITY MO 64141-6205

FSA-limited authority appraisers do not incur any training costs because they are trained in-house or on-the-job by full-time or part-time appraisers/reviewers and are not State-certified.

E Maintaining Appraisal Skills

Appraisers are required to maintain their appraisal skills by remaining actively engaged in all areas of real estate appraisal work. To maintain skills, appraisers holding an active certified general appraiser credential in any State or Territory must schedule work with their supervisor in a manner so as to complete a minimum of 10 appraisal work credits each FY. Work credits may be earned at the following rate:

- 2 credits for completing each agricultural property appraisal
- 1 credit for completing each agricultural property desk or field technical review.

Notes: Appraiser may earn the minimum credits from any mixture of real estate appraisal work (that is, completion of 3 appraisals (6 credits) and 4 technical reviews (4 credits) would satisfy the annual requirement).

This requirement does not pertain to appraiser trainees.

*--147 Training Requirements for Performing Administrative Appraisal Reviews

A State Responsibility

State Offices are responsible for developing and delivering a training program to an adequate number of employees to perform administrative appraisal reviews.

B Available National Training

An online course has been developed to supplement State-developed training. The online course is optional and can be accessed as follows:

- log into AgLearn at http://www.aglearn.usda.gov
- enter user ID and password
- CLICK "Catalog" tab
- CLICK "Browse Catalog"
- on left side of the page under Subject Area Menu, CLICK "+" next to **AgLearn Original** Courseware Structure
- on left side of the page, CLICK "+" next to Farm Service Agency
- navigate to and select "Farm Loan"
- on right side locate **Administrative Appraisal Review**, select "**To Do**" list, and take later or select "**Launch Content**" to begin training course.--*

Part 7 PLCE's

161 Overview

A Purpose

This Part describes procedures for:

- obligating and paying PLCE items
- processing PLCE requests for normal servicing and for purchases above and below Micropurchase thresholds
- handling concerns about vendor payments.

B Program Authority

Program authorities to request goods and services are located in Exhibit 25. Employees with program authority may redelegate their authority to any qualified employee.

If a State needs additional program authority above those granted in Exhibit 25, SED must send an e-mail to the appropriate point of contact as shown in subparagraph 161 C or by written request sent by FAX to 202-720-6797.

C PLCE and FMMI Help Desk Information

The National Office is the first point of contact for all PLCE and FMMI related inquiries as follows.

D State Office Responsibilities

SED must issue a State supplement that:

- identifies the State PLCE Monitor responsible for overseeing PLCE and FMMI activity as described in subparagraph 161 E
- establishes and identifies method of certifying fund availability
- if applicable, covers State-specific requirements for handling UCC filings and lien searches **not** covered by the guidance in subparagraph 164 C
- covers State requirements for processing and accepting Micropurchases (as defined by Federal Acquisition Regulation (FAR) Part 13.1), as necessary.

E State PLCE Monitor Responsibilities

The State PLCE Monitor is not required to be a State Office FLP employee member; however, the State PLCE Monitor must be a person familiar with FLP loan making and loan servicing functions. The State PLCE Monitor is responsible for the following:

- ensuring the proper use of PLCE allocations and providing guidance to the Field Office as necessary
- working with the FLC in determining and documenting how the State's allocation will best be used to meet program goals and objectives
- certifying funds availability
- overseeing the obligations and disbursements of PLCE-allocations by account to avoid violating the Anti-Deficiency Act

161 Overview (Continued)

E State PLCE Monitor Responsibilities (Continued)

- creating and modifying non-SAM vendor records in FMMI
- oversees processing FMMI purchase orders (ZMY), invoices (TY), and modifications
- acts as a liaison between FLP, contracting official, and appraisal staff to ensure that all involved parties follow Micropurchase request procedures, documentation requirements are met, and applicable Micropurchase review processes are followed
- post-payment adjustments
- responding to vendor inquiries.

162 Understanding PLCE

A PLCE Spending Chain

The components of the PLCE spending chain are defined as follows.

Component	Action	
1	Allocation is funds that are apportioned to the agency and subsequently	
	allocated to each State in 4 separate funds. Allocation to the State level is	
	required before spending can occur.	
	Note: See paragraph 163 for funds explanation.	
2	Internal Budget Pre-approval means authorized agency officials contact the	
	State PLCE Monitor to certify availability of funds before incurring an expense	
	on behalf of the agency or a borrower.	
	Note: This step is by-passed when a delinquent real estate tax notice or	
	delinquent personal property tax notice is received in the County Office.	
3	Obligation means once an order is placed, the agency has a legal responsibility	
	or obligation to pay for the ordered goods or services. A purchasing document	
	is used to purchase goods and services or pay for costs associated with servicing	
	a farm loan and preservation of the agency's security according to the signed loan documents. Obligations draw down available funds in the associated	
	account in FMMI.	
4	Invoice is an accounts payable document that is used to pay for goods and	
4	services received and the disbursement of funds. Depending upon the type of	
	expenditure, disbursements may occur after or simultaneously with the	
	obligation document. Invoices reference and liquidate documents in the PLCE	
	spending chain.	
5	<u>Disbursement</u> is handled by the National Finance Center. This step is driven by	
	the vendor record and invoice document.	

162 Understanding PLCE (Continued)

B Definition of PLCE

*--PLCE are expenditures that relate to loan making, loan servicing, and inventory property activities and the provisions of the Promissory Note and Security Agreement for the preservation and protection of any security for the loan.

The way each authorized PLCE expense is handled depends upon the individual item cost and the type of goods or service needed.

- Routine Loan Account Maintenance, or "noncontractuals," are those items exempt from FAR and Agriculture Acquisition Regulation provisions and **not** subject to a purchase threshold. These items have fixed costs and specific vendors, all of which are outside FSA's control. Items in the "noncontractual" category include the following:--*
 - all items listed in Exhibit 25 under "Loan Account Maintenance"
 - State Database Access Fees
 - advertising property sales or posting legal notices for foreclosures, etc., when there is only 1 State or 1 local newspaper in which to post the required legal notice:
 - law enforcement services
 - ground rents
 - litigation guarantees
 - abstracts and/or stub abstracts
 - masters in equity
 - trustee agency (foreclosure)

--Note: If a cost item is not found in the list above, it is not considered a Routine Loan Account Maintenance or "noncontractual" item.--

 PLCE expenses with a per item cost at or below the Micropurchase threshold as defined in the FAR may be considered Micropurchases. Any PLCE cost item that exceeds the defined Micropurchase thresholds shown below will be referred to as "contractuals" for purposes of this Part.

The current Micropurchase thresholds are as follow.

•*--Supplies - \$3,500--*

The Maintenance and Management purpose category located in Exhibit 25 is the **only** area of PLCE under which supplies might be purchased.

162 Understanding PLCE (Continued)

B Definition of PLCE (Continued)

• Services - \$2,500

Almost everything related to loan making and loan servicing PLCE expenses falls under Services. Services include inspections, appraisals, analysis, and professional services. Credit reports also come under this category.

• Construction - \$2,000

Construction items are those needed for authorized repairs or maintenance to real property separate from supplies or services.

•*--Any PLCE cost item that **exceeds** the defined Micropurchase thresholds according to this subparagraph will be referred to as "**contractuals**" for purposes of this Part. Assistance from a warranted Contracting Officer is **required** for all "contractual" PLCE activity.

FAR 13.1 should be consulted to ensure that offices use the current Micropurchase thresholds at the time of action. Consulting the FAR is not a function of the State PLCE Monitor; State PLCE Monitors should work with their State contracting staff.--*

Note: Any PLCE item associated with an environmental issue will be discussed with the State Environmental Coordinator before proceeding under these instructions. Consultation with the National Office, the National Environmental Coordinator, and the State Contracting staff may be necessary.

C Expense Types

There are 2 types of PLCE's:

- Recoverable PLCE's are chargeable to either a borrower or inventory property account
- Nonrecoverable PLCE's are **not** chargeable to a borrower or inventory property account.

See:

- Exhibit 25 for recoverable and nonrecoverable PLCE designations.
- subparagraphs 164 E and 164 F for additional guidance on recoverable cost items.

162 Understanding PLCE (Continued)

*--D PAC

Exhibit 25 provides a list of each authorized PLCE expense. Each expense item has an assigned unique 3-digit alphanumeric-character, which is required to obligate and control funds and track expenses. If there is a "Comment" annotated for the selected PAC, County Offices and State PLCE Monitors should review the Exhibit 25 "Note" section for usage clarification or application.

PAC's are based upon whether the cost is related to loan making, loan servicing, or inventory property. All transactions fall under 1 of the following 3 categories.

- Loan Making PAC's are applicable during the loan application process only. Once a loan is closed, it becomes a loan servicing action.
- Loan Servicing PAC's are applicable from the point of loan closing through the final disposition of the loan.
- Inventory Property PAC's are applicable only after FSA has taken the property into inventory, not during the acquisition process. Any PLCE item incurred on behalf of FSA during the acquisition process (foreclosure, voluntary conveyance, etc.) is a loan servicing action and is charged to the borrower's account, not the inventory property. This includes accrued or delinquent taxes, attorney fees, or any other expense related to the security prior to the date taken into Government inventory.--*

E Historical PAC Reference

PACs found in Exhibit 26 were made obsolete effective October 1, 2010. For loan servicing purposes, Exhibit 26 is retained for historical reference only.--*

163 Allocating PLCE Funds

A National Office Allocation of PLCE Funds to States

The National Office allocates PLCE funds to each State or group of States that has FLC. PLCE funds are not suballocated to the County Office level. The most recent allocations and balances are available in FMMI using the Availability of Funds Control Report which may be accessed according to the following FMMI pathway: Funds Management > Reports > Budget Preparation and Planning > Budget Availability Control.

163 Allocating PLCE Funds (Continued)

A National Office Allocation of PLCE Funds to States (Continued)

The National Office divides each State allocation into 4 accounts that correspond to their respective Treasury symbols. Each account has its own purpose and designated loan cohort.

- ACIF Program Account (nonrecoverable). This "A" account is used to pay PLCE's that are not chargeable to a borrower or inventory property account. The "A" account fund code is identified as "FA00B1140D" in the FMMI environment.
- ACIF Direct Loan Financing Account (recoverable). This "R" account is used to pay PLCE's that are chargeable to a borrower or inventory property account in which the loan was obligated in FY 1992 or subsequent years. The "R" account fund code is identified as "FA00B4212D" in the FMMI environment.
- ACIF Liquidating Account (recoverable). This "L" account is used to pay PLCE's that are chargeable to a borrower or inventory property account in which the loan was obligated before FY 1992. The primary "L" account fund code is identified as "FA00B4140D" in the FMMI environment.

There are 2 different appropriated line items for "L" funds, each with their own functional area:

- FA02FL2040000000: Loan Servicing "L" account
- FA02**FL214**0000000: Inventory Property "L" account.

Both line items use the same fund identifier of FA00B4140D. Only the loan servicing "L" funds are allocated to the State level. The inventory property "L" funds are maintained at the National Office level. The PLCE Monitor will contact LMD when "L" funds are needed for servicing inventory property.

Recovery Act - Direct Financing Account - Capital Investment (recoverable). This "S" account is used to pay PLCE's that are chargeable to a borrower or inventory property account in which the loan was obligated using ARRA ("Stimulus") identified loan funds. "S" loans are identified with Type of Assistance codes 564 through 583. The "S" account fund code is identified as "FA00B4284D" in the FMMI environment.

* * *

B State Office Allocation of PLCE's

*--All PLCE obligations and disbursements must occur on a "requirement and consideration" basis, because there must be a specific need for a specific loan applicant or borrower.

Obligating lump sum amounts or "banking" PLCE funds for a specific vendor is prohibited and a violation of the Anti-Deficiency Act. The obligation of PLCE funds in one FY for use in another FY without a specific requirement also violates the Anti-Deficiency Act and is **not** permitted.

Examples of permissible and not permissible are as follows:

- **Permissible** On September 25, 2014, the County Office requests a title opinion in preparation for an upcoming foreclosure sale for a particular borrower. The PLCE commitment is created the same day **and work begins**; however, it is November 1, 2014, when the vendor delivers the title opinion and requests payment.
- **Not Permissible** On September 25, 2014, the State Office decides to set aside \$xxx for real estate appraisals needed in the next FY. There is no immediate need for the obligation; however, the State wants to "use up" the remaining FY 2014 "L" allocation and draw-down funds from the one ZMY obligation on an as-needed basis in FY 2015.

Note: For electronic UCC filings with the Secretary of State's office see subparagraph 164 D.

C Using PLCE Allocations

Before any PLCE item can be obtained or an expense incurred on behalf of the Government, the State PLCE Monitor must certify fund availability and ensure the State budget reflects that potential commitment. PLCE obligations should be entered into FMMI **before** goods or services are received.

Note: Notices about delinquent real estate taxes and property taxes are exempt from funds certification. It is not possible to know when a borrower will not pay their taxes in a timely manner. All other items found under Loan Account Maintenance in Exhibit 25, or those identified as "noncontractual", require prior budget approval from the State PLCE Monitor before committing the Agency. Reimbursement for an unapproved cost item is not guaranteed.--*

*--164 Obtaining PLCE Items

A Current Employees as Vendors

Employees are permitted to incur costs on behalf of FSA to obtain copies of courthouse documents provided **prior budget approval is obtained** from the PLCE Monitor. If preapproval of the expenditure is not received from the PLCE Monitor, the cost may not be reimbursable.

FLC or designee will sign FSA-2126 for all employee reimbursement requests.

Employees will **not**:

- act as a vendor for "convenience" of the office, applicant, or borrower
- act as a vendor whenever "L", "R", or "S" funds are used
- be asked or required to use personal funds for miscellaneous expenses with repayment through PLCE funding at a later time
- be a vendor when an expense can be handled through normal PLCE processes, i.e., ordering a Treasury check
- file for reimbursement of any PLCE on a travel voucher, SF-1164, or by any other means other than the FSA-2126.

Note: FSA employee records are already in FMMI. A Federal employee requesting reimbursement will **not** have a vendor record created using the FSA-2173.

B Former Employees as Vendors

Restrictions on post-FSA employment are designed to address certain activities that involve, or may appear to involve, the unfair use of prior FSA employment. These restrictions apply to a former FSA employee as a PLCE vendor and depend upon a number of factors, such as position(s) and duties during FSA employment and the type of work a former employee may do as a PLCE vendor. There are 3 basic considerations.

- Lifetime ban for any employee who had oversight authorities, and/or was deeply involved with a particular borrower or situation.
- Two-year ban for persons not having oversight or personal involvement in loan making, loan servicing, or inventory property decisions in a particular area.
- One year ban for all employees who will work for FSA as a vendor in an area in which there was no direct or substantial involvement and decision making in loan making, loan servicing, or inventory property.--*

164 Obtaining PLCE Items (Continued)

B Former Employees as Vendors (Continued)

In all instances, no former employee may work in any county in which they were involved in loan making, loan servicing, or inventory property decisions.

In **every** instance of former FSA employees being considered for hire as a PLCE vendor, the State Office **must** contact the National Ethics Program Manager for FSA for specific directions and permissions. The Office of Ethics may be reached by telephone at 202-205-2102, and by e-mail at **Ethics-Farm-FSA@oe.usda.gov**.

See 3-PM and 18 USC 207 for additional guidance on employing former FSA employees as PLCE vendors.

*--Note: Former Government employees are **not** exempt from the SAM registration requirement. All former employees are subject to registering in SAM if working in a vendor capacity.--*

C Guidance for Electronic UCC Transactions

State Offices may establish accounts with the Secretary of State's office using a draw-down process to meet UCC electronic and central filing requirements. "R" funds are used for this purpose.

In States where the Office of the Secretary of State has decided to use credit card only transactions, the PLCE Monitor will work with the Secretary of State to find an alternative to credit card transactions. If there is no alternative payment option available, third party processors may be used, for an additional fee, to handle FLP UCC needs.

When using third party processors, third party processor fees are an administrative cost of doing business and paid using "A" funds separate from the UCC filing and lien search fees. Loan applicants and borrowers are responsible only for the cost of the UCC filing, **not** the processing fee. FSA must incur the processor fee because it **cannot** comply with a credit card requirement.

If a UCC is being renewed for an account in foreclosure using "L", "R", or "S" funds, separate FMMI transactions will be processed for that specific UCC filing. The PAC to use is '2N5'. Likewise, if there is no collection of UCC fees, the cost is charged against a borrower's account, using PAC '2N5'.

When the borrower remits payment for an electronic UCC filing which is sent to the Finance Office with a miscellaneous collection code of 36 or 38, the PAC code '1NE' or '2NE' is used.

If an error is made on a UCC or other legal document, the cost of the correction is a nonrecoverable item. "A" funding and the PAC code "2N5" are used.

164 Obtaining PLCE Items (Continued)

D Refunding Credit Report Fees

When credit report fees are collected and deposited, and the credit report is never obtained, reimbursement to the applicant is **not** a PLCE function. Whenever money is transmitted successfully to NFC, the refund **must** come from the same office. County Offices shall submit a request for refund to their account technician who services their Sate according to paragraph 5.

E Using Recoverable Cost Items

FSA charges recoverable PLCE's to specific loans, except ARRA ("Stimulus") loans.

Only "S" account funds are used to obligate and pay PLCE expenses for ARRA ("Stimulus") loans. The use of "L" or "R" funds for ARRA ("Stimulus") loans is **not** authorized.

*--When a specific recoverable PLCE applies to more than 1 loan, the oldest outstanding closed loan, for which the security associated with the charge is attached, will determine which recoverable account ("L" or "R") is used. For a rescheduled or reamortized loan, always use the **original loan date** to determine which account is used.--*

Note: Interest accrues at the same interest rate as the loan associated with the charge.

F ADPS Transactions for Recoverable Cost Items

When a recoverable cost item is charged back to a direct OL, ML, or EM loan, a new "loan" is created on the borrower's account. The loan number will be between 75 and 99, starting backwards from 99. The ADPS TC 1L is associated with the charge.

When the loan being charged is a direct FO loan, the PLCE charge is reflected as an advance on the loan; a separate "loan" is not created. The transaction is identified by ADPS TC 1L in the borrower's online history.

When a PLCE charge falls under Inventory Property, ADPS TC 1X reflects the charge.

PLCE charges on Judgment accounts are shown as a ADPS TC 1I transaction.

165 Processing Routine Loan Account Maintenance PLCE's

A Forms

- *--Forms associated with processing Routine Loan Account Maintenance PLCE's include the following.
 - **FSA-2126**, which is the only form required to initiate PLCE requests for routine loan account maintenance, or "noncontractuals" as described in subparagraph 162 A.
 - **FSA-2171**, which is the substitute invoice and will be used only in instances where there is **no** existing vendor invoice; vendor invoice information is never transferred to FSA-2171.
 - **FSA 2172**, see subparagraph 169 G for guidance on requesting Emergency PLCE vendor checks.
 - **FSA 2173**, which is used when necessary to establish a vendor record (PVND) in FMMI. See the FMMI User Guide for guidance on PVND entries.--*

B Filing Requirements

FSA-2126 and any documents related to recoverable cost items should be filed in the borrower's case file and treated as a debt instrument.

It is recommended that PLCE documents involving the use of "A" funds be filed in the borrower's case file as part of the running record of actions taken on behalf of the borrower or applicant. Documents for nonrecoverable cost items are not debt instruments.

County and State Offices should establish and maintain an operational file for PLCE activity according to 25-AS.

Tracking systems to monitor State PLCE budget activity is recommended.

C Vendor Selection

There is no vendor selection process for routine loan account maintenance. For an item to fall under this category, the vendor and cost are outside FSA's control.

D FMMI

The PLCE Monitor and State FMMI users should refer to the FMMI User Guide for additional guidance and automation instructions, which are not addressed in the administrative workflow process provided in subparagraph 165 E.

165 Processing Routine Loan Account Maintenance PLCE's (Continued)

E Workflow Process for "Noncontractual" Expenses

In general, routine loan account maintenance PLCE requests are immediately due and payable. Simultaneous obligations and disbursements for "noncontractual" items are common and permissible.

Note: Tax notices and other documents from the vendor source are considered invoices and this information should **not** be transferred to FSA-2171. Always use the original documentation to support the obligation whenever possible.

Authorized Agency Officials shall take the following steps for routine loan account maintenance PLCE items.

A Forms

Forms associated with processing micropurchase and "contractual" PLCE cost items include the following.

- **FSA-2126**, which is the only form required for PLCE requests **below** the Micropurchase threshold limits described in subparagraph 162 A. For Micropurchases determined to be **above** the threshold limits, FSA 2126 is used to **initiate** PLCE requests. Any additional documents required to complete the purchasing process will be prepared by the State Contracting Officer or Contracting Official.
- **FSA-2172**, see subparagraph 169 G for guidance on requesting Emergency PLCE vendor checks.

All vendors operating under this subpart are expected to provide their own invoice document; therefore, FSA-2171 should not be necessary.

FSA-2173 is **not** used in this process; all vendors operating under this subpart **must register in SAM**. Agency officials should **not** collect this information.--*

B Additional Requirements

Additional documentation to FSA-2126 may be required depending upon the PLCE need. Authorized Agency Officials will follow established procedures according to paragraph 141 and subparagraph 161 D, as applicable.

--166 Processing Micropurchase and "Contractual" PLCE (Continued)--

C Filing Requirements

FSA-2126 documents related to recoverable cost items should be treated as a debt instrument and filed in the borrower's case file.

It is recommended that PLCE documents involving using "A" funds be filed in the borrower's case file as part of the running record of actions taken on behalf of the borrower or loan applicant. Documents for nonrecoverable cost items are not debt instruments.

County and State Offices should establish and maintain operational files for Micropurchase PLCE activity in accordance with Handbook 25-AS.

Tracking systems to monitor State PLCE budget, Micropurchase transactions, and vendor selections should be established.

D Vendor Selection

In addition to requesting PLCE obligations and disbursements, FSA-2126 is used to record associated vendor contacts and quotes.

Authorized Agency Officials will contact appropriate vendors to obtain quotes for the required good or service. The amount of the cost quote provided by the vendors determines how many quotes must be obtained.

If the first vendor provides a cost quote *below* the given Micropurchase threshold, and that vendor is qualified and able to perform the task within the given timeframe, additional vendor quotes are **not** necessary. Single source vendor selection may be justified on FSA-2126.

If the first vendor contacted provides a cost quote above the Micropurchase threshold, authorized agency officials must obtain 2 additional quotes from qualified vendors, for a total of 3 cost quotes.

Note: All Authorized Agency Officials must ensure that vendor selections are rotated so no 1 vendor receives all requests for goods or services. Low bid is **not** a sufficient reason to select repeatedly 1 particular vendor over others; equal consideration to other qualified and available vendors must be given. The PLCE Monitor will work with the appraisal staff and contract team, as necessary, to ensure that vendor selection is fair and equitable, and that the Government receives a fair and reasonable price.

A Background

FMMI is a commercial off-the-shelf web-based financial management system that provides online, real-time transaction and on-demand query capabilities. FMMI is a comprehensive system for all of USDA's financial and accounting functions.

PLCE data recorded in FMMI includes:

- State allocations in 4 PLCE funding accounts
- purchase order obligations
- invoices
- disbursements
- accounting adjustments made through purchase order or invoice modifications
- penalty interest
- manual disbursements
- post payment adjustments
- canceled checks
- vendor records
- FSA client records.

Borrower and property loan information is validated and stored in the BOPR table in FMMI to ensure that applicable customer data is accurate at obligation and back-fed correctly to PLAS.

SED shall ensure that an adequate number of employees are trained, delegated authority, and have the proper security clearance, user ID, and password to input and approve transactions using FMMI, which requires 2 employees to successfully process all transactions. Any FLP employee, as identified by FLC, may be selected and trained as a FMMI user. A contracting warrant is not needed for FMMI access or to process any PLCE transaction in FMMI.--*

167 FMMI (Continued)

B User Assistance

The FMMI User's Guide can be referenced for specific questions and may be obtained by accessing the FLP web site at

http://fsaintranet.sc.egov.usda.gov/fcad/Manuals/FMM_%20User_Guide_V109272012.pdf. CLICK "Manuals" located on the left navigation bar.

C Requesting FMMI Access

Access to FMMI is obtained by the following steps.

*__

Step	Action	
1	Log-in to the FMMI portal and complete the self-certification.	
2	Using secure e-mail procedures, submit the following documents:	
	screen print of AgLearn history showing completion of all required FMMI self-paced courses	
	• self-certification that the online training guides have been reviewed	
	completed and signed FSA 13-A	
	• completed and signed FSA-FM1, which is obtained from the contacts listed in subparagraph 161 C.	
	The documents shall be submitted to either of the following:	
	• Anne Steppe at anne.steppe@wdc.usda.gov	
	• Ann Smith at ann.smith@wdc.udsa.gov.	
3	Upon receipt of the required documents, the National Office will process a user access request through the FMMI portal.	
4	NFC completes the user access request and notifies employee.	

*

D FMMI Vendor Identification Number

All vendors must have a FMMI vendor identification number assigned before processing FMMI obligations and disbursements. The FMMI vendor identification number is an FMMI-generated unique number used to identify vendors, organizations, and persons to whom USDA makes payments or from whom USDA collects receivables.

Vendors who do not fall within the SAM exemptions given in subparagraph 167 F must register in SAM as required. Use the FMMI-generated vendor ID number associated with the SAM record containing the vendor's remittance information for FMMI obligations and disbursements.

Note: The State Office will not create another vendor record using the Pre-Approval Vendor process for a SAM-registered vendor.

Additional information about SAM registration may be found at https://www.sam.gov/portal/public/SAM/.

State Offices shall access the FMMI vendor table using the FMMI View Vendor Master Data function found in FMMI at:

- Purchasing
- Commercial Vendor and Customer Master Data Evaluation
- Vendor/Customer Master Data > View Vendor Master Data.

A search may be conducted on the vendor's Social Security number, TIN, vendor's name, city and State of vendor location, or a combination of these identifiers. When searching by name, an asterisk (*) may be used as a wild card in the search string.

If the vendor is SAM-exempt, and is not located in FMMI, the vendor shall complete FSA-2173. Enter vendor requests into FMMI using the Vendor and Customer Master Data Request Screen. Concerns about FMMI vendor identification numbers can be addressed with LMD.--*

*--167 FMMI (Continued)

E Using EFT

DCIA of 1996 mandates using EFT as the payment method for Government disbursements. EFT enables FSA to pay for goods and services electronically by direct deposit.

FAR and Treasury regulations at 31 CFR Part 208 allows the following exemptions to the EFT requirement:

- Federal, State and local Government vendors
- Federal employees
- nonemployee travelers
- foreign vendors not operating on U.S. soil
- individuals that do not have an account at a financial institution
- operational hardship.

Note: Operational hardship applies if the vendor's regular business process will be severely hindered by receiving payment through EFT.

F SAM Exemptions

Prospective vendors must be registered in SAM **before** the award of a basic ordering agreement.

*--There are only 3 exemptions to this requirement for PLCE transactions, as follows:

- PLCE "noncontractual" vendor
- "Current" Federal employees
- vendors paid for Micropurchases that do not use EFT.--*

168 Modification or Cancellation of Obligation

A Modifying or Canceling an Obligation

State Office shall see the **FMMI Document Chain Report** to confirm the status of the Purchase Order or Invoice requiring modification.

Note: If making a Vendor change, a new Purchase Order and ZMY transaction is required. The original ZMY must be modified in FMMI to reflect a \$0.00 line item amount.

To initiate a modification or cancellation of an obligation, the County Office will submit *** FSA-2126 to the PLCE Monitor for processing in FMMI. Contracting Officers should be informed of any modification or cancellations of contractual requests.

The process for modifications or cancellations of current FY obligations is as follows.

Document Status	Action
Obligation (ZMY) with No Disbursement.	Obligation Modification/Obligation Change.
Obligation (ZMY) with Partial	Obligation Modification/Obligation Change.
Disbursement – 1 Line Item.	
	If changing Amount , new line amount may not go below available balance.

	If line item to be changed has been paid in full, process Post-Payment Modification for that line item only.

of All Line Items.	
Invoice TY with No Treasury Activity.	Pre-Payment Modification/Invoice Change.
Invoice TY with Treasury- in-Transit (TI) or TC.	Post-Payment Modification.

Additional guidance is located in the FMMI User Guide.

*--169 Stopping, Canceling, or Replacing Payments and Requesting Emergency Payments

A Stopping Payments for Funds Not Issued

If the scheduled pay date for the posted TY document is within **3 workdays** of the current date, a payment **cannot** be stopped. The scheduled date is found using the FMMI Document Chain Report and is calculated based on the payment terms and "Baseline Date."

Example: The Document Chain Report shows a baseline date of 03-16-2012. The current date is 04-18-2012. Payment terms are PP30. The payment cannot be stopped because the current date is within 3 workdays of the baseline date and payment terms of "net 30 days."

If the invoice TY document:

- has not been posted, process a purchase order modification to cancel the original ZMY transaction
- is posted, and the FMMI Document Chain Report does **not** reflect TI or TC entries for the TY:
 - process an invoice modification to cancel the original TY transaction
 - if the purchase order is no longer wanted, a purchase order modification to cancel the obligation will be necessary
- is posted, and TI or TC entries **are** found in the FMMI Document Chain Report, contact the vendor for the return of funds.

B Inquiring on Mishandled or Lost Disbursement

When a vendor notifies the Agency that a payment was not received, the PLCE Monitor should:

- run the document Chain Report for the TY transaction
- fully expand the report to see every entry

Note: Look for a TC entry. The payment date must be **more than 10 business days** from the current date to be considered missing.

- verify that there is no TR or KZ for the TY
- determine if the funds were sent to the vendor's correct "Remit To" address, if paid by paper check
- determine if the funds were sent to the vendor's current bank account, if paid by EFT.--*

*--169 Stopping, Canceling, or Replacing Payments and Requesting Emergency Payments (Continued)

B Inquiring on Mishandled or Lost Disbursement (Continued)

If there is a TR or KZ reflected on the Document Chain Report for either a paper check or EFT disbursement, a replacement check or subsequent EFT transaction **cannot** be processed until funds are restored to the original obligation. If the payment is no longer needed, the original ZMY must be cancelled. If payment is needed, mailing and EFT information will be verified before issuing another TY. NFC will cancel the invoice associated with a return.

If time is critical and funding levels permit, a new ZMY and TY may be generated while waiting for prior transactions to be reversed or cancelled.

To have the mishandled or lost disbursement researched, the PLCE Monitor will send an email to the appropriate points of contact as listed in subparagraph 161C. The e-mail must contain:

- ZMY and TY Document Numbers
- Name of Vendor and FMMI Vendor ID number
- Payment Date
- Check Number information, if available
- Dollar Amount Invoiced.

Note: PLCE payments are subject to the U.S. Treasury Offset Program. If a vendor payment is reported as being offset, vendors will be informed to contact the Treasury Offset Program Call Center at 1-800-304-3107. This is no longer an FSA matter.

C Canceling EFT Payments

When canceling an EFT payment, the vendor must contact their banking institution and arrange for the bank to return the electronic funds to the U.S. Treasury. From Treasury, the funds are electronically returned to NFC. NFC will cancel the invoice and notify AFCB of the cancellation. AFCB will then e-mail the State Office to cancel the obligation in FMMI. Both the invoice and obligation cancellations will be back-fed through the ADPS to the borrower's account.

