A Facility Purpose

The intent of the FSFL Program is to provide on-farm storage to producers to store and handle eligible facility loan commodities they produce. FSFL collateral **must** be used for the purpose for which the FSFL storage, equipment and storage and handling truck was acquired, constructed or installed for the **entire** FSFL term.

FSFL must **not** be approved to provide financing for purchased commodities or commercial storage facilities.

6 FSFL Signature Authority Documentation Requirements (Continued)

B Entity Signature Authority for FSFL's (Continued)

An agent may:

- redelegate the authority to sign FSFL forms and documents for a corporation, limited partnership, LLC, or other similar entity

The corporate charter does not indicate that the authority to sign for ABC Corporation may be redelegated. Mike Jones cannot redelegate his signature authority for ABC Corporation.</p>

6 FSFL Signature Authority Documentation Requirements (Continued)

B Entity Signature Authority for FSFL's (Continued)

IF the entity documents...	THEN the...
do not allow for redelegation of signature authority	<p>following may be used to authorize an agent to sign for the entity for:</p> <ul style="list-style-type: none"> • corporations, either of the following: <ul style="list-style-type: none"> • FSA-211 signed by all officers • resolution of the board of directors, signed by an officer of the corporation, providing name of agent authorized to sign for the corporation • limited partnerships and other similar entities, FSA-211 signed by all members of the entity • LLC's, FSA-211 signed by all members or authorized managers. <p>Notes: Certain properly executed and completed affidavits, on file in a County Office should be used as evidence of signature authority. 6 FSFL Signature Authority Documentation Requirements (Continued)**C Joint Venture Signature Authority for All FSFL's**

Members of a joint venture may appoint an individual on FSA-211 to **request** FSFL on CCC-185. **All** members of the joint venture **must** sign FSA-211. Members of the joint venture are appointing an attorney-in-fact to act on behalf of the joint venture.

Note: If an attorney-in-fact has **not** been appointed on FSA-211 to act on behalf of the joint venture, all members **must** sign CCC-185.

All members of a joint venture, including spouses if **required** by State law, are **required** to sign the following FSFL security documents:

- CCC-186
- CCC-186-1
- CCC-193 (Exhibit 6)
- CCC-193-D (Exhibit 6)
- CCC-298
- CCC-400
- all other real estate lien forms approved for use by a regional OGC
- UCC-1, if signatures are **required**.

Note: FSA-211 for the joint venture does **not** authorize the appointed person to sign for individual members on FSFL security documents.

County Offices shall review CCC-902E, Part C or CCC-901, Part A for joint ventures for member names to ensure that all members have signed FSA-211 and all applicable FSFL security documents.

6 FSFL Signature Authority Documentation Requirements (Continued)

C Joint Venture Signature Authority for All FSFL's (Continued)

Determine acceptable evidence of signature authority for a joint venture as an entity according to the following table.

IF the individual signing for the joint venture is...	THEN acceptable evidence of authority is a valid FSA-211 signed by...
a member of the joint venture	all members of the joint venture for CCC-185 only . Note: Certain properly executed and completed affidavits, on file in a County Office should be used as evidence of signature authority. These affidavits should be honored as evidence of signature authority by State and County Offices, if the members and their respective shares are unchanged.
an agent	all members of the joint venture.

The following are examples of FSFL signature requirements for joint ventures.

Example 1: ABC Joint Venture has a permanent TIN and is comprised of Jane Black, Bob Green, and Mike Brown.

ABC Joint Venture is the owner and operator of a farm and submits CCC-185. FSA-211 is on file in the County Office authorizing Mike Brown to sign for ABC Joint Venture. For CCC-186 and all applicable security documents listed in this subparagraph, all 3 members, including spouses, if **required** by State law, will be **required** to sign. FSFL disbursement will be issued to ABC Joint Venture using their permanent TIN.

Example 2: DEF Joint Venture does **not** have a permanent TIN and is composed of Mike Smith and Tom Williams.

DEF Joint Venture is the operator of a farm and submits CCC-185. Because DEF Joint Venture does **not** have a permanent TIN, CCC-185 **must** be submitted in the names of the 2 members with Mike Smith designated as the contact borrower. Both members shall be listed as co-applicants on all FSFL documents. Both members, including spouses, if **required** by State law, will be **required** to sign CCC-186 and all applicable security documents listed in this subparagraph. FSFL disbursement will be issued under Mike Smith's TIN as the contact borrower.

6 FSFL Signature Authority Documentation Requirements (Continued)**D General Partnership Signature Authority for FSFL's**

For all FSFL's issued to general partnerships, the partnership **must** provide the Articles of Partnership. If no Articles of Partnership are available, IRS documents, such as IRS-1065 (Schedule K-1) showing members and their respective shares, may be used. A written statement identifying all members and shares of the partnership and signed by all members of the partnership may be used as acceptable documentation the first year the partnership is in effect, or if the membership of the partnership has changed and the partnership has **not** filed any IRS forms.

Notes: Certain properly executed and completed affidavits, on file in a County Office should be used as evidence of signature authority. These affidavits should be honored as evidence of signature authority by State and County Offices.

County Offices shall review CCC-902E, Part E to ensure that membership of the general partnership and their respective shares have **not** changed.

Any member of a general partnership may:

- sign for the general partnership
- bind all members **unless** the Articles of Partnership are more restrictive.

Note: FSA considers this policy acceptable because the majority of States have laws that provide for this; however, this is **not** the case for any other business enterprise.

A member of a general partnership may:

- execute FSA-211 to appoint an attorney-in-fact to act on behalf of the general partnership
- bind all members, **unless** the Articles of Partnership restrict member's authority.

6 FSFL Signature Authority Documentation Requirements (Continued)**E Conservatorship, Estate, Guardianship, or Trust Signature Authority for FSFL's**

For an individual to sign FSFL forms and documents as administrator, conservator, executor, guardian, receiver, or trustee, evidence of authority consisting of 1 of the following documents that was executed according to State law is **required**:

- similar document approved by the regional OGC.

These documents, **except** trust agreements and documents approved by the regional OGC, shall contain the following:

- letter of authorization signed by either of the following:
 - legal head of the church or organization
 - head of the local church body, if applicable

B Authority to Approve FSFL's and Sign CCC-185D

CCC-185D approval must be obtained **before** any action is taken by the applicant to install the facility or drying and/or handling equipment. See paragraph 11.

COC or STC only is the approval authority for CCC-185D. STC may redelegate CCC-185D approval authority to:

- CED or FSA employee with loan approval authority for FSFL's with an aggregate outstanding balance of \$25,000 or less

10 FSFL Approval Authority (Continued)

B Authority to Approve FSFL's and Sign CCC-185D (Continued)

To protect CCC's financial interests, approval authority for FSFL's is as follows.

IF the total aggregate outstanding FSFL balance <u>1/</u> <u>2/</u> amount is...	THEN the approval authority is...	Reference
\$25,000 or less	CED and/or FSA employee with loan approval authority, if designated approval authority by STC	Subparagraph D

\$100,000.01 to \$250,000	COC approval after DD review. <u>3/</u>	Subparagraph E.
\$250,000.01 or more	STC.	Subparagraph F.

Note: When the aggregate outstanding FSFL balance is equal to or exceeds \$250,000.01, the approval authority is the STC.

1/ For FSFL's with partial and final disbursements, the two FSFL amounts are combined.

2/ Aggregate outstanding FSFL balance includes the new request and any principal balance on existing FSFL's. For example, producer has an outstanding FSFL for \$90,000 and requests a new FSFL for \$30,000. DD review of the \$30,000 FSFL request is **required before** COC approval.

3/ DD's **must** review **all** CCC-185's with a total aggregate outstanding FSFL principal amount between \$100,000.01 and \$250,000. FSFL approval date will be the date COC approves FSFL **after** DD review.

Exception: STC is the approval authority for **all** renewable biomass CCC-185D's.

Notes: All increases to the original approved FSFL amounts **must** be referred to the original approval authority or a higher authority, if **required**, for the total aggregate outstanding FSFL balance amount. See paragraph 176.

DD concurrence is necessary for all FSFL's with asphalt flooring, regardless of the FSFL balance.

The correct review process will vary depending on FSFL approval authority required and whether the applicant has taken delivery or begun construction. See subparagraphs D *--through F and paragraph 11 for additional guidance. However, it is not possible to complete the requisite environmental reviews for approval of FSFL requests after the fact of initiating construction or site preparation, as provided by 1-EQ, subparagraphs 2 D and 5 A.--*

10 FSFL Approval Authority (Continued)

D FSFL's Within CED, FSA Employee With Loan Approval Authority and COC Approval Authority

For FSFL's with the total aggregate outstanding FSFL balance of \$25,000 or less, STC's are authorized to designate loan approval to CED or an FSA employee with loan approval authority. Employees shall approve or disapprove FSFL by signing CCC-185D, only if STC has granted the employee approval authority. The designation **must** be documented in the STC regular meeting minutes.

Note: CED is not required to have loan approval authority for this delegation.

- CCC-185D's where STC has set other limitations for COC approval
- FSFL's with asphalt flooring.

For FSFL's where the producer's **total aggregate FSFL balance** is over \$250,000, DD or State Office designee with loan approval authority, before STC approval, must review the most recent FSFL documents to ensure that the producer is financially able to meet all FSFL obligations.

If STC or designated SED disapproves the CCC-185D, the reasons **must** be explained in a memorandum to COC.

See Part 9 for detailed information about FSFL decision and paragraph 13 for notification to applicant.

STC is the approval authority for all renewable biomass FSFL's. The following information **must** be immediately submitted by the State Office after STC approval to Toni Williams by e-mail to **toni.williams@wdc.usda.gov**:

After a complete review by an FSA employee with FLP loan approval authority and STC and/or COC approval, SED may mandate sealing any or all of an applicant's financial information in an envelope to be kept in the applicant's FSFL folder.

Applicants may submit a written request for a copy of their credit report after it has been obtained from Data Facts, Inc.

11 FSFL's Where Any Delivery or Construction Has Begun Before Approval

*--A Environmental Review Program and Environmental Risk Management

All FSA actions including but not limited to FSFL requests require completion of an environmental review for compliance with NEPA.

NEPA requires that:

- Federal Agencies must consider all potential environmental impacts of their proposed actions by incorporating an analysis of impacts into their decision making processes and considering reasonable alternatives to those activities **before** implementing activities that have the potential to significantly impact the human environment
- all environmental processes must be fully completed before an action is begun or can be approved; therefore, actions **may not** be approved contingent to completion of any portion of the environmental review process
- agencies consult with and obtain comments from Federal Agencies that manage or have expertise about resources that are potentially affected (40 CFR 1502.25).

FSA's NEPA implementing regulations are found in 7 CFR Part 799. The process for implementing these regulations are described in 1-EQ and 1-FSFL, paragraph 110.

Note: FSA-850's completed for the environmental review for portable storage, equipment and/or storage and handling truck may not require a site visit provided there are no extraordinary circumstances.

All FSFL's secured by real estate will be evaluated for environmental risks by FSA staff by completing FSA-851, according to 2-EQ. This assessment is necessary to assess the suitability and value of proposed security and document lender liability due diligence.

The environmental review consisting of completion of FSA-850 or an EA as appropriate **must** be satisfactorily completed by trained FSA staff to establish a FONSI with no extraordinary circumstances, **before action is taken to initiate construction or approve CCC-185D.**

If FSA-850 or EA **cannot** be satisfactorily completed, CCC-185D will **not** be approved. There are no provisions for programmatic waiver requests, administrative exceptions, or misaction/misinformation regarding NEPA compliance.

FSA-851 must be completed and the findings evaluated before perfecting a lien on real estate security as provided by 2-EQ. If there are unresolved issues associated with the proposed property, then alternative real estate may be provided.--*

11 FSFL's Where Any Delivery or Construction Has Begun Before Approval (Continued)***--B Actions That Impede Completion of an Environmental Review**

The following producer actions must **not** occur at the FSFL site location or staging location before the environmental review processes have been fully concluded as provided by 1-EQ, subparagraphs 2 D and 5 A. The CCC-185D can only be approved after successful completion of the environmental review. Premature action includes but is not limited to:

- accepted delivery of equipment and/or materials for projects involving ground disturbance or construction
- clearing or removal of vegetation
- site grading level, preparation, or foundation construction
- removal of or alterations to any structures that are 50-years-old or older or located within a historic district.

C Environmental Review Completed Before CCC-185D Approval

The environmental review is considered successfully completed when the required FSA-850 or EA processes have been concluded including consultations and public notices as appropriate and signature requirements are met to establish an environmental determination has been made, according to 1-EQ,

Note: FSA-850 and EA preparer and official signature requirements can be found at 1-EQ, subparagraph 31 B.

Example: The producer requested FSFL to install a grain bin on October 25, 2018. FSA-850 was prepared and an environmental evaluation site visit was completed on October 27, 2018. Consultations with SHPO and FWS were completed and responses received November 20, 2018, found there were no potential environmental impacts. The FSA-850 preparer, who is CED, signed and dated FSA-850 on November 21, 2018 granting FSA-850 approval. COC determined the producer met all FSFL eligibility requirements and CCC-185D was approved on November 27, 2018.--*

11 FSFL's Where Any Delivery or Construction Has Begun Before Approval (Continued)

D Programmatic Waiver Request

*--Producers may request a programmatic waiver request, in writing, when actions unrelated to the environmental review for NEPA compliance were started **before** CCC-185D approval.--*
All of the following **must** have been completed **before** the producer performed the actions:

- *--FSA-850 or EA as applicable, was successfully approved with **no** adverse impacts or unresolved extraordinary circumstances identified, according to 1-EQ
- FSA-851 was completed as provided by 2-EQ, paragraph 13 and Exhibit 5, any related issues have been resolved and suitable security has been provided--*
- CCC-185 was completed, signed, and dated by the producer and received in the County Office
- \$100 application fee per producer was received and deposited in DLS according to 2-FSFL.

The producer's written waiver request **must**:

- include the reasons why the producer started the action **before** receiving FSFL approval
- be documented in COC or STC minutes, as applicable.

11 FSFL's Where Any Delivery or Construction Has Begun Before Approval (Continued)

D Programmatic Waiver Request (Continued)

The following provisions **must** be met before forwarding the case to the appropriate approving authority:

- all **required** documentation for financial analysis for all applicants and/or entities was received
- a favorable financial analysis **must** be received from the FSA employee with loan approval authority
- ***--FSA-850 or EA must be satisfactorily completed before any action was taken to initiate ground disturbance or construction activities at the project or staging area and --*** approval of the FSFL
- all applicant eligibility, equipment eligibility, and collateral security requirements, ***--including satisfactory completion of the FSA-851, if necessary, must be met.**

Example: The producer requested FSFL in the amount of \$99,000 to install a grain bin on September 21, 2018. CCC-185 was properly completed and the \$100 application fee was collected. FSA-850 was drafted by the preparer and an environmental evaluation site visit was completed on September 22, 2018. Consultations were sent on September 22, 2018, to SHPO and FWS who both responded on October 12, 2018, that they had no concerns. FSA-850 was finalized with attachments of the consultation responses and signed by the preparer and reviewer on October 12, 2018. The FSA employee with loan approval authority recommended approval of the FSFL on October 13, 2018. The producer started site preparation on October 14, 2018. COC determined the producer met all FSA eligibility requirements and CCC-185D was approved on October 29, 2018.--*

Based on policy in this subparagraph, FSFL can be approved by COC, as applicable, according to subparagraph E.

Note: If deemed necessary by STC or the National Office, additional information may be requested, such as, but not limited to, site preparation documentation and/or invoices to assist with determining eligibility and environmental compliance.

11 FSFL's Where Any Delivery or Construction Has Begun Before Approval (Continued)

- structures determined by STC **not** suitable for honey storage.

40 Asphalt Flooring for FSFL Structures

A Asphalt Flooring

Documentation from a number of land-grant universities, in certain regions, has concluded that asphalt flooring:

- is acceptable for usage in storage pads for agricultural commodities
- has proven to be even more resilient than concrete in bunker silos and storage pads
- is successful **only** if constructed properly.

FSFL applicants requesting to use asphalt flooring in structures to store corn, oats, wheat, *--barley, and grain sorghum harvested as other than whole grain, must be advised by the County Office that:

- asphalt flooring **must** be constructed according to specific specifications in subparagraph B and 2-EQ, paragraph 81
- FSA is indemnified from any liability subsequently arising from the presence of asphalt or asbestos on the property--*

Note: If **not** constructed according to the specific specifications, FSFL approval and disbursement is **not** authorized.

- informed that DD concurrence is necessary before COC recommending or approving FSFL's with asphalt flooring.

B Specifications for Asphalt Flooring

COC's or designee will be responsible for monitoring construction to ensure that the asphalt flooring is constructed according to **all** the specifications in this subparagraph.

Note: STC **must** determine:

- the number of field visits the County Office shall make to monitor construction
- if the following specifications may be modified on a case by case basis.

The following specifications **must** be followed for asphalt flooring for all commodities:

- 6- to 12-inch, well-packed, crushed gravel base with drainage both inside and outside the footing to prevent water from getting under the asphalt
- 4 to 6 inches of high-grade asphalt, including 3 to 5 inches of fine material and 1 inch of very fine material

40 Asphalt Flooring for FSFL Structures (Continued)

B Specifications for Asphalt Flooring (Continued)

C Required FSFL Spot Checks of Asphalt Flooring

County Offices are **required** to periodically conduct collateral checks of all outstanding FSFL's according to paragraph 215. See subparagraph 215 B for additional requirements on asphalt flooring.

40 Asphalt Flooring for FSFL Structures (Continued)

D STC Action

For FSFL's storing FSFL commodities, STC's shall:

- if determined viable in the State:
 - advise County Offices that asphalt flooring is acceptable **only** if properly constructed
 - approve on a case-by-case basis, CCC-185D's for using asphalt flooring.

E COC and County Office Action

For FSFL's storing FSFL commodities, COC's and County Offices must:

- inform FSFL applicants requesting to use asphalt flooring in their structures:
 - that STC approval, on a case-by-case basis, is **required**
 - of construction specifications **required** for asphalt flooring according to subparagraph B
 - ***--FSA must be indemnified from any liability that may be associated with the presence of asphalt or asbestos on the property as provided by 2-EQ, paragraph 81--***
- submit each CCC-185 and CCC-185D to STC for approval **before** construction.

41 Renovating Structures and Preowned Facilities

A Renovating Facilities

Approval of CCC-185D for renovated structures **must** comply with all eligibility ~~requirements~~, including the environmental review. See 1-EQ, paragraph 43 regarding consultations and special limitations regarding structure which may be over 50 years old or located within historic districts--*

Existing structures for all FSFL eligible commodities are eligible for FSFL renovations as long as all requirements are met. Authorized loan terms for FSFL renovations are 3 and 5 years only.

Note: National Office, when a case is submitted for review, will determine if a longer term should be authorized.

Storage that is deteriorated to the point where it is, in STC or COC's opinion, no longer functional for storage purposes, will **not** be considered as existing storage capacity.

CCC-185D's may be approved for financing additions to, or modifications of, an existing storage facility with an expected useful life of at least the term of the loan, if COC determines that the modification is:

- necessary to renovate the storage capacity of the unit
- **not** for maintaining, repairing, or replacing worn out items, such as motors, fans, and wiring that do **not** have a useful life of at least the term of the loan
- for items, such as the following:
 - replacing cement or wooden floors
 - grain kit for flat storage walls and bulkheads, as needed
 - drying, aeration, or handling equipment
 - replacing any deteriorated bin walls or rings, roof panels, or other roofing material and related off-farm labor costs
 - refrigeration units.

41 Renovating Structures and Preowned Facilities (Continued)

B Preowned Structures

FSFL's may be approved for components of used or preowned structures that are purchased and/or moved to a new location. Allowable net cost items are items such as the following:

- purchase of the used or preowned structure
- site preparation
- foundation material and off-farm labor
- off-farm labor to erect the used or preowned structure
- doors, roof panels, and rings needing replacement
- dryer systems
- installation.

The producer is responsible for the costs to disassemble and move the structure.

FSFL's will not be used to purchase real estate. The producer is responsible for the cost of the underlying real estate.

42 Eligible and Ineligible Storage and Handling Trucks

A Eligible Storage and Handling Trucks

FSFL-financed storage and handling trucks **new or used** must be used for the purpose for which they were acquired for the entire FSFL term.

A storage capacity calculator worksheet is **not** required for eligible storage and handling truck FSFL requests.

Eligible storage and handling trucks, **new or used**, include the following, for FSFL purposes:

- cold storage trucks; a van or truck designed to carry perishable freight at specific temperatures. Cold storage trucks differ from simple insulated and ventilated vans which are commonly used for transporting fruit. Cold storage trucks can be ice-cooled or equipped with any variety of mechanical refrigeration systems.
- flatbed trucks; truck that has an open body in the form of a platform with no side walls for easy loading and unloading. These trucks can be categorized into different sizes which range from light, medium, or heavy duty, compact or full-size, or short and expandable beds.
- grain trucks; a piece of farm equipment * * * made to accommodate grain products and are traditionally truck chassis units with a mounted grain “dump” body where grain *--commodities are transported from a field to either a point of sale or a storage bin.

Note: Similar trucks are eligible to transport other eligible FSFL commodities, such as but not limited to, onions and potatoes.--*

- storage trucks with a chassis unit; commonly referred to as a box truck, box van or straight truck, is a truck with a cargo body mounted on the same chassis with the engine and cab.
- *--semi-trucks or truck tractors, any vehicle configuration consisting of a power-unit designed in combination to draw or pull a semi-trailer or farm machinery.

Notes: All laws and regulations on the use of agriculture vehicles must be followed; including but not limited to, any weight restrictions imposed by State or local authorities.

There is no limit on the number of storage and handling truck FSFL requests a producer may submit; however, COC or STC must review the business operation to ensure the storage and handling trucks are not being purchased for a commercial operation and/or purposes, according to the definition in Exhibit 2.--*

42 Eligible and Ineligible Storage and Handling Trucks (Continued)

A Eligible Storage and Handling Trucks (Continued)

Storage and handling truck FSFL's must:

- be \$100,000 or less
 - have a maximum of four axles with a gross weight rating of 60,000 pounds or less.
- * * *

Notes: The trailer is not to be included in the axle or weight limits and is considered handling equipment.

There is no limit on the number of storage and handling truck FSFL requests a producer may submit; however, COC or STC must review the business operation to ensure the storage and handling trucks are being purchased for use in the commercial farming operation.

Example: A producer submits a \$75,000 FSFL request for a new grain truck with a new trailer. The cost of the new grain truck is \$52,000 and the cost of the new trailer is \$23,000. Because the grain truck is less than \$100,000, and the GWR is less than 60,000 pounds, the FSFL is acceptable. There are no axle or weight limits for the trailer.

The National Office will review on a case by case basis:

- the need for an operation's FSFL request to exceed these limits when purchasing a storage and handling truck
- an FSFL request for a storage and handling truck older than 15 years old.

A FSA-850 must be completed for a storage and handling truck; however, a site visit is not required. See Exhibit 10 for an example of FSA-850 for a storage and handling truck FSFL request.

The new or used storage and handling truck must not have been purchased before the FSFL request (CCC-185) was submitted in the County Office, FSA-850 completed and CCC-185D approval provided.

State Offices **must** contact the National Office when there are questions about eligible and ineligible storage and handling trucks.

42 Eligible and Ineligible Storage and Handling Trucks (Continued)

A Eligible Storage and Handling Trucks (Continued)

Producers requesting a storage and handling truck FSFL **must**:

- properly register the truck with the applicable State MVA and all State and local MVA laws and insurance
- obtain a clear Certificate of Title
- use the FSFL collateral for at least the entire FSFL term
- *--provide a valid VIN for the truck--*
- obtain the required State emissions and vehicle inspection
- obtain full coverage (comprehensive and collision) automobile insurance policy which must be renewed annually throughout the term of the loan.

Notes: * * *

The automobile insurance policy must be provided to the County Office, according to paragraph 98.

See paragraph 98 for State supplemental policy requirements.

For questionable situations, consult with the regional OGC and/or an FSA employee with loan approval authority to ensure that registration and/insurance requirements are in accordance with all State and local MVA laws.

The required lien search fees and UCC-1 filings are paid by CCC.

FSFL's for storage and handling trucks have different requirements for maximum term of the loan. See subparagraph:

- 59 B for FSFL microloan terms
- 60 D for regular FSFL terms.

The **new or used** equipment and handling components must **not** have been purchased before CCC-185 was submitted in the County Office **and** CCC-185D is approved/disapproved.

Note: A down payment made to the dealer or vendor for the equipment does not mean the equipment was purchased.

Along with the FSFL request, a dated statement with the intent to purchase, or sales contract/order, must be provided and must include the location and description of the equipment and handling components.

A storage calculator worksheet is **not** required for handling equipment only FSFL requests.

--An environmental review for NEPA compliance must be completed for handling equipment FSFL requests; however, a site visit is not required, unless there will be ground disturbance for any of the equipment installation related infrastructure, or there are extraordinary circumstances as provided by 1-EQ, paragraph 25. Ground disturbance includes removal of vegetation as well as action related to running utility lines. See Exhibit 10 for an example of FSA-850 for a handling equipment FSFL.--

State and County Office employees must be allowed to inspect the equipment and handling components using CCC-295A or CCC-295C when necessary, before approval. The inspection results will assist with determining a fair and reasonable value, according to subparagraphs 122 J and K.

Part 3 Determining Storage Need and Applicable Waivers

47 Storage Need Self-Certification

A Self-Certification Storage Need for All Eligible Commodities

The provision in this paragraph applies to producers of **all** eligible FSFL commodities who have applied for a Microloan. See paragraph 59.

Producers may self-certify to the storage capacity need when the aggregate outstanding balance is equal to \$50,000 or less. A written storage need waiver request from the producer is **not** required at the time of loan request and during the term of the FSFL.

Note: For the producer to be eligible to self-certify to the storage need, County Offices must verify the producer's aggregate outstanding FSFL balance does not exceed \$50,000.

B Self-Certification Calculator Worksheet

The storage need self-certification, must be:

- completed on a worksheet calculator available at <http://www.fsa.usda.gov/programs-and-services/price-support/Index>
- filed in the producer's FSFL folder.

The self-certified information will be used by STC's and COC's when reviewing the FSFL request to determine production reasonableness for the storage capacity need.

SED's may approve State Office developed storage capacity worksheet calculators for determining the FSFL storage structure need. National Office concurrence is **not** required.

Important: For all storage structure FSFL's, the:

- storage capacity calculator worksheet **must** be attached to CCC-185
- producer **must** sign and date the storage capacity calculator worksheet certifying to the requested storage need.

Notes: In most instances, using the producer's actual yield and production records for the eligible commodity, provides more accurate information for calculating the producer's storage need.

According to 2-CP, subparagraph 322 C, State and County Offices may spot check any producer **not** identified on the national producer selection list if there is reason to question the producer's compliance with any program provisions. The National Office will annually determine if additional producers should be added to the national producer selection list for compliance.

48 Determining Storage Need for Eligible Commodities Storing 2 Years of Production

A Storage Need Determinations

When an applicant is not self-certifying to the storage need as provided in paragraph 47, County Offices shall calculate the FSFL storage need using guidelines in this paragraph. This requirement applies only to FSFL requests that are to build or increase the size of storage structures.

Storage capacity calculators are located on PSD's web site at <http://www.fsa.usda.gov/programs-and-services/price-support/Index>

SED's may approve State Office developed storage capacity worksheet calculators for determining the FSFL storage structure need. National Office concurrence is **not** required.

STC's may establish storage specifications for commodities that can be properly stored for 2 years for their State using STC knowledge, NIFA, land-grant universities, available ARS publications, and extension guidelines.

B General Statements on Calculating Acreage

A 3-year average acreage **must** be calculated for each FSFL commodity that requires storage at the proposed location, from the producer's share of up to the 3 most recent FSA-578's.

Note: County Offices **must** use FSA-578's for determining the average acreage of each eligible commodity.

A reasonable 1-year acreage and yield projection may be used instead of an average for any the following:

- newly acquired farms
- FSFL crops being grown for the first time
- cases where crop rotations adversely affect the acreage production
- cases where prevented planting or disasters adversely affect the average production.

Notes: Follow 2-CP policy for failed and prevented planting.

Producers may request an STC waiver to allow prevented planted acres that do **not** fall within the 2-CP failed and prevented planting guidelines.

For questionable situations, State Offices shall contact Toni Williams by e-mail to toni.williams@wdc.usda.gov.

48 Determining Storage Need for Eligible Commodities Storing 2 Years of Production (Continued)

B General Statements on Calculating Acreage (Continued)

When a farming operation reorganizes and the **same** individuals or entities continue to operate the farm, the cropping history applicable to the previous operation may be used.

Late-filed FSA-578's **must** be filed according to 2-CP and a late fee may be paid for each crop year FSA-578 was filed late; however, State Offices may request a DAFP waiver according to paragraph 25 when late-filed FSA-578's do **not** meet the requirements in 2-CP, paragraph 21. STC's can approve FSFL request of \$100,000 or less. Other cases require a DAFP waiver.

For FSFL's for structures to store silage, use the average acreage harvested as silage.

For FSFL's for structures for hay, use **only** the hay acreage from established farms.

STC's are authorized to determine statewide, predominant use (intended vs actual) for hay acreage.

C Basic Information on Grain or Silage Yield Calculation

The same unit of measure for yields **must** be used for each commodity.

COC **must** determine the yield used for the storage calculation to be reasonable. The following are possible options for yields:

- MAL yields established according to 8-LP
- crop insurance proven production yields
- proof of actual production history provided by applicant.

48 **Determining Storage Need for Eligible Commodities Storing 2 Years of Production (Continued)**

D Formula for Eligible Commodities Storing 2 Years of Production

Applicants shall demonstrate a need for storage capacity as determined by the following formula.

Step	Action	
1	Determine applicant and applicable farm operation from CCC-902.	
2	Determine up to a 3-year average acreage for each FSFL commodity, as provided in subparagraph B, using the applicant's share of crop on each tract and farm.	
3	Multiply each average acreage times the applicable crop yield as provided in subparagraph C and total. Multiply the result by 2.	
4	Deduct existing storage capacity (as defined in Exhibit 2) owned by the applicant for the applicable crops.	
5	IF result from step 4 is...	THEN...
	greater than zero	the applicant is eligible for the needed capacity, not to exceed the producer's proposed capacity or capacity to be upgraded.
	less than zero	notify the applicant that they are ineligible. Provide appeal rights according to 1-APP.
	greater than zero, but less than proposed storage capacity	see paragraph 54.

49 Determining Storage Need for Hay and Biomass**A Storage Need Determinations**

Applicants **must** show a need for hay or renewable biomass storage as determined by the formula in this paragraph.

Before STC can approve an application for a renewable biomass FSFL, the applicants **must** provide a contract or letter of commitment with the company or facility that will purchase the applicant's biomass commodity.

Note: The contract or letter of commitment **must** be for at least 1 entire production and marketing cycle.

When an applicant is not self-certifying to the storage need as provided in paragraph 47, County Offices shall calculate the FSFL storage need using guidelines in this paragraph.

Storage capacity calculators are located on PSD's website at **<http://www.fsa.usda.gov/programs-and-services/price-support/Index>**.

SED's may approve State Office developed storage capacity worksheet calculators for determining the FSFL storage structure need. National Office concurrence is **not** required.

B Hay and Biomass Acreages

A 3-year average acreage **must** be calculated for hay or renewable biomass storage using up to the 3 most recent FSA-578's.

See subparagraph 48 B for general information on calculating acreage.

C Hay and Biomass Yields

The unit of measure for hay and renewable biomass commodities will be in tons.

If State and County Offices are unable to determine an annual yield for any of the hay or renewable biomass commodities with the assistance of NIFA, land-grant universities, or available ARS publications, contact PSD.

49 Determining Storage Need for Hay and Biomass (Continued)

D Formula for Hay and Biomass Storage

An applicant's needed storage can be determined with NIFA and land-grant university assistance or with the worksheet in Exhibit 20.

Applicable laws, regulations, construction codes, and zoning restrictions may affect the size of a facility and where it can be located.

The applicant shall provide the County Office with either of the following:

- dimensions of the facility to convert into cubic feet of available space
- capacity of the proposed structure in pounds or tons from the contractor constructing the storage facility.

COC's shall use either of the following conversion factors and the worksheet in Exhibit 20 to determine the capacity of a proposed facility:

- 1 pound of hay requires 0.125 cubic feet of space
- 1 short ton of hay requires 250 cubic feet of space.

Note: These factors shall be used to determine the storage capacity of a structure **unless** the applicant supplies the County Office with detailed documentation of a different conversion factor.

The following publications may also assist State and County Offices in determining the capacity of a proposed structure:

- Oklahoma State University publication BAE-1716, titled "Round Bale Hay Storage", available at <http://osufacts.okstate.edu/docushare/dsweb/Get/Document-1772/BAE-1716web.pdf>
- Ohio State University publication, titled "Worksheet for Sizing Hay Storage Pads and Calculating FGD Needs", available at <http://ohioline.osu.edu/aex-fact/pdf/0332.pdf>
- Iowa State publications available at http://www.public.iastate.edu/~mwps_dis/mwps_web/hy_plans.html.

49 Determining Storage Need for Hay and Biomass (Continued)**D Formula for Hay and Biomass Storage (Continued)**

Applicants shall demonstrate a need for storage capacity as determined by the following formula. See Exhibit 20 for an example of the need calculation.

Step	Action	
1	Determine applicant entity and applicable farm operation from CCC-902.	
2	Determine up to a 3-year average acreage for each FSFL commodity, as provided in subparagraph B, using the borrower's share of crop on each tract and farm.	
3	Multiply each average acreage times the applicable crop yield as provided in subparagraph C and total. Multiply the result by 2.	
4	Deduct existing storage capacity (as defined in Exhibit 2) owned by the applicant, for the applicable crops	
5	IF result from step 4 is...	THEN...
	greater than zero	the applicant is eligible for the needed capacity, not to exceed the applicant's proposed capacity or capacity to be upgraded.
	less than zero	notify the applicant that they are ineligible. Provide appeal rights according to 1-APP.
	greater than zero, but less than proposed storage capacity	see paragraph 54.

50 Determining Storage Need for Eligible Commodities Storing One Year of Production**A Storage Need Determinations for Eligible Perishable Commodities**

Subparagraph 33 C provides a complete list of eligible perishable commodities.

Applicants **must** show a need for the cold storage capacity as determined by the following formula and information in this paragraph.

The cold storage need will be determined based on production from 1 year.

The quality of all eligible perishable commodities can only be maintained for a limited period of time. Cold storage facilities can extend this period of time and maintain the quality of eligible perishable commodities.

See Exhibit 21 for a worksheet that can be used to compute the storage need requirement and capacity of a proposed structure for eligible perishable commodities.

When an applicant is not self-certifying to the storage need as provided in paragraph 47, County Offices shall calculate the FSFL storage need using guidelines in this paragraph.

Storage capacity calculators are located on PSD's website at **<http://www.fsa.usda.gov/programs-and-services/price-support/Index>**.

SED's may approve State Office developed storage capacity worksheet calculators for determining the FSFL storage structure need. National Office concurrence is **not** required.

50 Determining Storage Need for Eligible Commodities Storing One Year of Production

A Storage Need Determinations for Eligible Perishable Commodities (Continued)

County Offices may determine the need for cold storage by using 1 of the following:

- the basic formula storage calculation according to subparagraph D
- verifiable information to determine a 3-year average that may include, but is **not** limited to:
 - actual acreage yields used to produce the eligible commodity, by type or in aggregate

Notes: For aquaculture, actual yield (not acreage).
For other animal-type production, per producing animal.

- actual production records, by crop or aggregated by categories
- records of sales, volume sold, or other business records that can be extrapolated to demonstrate cold storage need

Example: Farmers market sales may **not** be broken out by commodity, but controlled by stall space or vehicle size.

- production shares as part of a community-supported agriculture business.

Notes: In some instances, using the producer's actual yield for the eligible perishable commodities and production records provides more accurate information for calculating the producer's cold storage capacity need.

Producers may request the storage need waiver, in writing, according to subparagraph 53 B. The waiver determination **must** be maintained in the FSFL folder and documented in STC or COC meeting minutes, based on the requested FSFL amount.

A COC-determined 1 year-acreage and yield projection may be used instead of an average for any of the following:

- newly acquired farms
- eligible perishable commodity being grown for the first time
- cases where disasters adversely affect the average production of the eligible perishable commodity.

50 Determining Storage Need for Eligible Commodities Storing One Year of Production (Continued)**B Eligible Perishable Commodities' Acreage**

A 3-year average acreage **must** be calculated for eligible perishable commodities' storage from the producer's share of up to the 3 most recent FSA-578's.

See subparagraph 48 B for general information on calculation of acreage.

C Eligible Perishable Commodity Yields

COC's:

- **must** determine a reasonable yield for each eligible perishable commodity included on CCC-185 for a cold storage facility
- may review and use STC NAP yield determinations
- may use the following resources in determining a reasonable yield:
 - ARS publications
 - detailed producer records
 - Internet
 - land-grant university located in the State or neighboring State
 - NIFA in the State
- **must** use the same unit of measure for yields for each commodity.

50 Determining Storage Need for Eligible Commodities Storing One Year of Production (Continued)

C Eligible Perishable Commodity Yields (Continued)

Contact the Cooperative Extension Service at the State's land-grant university, or where relevant a local laboratory, to assist with reasonable yields and determining needed storage capacity for eligible perishable commodities in situations where that information **cannot** be reasonably furnished by the applicant.

Notes: State Offices can contact PSD for assistance, if they are unable to find a yield for a specific eligible fruit or vegetable.

Request National Office guidance when the producer's operation is unusual or if the producer is seeking to increase the operation's storage capacity to support a growing demand. DAFP review of the situation may result in waivers of certain FSFL provisions that restrict the producer's eligibility for FSFL.

Agriculture departments in each State have identified specific units of measure for eligible perishable commodities sold in their State. To determine the unit of measure that applies to a specific commodity in a particular State, contact the State's Department of Agriculture or check FSA's NCT web site.

To access NCT, go to <http://fsaintranet.sc.egov.usda.gov/fsa/applications.asp> to access the FSA Intranet page. Under "Applications Directory", CLICK "G-O", scroll down to "NCT – National Crop Table", which is listed by crop years, and click on the applicable grouped years to display the NCT - Main Menu. Follow the search options to search by year, crop, and State.

50 Determining Storage Need for Eligible Commodities Storing One Year of Production (Continued)

D Formula for Eligible Perishable Commodity Cold Storage

The following **must** be determined **before** defining the size of refrigerated storage needed:

- volume of product to store
- produce containers (pallet bins, boxes, bulk)
- volume **required** per container
- aisle space needed (mechanical or manual operation)
- lateral and head space
- available site space.

Note: The area of a structure **required** to house eligible handling equipment and space **required** to move the storage containers are eligible, in addition to the cold storage space.

Example: The applicant stores pumpkins in 1,000 pound pallet boxes. Forklifts are **required** to move the pallets. Space for the driving lanes can be included in the cold storage request.

Kansas State University, Cooperative Extension Service publication MF-1039, titled “Storage Construction, Fruits & Vegetables”, may assist County Offices in determining the cold storage needed by an applicant.

Note: Because MF-1039 is no longer available online, State Offices may request a copy from PSD by e-mail to **toni.williams@wdc.usda.gov**.

Capacity of the proposed structure can be obtained from the manufacturer or contractor constructing the storage facility. The applicant should provide this information to the County Office.

50 Determining Storage Need for Eligible * * * Commodities Storing One Year of Production (Continued)

D Formula for Eligible Perishable Commodity Cold Storage (Continued)

See Exhibit 21 for a worksheet that can be used to compute the storage need requirement and capacity of a proposed structure for eligible perishable commodities.

Applicants **must** show a need for the cold storage capacity as determined by the following formula and information in this paragraph. See Exhibit 21.

Step	Action	
1	Determine applicant entity and applicable farm operation from CCC-902.	
2	Determine the 3-year average acreage for each FSFL commodity as provided in subparagraph B.	
3	Multiply each average acreage times the applicable crop yield, determined to be reasonable by COC, and total the result.	
4	Deduct existing storage capacity, owned by the applicant, for the applicable crops.	
5	IF result from step 4 is...	THEN...
	greater than zero	the applicant is eligible for the needed capacity, not to exceed the applicant's proposed capacity or capacity to be upgraded.
	less than zero	notify the applicant that they are ineligible. Provide appeal rights according to 1-APP.
	greater than zero, but less than proposed storage capacity	see paragraph 54.

Note: The cold storage need requirement will be determined based on previous production for 1 year, **unless** a storage waiver is requested according to paragraph 53.

51 Determining Storage Need for Honey

A Storage Need Determination

An applicant's honey storage need can be determined with the assistance of NIFA, land-grant universities, ARS publications, and NASS reports.

Applicable laws, regulations, construction codes, and zoning restrictions can affect the size of a facility and where it can be located.

The following **must** be determined before defining the size of honey storage needed:

- aisle space needed
- honey containers
- lateral and head space
- volume of product to store
- volume **required** per container
- available site space.

Note: Honey stored in jars (processed) is considered ineligible for FSFL storage.

B Basic Information on Yield Calculation for Honey

COC's **must** determine whether the applicant's production and yield from subparagraph C is reasonable. COC's shall use the following resources in determining a reasonable yield:

- ARS publications
- land-grant university located in the State or neighboring State
- NASS reports
- NIFA in the State
- detailed producer records for past 3 years.

If the applicant participated with NAP, documentation may be provided to assist in determining the applicant's honey production.

County Offices may review the NASS Honey Annual Report that contains the number of colonies producing honey, yield per colony, honey production, average price, price by color class, and value by State in the U.S.

The latest NASS Honey Annual Report is available at
<http://usda.mannlib.cornell.edu/MannUsda/viewDocumentInfo.do?documentID=1191>.

51 Determining Storage Need for Honey (Continued)

B Basic Information on Yield Calculation for Honey (Continued)

The honey storage need requirement will be determined based on production for 1 year, and the honey storage need will be determined to allow the storage of 1 year's honey production.

If the capacity of the proposed structure can be obtained from the construction contractor of the honey storage facility, the applicant shall provide the information to the County Office.

C Formula for Honey Storage

Applicants **must** show a need for the honey storage capacity as determined by the following formula.

Step	Action
1	Determine the average of the applicant's share of honey production for the most recent 3 years of honey requiring storage at the proposed location. Note: COC shall determine whether the average annual production is reasonable.
2	Determine honey storage space needed to store 1 year's honey crop with the assistance of NIFA, land-grant university, or ARS publications.
3	Determine capacity of proposed structure using the worksheet in Exhibit 22, or other verifiable documentation. Note: All documentation used must be verifiable and kept in the FSFL folder.
4	Compare capacity of proposed honey facility with storage needed to determine whether applicant is eligible for additional storage.

52 Determining Storage Need for Maple Sap and Milk**A Maple Sap Storage Need Determination**

The quality of maple sap can only be maintained for a limited period of time. Maple sap bulk tank facilities can extend this period of time, but in most cases a maple sap bulk tank facility will not maintain the quality of maple sap for longer than 30 calendar days.

The maple sap bulk tank storage need will be determined as based on production for 1 season divided by the average number of weeks of sap production.

A useful web site to assist County Offices with determining maple sap bulk storage need can be found at <http://www.uvm.edu/~pmrc/jones.pdf>.

To account for production expansion, and on a case-by-case basis, STC or COC may authorize no more than a 50 percent increase in the maple sap bulk tank facility. The producer must submit a written request and the increase must be documented in the STC or COC minutes.

Example: The maple sap starts running on February 16 and ends on March 30 which equals 42 days divided by 7 days = 6 weeks of maple sap production. The producer has 10,000 taps that will produce, on average 10.75 gallons of maple sap through the season.