If the cancellation is for same fiscal year funds, the returned money is returned to the State's allocation once the ZMY transaction is modified in FMMI to reflect \$0.00 for the line item.--*

*--169 Stopping, Canceling, or Replacing Payments and Requesting Emergency Payments (Continued)

D Canceling U.S. Treasury Check

When cancelling a U.S. Treasury check issued for a PLCE vendor payment that was **not** issued for an emergency check:

• the County Office or PLCE Monitor will mail the check directly back to Treasury using the following address:

Department of the Treasury Philadelphia Regional Finance Center P.O. Box 51320 Philadelphia, PA 19154

• a completed and signed FSA-2072 and **fully expanded** Document Chain Report for the transaction being cancelled is FAXed to the State's Finance Office account technician according to paragraph 5.

From Treasury, the funds are returned to NFC. NFC will cancel the invoice and notify AFCB of the cancellation. AFCB will then e-mail the State Office to cancel the obligation in FMMI. Both the invoice and obligation cancelations will be back-fed through ADPS to the borrower's account.

If the U.S. Treasury check needing to be cancelled **was** issued for an **emergency check**, the check and FSA-2072 will be mailed to:

USDA/Rural Development Cash Management Collections Branch 4300 Goodfellow Boulevard, FC 1411 St. Louis, MO 63120

The Cash Management Collections Branch (CMCB) will provide the cancellation information to the AFCB. AFCB will manually input the cancellation in to FMMI. AFCB will notify the State Office of the cancellation. Upon notification of the cancellation, the State PLCE Monitor will ensure the obligation is cancelled in FMMI.--*

*--169 Stopping, Canceling, or Replacing Payments and Requesting Emergency Payments (Continued)

E Canceling Non-U.S. Treasury Check

Do not send personal checks or third party checks back to Treasury.

Along with a completed and signed FSA-2072 for the transaction being cancelled, the third-party or personal check for full or partial refund will be sent to:

USDA/Rural Development Cash Management Collections Branch 4300 Goodfellow Boulevard, FC-1411 St. Louis, MO 63120

The Cash Management Collections Branch will then provide the information to the AFCB to manually input the cancellation into FMMI. AFCB will notify the State Office of the cancellation so the State Office can cancel the obligation in FMMI.

F Requesting an Emergency Check

Using the **ACCP payment term** on the TY document works as quickly as an emergency check request and is the **preferred** method of processing emergency check requests.

Emergency checks will **not** be requested for items covered by DLS workflows, such as UCC renewals. Field Offices should request assistance through the normal PLCE process at least **30 days in advance** of the UCC deadline to ensure that timely payment is received. Using the ACCP payment term on the invoice should be used in these instances; see the FMMI User Guide for guidance on processing an invoice under ACCP terms.

Emergency check requests should be a rarity and used **only** in true emergency situations, such as:

- an **unexpected** foreclosure sale, U.S. Marshal's sale, or similar
- •*--delinquent real estate taxes (to protect FSA's interest, and **only** in States with **no** Right of Redemption)--*
- FMMI system issue or other problem affecting the ability to process a timely TY document.

169 Stopping, Canceling, or Replacing Payments and Requesting Emergency Payments (Continued)

F Requesting an Emergency Check (Continued)

To order an emergency check, the State Office will do **all** of the following:

- post the ZMY document before requesting the emergency check from NFAOC
- FAX the completed FSA-2126, completed FSA-2172, and the Document Chain Report to the Direct Loan Division at ECM FAX number 314-457-4539
- Send an e-mail to **all 4** of the following contacts notifying them of the emergency check request and request that copies are sent of FSA-2126, FSA-2172, and the Document Chain Report to AFCB at **RD.DCFO.FCB2@STL.USDA.GOV** for the manual input of the check request into FMMI:
 - Shantaye Gladney shantaye.gladney@stl.usda.gov
 - Kathryn White kathryn.white@stl.usda.gov
 - Betty Nunnery betty.nunnery@stl.usda.gov
 - •*--Sharon Maull sharon.maull@stl.usda.gov.--*

Note: State Offices will **not** enter the TY transaction into FMMI.

G Missing Vendor 1099

Vendors inquiring about a 1099 tax form are to be directed to the 1099 Help Desk. The 1099 Help Desk may be reached by either of the following:

- e-mail to 1099helpdesk@usda.gov
- telephone at 1-800-421-0323.

Part 8 Supervised Credit

Section 1 Introduction

201 Overview

A Applicability

[7 CFR 761.101] This subpart applies to all direct FLP applicants and borrowers, except borrowers with only Non-program loans.

FSA's direct loan programs assist family farmers with temporary financial supervisory assistance to improve their potential to graduate to securing credit from commercial lenders. To ensure that this program objective is met, FLP direct loan programs:

- have in place:
 - term limits (3-FLP)
 - graduation requirements (4-FLP)
 - market placement to assist eligible borrowers to obtain guaranteed loans (2-FLP)

Note: CL's are **not** subject to term limits or graduation.

- require:
 - borrower training to ensure that guaranteed loans or commercial credit can be *--obtained in the future (3-FLP, Part 18)--*
 - FSA and the loan applicant or borrower to complete farm assessments and assessment updates as needed (Section 2)
 - the loan applicant or borrower to prepare a farm operating plan, with FSA assistance as needed (Section 3)
 - FSA to classify accounts (Section 4)
 - FSA, with borrower input, to complete a year-end analysis as required (Section 5).

201 Overview (Continued)

B FSA's Role

FSA's role is to help its direct loan applicants and borrowers in the supervised credit process:

- identify short-, intermediate-, and long-term goals consistent with financial success
- pinpoint and prioritize problem areas
- develop strategies and an operating plan to:
 - meet operational goals
 - graduate to commercial credit
- provide objective credit counseling
- evaluate progress and adjust the action plan as needed.

C Applicant/Borrower's Role

The applicant or borrower has the ultimate responsibility for success of the farming operation. FSA serves in an advisory role, providing temporary assistance. Therefore, it is especially important for the applicant or borrower to prepare to graduate to guaranteed or commercial credit by:

- identifying the goals for the operation
- pinpointing and prioritizing problem areas
- developing strategies and a farm operating plan to meet the operation's goals
- evaluating progress and adjusting operating plan as needed
- complying with the borrower responsibilities according to paragraph 202.

202 Borrower Responsibilities

A Recordkeeping and Reporting

[7 CFR 761.102(a)] A borrower must maintain accurate records sufficient to make informed management decisions and to allow the Agency to render loan making and servicing decisions in accordance with Agency regulations. These records must include the following:

- (1) Production (e.g., total and per unit for livestock and crops);
- (2) Revenues, by source;
- (3) Other sources of funds, including borrowed funds;
- (4) Operating expenses;
- (5) Interest;
- (6) Family living expenses;
- (7) Profit and loss;
- (8) Tax-related information;
- (9) Capital expenses;
- (10)Outstanding debt; and
- (11)Debt repayment.

FSA will not dictate or promote using any particular recordkeeping system, so long as the borrower uses 1 that provides the required information.

--Note: The authorized agency official will document in FBP whether the applicant has-- selected, established, and maintains the recordkeeping system.

Using OL funds is authorized to purchase a computer and/or recordkeeping software and to attend recordkeeping courses.

202 Borrower Responsibilities (Continued)

B Other Borrower Responsibilities

[7 CFR 761.102(b)] A borrower also must agree in writing to:

- (1) Cooperate with the Agency and comply with all supervisory agreements, farm assessments, farm operating plans, year-end analyses, and all other loan-related requirements and documents;
- (2) Submit financial information and an updated farm operating plan when requested by the Agency;
- (3) Immediately notify the Agency of any proposed or actual significant change in the farming operation, any significant changes in family income, expenses, or the development of problem situations, or any losses or proposed significant changes in security.

Note: FSA-2313 addresses loan approval conditions and borrower responsibilities.

C Borrower Failure to Comply

[7 CFR 761.102(c)] If the borrower fails to comply with these requirements, unless due to reasons outside of the borrower's control, the non-compliance may adversely impact future requests for assistance.

203-220 (Reserved)

221 Overview

A Objective

- *--[7 CFR 761.103(a)] The Agency, in collaboration with the applicant, will assess the farming operation to:
 - (1) Determine the applicant's financial condition, organizational structure, and management strengths and weaknesses;
 - (2) Identify and prioritize training and supervisory needs; and
 - (3) Develop a plan of supervision to assist the borrower in achieving financial viability and transitioning to private commercial credit or other sources of credit in the shortest time practicable, except for CL.--*

An assessment:

- is an evaluation of the applicant's operation, developed jointly with the applicant
- is completed after an applicant, not currently indebted to FSA, has been determined eligible for a direct loan
- identifies weaknesses in the operation, prioritizes them from most to least critical, and determines their impact on the operation's needs and goals
- helps to identify operational goals, positive and negative trends in the applicant's management, earnings and capital positions, productivity, and physical assets
- builds a strategy in the areas of planning, counseling, loan controls, analysis, monitoring, borrower training, and other supervisory needs.

The assessment process enables FSA to determine the kind and amount of financial and supervisory assistance needed by the applicant. In conducting assessments, authorized agency officials need to draw upon their knowledge, expertise, and judgment to arrive at conclusions on local economic conditions, production constraints and capabilities, the farm's historical performance, productive capabilities, adequacy of equipment and facilities, business goals, and project performance. Listening to the applicant's perceptions of the operation is critical to the assessment process.

- *--All available resources shall be used when developing the plan to assist the borrower to address any operational weaknesses and achieve the borrower's goals, including:--*
 - local farm management consultants
 - the Extension Service
 - educational institutions
 - producer associations
 - successful local farmers
 - fellow FSA employees.

222 Elements of an Initial Assessment

A Type of Farming Operation

- *--[7 CFR 761.103(b)] Except for ML, the initial assessment must evaluate, at a minimum, the:
 - (2) Type of farming operation.

[7 CFR 761.103(c)] For ML, the Agency will complete a narrative that will evaluate, at a minimum, the:

- (1) Type of farming operation and adequacy of resources;
- (4) The financial viability of the entire operation, including a marketing plan, and available production history, as applicable;--*

The initial assessment must identify or describe the type of farming operation, including:

- the business focus of the operation, including major types of crops, livestock, or other output produced by the farm
- minor commodities being produced, such as fat steers from a dairy operation
- size of the operation, such as number of milking herd and herd average, number of acres being farmed, and projected yields
- market conditions, environmental concerns, and other external factors
- production contracts, capital leases, or other special contractual arrangements that affect the farming operation
- the effects of special circumstances, if any, related to the applicant's family and organization.

<u>Production Levels.</u> Evaluation of production levels, such as bushels per acre, percent calf crop, pounds of milk per animal, and pounds of grain, shall include a determination of:

- whether there is sufficient capacity to generate projected income
- if present levels of production will attain the goals set by the applicant.

If production is below area standards, the authorized agency official must discuss with the applicant why this is so and develop plans to improve production. Possible strategies for improvement may include feed analysis, soil testing, or investment in different equipment. If applicable, credit needs for additional investments should be discussed.

A Type of Farming Operation (Continued)

Reporting of yields may not be practical or applicable for some operations. For example, an operation producing * * * vegetables on a plot of land, whose production is measured in rows, partial rows, or raised beds in greenhouses, would be better measured by the income for that production space. Also, a producer of eggplants and tomatoes who switches to bell peppers and salad greens for the current production cycle will not have available yields for *--this cycle and the yields for eggplant and tomato production will not be applicable to the--* projections for the current cycle. Additional guidance on developing projections for these types of operations is provided in subparagraph 242 A where the use of historical information is discussed.

Applicability and Appropriateness of Practices. The initial assessment must:

- evaluate existing farm practices, such as herd health and cropping practices, breeding and milking programs, and soil and feed testing
- determine applicability and appropriateness of practices based on what is typical for the area, cost effectiveness of the practice, type of operation, and demonstrated effectiveness.

If the authorized agency official does not know enough about a particular enterprise to make this evaluation, the authorized agency official must consult other resources, such as the Extension Service.

<u>Timeliness of Operations.</u> The initial assessment must evaluate the timeliness of the farm's operations. For example, the authorized agency official shall determine if each of the following operations, as applicable, is conducted in a timely manner and how this affects the performance of the operation:

- planting
- fertilizer and herbicide application
- harvesting
- calving
- marketing (weight and/or condition)
- breeding
- vaccination.

Appropriateness of Marketing Plan. The authorized agency official must assist the borrower in developing and evaluating a marketing plan. This plan must describe marketing practices and strategies, especially for any unique commodities the operation produces. The plan shall address whether marketing is accomplished so as to lock in a profit when possible or whether it is done speculatively as the accruing interest on operating loans may surpass a price increase obtained by holding back on the sale of commodities.

B Goals for the Farming Operation

*--[7 CFR 761.103(b)] Except for ML, the initial assessment must evaluate, at a minimum, the:

(3) Goals for the farming operation.

[7 CFR 761.103(c)] For ML, the Agency will complete a narrative that will evaluate, at a minimum, the:

(3) The goals of the operation;--*

Setting goals is essential for the success of any farming operation. The applicant's goals provide the direction for the applicant's business. FSA uses the applicant's goals to help identify the need for financial and supervisory assistance. The authorized agency official must learn the personal and business aspirations of the farm family and work with the applicant to prioritize goals from most to least important. In many situations, the authorized agency official must have in-depth discussions with the applicant to identify these business aspirations.

The authorized agency official shall work with the applicant to incorporate short-, intermediate-, and long-term goals into the comprehensive farm business planning process. For example, the farm operating plan, supervisory plan, and training plan must facilitate achieving these goals. A farm operation might set goals for reducing expenses or for increasing yields and production level. Corrective measures and goals should be divided into stages for implementation over several years, when appropriate.

If the farm operation is an entity, the authorized agency official must meet with all the principals to ensure that the organization's goals are compatible with those of each principal.

The authorized agency official must also:

- identify and evaluate any changes the applicant intends to make, such as expansion of farmland, new buildings, and new management techniques
- identify increased credit needs, increased management skills, growth opportunities, and operating efficiency required to accomplish the planned changes
- determine how planned changes relate to the applicant's business goals.

C Adequacy of Real Estate, Including Facilities, to Conduct the Operation

[7 CFR 761.103(b)] Except for ML, the initial assessment must evaluate, at a minimum, the:

(4) Adequacy of real estate, including facilities, to conduct the operation.

In evaluating the adequacy and appropriateness of real estate used in the applicant's operations, the authorized agency official must consider the following:

- location and size, including efficiency of location to markets and farm supply dealers
- improvements and repairs needed for improved efficiency
- •*--presence of wetlands, hazardous waste, and underground storage tanks, the adverse effects of their presence, and possible solutions

If a wetland determination has not been previously completed for the project area and is not available from NRCS, the authorized loan official will follow the flow chart in Exhibit 27 and complete FSA-858 to document their findings. When wetland indicators are found to be present the applicant will be notified using Exhibit 27.5.

Note: The wetland project area to be evaluated is limited to the specific geographical area(s) within which an FLP funded activity actually takes place and/or those where an environmental resource is influenced as a result of the project. That is, causes changes in use or character. It does not include all farm or related tracts that may be owned or operated by the applicant.

Examples:

Project is to build 2 poultry houses on the northwest corner of a 20 acre tract. The project area is limited to the 5 acres that will be disturbed for construction, installation, and related infrastructure.

Project is to provide funding to purchase tillage equipment that will be used to produce grain on 300 acres of a 400 acre farm tract. The project area is limited to the 300 acres of crop land being planted.

Project is to fund purchase of cows and post-style fencing on 50 acres of pasture where they will be maintained. Applicant crops 200 contiguous acres, grows nursery stock on another 30 acre tract that is part of the same farm and has obtained upgraded animal waste and nutrient management plans for the expanded operation. The project area is limited to the 50 acres where the cows will be fenced and maintained.--*

 conservation practices and measures and implementation of conservation plans for program compliance

C Adequacy of Real Estate, Including Facilities, to Conduct the Operation (Continued)

- probability of continued use
- external factors, such as urban encroachment and new zoning ordinances
- ownership and leasing agreements, especially leasing arrangements relating to both land and chattel.

Note: For ML, see subparagraph A for adequacy of resources.

D Adequacy of Chattel Property Used to Conduct the Operation

[7 CFR 761.103(b)] Except for ML, the initial assessment must evaluate, at a minimum, the:

(5) Adequacy of chattel property used to conduct the operation.

The initial assessment must evaluate the adequacy of the chattel property, such as equipment and livestock used in the operation, relative to the applicant's goals and the planned level of production. As appropriate, the initial assessment should include comments on ownership, condition, probability for continued use, and any external factors, such as:

- operation life of chattel property relative to loan period
- necessary repairs
- improvements in operating efficiency with use of hired, leased, or owned equipment
- numbers, condition, breed suitability, and age of livestock.

Note: For ML, see subparagraph A for adequacy of resources.

E Farm Organization and Key Personnel Qualifications

[7 CFR 761.103(b)] Except for ML, the initial assessment must evaluate, at a minimum, the:

(1) Farm organization and key personnel qualifications.

To provide adequate supervision and training recommendations, the authorized agency official must know who is performing key tasks within the farming operation. The initial assessment must identify the key individuals involved in operating the farm, including any seasonal labor. It also must:

- discuss the specific duties of each person, noting who is responsible for management, labor, resource allocation, and decision making
- evaluate the use of managerial resources and determine whether management choices are contributing to or hampering success in the operation
- determine if the time and effort spent on an enterprise or particular commodity is commensurate with the gains realized.

F Supervisory Plan

[7 CFR 761.103(b)] Except for ML, the initial assessment must evaluate, at a minimum, the:

--(8) Supervisory plan, except for streamlined CL.--

The authorized agency official must tailor the supervisory plan to the applicant's individual needs and risks associated with the operation. An applicant's involvement and understanding of FSA's supervisory responsibilities in providing supervised credit are essential to successful supervision. The authorized agency official must work with the applicant to develop practical plans and realistic timetables for realizing improvements in critical areas. The supervisory plan shall:

- identify and recommend areas of training which will help the applicant address operational weaknesses, according to 3-FLP, paragraph 472
- schedule the farm visit and record review and track through DLS by using the Farm Visit scheduling, tracking, and monitoring workflow activities
- ensure that the operational analysis will be done in FBP.

[7 CFR 761.103(c)] For ML, the Agency will complete a narrative that will evaluate, at a minimum, the:

(5) Supervisory plan; and

G Historical Performance

[7 CFR 761.103(b)] Except for ML, the initial assessment must evaluate, at a minimum, the:

(6) Historical performance, except for Streamlined CL;

The authorized agency official must consider and analyze significant aspects of the operation's historical production and financial performance, trends, and current condition.

<u>Production Data</u>. The initial assessment must include and evaluate at least the last 3 years of production data for the farm, where possible. The applicant has the discretion to provide up to the last 5 years of production records. The evaluation must consider current production levels (e.g., bushels per acre, percent calf crop, pounds of milk per animal, and pounds of grain). It also must consider whether the farm has a capacity sufficient to generate projected production and to attain the applicant's goals. If an applicant is taking over an operation and the operation will remain substantially unchanged, the assessment may consider the most recent 3 years of production data for the existing operation.

G Historical Performance (Continued)

<u>Financial Data</u>. The initial assessment must include and evaluate at least the last 3 years of financial data for the farm or applicant. The applicant has the discretion to provide up to the last 5 years of financial records. Financial data can be gathered from tax returns, applicant records, or FSA records. If an applicant is taking over an operation and the operation will remain substantially unchanged, the assessment may consider the most recent 3 years of financial data for the existing operation, if available, along with the applicant's own living expenses.

Trend analysis must use comparable data for each year. For example, a trends analysis using balance sheets can be done properly only when the balance sheets from different years are "as of" approximately the same dates. Even though the balance sheets may not be submitted on, for example, December 31, 2XXX, the balance sheet may still be prepared "as of" that date.

The initial assessment must evaluate the current management and use of financial resources (income and credit), and how they contribute to or detract from the operation. The assessment shall determine how well financial resources are used in meeting goals and whether the applicant stays within the budget, considering the following:

- appropriateness of income sources
- adequacy of dedicated resources
- appropriateness of credit use
- productivity levels as related to profitability
- effectiveness of income use
- existence of other income opportunities.

Numerous indicators based on actual performance must be considered red flags when analyzing an operation. For example:

- increasing expense-to-income ratio for several years and a large debt load without considerable nonfarm income, especially if the applicant has not suffered from natural disasters
- increasing current liabilities from year to year without corresponding increases in current assets, especially if the applicant has not suffered from natural disasters
- increasing trend in debt-to-asset ratio, while considering fluctuations in land values, the economy, and price levels
- declining working capital position
- declining repayment margins.

G Historical Performance (Continued)

The following illustrates how some financial indicators can alert the authorized agency official to potential problems or immediate concerns about the farming operation. For instance, an expense-to-income ratio that stays at 70 percent or higher for several years could indicate a potential problem. The same ratio at 80 percent or more coupled with minimal off-farm income is a cause for immediate concern.

Financial Indicator	Potential Problem	Immediate Concern
Expense-to-income	70 percent or more for	More than 80 percent with minimal
ratio (without interest)	several years	off-farm income
Increased accounts	Sudden increase in accounts	Accounts payable extended over
payable	payable	2 months without cash-generating
		assets/ receivable accounts
Liquidity	Ratio less than 1.5 to 1	Ratio less than 1 to 1
Solvency	Ratio of 60 percent or more	Ratio of 75 percent or more
Family living	Unsubstantiated estimates	Unsubstantiated estimates below
expenses	below \$20,000 for an	\$10,000 for an average family
	average family	

H Farm Operating Plan

--[7 CFR 761.103(b)] Except for ML, the initial assessment must evaluate, at a-- minimum, the:

(7) Farm operating plan.

The initial assessment must include a balance sheet and provide a projected farm budget (1-year pro forma). The automated FBP system is the primary tool used in budget planning, but other systems acceptable to FSA may also be used.

A breakdown of per-acre expenses by commodity item is ideal when developing a plan of action regarding operating expenses. Examining per-unit costs assists in identifying whether expenses are being applied properly toward those income-generating areas. A per-unit cost breakdown also is useful with livestock production.

- *--[7 CFR 761.103(c)] For ML, the Agency will complete a narrative that will evaluate, at a minimum, the:
 - (2) Amount of assistance necessary to cover expenses to carry out the proposed farm operating plan, including building an adequate equity base;--*

I Training Plan

[7 CFR 761.103(b)] Except for ML, the initial assessment must evaluate, at a minimum, the:

--(9) Training plan.--

The authorized agency official must describe FSA's initial recommendations for borrower training. The recommendations must assist the applicant in addressing operational weaknesses. See 3-FLP, Part 18 for borrower training requirements.

 $[7\ CFR\ 761.103(c)]$ For ML, the Agency will complete a narrative that will evaluate, at a minimum, the:

(6) Training plan.

* * *

J Graduation Plan

[7 CFR 761.103(b)] Except for ML, the initial assessment must evaluate, at a minimum, the:

(10) Graduation plan, except for CL.

FLP's, except for CL, are designed to allow borrowers to transition to private commercial credit or other sources of credit in the shortest period of time practicable through the use of supervised credit, including the farm assessment and:

- borrower training, 3-FLP, Part 18
- market placement, 2-FLP, paragraph 72
- borrower graduation, 4-FLP, Part 4.

The authorized agency official must document the borrower's status about graduation and the consideration given each item in this subparagraph. The borrower's progress toward graduation should be noted with any recommendations for further action to achieve graduation.

*--K Term Limits

Term limits are part of the assessment and are recorded in FBP. The authorized agency official will complete the Term Limits Screen within the Farm Assessment Narrative each time the assessment is completed or updated.

Notes: Term limits for current borrowers are provided in the Customer Profile.

By signing the assessment report, applicants and borrowers indicate receipt and acknowledgement of the term limits.--*

223 Annual Review and Assessment Update

A Objective of Annual Review

- *--[7 CFR 761.103(e)] The Agency reviews the assessment to determine a borrower's--*
 progress at least annually. The review will be in the form of an office visit, field visit,
 letter, phone conversation, or year-end analysis, as determined by the Agency. For
 Streamlined CLs, the borrower must provide a current balance sheet and income tax
 records. Any negative trends noted between the previous years' and the current years'
 information must be evaluated and addressed in the assessment of the Streamlined CL
 borrower.
- *--[7 CFR 761.103(f)] If a CL borrower becomes financially distressed, delinquent, or-receives any servicing options available under part 766 of this chapter (5-FLP), all
 elements of the assessment in paragraph (b) of this section (paragraph 222) must be
 addressed.

In times of LR's the authorized agency official may prioritize the completion of the assessment according to current agency directives.

The annual review:

- monitors the borrower's progress towards the operation's goals
- evaluates supervisory assistance provided to assist borrower graduation to commercial credit.

B Scope of Annual Review

The annual review must address any significant changes to the borrower's farming operation, expenses, or financial condition that have occurred since the most recent assessment update or annual review. The authorized agency official shall pay particular attention to the following:

- changes in operations or goals
- status of progress toward goals
- need for changes in plan of supervision
- need for additional borrower training.

C Assessment Updates

--[7 CFR 761.103(d)] An assessment update must be prepared for each subsequent-- loan. The update must include a farm operating plan * * * and any other items discussed in paragraph (b) of this section (subparagraphs 222 B through F and I through J) that have significantly changed since the initial assessment.

This assessment update serves as a gauge for measuring the borrower's progress and the effectiveness of FSA assistance.

* * *

223 Annual Review and Assessment Update (Continued)

D Documentation

If significant changes have occurred, the authorized agency official must document the nature of each change and the reason for the change.

The documentation must address only new or changed information. Documentation in *--FBP must be adequate to record the type of supervision given, the findings of the review,--* and any items requiring follow-up.

224-240 (Reserved)

241 Overview

A Objective

The primary objective of the farm planning process is to develop a plan that most accurately reflects the expected cash flow and business activities for the operating cycle. The farm operating plan documents the operation's:

- financial position
- cash flow
- repayment ability.

The applicant or borrower must use a FBP system. FSA primarily uses FBP to evaluate loan feasibility and the likelihood of achieving financial viability. An applicant or borrower may use an alternative format for the farm operating plan, if approved by FSA. An original signed copy of the farm operating plan must be retained in the case file.

B Farm Operating Plan Format

FSA uses FBP to perform financial planning, analysis, loan origination and servicing functions, and manage the FLP portfolio. See Exhibit 15 for instructions on using FBP.

Borrowers may use other automated or manual FBP's if they are approved by FSA. The authorized agency official may approve using other systems and formats for the farm operating plan, if formats contain the same information as required by FBP and the following statement is signed by the applicant or borrower:

"I agree to follow this plan and to discuss with the authorized agency official, any important changes that may become necessary. This is a projected plan and does not release the security interest of the Government in any security referred to in this plan. I recognize that making any false statement on this plan or any other loan document may constitute a violation of Federal criminal law."

C Timing of Farm Operating Plan

The period of time covered by a farm operating plan should reflect the norm for the type of commodity or agricultural enterprise being farmed in a particular area, considering climate conditions and other factors vital to the successful production of the commodity or agricultural enterprise. If there are any changes to the operation during the cycle of the plan, the changes will be noted on the plan. The revised operating plan will be signed and dated

--by the borrower and the authorized agency official, and will be documented in FBP. In-- most cases, the period covered by the plan should not exceed 18 months unless special circumstances dictate a longer planning period.

*--242 Developing Farm Operating Plans

A General

[7 CFR 761.104(a)] An applicant or borrower must submit a farm operating plan to the Agency, upon request, for loan making or servicing purposes.

A farm operating plan used for loanmaking or loan servicing decisions will be based on:

- a typical year's plan for existing farm operations or enterprises without changes
- accurate, verifiable, reliable, and realistic information for new enterprises.

[7 CFR 761.104(b)] An applicant or borrower may request Agency assistance in developing the farm operating plan.

Applicants will be encouraged to obtain technical assistance. Sources of technical assistance include Extension Service, Land Grant Universities, State Programs, USDA 2501 grant recipient organizations and institutions, and private consultants.

[7 CFR 761.104(c)] The farm operating plan will be based on accurate and verifiable information.

Poultry or hog production contracts are the basis of grower income and facility value. The dependability of production contracts has a profound impact on the prospect for loan repayment. "Flock-to-flock" or "turn-by-turn" type arrangements alone may not be a dependable source of income or a reasonable projection of income for poultry or hog applicants who do **not** have current financial performance history with FSA.

Note: For contract income to be considered dependable, the contract must:

- be for a minimum period of 3 years
- provide for termination based on objective "for cause" criteria only
- require that the grower be notified of specific reasons for cancellation
- provide assurance of the grower's opportunity to generate income to ensure loan repayment, by incorporating requirements, such as a minimum number of flocks or turns per year, minimum number of bird or hog placements per year, or similar quantifiable requirements.--*

A General (Continued)

Applicants requesting loans to expand their poultry or hog operation by adding more houses/barns or purchasing additional land to increase the size of the poultry or hog operation, and who **are** presently indebted to FSA, will be required to have a contract with a minimum 3-year term. The contract must at least cover the facilities financed with the FSA loan. When contract income **cannot** be determined to be dependable and likely to continue, that is **cannot** be used to reasonably project future income, the authorized agency official shall:

- inform the grower of the contract provisions that result in the determination
- provide an opportunity for the submission of a revised contract before a final decision on the request.

Note: Whenever possible, loan requests should be approved subject to modification of unacceptable contract provisions.

[7 CFR 761.104(c)(1)] Historical information will be used as a guide.

The authorized agency official will review the farm operating plan to ensure that it is reasonable, relative to historical performance and local practices and conditions.

--To report past yields, documentation, such as operator's sales receipts, financial statements, contracts, and tax returns, may be used by applicants whose operations' past yields do not provide pertinent information for the projected plan. Such operations include vegetable operations in which different crops are grown to meet changing market demands, operations that produce crops using measures such as rows or partial row instead of acres, or operations that grow crops that sell in volumes, such as bunches. For such operations, past reliable history of income and expenses or cash receipts may be used to project the field, greenhouse, or operations' production revenue.--

[7 CFR 761.104(c)(2)] Positive and negative trends, mutually agreed upon changes and improvements, and current input prices will be taken into consideration when arriving at reasonable projections.

The impact of industry trends must be assessed when developing farm operating plans used in loan requests from poultry and/or hog growers, and can be based on standard production budgets developed by contractors, consultants, or extension specialists. While these budgets are accepted starting points, the authorized agency official must ensure that the farm operating plan reflects realistic performance assumptions for each individual situation, including but not limited to the following:

- increased input costs
- changes in unit numbers and weights
- increased idle time between flocks of poultry or turns of hogs
- other relevant factors that affect net income.

A General (Continued)

The impact of age, condition, and potential obsolescence of the facilities must be assessed for loans to purchase or refinance existing facilities. The farm operating plan must factor in any reduced efficiency as well as the potential costs for required modernization of existing facilities to comply with the contract's requirements.