$10,000 \times 10.75 = 107,500$ gallons of maple sap divided by 6 weeks producing an average of 17,918 gallons of maple sap per week in storage $\times 1.5$ percent = maximum eligible storage tank for loan would have a capacity no greater than 26,877 gallons.

Follow guidance in paragraph 51 for maple sap storage need calculations.

52 Determining Storage Need for Maple Sap and Milk (Continued)

B Milk Storage Need Determination

Applicants must show the need for the milk bulk tank capacity as determined by the following formula. Applicants may be required to provide verifiable records for COC to determine milk production for the requested storage. See Exhibit 23 for additional guidance.

Step	Action
1	The applicant may provide milk quantity from the highest milk shipment receipt within the past 24 months. Note: COC will determine if the milk pick up is daily or intermittent.
2	*--COC will determine the milk produced on an individual day and multiply results by 3. For every other day milk pick-up, multiply results by 1.5.--*
3	Subtract the existing milk storage from the result of Step 2 to determine additional milk storage needed. Note: If the applicant has existing milk bulk tank storage, the storage must be subtracted from the milk storage need unless the new bulk tank is being purchased to replace the existing milk bulk tank.

COC's may:

- determine if the applicant's production/yield for milk is reasonable using guidance above
- use practical knowledge of the producer's dairy business when determining a reasonable yield.

A COC determined reasonable yield based on the daily milk production per animal and the average number of animals milked per day may be used to determine the average for any of the following:

- newly acquired farms
- eligible milk being produced for the first time
- cases where disasters adversely affect the average production.

52 **Determining Storage Need for Maple Sap and Milk (Continued)**

B Milk Storage Need Determination (Continued)

The capacity of the milk bulk tank can be obtained from the manufacturer of the bulk tank. The applicant shall provide this information to the County Office, if requested.

When necessary, the milk bulk tank can be upgraded to the next available tank size from the manufacturer.

Example: The applicant provides a milk shipment indicating the need of a bulk milk tank for 20,000 lbs. of milk production, or 2,325 gallons. The next available bulk milk tank size is 2,500 gallons, or 21,500 lbs. Therefore, the upgrade for the bulk milk tank size of 2,500 gallons is eligible.

Note: The above example provides the industry average conversion of 8.6 lbs. per gallon.

53 Storage Need Waivers

A Storage Need Waiver for All Commodities, Except for Eligible Perishable Commodities

The provisions in this subparagraph apply to producers who have **not** previously filed FSA-578's.

STC's may authorize:

- the acceptance of actual yield and production records to determine a 3-year average
- on a case-by-case basis, a waiver of late-filed fees when accepting late-filed FSA-578's for FSFL requests of \$100,000 or less.

Notes: The producer **must** request the storage need waiver in writing. The waiver determination **must** be maintained in the FSFL folder and documented in STC or COC meeting minutes.

STC has authority to establish a more restrictive policy and may redelegate authority to COC only for provisions provided in this subparagraph.

County Offices may request additional information from the producer to verify the reported yield and production.

Notes: See subparagraph B for eligible perishable commodity storage need waiver provisions.

In questionable situations, State Offices shall contact Toni Williams by e-mail to toni.williams@wdc.usda.gov.

B Storage Need Waiver for Eligible Perishable Commodity Producers

The provisions provided in subparagraph A may apply to eligible perishable commodity producers with **both** of the following:

- an aggregate outstanding FSFL balance of \$100,000 or less
- a minimum of 3 different types of eligible perishable commodities.

Note: The 3 different eligible perishable commodities may be butter, grapes, and oranges.

54 Ineligible Space and Larger Capacity

A Ineligible Space in a Flat Storage Structure

When a storage structure has space that is **not** used primarily for eligible commodity storage, such as office or marketing space, compute the maximum FSFL amount, as follows.

Step	Action
1	Determine a factor for eligible space by dividing the square footage that is primarily used for eligible commodity storage by the total square footage of the building.
2	Determine the total net cost of the building.
3	Multiply the result from step 2 times .85 and multiply that result times the factor from step 1.

Example: Applicant proposes to build a 75,000 square foot flat storage building. Net cost is \$75,000. Eligible storage space is 74,000 square feet. Factor for eligible space is .99 (74,000 divided by 75,000). The maximum FSFL amount is \$63,112.50 (\$75,000 times .85 times .99).

B Larger Capacity Than Needed

When a storage structure has a larger capacity than the applicant's needed capacity, the net cost shall be prorated and the maximum FSFL amount computed as follows.

Step	Action
1	Divide eligible net cost by the bu. of capacity.
2	Multiply per bu. cost times bu. of capacity for which the applicant is eligible.
3	Multiply result times .85.

Example: Applicant proposes to build a 60,000 bu. storage bin. Net cost is \$75,000. Eligible storage need is 50,000 bu. Net cost per bu. is \$1.25 (\$75,000 divided by 60,000 bu.). Eligible net cost is \$62,500 (\$1.25 times 50,000 bu.). Maximum FSFL amount is \$53,125 (\$62,500 times .85).

55, 56 (Reserved)

Part 4 FSFL Policies and Application Processing**Section 1 FSFL-Making Policies****57 Partial and Final Disbursement Options****A FSFL Disbursement Policy**

So that borrowers can facilitate purchasing and constructing a storage facility, acquiring drying and handling equipment, and acquiring storage and handling trucks, 1 partial and 1 final principal disbursement are available. A partial disbursement is **not** required.

At the time of application, in CCC-185, item 3D, applicants indicate whether they are requesting 1 or 2 disbursements. This election **cannot** be changed after FSFL has been approved in DLS.

B Partial Disbursements

One partial disbursement:

- may be requested by the borrower when a portion of the FSFL project has been acquired or completed
- will be commensurate with the amount of the approved FSFL project that has been completed, supported by documentation and inspected, if applicable
- can be disbursed **up** to the maximum amount of 50 percent of the projected and approved total FSFL amount, **not** to exceed \$250,000.

If the applicant requests the partial disbursement:

- there will be two FSFL's with 2 installment payments due each year
- a separate CCC-186 and closing in DLS will be **required** for the partial and final FSFL amounts
- only 1 **manual** CCC-185 will be required for the partial and final FSFL amounts.

57 Partial and Final Disbursement Options (Continued)

B Partial Disbursements (Continued)

County Offices shall:

- assist producers with completing 1 CCC-185 for the total FSFL amount requested
- enter the partial and final FSFL request in DLS following instructions in 2-FSFL, paragraph 31
- see paragraph 187 for FSFL security requirements for FSFL's with partial and final disbursements
- see paragraph 58 for application fees for FSFL's with partial and final disbursements
- ensure all CCC-185D conditions are met before partial disbursements are disbursed
- ensure a CCC-186 is properly signed and dated for the partial disbursement.

58 FSFL Fees

A County Office Action

County Offices shall:

- charge FSFL applicants a nonrefundable application fee of \$100 per borrower per FSFL
- collect the application fee when CCC-185 is submitted.

Note: The application fee is necessary to cover the costs to CCC for making FSFL's. These costs include the following:

- credit reports
- lien searches
- UCC-1 filings.

If in CCC-185, item 3D the applicant elects the partial and final disbursement option, only 1 application fee is required even though there will be 2 separate FSFL's disbursed.

A spouse is **not** required to pay a separate FSFL application fee if required by State law to sign the FSFL security documents, and is **not** an eligible producer on a farm whose production is used to determine FSFL eligibility.

The application fee for assumptions **must** be collected at the time the assumption is requested.

B Multiple Borrowers

A husband and wife would be considered 2 borrowers and each charged an application fee **if** both are receiving farm program payments on the farm whose production is used to determine FSFL eligibility.

Note: If a spouse does **not** receive a share of the farm program payment and is only signing CCC-186 because of a State or STC requirement, only 1 fee is required.

Farming entities, **excluding** joint ventures that are paid under one TIN, will be considered 1 applicant and charged 1 application fee.

58 FSFL Fees (Continued)

C Fees for Filing and Recording UCC's, Instruments, and Other Transactions

Filing and recording fees shall be paid according to the following.

IF the transaction is for...	THEN the fee is paid by...
a collateral lien search	CCC.
a credit report	
fees charged by a local or State municipality for expenses associated with a real estate lien search for CCC-297 (Exhibit 68) purposes	
filing UCC-1	
filing UCC-1 as a fixture filing	
continuation of UCC-1 and UCC-1 as a fixture filing using UCC-3	
--motor vehicle lien search, lien filing fee, and recording fees--	
all other instrument filing and recording transactions related to a lien on real estate used to secure FSFL	the borrower.
fees for motor vehicle emission inspection and other required state inspections	
attorney fees related to a lien on real estate used to secure FSFL	
fees charged by superior lienholders to subordinate or release collateral to CCC	
filing a discharge of CCC-297	
filing a release or discharge of a real estate lien, such as a mortgage	
filing and recording a subordination agreement related to a lien on real estate used to secure FSFL	
real estate lien, deed, or title search related to a lien on real estate used to secure FSFL	
recording CCC-297	
terminating UCC-1 using UCC-3	

See paragraph 302 for assistance when processing and ordering checks for filing fees as displayed in this table.

59 FSFL Microloan Provisions**A FSFL Microloan Amount**

The maximum amount of an FSFL microloan shall **not** exceed an aggregate outstanding FSFL balance of \$50,000. Therefore, if a producer currently has an outstanding FSFL in the amount of \$20,000, the producer is eligible for an FSFL microloan of no more than \$30,000.

State and County Offices are required to verify in DLS, **the aggregate outstanding FSFL balance does not** exceed \$50,000 at the time of loan approval **and** disbursement.

A nonrefundable \$100 application fee per borrower is required per FSFL microloan request.

--A financial analysis is required for all FSFL microloan requests except when the loan will be secured with an Irrevocable Letter of Credit.--

*** * ***

Partial and final disbursements are applicable to an FSFL microloan.

The producer must select on CCC-185, item 3 B whether the FSFL request is for an FSFL microloan. State and County Offices must **not** assume the request is an FSFL microloan.

Refer to paragraph 60 for additional information on loan amount. The variances for an FSFL microloan versus regular FSFL's are the following:

- down payment requirement of 5 percent
- availability to self-certify to the storage need
- the aggregate outstanding loan amount threshold of \$50,000.00.

59 FSFL Microloan Provisions (Continued)**B FSFL Microloan Terms**

The FSFL microloan shall have a maximum term of 3, 5, or 7 years for **new** and 3 or 5 years for **used** storage structures, equipment and storage and handling trucks, from the date of the execution of CCC-186.

STC has authority to establish policy when determining whether new and used equipment may be listed on one FSFL request or separate requests.

The STC authority must be documented in the STC regular meeting minutes.

Example: John Clark submitted one FSFL request in the amount of \$46,000, for a new portable grain vacuum and used batch dryer. The maximum loan term for the **new** portable grain vacuum is 7 years. The maximum loan term for the **used** batch dryer is 5 years. Because both eligible FSFL components are on the same FSFL request, the maximum loan term is 5 years (using the maximum loan term for used equipment).

Notes: Based on authorization provided to STC's in this subparagraph for determining if new and used equipment can be included on one FSFL request, the loan term must be limited to the eligible FSFL component with the lowest term.

The STC authorization and example also applies to a regular FSFL (maximum loan amount \$500,000) when a new and used storage structure, handling equipment or storage and handling truck FSFL request is received.

All FSFL-financed equipment, structures and storage and handling trucks (new or used) must have a useful life for at least the FSFL term.

An FSFL microloan should be made available to producers of **all** commodities, provided that eligibility requirements are satisfied.

59 FSFL Microloan Provisions (Continued)**C Down Payment**

A minimum down payment for an **FSFL microloan** shall be:

- 5 percent of the eligible net costs
- made by the applicant to the contractor, seller, supplier, or vendor.

Example: The producer's FSFL microloan request was approved for \$50,000. Supported by a dated sales contract, the net cost of the equipment included on the FSFL microloan request is \$53,000. The minimum down payment of 5 percent of \$53,000, is \$2,650. Although, the total net cost of the equipment is \$53,000, and the dated sales contract indicates \$2,650 was paid to the supplier, the FSFL microloan maximum amount of \$50,000, will be disbursed to the producer. The difference of \$350 must be paid by the producer at or prior to closing.

An FSFL disbursement calculator for the microloan **must** be completed and filed in the producer's FSFL folder before the FSFL microloan is disbursed.

See paragraph 61 for other provisions of down payment requirements.

D Monthly Interest Rate

The interest rate for FSFL microloans are the same as the interest rate for a regular FSFL. See paragraph 62.

E Processing Microloans

See paragraph 47 for guidance on self-certification by the applicant. All other processing and security requirements for FSFL microloans are the same as a regular FSFL.

60 FSFL Amount and Terms (Except Microloan)**A Maximum Amount**

The maximum amount of each FSFL shall **not** exceed \$500,000. A borrower may have multiple FSFL's. Each separate FSFL **must** meet all eligibility, financial and security requirements for FSFL.

Only one FSFL is allowed on a stand-alone structure. Therefore, if 2 adjoined storage structures are built, only one FSFL is authorized for the eligible components and a lien will be placed on the adjoined structures.

Note: See Exhibit 2 for a definition and example of stand-alone structure.

B Determining FSFL Amount

The principal amount of any FSFL shall be 85 percent or less of the net cost of the applicant's needed storage, drying and/or handling equipment, **not** to exceed \$500,000 for each FSFL.

*--Each borrower signing CCC-186 is jointly and severally liable for the entire FSFL amount.

Grants and loans from any Federal Government Agency for the same purpose as the FSFL loan shall be subtracted from the FSFL amount before disbursement. See paragraph 63.--*

C Net Cost

[7 CFR 1436.9] The cost on which FSFL shall be based is the net cost of the following:

- *--items listed in paragraphs 36 through 43--*
- accessories
- eligible facility
- services to the applicant after discounts and rebates.

Note: STC may establish a maximum per bu. or per unit of measure for net cost.

60 FSFL Amount and Terms (Except Microloan) (Continued)**D Maximum Term**

[7 CFR 1436.7] The FSFL maximum term shall be 3, 5, 7, 10, or 12 years from the date of the execution of CCC-186 based on total FSFL principal as follows if:

- \$100,000 or less, 3, 5, 7-year FSFL term **only**
- \$100,000.01 to \$250,000, 3, 5, 7, or 10-year FSFL term
- \$250,000.01 to \$500,000, 3, 5, 7, 10, or 12-year FSFL term.

Used storage structures, equipment, and storage and handling trucks shall have a maximum term of 3 or 5 years from the date of the execution of CCC-186.

The term **must** be specified when CCC-185 is submitted, because the required financial analysis **must** take into account the annual installment payment amount.

Applicants may select the term in CCC-185, item 3C based on the amount requested.

After FSFL is approved in DLS, the term or disbursement type **cannot** be changed unless the final FSFL amount is changed because the project cost was more than estimated and an increase is requested by the applicant. A decrease in the FSFL amount may be necessary, if after reviewing acceptable documents, such as, but not limited to, receipts and/or sales invoices and it is determined the FSFL amount should be decreased.

Based on whether the FSFL amount will be decreased or increased, a different term category may be required. For questionable situations, contact the National Office.

STC has authority to establish policy when determining whether new and used equipment may be included on one FSFL request or separate requests. If the STC approves the use of one request, the loan term must be limited to the eligible FSFL component with the lowest term.

See Exhibit 24 for a quick guide on loan types, down payments, maximum loan amount and terms.

61 Down Payment**A Minimum Down Payment**

[7 CFR 1436.10] A minimum down payment shall be:

- 15 percent of the eligible net costs
- the difference between the net cost of the storage facility, storage truck and/or storage handling and process equipment and the amount of FSFL determined by paragraph 60
- made by the FSFL applicant to the contractor, dealer, seller, supplier or vendor **before** the final FSFL disbursement.

Note: See subparagraph 59 C for the minimum down payment requirement applicable to FSFL microloan and provisions.

B Allowances

The down payment may be the proceeds of a loan from a nongovernment source. FSA employees with loan approval authority shall ensure that down payments obtained from nongovernment loans are accounted for when determining the applicant's ability of repaying FSFL.

61 Down Payment (Continued)

C Exclusions

The down payment shall **not** include any of the following:

- deferred payment
- discount
- grant or loan proceeds from any Government Agency (paragraph 63)
- post-dated check
- promissory note to the supplier or contractor
- rebate.

62 Interest Rate**A FSFL Interest Rate**

[7 CFR 1436.12] The interest rate for FSFL shall be the rate:

- equivalent to Treasury securities of a comparable term in effect during the month of the initial FSFL **approval** by STC or COC, or FSA delegated official for loans with an aggregate outstanding balance of \$25,000.00, or less
- in effect for the FSFL term
- the same for a partial and final disbursement.

B Monthly Announcements

Interest rates may be different for the 3, 5, 7, 10, or 12-year terms and will be:

- updated monthly
- published on FSA's Internet web site
- posted in County Offices
- automatically downloaded to the FSFL interest rate table in DLS.

63 FSFL Policy on Other Grants and Loans

A Duplication and Reporting of Benefits

In general, and subject to program regulations and statutory authority, programs administered by FSA do **not** allow for duplicating benefits.

In an effort to ensure that there is no possible duplication of benefits, all financial assistance from all sources **must** be identified **before** the partial or final FSFL is disbursed.

B FSFL's

For FSFL purposes, Federal Government grants or loans **must** be disclosed to the County Office.

The following table provides additional guidance.

IF the County Office is ready to make the final FSFL disbursement and the borrower...	THEN the...
has received a grant or loan from another Federal Government Agency for the same structure or equipment, for the same or overlapping time period	amount of the grant or loan must be subtracted from the total eligible cost of FSFL before disbursement. Note: If the grant or loan was included in the FSFL amount, this would be a duplication of benefits and not allowed under FSA programs.
has applied for or has been approved for, but not yet received, a grant or loan from another Federal Government Agency for the same structure or equipment, for the same or overlapping time period	amount of the grant or loan may be included in FSFL; however, the producer must agree to repay the grant or loan amount towards FSFL when it is received.
uses a nongovernment loan for the required downpayment for FSFL	County Office shall ensure that the loan was accounted for when determining the producer's ability to repay FSFL.

The above policies include federal grants and loan funds. The STC, on a statewide basis, has authorization to determine whether state grants and loan funds should be subtracted from the total FSFL eligible costs before loan disbursement.

63 FSFL Policy on Other Grants and Loans (Continued)

B FSFL's (Continued)

Notes: If there is a possible duplication of benefits on a previously disbursed FSFL, County Offices shall:

- *--follow paragraph 198 for the applicable procedure for notification and demand--* letters
- prepare and send all FSFL notification and demand letters.

NRRS does **not** prepare notification and demand letters for FSFL's until FSFL collateral has been liquidated.

Example: The total cost of an FSFL structure is \$100,000. The producer receives a REAP grant for \$25,000 for the same structure for the same or overlapping time period. The REAP grant is subtracted from the total cost of the structure. The producer is **required** to contribute at least 15 percent, or in this example \$11,250, of their own money to the project. The maximum amount the producer can receive for FSFL is \$63,750, determined as follows.

\$100,000	Total cost of structure.
- 25,000	REAP grant received for the same structure.
\$ 75,000	Maximum FSFL amount before required down payment.
- 11,250	Required 15 percent down payment.
\$ 63,750	Total eligible amount allowable for FSFL.

63 FSFL Policy on Other Grants and Loans (Continued)

C Applicable Grant and Loan Amounts

There may be costs associated with securing a Federal Government grant or loan. The following are examples of eligible costs, with documentation, that may be subtracted from the grant or loan amount to be applied to FSFL.

- **Grant writer fee.** Grant writers are being hired to write grant proposals for many Government grants. The fee charged by the grant writer is either a flat fee or a percentage of the final grant.
- **Energy audits.** REAP grants and loan applicants may be required to provide and pay for an energy audit for their proposed project. If a REAP grant or loan is approved, the cost of the energy audit may be subtracted from FSFL.

Example: An approved FSFL applicant has hired a grant writer to prepare the grant proposal for a \$250,000 grain storage facility. The fee charged by the grant writer is 10 percent of the final grant award. The REAP grant is awarded for \$62,500. The grant recipient owes the grant writer \$6,250. The applicable grant amount for FSFL purposes is \$56,250. This amount **must** be subtracted from the total cost of the structure, as follows.

\$250,000.00	Total cost of structure.
<u>- 56,250.00</u>	REAP grant received less the grant writer fee.
\$193,750.00	Maximum FSFL amount before required down payment.
<u>- 29,062.50</u>	Required 15 percent down payment.
\$164,687.50	Total eligible amount allowable for FSFL

64 Lobbying Activity Provisions

A Applicability

Lobbying disclosure requirements apply to applicants and recipients of FSFL proceeds exceeding \$150,000.

B Filing Forms

FSFL recipients **must** file the form specified in this table for **each** FSFL exceeding \$150,000.

IF monies received have...	THEN...
not or will not be used to lobby or otherwise influence the actions of a Federal official about a particular FSFL	CCC-674 is not required because CCC-186, item 11 contains lobbying disclosure certification language. FSFL applicants certify to compliance when signing CCC-186.
or will be used to lobby or otherwise influence the actions of a Federal official about a particular FSFL	file SF-LLL (subparagraph C). CCC-674 is not required because CCC-186, item 11 contains lobbying disclosure certification language. FSFL applicants certify to compliance when signing CCC-186.

Section 3 Processing CCC-185's, Checklists, and FSFL Folders**74 Completing CCC-195, CCC-195A, and CCC-195B****A Using CCC-195's, CCC-195A's, and/or CCC-195B's**

CCC-195, CCC-195A, and CCC-195B were developed to assist State and County Offices to avoid the types of errors that have been found by COR reviews. See Exhibit:

- 30 for an example of CCC-195A

CCC-195 is **required** to be completed for **all** FSFL's. In addition to CCC-195, CCC-195A (real estate security) or CCC-195B (no real estate security) will be used after it is determined whether the FSFL requires additional security.