[7 CFR 761.104(c)(3)] Projected yields will be calculated according to the following priorities:

- (i) The applicant or borrower's own production records for the previous 3 years;
- (ii) The per-acre actual production history of the crops produced by the farming operation used to determine Federal crop insurance payments, if available;

Notes: This does not mean that averages will be the projection used in every plan. Positive and negative trends will be considered when projecting production levels. The primary focus should always be on developing a realistic projection. If production has been increasing each year for the past 3 years, using the most recent year's production level or a higher level consistent with the trend will, in most cases, be the most realistic projection.

Conversely, if the trend is negative, the average may overstate production, and the most recent year's level is probably the most realistic projection. However, a higher production level may be projected if the negative trend is the result of disaster conditions, or if actions have been taken that will definitively reverse the trend.

Additionally, 3 years is the minimum years of records to be considered, if available. The applicant, at their discretion, can provide more than 3 years of records if these additional records provide a more realistic yield projection. The basis for the yield used should be adequately documented in FBP * * *.

When the production of a growing commodity can be estimated, that estimate must be considered in production projections.

- (iii)FSA Farm Program actual yield records;
- (iv) County averages;
- (v) State averages.

A General (Continued)

[7 CFR 761.104(c)(4)] If the applicant or borrower's production history has been substantially affected by a disaster declared by the President or designated by the Secretary of Agriculture, or the applicant or borrower has had a qualifying loss from such disaster but the farming operation was not located in a declared or designated disaster area, the applicant or borrower may:

- (i) Use county average yields, or state average yields if county average yields are not available, in place of the disaster year yields; or
- (ii) Exclude the production year with the lowest actual or county average yield if their yields are affected by disasters during at least 2 of the 3 years.

Note: SED will issue a State supplement containing the 3-year history of disaster declarations for all counties in their State, along with the type of disaster and the incident period.

7 CFR 761.104(d)] Unit prices for agricultural commodities established by the Agency will generally be used. Applicants and borrowers that provide evidence that they will receive a premium price for a commodity may use a price above the price established by the Agency.

--FSA-established prices will be used in all farm operating plans developed, unless the-- applicant provides evidence that they will receive a premium price or a price other than that established by the State. Evidence of this may include, but is not limited to, contracts or other written agreements that guarantee the price for the commodity being produced. If the applicant has historically received a premium price because of above average quality or grade of the product produced, the premium will be taken into account when determining the expected price to be received for that product.

--produced in their State, including resources for pricing and marketing strategies for commodities that have not traditionally been commercially produced or marketed in the past. Examples may include organic production, locally or regionally produced agricultural food products, direct marketing to restaurants and grocery stores, CSA, and farmers markets.--

A General (Continued)

Pricing data for alternative production and marketing methods may be available from the following:

- NASS, through its 2008 organic production survey at http://www.agcensus.usda.gov/Publications/2007/Online_Highlights/Organics/index.php
- AMS:
 - grain and foodstuffs at http://www.ams.usda.gov/mnreports/lsbnof.pdf
 - fruit and vegetables at http://www.marketnews.usda.gov/portal/fv
 - •*--wholesale terminal markets at http://usdareports.com
- RMA provides price for organically grown commodities--*
- National Agricultural Library has resources available on sustainable and organic agriculture at http://afsic.nal.usda.gov/organic-production
- nonprofit organizations such as Rodale Institute's New Farm Organic Price Report
- local sources such as the State Department of Agriculture, farmers market organizations, State organic farmers and gardeners associations, roadside stand organizations, local retail outlets, and State universities.

--Note: See Exhibit 28 for a guide to determining projected prices.--

[7 CFR 761.104(e)] For MLs, when projected yields and unit prices cannot be determined as set forth in paragraphs (c) and (d) of this section because the data is not available or practicable, documentation from other reliable sources may be used.

[7 CFR 761.104(f)] Except as provided in paragraph (g) of this section, the applicant or borrower must sign the final farm operating plan prior to approval of any loan or servicing action.

[7 CFR 761.104(g)] If the Agency believes the applicant or borrower's farm operating plan is inaccurate, or the information upon which it is based cannot be verified, the Agency will discuss and try to resolve the concerns with the applicant or borrower. If an agreement cannot be reached, the Agency will make loan approval and servicing determinations based on the Agency's revised farm operating plan.

A General (Continued)

If a loan making/servicing decision is based on a revised farm operating plan the applicant *--does not agree with, the authorized agency official will enter the plan on which the applicant does not agree in FBP along with the plan submitted by the applicant. The authorized agency official will document in FBP the differences in the plans and the fact that the loan--* making/servicing decision was based on a revised farm operating plan on which the applicant does not agree.

In FBP, the plans should be named such that it is clear which plan is the applicant's plan and which plan is developed by FSA.

B Consideration of New Enterprises

For new enterprises that are **not** a part of the applicant's history, the authorized agency official may use reliable sources, such as enterprise budgets from Extension Service and Land Grant Universities, as acceptable documentation to support the farm operating plan. Farm operating plans developed for new enterprises must use acceptable State or county average production levels. In addition, the local conditions (soil productivity, climate, etc.) that will affect the enterprise and current realistic income and expense information will be considered when State or county averages are used.

Note: Program loan cost contracting funds are available and may be used to procure technical assistance for applicants planning new enterprises if public sector institutions (Extension Service, State Government, Land Grant Universities, etc.) cannot provide the assistance necessary.

C Consideration of Farm Program Payments

The authorized agency official shall:

- determine whether the applicant has applied for and may be eligible to receive any type of program payment assistance
- contact CED to determine the type and amount of program payment assistance the applicant has received or can expect to receive during the period covered by the farm operating plan
- include typical program payments and subsidies that are included in the President's annual appropriations budget in the cash flow projection of the farm operating plan
- not include any:
 - disaster related payments in the cash flow projections of long range and/or typical year farm operating plans, as disasters and any related type of payment assistance are ad-hoc and are not considered typical for a farming operation
 - 1-time payment assistance appropriated as a result of special legislation by Congress and the President in the cash flow projections of long range and/or typical year farm operating plans, as 1-time payment assistance is not considered typical for a farming operation.--*

*--243 Revising Farm Operating Plans

A Revising Plans

The authorized agency official and the applicant or borrower must revise the farm operating plan when changes occur in the farming operation or in the planned or actual use of loan funds. Any revisions made to the plan must be circled, dated, and initialed by the borrower and the authorized agency official. If major revisions cannot be accommodated in the original farm operating plan, a new plan must be completed and attached to the original. This new plan must be labeled, "Revision I, II, III," etc. to reflect the latest revision under consideration.

B FSA Responsibility for Revisions

The authorized agency official will meet with the applicant or borrower to discuss, date, and sign the revised farm operating plan. The revised plan must be placed in the applicant's or borrower's file and followup actions posted to DLS. The authorized agency official will provide a copy of the revised farm operating plan to the applicant.--*

244-246 (Withdrawn--Amend. 67)

247-250 (Reserved)

251 Overview

A CONACT Requirements

CONACT requires FSA to classify borrower accounts and to review annually for graduation each direct loan borrower classified as "commercial" or "standard". FSA uses the borrower account classification system to identify borrowers with the best potential to obtain commercial credit, except CL. See 4-FLP, Part 4 for graduation. Classification also identifies borrowers in need of special loan servicing and helps the National Office evaluate the quality of FSA's direct loan portfolio.

Classifications are not disclosed to credit bureaus or other lenders. A borrower cannot appeal an account classification.

B Classification Categories

Accounts will be identified as 1 of the following.

Classification	Classification Category
1	Commercial
2	Standard
3	Acceptable
4	Marginal
5	Not Classified

C When Classification Is Required

- *--All classifications will be completed using FBP. For guidance on completing the classification, see Exhibit 15, subparagraph J 7 b. If the account is classified as--* commercial or standard, the authorized agency official must thoroughly document that the borrower has met the test for credit and therefore meets the eligibility requirements for the loan being granted.
- *--Direct loans will be classified using the FBP credit presentation that is used to analyze and approve the loan.--*

At the end of YEA, done according to Section 5, the authorized agency official must also classify the account.

Subsequently, the authorized agency official at minimum must classify the account every 2 years with the updated data collected according to 4-FLP, subparagraph 47 B.

Before an account is identified as "Currently Not Collectible (CNC)" according to 5-FLP, subparagraph 126 A, a classification will be completed using FBP. The D-Loan/Special Classification Credit Action shall be used and will be assigned a score of "5", "Not Classified". Post cross servicing referral, CNC accounts are not required to be classified.

251 Overview (Continued)

D Classification of Youth Loans

New youth loans will be classified as "3" when completing the Youth Loan Credit Action. For existing youth loans, that are current, complete a D-Loan/Special Classification Credit Action. A score of "3", "Acceptable" will be assigned. For existing youth loans that are delinquent, the D-Loan/Special Classification Credit Action shall be used and will be assigned a score of "5", "Not Classified". The values of FSA's Security Margin and percent of FSA Loss will be calculated from the best information available for the borrower. The *--basis for these values will be documented in FBP.--*

E Classification of CL's

CL's will be classified using the FBP credit presentation that is used to analyze and approve the loan. There is no test for credit for CL's, so a classification of commercial or standard is acceptable without further documentation.

At the time of YEA, completed according to Section 5, the authorized agency official must classify the account.

Subsequently, the authorized agency official at minimum must classify the account every 2 years with the updated data collected according to 4-FLP, subparagraph 47 B.

Streamlined CL's will be classified as "2" using the D-loan/special classification credit action.

If CL, including Streamlined, subsequently becomes delinquent or financially distressed, all documents will be obtained to complete an analysis and the account will be classified using the updated information.

F Classification Reporting

Field Offices must use the Active FLP Borrowers Report from FLP Data Mart at https://fsadwhouse.sc.egov.usda.gov/FSA-DataMarts/FSAdataMartsHomePage.htm to monitor classifications. This report identifies the classification category and date for the most recent classification for each borrower. When a new classification is completed in FBP, the authorized agency official must update the Classification Review Workflow in DLS as soon as it is possible to do so.

252 Borrower Account Classification System

*--A Calculating Account Classifications

Borrower account classifications are completed using the most current balance sheet and income/expense statements available. FBP calculates the financial indicators used in the classification analysis and assigns a score for the 4 ratios addressed in subparagraphs B through E. A weighted percentage of each score is used to obtain the total overall score that determines the account's classification according to subparagraph F.

B Current Ratio (Liquidity)

This ratio indicates the extent to which current farm assets, if liquidated, would cover current farm liabilities.

FBP calculates the current ratio as follows.

Current Ratio = Total current farm assets ÷ Total current farm liabilities.

Current Ratio	Score
1.25 or greater	1
1.16 to 1.24	2
1.00 to 1.15	3
0.99 or less	4

C Debt to Asset Ratio (Solvency)

This ratio measures the operation's solvency by comparing total farm debt obligations owed against the value of total farm assets. The ratio expresses what proportion of total farm assets is owed to creditors and is 1 way to express the risk exposure of the farm business.

FBP calculates the debt to asset ratio as follows.

Debt to Asset Ratio = Total farm liabilities ÷ Total farm assets.

Debt to Asset Ratio	Score
40 or less	1
40.01 to 69	2
69.01 to 99	3
99.01 or greater	4

--*

Borrower Account Classification System (Continued)

*--D Return on Assets Ratio (Profitability)

This ratio measures the rate of return on farm assets and is often used as an overall index of profitability.

FBP calculates the return on assets ratio as follows.

Return on Assets Ratio = Net farm income from operations + Farm interest expense – Owner withdrawals ÷ Total farm assets.

Note: FBP calculates net farm income from operations as follows.

Net farm income from operations = Total operating income – Purchases for resale – Total operating expenses.

Return on Assets Ratio	Score
7 or greater	1
3.6 to 6.99	2
0.01 to 3.59	3
0 or less	4

E TDCLC Ratio (Repayment Capacity)

This ratio measures the operation's ability to cover all term debt and capital lease payments.

FBP calculates TDCLC ratio as follows.

TDCLC Ratio = Net farm income from operations + Non-farm income + Depreciation expense + Term debt/capital lease interest – Income tax expense – Owner withdrawals – Non-farm expense ÷ Term debt/capital lease annual principal/interest payments.

TDCLC Ratio	Score
1.15 or greater	1
1.08 to 1.14	2
1.00 to 1.07	3
0.01 to 0.09	4
-0.01 to 0	1
-0.02 or less	4

__*

252 Borrower Account Classification System (Continued)

F Account Classification

A weighted percentage of the score for each of the 4 measures of financial performance and operation stability identified in subparagraphs B through E, are used in the FBP to calculate the total overall score.

Total Overall Score = weighted current ratio score + weighted debt to asset ratio score + weighted return on assets ratio score + weighted TDCLC ratio score.

The following table provides the borrower account classification based on the total overall score.

Total Overall Score	Classification	Classification Category
1 to 1.59	1	Commercial
1.6 to 2.19	2	Standard
2.2 to 2.79	3	Acceptable
2.8 to 4	4	Marginal

Section 5 Year-End Analysis

261 Overview

A Introduction

YEA provides an opportunity for the borrower and FSA to discuss and evaluate a borrower's financial and production performance, progress toward goals, effectiveness of operational management, and FSA supervision and oversight. It also provides an opportunity to modify the plan of supervision and to address other changes in the borrower's operations or situation.

YEA must coincide with the borrower's production and marketing cycle.

YEA may be used in place of an annual review.

YEA must be performed in as much detail as is presented in the farm operating plan.

--In times of LR's, the authorized agency official may prioritize the completion of YEA-- within the requirements of the applicable statutes and regulations.

B Overview

FSA and the borrower jointly prepare YEA. YEA has the following 4 steps.

- The authorized agency official will identify and evaluate any significant changes to the borrower's operation or situation.
- The borrower and the authorized agency official will obtain the borrower's actual production data and financial data for the completed year and compare the actual data to the projections made in the prior year's farm operating plan by calculating variances from the projections.
- The borrower and the authorized agency official will determine and document the reasons for variances.
- The borrower and the authorized agency official will analyze how the borrower's performance can be improved in the coming year and the borrower prepares an updated farm operating plan.

When completed, the authorized agency official must place a copy of each YEA in the borrower's case file.

262 Preparing for the Year-End Analysis

A Schedule for YEA

The authorized agency official will schedule YEA to occur as close as possible to the end of the production cycle. It must be within the 60-calendar-day period after the borrower's production cycle ends. Borrowers must be prioritized according to need, with the greatest need cases being addressed first.

When the authorized agency official determines that YEA will be required according to subparagraph 263 A, a new YEA workflow will be created in DLS.

B Before the Appointment

--The authorized agency official must review existing assessments, FBP, written correspondence, and FSA-2040. If this review raises issues or questions, the authorized agency official must record these items in FBP to use when meeting with the borrower.--

The authorized agency official must send a copy of the farm operating plan to a borrower if the borrower uses FSA's system. This farm operating plan must be sent to the borrower before the end of the production cycle. The authorized agency official shall ask the borrower to have the actuals completed and to bring record books, tax information, and other verifying documents that may be needed to the meeting. Inventories, asset values, and debts must be calculated as of the COB cycle.

C Documenting YEA's Not Completed As Scheduled

When the authorized agency official determines that a scheduled YEA will not be completed as required, the YEA workflow in DLS shall be terminated. The terminated workflow must be documented as to why the workflow was not completed as scheduled. A new YEA workflow must be created and scheduled immediately as applicable.

A Operations Requiring YEA

[7 CFR 761.105(a)] The Agency conducts a year-end analysis at its discretion or if the borrower:

- (1) Has received any direct loan, except for Streamlined CLs, chattel subordination, or primary loan servicing action within the last year;
- (2) Is financially distressed or delinquent;
- (3) Has a loan deferred, excluding deferral of an installment under Subpart B of part 766; or
- (4) Is receiving a limited resource interest rate on any loan.
- *--Completion of YEA is mandatory for any borrower meeting the criteria above. A new YEA workflow will be created and scheduled in DLS when a new loan has been closed or upon determination that a borrower meets any other requirements for a mandatory YEA.--*

The decision to perform YEA on other borrowers is at the discretion of the authorized agency official. YEA is not required for borrowers with:

- youth loans only
- loans flagged as having bankruptcy, foreclosure, or court action pending
- streamlined CL's unless they have been delinquent or are financially distressed.

The authorized agency official shall use knowledge, experience, and judgment to identify high-risk operations requiring such additional supervisory attention. Supervisory judgments must be objective and apply sound credit and financial management principles.

Operations that may require YEA include those that are:

- undergoing major changes
- experiencing adverse production or financial conditions
- subject to volatile changes in the business climate.

B Timing

[7 CFR 761.105(b)] To the extent practicable, the year-end analysis will be completed within 60 days after the end of the business year or farm budget planning period and must include:

- (1) an analysis comparing actual income, expense, and production to projected income, expense, and production for the preceding production cycle; and
- (2) an updated farm operating plan.

C Identifying and Evaluating Significant Changes

YEA must identify and evaluate any significant changes to the borrower's farming operation, expenses, or financial condition that have occurred since the most recent initial assessment, assessment update, or annual review. In most cases, however, significant changes will not have occurred or, if such changes have occurred, they will be limited to 1 or 2 aspects of the borrower's situation. The authorized agency official shall pay particular attention to the following:

- changes in operations or goals
- status of progress toward goals
- need for changes in the plan of supervision
- need for additional borrower training.

D Comparing Actual Performance to Projections and Calculating Variances

The year-end analysis must present the borrower's actual production data and financial data for the completed year and compare the actual data to the projections made in the prior year farm operating plan. Based on this comparison, the analysis must calculate variances from the projections.

The authorized agency official will collect other pertinent information related to the farm's operation, such as changes or improvements in real estate, changes in key personnel, and any other alterations that significantly impact the operation. The authorized agency official must briefly explain the process, emphasizing the borrower' benefits rather than FSA requirements.

The evaluation of actual performance can be enhanced by:

- obtaining and reviewing the borrower's actuals using pertinent information about the farm operation, such as changes or improvements in real estate, changes in key personnel, and any other alterations that significantly impact the operation
- reviewing production by obtaining and/or calculating yields (production), price per unit, and the amounts in inventory (held for sale)

Note: Production numbers should roughly correspond with the new balance sheet and numbers sold

• evaluating debt service margin.

Note: If greater than 1.10 for a borrower on a limited resource interest rate, the interest rate may need to be increased according to 4-FLP, Part 3.

The authorized agency official must consider the following issues when comparing actual performance to projections and calculating variances.

- The authorized agency official must review planned versus actual expenses for family living, farm operating, and capital expenditures.
- The year-end analysis must discuss credit used for farm operating, capital, and family living expenses.
- Sometimes proceeds are recorded as net figures with commission, sales expenses, yardages, seed, and storage costs removed. Using gross proceeds with the associated costs captured under operating expenses is preferable.

D Comparing Actual Performance to Projections and Calculating Variances (Continued)

- The analysis must calculate yields (production), price per unit, and amounts in inventory (held for sale). Numbers should roughly correspond with the new balance sheet and numbers sold.
- FSA-2040 must be reconciled with the farm operating plan (or other plan) and the security agreement. Differences from projections and the need to amend the security agreement must be discussed.
- Interest figures must include all interest, not just operating interest.
- Any proceeds from the sale of capital items must be subtracted when evaluating income from operations.
- The analysis must evaluate and document the sources of nonfarm income. Income and tax information must be verified as applicable.
- The analysis must consider debts and debt repayments to FSA and other lenders. Breakdowns of principal and interest can serve as a cross check for interest actually paid by the borrower. This information must match FSA-2040.
- The analysis must report expenditures net of trade-ins.
- Income and Social Security taxes must be included in the analysis.

E Determining and Documenting Reasons for Variances

After variances between the projected budget in the farm operating plan and the borrower's actual performance have been identified, the borrower and the authorized agency official must determine and concisely document the reasons for the variances. The analysis must:

- consider both the borrower's and the authorized agency official's perceptions of the borrower's successes, failures, and the reasons that specific items were not completed
- determine why income was not used as planned
- discuss operational performance, achievement of short-term goals, progress toward medium-term and long-term goals, and living expenses.

F Analyzing How Performance Can Be Improved

After determining the reasons for any deviations in the preceding year's performance, the borrower and the authorized agency official together must analyze how the borrower's performance can be improved in the coming year. The authorized agency official and borrower may identify areas for improvement based on the reasons for the variances between actual and planned performance. The analysis shall address concerns in the following areas:

- unplanned sales
- changes in marketing plans
- sales of basic security
- use of proceeds
- debts paid
- amount of money released for family living and farm operating expenses.

The analysis must consider whether the borrower is making adequate progress towards established goals. Ratios, historical trends, and production records are good sources of information for evaluating business goal achievements. Alternatively, if the borrower's goals (for either business or family) were unrealistic, the analysis must reevaluate them and establish new, obtainable goals.

Areas for improvement also might follow from recent changes in farm operations and family conditions. Therefore, the authorized agency official shall work with the borrower to identify any changes or alterations that significantly affect the operation.

If the authorized agency official determines that the borrower's production or financial performance may be improved by training, the authorized agency official may require that *--the borrower meet training requirements. See 3-FLP, Part 18 for more information on--* borrower training.

If performance is better than projected, the analysis should evaluate repayment issues, as well as income taxes and Social Security taxes.

F Analyzing How Performance Can Be Improved (Continued)

The authorized agency official should remind the borrower that deviations from the agreed-upon farm operating plan must be discussed with FSA.

G Preparing an Updated Farm Operating Plan

--The year-end analysis must include a current farm operating plan. The farm operating plan is prepared by the borrower, with FSA's assistance if needed.--

264-400 (Reserved)

Part 9 Internal Controls

Section 1 FLPRA

401 Overview

A Background

FSA is mandated by the Federal Managers Financial Integrity Act of 1982 (Pub. L. 97-255) to maintain an efficient and effective internal control system. FLPRA fulfills this mandate by:

- establishing program evaluation criteria and reporting requirements
- providing a method to administer program evaluations
- providing a framework for performance analysis, risk mitigation identification, risk mitigation implementation, and annual reporting.

B Purpose

FLPRA is the primary tool that FLP uses for ongoing reviews and oversight of field office operations. FLPRA evaluates FLP using a risk-based approach and provides the framework for evaluating FLP management and oversight by State Offices and FLP delivery by Service Centers.

FLPRA evaluates the potential for risk in the following 3 areas.

- Program Objectives Assessing whether or not the objectives of the program, as set forth in agency policies and procedures, are being met.
- Financial Integrity Determining the soundness and quality of the loan program.
- Program Management Evaluating the effectiveness of the leadership and guidance provided in delivering FLP.

401 Overview (Continued)

B Purpose (Continued)

FLPRA is divided into the following 3 review areas:

- Direct Loan Making
- Direct Loan Servicing.
- Guaranteed Loan Programs.

Note: This area includes both guaranteed loanmaking and guaranteed loan servicing.

C Objective

The primary objectives of FLPRA are to evaluate the effectiveness of FLP delivery systems and ensure compliance with applicable statutes, regulations, and directives. To promote a consistent and effective approach to conducting reviews, FLPRA focuses on:

- evaluating program delivery by assessing the condition and performance in the risk areas of program objective, financial integrity, and program management
- determining the overall degree of risk existing in FLP programs and identifying the factors contributing to the risk
- recommending or requiring management to take mitigation action, as needed, to strengthen FLP programs and/or ensure compliance with applicable regulations.

D SED Responsibilities

SED is responsible for implementing the FLPRA process in their State by ensuring that all required reviews, analyses, applicable risk mitigation plans, and reports are completed according to this Part.

402 FLPRA Review Process

A Administering FLPRA Reviews

FLPRA reviews will be administered and the results reported both at the State Office and National Office levels. The National Office and State Offices can access the FSA Intranet at http://intranet.fsa.usda.gov/fsa/ to obtain guides detailing the process to complete the reviews according to the following.

*__

Step	Action
1	On the FSA Intranet Home Page, under "Resources", CLICK "FSA Applications".
2	On the FSA Applications Page, CLICK "Farm Loan Programs Systems".
3	On the Farm Loan Programs Systems Home Page, under "Informational Links",
	CLICK "Manuals" and CLICK "FLPRA National Office Review Process Guide"
	or "FLPRA State Office Review Process Guide", as applicable.

B State Office Review Responsibilities

State Offices will be required to complete FLPRA reviews as follows:

- States with 9 or more FLP Service Centers will be required to review a minimum of 20 percent of the Service Centers each year, with all Service Centers being reviewed at least once every 5 years
- States with 8 or fewer FLP Service Centers will be required to conduct at least 1 Service Center each year, with all Service Centers being reviewed at least once every 5 years
- any Service Center with a review score of 4 or 5 in Program Objectives, Program Management, and/or Financial Integrity must be reviewed the following year.--*

The process for selecting the FLP Service Centers and high risk program areas to be reviewed is set forth in the FLPRA State Office Review Process Guide.

C National Office Review Responsibilities

The National Office will complete FLPRA reviews in 10 to 13 States per year. The reviews evaluate State FLP delivery and include visits to a limited number of FLP Service Centers. The process used by the National Office to select States to be reviewed is set forth in the FLPRA National Office Review Process Guide.

403 State Office Reporting Requirements

A FLP Service Center Report

State Offices will provide a report to each FLP Service Center reviewed within 30 calendar days after completing the review. The reports will be developed in the format set forth in FLPRA State Office Review Process Guide, Exhibit 2. Reports for each FLP Service Center will include FLPRA State Office Review Process Guide, Exhibits 4 through 7 that will:

- rate each FLP Service Center reviewed in the 3 risk areas
- provide a composite score for the FLP Service Center.

The scores for each FLP Service Center will be:

- input in the automated FLPRA system within 30 calendar days of completing the review
- documented in the comment box provided to support the scores reported
- input in the automated FLPRA system no later than January 15.

B Annual Report

No later than February 1, each State Office will submit the annual FLP4 Report using the template provided in the State Office Review Process Guide, Reports Section, by e-mail to *--SM.FSA.DCWa2.FLPRA.--*

404 National Office Reporting Requirements

A State Visit Reports

The National Office will provide a findings report from on-site visits to State management within 30 calendar days after completing the review. The format of this report is detailed in the National Office Review Process Guide, Section 6. This report will:

- •*--clearly present conclusions that are supported by facts obtained during the review--*
- include recommended mitigative actions.

Mitigative actions will:

- be developed in conjunction with State management during the on-site visit
- have a specified date to provide an update on the State's progress in mitigating identified risks.

B PDEED Action

Upon receiving a State's risk mitigation plans, PDEED shall:

- evaluate and approve risk mitigation plans
- establish a follow-up system to ensure that risk mitigation plans are implemented
- assess the success of the risk mitigation plan on reducing identified high risks
- provide an annual report to DAFLP summarizing the area of potential risk in the States visited.

405-440 (Reserved)

Section 2 DD FLP Oversight

441 General Provisions

A Overview

It is incumbent upon DD's to monitor the FLP delivery in Service Centers to ensure adherence to appropriate laws, policies, and procedures.

B Purpose

The DD FLP oversight process provides a standardized and consistent reporting format and means by which DD can:

- document results from quarterly FLP oversight reviews
- view previously completed quarterly reports
- monitor and followup on actions to be taken by FLP Service Center staff.

442 DDORS

A Overview

Reporting of FLP oversight reviews will be completed on a quarterly basis. DDORS is the official record documenting the results of the quarterly reviews.

DDORS:

- was developed to assist DD with completing FLP oversight reviews conducted in the FLP Service Centers online
- provides the means by which DD can document and submit review results to State and Field Offices electronically
- contains the review items for each reporting quarter
- •*--archives oversight reports for five FY's.

B System Access

Access DDORS from the Farm Loan Programs Systems Home Page, located at https://amistad.sc.egov.usda.gov/flp/IndexServlet.

DDORS may also be accessed at

https://wdcprod80.sc.egov.usda.gov/Ddors/homepage.aspx.

Note: See Exhibit 36 for detailed instruction on accessing DDORS.--*

B System Access (Continued)

Users who need access to DDORS should contact their State DDORS Administrator. The authentication and authorization of users is made using USDA's eAuthentication application.

To access DDORS users must have the following:

- valid eAuthentication ID and password
- eAuthentication Level 2 account
- authorized access by the DDORS Administrator.

C Report Statuses

Report Status will be as follows:

- "Archived", Service Center closed during FY
- "Not Started", the report is empty and can only be accessed by DD
- "In Progress", the report is partially completed
- "Submitted", the report was completed and certified before its due date
- "Auto-Submitted", the report was not certified before its due date. The report may be partially completed or empty.

Note: "Submitted" and "Auto-Submitted" reports cannot be modified; however, pending action items can be followed up and closed.

D Service Center Progress Reports

Progress reports provide counts of "Not Started", "In Progress", "Submitted", and "Auto-Submitted" oversight reports that are in the State and in each district.

E Reporting Timeframes

The first quarter report:

- •*--will be available for completion in DDORS starting December 1 and ending on--*

*--E Reporting Timeframes (Continued)

• is comprised of quarterly review items, second semi-annual review items, and items, additional review items, and certification.

Notes: The quarterly report that corresponds to the current reporting period will be displayed when DD selects the link for the Service Center to be reviewed from the DDORS Home Page.

Results for all review areas corresponding to each quarter will be captured when the report is submitted or auto-submitted by DDORS when the reporting period has ended.

Oversight reports are locked when DD submits the report or after the due date. DDORS does not allow anyone to add, modify, or delete review information.

F Action Items

An action item is a note attached to a review area, a review record, or a review item in an oversight report. Action items allow users to document concerns and issues about oversight reviews.

DD's are highly encouraged to use action items to bring awareness to the Service Center and State Office, of problems and deficiencies discovered during the oversight review.

Only DD or proxy assigned to an oversight report can add action items to and close action items in the report. DD or proxy can add an action item anytime before submitting the report.

After an oversight report is submitted or auto-submitted, any DDORS user who can view a report can also followup on action items in the report by adding their own comments. Users can add followup comments to an action item until it is closed by DD or proxy.

Follow this table to add comments to a pending action item.

Step	Action
1	Go to the review area, review record, or review item with the pending action item.
2	CLICK " Follow up pending action item".
3	CLICK "Add Follow-Up Comments".
4	Enter followup comments in the box.
5	CLICK "Save Follow-Up".
6	CLICK "Save Follow-Up".

*--G User Roles

There are 6 user roles, as follow. User's role will be displayed under "DDORS Menu", under user's name.

Example: If user is an administrator, then "Administrator" will be displayed under "DDORS Menu", under user's name.

National User Role

National users are DAFLP, Assistant DAFLP, Directors, Deputy Directors, FLPRA review teams, and national administrators. A national user role allows users to:

- view in progress, submitted, and auto-submitted oversight reports for all Service Centers
- followup pending action items in submitted and auto-submitted reports by adding followup comments.

For all States, national administrators can:

- manage:
 - proxy assignments
 - specialist assignments
 - user accounts
- assign user roles in 1 State to another State.

Example: DD in Maryland needs to manage a district in Delaware. National administrator can make the assignment.--*

*--G User Roles (Continued)

• State User Role

State users may include SED's, FLC's, FLS's, COR's, or State administrators. A State user role allows users to:

- view-only, in progress, submitted, and auto-submitted oversight reports for specified Service Centers
- followup pending action items in submitted and auto-submitted reports by adding followup comments
- act as a proxy for DD, if assigned
- act as specialist, if assigned to a Service Center.

State administrators:

- can activate or deactivate user accounts
- can assign and manage proxy and specialist assignments
- are limited to assigning user roles for Service Centers and districts within their State.

District User Role

DD's are assigned by the State administrator:

- to the districts that he or she manages
- read-only access to oversight reports from another district, as determined by the State Office
- a floating DD role to act as a proxy for other DD's.

A district user role allows users to:

- complete and edit oversight reports for their Service Centers
- add action items to their oversight reports
- followup and close pending action items in their reports.--*

*--G User Roles (Continued)

• Service Center User Role

Service Center user role allows users to:

- view submitted and auto-submitted oversight reports for their Service Center
- followup pending action items in submitted and auto-submitted reports by adding followup comments.

• Proxy User Role

Proxy user's:

- are temporarily assigned to a Service Center to manage its oversight reports
- can complete, certify, and submit oversight reports for the assigned Service Center
- can followup and close the assigned Service Center's action items.

Proxy assignments are terminated if DD's district assignment changes or if DD or proxy's account is inactivated.

Note: During the time period a proxy is assigned to a Service Center, DD can view, but cannot edit, the Service Center's oversight reports.

• Specialist User Role

Specialist users are State users who are assigned to work on a Service Center's oversight report along with DD or proxy. Specialist users can add and modify review information anywhere in the oversight report.

Specialist users cannot:

- delete review records added by others
- add new action items or close existing action items
- certify (sign) or submit oversight reports.--*

443 Responsibilities

A DD Responsibilities

--See Exhibit 36 for detailed guidance on completing the oversight report online and creating various Hyperion and GLS reports.--

DD's shall:

- coordinate and plan all FLP oversight review site visits with FLP State Office staff so that participation by FLC or FLS can be arranged when necessary
- notify SED and FLC of any apparent problems that may require immediate attention
- •*--use DDORS to:
 - complete reviews for each Service Center quarterly
 - document specific findings for each case file or operational file reviewed
 - record and followup on any noted problems or inconsistencies as an "Action Item"
 - submit completed Service Center oversight reports.

Note: Submitting the report online in DDORS is the:

- certification for that report
- DD's signature.--*

B Service Center Responsibilities

Service Center staff shall:

- •*--assist as needed with items to be reviewed--*
- be available to discuss specific cases or to answer questions from DD
- followup on any action items identified by DD's in DDORS.

443 Responsibilities (Continued)

C State Office Responsibilities

SED's shall ensure that timely FLP oversight reviews are completed by DD's in DDORS.

FLC's shall:

- assign a State System Administrator for DDORS
- •*--review quarterly reports submitted--*
- followup on any identified action items
- discuss concerns with DD and SED
- •*--document the actions taken to remedy identified deficiencies in the operational file.--*

D National Office Responsibilities

DDORS oversight reports shall be reviewed with the FLPRA process. Reports for each FLP Service Center within a State shall be reviewed to ensure that:

- consistent oversight reviews are being conducted by DD's in the State
- SED's and FLC's are monitoring and addressing any deficiencies or apparent problems identified by DD's.

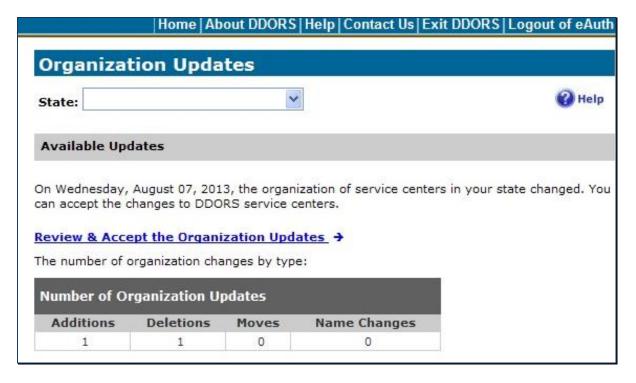

444 DDORS Organization Updates

A About Organization Updates

The MRT database is the system of record for all organizational data in DDORS. State *--Offices must submit FSA-2125 to DCIB to add, delete, or move Service Centers and/or--* districts. These changes are processed in the PLAS database that populates MRT.

Each Tuesday evening, DDORS searches MRT for changes. Any changes found will flow into DDORS and become organization updates.

DDORS automatically generates an e-mail to the State DDORS administrator when changes have been found, alerting the State DDORS administrator that the pending changes are ready for review and acceptance. The e-mail includes a hyperlink to the DDORS Organization Updates Screen for quick and easy access.

The State administrator must click "**Review & Accept the Organization Updates**" link and accept the pending changes in DDORS before any changes are made to the Service Centers and/or districts in DDORS.

Redelegations of Authority

SED's may redelegate their:

- loan approval authority to FLC, FLS, or DD
- authority to allow the use of a restricted appraisal report to the designated State staff appraiser.

Definitions of Terms Used in This Handbook (7 CFR 761.2 (b))

Administrative Appraisal Review

Administrative appraisal review is a review of an appraisal to determine whether the appraisal:

- meets applicable Agency requirements; and
- is accurate outside the requirements of Standard 3 of USPAP.

*--Adversely Affect

Adversely affect means that a change unrelated to the issue resolved through the appeal will result in the borrower no longer being eligible for the loan servicing action requested, or the previously developed FBP not being feasible.--*

Agency

Agency is the FSA.

Agency Official

The <u>agency official</u> is any employee with the agency. This term is used when the action does not require inherent or delegated authority.

Approval Official

The <u>approval official</u> is the specific employee who has the authority to approve or deny the described action.

Authorized Agency Official

The <u>authorized agency official</u> is the FSA official that is authorized to perform specific tasks related to loanmaking or loan servicing. The appropriate official is determined by inherent authorities or delegations applicable to a particular task.

Beginning Farmer

- *--Beginning farmer is an individual or entity who:
 - (1) Meets the loan eligibility requirements for a direct or guaranteed CL, FO, or OL, as applicable;
 - (2) Has not operated a farm for more than 10 years. This requirement applies to all members of an entity;
 - (3) Will materially and substantially participate in the operation of the farm:
 - (i) In the case of a loan made to an individual, individually or with the family members, material and substantial participation requires that the individual provide substantial day-to-day labor and management of the farm, consistent with the practices in the county or State where the farm is located.
 - (ii) In the case of a loan made to an entity, all members must materially and substantially participate in the operation of the farm. Material and substantial participation requires that the member provide some amount of the management, or labor and management necessary for day-to-day activities, such that if the individual did not provide these inputs, operation of the farm would be seriously impaired;
 - (4) Agrees to participate in any loan assessment and borrower training required by Agency regulations;
 - (5) Except for an OL applicant, does not own real farm property or who, directly or through interests in family farm entities owns real farm property, the aggregate acreage of which does not exceed 30 percent of the median farm acreage of the farms in the county where the property is located. If the farm is located in more than one county, the median farm acreage of the county where the applicant's residence is located will be used in the calculation. If the applicant's residence is not located on the farm or if the applicant is an entity, the median farm acreage of the county where the major portion of the farm is located will be used. The median county farm acreage will be determined from the most recent Census of Agriculture;
 - (6) Demonstrates that the available resources of the applicant and spouse (if any) are not sufficient to enable the applicant to enter or continue farming on a viable scale; and
 - (7) In the case of an entity:
 - (i) All the members are related by blood or marriage; and
 - (ii) All the members are beginning farmers.--*

Conservation Loan (CL)

<u>CL</u> means a loan made to eligible applicants to cover the costs to the applicant of carrying out a qualified conservation project.

Conservation Plan

Conservation plan means an NRCS-approved written record of the land user's decisions and supporting information, for treatment of a land unit or water as a result of the planning process, that meets NRCS Field Office Technical Guide (FOTG) quality criteria for each natural resource (soil, water, air, plants, and animals) and takes into account economic and social considerations. The conservation plan describes the schedule of operations and activities needed to solve identified natural resource problems and takes advantage of opportunities at a conservation management system level. This definition only applies to the direct loans and guaranteed loans for the Conservation Loan Program.

Conservation Practice

Conservation practice means a specific treatment, such as a structural or vegetative measure, or management technique, commonly used to meet specific needs in planning and implementing conservation, for which standards and specifications have been developed. Conservation practices are contained in the appropriate NRCS Field Office Technical Guide (FOTG), which is based on the National Handbook of Conservation Practices (NHCP).

Conservation Project

Conservation project means conservation measures that address provisions of a conservation plan or Forest Stewardship Management Plan.

Forest Stewardship Management Plan

Forest Stewardship Management Plan means a property-specific, long-term, multi-resource plan that addresses private landowner objectives while recommending a set and schedule of management practices designed to achieve a desired future forest condition developed and approved through the USDA Forest Service or its agent.

FSA

<u>FSA</u> means Farm Service Agency, an Agency of the USDA, including its personnel and any successor Agency.

Graduation

<u>Graduation</u> means the payment in full of all direct FLP loans, except for CLs, made for operating, real estate, or both purposes by refinancing with other credit sources either with or without an Agency guarantee.

Loan Activity

<u>Loan activity</u> is any transactions processed in GLS, DLS or PLAS to a borrower's loan.

Microloan (ML)

--<u>ML</u> is a type of OL of \$50,000 or less made under reduced application, eligibility, and-- security requirements.

PLCE Expenses

<u>PLCE expenses</u> are defined as financial transactions and procurement items.

Program Loans

<u>Program loans</u> include FO, CL, OL, and EM. In addition, for loan servicing purposes the term includes existing loans for the following programs no longer funded: SW, RL, EE, ST, and RHF.

Streamlined Conservation Loan

Streamlined conservation loan means a direct or guaranteed CL made to eligible applicants based on reduced documentation.

Supervised Bank Account

<u>Supervised bank account</u> is an account with a financial institution established through a deposit agreement entered into between the borrower, the Agency, and the financial institution.

Definitions of Terms Used in This Handbook (7 CFR 761.2 (b)) (Continued)

Technical Appraisal Review

<u>Technical appraisal review</u> is a review of an appraisal to determine if such appraisal meets the requirements of USPAP pursuant to Standard 3 of USPAP.

Treasury Judgment Rate

The <u>treasury judgment rate</u> is the interest rate applicable to deficiency judgments for all loan types (pursuant to 28 U.S.C. Section 1961).

Uniform Standards of Professional Appraisal Practice

<u>Uniform standards of professional appraisal practice</u> are **standards governing the preparation**, reporting, and reviewing of appraisals established by the Appraisal Foundation pursuant to the Financial Institutions Reform, Recover, and Enforcement Act of 1989.

Discrimination Complaint E-Mail Clearance System

*--The following illustrates the clearance process used before acceleration, foreclosure, and CNC for all accounts.

Note: When a review has been completed through this process for pre-acceleration, the Consent Decree Record for African American borrowers, OGC CR, and DAFLP reviews will not be completed again for the pre-foreclosures and CNC clearances.--*

Instructions for E-Mail to the National Office for Discrimination Complaint Status

A E-Mail Recipients

FLC or designee shall provide an e-mail to the National Office at **FSA-DIRECTLOANS@wdc.usda.gov**.

B E-Mail Subject

The e-mail subject block should read, "Civil Rights Complaint Clearance - Borrower's Name and State".

C E-Mail Attachment

- *--The e-mail attachment shall:
 - be encrypted using the current FY national DAFLP password--*
- include the following information for the primary borrower:
 - name and 12-digit account number (State and county code and SSN/TIN)
 - complete residence address
 - race
 - gender
 - ethnicity (Hispanic or not Hispanic)
 - youth loan only (yes or N/A)
 - include the following information for all liable parties:
 - name
 - SSN
 - race
 - gender
 - ethnicity (Hispanic or not Hispanic)
 - provide the type of request (pre-acceleration, pre-foreclosure, or CNC)
 - include prior review history including the following information:
 - previously cleared for acceleration by memo or e-mail on (specific date)
 - case review (specific date) and returned for additional servicing
 - include prior civil rights complaint information, including complaint number if known.

Note: The prior civil rights complaint information will help to clarify complaints that may have been previously closed or to further identify the race or involvement in pending suits against the government. That is, possible Keepseagle, Pigford, Love, or Garcia; ALJ Case #XXXXXXXX, last contact (specific date).

Instructions for E-Mail to the National Office for Discrimination Complaint Status (Continued)

C E-Mail Attachment (Continued)

If the case involves a borrower who is a claimant under a Class Action or USDA Settlement *--Agreement, follow guidance in Exhibit 13.5.--*

*--Servicing Settlement Claimants and National Office FLP Programmatic Review

A Background

The *Pigford, Keepseagle, and Pigford II* legal settlements and USDA's initiative to settle outstanding group actions (Women and Hispanic) have affected the way FSA services delinquent loan accounts of claimants in these cases.

B Closed Settlement Claims

A claim is considered closed when a final decision has been issued.

State Offices:

- are advised by CDAT when a *Pigford* claim is closed
- will be advised by memorandum from DAFLP when *Keepseagle*, *Pigford II*, Women, and Hispanic claims are closed.

All closed claims will fall into 1 of the following 2 categories.

- Category 1 individuals:
 - whose settlement claims have been closed and were **not** delinquent on their FLP debt at that time; or
 - who had no FLP loans.
- Category 2 individuals whose settlement claims have been closed and were delinquent on their FLP debt at that time.--*

Servicing Settlement Claimants and National Office FLP Programmatic Review (Continued)

C County Office Servicing Actions

Upon receiving notification that the claim of a settlement claimant has been closed, the County Office will service the account according to the following.

- Category 1 cases require no special servicing.
- Category 2 cases.
 - **Delinquent borrowers with outstanding servicing applications that have not been concluded**. Contact the borrowers to determine whether they want to continue with the existing loan servicing application or receive a new notification of the availability of loan servicing.

Note: Use FSA-2198 or FSA-2199, as appropriate, to contact these borrowers.

- For borrowers who return FSA-2198 or FSA-2199, as appropriate, within 15 calendar days, begin the loan servicing process again by sending a new notification of the availability of loan servicing according to 5-FLP, Part 3.
- For borrowers who do not return FSA-2198 or FSA-2199, as appropriate, within 15 calendar days, continue processing the pending application.

Note: Claimants may have an appeal hearing in suspension, pending closure of their claim. When the authorized agency official is notified that the claim has been closed, the official should notify the Appeal Hearing Officer of the closure.

•*--Delinquent borrowers with no pending servicing request. For delinquent borrowers where the special servicing application has been concluded and the account has not been accelerated, send a new notification of the availability of loan servicing according to--* 5-FLP, Part 3. The decision on the settlement claim may have improved borrowers' financial conditions and could affect their ability to qualify for FSA assistance.

Note: When all loan servicing rights have been concluded for Category 2 borrowers, without resolving the delinquency, submit the completed FSA-2580 and FSA-2581, to the State Office, as required by 5-FLP, subparagraph 533 B.

*--Servicing Settlement Claimants and National Office FLP Programmatic Review (Continued)

C County Office Servicing Action (Continued)

Delinquent borrowers whose accounts have already been accelerated. Except for
cases already held by DOJ, submit the completed FSA-2580 and FSA-2581 to the State
Office requesting civil rights clearance review required by subparagraph 41 H or
pre-CNC if liquidation has already occurred. If DOJ is holding a case, the U.S.
Attorney's office should be advised when the claim is closed.

If a Category 2 borrower's delinquency is cured by payment, rescheduling, writedown, or any other resolution, and a new delinquency occurs at a later date, the normal pre-acceleration review required by Exhibits 12 and 13 will be performed. Likewise, Category 1 individuals who later become delinquent on any FLP debt will be subject to the same review process.

D State Office Servicing Action

For Category 2 borrowers, when requesting the National Office civil rights clearance required by subparagraph 41 H, in addition to the documentation required by Exhibit 13, the State Office will include FSA-2580 and FSA-2581 documenting the findings of the State Civil Rights Review Group.

Note: FSA-2580 and FSA-2581 only need to be submitted once. If FSA-2580 and FSA-2581 are submitted for pre-acceleration clearance of a Category 2 borrower, FSA-2580 and FSA-2581 will not need to be submitted for subsequent pre-foreclosure and/or pre-CNC clearance.

E National Office Action

The National Office shall:

- review FSA-2580 and FSA-2581, other documentation provided according to Exhibit 13 and supporting documentation found in DLS-Special Servicing, FBP, and eDALR\$ to ensure that all servicing and appeal rights were properly administered before further consideration of acceleration, foreclosure, or CNC
- provide written guidance to the State Office for each case after completing the review.--*

*--Servicing Settlement Claimants and National Office FLP Programmatic Review (Continued)

F Servicing Actions for Pending Settlement Claimants

Until individual claims are closed through the respective settlement processes, the policy of not accelerating or foreclosing against claimants remains in effect. Do not take acceleration or foreclosure action until a claim has been closed, and for Category 2 borrowers, the National Office has provided written guidance according to subparagraph E.

Where there is a potential fraud in borrowers' loan relationships with FSA, for example, conversion, the cases would generally be referred to OIG with copies to OGC. In cases where the borrowers are claimants, continue to refer the particulars of the situations to OIG with copies to OGC, including any applicable information about the claimant's under the respective settlement.--*

SCIMS-PLAS ORACLE Hyperion Reports (Continued)

B SCIMS-PLAS Exception Report

Exceptions found between current PLAS borrower information and current SCIMS borrower information prevent updating name and address information in PLAS from SCIMS. The SCIMS-PLAS Exception Report provides the current PLAS borrower case number, name, and address information, the current SCIMS name and address information, and a descriptive exception type message that allows the County Office to make corrections.

If the correction is made in BP, the SCIMS-PLAS update process will correct PLAS, allowing for 2 workdays. If the correction is made in PLAS, users need to process the appropriate ADPS transaction or make the appropriate contact for assistance.

The SCIMS-PLAS Exception Report is a **cumulative** report; therefore, only the most recent report is viewable each day. The following is an example format.

Case Number	Exception Type	Borrower Information (P=PLAS, S=SCIMS)
XX-XXX-XXXX	SCIMS TAXID INACTIVE	(P) SMITH, MARIA A 246 ELM HWY MONROE, AL 12345
		(S) SMITH, MARIA A 123 COUNTY RD MONROE, AL 12345

The following table provides the description and corrective action for each exception type.

	information is truncated during the	
	nightly update process.	

Notes: Users must exercise caution when entering/modifying information for "Delivery Address" in BP, as there is no exception type provided for invalid name/address. Misspelling a name or an invalid address in BP will result in an update from SCIMS to PLAS that is inaccurate and may not be detected until mail is returned as undeliverable.

A triple space between characters is used systematically to terminate the collection of SCIMS address information during the nightly PLAS update process. Erroneous spacing in SCIMS:

- will decrease the information input to PLAS
- will likely update PLAS with an incomplete address
- may sometimes create an exception for "SCIMS address exceeds 38 characters".

The SCIMS-PLAS update process does not update PLAS for a borrower that has only guaranteed loans.

SCIMS-PLAS ORACLE Hyperion Reports (Continued)

C SCIMS-PLAS Update Report

The SCIMS-PLAS Update Report displays the current PLAS case number, TC, "PLAS" field, information in PLAS before the update, and information now in SCIMS that has most recently updated PLAS. This is a daily report and users have the option to view reports from the past 30 calendar days. The following is an example of the SCIMS-PLAS Update Report's format.

		PLAS		
Case Number	Date	Tran Code	(PLAS) Field	Borrower Information (P=PLAS, S=SCIMS)
XX-XXX-XXXX	XX/XX/XX	4C	NAME/ADDRESS	(P) SMITH, MARIA A 246 ELM HWY MONROE, AL 12345
				(S) SMITH, MARIA A 123 COUNTY RD MONROE, AL 12345

Validation Action: Users review each item on the report to verify the accuracy of borrower

information. If an error is detected for the information submitted in SCIMS, users shall make the necessary modification in BP. A new TC 4C

will then be generated as part of the nightly update process.

D SCIMS-PLAS Discrepancy Report

The SCIMS-PLAS Discrepancy Report lists TC 4C discrepancies that resulted from the previous night's update. These discrepancies are the same as ADPS discrepancies on PLAS; however, they will **not** appear on ADPS. These discrepancies must be corrected by NFAOC. Users shall contact NFAOC according to paragraph 5 for assistance.

This is a daily report and users have the option to view reports from the past 30 calendar days.

Note: The SCIMS-PLAS Discrepancy Report should generally remain empty.

A Overview

1 Farm Business Planning

FSA uses the FBP system to perform farm planning and analysis, loan origination and servicing functions, and manage the FLP loan portfolio. This will allow FSA to:

- assist customers in planning their business operations, either online or through traditional business methods
- improve the timeliness and quality of service
- thoroughly analyze credit actions with an improved, yet consistent process
- use accrual analysis, when appropriate, in analyzing credit decisions and preparing plans
- improve loan documentation and compliance with audits
- empower States to proactively manage their loan portfolio by providing access to a data mart of financial information.

Because the FBP system is flexible, there are many ways to deal with different circumstances. This user guide is designed as a starting point to provide overall FSA policy in farm planning and analysis, and discuss policies and business practices FSA has implemented in FBP. Additional information about actual software usage is available through the online eHelp.

.*--See Getting Help (Section L).--*

The term "FBP" is used in the following 2 contexts:

- collecting documents that compose FBP
- the system used to create the document FBP.

A Overview (Continued)

2 System Access and Security

FSA authorized users can access the system using Microsoft Internet Explorer 7.0+ directly through the Internet at https://wem.sc.egov.usda.gov/fem_web_webcaaf.asp or through the FSA Intranet at http://intranet.fsa.usda.gov/fsa, under "FSA Applications":

- CLICK "Farm Loan Programs Systems"
- CLICK "Logon"
- enter eAuthentication credentials
- under "Applications", CLICK "Farm Business Plan".

The authentication and authorization of users is made using USDA's eAuthentication application. To use FBP, users must have both of the following:

- valid eAuthentication ID and password
- access authorized by the State FBP Coordinator.

Notes: For problems logging in, see **Getting Help** (Section L).

*--Do **not** open 2 sessions of Web Equity at the same time as this may cause data corruption.--*

a User Access to the FBP System

Unless otherwise determined by the FBP Coordinator or FLC, the following employees will be provided with access to FBP after their eAuthentication ID has been obtained:

- FLM's
- SFLO's
- FLO's
- FLOT's
- FLP technicians
- DD's
- COR's
- FLC and staff
- CED's with loan approval authority.

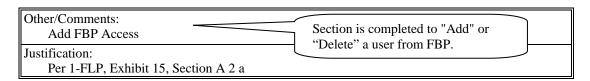

User access requests, which include "Add", "Delete", or "Modify", must be submitted and processed as follows.

For FSA State Office and Service Center Employees.

- •*--The immediate supervisor or FLM is responsible for completing the following sections on FSA-13-A for all FBP user requests:
 - Items 1-11, as applicable
 - Other/Comments
 - Justification
 - Print User's Approving Official Name and Title
 - Signature
 - Date.
- A request to "Add" a user to FBP should be completed as soon as an employee has obtained an eAuthentication ID.

- A request to "Delete" a user from FBP should be completed as soon as the supervisor determines the employee no longer requires access.
- A request to "Modify" (name change) a user in FBP should be completed as soon as the employee notifies the supervisor of the change.

Note: A request for FBP access may be combined with multiple system requests on a single FSA-13-A as long as the "Other/Comments" and "Justification" sections are completed as instructed.

 Submit completed FSA-13-A to the State Office according to State-established procedures.--*

__:

- send the processed FSA-13-A to the SLR, with a request that the form be e-mailed or FAXed to ISO at 877-828-2051
- notify the immediate supervisor and employee when FSA-13-A has been processed
- monitor emails received from ISO when an employee has left FSA. If FSA-13-A has
 not already been received, then notify the employee's supervisor that FSA-13-A
 needs to be completed

Note: The ERSR online system cannot be used for FBP access requests.

• ISO will send a confirmation email when FSA-13-A is received.

FSA National Office and Other Employees

FSA-13-A's for National Office, KCMO, contractors, and other employees will be completed by the immediate supervisor and submitted to Pixie Greer, FBP Program Sponsor by e-mail to **pixie.greer@wdc.usda.gov** or by FAX to 202-720-8474.

Customer access to FBP is **not** currently available.

3 Privacy of Information

All data communications between the client web browser and server, including user ID's, passwords, and all financial information, is protected by industry standard 128-bit SSL encryption. For more information on eSignatures, see **Electronic File Maintenance**, **Reports**, **and Signatures** (Section B).

4 Defaults

Most system defaults are controlled at either the national or State level; however, the following defaults listed may be modified by Service Center users.

a Creditors

Commonly used creditors have been established for each service center and appear as defaults in the customer's balance sheet loan schedules. New creditors can be added to the "Service Center Creditors" list as needed, however changes will only be available in new customers added after the change is made. For existing customers, changes to the creditor list will need to be made in the individual customer's creditor list.

To access the Service Center creditor list:

- CLICK "Defaults", "Creditors" from the toolbar
- enter the new creditor information; example "Bank of Hope", then CLICK "Add".

--Note: FSA has already been added as a default and is tied to the collateral analysis. Do not add FSA as a creditor because the duplicate will not be tied to the collateral analysis.--

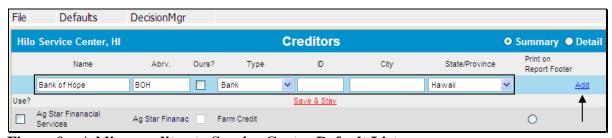

Figure 0a, Adding creditor to Service Center Default List

The new creditor will be added with a check (\checkmark) in the "Use?" column. The new creditor will automatically be available for selection in all new customers added to the FBP.

If users uncheck (\checkmark) the "Use?" box, the creditors will no longer be available for selection.

b Crop and Livestock NAICS Codes

Commonly used crop and livestock categories have been established and will appear as defaults on Income/Expense drop-down menus. Users cannot add additional crop or livestock categories to the commonly used list for a Service Center or State; however, users can add additional defaults for individual customers. Additional categories can be added when actual or projected income/expenses are entered on the crop or livestock schedules or when inventories are entered on balance sheet schedules.

*--After accessing the Livestock & Poultry Sales schedule, CLICK "Description Per Unit Defaults" in the left corner to add a new category.

Figure 1

Select the needed category from the "Description" drop-down menu, enter "Type" and "Measure" information, and CLICK "Add". This category will now be available in the defaults whenever this customer is selected.

5 Adding and Accessing Customers in FBP

The Locator Screen is where the user will manage their list of customer records and is also the first screen that displays when you log in to FBP.

a Adding a New Customer

All customers who submit an application will be added to the FBP. Before attempting to add a new customer to FBP, ensure that the customer and all related entity members have been added in BP, have an "Active" status record, and have not been duplicated.

*--To add a new customer record, CLICK "Add Customer" on the Locator Screen.

Complete the New Customer Setup Screen according to the following:

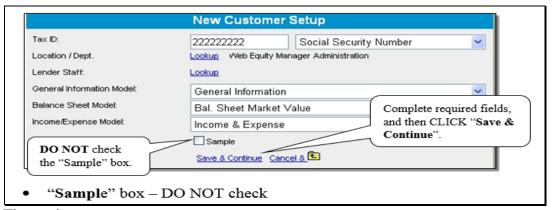

Figure 4

• enter "Tax ID" of the new customer that must match the tax ID that is entered into BP

Note: For FLP, tax ID will usually be described as either of the following:

- "Social Security Number" for individuals
- "Employer Identification Number" for entities.

 - "Location/Dept" defaults to the location of the user adding the new customer; the location/department is where the customer will receive FLP services

Note: If incorrect, CLICK "Lookup" link and select the correct location/department.

- "Lender Staff" defaults to the user adding the new customer; if a different user will be servicing the customer's loans, CLICK "Lookup" link and select the correct lender staff
- "General Information Model" defaults to "General Information"
- select 1 "Balance Sheet Model" from the following:
 - "Market Value" is used when the balance sheet is based upon market values; this option will be selected for the majority of customers
 - "Costs Basis" is used typically for entities who keep records on a cost basis
 - •*--"**Personal**" is only used when a customer record has been added for an individual--* entity member to collect personal financial statements

Note: New customer records will **not** be added for individual entity members unless approved by the State FBP Coordinator.

- "Income/Expense Model" defaults to "Income & Expense"
- •*--"Sample" box Do not check.--*

CLICK "Save & Continue" to add the new customer.

If a customer record with the same tax ID already exists in the system, the warning "Customer(s) With same Tax ID:" will be displayed. The red "A" or "R" after the customer's name indicates if the record is located in the "Recycle Bin" or "Archive". CLICK "Cancel and Return to Locator".

b Accessing an Existing Customer

Existing customer records are accessed through the Locator Screen or the File Menu. To be able to access the customer in FBP, the customer and any related entity members **must** be in BP and maintain an "Active" record status.

*--Exception: Related entities that have been manually entered in the FBP will not have an "Active" record status.

To access a customer through the Locator Screen, enter any combination of search criteria and CLICK "Search".

c Customer Check In/Out

The **optional** "Customer Check In/Out" feature prevents other users from changing information in a specific customer record. If turned on, this feature alerts potential users that the customer record is checked out to another user. This feature may be helpful if a user is working on a loan or servicing request and must exit the customer before completing the request.

Note: Once a user completes the loan or servicing request, the customer must be checked in to allow access by other users.

To complete the "Check Out Customer":

- on the **Locator Screen**, click on the customer link to open the record
- CLICK "File", then click "Check Out Customer"

When users open a customer record that has been checked out by another user, they will only be able to view screens, print reports, and import/copy information. A checked out customer record will maintain that status until the "Check In Customer" function is completed by the user that checked the record out, or by the State FBP Coordinator.

To complete the "Check In Customer":

- on the **Locator Screen**, click on the customer link to open the record

6 Navigating FBP

FBP is menu driven. Everything needed to originate, analyze, print, make, and service loans can be accessed using the menu bar. After users select a customer from the Locator Screen, the first screen displayed will contain the full menu bar. Click any menu item and a drop-down menu of available forms or reports will be displayed. Click the individual form or report to open.

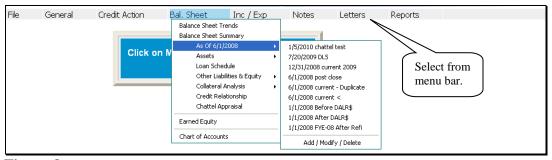

Figure 8a

Another way to navigate through FBP is by using the "Dashboard" feature. CLICK "small chart icon" ("Dashboard") on the top of the screen. The "Dashboard" feature provides users with quick and easy access to forms and frequently used reports by clicking 1 of the following tabs:

- "Navigation" provides quick and easy access to forms within the system
- "Balance Sheet Trends" provides quick access to view and print the report
- "I/E Trends" provides quick access to view and print the report
- "Ratios & Indicators" provides quick access to view and print the report
- "Repayment Capacity/Sensitivity" provides quick access to view and print the report.

a Functionality Features

Most of the data entry in FBP is completed by using text input fields, check boxes, radio *--buttons, drop-down menus, and hypertext links. Use the "Tab" key to move quickly from field to field.--*

Figure 8c

Some additional functionality features include the following:

- vertical and horizontal "scroll bars" that are automatically displayed when the on-screen content is larger than the size of the window it occupies
- because there can be several screens to a customer record, each screen provides users the
 opportunity to save the information before continuing their data entry

Note: There are several types of data saving features as follows:

- "Save & Stay", to save changes while working on the screen
- "Save & Menu", to save user's work and return the menu bar
- "Save & =" to save user's work and return to the previous screen
- "Cancel & =" to cancel any changes and return to the previous screen
- "Cancel", to not save changes and refresh page with the original data
- "Automatic Save", to automatically save changes when navigating away from the screen by using the toolbar menu or any hyperlink.