It is **not** the intent of CCC-195, CCC-195A, or CCC-195B to supersede or replace procedure. County Offices are **required** to use CCC-195, CCC-195A, and CCC-195B, as applicable, as reminders of the most frequently found errors when completing FSFL's.

B State Office Modifications

State Offices shall, only as necessary to incorporate individual State laws, modify CCC-195, CCC-195A, and CCC-195B for State usage by using the blank lines provided on CCC-195, CCC-195A, and CCC-195B, or by further editing the document in Microsoft Word.

Important: SED's **may** authorize the State Office to modify FSFL CCC-195 checklists to incorporate individual State laws. National Office concurrence is **not** required.

Note: The current version of CCC-195, CCC-195A, and CCC-195B are available at <https://intranet.fsa.usda.gov/dam/ffasforms/forms.html>.

An employee shall review the application information submitted for completeness and
 --missing forms or information according to paragraph 69 and promptly initiate the environmental review kick-off meeting with completion of 1-EQ, Exhibit 15 according to 1-EQ, subparagraph 2 D.--

CCC-185 and other forms should be reviewed for completeness. For example, verify that the applicant answered the DCIA question in CCC-185, item 11.

If all **required** items are **not** received within 15 workdays of application receipt, the County Office **must** notify the applicant in writing of the items needed. The letter **must**:

- grant 15 workdays for the applicant to provide the missing information

If a response is received within 15 workdays from the applicant, requesting no more than 15 additional workdays, the County Office may approve the request. No additional extensions are authorized.

Note: The letter notifying the applicant of missing information may be sent by certified mail, if necessary.

Contact the National Office for questionable situations.

The FSFL application shall be entered into DLS according to 2-FSFL. Ensure the FSFL information is correctly entered as a final disbursement only or as a partial/final disbursement, based on CCC-185, item 3D.

It is very important to enter the FSFL request in DLS as soon as the producer has provided the application fee and sufficient information.

E DLS-Assigned Loan Number

The FSFL number will automatically be assigned by DLS when the application is entered. FSFL numbers will be the FY followed by the next sequential number for that county. For example: “2018-00001”. The FSFL number **must** coincide with the FY the application approval/disposition occurs. If FSFL request is **not** processed in the FY that the request was received, see 2-FSFL for the appropriate action to be taken.

Part 5 Credit and Financial Worthiness

82 Credit History and Credit Reports

A Obtaining Credit Reports

State or County Offices shall:

- request credit reports for all FSFL applicants only from the credit reporting agency under contract with CCC
- obtain a current report of the FSFL applicant's credit history
- ensure that **only** FSFL credit reports are requested from the agency under contract to supply CCC with FSFL credit reports
- **not** collect the cost of the report from the applicant
- request credit reports before the **required** financial analysis is completed
- ensure that reports requested for another County Office are processed timely and immediately sent to the requesting office.

State and County Offices requesting entity credit reports shall also request individual or joint "Express 3 Bureau" reports for the members of the entity with the greatest shares.

Examples: If there is a:

- 4-member partnership, each sharing 25 percent, a credit report is **required** for all members of the partnership
- 2-member partnership, 60 percent for 1 member and 40 percent for the other member, a credit report is **required** for the member with the 60 percent share.

Notes: FLP FBP shall **not** be used to obtain FSFL credit reports. However, if an FLP credit report is available, that report may be used for FSFL purposes if generated within 90 calendar days of both CCC-185 and submission of information **required** for the financial analysis.

If the applicant provides a Letter of Intent from a lender that an Irrevocable Letter of Credit will be utilized for the entire loan amount according to subparagraph 121 E, a credit report and financial review is **not** required.

82 Credit History and Credit Reports (Continued)**B Applicant Authorization**

The Fair Credit Reporting Act requires, at a minimum, a signature from all FSFL applicants for whom a credit report will be requested. **Immediately before** requesting a credit report from Data Facts, Inc., a signature is **required** from all FSFL applicants and/or entity members for which CCC needs a credit report to determine eligibility.

Signature on CCC-185 is acceptable for Fair Credit Reporting Act compliance. If additional signature space is needed to authorize the credit report, use CCC-185, item 12.

County Offices may use FSA-2004 for authorization if the individual for whom FSA is requesting a credit report has **not** signed CCC-185. The Fair Credit Reporting Act requires a signature from the individual authorizing the credit report. **In community property States**, a husband or wife **cannot** sign FSA-2004 on behalf of the spouse.

Producers may submit a written request for a copy of their credit report after it has been obtained from Data Facts, Inc.

C Available Credit Reports

Credit reports will be available for the following FSFL applicants:

- “Individual”, 1 specific person who is solely responsible for their debts
- “Joint”, 2 **married** individuals who, according to the law in a specific State, jointly own assets and are responsible for the debts of each other
- “Entity”, legal entities doing business as any of the following:
 - corporations
 - estates
 - limited and general partnerships
 - LLC’s
 - trusts.

82 Credit History and Credit Reports (Continued)**D Ordering Credit Reports**

Unless State Offices have been notified in writing by their regional OGC, use the “**Joint**” search option if husbands and wives on the same CCC-185 are searched.

--State and County Offices shall *not* request individual or joint mortgage reports.--

Ensure that the correct legal name and address are entered when requesting a credit report. CCC is charged for each request submitted, even if the information is incorrect. This includes typographical errors.

When requesting any type of credit report, **only click “Submit” once.**

To prevent being charged for duplicate credit reports, designated employees shall turn off pop-up blockers on the FSFL credit report web site as follows:

- go into the web site provided when authorized to request credit reports
- CLICK the following:
 - “**Tools**”
 - “**Pop-up Blocker**”
 - “**Turn Off Pop-up Blocker**”.

E Analyzing Credit History Reports

The authorized individual performing the financial analysis shall:

- analyze credit reports to detect:
 - patterns of late payments or nonpayments

 - heavy usage of short-term or high-interest loans or credit cards
- use pertinent information from the financial statements and credit history reports to prepare recommendations to COC
- protect the hard copy of the credit report according to PII policy.

82 Credit History and Credit Reports (Continued)**F Centralized Payment**

Payments for all FSFL credit reports shall be made to the approved contractor from the **National Office**. State and County Offices shall **not** pay for FSFL credit reports.

G Monthly Reconciliation of Credit Report Bill

Before the National Office is able to pay the bill for FSFL credit reports requested the previous month, the entire bill **must** be reconciled.

Each month, the National Office will forward the bill to State Offices with activity. Authorized State and County Offices submitting requests for FSFL credit reports are **required** to provide to PSD, through the State Office, the following information to aid in reconciliation:

- State
- requesting county
- names of credit reports requested
- type of each request (individual, joint, or entity)
- FSFL number including year
- date of each request.

The reconciliation report is due in PSD by the 10th calendar day of the following month, **or** as provided by the National Office, and **must** be sent to Kimberly Kimpel by e-mail to **kimberly.kempel@wdc.usda.gov**. No response is required if a State was **not** forwarded the credit report bill to reconcile.

State Offices **must** determine the date the reconciliation reports from County Offices are required in the State Office to adhere to the due date of the monthly reconciliation to PSD.

Because the bill **cannot** be paid until it is completely reconciled, the reconciliation report from State Offices that requested credit reports the previous month **must** be received in PSD by the 10th calendar day of the following month, or as provided by the National Office. There are **no** exceptions to submitting this report.

82 Credit History and Credit Reports (Continued)**H State Office Determination of Sites and Designated Employee at Each Site**

To request credit reports from Data Facts, Inc., for FSFL applicants, State Offices shall determine the:

- offices to be set up from the following:

- employee's name
- title
- GSA number
- County Office name
- office address
- phone number of office and employee
- e-mail address.

The information will be forwarded to the contract holder who will contact individuals for initial set up and training instructions. The amount of time required before initial set up will depend on the number of offices submitted at the same time.

When the e-mail is received advising that the account has been established, the employee **must** login to Data Facts, Inc. the same day the logon ID and password is received. Otherwise, the temporary password expires and the process **must** be repeated.

Data Facts, Inc. has created a Help Guide. Employees may contact their State Office for a copy of the help guide.

J Account Password Maintenance

Designated employees set up to request FSFL credit reports **must** access the specified request site once every 90 calendar days or their password will need to be reset.

It is recommended that a calendar event be established using Microsoft Outlook Calendar to remind the employee to change their password.

83 FSFL and Federal Delinquent Debt Applicants**A FSFL Compliance With DCIA**

County Offices shall:

- identify producers who are delinquent on Federal debts according to DCIA
- require FSFL applicants to certify to DCIA compliance on CCC-185.

FSFL approval authority shall **not** approve FSFL's for delinquent Federal debtors, **unless** the delinquent Federal nontax debt will be resolved on or before FSFL disbursement. See 58-FI.

Note: A Federal nontax debt is a debt that an individual owes to the Federal Government, other than taxes, according to IRS; for example, a Federal student loan.

B CAIVRS

FLP employees have access to the CAIVRS reporting system. If an FLP employee has accessed CAIVRS within the past 90 calendar days for the FSFL applicant, the information obtained from the CAIVRS reporting system may be used.

A CAIVRS report will **not** be obtained for an FSFL application unless a report has **previously** been obtained for an FLP application. County Offices will **not** order a CAIVRS report for FSFL only applications.

C Identifying Applicable Parties for Delinquent Debt

Delinquent Federal debt includes debt by any applicant.

If the applicant is a joint applicant, all individuals are reviewed for delinquent Federal debt status.

If the applicant is a joint venture, all members are considered. This includes spouses if **required** by State law.

83 FSFL and Federal Delinquent Debt Applicants (Continued)

C Identifying Applicable Parties for Delinquent Debt (Continued)

- corporations
- estates
- general partnerships
- limited partnerships
- LLC's
- sole proprietorships
- trusts.

D Resolving Delinquent Federal Debt

Applicants delinquent on Federal debt may provide proof that the delinquency is paid in full before FSFL approval.

If the applicant is unable to resolve the delinquency before FSFL approval, FSFL approval authority shall:

- **not** determine that the applicant is ineligible for FSFL
- notify applicant that the delinquency will be offset if the delinquent Federal nontax debt is **not** resolved before FSFL disbursement
- offset the delinquent Federal debt at FSFL disbursement

Note: If the delinquent Federal debt will be offset at disbursement, FSFL approval official **must** increase the down payment amount when considering whether a feasible plan can be achieved.

- apply the offset amount to the delinquent debt.

If the delinquent Federal debt is offset at FSFL disbursement, the applicant is still responsible for the entire FSFL amount, including the amount offset. In addition, if the delinquency is offset, the applicant **must** provide additional down payment to ensure that all bills for the FSFL structure are paid in full at or before disbursement.

84 Federal Judgment Liens**A Background**

U.S.C. Title 28, Section 3201, enacted in 1999, provides that a debtor with a judgment lien against the debtor's property as a result of debt to the U.S. shall **not** be eligible to receive any grant or loan that is made by the Federal Government until the judgment is paid in full or otherwise satisfied.

B Outstanding Federal Judgment Liens

The FSFL applicant and anyone who will sign CCC-186 shall **not** have any outstanding unpaid judgment liens obtained by the U.S. in any court.

Exception: These judgments do **not** include Federal judgment liens filed as a result of action in the U.S. Tax Courts.

C County Office Action

County Offices shall:

- perform searches of recorded judgment dockets and applicable real estate records to identify applicants who may have outstanding Federal judgment liens
- **not** approve CCC-185D's for applicants who have unresolved Federal judgment liens filed against them
- continue FSFL processing if applicants prove they have satisfied Federal judgment liens
- **not** use FSFL proceeds to pay Federal judgment liens.

85 Financial Planning**A Analyzing Balance Sheets and Cash Flow Statements**

Use FSA-2037 and FSA-2038 or similar forms, prepared by either the applicant or a financial institution within 90 calendar days of submission, to determine the following:

- that the applicant has the financial ability to make the down payment according to subparagraph D
- that the applicant has the financial ability to timely repay FSFL according to subparagraph E
- whether COC or STC should approve or disapprove FSFL
- the level of collateral security needed.

B Acceptable Balance Sheets and Cash Flow Statements

Use 1 of the following to make the determinations in subparagraph A:

- FSA-2037 and FSA-2038 available at the FSA eForms web site at **<https://forms.sc.egov.usda.gov/eForms/welcomeAction.do?Home>**
- balance sheet and cash flow statement approved for usage in the State
- balance sheet and cash flow statement that provides all the information necessary to make the determinations in subparagraph A.

Note: Existing plans used for FLP may be used, but **must** be revised to plan for FSFL debt. FLP staff **must** be consulted before any revisions to existing plans take place.

85 Financial Planning (Continued)

C When a Cash Flow Statement Is Not Necessary

Employees performing financial analysis may waive analysis of cash flow and accept only a balance sheet meeting the requirements of subparagraphs A and B from FSFL applicants

*--when all of the following conditions apply.

Aggregate outstanding total of all FSFL's, including the new FSFL	Debt to Asset ratio	Net worth of the requested FSFL amount or greater	Required down payment from working capital is at least
Up to \$10,000.00	50 percent or less	2	1 time
\$10,000.01 - \$30,000.00	40 percent or less	4	3 times
\$30,000.01 - \$50,000.00	30 percent or less	6	5 times

For loan amounts provided in the table:

- FSA employee with loan approval authority must review the balance sheet, and
- all requirements must be met, including the applicants **must** be current on all payments to all creditors, including FSA and CCC.

Example: Requested loan amount: \$7,000 (FSFL ML)

Debt to Asset ratio: 33 percent (required 50 percent or less)

Net worth is: \$200,000 (required at least 2 times of FSFL amount (\$7,000) = \$14,000)

Working capital: \$130,000 (required 5 percent down payment = \$350).--*

D Planning for Down Payment

Prepare or obtain a plan for the applicant's current FY:

- total cost of the storage facility, storage and handling truck, and/or handling equipment
- approximate amount of FSFL
- using actual expenses, if available
- showing enough cash available to make the **required** down payment
- showing increased down payment needed to pay any offset that may occur according to paragraph 83 for delinquent Federal debt.

85 Financial Planning (Continued)**E Planning for Future Installments in Typical Year**

Prepare a projected plan for the applicant's FY in which the first FSFL installment is due showing the projected installment amount for FSFL.

The employee performing the financial analysis will determine whether the applicant has a feasible plan.

F Obtaining Additional Information if Needed

County Offices may:

- verify debts and assets only when debt and asset information provided by the applicant is different than shown on the credit report or through a lien search
- if applicable, prepare FSA-2015 for each applicant's creditor according to the instructions on FSA-2015
- before requesting information on FSA-2015 from the applicant's creditors, have the applicant sign FSA-2004 to give FSA the authority to verify their debts and assets.

Note: FSA-2004 shall be filed in the FSFL folder.

If additional information is necessary to evaluate an applicant's ability to repay FSFL, FSA-2002 and FSA-2003 may be requested.

Note: Use:

- FSA-2002 for 3 years financial history
- FSA-2003 for 3 years production history.

85 Financial Planning (Continued)

G Financial Analysis

The financial analysis of an FSFL applicant shall be performed by either an FLP or County Office employee with FLP loan approval authority. The FBP, FSFL Credit Presentation recommendation for approval or disapproval, based on the applicant's credit history and financial information, shall be provided to COC or STC. The FBP, FSFL Credit Presentation recommendation **must** include:

- FSFL amount
- FSFL term
- down payment ability
- whether producer can timely repay FSFL
- if additional security is **required**, see paragraph 122 for the summary of the valuation of security policy.

Example: “Based on FSFL applicant's credit history and financial information, I recommend approval of the FSFL in the amount of \$_____ with a loan term of ____ years. The information provided demonstrates the applicant is creditworthy and has the ability to make the down payment and timely repay FSFL.”

If it is determined during the financial analysis that the producer **cannot** reasonably make the annual installment payments for the requested FSFL, the FSA employee with loan approval authority may recommend a lower amount for FSFL.

--The Farm Business Plan User Guide provides guidance for FSA employees with loan-- approval authority to use the FBP, FSFL Credit Presentation to document their recommendation of FSFL approval or disapproval.

*--**Note:** The Farm Business Plan User Guide is located at <https://inside.fsa.usda.gov/program-areas/daflp/software-manuals/index>.--*

If an Irrevocable Letter of Credit is used as security for FSFL and a letter of intent or guarantee is provided with the FSFL application package, a financial analysis and credit report are **not** required, **unless** it is required by STC. This determination will be on a statewide basis and **not** on a case-by-case basis. The acceptable Irrevocable Letter of Credit must be provided at or before FSFL closing.

If an increase of up to 10 percent of the FSFL is requested by the producer after FSFL has been approved, a new financial analysis is **not** required, **unless** it is required by STC. See subparagraph 176 B.

85 Financial Planning (Continued)**G Financial Analysis (Continued)**

A financial analysis is **required** for the members of the entity with the greatest share.

Examples: If there is a:

- 4-member partnership, each sharing 25 percent, a financial analysis is **required** for all members of the partnership
- 2-member partnership, 60 percent for 1 member and 40 percent for the other member, a financial analysis is **required** for the member with the 60 percent share.

STC may determine whether a financial analysis is **required** for all members. This determination will be on a statewide basis and **not** on a case-by-case basis.

Part 6 Other Requirements**Section 1 Insurance****96 Multi-Peril Crop Insurance, NAP Requirement, or Dairy Coverage****A Requirements**

For the purposes below, a crop of economic significance is defined as any insurable FSFL commodity that contributes 10 percent or more of the total expected value of all commodities grown by the applicant.

MPCI, NAP, or dairy coverage is **required** on all eligible insurable commodities for all borrowers **with an outstanding aggregate balance** of \$25,000.01 or more:

- stored in the FSFL-funded facility
- economic significance on all farms operated by the borrower in the county where the storage facility is located.

MPCI, NAP, or dairy coverage is **not** required for drying and handling equipment or storage and handling trucks, **unless**:

- determined necessary when the financial analysis is performed; or
- a more restrictive policy has been set by STC on a Statewide basis and **not** on case-by-case basis.

MPCI, NAP, or dairy coverage is **not** required when an Irrevocable Letter of Credit is provided to secure the FSFL, unless determined necessary by the STC.

FSFL dairy producers are required to provide an insurance policy that insures both of the following, at a minimum:

- dairy cattle death
- unexpected decreases in milk production.

96 Multi-Peril Crop Insurance, NAP Requirement, or Dairy Coverage (Continued)

A Requirements (Continued)

If it is determined insurance is not available for the applicable commodity, the producer may request a waiver for the term of the loan and STC or COC may approve or disapprove.

County Offices shall require the producer to provide proof of multi-peril crop insurance and/or verify NAP, or dairy coverage before disbursement, **except** if subparagraph D applies.

If multi-peril crop insurance, NAP, or dairy coverage is **not** available for some of the renewable biomass commodities, then COC minutes **must** document the unavailability of multi-peril crop insurance, NAP, or dairy coverage for each FSFL to which this applies.

Note: LGM or MPP are not required for FSFL eligibility.

B Acceptable Forms of Insurance

Acceptable forms of crop insurance are any level of coverage offered under FCIC, NAP, or dairy insurance policies.

Rainfall and Vegetation Index, Whole-Farm Revenue Protection, farm and ranch insurance policies are acceptable and must specify the eligible commodities being covered.

C Acceptable Proof of Insurance

County Offices shall accept proof of crop insurance, NAP, or dairy coverage, such as the following:

- statements of coverage for the applicable crop year
- applications for insurance for the applicable crop year signed by the agent
- other forms of proof acceptable to CED.

Evidence of insurance or a copy of CCC-471 shall be maintained in the FSFL folder.

D Failure to Meet Multi-Peril, NAP, or Dairy Coverage Requirements

County Offices shall ensure multi-peril crop insurance, NAP, or dairy coverage requirements are met before FSFL closing **unless** a waiver has been granted according to paragraph 157.

97 All-Peril Structural Insurance**A Requirements**

All-peril structural insurance is **required** to protect CCC's interest in collateral.

B Acceptable Forms of Insurance

County Offices shall:

- *--require applicants to obtain all-peril structural insurance on all permanently affixed or portable storage structures receiving FSFL financing--*
- ensure that CCC is listed on the all-peril structural insurance policy as a loss payee or mortgage payee

Note: Listing FSA as loss payee or mortgage payee is **not** authorized for FSFL.

- ensure that amount of coverage shall always equal or exceed outstanding FSFL balance.

Note: Authorization is provided to accept a current farm policy from the producer if the farm policy is amended to include the storage structure or other eligible FSFL

--components, excluding storage and handling trucks receiving FSFL financing.--
CCC must be listed on the policy as loss payee or mortgage payee for the storage structure or eligible FSFL component.

C Failure to Obtain All-Peril Structural Insurance

County Offices shall ensure all-peril insurance requirements are met before FSFL closing **unless** a waiver has been granted according to paragraph 157.

98 Automobile Insurance**A Requirements**

To protect CCC's interest on the storage and handling truck, County Offices shall require **all** applicants to:

- obtain full coverage automobile insurance, which may include hazard insurance, for the storage and handling truck purchased with FSFL financing

Notes: STC's may establish, on a statewide basis, a maximum automobile insurance deductible. The STC policy must be documented in the STC regular meeting minutes.

--Liability insurance only is **not** acceptable automobile coverage.--

- ensure full automobile insurance coverage includes CCC as loss payee
- maintain the full automobile insurance coverage continuously during the period the FSFL is outstanding.

B Acceptable Proof of Insurance

County Office shall:

- accept proof of full coverage automobile insurance coverage with a maximum deductible not exceeding the amount established by the STC
- ensure CCC is listed as loss payee or mortgage payee on the insurance policy.

Note: Listing FSA as loss payee is **not** authorized for FSFL.

Because the storage and handling truck may not already be purchased, the proof of automobile insurance may not be available prior to loan closing. See subparagraph 170 C for additional information on this process.

99 Flood Insurance

A Requirements

To protect CCC's interest in collateral, County Offices shall:

- determine whether proposed storage facility sites are located in flood hazard areas by viewing national flood insurance program maps
- document the review on FSA-850, or other acceptable environmental form
- *--ensure that FSA-850, item 3 J or EA as appropriate is completed, **except** for environmental reviews being completed for portable equipment or storage and handling trucks where no ground disturbance or construction is involved
- document in FSA-850, item 14 or on the EA as appropriate that flood insurance coverage is **required**, if "Yes" is checked (✓) for any of the questions listed in item 3 J
- attach to FSA-850 or EA as appropriate, any supporting documentation (such as flood maps, etc.) for evidence that flood insurance coverage is needed, if applicable
- see 1-EQ, paragraph 50 for additional guidance regarding applications involving floodplains and properly completing the environmental review. 7 CFR 799.2 (a)(2) states that "Consistent with Departmental Regulation and related Executive Orders, it is FSA policy NOT to approve or fund actions that as a result of their identifiable impacts, direct, indirect or cumulative, would lead to or accommodate either the conversion of these land uses or encroachment upon them."

Note: The availability of flood insurance is unrelated to limitations on new development within a floodplain when the action is funded by FSA. Flood insurance only serves to mitigate the risk of loss of value of loan security and in no way limits the environmental impacts of development of or encroachment on a floodplain.

- require the FSFL applicant to obtain flood insurance if the environmental review indicates that a proposed project is located within a floodplain.--*
- **not** approve FSFL's if flood insurance is required and not obtained or not available.

DAFP waiver provisions are **not** available if flood insurance has been determined **required** before or after FSFL closing.

When flood insurance is required and an Irrevocable Letter of Credit is provided to secure the FSFL, flood insurance must still be purchased on or before closing of the FSFL.

See subparagraph 214 D if it is determined the FSFL security is located in a floodplain after the loan is closed.

99 Flood Insurance (Continued)

B Acceptable Forms of Insurance

County Offices shall:

- review proof of insurance provided by insurance companies to ensure that insurance is maintained for the life of FSFL
- ensure that CCC is listed on the flood insurance policy as loss payee
- take action to call FSFL's or contact the National Office for additional guidance when borrowers do **not** maintain insurance.

C Failure to Obtain Flood Insurance

County Offices shall ensure flood insurance requirements are met before FSFL closing.

If the **required** flood insurance is **not** purchased before FSFL closing, the producer **must** be notified in writing that the FSFL will be withdrawn if proof of flood insurance is **not** provided within 15 calendar days. STC has authorization to extend the period to purchase flood insurance for an additional 15 calendar days.

Section 2 Environmental Review

109 Overview

A Background

--For FSFL participation, an environmental review must be completed as provided by 1-EQ to determine whether the proposed action could potentially affect protected resources.--

*--Individual farm participation in FSA programs does **not** normally require an EA or environmental impact statement preparation. However, for FSFL requests, FSA-850 or EA as appropriate **must** still be completed to verify that no protected resources would be affected. If it is determined that there is no potential for the FSFL-proposed action to impact the environment, then the FSA-850 or EA serves as FSA's documentation of compliance with NEPA, as well as the requirements of other environmental laws, regulations, and Executive Orders.--*

Notes: NEPA regulations require that Agencies complete the NEPA process **before** approving the proposed action that includes coordination and/or consultation on protected resources with regulatory agencies and entities responsible for managing protected resources, such as surface water quality, threatened and endangered species, and cultural resources.

--SEC's are encouraged to work with consulting agencies and tribes to establish local agreements and workflows for expediting consultation processes and agreeing to which types of FSFL projects for which they do and do not want to be consulted. Similarly, they may agree to identify specific areas where they may or may not have an interest in being consulted and thus improve the efficiency of the consultation processes.--

FSFL applicants must consult with FSA regarding environmental processes early in the planning process so that the appropriate level of environmental review can be determined and subsequently completed. See 1-EQ and related responsibilities in

--subparagraph 4 C. In order to not delay FSFL processing, development of the environmental review may begin prior to receipt of a completed application. Once an applicant has decided to pursue a FSFL and determined the nature and location of the proposed project a kick-off meeting with completion of 1-EQ, Exhibit 15 should be promptly held. As appropriate, a site visit and consultation letters are to be sent without delay.--

Section 2 Environmental Review**109 Overview (Continued)****A Background (Continued)**

Example: A plan to build a barn on the farm is the beginning point but not adequate for completion of the environmental review (FSA 850 or Environmental Assessment). To complete the related processes it will be necessary to know some of the specifics or minimums in order to be able to adequately assess potential impacts, such as but not limited to, where on the farm, *--design (size, foundation type etc.) related infrastructure involved--* (electrical, water or gas lines, roadway for access, culverts, etc.) This *--information is necessary to adequately assess potential impacts and send consultation letters.--*

See environmental policy according to paragraph 11 for situations when the producer started actions before FSFL approval.

B Objectives

The primary objectives of this section are for FSA to make better decisions by:

- taking into account potential environmental impacts of proposed projects
- working with applicants, other Federal Agencies, Indian tribes, State and local governments, and interested citizens and organizations to formulate actions that advance FSFL goals in a manner that will protect, enhance, and restore environmental quality.

110 Evaluating Potential Environmental Effects

A Preparing Evaluations

*--All environmental reviews must be completed according to 7 CFR Part 799. 1-EQ provides procedure and guidelines for implementation and completing the appropriate level of environmental compliance review or impact analysis.

Note: SEC should be consulted about projects with extraordinary circumstances as well as those that would take place in or and potentially affect wetlands or floodplains.

All CCC-185's must have an environmental review completed according to 1-EQ. The various processes and requirement including those requiring consultations are explained in 1-EQ. The SEC is available for further guidance as necessary and SEC may consult with the Environmental Activities Staff at the National Office.

Producers may request completion of the environmental review during the planning process before submitting CCC-185 by:

- visiting the County Office and participating in a kick-off meeting to complete 1-EQ, Exhibit 15
- marking an aerial photograph of the proposed location of the structure
- indicating what type of structure they propose to construct
- provide design details or plans as appropriate.

A site visit is **required** to complete the environmental review when any type of ground disturbance, site work, clearing, or construction is involved. A physical site visit is not required for loans only involving portable equipment and storage and handling trucks for which there will be no ground disturbance and no extraordinary circumstances.--*

An example of a completed FSA-850 is provided at Exhibit 10 for portable equipment and storage and handling trucks.

*--**Note:** See 1-EQ for guidance on completing environmental reviews and subparagraph 11 C.--*

110 Evaluating Potential Environmental Effects (Continued)**A Preparing Evaluations (Continued)**

--Environmental reviews for all FSFL requests *must* be completed with a finding of no adverse environmental impacts and resolution of all extraordinary circumstances *before action can be taken to initiate a project or the CCC-185D can be approved.

The preparer and concurring official's signature and date **must** be obtained on environmental review documents as provided by 1-EQ, subparagraph 31 B before the review can be considered acceptable for determining the FSFL is complete. All FSFL's secured by real estate will also be evaluated for the presence of environmental risks (for example: underground tanks, asbestos, or lead-based paint contamination) by completing FSA-851, on the real estate offered as collateral, according to 2-EQ.--*

Note: See 2-EQ, Exhibit 5 for instructions on completing FSA-851.

When the authorized agency official is the preparer of FSA-850, they should sign as both of the following according to 1-EQ, subparagraph 31 B:

- the preparer, to reflect they have the requisite training to complete this function
- the official, with designated authority.

110 Evaluating Potential Environmental Effects (Continued)**B Applicant Responsibilities**

FSA expects applicants to:

- consider the potential environmental impacts of their requests at the **earliest** planning stages and to develop proposals that minimize the potential to adversely impact the quality of the human environment
- contact County Offices to determine FSA's environmental requirements as soon as ***--possible** after they decide to apply for FSFL and participate in a kick-off meeting with completion of 1-EQ, Exhibit 15--*
- provide information necessary to evaluate their proposal's potential environmental impacts and alternatives to them

Example: The applicant will be **required** to provide a complete description of the project elements and the proposed site or sites to include location maps, ***--topographic maps, permits, plans, and photographs as appropriate.**

- not start any actions as provided in paragraph 11 before completion of the environmental review processes and written FSFL approval has been provided.--*

111 Other Actions**A EA's**

If after completing FSA-850 or EA the preparer determines there will be potential impacts to important resources listed and no alternatives or mitigation measures exist, the County Office shall do either of the following:

- deny the applicant's request for FSFL
- contact SEC for further guidance.

B Monitoring

FSA staff that normally has responsibility for the post-approval inspection and monitoring of approved projects shall ensure that any mitigation measures identified in the approval stage and **required** to reduce adverse environmental impacts are effectively implemented and documented as such.

Whenever noncompliance with an environmental special condition is detected by FSA, SEC will be immediately informed who will then take appropriate steps, in consultation with the responsible program office, to bring the action into compliance.

C Environmental Risk Management

The release or presence of a hazardous substance, hazardous waste, or leaking underground storage tank on a property could affect the value of the property that is offered as security for FSFL. Therefore, due diligence will be performed for all new FSFL's involving real estate as security, including real estate offered as additional security according to 2-EQ.

112 Local Land Use and State and County Building Code Requirements

A County Office Action on Local Land Use

To avoid conflicts with local land use laws, County Offices shall:

- determine whether local land use laws are applicable at the proposed storage facility location by contacting local code enforcement officers

Note: Information obtained from the contact shall be documented in the FSFL file.

- obtain, from producers, copies of applicable:
 - building permits
 - *--storm water management plans and permits--*
 - construction permits for flood hazard areas
 - environmental evaluations and EA's
 - site plans
 - zoning variances
- use information obtained for FSA eligibility purposes and environmental evaluations
- **not** approve FSFL's where applicants are **not** in compliance with applicable local land use laws.

B State and County Building Code Requirements

All FSFL's **must** comply with any applicable State and county building code requirements. These may include, but are **not** limited to, the following:

- construction permits and inspections
- electrical permits and inspections
- *--storm water management plans and permits.--*

113-119 (Reserved)

Part 7 Securing FSFL's

120 Security for FSFL's

A Secured by CCC-186's

[7 CFR 1436.8] All FSFL's shall be secured by CCC-186 covering the farm storage facility, equipment and/or storage and handling trucks. CCC-186 shall:

- grant CCC a security interest in the collateral
- be executed as **required** by State law where the collateral is located.

B Description of Security for FSFL

FSFL's shall be secured by a lien on the farm storage facility, equipment, and/or storage and handling trucks financed.

***--Exception:** FSFL's completely secured by an Irrevocable Letter of Credit, for any loan amount, as described in subparagraph 121 E.--*

Additional security may be **required**. See paragraph 121.

Liens will be perfected on the proposed security. Guidance on perfecting liens is found in Part 8.

C Renovated Structures

If an existing structure is remodeled and an addition becomes an attached, integral part of the existing storage structure, CCC's security shall include the existing storage structure.

D Security on Leased Land

For an applicant proposing to put an FSFL structure on leased land or land that is **not** owned by the applicant, COC shall **require** a written agreement from the landowner to the FSFL applicant. The agreement **must** allow the applicant and CCC access to the structure for at least the entire length of FSFL.

For all cases, CCC-297 is **required** from the land owner when the FSFL structure is placed on real estate **not** owned by the borrower.

Notes: If an Irrevocable Letter of Credit will secure the entire FSFL, a CCC-297 is not required unless it is required by State law.

A CCC-297 requirement must not be waived when a producer increases the down payment for a FSFL micro loan.

121 Additional Security Requirements**A When Additional Security Is Required**

Additional security is **required** if any of the following apply:

- aggregate outstanding FSFL balance exceeds \$100,000

Note: Aggregate outstanding FSFL balance means the sum of the outstanding balances of **all** FSFL's disbursed to borrowers signing CCC-186.

- STC has authority to establish a more restrictive policy; however, requiring additional security **must** be for FSFL's greater than \$50,000 and **must** be statewide and **not** on a case-by-case basis.

Examples: These examples are based on STC determining statewide additional security is **not** required for FSFL's with an aggregate outstanding FSFL balance less than \$100,000.

- Producer has an outstanding FSFL of \$75,000 and requests a new FSFL for \$30,000. Additional security is only required to secure the new \$30,000 FSFL.
- A 2-person partnership submits CCC-185 for \$105,000. FSFL is made to the partnership because the partnership is the farming entity. Additional security is needed because FSFL exceeds \$100,000.

STC or COC shall determine resale collateral value based on local market conditions. See subparagraph 122 F for guidance.

STC or COC does **not** have authorization:

- to require additional security for FSFL's with an aggregate outstanding FSFL balance of \$50,000 or less
- on a case-by-case basis, to determine whether additional security is required because of a financial analysis or type of structure when the FSFL amount is less than the additional security threshold established by STC.

121 Additional Security Requirements (Continued)

B Real Estate as Additional Security

A lien on the real estate that includes the land where FSFL structure and/or equipment will be located is the preferred additional security.

After receiving guidance from the FSA employee with loan approval authority, FSFL's **must** be determined to be adequately secured according to this paragraph. See paragraph 122 for guidance on valuing real estate security.

For FSFL amounts secured by real estate, CCC's interest in the real estate shall be superior to all other lienholders. If the real estate is covered by a prior lien, a lien subordination may be obtained by a form approved for usage in the State by the regional OGC.

If FSA holds a superior lien on applicable real estate through a direct FLP loan, a subordination agreement is **not** required. However, a junior lien on the real estate **must** be filed as security for FSFL.

If prior lienholders will **not** subordinate to CCC, COC may approve alternative forms of security, such as the following:

- second lien position only if **both** of the following apply:
 - CCC is adequately secure
 - FSA-2319 or a similar agreement is executed by the prior lienholder, following requirements specified by the regional OGC, **not** to extend additional liens on the property

Exception: CCC will **not** require FSA-2319 or a similar agreement from any USDA Agency.

- first lien on different real estate
- Irrevocable Letter of Credit.

Note: See subparagraph E for additional Irrevocable Letter of Credit guidance.

Items, such as livestock, machinery, vehicles, and other equipment, are **not** authorized to be used as additional collateral for FSFL.

121 Additional Security Requirements (Continued)**C Real Estate Lien Guidelines**

The lien should cover specific acreage, including the entire parcel of real estate underlying the collateral that is:

- sufficient in size and value in the approving COC's or STC's, as applicable, opinion to ensure FSFL payment

Note: If necessary, consult with an FSA employee with loan approval authority to determine real estate value.

- a **salable unit** in the event of foreclosure.

D Land Separate From the Facility

Real estate liens may cover acreage separate from the facility, if an adequate lien on the underlying real estate is **not** feasible, and if all of the following apply:

- applicant owns the separate acreage that is **not** subject to any other liens or mortgages that would be superior to CCC's lien interest

Note: If there is a prior lien of record, a subordination agreement is **required** to give CCC a first lien position.

- acreage of the entire parcel is adequate in size and value, in the approving COC's or STC's, as applicable, opinion, to adequately secure and insure FSFL payment.

If FSA holds a first lien on the applicable real estate through a direct FLP loan, a subordination agreement is **not** required. However, a junior lien on the real estate **must** be filed as security for FSFL.

STC's have authority to approve using real estate owned by someone other than the applicant. This will be a Statewide determination and **not** on a case-by-case basis. In all cases, a CCC-297 will be **required**.

Note: See subparagraph 122 E and Exhibit 51 when applying value to the FSFL structure separate from real estate.

121 Additional Security Requirements (Continued)

E Irrevocable Letters of Credit or Bonds

Other forms of security may be considered to be acceptable by the approving COC or STC, as applicable, such as Irrevocable Letters of Credit, bonds, or similar CCC-approved instruments.

***--**The original Irrevocable Letter of Credit, for any loan amount, **must** be:--*

- from a financial institution and provided by the applicant

Note: A letter of intent from the financial institution shall accompany the application package. See Exhibit 69 for an example of the Letter of Intent.

- for the total of FSFL principal plus interest for the first year, unless required by STC on a statewide basis, for an additional 60 calendar days.

Notes: If an Irrevocable Letter of Credit is used in addition to the structure, handling equipment, storage and handling trucks, or real estate to secure FSFL, the Irrevocable Letter of Credit **must**:

- be provided for the amount needed to secure FSFL
- include the amount needed to secure total FSFL plus interest for the first year.

STC has authority to establish interest for an additional sixty days on the Irrevocable Letter of Credit. This must be Statewide and not on a case-by-case basis.

- written to allow partial draws if the annual installment payment is **not** received by the due date
- written in a manner sufficient to protect CCC's security interest in the collateral

Note: PSD has an example of an acceptable Irrevocable Letter of Credit that will be sent to State Offices on request.

- used in each State, under guidance of the regional OGC, to comply with laws specific to that State
- used by each financial institution and reviewed and approved by the regional OGC each FY.

Note: Any variances to FSFL requirements when Irrevocable Letters of Credit are used **must** be specified, in writing, from the regional OGC.

- filed according to 32-AS, paragraph 59.

121 Additional Security Requirements (Continued)

E Irrevocable Letters of Credit or Bonds (Continued)

STC's are authorized to approve a replacement Irrevocable Letter of Credit when a producer requests, in writing, to annually provide a replacement Irrevocable Letter of Credit that will be for the reduced outstanding FSFL principal balance and interest for one year. If changes other than the reduced outstanding principal balance are made to the Irrevocable Letter of Credit, STC's or designee must obtain the regional OGC concurrence.

Note: County Offices must obtain and maintain an original Irrevocable Letter of Credit.

Multi-peril crop insurance, NAP, or dairy coverage, and all-peril structural * * * insurance, as discussed in Part 6, are **not required** if FSFL is fully secured with an Irrevocable Letter of Credit only, unless STC determined it is required statewide.

***--Note:** If an Irrevocable Letter of Credit is provided to secure the FSFL and flood insurance is required as an eligibility requirement, flood insurance must be purchased before the FSFL can be disbursed.--*

FSFL may be conditionally approved and County Offices **must** require that the Irrevocable Letter of Credit or other form of security be provided **before** disbursement. CCC-185D, item 4 should be noted that an Irrevocable Letter of Credit will be used to secure FSFL.

State Offices **must** check with their respective regional OGC to ensure that laws specific to their State are included in the Irrevocable Letter of Credit.

The Irrevocable Letter of Credit is considered sufficient security for FSFL when all requirements are met according to this paragraph and a financial analysis is **not** required, **unless** a more restrictive policy has been set by STC on a statewide basis and **not** on case-by-case basis.

The STC or COC may authorize using an Irrevocable Letter of Credit, FSFL structure, and/or real estate to adequately secure FSFL.

An Irrevocable Letter of Credit is **not** required for FSFL's with an aggregate outstanding FSFL balance equal to \$100,000 or less, **unless** STC determined, on a statewide basis and **not** on case-by-case basis, that additional security is **required** for FSFL's with an aggregate outstanding FSFL balance between \$50,000.01 and \$100,000.

If UCC-1 was previously filed, then UCC-1 should be released after the County Office has received the Irrevocable Letter of Credit for the full amount of FSFL, **unless** STC or regional OGC determined UCC-1 is still necessary.

An Irrevocable Letter of Credit can be used in addition to the FSFL structure or collateral if additional security is required. STC may allow up to 50 percent of FSFL amount for the value of the structure when an Irrevocable Letter of Credit is used in addition to the FSFL structure or collateral.

121 Additional Security Requirements (Continued)

E Irrevocable Letters of Credit or Bonds (Continued)

Example 1: CCC-185 submitted for \$200,000 FSFL that requires additional security. When using an authorized method according to subparagraph 122 K, STC has authority to allow up to 50 percent of FSFL amount for the value of the **new** structure. The Irrevocable Letter of Credit **must** be provided for the remaining security needed.

\$200,000	FSFL amount.
- <u>\$100,000</u>	Value of structure (STC authorizes COC to allow the value of the FSFL structure to equal 50 percent of FSFL amount).
\$100,000	Remaining security needed.
\$100,000	Irrevocable Letter of Credit provided to secure FSFL.

Irrevocable Letter of Credit + value of FSFL structure (50 percent) = 100 percent; therefore, FSFL is adequately secured.

Example 2: CCC-185 submitted for \$120,000 FSFL that requires additional security. When using an authorized method according to subparagraph 122 K, STC approved COC's to allow the value of the **used** hay storage structure to equal 20 percent of FSFL amount, or in this case \$24,000, when the structure is located on the property to be mortgaged. In this example, the value of the structure and security **must** equal at least 125 percent of FSFL.

\$150,000	Total security needed for \$120,000 FSFL (125 percent of FSFL amount).
- <u>24,000</u>	Value of structure STC authorizes COC to use.
\$126,000	Additional security needed.
\$71,000	Irrevocable Letter of Credit.
+ <u>55,000</u>	15 acres.
\$126,000	Additional security provided.

The producer will provide as security for the \$120,000 FSFL, the FSFL hay storage structure, first lien on 15 acres (valued at \$55,000), and an Irrevocable Letter of Credit in the amount of \$71,000. Based on this example, FSFL will be considered adequately secured.

122 Valuation of Security

A Adequate Security and Appraisals of Real Estate

FSFL's are considered to be adequately secured when the value of real estate offered as security is at least equal to FSFL's amount and completion of the FSA-851 found no unresolved issues associated with the subject real estate which could impact value or lender liability. For FSFL's where the value of real estate and previous improvements offered as collateral is in doubt, approving COC or STC, as applicable, may request an appraisal, at the FSFL applicant's expense, from a list of FLP-approved appraisers. The applicant **must** agree to the request for an appraisal. See Exhibit 52.

State and County Offices **must** request a formal DAFP waiver according to paragraph 25 for authorization **before** using a method **not** listed in this paragraph when determining value for FSFL security.

If no additional security is **required** according to paragraph 121, valuation of security is **not required**, unless the FSFL request is for used and/or portable eligible drying and handling equipment or storage and handling trucks. See subparagraph 122 J.

The CCC-185D, Item 5 must be noted with the source for the valuation that was utilized.

Note: To ensure consistency in determining the value of FSFL real estate security within a State, STC's may set specific procedure to be followed. It is the responsibility of STC to ensure that all FSFL's in their State are adequately secure.

Example 1: CCC-185 submitted for a \$200,000 FSFL that requires additional security. An appraisal determined the value of the 60 acres, including FSFL, to be \$277,500.