Note: This feature is **only** available on Balance Sheet and Income/Expense Summary Level screens.

7 Importing/Exporting Data

--WebEquity FBP allows financial customer data, which has been received from lenders and contractors who also use WebEquity, to be imported into a customer's record. In addition, FSA employees can export financial data in a format that allows other lenders and contractors using WebEquity to import the data into their customer records. The data file is created in XML-- format and is contained within a .WEM file. As a security precaution, the system will ensure that only recognized data files are accepted. All other files will be rejected.

a Exporting Files * * *

To export customer data, the customer's record **must** be open within FBP.

- CLICK "File" and "Export Selected Data".
- The Select Data to Export Screen will be displayed.
- CLICK "Uncheck All" for each section on the screen.

8 Transfer of Data Within FBP

a Transfers and Assumptions

When an existing or new customer (transferee) applies to assume the existing debt of another FSA customer (transferor), the FSA loan official may determine that the transferor's historical financial records may be used to develop a projection. According to the agency's policy, the records may be imported into the transferee's FBP customer record.

Perform transfers and assumptions according to the following.

- The transferee's customer record must already exist in FBP. If the customer record does not exist, see **Adding a New Customer** (Section A 5 a) to add a new customer record.
- Access the transferee in FBP and CLICK "File" and "Import Selected Data".
- On the Select Customer File to Import Screen, select the "From WebEquity Locator" radio button and CLICK "Search Locator".

b Change SCIMS Customer

Occasionally, a user may select the incorrect customer from SCIMS as the primary customer in FBP. As soon as it is determined that the record in FBP has the incorrect primary customer, the user may use the "Change SCIMS Customer" feature to point the record at the correct customer, as follows.

- on the Locator Screen, access the primary customer's record
- CLICK "General" and "General Information" and the General Information Screen will be displayed
- at the bottom of the General Information Screen, CLICK "Change SCIMS Customer"
- enter tax ID of the customer that should now be associated with the record and select the ID type.

c Deceased or Released of Liability Borrowers

When the primary customer in FBP, who is jointly liable with another, becomes deceased or is released of liability, the customer record **must** be pointed to the other customer's SCIMS by using the **Change SCIMS Customer** feature.

For instructions see Change SCIMS Customer (Section A 8 b).--*

d Copy Data Between FBP Customer Records

Sometimes it becomes necessary to import or copy financial information from 1 customer record to another. Information can be imported between duplicate records of the same customer or between different customers.

See **Transfers and Assumptions** (Section A 8 a) for instructions on importing information between customer records.

11 Credit Reports

a General Information

Credit Reports for FLP customers should be requested using FBP. Before ordering a *--Credit Report, a customer record **must** be established in FBP and the General Information--* Screen needs to be completed. See **General Information** (Section C). Complete the "Related Entities" information, if applicable.

For new customers, on the General Information Screen, CLICK "**Credit Rpt./Elig. Only Act**" as the FBP account type. After the Credit Report is received, if the customer is determined ineligible, complete the eligibility only credit action to document eligibility. Do **not** create a balance sheet or income/expense in FBP. Accounts developed for Credit Reports and eligibility purposes only do **not** count toward FSA's active FBP accounts.

A Overview (Continued)

11 Credit Reports (Continued)

a General Information (Continued)

If the customer is determined eligible, a balance sheet and income/expense will be completed to document feasibility/security. At this point of the process, the FBP account type on the General Information Screen will automatically change to an "Active Account".

Exception: For all youth loans, CLICK "**Active Account**" as the FBP account type.

Notes: Do not use FBP to order credit reports for FSFL's.

Do **not** change the FBP account type from "Active Account" to "Credit Rpt./Elig. Only Act" when ordering Credit Reports for subsequent loans.

b Accessing Credit Reports Feature

Access Credit Reports options according to the following.

- Select a customer record.
- CLICK "General", "Credit Reports", and [name of applicant]. All applicants needing a Credit Report for an account must be listed as "Related Entities" on the General Information Screen. The primary applicant of the account, as well as the related entities, will be listed on the "Credit Reports" options.
- •*--CLICK [name of applicant] for which a Credit Report is being requested. The fly-out menu only displays prior Credit Reports without errors or no-hits. All prior credit reports can be viewed by clicking on "Add/Delete".

c Ordering Credit Reports for Individuals

Order a Credit Report for an individual according to the following.

- CLICK "Add/Delete" for the individual for whom a Credit Report is needed. The Credit Report Information Screen will be displayed with the applicant's name, address, and tax ID from General Information * * *.
- FBP defaults to a Merged Report, automatically requesting information for the Get New Report from all 3 credit bureaus. Ordering the Merged Report ensures that full and complete information on the applicant's credit is received.

Note: For individual type accounts, a joint report that includes a spouse can be ordered according to the following.

- The spouse **must** be identified as a "Spouse" and "Co-Applicant" in the "Related Entities" Section on the General Information Screen **before** ordering the report for the primary applicant.
- CLICK "Yes" for the "Joint Report" radio button, if applicable. The name and tax ID of the spouse/co-applicant will be displayed.
- CLICK "GET CREDIT REPORT NOW".

Figure 9d

The Credit Report Information Screen will be redisplayed. Click the date to view a copy of the Business Report.

To order Credit Reports for each entity member, they must first be added to the "Related Entities" Section on the General Information Screen. Credit Reports can then be ordered on each individual entity member according to **Ordering Credit Reports for Individuals** (Section A 11 c).

Note: A husband and wife, who are members of an entity, **will** be charged a joint Credit Report fee even though individual Credit Reports will be obtained for each.

e To Print a Report

With the report displayed, right-click and CLICK "Print".

f Failed Attempt

On rare occasions, an attempt to pull a Credit Report will not be successful and will generate an error. If an error occurs, the pull process will stop and the screen will be displayed with a cryptic error message. When this happens, it is important to navigate back to the Credit Report Information Screen to investigate the cause of the error.

As displayed on the following screen print, the attempted pull event will display the word "Error" after the pull date. CLICK "Error" to see a more descriptive message.

If the message refers to a problem with address information, it is possible that the credit bureau did not recognize the address that was populated here from the General Information Screen.

A Overview (Continued)

f Failed Attempt (Continued)

To resolve an address format problem, CLICK "±" above "Joint Report?" and additional address fields will be displayed.

Note: Clicking "±" to display additional address fields is **only** required when requesting consumer bureau reports. The additional address fields are always viewable when requesting business bureau reports.

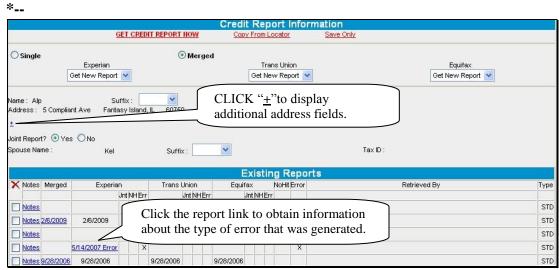

Figure 9e

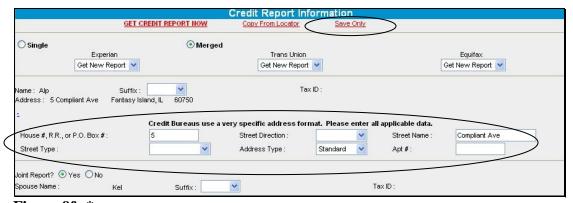

Figure 9f--*

These additional input fields allow the user to provide the street address in a format that is standard to the credit bureau.

Note: These fields pertain only to the street address, **not** to the city, State, or ZIP Code.

A Overview (Continued)

11 Credit Reports (Continued)

f Failed Attempt (Continued)

After the address has been re-entered in the fields, CLICK "**GET CREDIT REPORT NOW**" to obtain the report. If this does not resolve the error, or if the original error does not refer to an address issue, contact the State FBP Coordinators.

Note: The additional information provided in the Credit Report address fields will be stored on the Credit Report Information Screen. After the initial Credit Report is pulled, the address will **not** repopulate from General Information on any subsequent visits to the Credit Report Information Screen.

If the borrower does have a change of address, the new address will need to be entered in the fields and saved by clicking "Save Only". This pertains only to the street address or post office box information, **not** to the name, tax ID, city, State, or ZIP Code.

--Changes to the name, tax ID, city, State, and ZIP Code should be entered in BP and will-- repopulate FBP each time the Credit Report Information Screen is accessed.

g Error Messages

Occasionally, reports may display an error message in the upper-left corner of the report, as follows.

 "Time Out Error" message may occur for several reasons, including lag-time on the Internet. This is considered an error and FSA will not be charged for the report. A second report will need to be pulled within 24 hours to prevent duplicate hits from registering with the bureau against the customer.

i Copy from Locator

"Copy from Locator" is used to copy Credit Reports from an existing customer or related entity into another customer record with the same "tax ID".

Example: New customer record was created and a Credit Report was ordered. Subsequently, the customer was added as a related entity to another customer's record. The Credit Report could be copied into the new customer record using the "Copy from Locator" option.

Notes: Only Credit Reports less than 60 calendar days old are available for copying.

--If report contains a no-hit or error message, it is not available to copy.--

j Notes and Deleting Reports

There is a NotePad attached to each Credit Report date that will allow users to enter additional notes and messages about that report. To access the NotePad, CLICK "General", "Credit Reports", [name of customer], and "Add/Delete". On the Credit Report Information Screen, under "Existing Reports", CLICK "Notes".

Note: Credit Reports will **not** be deleted from FBP.

k Reading the Credit Report

A Credit Report is divided into sections, starting with the header. In each section, all of the possible fields that could be returned will be included on the report.

Example of Header Section

The "Header" Section will display the company that requested the report, date the report was created, and the list of bureau sources for the report requested.

B Electronic File Maintenance, Reports, and Signatures

1 Customer Record

All electronic information stored within FBP is considered part of the customer file and record as if it were in written form.

2 Running Record

The "Notes", "Running Record" feature of FBP will be used to record all comments or notes that *--would have traditionally been written in the paper-based file. All e-mail correspondence will also be included into the running record. Users should copy and paste only the final e-mail string as this will save time and space in the running record.

Exceptions are:--*

- comments or notes from customers that:
 - have never been added to FBP
 - no longer have a credit relationship with FSA

B Electronic File Maintenance, Reports, and Signatures (Continued)

2 Running Record (Continued)

- •*--narratives and comments about loan making or servicing actions that **must** be documented in:
 - the applicable FBP Credit Presentation
 - footnotes or comment notepads

Note: The Credit Presentation is designed to encompass the entire loan narrative and analysis documentation of loan making or servicing actions. Therefore, it is **not** expected that the "Notes", "Running Record" will be used to store narrative comments about a loan making or servicing action when a Credit Presentation is prepared.

comments and entries that are exempt from disclosure according to FOIA, see FOIA
 Running Record (Section B 2 a).

Note: No running records will be deleted from FBP.

A new Running Record will be created for each calendar year. CLICK "Notes", "Running Record", "Add/Modify/Delete", and type the description in the "Note Title/Description" box; for example, "2016 Running Record" and then CLICK "Add".

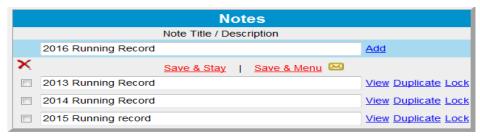

Figure 10a

The most recent entries will be made at the top of the page with the date, initials, and comments of the user.

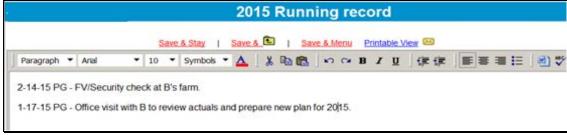

Figure 10b

B Electronic File Maintenance, Reports, and Signatures (Continued)

2 Running Record (Continued)

*--a Locking the Running Record

Running records will be locked at the end of each calendar year to prevent further modification of the data. To lock the running record, CLICK "Notes" "Add/Modify/Delete". The lock link can be found to the right of the selected running record.--*

b FOIA Running Record

All comments and entries that are exempt from disclosure according to FOIA should be documented in a running record separate from the customer's standard running record. To create the new running record, CLICK "Notes" and "Add/Modify/Delete". The suggested Note Title/Description of the new running record should be "FOIA Running Record" or something similar.

c Printing Running Records

Running case records will only be printed and placed in the County Office file under the following circumstances and should always be printed using the "Print Manager" option:

- preparation for NAD appeals
- preparation for civil and criminal inquiries, investigations, audits, and litigations in conjunction with OIG, OGC, OCR, and GAO.

d Copying From Word Documents

Microsoft Word applies special formatting to word documents so that the text appears correctly. When copying to a WordPad in FBP, the text must be stripped of the formatting for the text to print correctly using the Microsoft Reporting Service (MRS) feature.

Copy text from Microsoft Word to the WordPad located in "Notes" according to the following:

- highlight desired text in MS Word
- copy and paste in the appropriate WordPad block
- CLICK "Word" icon on the right side of the WordPad.

Figure 10c

Note: Bolding, tables, and bullet points will be removed during the "cleaning" process.

B Electronic File Maintenance, Reports, and Signatures (Continued)

--3 Footnotes and Comments--

Footnotes are narrative comments which can be added in the WordPad block located at the bottom of the balance sheet, income and expense summary, and other documents.

Comment NotePads provide the capability to add comments on the balance sheet or income and expense schedules, as well as other areas of the applications. What looks like a small piece of paper next to a field indicates that comments can be entered in small text boxes after the indicator is clicked. After entering a comment, this same indicator will look like a sheet of paper with writing. The information entered in the text boxes will be saved and linked to the respective field.

*--a Printing Footnotes and Comments

To print footnotes and/or comments on a selected report, CLICK "**Reports**" and the "**Print Manager**" or "**Reports Setup**" options will be displayed, as follows.

*--a Report Packages

The **Report Package** feature in FBP provides users several options for packaging and printing reports, as follows.

- Accessing and printing report packages that have been created by the State Office.
- Creating Service Center Report Packages that will be available for all users within that location.
- Creating User Report Packages that will only be available to that user.
- Selecting multiple reports in an individual customer for printing.

1 State Office Report Packages

Reports created by the State Office are available for all users in the State. Reports are located on the "**Print Reports**" tab and can be accessed under the "Available Reports" column by clicking the arrow next to "**Location Packages**".

- 1/ The term "Signature" includes "eSignature", if available.
- 2/ When the printing of certain credit actions and reports is optional, the electronic versions stored in FBP are considered to be the equivalent of a paper version for all purposes, including source documents for ADPS and DLS transactions.

Note: When a loan approval decision is made, the case file **must** contain the Assessment, Balance Sheet Summary, and Income & Expense Trends on which the decision was based. These 3 documents **must** be signed by the applicant.

d Reports Setup

There are many options to control the appearance of reports and what records are included in the generated analysis. Up to 6 balance sheets and 6 projections/actuals can be included in reports. Options selected will affect what balance sheets and projections/actual are available or "will be used" in credit actions. Changes to the report order can be made on either the Reports Setup or Balance Sheet Trends & Income/Expense Trends Manager Screens.

Reports should be set-up from left to right with the most current to least current information, respectively. At a minimum, the following will be included:

- income/expenses:
 - Column 1, current year's or After eDALR\$ plan, if completed
 - Columns 2 through 4, preceding years using actual history, if available
 - Columns 5 and 6, may be used as needed

Note: The loan official will select which years are most relevant to include in the average by checking the box above the year on either the Reports Setup or Income/Expense Trends Screen.

 - Columns 2 through 4, preceding years
 - Columns 5 and 6 may be used as needed, for example Post Close.--*

The options displayed on the Reports Setup Screen and the "Print Manager", "Analysis Rules" tab will automatically default to the National Office recommendations. CLICK "Value Farm Prod" or "Gross Revenues" radio button for the values to be used in all ratios.

By selecting options from the "Balance Sheet Columns" section, users can establish 2 columns to show comparisons of 2 types of calculations. See **When Customer and FSA Balance Sheet Values/Amounts Differ** (Section D 6) for more information.

Notes: The "Agriculture" check (\checkmark) boxes should **not** be changed.

Any changes made to either the Reports Setup Screen or the "Print Manager", "Analysis Rules" tab will automatically reflect on the other.

5 eSignature Policy

The electronic signatures ("eSigned") used for some documents complies with the Federal ESIGN act. An eSignature involves electronically authenticating the user, and using an unalterable signature that contains a date and time stamp.

FSA considers a locked eSignature within FBP to be the equivalent of a written signature.

Important: Never share user eAuthentication passwords With anyone. The

eAuthentication user ID and password combination represents an eSignature, which is equivalent to a written signature. Sharing of the password has the same effect as authorizing someone else to sign your name. Users are responsible for maintaining the authenticity of their own credentials.

See **System Access and Security** (Section A 2) for more information on system access and security.

6 Maintaining FBP Customer Records

a Moving FBP Customer Records to the Recycle Bin

When a customer record no longer has a credit relationship with FSA, the record should be removed from the Locator Screen. **Before** removing the customer from the Locator Screen, change the information in the Credit Relationship Status field on the General Information Screen. Remove customer records as follows:

- access the General Information Screen in the customer record:
 - remove all information from the "Credit Relationship Status" field
 - enter an account description and date, such as "Paid in Full, XX/XX/XXXX", "Application Rejected, XX/XX/XXXX"
- from the Locator Screen:
 - select the record to be moved to the recycle bin by checking (✓) the box in front of the name

Note: Individual or multiple records may be moved at 1 time.

- •*--CLICK "Send To" located above the list of names--*
- verify the radio button for "Recycle Bin" is clicked
- CLICK "Send".

Note: Do **not** click the "Archive" radio button.

b Moving FBP Duplicate Customer Records to the Recycle Bin

Duplicate customer records shall not reside in the FBP active database. These records will be labeled "Duplicate File, XX/XX/XXXX" in the "Credit Relationship Status" field on the General Information Screen. Remove the account from the Locator Screen according to **Moving FBP Customer Accounts to the Recycle Bin** (Section B 6 a).

C General Information

General Information includes basic information about the customer, borrower training, employment, associated persons or entities, and farm assessment details.

The following information is populated from SCIMS:

- entity type
- name, address, city, State, ZIP+4
- tax ID
- e-mail, phone number, FAX, and date of birth.

Data that is populated from SCIMS **cannot** be changed within FBP. Each time a customer record is selected, the relevant SCIMS data is transferred to General Information. Any changes to this data *--must be made in BP, not in FBP.--*

Enter the following on the General Information Screen. There are 4 **required** fields that must be completed before exiting the General Information Screen.

Field	Notes		
Credit Relationship Status	Each State may provide guidance on using the field. Entries may be text or numerical, but will not contain "SS#" or "TaxID#". When a customer no longer has a credit relationship with FSA, the field will be completed according to Maintaining FBP Customer Records (Section B 6).		
Type of Operation – Primary	Required. Select the customer's predominant agricultural enterprise. Use best available information for FSFL customers. Click "Select" and choose from the list in the pop-up menu.		
County	Optional. Enter the customer's county of residence.		
Borrower Type	Required . Use the radio buttons to select "Direct", "Guaranteed", or "Both" to designate the customer's FLP assistance. Use the "Direct" radio button to designate customers with FSFL's.		
Year Started Farming	Required . Use the drop-down menu to indicate the year the customer started farming. For FSFL customers, if the year is unknown use the year the application is submitted.		
FBP Account Type	 Required. Click the link to select 1 of the following FBP account types. "Active Account" will be selected for the majority of customers. Note: Select "Active Account" for all Youth Loans. "Credit Rpt. /Elig. Only Act" is only selected for new customers when ordering a Credit Report or when completing a "D-Loan/Eligibility Only" credit action. If BS or IE information is subsequently added, the "FBP Account Type" will automatically change to "Active Account". Note: Do not select the "Credit Rpt. /Elig. Only Act" account type if BS or IE information has already been added to the customer's account. "Special Classification Act" is selected for customers with only CNC or Judgment accounts "Guaranteed Loan Import" is used to identify files imported from guaranteed lenders. "FSFL Only" is selected for customers with only FSFL's. 		
D&B D-U-N-S# /	Optional.

1 Borrower Training

When a new Credit Presentation is prepared for existing customers, the date borrower training is to be or was completed or waived should be entered and/or updated. For new customers, enter the applicable dates when known.

Caution: Borrower training dates should **always** be entered into General Information. The Credit Presentation is updated from General Information; changing the dates in other parts of FBP will **not** change the information in General Information.

2 Related Entities

- *--All related entities associated with the customer should be added to FBP, and include spouses, co-applicants, co-owners of the business, co-signors, and any other entities of which the customer is a member or owner. The related entity information will flow to other documents within FBP and can be used to pull credit reports. There are 2 options available, however Related Entities will be added to the General Information Screen from SCIMS if available.
 - **Option 1**: Add the related entity from SCIMS. All persons or entity members must be active in BP **before** being entered as a related entity. This is the recommended option as all personal information will be automatically updated whenever the customer is accessed.

To add employment information for the primary customer and each related entity member, CLICK "**Employment**" link. Employment information should be added or updated whenever a Credit Presentation is prepared.

Note: Employment information added for entity members will **not** be displayed on the General Information Screen; however, it will display in the "Employment Information" Section of any Credit Presentation that is prepared.

4 Lender Information

a Lender Staff

Each customer should have 1 or more FSA loan officials designated as the customer's lender. This item is informational and will assist in preparing reports and future loan servicing functions. It will usually be the primary FSA loan official who services the account, which is FLM, SFLO, or FLO. There is **no** limit to number of lenders identified with each account.

• **For new customers**. The user adding a new customer will automatically be displayed as the lender staff. To change the lender staff, on the General Information Screen, CLICK "Lender Staff" and "Add New".

C General Information (Continued)

4 Lender Information (Continued)

a Lender Staff (Continued)

• **For existing customers.** Customers with data converted from FHP to FBP will **not** have an FSA loan official designated as a customer's lender. Therefore, the first time a converted customer is accessed, the FSA lender should be designated on the General Information Screen. To designate, CLICK "**Lender Staff**" and "**Add New**".

b Location/Department

The "Location/Department" on the General Information Screen is the Service Center where the customer currently receives FLP services.

- When a new customer is added, the "Location/Department" defaults to the Service Center location of the user adding the customer. If the location is **not** correct, it should be changed. CLICK "**Location/Department**" link and select the correct Service Center from the drop-down menu.
- "Restricted" * * * location, visible only to administrative users, is reserved for employee relationship and sensitive accounts. After an account has its location designated as "Restricted" * * *, only FLC, FBP Coordinator, and employees specifically designated by the FBP Coordinator as the customer's "Lender Staff" can access the account.

c Special Handling of Employee Relationship Records

Any existing or new customer defined according to 3-PM, paragraph 141, as an FSA employee, or related to or closely associated with an FSA employee, will have their location/department designated as "Restricted" * * *.

For new customers, the Service Center **must** immediately notify the FBP Coordinator after receiving an application and provide the applicant's tax ID. Unless otherwise determined by FLC, the FBP Coordinator will:

- create the customer record
- designate the customer's "Location/Department" as "Restricted" * * *
- add the necessary FLP employees to the customer's lender staff
- notify the designated Service Center when the record is created and restricted.

For existing customers, the FBP Coordinator will place FSA employee or employee relationship records into the restricted * * * area. In addition, the lender staff designated by SED or DD to service this record will be associated by the FBP Coordinator as the customers' "Lender Staff".

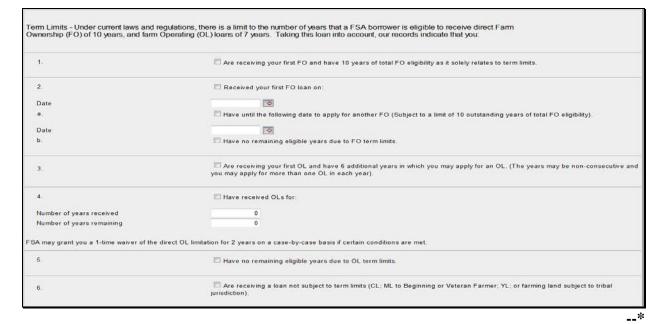

C General Information (Continued)

5 Farm Assessment Information

*--Initial farm assessments and updates must always be entered on the General Information Screen. Farm assessments do **not** document loan feasibility. The farm assessment is intended to summarize and describe the operational business, resources, and assets of the business. It should not duplicate those areas addressed in the Credit presentation.

Provide information and make changes in each element of the assessment using the WordPads, text boxes, check boxes, radio buttons and drop down-menu to select the appropriate date below each topic, as needed. Text font size should not exceed 10 pt, to ensure that the assessment will print correctly.

The Term Limits Screen will be competed each time an assessment is completed or updated.

a New Customers

See 1-FLP, paragraph 222 for instructions on the documentation required for an initial assessment.

b Assessment Review and Updates

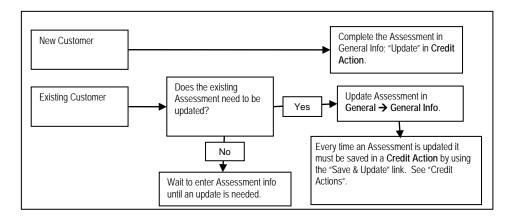

See 1-FLP, paragraph 223 for instructions on the documentation required for updates to the assessment.

Note: Farm assessments, if completed or updated, will be printed, signed, and dated by the customer to acknowledge participating in completing the document.

5 Farm Assessment Information (Continued)

See **Credit Actions** (Section J) for information on printing, locking, and associating a farm assessment update with a Credit Presentation. The following is an example of a farm assessment workflow.

Note: Assessment must be "Save & Updated" in a Credit Action for the date to transfer to the Customer Profile Screen in DLS. A credit action need only be created; the Credit Presentation does not have to be approved.

c Copying Data Into WordPad

See **Copying Data Into WordPad** (Section J 3 b) for instructions on copying Word or Excel information into the Assessment WordPad.

6 Change General Information Model

On the General Information Screen, when updating the assessment information, always ensure that the most current General Information model is displayed.

New customers added to FBP will automatically have the most current General Information model displayed. Existing customers will need to have the General Information model changed, if a red alert is displayed in the upper-left corner of the General Information Screen stating, "**Default Model changed**".

D Balance Sheet

A balance sheet is a financial statement that reflects the values of an individual or entities assets, liabilities and capital at a specific point in time. Balance sheets can be created for a current date, future date, or even a previous date, if necessary, to reconstruct a customer's historical financial position. Obtaining balance sheets at the end of each business year is preferable, if possible.

There is no limit to the number of balance sheets that can be created or maintained in FBP.

Notes: The source or basis of the assets and liabilities must be fully documented in the schedules, footnotes, or comment notepads.

There is no limit to the number of balance sheets that can be created or maintained in FBP.

The balance sheet summary **must be** printed and signed by the customer for all loan making and servicing actions.

1 Types of Balance Sheets

A meaningful description, such as "FYE 12/31/16" or "After eDALR\$ 2016", should be used when a balance sheet is created. The description becomes especially important in years where multiple balance sheets are created and will appear on all reports.

Type of						
Balance Sheet						
Current	A balance sheet prepared as of the current date. It is generally a snap-shot of the customer's					
	assets and debts as of a certain date. This is the balance sheet that will be used for the collateral					
	analysis.					
Post-Close	A balance sheet prepared assuming that the planned loan making or loan servicing action has just taken place.					
	 The credit action does not have to be closed before a post-close balance sheet is created. The post-close balance sheet will be used to classify the account. 					
	A post-close balance sheet must be completed for the following credit actions:					
	D-Loan Making (for Term Loans and combination Term and AOL, excludes Youth Loans)					
	D-Loan Regular Servicing					
	D-Loan Special Servicing					
	•*Microloan (for term loans and combination term and annual operating loans)*					
Pro-Forma	A balance sheet prepared assuming that the projected income/expenses have occurred during the					
	plan period. A pro-forma balance sheet can be prepared to analyze what a customer's financial					
	position would be in the future, i.e. after a 1 year period.

6 When Customer and FSA Balance Sheet Values/Amounts Differ

Balance Sheets are sometimes submitted with values that FSA may disagree with. This situation can be handled different ways in FBP.

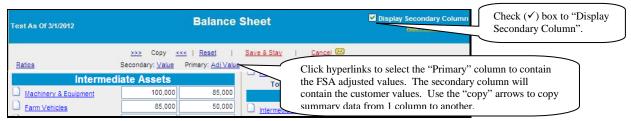

Method	Additional Details
Revised Balance	Revise the balance sheet the customer submitted, using FSA values.

Dual Value Balance	This option will allow dual values to be entered on one Balance Sheet

	customer's values into the secondary column. The value and adjusted
	values can be entered as a summary value or on schedules.

- CLICK "Adj Value" for the "Primary" column and use this column for FSA adjusted values
- CLICK "Value" for the "Secondary" column and use this column for customers' values
- "Copy" arrows may be used to copy summary information from 1 column to another

*--Figure 16e, Dual Value Balance Sheet Summary

• changes in the type of value and order of the columns on the Balance Sheet Summary will be reflected in the "Reports Setup" and on the Analysis Rules Screen.

Note: When using a dual value Balance Sheet for any loan making or servicing decision, the "Adjusted Values" option must be selected in the "Primary" column. This will ensure--* that the correct values are transferred to the Credit Presentation, collateral analysis, and chattel appraisal.

7 Locking Balance Sheets

Balance sheets should be locked after completion to prevent further modification of the data. To lock the balance sheet, CLICK "Add/Modify/Delete". The lock link can be found to the right of the list of balance sheets.

D Balance Sheet (Continued)

8 Assets

The asset accounts used on the balance sheet are standardized and are similar to the categories that most lenders use. However, for each asset grouping there is always the option of adding "other" assets at the summary or schedule level.

Asset values can be entered on the balance sheet as a summary dollar value for each asset type, or on schedules where the calculated total transfers to the balance sheet. Frequently, a mix of summary and scheduled input is appropriate.

All assets used to secure FSA loans should be entered at the schedule level with the "Detail" radio button selected. The "Col?" box must be checked (✓) to ensure that the asset descriptions and values are available for use in the collateral analysis, chattel appraisal, and security agreement. Enter an "*" asterisk before each line item subject to Purchase Money Security *--Interest (PMI). Enter an "(m)" before each line item used for Microloan collateral.

Use the Description field in "Machinery & Equipment" and "Farm Vehicles" schedule to enter an "*" asterisk for PMI items, and an "(m)" for Microloan collateral. As an additional option, use the "Code" box to establish a code name for the equipment to group like equipment together.--*

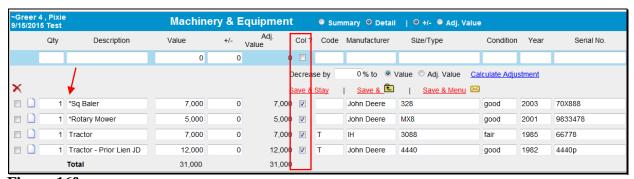

Figure 16f

Breeding livestock must be categorized as either "Raised" or "Purchased". FBP makes this distinction for accrual analysis because changes in raised breeding livestock will affect accrual-adjusted income, while purchased livestock will not. Use the Type field to enter *--an "*" asterisk for PMI items, and an "(m)" for Microloan collateral.--*

Figure 16g

D Balance Sheet (Continued)

8 Assets (Continued)

When completing the Real Estate schedule, the "SA" box must be checked to transfer the real *--estate description to the Security Agreement. Enter an "(m)" at the beginning of the "Other Description" field if crops grown on real estate are used for Microloan collateral.

a Relationship of Asset Values for Chattel Appraisals/Collateral Analysis

The asset values entered into the balance sheet also populate the chattel appraisal and collateral analysis. See When Customer and FSA Balance Sheet Values/Amounts Differ (Section D 6) for information about how to enter dual values.

9 Liabilities

All liabilities are categorized as either "Farm" or "Personal".

a Unpaid and/or Accrued Expenses

Unpaid or accrued farm expenses are expenses incurred by the farm business, but have not yet been paid. These expenses will be entered on the balance sheet as accounts payable; however, they should not be transferred to the projected loan schedules.

Caution: Do **not** include any unpaid or accrued expenses in the loan schedules, as that will distort the capacity analysis and feasibility determination.

b Farm Liabilities

Farm related loans and notes should be input into the "Loan Schedule" so that the proper accounting and calculation of interest, principal reduction, and capacity and feasibility analysis can occur.

D Balance Sheet (Continued)

9 Liabilities (Continued)

c Personal Liabilities

Personal loans and debts should always be entered on the balance sheet in the "Personal" section. Payments for "Personal Current and Non-Current Liabilities" should be included in "Owner Withdrawals". Use the drop-down menu to have the total payments automatically flow over to "Owner Withdrawals" on the income/expense record.

--Figure 16i--

Caution: Do not include:

- personal debt payments in the loan schedules, as that will distort the capacity analysis and feasibility determination
- FSA debt under the "Personal Debts" Section.

See **Income/Expense - Projected** (Section H) for more information on how debt repayment is handled in FBP and if certain debt payments should be designated to appear in the projection.

E Refinancing and Restructuring

Refinancing and restructuring requires the special handling of debts within the balance sheet loan schedule.

1 Refinancing

Cash flow plans and balance sheets sometimes must reflect proposed refinance scenarios. The following are 2 options of showing a refinance within FBP:

- the current balance sheet method
- the balance sheet accounting method.

The choice of either option depends upon the needs of the plan.

In both of the following examples, assume the following debts are going to be refinanced by a term FSA loan of \$143,000:

- Imperial Bank crop loan of \$18,000 with \$1,000 of accrued interest
- Ford Credit term loan of \$41,000 with \$600 of accrued interest
- JD Credit term loan of \$80,000 with \$1,400 of accrued interest
- Repair Bill of \$1,000.

E Refinancing and Restructuring (Continued)

1 Refinancing (Continued)

a Example 1, Current Balance Sheet Method

The current balance sheet method:

- does not show the refinancing sources and uses of funds in the cash flow
- requires the user to document the sources and uses of funds in the Credit Presentation
- •*--requires 2 balance sheets, a "Before Refi" and "After Refi"--*
- cannot be used if using an accrual-adjusted projected income/expense statement
- is the least complicated.
- *--Step 1. Create the current balance sheet loan schedule without any new loans. Add a meaningful description such as "Before Ref". Do **not** attach this "Before Ref" balance sheet as the beginning balance sheet for the projection. This balance sheet is for informational purposes only and will be the balance sheet that the customer signs.--*

 - change "Pmt. Method" to "Refi."

Note: The "Refi" payment method removes the loan from the balance sheet.

- uncheck "To I/E" so that the P&I payments do not appear on the projection.
- for new loans:
 - **uncheck** the advance amount "To I/E" so that the advance does **not** appear on the projection

Note: However, keep the second payment "To I/E" checked so that the new loan payment will appear on the projection.

- **check** (\checkmark) "Post Close?" so that the loan now appears on this balance sheet.

b Example 2, Balance Sheet Accounting Method

The balance sheet accounting method has the following features:

• shows all refinancing sources and uses of funds in the cash flow

Note: All cash flow transactions are included in the projection in the appropriate categories for proper accounting when using accrual analysis and when comparing projections to actual income tax records.

- requires that the user document the sources and uses of funds in the Credit Presentation
- •*--requires 2 balance sheets, a "Before Refi" and "After Refi"--*
- creates a "current" projection, and also requires a "typical" year projection if accrual adjustments aren't being made to the current year projection to substantiate feasibility
- is required to complete an accrual-adjusted projected income/expense statement
- the "old money" and "new money" portions of the new loan must be treated differently.

Note: The balance sheet accounting method is more complicated.

--Step 1. Create the current balance sheet loan schedule, without any new loans. Add a meaningful description such as "Before Ref". Note that the existing loans will appear on the balance sheet. This balance sheet is for informational purposes only and will be the balance sheet that the customer signs.--

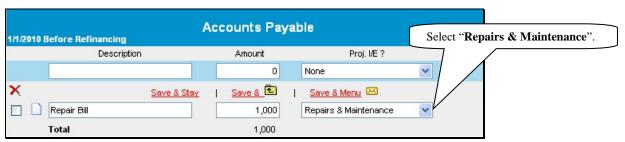

Figure 25, Entering * * * Accounts Payable

*--Step 2. Duplicate the "Before Refi" balance sheet and create an "After Refi" balance sheet. Attach this balance sheet to the projection.

Step 3. Create the refinance scenario in the "After Refi" balance sheet loan schedules. For loans that are going to be refinanced, change "Pmt. Method" to "Refi." The "Refi" function removes these loans from the balance sheet.--*

Also, include the new term loan advance. To correctly indicate the sources and uses of funds, the new \$143,000 term loan must be divided into 2 loans, even though it will be closed as 1 loan.

Note: Add the 2 parts of the loan together when completing the note.

- A term loan of \$142,000, which includes refinancing all of the "old money," or refinancing of old loans. Check (✓) "Post Close". The loan will now appear on the balance sheet.
- A term loan of \$1,000, which includes "new money" to pay off the accounts payable repair bill. Do **not** check "Post Close" to ensure that the loan does **not** appear on the balance sheet. The accounts payable must continue to appear on the balance sheet so that the accrual adjustments can be calculated. Note that the \$1,000 portion of the loan being used to refinance the payable should **not** appear on the balance sheet because it would double-count the liability.

Step 5. Complete the projected cash flow plan. When the repairs expense schedule is accessed, the accounts payable is listed as available to be paid in the projection. ENTER "\$1,000" for "Pmt." as the amount of the repair bill to be paid. In addition, be sure to include the "typical year" amount of expenses as another line item in the expense schedule.

B. The operating interest being paid represents the sum of the interest on the loans being refinanced. The term interest and term principal payment amounts represent the interest and principal on the new FSA term loan.

2 Direct Loan Servicing

In connection with any direct loan servicing action, a current balance sheet will need to be prepared and attached to an income/expense summary for the customer. It is helpful when creating the documents to include a meaningful description such as "1/1/2015 Before DALR\$". The "1/1/2015 Before DALR\$" balance sheet should be entered in the first column of the Reports Setup Menu and will be selected to update the "**DALR\$ Input Report**".

*--Notes: Before a deferral can be approved, a "Post-deferral" plan would also need to be prepared according to 5-FLP, paragraph 159. The "Post-deferral" plan may be entered in Report Setup Menu, column 5.

When a loan is restructured, it becomes a regular loan. **Do not** identify line items as Microloan (M) collateral in the asset description fields.

When restructuring a delinquent borrower, a lien on all assets must be taken according to 5-FLP, paragraph 211.--*

The DALR\$ report, according to 5-FLP, subparagraph 103 A, determines the servicing options that may be available to the customer and will be used to create a "After DALR\$" balance sheet with the DALR\$ results. Duplicate the "1/1/2015 Before DALR\$" balance sheet and attach this balance sheet to a duplicated income/expense summary, and give both documents a meaningful description, such as "1/1/2015 After DALR\$". The "1/1/2015 After DALR\$" should be entered in the first column of the Reports Setup Menu and will be selected to update the Credit Presentation.

The following example can be applied to all loan servicing authorities or combination of authorities.

Example: Make the following assumptions and also assume that the customer cannot make the existing debt payments and that FSA will use DALR\$ to restructure the debt.

- FSA 44-01 loan was for annual operating purposes, and has a balance of \$20,000 with \$2,000 of accrued interest. DALR\$ indicated rescheduling the loan over 15 years with equal payments, which turns the loan into an intermediate loan.
- FSA 44-02 loan was for term loan purposes, and has a principal balance of \$100,000 with \$1,000 of accrued interest. DALR\$ indicated rescheduling the loan with a 15 year term and equal payments.
- FSA 41-03 loan was for a real estate purchase, and has a principal balance of \$150,000 and no accrued interest. DALR\$ indicated reamortizing the loan with a 30 year amortization and equal payments.
- *--Step 1. Create the current balance sheet and income/expense summary named "1/1/2015--* Before DALR\$" for use in the DALR\$ Input Report. The loan schedule should reflect the "Before DALR\$" balances and payments due.

F Income/Expense

This section allows the user to add new actual or projected income/expense (cash flow) information for a customer or access income/expense records currently residing in FBP. There is no limit to the number of projected or actual income/expense records that can be created or maintained for each customer.

--All available actual Income/Expense information should be added to FBP before creating a new projected plan.--

Note: Income/expense (cash flow) information is **not** required for Streamlined CL's according to 3-FLP.

The Income/Expense Trends **must be** printed and signed by the customer for all loan making and servicing actions.

1 Adding a New Income/Expense

To add a new projected or actual income/expense record CLICK "Inc/Exp" on the toolbar. An income/expense may be added using either the "Trends Manager" or "Add Income/Expense" option selected from the drop-down menu, as follows.

Option 1: CLICK "**Trends Manager**" to access the Balance Sheet & Income/Expense Trends Manager Screen. "Trends Manager" may also be accessed through the Dashboard Navigation Screen.

4 Enterprise Analysis

One option on the Income/Expense schedule is the **optional "Ent"** link where a user can enter information needed for crop and livestock enterprise analysis. Break-even analysis is a useful farm management tool because it allows calculation of various combinations of prices and yields. States may decide to setup new Enterprise Analysis models containing benchmark values for expenses for some of the NAICS crop and livestock codes. If new Enterprise Analysis models were setup, they are automatically available for all new customers added to FBP; however, for existing customers the user will need to copy the new model into the existing customer's record.

Note: Check with FBP coordinator to determine if models have been setup for user's State. If models are **not** setup, users will need to manually enter expenses.

To copy a new Enterprise Analysis model into an existing customer:

- access the Crop Sales Schedule
- CLICK "**Description**" link in the upper-left of the Crop Sales Schedule Screen.

These instructions are for the "Barley-Enterprise-Seed" model, but the steps are the same for all other NAICS codes.

6 Using Income/Expense Categories

The income/expense categories have been standardized and are similar to the categories that most commercial lenders use and similar to Schedule F. However, for each income or expense grouping, other categories can be added to fit the needs of the operation by using the schedule under "Other Income" or "Other Expense".

Income/expenses are categorized into the following 4 parts:

- Operating Income and Expenses
- Nonoperating Income and Expense (including owner withdrawals, income and Social Security taxes, nonfarm income, and expenses)
- Financing (including term and operating advances and operating principal repayments)
- Capital Sales, Expenditures, Contributions, and Withdrawals.

7 Reports

See **Electronic File Maintenance, Reports, and Signatures** (Section B) for more information on what reports require signatures or need to be printed.

The following income/expense reports are available:

- Actual Cash Flow
- Actual Inc/Exp Schedules
- Cash Flow Monthly Detail
- Enterprise Analysis
- Inc/Exp Common-Size
- Inc/Exp Comparative
- Inc/Exp Schedules
- Income Statement

G Income/Expenses - Actuals

1 General

--Actual income and expenses, which can include borrower records, receipts, and tax returns,-- together with production information ("actuals") contain important information with which future plans can be developed. The following are suggestions for handling categories of actual income/expenses.

Category	What to Do			
<u> </u>	Operating			
Crop/Livestock Production and Sales	Crop/livestock sales can be entered as a summary dollar amount when the production details are not known, or on schedules to record the production and the details of each crop/livestock production category and its sale.			
	Yield and production can be recorded even if dollar sales for each scheduled item are not broken down. If the total crop or livestock production does not correspond to the dollar sales shown on income tax returns or farm records, users can still preserve the actual production on a per-crop level. Enter the crop production information on the schedule, but uncheck "To I/E". Then enter the total dollar sales for all crops on the actual summary page. This will preserve production on a scheduled per-crop level, but not require a breakdown of income on a per-crop level.			
	The purchase section that is available on the detail view of the crop schedule is only to be used when purchasing a crop for feeding purposes. The purchase price will be transferred to the "Feed Grain & Roughage (Sch.)" under "Operating Expenses". The purchase cost for other crops or vegetables being purchased for resale should be entered under "Purchases for Resale".			
	The purchase cost for livestock, if entered on the detail view of the livestock schedule, will be transferred to the "Purch. for Resale Livestock & Poultry Sales" schedule under "Purchases for Resale.			
Crop Production	Crop production/yields can be tracked on a per-farm basis. To do so, enter the farm name or FSA farm number under "Type" each year. FBP will combine the yields and production in the production trends report for each like-identified farm. "Type" is name and case sensitive, should be the same each year to take advantage of that option.			
Purchases for Resale (i.e. market livestock, poultry, and crops/veg.)	Enter detailed purchases for resale within the "Purchases for Resale" schedule. If no detail of purchases is needed, a summary dollar amount of purchases can be entered on the summary page.			

G Income/Expenses - Actuals (Continued)

1 General (Continued)

Category What to Do				
Operating (Continued)				
Operating Expenses (except depreciation and interest)				
Depreciation	Enter actual depreciation from the income tax return, if known, or estimate if it is unknown.			
	Caution: Do not ignore depreciation, as it will be used in the accrual adjusted income statement later. It does not affect MADS, ending cash, or loan feasibility.			
Interest	See Financing.			
	Nonoperating			
Owner Withdrawals	Include living expenses and personal debt payments, i.e. credit cards, personal vehicle payments, home mortgage payments, student loans, personal loans, etc, in this category. Entries can be made on the schedules or as 1 summary entry. No itemization is required.			
Income Taxes	Enter actual income and social security taxes paid during the year, unless net wages after taxes are entered in nonfarm income.			
Nonfarm Income and Expense	Include gross wages, or net wages if no income taxes are entered, net business income, other nonfarm income or expense. Enter either as summary amounts or enter the details of the source or use of each type of funds in the schedule. Do not enter personal debt payments here. Generally, the nonfarm expense category will not be used.			
	Financing			
Loan Advances, Repayments, Interest Expense – Operating and Term	Loan advances, repayments, and interest payments can either be entered as summary amounts or as details in the "Loan Payments" schedule. Interest Expense. If the breakdown:			
	between operating and term interest is known, enter both in their respective expense category			
	Note: This is the preferred method.			
	• is not known, enter the estimate of operating interest, deduct the estimate from the total actual interest, and enter the balance as term interest			
	• is not known and cannot be estimated, enter all actual interest as term interest.			
	Note: This will allow a conservative analysis of MADS.			
	Caution: It is never recommended to enter all actual interest as operating interest, unless it actually is.			

G Income/Expenses - Actuals (Continued)

1 General (Continued)

Category What to Do				
	Capital			
Capital Enter as summary amounts or as details in the schedule. If entered on t ensure that the correct asset description is used from the drop-down me Sales				
	Caution: If collateral was sold or purchased, using the actual capital expenditure or sales schedules will not automatically add or subtract those items from the balance sheet schedules, appraisals, or security agreements.			
Capital Gains and Losses	Enter capital gains and losses, if applicable. Entries are optional and do not affect the cash flow or the income/expense trends, but do affect an accrual-adjusted income statement.			
Capital Contributions and Withdrawals	Capital contributions are inflows of capital that are not the result of business operations or other income. Capital contributions usually include gifts, inheritance, lottery winnings, the gift-value of substantial asset purchases for less than market value, and the capital contributions of partners or stockholders to an entity.			
	Capital withdrawals are outflows of capital that are not the result of business operations or owner withdrawals. Capital withdrawals usually include gifts, the gift-value of substantial sales of assets for less than market value, and withdrawals of capital by partners or stockholders of an entity.			
	Entering capital contributions and withdrawals is important to correctly construct a pro-forma balance sheet, if accrual analysis is completed.			
	Caution: Ensure that capital contributions and withdrawals are not double-counted in capital sales and purchases.			
Beg. Cash on Hand	Enter as summary amount or; if the attached beginning balance sheet cash schedule has been completed, the amount may flow over to the Beg. Cash on Hand schedule			

H Income/Expenses - Projected

The projected farm income and expenses, nonoperating income and expenses, financing, and capital plans for a future period are the components of FBP that determine feasibility.

1 Feasibility

*--a Loan Making and Servicing Actions, Except Primary Loan Servicing

When making or servicing loans, FSA uses current year projections (plans) that have been developed for a specified time period. For some operations, a projected plan for the current production cycle and typical plans for additional production cycles may be needed if further analysis of long-term repayment ability is in question.

Examples: A start-up operation with interest only payments in the first year.

An operation transitioning from traditional crops to organic.

See **Feasibility Definition** (Section H 1 c) for more information.

Consider the following.

- **Term loans**; long term feasibility must be considered. On-going farm business operations and reliable nonfarm income must be sufficient in the projected plan to pay on-going farm and nonfarm expenses, and term debts (**positive MADS**). It is not acceptable to use the liquidation of inventory, other assets, cash reserves, or atypical income sources to demonstrate log-run feasibility.
- **Annual operating loans**; short-term feasibility must be considered. The projected plan must provide the ability to repay the annual operating loan during the production cycle (**positive** ending cash).
- **Both term and annual operating loans**; both long and short-term feasibility must be considered. For both loans to be approved, the projected plan must provide the ability to repay the annual portion of the loan during the production cycle (**positive** ending cash) as well as the ability to pay on-going farm and nonfarm expenses, and term debts (**positive** MADS).

Note: If the projected plan shows that only the annual operating portion of the loan can be repaid (**negative** MADS, **positive** ending cash), the annual loan can be approved; however, the term loan would need to be denied.--*

H Income/Expenses - Projected (Continued)

1 Feasibility (Continued)

b Special Loan Servicing Actions (Primary Loan Servicing Only)

Feasibility for primary loan servicing actions is determined by DALR\$. See **Feasibility Definition** (Section H 1 c) for more information about feasibility.

c Feasibility Definition

A feasible plan or projection is demonstrated by the following.

Note: See 3-FLP, 4-FLP, or 5-FLP, as applicable, for additional information on feasibility.

Loan Type	MADS <u>1</u> /	Ending Cash	
Loan Making and Servicing Actions, Except Primary Loan Servicing			
Term Loans, long term feasibility.	Must be positive.	Must be positive	
Annual Operating Loans, short term	May be positive or negative.	Must be positive	
feasibility.			
Youth Loans.	Is not applicable.	Must be positive	
Primary Loan Servicing			
All loan types.	e-DALR\$ determination.	Must be positive	

^{1/} A positive (zero or greater) MADS is equivalent to TDCLCR of 1.00 or greater. The terms can be used interchangeably.

2 Creating Current Year Projections

A projected plan for the current production cycle can be created for both short and long-run feasibility decisions. Projections can be entered using summary dollar values for each category or on schedules where the calculated total transfers to the income/expense summary. Sometimes a mix of summary and scheduled input is appropriate. Scheduled information is especially appropriate when planning with production and yields. See **Income/Expenses – Actuals** (Section G) for a description of each category and suggestions for the types of information that should be included.

H Income/Expenses - Projected (Continued)

2 Creating Current Year Projections (Continued)

The following information must be fully documented in the schedules, footnotes, or comment notepads.

- Source of prices and yields used to develop the farm operating plan.
- Operating expenses based on accurate and verifiable information.
- Other farm income verified by written or verbal projection of FP benefits, tax records, historical records, etc.
- Verification of non-farm income.
- Owner withdrawals with documentation supporting the amount used for family living expenses and verification of the source for payments of personal debt.
- Document how the income and expenses for any household members was taken into consideration and how this affects cash flow.

The income/expense projection is categorized into the following 4 parts.

• Operating Income and Expenses (including current assets, current liabilities, crop and livestock sales, other farming income, purchases for resale, all farming expenses including interest, and depreciation).

Note: Income and expenses from current assets and current liabilities can generally be handled by making either of the following selections in the beginning balance sheet *--schedule under the "Proj. I/E?" column:--*

- "None", do not send to the income/expense projection
- send to selected income and expense schedule on income/expense projection.
- Nonoperating Income and Expenses (including owner withdrawals, income and Social Security taxes, nonfarm income and expenses).

Caution: Projected owner withdrawals must include family living expenses and personal debt payments; such as, credit cards, personal vehicle payments, home mortgage

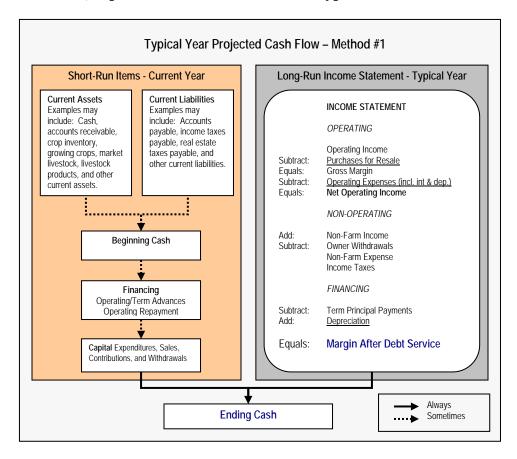

- *--payments, student loans, personal loans, etc. All personal debt payments due during the planning period will flow over to the Owner Withdrawal schedule from the attached Balance Sheet.--*
- Financing (including term and operating advances and operating principal repayments).
- Capital Sales, Expenditures, Contributions, and Withdrawals.

H Income/Expenses - Projected (Continued)

*--3 Creating Typical Projections

A typical projection can be created for both short and long-run feasibility decisions. There are generally 2 methods of creating a projection for a typical year.--*

a Method 1, Separate Short-Run Items from Typical Year

Method 1 has the following features.

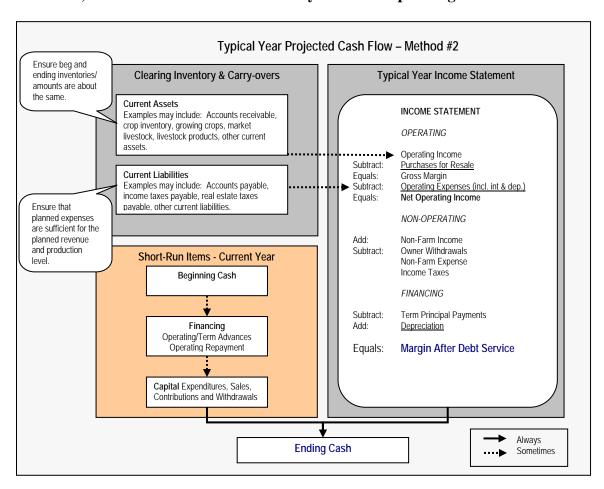

- The cash flow categories included in MADS are derived from long-run operations and/or a typical year. If a projection is developed with the income and expenses representing a typical year, a positive MADS means feasibility has been demonstrated in a typical year. For the business to be viable in the long-run, it must have a positive MADS.
- The categories contributing to "Ending Cash" may include current assets and inventories, current liabilities and unpaid expenses, current year financing activity, and any net residual from MADS. A positive ending cash position means that the projection is feasible in the current year as well.

H Income/Expenses - Projected (Continued)

--3 Creating Typical Projections (Continued)--

- a Method 1, Separate Short-Run Items from Typical Year (Continued)
 - ** * When including sales of inventory in beginning cash, ensure that those sales are not double counted in operating income.

b Method 2, Transfer Current Assets and Payables into Operating

Method 2 has the following features.

• Current asset inventories may be sent to the projected operating income. However, because this is a typical year projection, ensure that the beginning and ending inventories/amounts are about the same.

H Income/Expenses - Projected (Continued)

--3 Creating Typical Projections (Continued)--

- b Method 2, Transfer Current Assets and Payables into Operating (Continued)
 - Accounts payable, income taxes payable, real estate taxes payable, and other current liabilities may be included in operating expenses. However, ensure that planned expenses are sufficient for the planned revenue and production level.
 - Like Method 1, a positive MADS means feasibility has been demonstrated in a typical year because the projection was developed with the income and expense levels representing a typical year. In addition, a positive ending cash position means that the projection is feasible in the current year as well.

H Income/Expenses - Projected (Continued)

*--4 Monthly Cash Flow

Monthly cash flows are sometimes completed to assist in determining the annual operating credit needs from FSA, or revolving line of credit needs from another lender. The Projected Annual Cash Flow Report and Projected Monthly Cash Flow Reports may help the user determine the amount of borrower needs in these circumstances. The reports, by themselves, are not intended to be used to determine feasibility. Using monthly cash flows is optional.

If a user determines that a monthly cash flow is needed, the user must designate in the "Monthly CF Setup" drop-down menu, how many months the projection will cover when the income/expense is added or duplicated. Options include a 12-, 18-, or 24-month projection.

Figure 37a, Selecting Months for Projection

After the projection is created, monthly cash flow allocations may be added at the summary or schedule level. Both methods achieve the same result of having the cash inflow or outflow categories allocated in designated month or months, in addition to the overall total.--*

a Summary Level

Step 1. All inflow or outflow categories may have a monthly cash flow allocation entered at the summary level. CLICK blue "\$" next to the category amount.

Example: For "Fertilizers & Lime", \$25,000 was entered as a summary dollar value. For "Gas/Fuel/Oil", \$31,000 is a total from the detailed schedule. However, both can be allocated in the monthly cash flow by clicking the blue "\$".

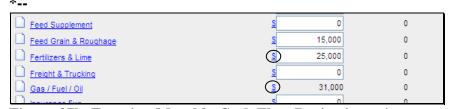

Figure 37b, Entering Monthly Cash Flow Projections--*

H Income/Expenses - Projected (Continued)

--4 Monthly Cash Flow (Continued)--

a Summary Level (Continued)

Step 2. User has the option of custom entries or selecting from the default "Monthly Codes" provided.

Example: On the Fertilizers & Lime Monthly Allocation Screen, user clicked "Monthly Code" drop-down menu and selected "Bi-Monthly-Start 2".

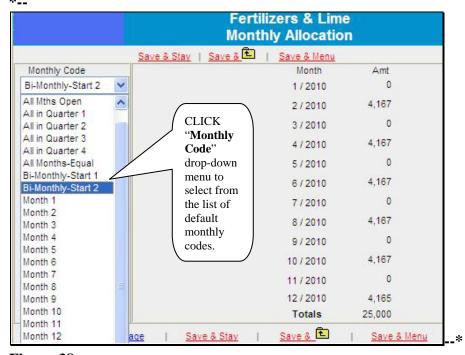

Figure 38

If the amount for any category on the projection is altered, the monthly allocation will automatically recalculate based on the monthly code selected. "Monthly Code" may be changed at any time.

H Income/Expenses - Projected (Continued)

--4 Monthly Cash Flow (Continued)--

b Schedule Level

Step 1. Select the category and enter the total amount for the projected plan period in the detailed schedule. More than 1 entry may be added. CLICK "**Mth**" next to each entry to allocate the amount in the monthly cash flow.

Example: For "Gas/Fuel/Oil", total of \$31,000.

Gas / Fuel / Oil 1/1/2010 After Refinancing P.F. Description Amount Pro Forma? 0 None Save & Stay | Save & L | Save & Menu Gas 30,000 Mth None Oil 1.000 None Total Gas / Fuel / Oil 31,000 Total to Inc/Exp

Figure 39--*

Step 2. User has the option of custom entries or selection from the default monthly codes provided.

Example: For "Gas" entry of "\$30,000", user clicked the "Monthly Code" drop-down menu and selected "**All Months-Equal**".

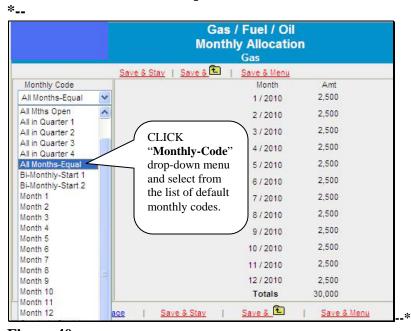

Figure 40

H Income/Expenses - Projected (Continued)

- *--4 Monthly Cash Flow (Continued)--*
 - **b** Schedule Level (Continued)
 - *--Example: For "Oil" entry of "\$1,000", the user clicked "Monthly Code" drop-menu and selected "All Mths Open". Dollar amounts were manually entered in the "Amt" fields.

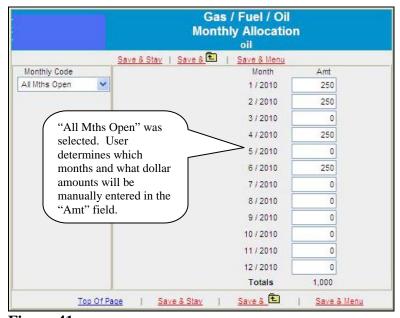

Figure 41

Note: The blue "\$" on the summary page will change to italicized when the monthly cash flow allocation is added at the schedule level.

Figure 42

H Income/Expenses - Projected (Continued)

*--4 Monthly Cash Flow (Continued)

c Warnings

If the monthly cash flow allocation was added at the summary level and the user decides to add the amount at the schedule level, when the user clicks "Mth", a warning message will be displayed. Take appropriate action, as follows:

- CLICK "Cancel", to keep the current monthly cash flow allocation information
- CLICK "**OK**", and the monthly cash flow allocation for the category will be deleted and the Monthly Allocation Screen will be displayed with the option of re-entering the information at the schedule level.

Figure 43

If monthly cash flow was added at the schedule level, and then the user clicks on the italicized "\$" on the summary page, a warning message will be displayed. Take appropriate action, as follows:

- CLICK "Cancel", to keep the current monthly cash flow allocation information.
- CLICK "**OK**", and the monthly cash flow allocation for the category will be deleted, and the Monthly Allocation Screen will be displayed with the option of re-entering the information at the summary level.