\$277,500 Appraised value including the structure.

\$200,000 - FSFL x 100 percent **required** security value = \$200,000.

Appraised value of 60 acres, including the structure, is adequate to secure FSFL.

122 Valuation of Security (Continued)

A Adequate Security and Appraisals of Real Estate (Continued)

Example 2: CCC-185 submitted for a \$200,000 FSFL that requires additional security. An appraisal determined the value of the 80 acres, including FSFL, to be \$370,000. Local bank has a \$120,000 mortgage on the ground where the facility is located and they will **not** subordinate.

\$370,000	Appraised value including the structure.
<u>- 120,000</u>	Bank mortgage will not subordinate, but must sign FSA-2319.
\$250,000	Remaining value for CCC.

\$200,000 FSFL x 100 percent **required** security value = \$200,000.

Appraised value is adequate to secure FSFL.

B Value of FSFL Security Approval Authority

Concurrence of determined value of FSFL security **must** be made according to the following.

IF FSFL amount is...	THEN concurrence of determined value of FSFL security must be made by...
\$100,000 or less	COC.
\$100,001 to \$250,000	COC after DD review.
\$250,001 to \$500,000	STC. STC can delegate approval to SED only .

Note: See first table in subparagraph 10 C for exceptions applicable to FSA employees and their relatives.

A conditional CCC-185D approval may be issued dependent on an appraisal or other authorized method for determining adequate real estate security. The conditional CCC-185D approval **must** be documented in CCC-185D, item 3. It **must** be conveyed to the applicant that FSFL will **not** be disbursed if the determined security value is **not** sufficient.

STC's may set a more restrictive Statewide policy for determining FSFL real estate security values if it is determined that the economic conditions in the State and in agriculture, in general, require such action to protect CCC's interests. This shall be on a statewide basis and **not** on case-by-case basis.

122 Valuation of Security (Continued)

C Real Estate Appraisal

To ensure that CCC is adequately secured and to prevent potential losses to the Government, the real estate value on FSFL appraisals shall be at least **100** percent of FSFL amount, and security that is offered for FSFL's **must** be in salable units with no unresolved FSA-851 issues. The **required** 100 percent gives CCC the needed collateral support for FSFL.--* However, if necessary based on market conditions, STC's may request statewide authorization from DAFP to apply a value less than 100 percent of the FSFL amount when determining the appraised value.

FSFL applicants may request a real estate appraisal completed by an FLP-approved appraiser at the applicant's expense.

IF the structure is...	THEN the value of the FSFL structure is...
on the land being offered for collateral	included in the appraisal.
not on the land being offered for collateral	not reflected in the appraisal.

Third party appraisals are acceptable. If an appraisal was made on the real estate within the last 12 months by a bank or for FLP, and the real estate values have remained consistent, that appraisal may be used to determine value, **if** the appraiser conducting the appraisal is on the list of FLP-approved appraisers.

If a third-party appraisal is being used, which was prepared within the last 12 months and did not reflect the proposed FSFL structure, a value may be given to the proposed FSFL structure to:

- 50 percent of the FSFL loan amount if the structure is being built on the underlying real estate
- 20 percent of the FSFL loan amount if the structure is being built on real estate separate from our additional real estate security.

STC's have authority to allow using State-certified general appraisers in addition to FLP appraisers.

122 Valuation of Security (Continued)

D Appraisals Completed At Applicant's Expense

*--CCC-185, item 10 provides the applicant's certification and informs the applicant that the appraisal cost is the applicant's responsibility.

The applicant's signature and date on CCC-185 must be obtained **before** requesting the appraisal.

The producer has the option of paying the entire appraisal cost at the time of request.--*

During the appraisal process, the appraiser is provided information from the bids the applicant has received for the structure to determine the value the structure will add to the real estate.

The appraisal **must** be:

- completed before FSFL approval or a conditional FSFL approval may be issued dependent on the appraisal
- considered when the financial analysis is completed.

Note: After the appraisal is completed, if it is determined adequate security collateral is **not** available, FSFL shall **not** be approved. If FSFL is approved with a conditional approval, the security will be reassessed when the appraisal is received.

State Offices shall request and complete the required paperwork for appraisals according to Exhibit 52, but the entire cost of appraisals is at the applicant's expense and **must** be paid regardless if the producer withdraws the FSFL request.

Applicants may authorize the County Office to add the cost of the appraisal to the eligible net cost. If the applicant paid for the appraisal in full before the final disbursement, the cost for the appraisal may be included in the applicant's **required** down payment.

Follow Exhibit 52 to establish a receivable for the appraisal cost if the producer did not submit payment for the entire appraisal cost at the time of loan request. The established receivable for the appraisal cost will be paid when FSFL is disbursed, if **not** previously paid.

122 Valuation of Security (Continued)**E Applying Value to FSFL Structure Separate From Real Estate**

When FSFL real estate security is separate from the FSFL structure, the County Office may apply a value of no more than **20** percent of FSFL amount to the structure if **all** of the following apply:

- CCC-297 is obtained from the owners of the real estate on which FSFL structure is located severing the FSFL structure from the real estate

Note: Unless State law, as determined by the regional OGC, makes using CCC-297 unnecessary **and** CCC is adequately protected without CCC-297.

- UCC-1 is filed on FSFL structure giving CCC first lien position
- FSFL structure **must** have resale collateral value according to subparagraph F.

See Exhibit 51 to determine the value of real estate security separate from the FSFL facility.

F Resale Collateral Value

This subparagraph only applies if STC determined additional security is **required** for FSFL's with an aggregate outstanding FSFL balance between \$50,000 and \$100,000.

County Offices, with assistance from an FSA employee with loan approval authority, when required by this paragraph, shall determine resale collateral value based on local market conditions and depreciation factors.

In most cases, the resale collateral value will **not** equal the outstanding FSFL value, if the collateral is moved or sold, and will be less than its fair market value. The resale collateral value **must** be a reasonable price that CCC can expect to receive if FSFL has to be liquidated. A reasonable valuation will provide security for both the applicant and CCC.

Resale collateral values should be provided by a qualified FSA expert, such as but **not** limited to, an employee delegated chattel appraisal authority according to 1-FLP.

122 Valuation of Security (Continued)**F Resale Collateral Value (Continued)**

Use the following table as an option when it is determined by STC or COC that **both** of the following apply:

- storage structure, handling equipment, or storage and handling trucks have been determined to have **no resale collateral value**
- producer does **not** have additional security to secure FSFL.

IF the aggregate outstanding FSFL balance is...	THEN the FSA employee with loan approval authority must determine the producer has the ability to repay FSFL and is credit worthy and STC...
\$50,000.01 to \$75,000	<p>may determine Statewide that a downpayment of 20 percent of the eligible net costs is required.</p> <p>Note: A minimum downpayment of 15 percent is required according to paragraph 60.</p>
\$75,000.01 to \$100,000	must require Statewide a downpayment of 20 percent of the eligible net costs.

Note: State or County Offices **must** ensure that the additional downpayment is recorded on the FSFL Disbursement Calculator, according to paragraph 175, and provide the following comment in FSFL Disbursement Calculator Excel spreadsheet, Part C:

“An additional downpayment was **required** according to subparagraph 122 F policy.”

G Determining Security Values for Existing Structures

No security value can be given to existing structures **unless** the value of the property is included in an appraisal or the tax assessment statement. STC's, COC's, and/or FLP employees shall **not** assign a value to an existing structure based on common knowledge obtained from others in the community.

Note: Third party appraisals are acceptable according to subparagraph C.

122 Valuation of Security (Continued)**H County TAV**

TAV's differ from State-to-State and county-to-county.

FSFL applicant may use the assessed property value from the current county tax bill for a specified parcel or parcels to determine the value of real estate used for FSFL security.

If a State uses TAV on the county tax bills, that percent can be applied if the exact percent is annually documented.

TAV reflects the State and county tax equalization process. The market value on the county tax bill represents the market value of the real estate.

If the market value is **not** included on the county tax bill, the exact percent used to determine the market value **must** be annually documented by the County Assessor. This documentation shall be:

- attached to a copy of the applicable tax bills
- retained in the FSFL folder.

This table provides various examples that may be used to compute the market value of real estate if a percent is obtained.

IF TAV or comparable percent is...	THEN to determine the market value of the real estate, multiply the assessed value times...
40	2.5000.
50	2.0000.
60	1.6667.
65	1.5385.
75	1.3334.
100	1.0000.

122 Valuation of Security (Continued)

H County TAV (Continued)

Under this option, and if authorized by STC, COC may determine the value of FSFL structure to equal **up to**, but **not** exceed, **50** percent of FSFL amount, **if** the facility is located on the property to be mortgaged.

Example: CCC-185 submitted for a \$250,000 FSFL that requires additional security. STC has approved COC's to allow the value of the new FSFL structure to equal 50 percent of FSFL amount, or in this case, \$125,000. Real estate security without any value given to the FSFL structure **must** equal \$125,000. Current county tax bill shows the assessed value of an 80 acre parcel to be \$62,500. The County Assessor provides CCC written documentation that indicates TAV is 50 percent (\$62,500 x 2 = \$125,000).

\$250,000	FSFL amount.
<u>- 125,000</u>	Value of structure STC authorizes COC to use.
\$125,000	Real estate security needed.
 \$125,000	 Real estate security value (TAV must equal \$125,000).

In this example, CCC has first lien on the 80 acre parcel. With the new structure and first lien on the 80 acres, CCC is secure.

I Additional Authorized Methods

If any of the authorized methods in this subparagraph are used:

- and if authorized by STC, COC may assign a value to the structure of no more than **50 percent** of FSFL amount, **if** the structure is located on the property to be mortgaged unless a more restrictive policy has been set by STC

Note: If the structure is **not** located on the property being mortgaged, the structure may be valued at no more than **20 percent** of the FSFL amount according to subparagraph E.

- the value of the structure and real estate **must** equal at least 125 percent of FSFL.

To ensure that FSFL's are adequately secured, County Offices **must** use the most practicable method and be conservative in judgment when determining the value of FSFL security.

122 Valuation of Security (Continued)

I Additional Authorized Methods (Continued)

If the following methods are available by county or regional areas, it is recommended that County Offices primarily use that method. County Offices, with the assistance of an FLP loan approval official when necessary, are authorized to use the following methods when determining value of FSFL security:

- NASS Land Values 2015 Summary published annually in August

Note: The NASS Land Values and 2015 Summary can be obtained at <https://www.usda.gov/nass/PUBS/TodayRPT/land0815.pdf>. The NASS publications may also be available for individual States by county or regional areas.

Example: The NASS Land Values 2015 Summary was used to determine the value of crop land for 2017 for FSFL 2017-00002. The South Carolina 2015 Cropland Value was valued at \$2,460 per acre and is determined to be conservatively reasonable. Therefore, 120 acres of cropland times \$2,460 equals \$295,200. NASS Land Values 2015 Summary, page 11 is filed in the producer's FSFL folder for reference.

- market value estimate from a FSA employee with loan approval authority.

Note: Must be documented and **cannot** use appraisals from other producers.

- NIFA farm land value surveys
- land-grant university published reports
- State or county published Agricultural Sales and Median Ratio Report.

Important: The authorized method selected **must** be maintained in FSFL folder or a referenced folder and include the methodology used to determine the security value for FSFL.

122 Valuation of Security (Continued)**J Value of New Portable Storage Facilities, Handling Equipment and Storage and Handling Trucks**

County Offices are not required to value new portable storage structures, handling equipment, and storage and handling trucks. The sales documents, invoices and bills for new FSFL components are sufficient when determining the value.

Note: STC or COC may determine if the cost for the FSFL components are reasonable and request additional information to support the cost, if necessary.

If the aggregate outstanding FSFL balances require additional security, the following guidelines must be met:

- COC may assign a value of no more than **50 percent** of the FSFL amount for the items being purchased
- additional security as described in paragraph 121 must be obtained. The additional security plus the **50 percent** of the FSFL amount must equal **at least** 100 percent of the FSFL.

K Value of Any Used Portable Storage Facilities, Handling Equipment and Storage and Handling Trucks

County Offices may use the following resources for determining the value of **used** storage and facilities, handling equipment and storage and handling trucks:

- NADA
- Kelly Blue Book
- local auction/internet comparable sales
- bill of sale/invoice for a similar type of equipment
- reputable auction websites, such as Auctiontime.com
- qualified FSA expert, such as but not limited to, an employee delegated chattel appraisal authority according to 1-FLP.

122 Valuation of Security (Continued)**K Value of Any Used Portable Storage Facilities, Handling Equipment and Storage and Handling Trucks (Continued)**

If it is determined that these sources are not available to provide a fair and reasonable market value, STC or COC can use other sources, practical knowledge and expertise to determine a reasonable value to support the cost of the **used** FSFL component. The reasonable value must be a reasonable price that CCC can expect to receive if the FSFL collateral has to be liquidated.

For questionable situations, contact the National Office.

If the aggregate outstanding FSFL balance does not require additional security, the valuation of the **used** items to be purchased must be equal to or exceed the amount of the loan.

If the aggregate outstanding FSFL balance requires additional security, the following guidelines must be met:

- COC may assign a value of no more than **50 percent** of the FSFL amount for the **used** items being purchased

Note: For used items STC's are authorized to allow a reduced value of **20 percent** of the FSFL amount. This must be on a statewide basis and **not** on a case by case basis.

- additional security as described in paragraph 121 must be obtained. The additional security plus the **50 percent** (or 20 percent if reduced by State Committee) of the FSFL amount must equal **at least** 125 percent of the FSFL.

STC or COC must document on CCC-185D, item 5 the source used for determining a reasonable value. A reasonable valuation to support the cost will provide security for both the producer and CCC.

123-139 (Reserved)

Part 8 Liens

140 State Supplement Explaining State Legal Requirements**A Method of Securing a Lien**

Filing UCC-1 provides FSA with a lien on the structure being built. If a lien is **required** on real estate, the form to file is dependent on State law. For additional information on filing these documents, see paragraphs 142 and 143.

B Verifying Lien Position

A lien search **must** be performed to determine CCC has the lien position required. See paragraph 144.

The method to properly perfect a lien on security varies significantly between States. Each State, with regional OGC guidance, **shall** issue a State supplement to provide additional guidance on properly perfecting liens within their State.

141 Completing CCC-10's**A Applicability**

Producers applying for FSFL's at the County Office are **required** to provide specific information on CCC-10. CCC-10 will:

- serve as CCC's or FSA's notice of intent to perfect its security interest
- identify the debtor's exact full legal name, and if the debtor is an entity, the type and location of the entity
- identify the jurisdiction in which CCC will conduct lien searches
- authorize CCC to file UCC-1's before executing CCC-186.

See Exhibit 53 for instructions on completing CCC-10.

141 Completing CCC-10's (Continued)

B Obtaining Authorization

County Offices shall:

- if a current CCC-10 is **not** already filed, obtain a signed CCC-10

Note: If the County Office has a signed CCC-10 on file, a new CCC-10 is **not** required, even if a new form revision has been issued. However, if a new FSFL is requested after the form revision date, a new CCC-10 is required.

- ensure that producers understand that:
 - applicable collateral for FSFL's is **not** described on CCC-10
 - CCC-10 remains in effect until the producer notifies CCC or FSA of any changes by completing a new CCC-10
- for UCC-1's filed manually that require the debtor's signature, according to CCC, require the producer to identify the jurisdiction in which to perform lien searches

Note: County Offices shall ensure that the name is as it appears on the valid State-issued driver's license or State-issued ID card.

- allow spouses to sign CCC-10 on behalf of each other only as allowed, according to 1-CM
- gather data and signatures about spouses where spousal information is **required** by State law, according to OGC
- if a spouse is a co-borrower, ensure that the husband and wife complete separate CCC-10's, if **required** by State law
- if applicable, provide a copy of CCC-10 to other County Offices in which the producer is active
- file CCC-10's in alphabetical order in folders labeled "PSLF-3-d-2 Financing Statements".

142 Chattel Lien Instruments**A Perfecting Liens for Storage and Handling Trucks and Handling Equipment**

Filing UCC-1 provides FSA with a lien on the permanently affixed or portable (new or used) structure or FSFL equipment being acquired, installed or built.

To perfect a lien on storage structures, storage and handling trucks and/or handling equipment with an identifiable number, such as serial numbers or VIN, the County Office must list the identifiable number on CCC-186 as FSFL collateral at closing.

For storage and handling trucks, when there is no existing Certificate of Title, serial number or VIN, the FSFL request must **not** be approved.

Because State laws vary for acquiring, installing, purchasing and perfecting liens for portable storage structures, handling equipment, and storage and handling trucks, **SED's are authorized** to issue State supplemental policy, that may be more restrictive; however, the State supplemental policy **must** at least include the following **how or when** requirements:

- full coverage automobile insurance (collision and comprehensive) must be provided
- State emissions and vehicle inspection must take place and will be verified, if applicable
- CCC will be listed as lienholder, if applicable
- Certificate of Title will be recorded at the State or local MVA.

It is recommended that SED's work with FSA employees with loan approval authority to establish the necessary State supplemental policy.

B Obtaining UCC-1's for Financing Statements

UCC-1's for FSFL financing statements shall be obtained, completed, and submitted according to State laws.

142 Chattel Lien Instruments (Continued)**C State Office Action**

The method to properly perfect a lien on security varies significantly between States. Each SED, with regional OGC assistance, shall issue a State supplement to provide additional guidance on properly perfecting liens on portable structures, equipment and/or storage and handling trucks within their State.

State Offices shall:

- contact their regional OGC to:
 - determine whether UCC Article 9, 2010 amendments have been adopted in their State
 - obtain guidance on filing new UCC-1's with their filing offices
 - obtain guidance on the **required** documents needed to verify changes for business entities and other registered organizations
 - determine whether chattel lien and/or fixture filing are **required** for their State
- modify or issue State supplements, as necessary, according to 1-AS.

142 Chattel Lien Instruments (Continued)

D County Office Action

County Offices shall:

- if applicable according to State law, obtain the applicant's signature on the applicable manual UCC-1 when CCC-185 is submitted and **before** or immediately after the farm storage equipment is delivered to the farm
- prepare manual or electronic UCC forms according to State law as soon as an adequate description of the collateral is available using data from a current CCC-10 prepared according to paragraph 141

Note: If CCC-185 submitted is only for part of the structure, a lien shall be filed on the **entire** structure.

- ensure that UCC-1 is filed in the name as it appears on the valid State-issued driver's license or State-issued ID card

Note: UCC-1's **must** identify the debtor's exact full name, and if the debtor is an entity, the type and location of the entity as provided in paragraph 69.

- file UCC forms according to State law before, or as soon as possible after, the equipment is delivered to the proposed location

Note: If the Letter of Intent for Irrevocable Letter of Credit is received in the County Office with the application package, UCC-1 is **not** required, unless it is required by State law or STC.

- pay filing or recording fees as provided in paragraph 302
- maintain UCC filings according to paragraph 216.

143 Real Estate Lien Instruments

A Form of Real Estate Lien

Real estate liens shall be in the form of a real estate mortgage, Deed of Trust, or other security instrument approved by OGC and according to applicable State laws.

State Offices shall develop a real estate lien instrument in consultation with their regional OGC. The security instrument may be a real estate mortgage, Deed of Trust, or other type of instrument. The security instrument **must** be used for all FSFL's to be secured with real estate. CCC-193 is a real estate mortgage available for FSFL. CCC-193-D is a Deed of Trust available for FSFL. Refer to Exhibit 6 for examples.

See Part 11 for guidance on forms necessary at FSFL closing for securing real estate and perfecting liens on real estate.

B Lien Provisions

The lien on the site on which the facility is to be located **must**:

- contain an exact legal description of the site
- grant CCC access rights to the property.

C Signatures

For a lien on real estate, **all** of the following shall sign the real estate lien instrument:

- applicant, **only** if the applicant has an ownership interest in the land
- all persons or entities having an ownership interest in the applicable real estate
- applicant's spouse in States where spousal signatures are **required** by statute.

143 Real Estate Lien Instruments (Continued)**D County Office Action**

County Offices shall:

- prepare the instruments and provide to the closing attorney
- file a copy of the instrument in the FSFL folder
- provide a copy of the instrument to the borrower through the closing agent
- record the filing date, place, book, and page number on the County Office copy.

E Closing Agent Action

The closing agent shall:

- obtain all necessary signatures on the instrument
- file or record the original document according to State law.

F Fees

The borrower shall pay all title fees according to paragraph 58.

144 Lien Searches**A Chattel Lien Searches**

Applicants shall **not** allow any additional liens or encumbrances to be placed on the storage facility, handling equipment or storage and handling truck after FSFL is approved **unless** CCC approves otherwise in writing.

A lien search **must** be performed to determine CCC has the necessary lien position required for the FSFL structure, equipment and/or storage and handling truck. The lien search **must** occur **after** the FSFL UCC-1 has been filed to determine the lien position.

County Offices shall perform a lien search to determine that no other liens are filed on the collateral according to State policy.

Note: Some instances may require the lien search to also be performed using the seller's information.

CCC is responsible for costs associated with chattel lien searches.

144 Lien Searches (Continued)**B Real Estate Lien Searches When FSFL Has No Real Estate for Security**

If the FSFL is for portable equipment and/or storage and handling trucks, this subparagraph does not apply.

In the initial stages of the application process, County Offices shall:

- conduct a real estate lien search to identify holders of liens on real estate underlying the intended storage facility that will determine whether CCC-297's **must** be obtained
- document the lien search on FSA-2360 or similar form.

If County Offices are unable to obtain the **required** real estate lien searches from their County Recorder, or if State procedure requires, the County Office shall use either of the following:

- local title company with moderate fees
- FSA personnel trained to perform real estate lien searches.

C Real Estate Lien Searches When FSFL Has Real Estate for Security

In the initial stages of the application process, County Offices shall:

- conduct a real estate lien search to identify holders of liens on real estate underlying the intended storage facility that will determine whether CCC-297's **must** be obtained
- document the lien search on FSA-2360 or similar form.

If real estate is security for FSFL, the closing agent will complete a search of the records. This is accomplished by a title opinion or a title insurance policy. See paragraph 187 for detailed information.

144 Lien Searches (Continued)**D Liens on FSFL Structure**

If the chattel lien search identifies other liens on the collateral before CCC filing, County Office **must** obtain lien waivers. CCC-190 (Exhibit 56) shall be used.

Example: If CCC is taking a lien on handling equipment, and the chattel lien search indicates another lender has a lien on the equipment, obtain CCC-190 from the other lender.

E Land Already Encumbered

CCC's security interest in the **collateral**, such as the actual storage structure, shall constitute the sole security interest in collateral.

If CCC requires a first lien and the real estate is already encumbered or subject to a prior lien, the County Office shall advise the closing agent that a subordination agreement shall be obtained and recorded making CCC's lien a first lien on the real estate where the facility is to be located. This information will be provided to the closing agent in the letter discussed in subparagraph 187 F.

Exception: See subparagraph 121 B.

CCC-194 (Exhibit 57) is a subordination agreement that may be used for FSFL purposes.

State Offices may develop their own subordination agreement in consultation with their regional OGC.

In addition, if there are prior liens on the underlying real estate to which the collateral is ~~attached~~, County Offices shall obtain CCC-297 according to paragraph 196.--*

145-152 (Reserved)

Part 9 FSFL Decision

153 Items To Be Reviewed for FSFL Approval

A Responsibility

The approving authority shall determine:

- whether the applicant meets all eligibility requirements
- whether the proposed facility or renovation is eligible and needed
- whether the handling equipment and/or storage truck is eligible
- whether the estimated yields and acreages to calculate the storage needs are reasonable
- *--whether an environmental review has been completed with a finding of no potential impacts or extraordinary circumstances which have not been resolved
- whether completion of the FSA-851 found environmental conditions or risk associated with the site that would impact value or place CCC at risk--*
- whether additional security is required according to paragraph 121

Note: Based on authorization provided to STC's in subparagraph 121 A, additional security may be **required** on a statewide basis for FSFL's with an aggregate outstanding balance greater than \$50,000.00.

- the type of security to be required, including but not limited to, Letter of Intent to provide an Irrevocable Letter of Credit at loan closing
- concur with the valuation of the security according to subparagraph 122 B
- the conditions of approval according to paragraph 156.

153 Items To Be Reviewed for FSFL Approval (Continued)

B COC or CED/Farm Loan Approval Official Review

COC shall review all FSFL requests, except requests that have an aggregate outstanding FSFL balance of \$25,000 or less and the STC has delegated authority to the CED or FSA loan approval official. This review **must** be documented in the executive COC minutes.

Reminder: If COC is **not** meeting in the near future, County Offices should use the provisions in paragraph 12 to expedite processing the FSFL request.

See paragraph 10 for the appropriate loan approval authority. If FSFL is **not** within COC loan approval authority, follow the appropriate guidance in subparagraph C or D.

C DD or State Office Designee Review Before COC Review

DD or State Office designee with loan approval authority shall, before approval by COC, review CCC-185 where the total aggregate outstanding FSFL balance is equal to \$100,000.01 to \$250,000. If the review:

- reveals discrepancies or errors, the file shall be returned to the County Office for correction

Note: After corrections have been made, DD or State Office designee shall again review the file.

- is acceptable, a statement similar to the following shall be entered in CCC-185D, item 5:

“After reviewing the completed documents and reviewing the financial documents, I concur with the recommendation of the [*insert as applicable, FLM, FLO, or SFLO*], concurring with the financial ability of the applicant, and I also recommend [*insert as applicable, approval or disapproval*] of FSFL to COC.”

Note: DD or State Office designee shall sign and date the statement.

After DD or State Office designee review, COC shall review FSFL and sign CCC-185D.

The FSFL approval date will be the date COC approves FSFL **after** DD or State Office designee review.

153 Items To Be Reviewed for FSFL Approval (Continued)

D STC Review

STC or STC-delegated SED **only** is the approval authority for an individual FSFL with a total aggregate outstanding FSFL balance of \$250,000.01 or greater.

STC or STC-delegated SED shall approve or disapprove the following:

- CCC-185's with a total aggregate outstanding FSFL balance of \$250,000.01 or greater
- biomass CCC-185's
- CCC-185's where STC has set other limitations for COC approval.

County Offices shall forward to the applicable reviewing or approving officials the following:

- original case file, including the complete CCC-185 with documentation to support the determinations in subparagraph A
- an ArcGIS map layout of the proposed site where the facility will be located identifying roads and other key points
- written recommendation from COC:
 - advising if FSFL should be approved
 - suggested commodity yield for eligible perishable commodities and renewable biomass commodities

Note: It is recommended that alternative options for in-person COC meetings according to paragraph 12 be utilized to prevent delays of approval.

- recommendation in FBP, FSFL Credit Presentation from individual conducting the financial analysis about the applicant's credit history, ability to repay, and type of security.

Before STC or SED review, DD or State Office designee with loan approval authority shall also review all FSFL's where the borrower's **total aggregate outstanding FSFL balance** is over \$250,000 before STC or SED review.

154 FSFL Approval

A Documenting FSFL Approval

If the decision is to approve FSFL after the review in paragraph 153 is complete and all discrepancies are corrected, the appropriate approving official shall:

- complete CCC-185D, items 3 through 10A according to Exhibit 58
- approve FSFL with signature and date in CCC-185D, items 10B and 10C

Note: County Office employees shall develop FSFL conditions as explained in paragraph 156. By approving CCC-185D, the appropriate approving official is concurring with these FSFL conditions.

- document the determination in the executive COC and/or STC minutes, as applicable.

Note: If the FSFL is within the loan approval authority of a CED or FSA loan approval official for FSFL's with an aggregate outstanding balance of \$25,000 or less according to subparagraph 10 B, the COC will be informed at the next COC meeting that this loan was approved.

If STC is the approval authority, after approval return the case file to the County Office for FSFL processing, disbursement, and servicing.

B Renewable Biomass FSFL's

STC is the approval authority for all renewable biomass FSFL's. The following information **must** be immediately submitted by the State Office after STC approval to Toni Williams by e-mail to **toni.williams@wdc.usda.gov**:

- resale collateral value for which the facility is approved
- type of storage approved
- capacity of the storage facility
- county and FSFL number
- total FSFL amount approved.

154 FSFL Approval (Continued)**C Processing FSFL Approvals**

After CCC-185D is approved, County Office shall:

- ensure the FSA employee with loan approval authority update the FBP, Credit Action to *--“Approved” according to the Farm Business Plan User Guide--*

Note: It is critical that the FBP, Credit Action be updated to “Approved” immediately after STC or COC approval because the monthly interest rate will not be properly applied to FSFL if the credit action is not timely updated.

- enter approval date in DLS according to 2-FSFL, paragraph 302

Note: If in CCC-185, item 3D, partial and final disbursements are requested, enter the approval date and amount for each FSFL.

- immediately after entering approval in DLS, the FSFL will be obligated

Note: If in CCC-185, item 3D partial and final disbursements are requested, obligate each FSFL immediately on approval.

- after the requested funding has been received in the County Office, notify the borrower of FSFL approval as directed in paragraph 13 using Exhibit 7.

The borrower shall **not** be notified of FSFL approval before the funding obligation is received in DLS.

D Distribution of CCC-185D

County Offices shall:

- retain the original in the FSFL folder
- mail a copy to the FSFL applicant with the Approval Notification Letter (Exhibit 7).

155 FSFL Disapproval**A Documenting FSFL Disapproval**

If the decision is to disapprove FSFL after the review in paragraph 153 is complete and all discrepancies are corrected, the appropriate approving official shall:

- in CCC-185D, item 6A, select “Disapproved”
- in CCC-185D, item 6B, ENTER “0”
- disapprove FSFL by signing CCC-185D
- document the determination in the executive COC and/or STC minutes, as applicable.

--If STC is the approval authority, after disapproval return the case file to the County Office--
for disapproval processing.

B Processing FSFL Disapproval

After CCC-185D is disapproved by COC or STC, County Office shall:

- send the producer the Adverse Determination Notification Letter (Exhibit 8) according to paragraph 13

Note: Include appeal rights according to 1-APP.

- enter COC, DD, or STC disapproval date, as applicable, in DLS according to 2-FSFL, paragraph 303
- if the producer appeals the decision, track the appeal in DLS according to 2-FSFL, paragraph 303.

C Distribution of CCC-185D

County Offices shall:

- retain the original in the FSFL folder
- mail a copy to the FSFL applicant with the Adverse Determination Letter (Exhibit 8).

156 Conditions of FSFL Approval**A FSFL Conditions**

Conditions of approval will include actions that must be taken or documents that must be provided before disbursement as required by STC, COC, or other approving authority.

***--Note:** Conditions of approval must **not** include eligibility determinations or actions related to the environmental review for NEPA compliance.--*

Loan approval official must complete CCC-185D, items 3 and 4 for items **required** according to Exhibit 58.

Additional FSFL conditions must be entered in CCC-185D, item 5, "Remarks". Examples of additional FSFL conditions are provided in subparagraphs B through H.

See paragraph 157 for information about waivers of insurance requirements.

B Real Estate Appraisal

Subparagraph 122 B allows approval of CCC-185D conditional on a real estate appraisal.

If this is applicable, FSFL condition **must** be documented in CCC-185D, item 5.

C Irrevocable Letter of Credit

If the producer is providing an Irrevocable Letter of Credit to secure FSFL, CCC-185D, item 4 should be noted that the Irrevocable Letter of Credit **must** be received before FSFL closing.

D Costs for Closing Agent

If a real estate lien is **required**, inform the applicant that they **must** obtain an attorney, or that a title company is required, for title clearance. The attorney or title company shall perform all real estate lien searches. Costs shall be paid by applicant.

E Signature Requirements

Signature requirements for individuals and entities vary by State law. See paragraph 185 for State guidance on signature requirements. If additional parties will be **required** to sign the closing documents, the applicant should be advised in CCC-185D, Item 5.

156 Conditions of FSFL Approval (Continued)**F Voluntary Increased Down Payment**

--According to subparagraph 196 B, the applicant may increase the down payment from--
15 percent to 20 percent, and CCC-297 will **not** be **required**. If applicants request this
option, FSFL condition **must** be noted in CCC-185D, item 5.

Authorization is not provided to increase the FSFL micro loan down payment to 20 percent
to avoid the CCC-297 requirement.

G Proof of Final Cost

After construction has been completed, the applicant shall submit final cost documents. In
addition, CCC-197 and CCC-191's are **required** to calculate the final cost of the FSFL
project.

H Security Requirements

FSFL's state specific requirements for security. If the lien search is completed before closing
and it is determined CCC is **not** currently in the correct lien position, CCC-190, CCC-194,
and/or FSA-2319 may be needed.

157 Insurance Waivers

A Multi-Peril Crop Insurance, NAP, or Dairy Coverage Waivers

COC may waive the multi-peril crop insurance, NAP or dairy program coverage requirement for FSFL's with an aggregate outstanding FSFL balance of \$100,000, or less if:

- it is too late for the producer to obtain multi-peril crop insurance or program coverage for the crop year
- the producer did **not** realize or forgot to purchase multi-peril crop insurance or program coverage for the crop year.

STC has authority to establish a more restrictive policy on a Statewide basis.

The waiver may apply to both of the following:

- a prior crop year
- current crop year.

After COC has made a determination, County Offices **must**:

- enter the following statement in CCC-185, item 14:

“I agree to purchase the required insurance for loan commodities during the next available sales period. I understand that my failure to meet this requirement will be construed as a program violation.”
- ensure that producers initial and date the statement in CCC-185, item 14 to signify that the statement will be complied with and is understood
- maintain a copy of the determination and statement in the FSFL folder and ensure that the determination is documented in COC minutes.

157 Insurance Waivers (Continued)

B Waiver for Commodities Not Being Stored in Structure

For commodities **not** being stored in the structure and the aggregate outstanding FSFL balance is \$100,000 or less, STC's may authorize COC's to determine whether multi-peril crop insurance is **required** for all commodities produced by the producer. For additional guidance, see paragraph 96.

If it is determined that multi-peril crop insurance is **not** required for commodities not being stored in the structure, COC is not authorized to allow the producer to store the uninsured commodity in the storage structure during the FSFL term. Contact the National Office for questionable situations.

If approved by COC, the County Office **must** have the applicant initial and date the following statement in CCC-185, item 14:

"I understand that I am **not** authorized to store my [*enter commodity*] production in the structure during the FSFL term."

C Multi-Peril Crop Insurance or NAP Coverage Waivers for Hay Producers

For hay producers, STC's are authorized to waive, on a case-by-case basis, multi-peril crop insurance or NAP coverage if **both** of the following apply:

- aggregate outstanding FSFL balance is \$100,000 or less
- multi-peril crop insurance or NAP coverage insurance cost for producer will range between \$500 and \$750.

In place of the multi-peril crop insurance or NAP coverage, hay producers **must** obtain and maintain all-peril structural insurance on the hay stored in the FSFL structure.

The hay producer **must** annually submit, in writing to the County Office, a request to waive the multi-peril crop insurance or NAP coverage. STC will determine, on a case-by-case basis, if the request will be approved.

The producer's request and waiver determination **must** be maintained in the FSFL folder and documented in STC or COC meeting minutes.

STC has authority to establish a more restrictive policy and is authorized to redelegate authority to COC only for provisions provided in this subparagraph.

157 Insurance Waivers (Continued)

D Multi-Peril Crop Insurance, NAP, or Dairy Coverage Waivers for Eligible Perishable Commodity Producers

For eligible perishable commodity producers, STC's are authorized to waive, on a case-by-case basis, multi-peril crop insurance, NAP, or dairy coverage if **both** of the following apply:

- aggregate outstanding FSFL balance is \$100,000 or less
- producer produces a minimum of 3 different eligible perishable commodities.

The eligible perishable commodity producer **must** annually submit, in writing to the County Office, a request to waive the multi-peril crop insurance, NAP, or dairy insurance coverage. STC will determine, on a case-by-case basis, if multi-peril crop insurance, NAP, or dairy insurance coverage is **or** is **not** feasible for the eligible perishable commodity producer.

STC or designee may waive for the FSFL term, on a case-by-case basis, the dairy insurance coverage requirement, when the insurance coverage according to subparagraph 96 A cannot be obtained.

When determining feasibility, STC should take into account a variety of factors, including but **not** limited to:

- number of crops
- typical area planted to each crop
- whether the producer markets the products in a way that commands a price premium above traditional markets; for example, direct-to-consumer; through a food hub; to a local restaurant certified organic, etc.

The producer's request and waiver determination **must** be maintained in the FSFL folder and documented in STC or COC meeting minutes.

Note: STC has authority to establish a more restrictive policy and is authorized to redelegate authority to COC only for provisions provided in this subparagraph.

157 Insurance Waivers (Continued)

E All-Peril Structural Insurance Waivers

STC has authority to establish a more restrictive policy and is authorized to redelegate authority to COC to waive the all-peril structural insurance requirement, on a case-by-case basis, for the term of FSFL, if the aggregate outstanding FSFL balance is \$100,000, or less, and either of the following applies:

- it is determined the storage structure **cannot** be insured with all-peril structural insurance
- storage structure is a concrete bunker silo and there is no chance of loss from fire or other hazardous risks.

The waiver determination **must** be maintained in the FSFL folder and documented in STC or COC meeting minutes.

A hoop building **must** be insured with all-peril structural insurance to be considered eligible for FSFL.

158 Approval Extensions**A Extensions That May Be Granted**

Based on the date the FSFL obligation appears in the system, CCC starts paying interest to Treasury on the obligated funds. Therefore, it is important that FSFL construction projects are completed timely and FSFL's are closed. However, extensions are permitted if necessary.

FSFL approvals expire 6 months after the date of approval. See subparagraph 14 A for approval authorities to grant extensions. See subparagraphs E and F for extensions beyond 12 or 18 months.

Extensions become necessary only if the applicant has **not** completed construction or has **not** submitted all documentation **required** to disburse FSFL. Delays in disbursing FSFL within the control of CCC, such as obligation of funds and the need for additional lien waivers discovered during the lien search, does **not** require a request for an extension from the applicant.

FSFL must **not** be disbursed with an expired FSFL approval date. If all documentation to disburse FSFL is received in the County Office and date-stamped before the FSFL expiration date, FSFL may be disbursed.

B Expiration Reminder Notification to Applicant

County Office **must** establish a follow-up system to remind the applicant of the FSFL approval expiration.

County Offices shall notify applicants by phone, e-mail, or letter, 14 workdays before the expiration date that, if necessary, the applicant **must** request an extension in writing.

158 Approval Extensions (Continued)**C Applicant Request for Extension**

If an extension is being requested, the applicant **must**:

- submit a written request for an extension within 7 calendar days of notification by the County Office or the FSFL approval period expiration date, whichever is later

Note: Extensions may be approved after the FSFL approval expiration date, if the request for the extension was made in a timely manner.

- ***--if the reason for the extension is the builder/contractor changed, provide a binding--*** contract, signed by the applicant and supplier, proving there is a purchase commitment
- provide evidence that CCC-185 was made in good faith
- provide evidence that lack of completion is because of reasons beyond their control.

Examples: The following are examples of reasons beyond the applicant's control:

- bad weather conditions
- delays in the delivery of parts
- lack of necessary skilled labor
- legal delays involving:
 - contractor discrepancies
 - real estate liens
 - regional OGC opinions.

158 Approval Extensions (Continued)

D Review of Applicant Request for Extension

STC's, delegated SED's, or COC's shall:

- grant the extension **only** if the applicant meets the requirements in subparagraph C
- grant extensions only for the time necessary to complete the FSFL project
- **not** grant automatic extensions
- if determined an extension will be granted, approve extensions on CCC-185D, item 8B or 8C, by notating the next expiration date.

E Requests for Extensions Beyond 12 Months

See subparagraph 185 F for a **required** financial review if FSFL closing has been delayed for more than a year.

STC's **only** are authorized to grant extensions of FSFL approvals beyond 12 months, **not** to exceed 18 months from the date of the original approval. This authority may **not** be redelegated.

STC's **must** use discretion when approving extensions beyond 12 months, **not** to exceed 18 months of the original FSFL approval date.

State Offices **must** e-mail the following details about FSFL to Toni Williams at **toni.williams@wdc.usda.gov** when FSFL extensions are granted by STC beyond 12 months:

- FSFL number
- FSFL amount
- reason for extension beyond 12 months
- date STC approved the FSFL approval extension
- FSFL approval extension expiration date.

F Requests for Extensions Beyond 18 Months

DAFP waiver is **required** for extensions beyond 18 months of the original FSFL approval date.

159-169 (Reserved)

Part 10 Final Review of Documents**170 Disbursements****A General Information for FSFL Disbursement**

*--All FSFL projects **must** be inspected using CCC-295A for (permanently affixed) and/or CCC-295C for (portable equipment) before disbursement.--*

Actions required in Parts 10 and 11 shall be completed for both a partial and final disbursement.

B Evidence of Total Cost

The disbursement will be made **only** if the borrower provides satisfactory evidence of the following:

- total cost of the facility, handling equipment, and/or storage and handling truck as evidenced by completed and signed CCC-191's from all contractors, dealers, suppliers, and vendors
- payment of all debts on the collateral in excess of FSFL amount
- **required** down payment.

This is applicable to both partial and final disbursements.

The FSFL Disbursement Calculator and CCC-197 should include all CCC-191's received from contractors, suppliers, and vendors.

C Purchasing Portable Storage Structures, Drying and Handling Equipment, and Storage and Handling Trucks

The applicant may complete the purchase of the portable storage structures, drying and handling equipment and storage and handling trucks at any time **after** loan approval.

170 Disbursements (Continued)

D Disbursement for Portable Storage Structures, Drying and Handling Equipment, and Storage and Handling Trucks

The minimum down payment is required prior to closing the FSFL. CCC-191's **are** required for the minimum down payment (plus any voluntary additional amount paid) prior to closing. The disbursement calculator will be prepared utilizing the acceptable dated statement with the intent to purchase and/or sales contract/order.

The FSFL **may** be disbursed before the FSFL components are acquired or purchased. If FSFL funds are being disbursed to complete the acquisition or purchase, inform the producer the following must be returned to the County Office within **15 workdays** after the closing of the FSFL:

- a signed and dated original sales receipt for the purchase, including the seller's name, address and contact number
- for storage and handling trucks:
 - provide automobile insurance policy, according to paragraph 98
 - proof that the emission and/or vehicle inspection was successfully performed, as required in the State
 - proof that sales tax, registration fee and other applicable MVA fees were paid
 - certificate of title and lien release, if applicable.

Note: On a case-by-case basis, the borrower may request in writing, an extension of 15 workdays, but no more than 30 workdays, to provide to FSA the applicable documents for the purchase of the portable storage structure, drying and handling equipment, and/or storage and handling trucks.

Example: Producer Clark is purchasing a used grain auger. The producer submitted the FSFL request and sales order for the used grain auger in the amount of \$10,500, in the County Office on November 7, 2017. A financial analysis was performed by an FSA employee with loan approval authority. A recommendation is received from an FSA employee with loan approval to approve the FSFL request. The STC designated the CED approval authority to approve the FSFL request. The producer is notified of the approval, a closing date, and the amount of the minimum down payment required to be paid to the dealer or seller prior to closing. The producer visits the County Office to close the FSFL. The FSFL is disbursed. Producer Clark is instructed to return to the FSA County Office the original sales receipt for the purchase of the used grain auger within 15 workdays after the closing of the FSFL.

170 Disbursements

D Disbursement for Portable Storage Structures, Drying and Handling Equipment, and Storage and Handling Trucks (Continued)

If the signed and dated original sales receipt is **not** returned to the County Office within 15 workdays after the closing of the FSFL **and** the producer did not request, in writing, an extension, a receivable must be established for the FSFL and the FSFL must be accelerated.

E Partial Disbursements

According to paragraph 57, on CCC-185, item 3D, applicants select whether FSFL will be disbursed in “Partial/Final” or “Final” disbursement.