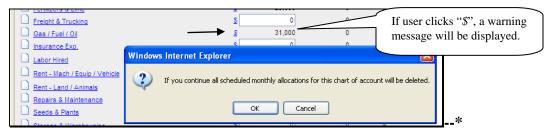

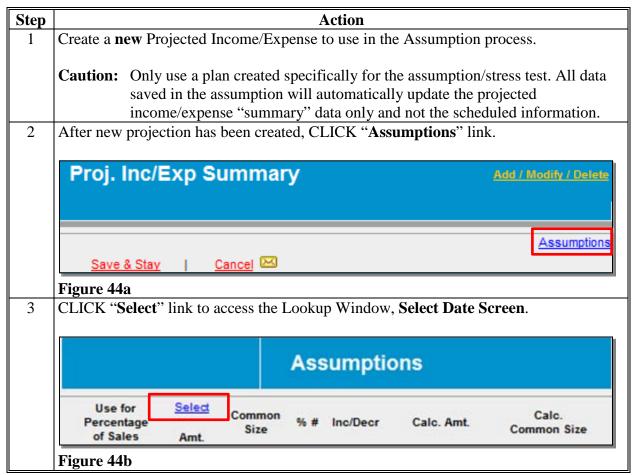

Figure 44

H Income/Expenses - Projected (Continued)

*--5 Assumptions or Stress Testing

Assumptions:

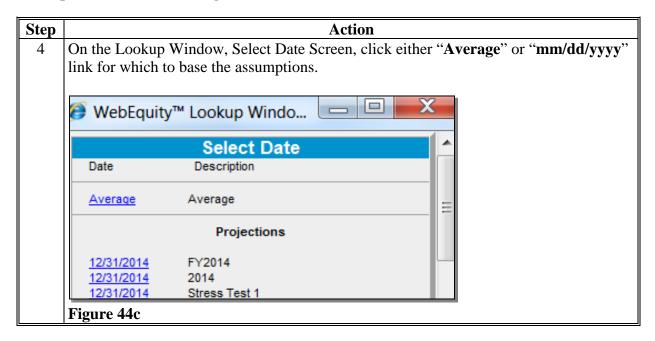

- allow a user to build new projected income and expense information based on existing historical or projected income and expense data
- use user-defined assumptions about expected changes in income and expense levels, along with the common size calculations, to extrapolate new projected income and expense information
- can be used by loan officials to demonstrate to customers how changes in income/expenses may affect their operations.

The "Select" link is replaced by whichever date was selected on the Lookup Window, Select Date Screen ("Average" or "mm/dd/yyyy"). Data in the assumptions can be changed by clicking on the selected link and choosing another plan.

Example: For this example, user clicked the "**Average**" link and will populate the Assumptions Screen with that data. Income line items will have open text fields where adjustments can be made to the data depending on the radio button selected (1st, 2nd, or 3rd). Users can choose multiple options for the calculations.

I Collateral Analysis/Chattel Appraisals

Collateral analysis involves assessing the adequacy of collateral pledged for a loan and must be completed when a Credit Presentation is prepared for a loanmaking or loan servicing action.

In addition to populating the Credit Presentation, a separate collateral analysis report can be printed that shows the calculations involved in the analysis.

For all direct FSA loans, the default collateral discount factor is 100 percent. **This must not be changed**.

1 Describing the Collateral Position

The collateral position is usually described in the following 2 ways.

Description	Calculation
Margin of Collateral to Loan	(Amount of collateral minus prior liens) divided by total FSA
	loans.
Percent Loan to Collateral	(Total FSA loans divided by (amount of collateral minus prior
	liens)) multiplied times 100.

^{*--}For all FSA loans, use the "Margin of Collateral to Loan" to determine if the security requirement is met.--*

2 Completing the Chattel Appraisal

The descriptions and values in the chattel appraisal are derived from the balance sheet schedules. After a loan official has visited the farm and completed an appraisal of the chattel, the appraised values will need to be entered in the corresponding schedules. After the Balance Sheet has been updated, CLICK "Balance Sheet" and "Chattel Appraisal" to update the chattel appraisal information.

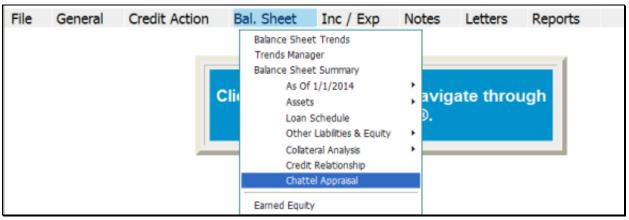

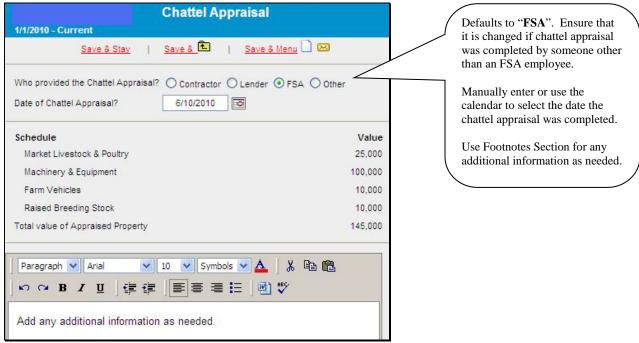

Figure 45

I Collateral Analysis/Chattel Appraisals (Continued

2 Completing the Chattel Appraisal (Continued)

Complete the Chattel Appraisal Screen. Use the Footnote Section for any additional information as needed.

--Figure 45a--

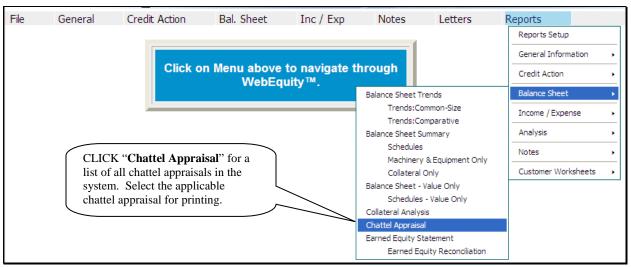

I Collateral Analysis/Chattel Appraisals (Continued

2 Completing the Chattel Appraisal (Continued)

If the chattel appraisal is completed by the same official who recommends or approves the Credit Presentation, the Appraisal form does not need to be printed or signed. If not printed, there **must** be a notation in the Collateral Section of the Credit Presentation that a chattel appraisal was completed, date of appraisal, and that the eSignature stamp of the recommending or approving official represents the person who completed the appraisal.

In all adverse actions, or if the appraisal was completed by someone other than the recommending/approving official, the chattel appraisal will need to be printed and signed.

To generate the printed chattel appraisal CLICK "Reports", "Balance Sheet", "Chattel Appraisal", and select the chattel appraisal to be printed from the list provided.

3 Building the Collateral Analysis

*--The collateral analysis is where a user can access, view, add, modify, or delete information specific to any collateral value for loans held by FSA and any prior lien holders. The values in the collateral analysis are derived from the associated balance sheet summary and schedules.

When building the collateral analysis the following rules will apply.

Prior Lienholders:

- Prior lienholders **must** be added to the collateral analysis **before** adding any FSA loan group.
- Only include lienholders in the collateral analysis that have prior liens to FSA.

FSA Loans:

- Existing loans can only be grouped together if all the loans in the group are secured by the **exact** same security.
- Existing loans when the same collateral is used to secure multiple FSA loans, the existing loan that has the primary security interest in that asset must be added first and will be shown at 100% secured.
- Existing loans when the collateral used to secure the existing loan(s) will also be used to secure a new loan(s), the existing loan(s) will be shown at 100% secured allowing the remaining security value to be used to meet the security requirements of the new loan(s).
- New loan(s) if more than 1 new loan, the value of the same security cannot be used to reach the 150% security requirements.
- Always complete the collateral analysis using the **current** balance sheet.--*

b Customer With Prior Liens

- *--Assume in this **example** there are prior liens on the collateral used to secure the FSA loans. Those creditors **must** be added to the collateral analysis **before** the FSA loan group.
 - John Deere Credit: \$70,000 secured by a first lien on 2 tractors worth \$85,000
 - Case IH Credit: \$25,000 secured by a first lien on 1 Tractor worth \$18,000
 - Citizens Bank: \$50,000 secured by a first lien on the real estate
 - Existing FSA loan 44-01: \$97,000 secured by Livestock and Equipment
 - Existing FSA loan 41-02: \$348,000 secured by Real Estate
 - New FSA Int. OL loan: \$90,000 to purchase livestock
 - New Current OL loan: \$50,000 for Operating Expenses

Step Action 8 Create a loan group for the Existing FSA 44-01 (\$97,000) loan. Add the FSA loan from the loan schedule, and then add the collateral securing those loans. In this example, even though all machinery and equipment is securing the FSA loan, there is only \$253,800 of collateral available for FSA (value of all machinery and equipment of \$341,800 minus John Deere prior lien of \$70,000 and Case IH Credit prior lien of \$18,000 equals \$253,800). This amount is calculated automatically and captures any remaining equity in the tractors. 44-01 **1** 📄 🖂 Present Commit. *--c Customer With FSA Cross-Collateralized Loans

Sometimes the same asset may be used as collateral for multiple FSA loans. This is called, "cross-collateralization". To correctly display the available collateral, the loan group that has the primary security interest in that asset must be added first.

Example: Assume that the customer has an FSA FO loan (41-01) with a balance of \$165,000, secured by a first mortgage on a farm worth \$280,000. The farm also serves as additional collateral for the FSA OL loan (44-02), with a loan balance of \$90,000. The FSA OL is also secured by all machinery and equipment, valued at \$80,000.

*--d Customer With Third-Party Pledge of Security

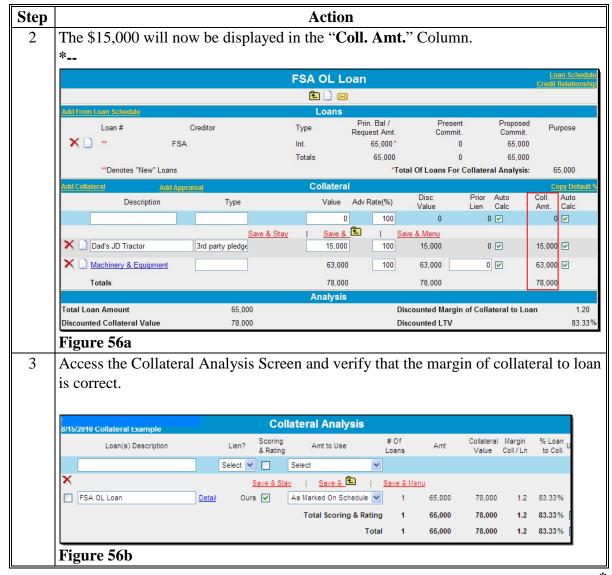

Sometimes, outside individuals or entities may provide third-party pledges of collateral. Because the customer does not own the collateral, it does not appear on their balance sheet and is; therefore, not available to be selected on the Select Collateral Detail Screen when building the collateral analysis. In these circumstances, the collateral pledged by the third party must be manually entered in the loan group.

Example: Assume that Dad pledged a tractor worth \$15,000 as additional security for a FSA OL loan in the amount of \$65,000. The FSA OL is also secured by all machinery and equipment valued at \$63,000.

*--e Customer With Personal Property Used for Security

Sometimes a customer's personal property is needed as additional security. There are 2 methods that can be used to add the personal property as security to the collateral analysis. If additional documentation is needed, it can be added to the attached WordPad.

Method 1: Assume that a customer has nonfarm real estate valued at \$125,000, with a prior lien of \$85,000. The customer wants to use the equity in the property, \$40,000, as additional security for a FSA OL 44-01 loan in the amount of \$65,000. The FSA OL is also secured by all machinery and equipment, valued at \$63,000.

Add the FSA OL loan group, select the FSA \$65,000 OL loan from the loan schedule, and add "Machinery & Equipment" and "Nonfarm Real Estate" as collateral. To adjust the value of the "Nonfarm Real Estate", uncheck (✓) the "**Auto Calc**" box and enter the prior lien (\$85,000) in the "**Prior Lien**" field. "Total Collateral Amount" equals \$103,000 (Machinery & Equipment **plus** equity in Nonfarm Real Estate).

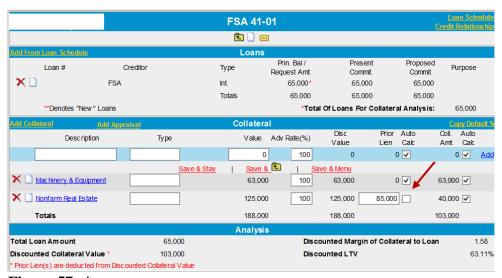

Figure 57--*

Method 2: Assume that a customer has nonfarm real estate valued at \$125,000, with a prior lien of \$85,000. The customer wants to use the equity in the property, \$40,000, as additional security for a FSA OL loan in the amount of \$65,000. The FSA OL is also secured by **all** machinery and equipment, valued at \$63,000.

Add the FSA OL loan group, select the FSA \$65,000 OL loan from the loan schedule, and add "Machinery & Equipment" as collateral. Manually add the nonfarm real estate description, type (equity), and equity value (\$40,000) to the Collateral Section and CLICK "Add". "Total Collateral Amount" equals \$103,000 (Machinery & Equipment plus equity in Nonfarm Real Estate).

J Credit Actions

In FBP, a credit action generates forms and other documentation containing the information necessary to approve, decline, and support a loanmaking or loan servicing decision.

J Credit Actions (Continued)

The following are the 11 credit action models that are available.

J Credit Actions (Continued)

1 Credit Action Menu

The Credit Action Menu allows a user to quickly generate a new credit action or to access an existing credit action. It is recommended that only 1 credit action be added per loan or servicing application.

Note: When an "Emergency Loan Calculations" credit action is used, an additional credit action must be added to support the loanmaking or loan servicing decision.

To add a new credit action, CLICK "Credit Action", "Add/Modify/Delete", to access the Credit Action Screen. The "Add/Modify/Delete" option may also be accessed through the Dashboard.

--Figure 58, Credit Action Menu--

Complete the following fields on the Credit Action Screen:

- "Description", enter a meaningful description for the specific credit action
- "Credit Action Model", CLICK "arrow" drop-down menu to choose a credit action model
- CLICK "Add".

--Figure 58a, Add Credit Action Model--

J Credit Actions (Continued)

1 Credit Action Menu (Continued)

The new credit action will be added and contain all the forms necessary for a particular loan or servicing request. Click each individual form to access and complete.

--Figure 58b, Credit Action Screen--

To quickly access an existing credit action, CLICK "Credit Action" [Credit Action Name], from the drop-down menu. All forms needed for that particular credit action will be displayed in the fly-out menu. Click the form link to access.

--Figure 58c, Existing Credit Actions--

Note: FBP coordinators have the ability to add additional forms to an existing Credit Action when needed.

Example: Loan official creates a "D-Loan Making" credit action and completes most of the form and then realizes that the "DALR\$ Input Report" is needed for a restructuring action. The form can be added to the existing credit action in place of creating a new "D-Loan/Special Serv." credit action.

J Credit Actions (Continued)

2 Credit Action Status

The "Status" column is an eSignature feature on the Credit Action Screen that helps track the progress of the credit action. When a Credit Presentation that requires "Plan Approval" is acted on by a loan official, the "Status" on the Credit Action Screen will automatically be updated to indicate if it was:

- "Approved" or "Declined"
- "Recommend Approval" or "Recommend Decline"
- "Withdrawn"
- "End", to be used **only** by the FBP coordinator.

--Figure 58d, Credit Action Status--

3 Credit Action Forms

a Locking Forms

As soon as a credit action has been completed and eSigned, lock all the forms used in the credit action. See **Reports and Signature Requirements** (Section B 4 b) for a list of forms and locking requirements.

Exceptions:

Direct Loan Making – If a delay in loan closing is anticipated, such as when funding is limited, the forms do not need to be locked until loan closing. This allows for the input of any changes in the financial or farming situation that have occurred since loan approval.

FSFL – May be locked at loan closing to allow for the input of any additional documentation that may be needed to support changes in the loan amount.

In no situation will a loan be closed without locking the forms used in the credit action. Do **not** delete any of the documentation that was used to make the original credit decision.

- J Credit Actions (Continued)
 - **3 Credit Action Forms (Continued)**
 - a Locking Forms (Continued)

To lock the forms in a credit action:

- CLICK "Credit Action" [Credit Action Name]
- from the fly-out menu, select "Lock Forms"
- click the form to lock
- a small lock will be displayed on the Credit Action Screen next to the "Locked" form.

b Copying Data Into WordPad

The WordPad on a Credit Action form has additional features that are not available on WordPads located in other parts of FBP. This allows tables and spreadsheets to retain the Microsoft formatting.

Microsoft Word and Excel **tables and spreadsheets** can be copied and pasted in the WordPad and the data will retain the Microsoft formatting if, under the WordPad, users CHECK (\checkmark) "Includes imported images and/or pasted data" box.

Caution: Only use when copying Microsoft Word and Excel tables and spreadsheets. Using this feature will decrease performance speed.

When copying **text only** from Microsoft Word to a WordPad in FBP, the text must be stripped of the formatting for the text to print correctly using the Microsoft Reporting Service (MRS) feature. To copy text, do the following:

- highlight desired text in Microsoft Word and copy
- paste in the appropriate WordPad block
- CLICK "Clean MS Word HTML" on the right side of the WordPad.

Note: Any formatting, bolding, bullets, etc. will be removed during the "cleaning" process. Formatting can be re-added by using the WordPad toolbar.

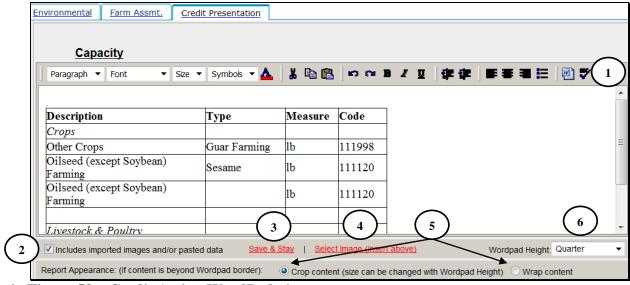

--Figure 58f--

J Credit Actions (Continued)

b Copying Data Into WordPad (Continued)

Additional features available on the WordPad include the following.

--Figure 58g, Credit Action WordPad--

Item	Feature
1	Word processing options are available to customize entries, including a "Spell Check"
	feature.
2	CHECK (✓) the box when including tables or spreadsheets copied from Microsoft Word or
	Excel and the WordPad will retain the Microsoft formatting.
3	CLICK "Save & Stay" link to refresh the screen after each step.
4	Do not use. FCAO and International Technology Services have requested that pictures and
	images not be uploaded because of performance, storage space, and bandwidth concerns.
5	"Report Appearance" radio buttons can be used to determine how information on the report
	will be printed. If users click:
	• "Crop content", WordPad will only print what is visible on the screen; however, size can be changed with WordPad Height (item 6)
	• "Wrap content", WordPad will print the entire WordPad content.
	Note: Ensure that horizontal information can be seen without scrolling to prevent report from displaying excess information on second page.
6	Use "Wordpad Height" drop-down menu to select the height for the WordPad.

4 Farm Assessment

Initial farm assessments and updates must always be entered on the General Information Screen. However, because the farm assessment is a living document that will change over time, it is important that changes and updates get "frozen" in time on the Farm Assessment form when a credit action is completed. This serves the following 2 important purposes:

- a snap-shot of the farm assessment is taken, recorded, and cannot be changed when locked
- farm assessment will be associated with the credit action that was completed at that point in time.

Notes: Any changes to the assessment **must** be entered on the General Information Screen and then updated to the credit action Assessment form. Do **not** make changes directly to the credit action Assessment form.

ENTER "N/A" in the text box of those assessment elements not completed according to paragraph 222.

CLICK "Credit Action" [Credit Action Name], to be completed. To update the form with the most current assessment information from the General Information Screen, CLICK "Save & Update" link in the top-left corner of the screen.

The "**Update Farm Assmt.**" dialog box will be displayed. CHECK (✓) **only** the "General Information" box, and CLICK "**Update &** ⊡".

--Figure 58h, Update Farm Assmt.--

Notes: If assessment information is changed on the General Information Screen before plan approval of the credit action, the credit action Farm Asst. form must be updated.

Signature requirement: The Farm Assessment form **must** be printed and signed by the loan official and the customer's signature **must be** obtained acknowledging participation in completing the document.

5 RD 1940-22, Environmental Checklist for Categorical Exclusions

RD 1940-22 is prepared to document the environmental review. CLICK "Credit Action" [*Credit Action Name*], "Environmental Checklist". The first time RD 1940-22 is accessed the "Individual and Company Name" fields are automatically updated with the most current information from the General Information Screen.

- Use the "Save & Update" link in the top-left of the screen, if needed, to update customer name information from the General Information Screen.
- Fill-in the text field questions and CLICK "**radio buttons**" to complete RD 1940-22. CLICK "**Save**" to save all changes to RD 1940-22.
- Use the "Attached Comments for Environmental Checklist" wordpad at the bottom of the page to enter any additional environmental related information.
- CLICK "Signature of Preparer" to eSign RD 1940-22.
- If RD 1940-22 requires concurrence, CLICK "Signature of Concurring Official" to eSign.

Note: Signature requirement: eSignature for preparer and concurring official, if required.

6 DALR\$ Input Report

A DALR\$ Input Report is prepared to calculate the financial categories needed for input into the eDALR\$ program. It also includes the relevant collateral description from the collateral analysis completed in conjunction with a balance sheet. The DALR\$ Input Report is 1 of the forms in the "D-Loan/Special Serv." credit action model.

All financial information flows from selected balance sheets and income/expense projections to the DALR\$ Input Report. CLICK "**Reports**" and "**Reports Setup**" to control which balance sheets and income/expense projections will appear in the DALR\$ Input Report.

CLICK "Credit Action" [Credit Action Name], and "DALR\$ Input Rpt." to be completed. To update the DALR\$ Input Report Screen with selected financial information, CLICK "Save & Update" link in the top-left corner of the screen.

CLICK "Update & 🖭".

--Figure 58i, Update Other--

Complete the DALR\$ Input Report by filling-in the following date fields located at the top of the form:

- "Proposed Loan Servicing Date"
- "Plan Approval Date".

CLICK "Completed By" link at the bottom of the form to eSign.

Note: Signature requirement: eSignature required.

J Credit Actions (Continued)

7 Credit Presentation

A Credit Presentation is the primary document in a credit action that is prepared to communicate and document a loan making or loan servicing decision. The Credit Presentation encompasses the various aspects of analyzing the financial information, collateral position, eligibility, classification, and the loan narrative. The Credit Presentation should contain all relevant information involved in a loan decision and should contain sufficient detail to show a third-party reviewer why a specific action was taken. The Credit Presentation form will differ depending on the credit action model selected.

A Credit Presentation **must** be prepared and eSigned for all loanmaking and loan servicing actions. It is recommended when multiple actions are being completed at the same time, that they be combined on the same Credit Presentation.

a Approval Decision

Each Credit Presentation that is prepared **must** have an approval decision. CLICK "**Plan Approval**" link located at the bottom of the Credit Presentation to select the appropriate approval status. Only Credit Presentations with an "Approved" status will be available for selection in DLS.

Note: For instructions on completing the Credit Action Status Screen for FSFL's, see **FSFL** (Section J 15 a).

--Figure 58j, Plan Approval--

CLICK "Select Status" link to access the "Select Status" dialog box. Click on the description of the status to select.

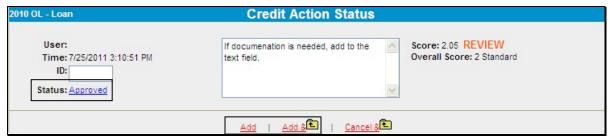

--Figure 58k, Select Status--

Note: Limit comments in the text field; should **not** include loan closing requirements, etc.

- J Credit Actions (Continued)

 - a Approval Decision (Continued)

To eSign the approval decision, CLICK "Add" or "Add & ...".

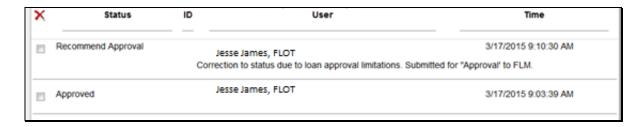

--Figure 58l, Add to eSign--

When both a recommending official and approving official status is needed, the following steps will be used.

- The recommending official will CLICK "Plan Approval" to recommend approval or denial of the credit decision. The user's eSignature and the date/time stamp will appear on the Credit Presentation.
- The recommending official will notify the approval official to review the Credit Presentation.
- The approving official will review the Credit Presentation and CLICK "Plan Approval" to select the approval or declined decision. Include any additional approval requirements in the "Loan Closing Requirements" text box in the Credit Presentation.

Note: When an incorrect credit status is selected, user should immediately select the correct status and document in the text box the reason for the correction. Status needs to be corrected before status is selected in DLS.

Example: FLOT selects "Approved" and should have selected "Recommend Approval".

b Completing the Credit Presentation/Borrower Classification

One of the Credit Presentation forms that is used in FBP is the "Cred. Pres./Borr. Class.". This same form is used in the following 3 credit action models:

- "D-Loan Making"
- "D-Loan/Special Serv."
- "D-Loan/Regular Serv.".

To complete the Credit Presentation, CLICK "Credit Action" [Credit Action Name], "Cred. Pres./Borr. Class.". After the Cred. Pres./Borr. Class. form is accessed, it must be updated with information from other parts of the FBP system. To update CLICK "Save & Update" link in the top-left corner of the screen.

In the "Update Credit Presentation" dialog box CHECK (✓) **only** the following boxes:

- "Ultra Financials/Customized Ratios"
- "Collateral Analysis", select the balance sheet from which the collateral analysis will be calculated
- "Credit Relationship", select the balance sheet from which the credit relationship information will come.
- "General Information".

 - **b** Completing the Credit Presentation/Borrower Classification (Continued)

CLICK "Update & "" to update the Credit Presentation.

Caution: Do not check "Farm Assmt" or "Environmental".

--Figure 58m, Update Credit Presentation--

Notes: Anytime information is changed in other parts of FBP that affect the credit action being taken, the Credit Presentation **must** be updated.

The documentation requirements for Streamlined OL's and CL's are very low. Minimal completion of the Credit Presentation is expected according to 3-FLP.

When a credit presentation is updated after scoring, a red alert, "Form Update Date, Score Date Mismatch", will be displayed in the upper right hand corner of the credit presentation. This alert does not apply to FSA, and can be ignored.

Collateral	What is collateral? Collateral or guarantees are forms of security the
	customer can provide to secure an FSA loan. If for some reason, the
	business cannot repay its loan through business operations, there needs to be
	a second source of repayment. Assets such as equipment, livestock, real
	estate and in some cases, inventory, are considered possible sources of
	repayment if they are liquidated and sold for cash. Both business and
	personal assets can be sources of collateral for a loan according to FSA

Component	Details
Capacity	 What is capacity? FSA must know how the customer intends to repay the loan. Consider the cash flow from the business, the timing of the repayment, and the probability of successful repayment of the loan. Discuss all the assumptions, marketing, pricing, income, production, expenses, withdrawals, etc., in preparing FBP, the basis for the assumptions, and comparisons to the financial history. Payment history on existing credit relationships, personal and business, is considered an indicator of future payment performance. Also consider contingent sources of repayment, if available. In the WordPad, discuss the repayment capacity of the borrower, and any assumptions used in the income/expense projection. *Answer the LR rate question with the radio button. See 4-FLP, Part 3
Capital	for more information on determining if rates are justified* What is capital? Capital is the money the customer has personally invested in the business and is an indication of how much is at risk should the business fail. Most lenders generally expect some contribution of the customer's own assets and that they have undertaken personal financial risk to establish the business before asking a lender to commit any funding. In addition, many lenders believe if the customer has a significant personal investment in the business, the customer is more likely to do everything in their power to make the business successful. Lack of accumulated net worth could be a danger signal unless the applicant is fairly new. Consider that capital also can:
	 provide a cushion for repayment in the event of having a financial setback indicate an ability and willingness of the customer to save and accumulate assets confirm that the borrower manages his/her financial affairs adequately and within his/her income. In the WordPad, discuss the customer's capital position which may include
	working capital, debt to asset level, and other elements of available capital.

c Classification Scores

Accounts will be classified according to 1-FLP, Part 8, Section 4. The classification process generates the following ratios:

- Current Ratio (Liquidity)
- Debt to Asset Ratio (Solvency)
- Return on Assets Ratio (Profitability)
- TDCLC Ratio (Repayment Capacity).

Note: CLICK "Detail" of the borrower classification within FBP for an explanation of how the system calculates scores for each of these ratios.

FBP will generate the following account classification codes.

Classification	
Score	Description of Score
1 - Commercial	Commercial classified accounts are FSA's highest rated direct loan accounts. The debt/asset ratio, cash flow, and general financial health of a commercial-grade farming operation allow it to withstand adverse farming conditions while maintaining loan payments.
2 - Standard	Standard classified accounts are financially sound, cash flow is adequate, and on-time loan repayment is probable.
3 - Acceptable	Acceptable classified accounts are those that present some degree of financial risk. These loans have adequate to marginal security and are generally experiencing some financial stress.
4 - Marginal	A marginal account is 1 that poses a high degree of financial risk. These loans may or may not be secured and repayment ability is marginal.
5 - Not Classified	See Special Classification (Section J 12).

1-FLP, Exhibit 27.5
(Use Agency Letterhead format with local return address.)
This responds to your request for Farm Service Agency (FSA) loan assistance based on your application of, for a \$ loan for After careful consideration, we regret that your request can not be approved at this time. The specific reason for our decision is:
All applicants for FSA Direct or Guaranteed loan assistance are required to meet the environmental requirements found in 7 CFR part 1940 subpart G, and as specified by 7 CFR 1940.309(b) "required to provide information to evaluate their proposal's potential environmental impacts"
More specifically, 7 CFR 1940.304 references Executive Order 11990 requiring the "Protection of Wetlands," and states it is FSA's policy " not to approve or fund any proposals that, as a result of their identifiable impacts, direct or indirect, would lead to or accommodate either the conversion of these land uses or encroachment upon them."
Based on available information the FLP project and area you selected is likely to affect or include a wetland; therefore the request must be denied. FSA will reconsider this denial if during the reconsideration process as provided below you 1) identify a suitable alternative site or 2) provide an applicable wetland delineation determination and /or permits from the United States Army Corp of Engineers or appropriate authority. Alternatively, you may reapply for assistance if and when such documentation can be provided.

A Overview

Agriculture is an evolving business and the recent surge in consumer demand for organic and locally-produced food is creating jobs and agricultural opportunities throughout rural America. Beginning farmers are finding an entry point into agriculture through local markets, while many existing businesses are diversifying into high-value, locally-branded products. With the increasing number of "buy local", organic, urban agriculture and specialty crop awareness campaigns; there has been an increase in request for assistance for operations unfamiliar to some local offices. The following methodologies can be used in developing prices and other forms of valuation for crops and evaluating local or regional marketing methods. The same methodologies can be applied to organic crops and pricing.

Four basic methodologies are discussed in this exhibit. In addition, there is also information on considering alternative enterprises.

Note: DAFLP maintains a library of web-based resources that includes a variety of information on nontraditional and niche-type farm enterprises. This information includes sample enterprise budgets, marketing models, how-to and start-up guides, organics, hydroponics, Community Supported Agriculture, and more. The DAFLP community found within USDA Connect at https://connections.usda.gov provides an additional source of information and the opportunity to network with other USDA Agencies and topic-specific communities that provide equally valuable resources and information.

B Prices for Enterprises Not Available on Published State Price Lists

When actual records data is not available, prices may be found by using NASS data, terminal price information, RMA data, AMS Market News, or the price list from an adjoining or nearby State. This may be helpful in cases where a significant amount of land is dedicated to growing a specific crop. USDA-AMS Market News also has a local food price-gathering effort underway and is starting to publish datasets online at

http://www.ams.usda.gov/AMSv1.0/MarketNewsLocalRegional. This data will be enhanced significantly over the next year. Additional information may also be available by researching cooperative extension sites at http://www.csrees.usda.gov/Extension. Many cooperative extension sites have enterprise budgets that can assist applicants in developing their farm plan.

Example 1: An office receives a request for assistance from a new producer who wants to grow basil. The proposal is for 20,000 square feet of basil production. The applicant provides a letter from the local grocery store agreeing to purchase basil not less than wholesale price. The applicant submits the latest Detroit terminal price of \$6 per pound for basil and obtains an enterprise budget from the local university. Using this analysis, the applicant substantiates a feasible plan and assistance can be approved. In the following year, this applicant will have actual price history and income and expense data.--*

B Prices for Enterprises Not Available on Published State Price Lists (Continued)

Example 2: An applicant comes into the office with the intention to grow an organic crop. Deciding how to price organic products is difficult, particularly when markets often are not well-established. Prices need to be high enough to make a profit, but reasonable based on competition and how customers value (or establish a price on) the product. Many enterprise budgets may be available, but the applicant should choose an enterprise budget that suits the business they are proposing. The applicant should review the scale that is being proposed, the production method proposed (organic or conventional), and geographic region from which the sample budget is created. Still, there are numerous resources to assist even if the State's extension service or the land grant college does not have specific information for a particular enterprise. The National Sustainable Agricultural Service provides numerous resources for organic enterprise budgets at https://attra.ncat.org/organic.html#vegetable, and the USDA Economic

Research Service at http://ers.usda.gov/data-products/organic-prices.aspx is a useful resource for organic pricing.

C Applicants With Actual Income and Expense Records, Not Specific to a Commodity

It is not always practicable to valuate crop income and expenses on an individual crop basis. This is especially true for small acreage operations, high tunnel production, highly diverse operations, CSA, and operations where product choice is driven by market demands. When product choice is driven by market demands, the applicant's actual historical income and expense records may be used to establish trends and projections.

Example: In 2012, an applicant grew 12 different vegetables and herbs on 21,000 square feet. The operation grossed \$9,000 income by using a variety of marketing methods. In 2013, the applicant improved selling techniques and grossed \$10,800 in income, a 20 percent increase. In 2014, the operation proposes to grow to 35,000 square feet. An acceptable estimate of the proposed gross income for 2014 would be calculated as 10,800 ÷ 21,000 square feet (former lot size) x 35,000 square feet (new lot size) = \$18,000. The same methodology would be used to estimate expenses.--*

D Small Acreage, Square Footage Operations With a Variety of Commodities

An applicant's actual records will be most reliable. It is an acceptable practice to use the actual gross income divided by the square footage of the plot to estimate the potential income per square foot (see paragraph C). If there are no actual records to estimate net income, or when price and yield information usage is not practicable because of multiple crops and small plot areas, other methods of income and expenses may be used. Many State universities publish enterprise budgets for small scale and fractional acreage. ALMOST ALL CROPS CAN BE IDENTIFIED IN A SEARCH. In addition, many local lending institutions and universities, including the farm credit system, have conducted benchmarking studies. ERS publishes organic costs and returns for organic corn, wheat, soybeans, and milk. Information is available at http://ers.usda.gov/Data-products/organic-production.aspx.

Example: In 2012, the Farm Credit Council and Farm Credit East conducted a CSA-benchmark study to establish a performance metrics and expectations for usage in making informed lending decisions. A review of this study can be found at http://www.ngfn.org/resources/ngfn-cluster-calls/csa-benchmark-project/CSA%20benchmark%20slides.pdf. This study set a general guide of \$18,000 to \$20,000 sales average per acre or \$.41 to \$.46 per square foot.

E Alternative Marketing Methods

The following provides details on 2 alternative marketing methods:

• **CSA** is a direct marketing channel by which farmers sell shares or subscriptions for farm products to customers. CSA operation occurs when consumers provide upfront funds (buy a share) for a portion of the expected harvest from the farm, typically in the form of weekly harvest deliveries. A diverse selection of products is delivered regularly, for a specified time during the harvest period, to customers at designated pickup sites. CSA is typically used to market fresh produce, but can also be used to market meat, eggs, honey, flowers, and other products.

For existing operations, actual historical records should be available to demonstrate share price and number of subscriptions. Because a CSA farm effectively sells produce before the growing season begins, the farm's gross CSA income can be easily calculated. CSA farmers should determine the breakeven point when establishing membership income.--*

E Alternative Marketing Methods (Continued)

Applicants establishing new CSA operations should research target market and be able to answer general questions, such as:

- How many competitors are there in the target marketing area?
- What is the average share price?
- How does your CSA product differ from your competitors?
- Can your market support another CSA?
- How did you determine your share price and the number of shares you plan to sell?

Numerous resources are available to assist farmers with marketing methods, share pricing, and breakeven analysis. Many farms combine CSA with other forms of marketing, such as selling at a farmers market, farm to institution or restaurants, and retail stores.

• Farmers Markets, as with CSA, should be researched by the applicants in the area where they expect to market their product. Many State Departments of Agriculture maintain an average price list for farmers markets in their jurisdiction and AMS Market News is beginning to gather this information as well (see link in subparagraph B). Also many States have farmers market associations that may track average prices.

F Alternative Enterprises

Prices, farm programs, trade policies, technology, markets, and consumer preferences change continuously. Some enterprises previously believed to be speculative or without an established or steady market are now proving, through consumer demand, to be main stream in some regions. Loan officers are often faced with request for assistance from operations, either wholly or in part, producing income through production of alternative enterprise. To find out more about alternative enterprises suited to each area, the National Agricultural Library has many examples and helpful publications at http://www.nal.usda.gov/afsic/pubs/altlist.shtml. Examples of alternative enterprises include the following.

- Wetland plants grown for environmental restoration. Contracts are often available from State agencies to raise plants for environmental restoration. If plants are raised as seedlings or rooted cuttings for sale and not "wild harvested", this operation may be considered an eligible enterprise.
- **Bison**. When an operation can provide documentation of an established meat market, bison may be considered an eligible enterprise. The USDA's National Animal Health Monitoring System launched Bison 2014, the first-ever national study of the U.S. ranched-bison industry. This initiative is intended to increase knowledge and understanding about the characteristics, health, management practices, and challenges facing bison operations in the U.S.

If the operation's main enterprise is production for heads and skulls, this would be considered a non-eligible enterprise.--*

F Alternative Enterprise (Continued)

- Alpaca. Alpaca's have generally been considered non-eligible enterprises because of the speculative nature of the industry. During the height of the industry, it was not uncommon to see breeding stock sell for \$35,000. Animals were subsequently raised and bred with the hope that the offspring would sell to another breeder to perpetuate the cycle. This speculative market is considered a non-eligible enterprise. However, each year it is estimated that alpaca fiber can be worth \$500 to \$1,000 per animal, depending on the market. In addition to this, alpaca can be used as guard animals for livestock. An alpaca operation whose primary enterprise is to produce fiber and sell alpacas as guard animals for livestock farmers may be considered eligible.
- Goats. A goat operation for milk, meat, and fiber offers many opportunities. The 2 most common fibers produced are mohair and cashmere. Fiber markets should be evaluated for reliability, but can often produce a marketing alternative to strictly meat production. In many areas of the country, goat meat and milk are highly sought after by many immigrant communities, providing marketing options for products. According to NASS, meat goats account for over 80 percent of the total of goats produced in the U.S.
- **Rabbits**. Rabbits grown for fiber, such as angora, and rabbits grown for food can be considered an eligible enterprise, if a reliable market exists for the product. Rabbits raised primarily for pet purposes would be considered a non-eligible enterprise.
- **Timber**. Forestry products may be eligible, depending on the manner in which the forestry is managed and harvested. The operation must follow a Timber Management Plan. Purchasing property with the intention of clear cutting and selling the timber and firewood is not considered managed agriculture and; therefore, not an eligible enterprise. In contrast, a request for assistance to purchase real estate and actively manage the timber with a forestry plan may be considered an eligible enterprise. Each request for assistance and Timber Management Plan should be reviewed and determined eligible or ineligible on its own merit.
- Aquaculture. Aquaculture is the husbandry of any aquatic organisms, including fish, mollusks, crustaceans, or other invertebrates, amphibians, reptiles, or aquatic plants, raised in a controlled or selected environment of which the applicant has exclusive rights to use. As with other agricultural enterprises, the requirements under non-eligible enterprise still apply, but in some cases these enterprises may be eligible for FSA financing. The USDA National Agricultural Library web site, alternative farming systems information center, at http://www.nal.usda.gov/afsic/pubs/altlist.shtml, has several resources available for aquaculture, among other alternative enterprises.--*

	Example of Completed Oversight Report	

This guide:

- is a resource to assist in completing the online oversight report
- identifies the electronic direct loan making and servicing reports available from Data Mart, along with the guaranteed loan making and servicing reports available in GLS
- follows the order of the online oversight report
- provides step-by-step instructions when deemed necessary.

Paragraphs 441 through 444 address all issues of reporting timeframes, user roles and responsibilities, and distribution of reports.

A DDORS Access

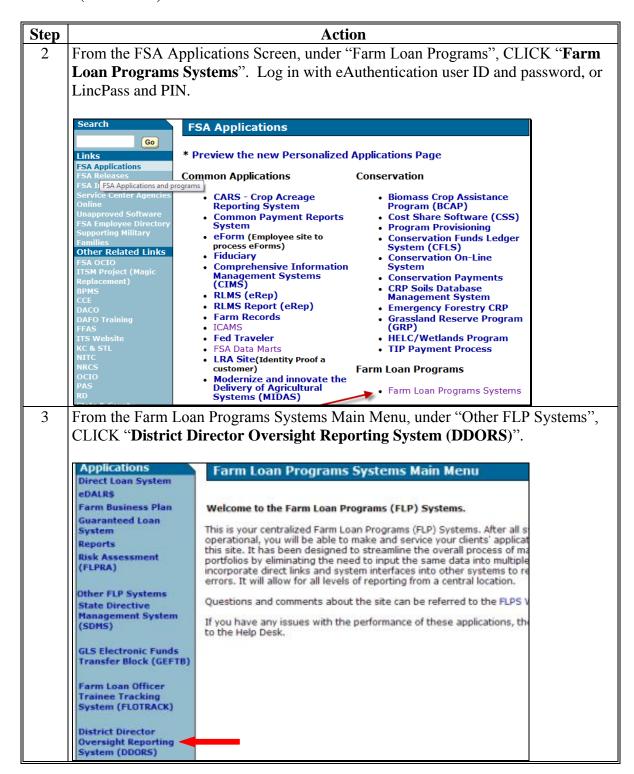

1 Web Access

DDORS authorized users can access DDORS using Microsoft Internet Explorer 7.0+ by either of the following:

- Internet at https://wdcprod80.sc.egov.usda.gov/ddors/homepage.aspx
- Intranet, as follows.

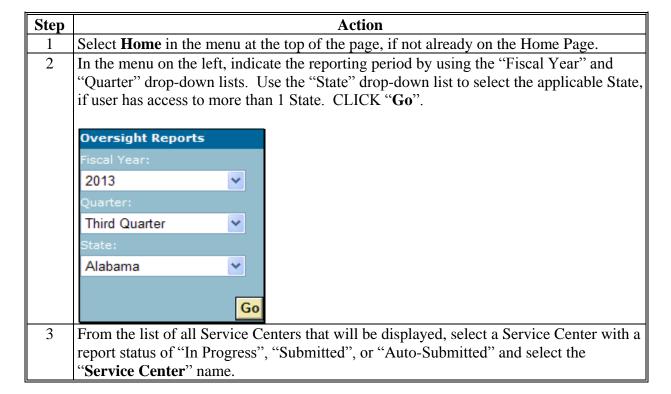

1 Web Access (Continued)

2 Accessing DDORS Online Report

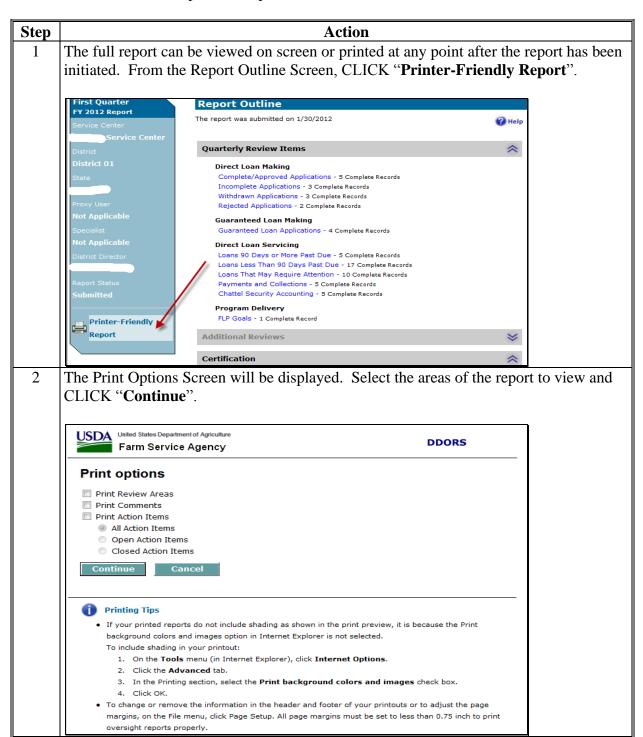

DD's can access the online report DDORS for the Service Center being reviewed, from the DDORS Home Page, by selecting the Service Center name.

Oversight reports can be viewed by authorized users as soon as the DD or proxy begins adding information. Follow this table to view previously submitted reports.

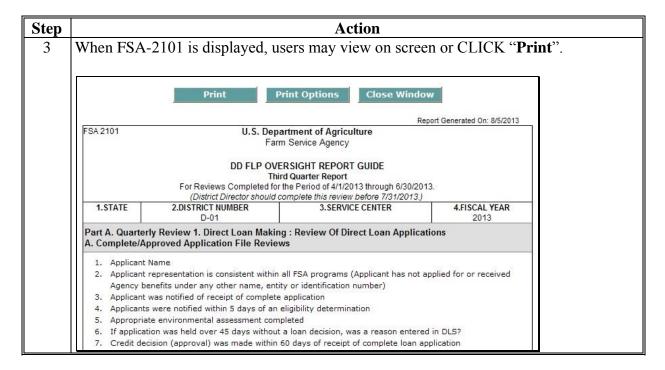

3 Print Report Access

Follow this table to view or print the report.

3 Print Report Access (Continued)

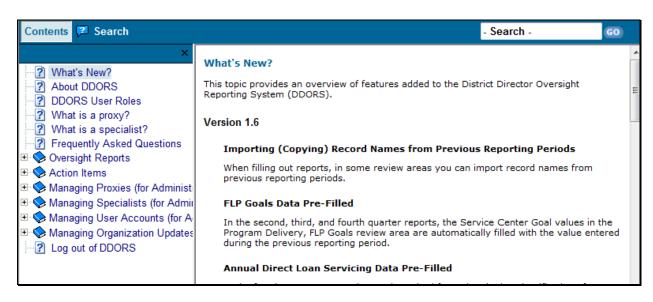

4 Help Access

DDORS has a "Help" function that is available throughout the online report, as displayed on this example DDORS Home Page.

4 Help Access (Continued)

The following is an example of the screen that will be displayed with topics for assistance.

B Online Guides and Reports

1 User Guides

On the Farm Loan Program Systems Home Page, under "Information Links", if users CLICK "Manual", the following user guides will be available:

- DLS-Loan Making User's Guide
- DLS-Loan Servicing User's Guide, that includes:
 - Direct Loan System training
 - Special Servicing Reference and User Guide
 - Hyperion Reports User Guide
- GLS-Guaranteed Loan System User Guide.

Exhibit 14 provides details about how to create SCIMS-PLAS ORACLE Hyperion Reports.

2 FLP Data Mart (Data Mart)

Hyperion access is **required** to have Data Mart access. Users who do not already have access to Data Mart must complete FSA-13-A and submit it to the appropriate Security Liaison Representative.

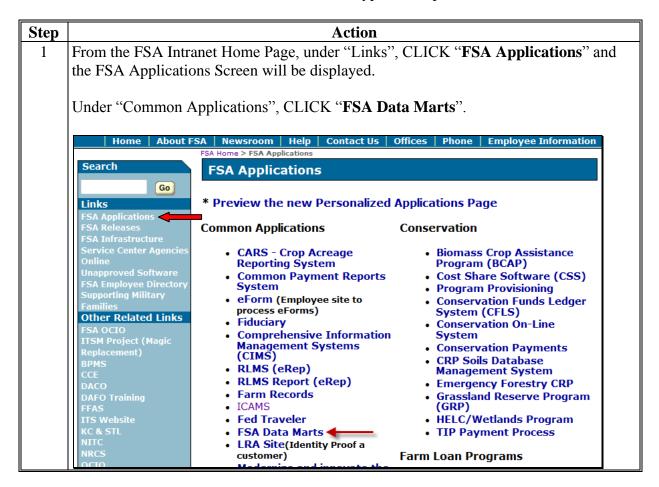

The following example displays how, on FSA-13-A, users should complete the "Hyperion" and "Other/Comments" sections, as highlighted, to request access to Data Mart.

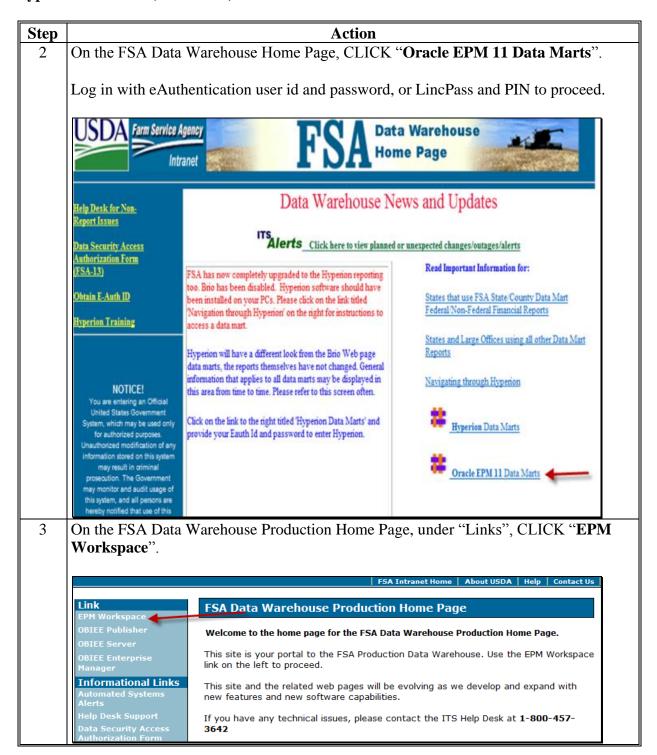

Note: In the "Other/Comments" block, ENTER "Please grant access to environment: Production Oracle Hyperion EPM for the requested user with authorization to Hyperion Group "FLP Data Mart".

3 Hyperion Database

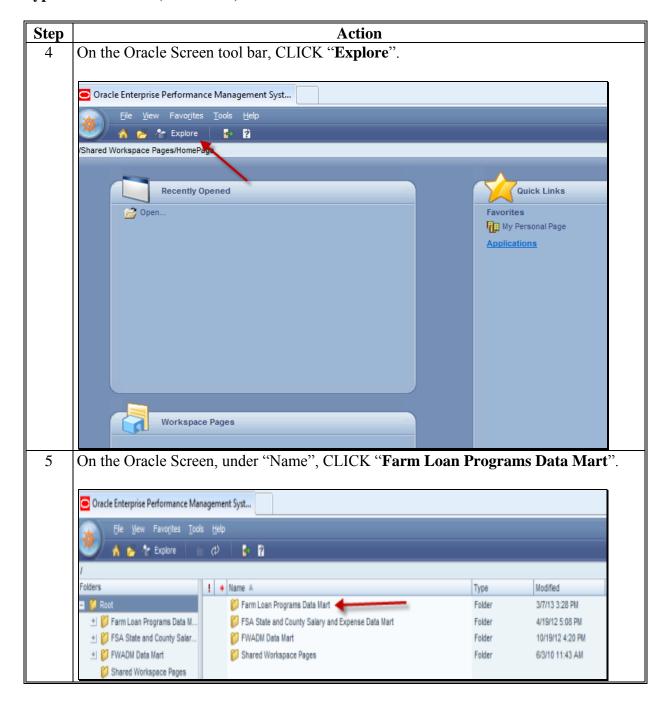

The following is a quick review of how to access Data Mart reports needed for completing DDORS. This information can also be found in the Hyperion Reports User Guide.

C Oversight Review General Information

Online Data Mart and GLS reports should be created in advance of the Service Center visit. DD can begin the oversight review by using the reports to complete sections of the online report in DDORS, from any location, to maximize time spent in the Service Center.

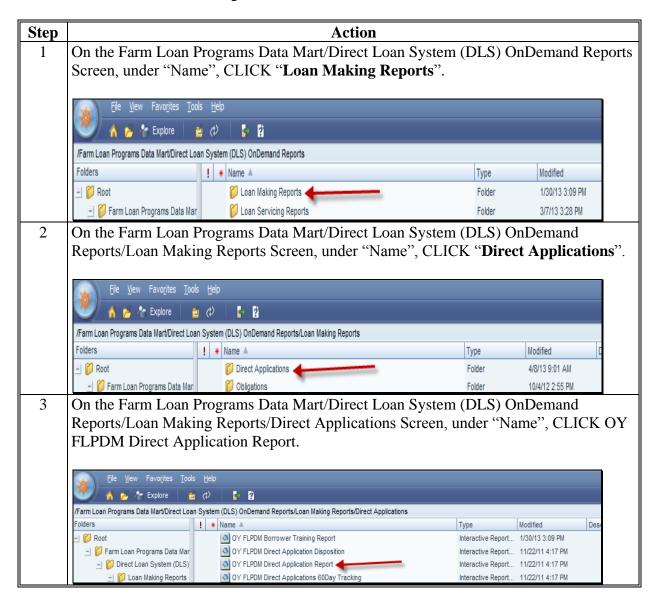

1 Accessing DDORS Online Report

Access the online report from the DDORS Home Page and select the Service Center name.

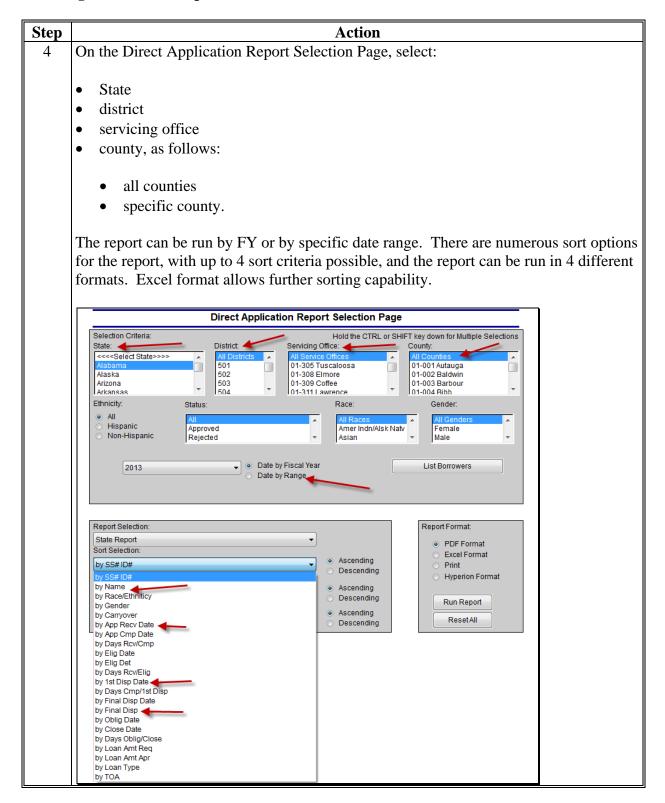

2 Accessing Direct Loan Reports

Access the direct loan reports from Data Mart. This following report will provide information needed for all 4 direct loan making review items.

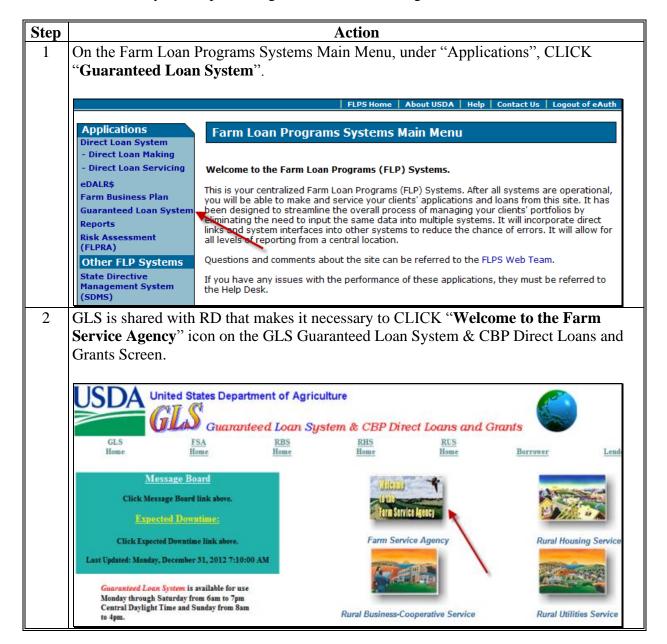

2 Accessing Direct Loan Reports (Continued)

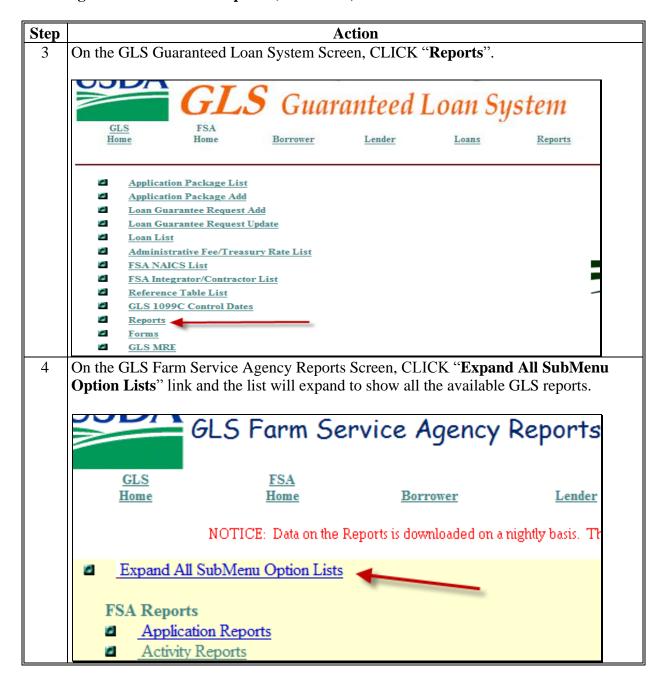

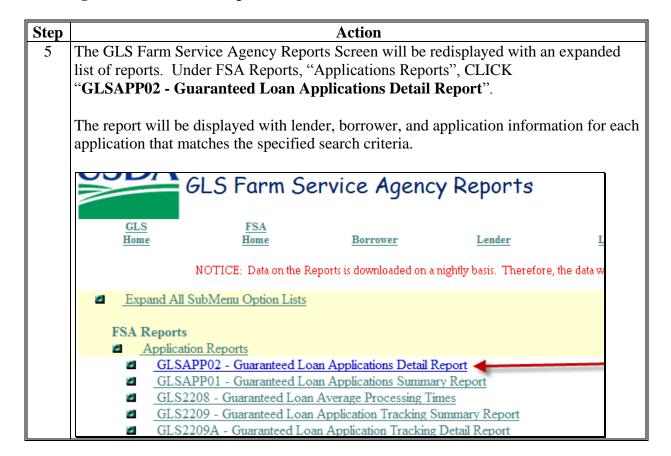

3 Accessing Guaranteed Loan Reports

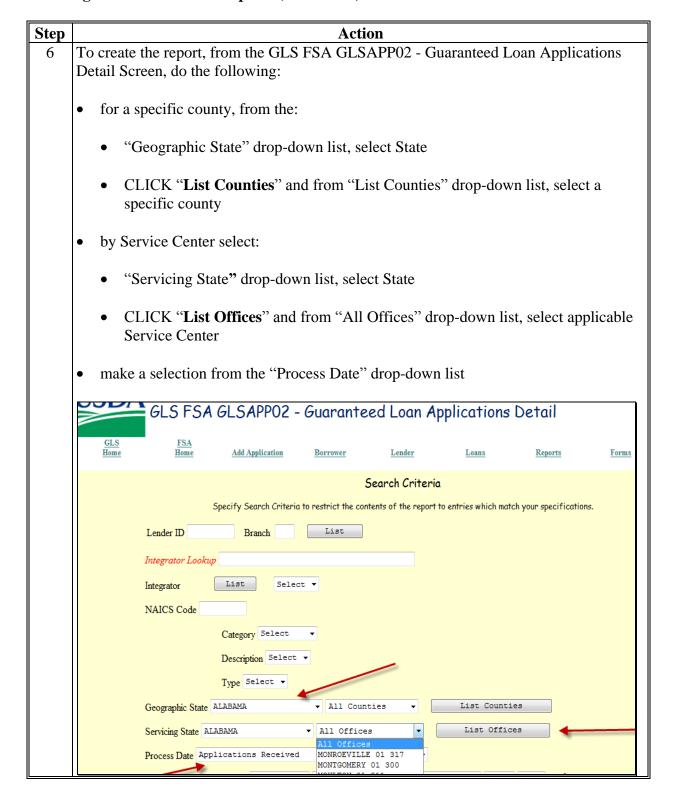

Access guarantee loan reports from GLS. The following report will provide a portion of the information necessary to complete the guaranteed loan making review items.

	This form is available electronically. FSA-2544 U.S. DEPARTMENT OF AGRICULTURE Farm Service Agency REQUEST FOR INFORMATION ON CAPITAL IMPROVEMENTS
	Mr. John Farmer Mrs. Jane Farmer Certified 12123 County Road Four Washington, DC 20250
	Our records show that you have a Shared Appreciation Agreement with the Farm Service Agency (FSA) that has or will soon be coming due. FSA regulations (7 CFR Part 766) allow the value of certain improvements to be deducted from the current market value of your property to determine any shared appreciation due. The improvement has to have been added to the property since you received your writedown from FSA and capitalized on your income taxes. The capital improvements must also meet at least one of the following criteria:
	A. It is your primary residence. If a new residence is affixed to the real estate security for a home which existed on the security property when the SAA was originally executed, or the living area square footage of the original dwelling expanded, only the value added to the real property by the new or expanded portion of the original dwelling (if it added value) will be deducted from the current market value. Living area square footage will not include square footage of patios, porches, garages, and similar additions. B. The item is an improvement to the real estate with a useful life of over 1 year and is affixed to the property. The
	item must have been capitalized and not taken as an annual operating expense on Federal income tax records. You must provide copies of appropriate tax documentation to verify the capital improvements claimed. A copy of FSA-2544 sent to the borrower should be located in the
	borrower case file.

		Dear:
		The financial progress you have made since receiving your Farm Service Agency (FSA) loan(s) has been reviewed. You should take pride in the progress you have made. We share that pride with you and are pleased that we may have been of service.
		Your FSA loan and security instruments require you to refinance the unpaid balance of your loan(s), when you have progressed to the extent that you can obtain credit from responsible cooperative or commercial lenders.
		Lenders have been contacted to determine their requirements and the availability of credit to new customers. We have evaluated your financial progress, together with the lender requirements, and find that you should now be able to secure satisfactory credit to pay your FSA loan(s). Therefore, we request that you refinance your [Enter type of loan, FO, OL, etc] loan(s) in full.