County Office employees **must** inspect the FSFL project **before** the partial disbursement and determine whether the completed part of the FSFL project is commensurate with the partial ~~*-disbursement amount.~~ The applicable CCC-295A or CCC-295C must be used to document the inspection **before** the partial or final disbursement.--*

Example: The following example explains the maximum amount of the partial disbursement allowed.

FSFL is approved for \$110,000. The applicant completes the site preparation, foundation, and the outer shell of the steel bin. Bills are presented to the County Office for \$60,000. The bills presented are over half the approved total FSFL amount. The maximum partial disbursement the borrower can receive on this FSFL is \$55,000. Although additional security is **required** for \$110,000 **before** the final FSFL disbursement, only the UCC-1 filing is **required** for the \$55,000 partial disbursement.

170 Disbursements (Continued)**F Final Disbursements**

CCC will disburse FSFL or make the final disbursement when:

- the **entire** collateral has been:
 - assembled, constructed, installed, or acquired/purchased,
 - inspected and approved by County Office representative
 - determined to be free of liens other than CCC's by a final lien search according to paragraph 144
- all security requirements have been met.

The final FSFL disbursement **must** subtract all grants and loans on the same structure from any Federal Government Agency according to paragraph 61.

Example: RD grants and loans.

171 Inspection

A Inspection and Approval of Facility Construction

County Offices shall:

- inspect the facility before the partial **and** final disbursements
- document results of the partial and final inspections in the FSFL folder on CCC-295A *--and/or CCC-295C.

Note: If both partial and final disbursements are requested, CCC-295A and/or CCC-295C for each disbursement is **required**.--*

B Safety Guidelines

FSA is committed to providing a safe environment for employees who:

- inspect newly constructed storage facilities
- perform inspections of existing storage facilities.

Employees shall follow safety practices according to 5-LP, paragraph 89. In addition, observe the following guidelines when performing initial and annual FSFL inspections:

- do **not** climb stairs or ladders, unless it is necessary to visually locate handling equipment that will be collateral for FSFL and the equipment can be safely inspected
- if climbing stairs or ladders is necessary, use proper safety equipment, if available
- if handling equipment **cannot** be located, verify installation with the borrower
- do **not** attempt to locate serial numbers for equipment that is inaccessible or **not** in a safe location
- *--document unsafe conditions on CCC-295A or CCC-295C that should be fixed by the--* borrower, such as loose ladders.

C Inspection of Portable Storage Structures, Drying and Handling Equipment and Storage and Handling Trucks

If accessible, a County Office employee must evaluate the equipment and handling component at the location provided on the FSFL request and purchase contract/order.

Note: For questionable situations, contact the National Office.

Use CCC-295C to document the complete description of the portable structure, equipment and/or storage and handling truck with identifiable numbers and odometer reading, if available.

172 Final Review of Cost Documents

A Acceptable Cost Documents

County Offices shall review:

- final evidence of total cost
- proof of down payment

Note: CCC-191's, signed and dated by the contractor or seller with the amount of the down payment listed in items 3(a) **and** 3(b), are considered proof of down payment.

- payment of amounts in excess of FSFL.

CCC-191's are **required** when an Irrevocable Letter of Credit is used to secure FSFL.

B Examples of Acceptable Evidence

The following are examples of acceptable evidence of cost documents:

- a sales document or receipt
- a certification
- a receipt
- copies or facsimiles of documents
- a canceled check that is supported by a signed and dated sales document.

Notes: All acceptable evidence **must** be signed and dated by the contractor or seller **if** evidence is **not** on the original letterhead or stamped with the company's seal.

When a signature and date are **required**, initials are **not** acceptable.

The amount of the final invoice or bill must **not** be included in the FSFL amount and FSFL shall **not** be disbursed if CCC-191 is **not**:

- properly completed
- supported with acceptable evidence
- signed and dated, if applicable.

Notes: Releasing liability exceptions policy according to subparagraphs 173 B and C applies.

Although CCC-191's are waived according to subparagraphs 173 B and C, the eligible cost must be included on the FSFL Disbursement Calculator, CCC-197, and acceptable evidence of the eligible cost is required.

172 Final Review of Cost Documents (Continued)**C County Office Action**

County Offices shall:

- date-stamp the original evidence, make a copy for the FSFL folder, and return the original evidence to the borrower
- request the applicant to provide, within 10 calendar days, any additional information or documentation considered necessary to support costs or down payment
- verify evidence with the contractor or seller, if necessary
- discuss and obtain approval from COC/STC or State Office designee, any questionable evidence or costs.

D Trade-In Allowances

County Offices may **not** allow trade-in allowances.

Example: The borrower has an old grain dryer valued at \$1,000 to:

- trade in to the storage bin distributor
- use towards the down payment.

The value of the old grain dryer **cannot** be used towards the down payment for FSFL.

Questionable situations must be discussed with the State Office, and when necessary, State Office may contact the National Office for additional guidance.

173 CCC-191

A Releasing Liability

CCC-191 is necessary to protect CCC and the FSFL applicant from the following:

- mechanics or other liens
- claims arising against the contractor or subcontractors.

County Offices shall obtain CCC-191's for all FSFL construction projects from the following:

- primary contractor who either constructs or subcontracts all aspects of the facility construction and presents 1 bill to the applicant for the entire FSFL project
- all contractors and suppliers providing separate bills for supplies, work, or services performed in the construction of FSFL, whether their part of the project is included in the final amount of FSFL.

Only one CCC-191 is **required** from each contractor supplying goods or performing services for each FSFL disbursement. A new CCC-191 is **required** from the contractor if the contractor has presented bills for both the partial and final disbursement.

CCC-191 is required for purchases of storage and/or handling equipment or handling trucks to document receipt of the required down payment and if there is an outstanding payment due to the contractor and/or supplier.

CCC-191 on file does **not** have to reflect that the total amount of the bill has been paid. CCC-191 can show a partial or no payment has been made.

Example: The borrower paid the cement contractor the **required** 15 percent of the total cement bill as reflected in their total, final bill. The 15 percent is entered in CCC-191, items 3 (a) and (b). Because the cement contractor has **not** been totally paid, FSFL disbursement was made to the borrower and cement contractor. A new CCC-191, following disbursement with the contractor's name on the check, is **not** required from the contractor.

If the supplier and/or contractor did **not** receive payment, the County Office **must** notate in CCC-191, item 3 (a) that no payment was made and the FSFL disbursement **must** be joint to the producer and supplier and/or contractor.

CCC-191 will **not** be required for some exceptions. See subparagraph B.

173 CCC-191 (Continued)

B Releasing Liability Exception for Purchases of Supplies up to \$3,000

STC is authorized to approve an exception to current CCC-191 policy, on a statewide basis, under specified conditions.

Note: STC can only delegate this approval to SED, or DD.

The specified conditions include all of the following:

- **eligible supplies** are from a retail establishment, suppliers and/or vendors, including on-line internet purchases

Note: CCC-191 contains a release of liability and will still be **required** from anyone performing work on the structure with no exceptions to the cost.

Example: The total bill for the electrician to wire the fans in a grain bin totals \$1,100. CCC-191 is **required** because the bill includes services.

- total sales receipts from retail establishments is \$3,000 or less

Example: A producer has bills from Lowe's for \$1,550 and an electrical supply store for \$1,600. CCC-191 waiver can only be requested for 1 of these bills because together the total is over \$3,000. Both bills were paid using checks. DAFP waiver for the other bill will be **required**.

- dated sales receipt, identifying all eligible items and costs, indicating method of payment.

C Releasing Liability Exception for Credit Card Purchases

STC's are authorized to approve a waiver of the CCC-191 requirement, on a statewide basis, if the amount of the invoice or sales receipt for eligible FSFL components were paid in full by credit card. The statewide waiver must be documented in the STC meeting minutes.

***--D Releasing Liability Exception When an Irrevocable Letter of Credit is Provided**

STC's are authorized to approve a waiver of the CCC-191 requirement, on a Statewide basis, if the full FSFL amount will be secured with an Irrevocable Letter of Credit. The invoice or sales receipt of eligible FSFL components must provide the payment made for the eligible components so that the required down payment can be calculated and joint payee checks may be requested, if necessary. The Statewide waiver must be documented in the STC meeting minutes.

Note: The Irrevocable Letter of Intent or Guarantee must be on file according to Exhibit 69 for the option to be used.--*

174 CCC-197

A Overview

CCC-197 is available to assist FSA in identifying federal grant and loan recipients **before** preparing FSFL documents for the final closing of FSFL. All eligible costs shown on CCC-197 will have CCC-191, unless not required based upon the release of liability exception in subparagraphs 173 B and 173 C, and will be listed on the applicable FSFL Disbursement Calculator.

After completing CCC-197, FSFL borrowers will:

- identify all bills and invoices for the entire structure
- identify all other sources of funding for the FSFL structure
- sign and date a certification statement certifying that a request or application has **not** been submitted, approved, or paid by any Federal Government grant or loan on the same structure or other collateral used for this FSFL. If a grant or loan is received after FSFL is disbursed for the same structure, the grant or loan **must** be paid as a lump sum payment and applied to the outstanding FSFL.

B When to File

CCC-197 **must** be filed in the County Office when final evidence of total cost is submitted, according to paragraph 172.

County Offices shall:

- assist the applicant in manually completing CCC-197 according to Exhibit 64 and obtain the applicant's signature
- discuss examples of acceptable evidence and CCC-191 requirement, if applicable, according to paragraph 173.

C Approving CCC-197's

STC, COC, or designee shall approve CCC-197's only after CCC-197 is completely filed and all acceptable evidence is submitted, according to paragraph 172.

D Maintaining CCC-197's

CCC-197's shall be completed and maintained in the producer's FSFL file folder.

175 Disbursement Calculator**A Calculating Final FSFL Costs**

The FSFL Disbursement Calculator was created to assist State and County Offices in calculating the final FSFL project costs and down payment needed for FSFL.

When all final bills are received as evidenced by CCC-191's, CCC-197 and/or supporting documentation, County Offices **must** access the FSFL Disbursement Calculator in DLS, and enter the appropriate information to document and calculate the final FSFL project costs and FSFL down payment for a partial or final disbursement.

County Offices **must** complete in DLS and:

- attach a printout of the completed FSFL Disbursement Calculator to CCC-197
- file an FSFL Disbursement Calculator printout in the producer's FSFL file folder **before** a partial **or** final FSFL is disbursed.

175 Disbursement Calculator (Continued)**B Manual FSFL Disbursement Calculator**

Manual calculation must **only** be used when the FSFL Disbursement Calculator is unavailable in DLS.

The FSFL Disbursement Calculator:

- **must** be accessed and completed on a computer running Microsoft Excel 2007 or later software
- is available from the PSD web site located at <http://www.fsa.usda.gov/programs-and-services/price-support/Index>. Under “Additional Resources”, CLICK “**Farm Storage Facility Loan Disbursement Calculator (Excel)**” or “**FSFL Microloan Disbursement Calculator (Excel)**”.

The PSD web site has two FSFL Disbursement Calculators available. One is for a 5 percent down payment for microloans. The other is for the minimum 15 percent down payment for regular FSFL's. State and County Offices **must** assure the correct disbursement calculator is used.

176 Determining Final FSFL Amount and Making Changes to FSFL Amount**A Calculating FSFL Amount**

Because the exact amount of the partial and final FSFL disbursements **cannot** be determined before the FSFL project is completed, it may be necessary to increase or decrease the approved and obligated amounts for each FSFL when the total for each disbursement has been determined.

County Offices shall calculate the amount to be disbursed according to paragraph 175.

B Increase in FSFL Amount

If FSFL amount increases, County Offices shall:

- obtain reconsideration of financial analysis by an FSA employee with loan approval authority and by the applicable approving authority identified in subparagraph 10 B, if final review indicates that:
 - final costs exceed the amount on which the original approval was based
 - final documentation includes items **not** in the original approval

Example: FSFL for \$95,000 was originally approved by COC. Final costs indicate that the new FSFL amount will be \$101,000. DD review is **required** before COC can approve the additional FSFL amount.

Exception: A financial analysis is not required if the loan will be secured entirely with an Irrevocable Letter of Credit, unless it is required by STC. A Letter of Intent should have accompanied the FSFL request providing an Irrevocable Letter of Credit will be provided before closing to secure the entire FSFL.

176 Determining Final FSFL Amount and Making Changes to FSFL Amount (Continued)

B Increase in FSFL Amount (Continued)

- if an increase of up to 10 percent of FSFL is requested by the borrower after FSFL has been approved, a new financial analysis is **not** required, unless it is required by STC

Note: The applicable approving authority could review the increase request without a new financial analysis.

- if the approving authority determines the borrower is eligible for the increased FSFL amount, document this in COC or STC minutes
- in CCC-185D, complete Part B, Items 11 A through 12 C
- request additional funding according to 2-FSFL, subparagraph 351.

Note: The interest rate does **not** change.

C Change in FSFL Term

--The borrower may request to change the FSFL term before the final FSFL disbursement if:--

- the final FSFL amount qualifies for a different FSFL term
- a new financial analysis indicates the annual payments will be manageable.

*** * *** Documentation supporting the longer FSFL term **must** be maintained in the FSFL folder.

Part 11 Closing FSFL's

Section 1 Finalizing FSFL's

185 Required Final Actions

A Completed CCC-195, CCC-195A, and/or CCC-195B Requirement

County Offices shall ensure that CCC-195, CCC-195A (real estate security), and/or CCC-195B (no real estate security) are properly completed before closing a partial or final FSFL.

All required actions to finalize FSFL's secured with or without real estate security are provided on CCC-195A and CCC-195B. See paragraph 74 and Exhibits 29, 30, and 31 for completing required FSFL checklists.

B Verify Loan Conditions Met

Before closing FSFL, County Office employees shall verify that FSFL conditions as stated on the approved CCC-185D have been met.

C Real Estate Taxes

If real estate is taken as additional security, County Office:

- **must** verify that real estate taxes have been paid
- **not** disburse FSFL's secured by real estate when real estate taxes are **not** current.

D Final Lien Search Policy

A final lien search is required **before** FSFL can be disbursed. For FSFL's with no real estate security, State and County Offices are **required** to perform and record the final lien search within 5 workdays before the check is requested in DLS **or** FSFL closing.

For FSFL's with real estate security, see paragraph 187.

For FSFL's involving only purchase of storage and handling equipment and/or storage and handling trucks, the elapsed time from approval to loan closing may be much shorter. State and County Offices may be able to only order one lien search, provided it is within 5 workdays before the check is requested in DLS **or** the FSFL closing.

Notes: If an Irrevocable Letter of Credit will secure the entire FSFL, a lien search is not necessary, unless required by STC.

--For FSFL's being closed by an attorney or closing agent, a final lien search is not required by State and County Office employees. A final lien search will be performed and documented by the attorney or closing agent.--

185 Required Final Actions (Continued)**E Signature Requirements**

All members of a joint venture, including spouses if required by State law, **must** sign all FSFL security documents, and are jointly and severally liable for the entire debt.

State supplements **must** provide guidance on signature requirements for promissory notes and security documents for other entities.

F Closing Delayed More Than a Year

If closing of FSFL is delayed for more than a year after FSFL approval, the financial analysis **must** be reassessed. County Offices **must** obtain an updated balance sheet and cash flow information.

A financial analysis shall be conducted according to subparagraph 85 G. It is **not** necessary to complete a new FBP, FSFL Credit Presentation. The financial analysis will only verify there have been no adverse financial changes that would negatively impact down payment ability or the producer's ability to repay FSFL.

If it is determined that FSFL should **not** be closed because of financial changes, FSFL **must** be reviewed by the applicable approving authority for a determination and, if necessary, an Adverse Determination Notification Letter **must** be provided according to subparagraph 13 C.

185 Required Final Actions (Continued)**G STC or Designee Review Before Disbursement**

FY's begin on October 1 each year. STC or designee, as delegated by the STC, shall review the three FSFL's scheduled for closing each FY, and **before** disbursement. For these 3 reviews, a thorough review of FSFL documents **must** be completed. This review must be performed **after** all applicable checklist items have been completed and always **before** disbursement. The file will need to be reviewed for this process.

STC or designee as delegated by the STC shall:

- review three FSFL's scheduled for closing each FY, **before** disbursement, at an administrative County Office regardless of the amounts requested
- document review in the FSFL folder, CCC-195 and CCC-195A or CCC-195B. In Item 18 of CCC-195 and Item 13 of CCC-195A or CCC-195B, ENTER:

“This review was **required** according to 1-FSFL, subparagraph 185 G. All items of the CCC-195 and the CCC-195A/B through item 9 have been completed and any deficiencies resolved.”

The designee will then sign and date the above statement.

- indicate corrective action where necessary.

A County Office employee shall notate on CCC-195A or CCC-195B, Item 10A, that this review and remarks have been completed.

Additional reviews, including reviews following FSFL disbursement, may be conducted if determined necessary by STC.

186 Processing Check Requests**A Joint Disbursements**

Disbursements shall be made jointly to the borrower and the contractor, supplier, or vendor as shown on CCC-191's.

Exception: Disbursement may be made solely to the borrower if the County Office determines the borrower has paid the contractor or supplier all amounts that are due with respect to the eligible drying and handling equipment, storage structure and/or storage and handling truck.

186 Processing Check Requests (Continued)

B Disbursement Process

All FSFL's **must** be disbursed through DLS according to current FI notices and handbooks 1-FSFL and 2-FSFL. County Offices shall disburse FSFL by processing DLS "Check Request" according to 2-FSFL, Part 6.

The following 2 options are available for disbursing FSFL's.

		disbursement checks will be mailed to the County Office by NPS. On receipt of the checks, FSFL closing will be scheduled. Checks are made payable to supplier and borrower and provided at time of closing.	

For either disbursement method, interest begins on the date of closing.

186 Processing Check Requests (Continued)**C Monitoring Check Requests and FSFL Closings**

If the applicant did **not** pay all bills and the County Office will request checks to have available at FSFL closing, the County Office **must**:

- monitor DLS to ensure that checks are received as requested
- schedule FSFL closing within 21 calendar days from the date of the check.

If the applicant paid all bills and 1 check request is entered to be paid directly to the applicant, the County Office **must** monitor DLS to ensure that the check has been processed.

If checks or FSFL transaction statements are **not** received by the County Office in a timely manner, County Offices **must** contact their State Office to determine the corrective action.

D Checks Ordered and Situation Changes

If check requests have been processed and situations change, follow this table.

IF...	THEN...
applicant no longer wants FSFL	follow 2-FSFL, subparagraph 400.5 D to cancel the disbursement.
there will be a delay and FSFL will not be closed within 21 calendar days of the check date	State Offices should contact the National Office for guidance.

187 Closing FSFL's Secured by Real Estate

A Partial and Final FSFL Closings Using Real Estate as Additional Security

When real estate is used for the **required** additional security for the:

- partial disbursement, security applicable to the partial disbursement amount will be required **before** the partial disbursement FSFL closing
- final disbursement, security applicable to the total FSFL amount will be required **before** FSFL closing.

Example 1: The following is an example of FSFL with both partial and final disbursements and the security **required** for each.

FSFL is approved for \$110,000. Half the facility is constructed and a partial disbursement is requested for \$55,000. UCC-1 has been filed on the structure, but additional security is **not** required when the \$55,000 partial disbursement is closed. When the final FSFL disbursement is made, additional security for both FSFL's totaling \$110,000 is **required**.

Example 2: The following is an example of FSFL with both partial and final disbursements where additional security is **required**.

FSFL is approved for \$202,000. Half the facility is constructed and a partial disbursement is requested for \$101,000. Additional security is **required** for the \$101,000 partial disbursement and for the \$101,000 final disbursement. The following options are available to the borrower:

- present 2 separate real estate mortgages, 1 for the partial disbursement and another for the final disbursement
- present 1 real estate mortgage to secure both the partial and final disbursement at the time of the partial disbursement, if possible according to the laws in the State.

Note: Check with the regional OGC to ensure this is possible.

A copy of this instrument **must** be provided to CCC for review before closing. If the description of the property is **not** legally adequate, the deficiency **must** be listed as a title defect and the necessary curative action **must** be included on CCC-299, Part B or in the commitment.
 - c) Encumbrances, reservations, exceptions, and defects mean all matters that would prevent CCC from obtaining the **required** lien on the property. These include, but are **not** limited to, liens; taxes and assessments; leases; easements; covenants; conditions; restrictions; reservations; rights relating to mineral oil, gas, geothermal, timber, and water rights; prior sales of part of the property; judgment, probate proceedings, bankruptcy proceedings, or pending court actions in Federal and State courts; other matters of record that affect title to the real property or the ability of the buyer to convey title or the seller to accept title; and legally inadequate property descriptions.
 - d) Scope of search: The approved attorney will determine:
 - 1) all owners of record of the real property
 - 2) whether there are any outstanding encumbrances, reservations, exceptions, and defects on the real property as outlined in paragraph c above
 - 3) if a water right is to be included in the security for the loan (the attorney or title insurance company will attach a full legal description of the water right)
 - 4) if there are any liens or recorded claims that would prevent CCC from obtaining an enforceable mortgage lien of the **required** priority on the security property. Title examination will include searches of records, or certificates from the clerks of appropriate State courts, Federal bankruptcy courts, and United States district courts, for the period determined necessary by local custom, to issue a title opinion or title insurance policy.
 - e) Homestead property: If a lien is being taken on homestead property, the necessary steps to take a valid lien on homestead **must** be taken and completed.

F Transmittal of Title Information (Continued)

- f) Title exceptions: Complete legal descriptions of encumbrances, reservations, exceptions, and defects **must** be provided to CCC on request.
- g) Prohibited title exceptions: The following title exceptions are **not** allowed and **must** be removed from the commitment before the issuance of the mortgagee policy:
- 1) liens unless CCC is taking a junior lien
 - 2) the possibility of reverter
 - 3) the possibility of the failure of title
 - 4) homestead or homestead rights
 - 5) lack of the right of access, and
 - 6) any exception that may adversely affect the title to the security property, suitability of the security property, value of the security property, or successful use and/or operation of the security property.
- 5) Other instructions:
- a) Lien priority:
- CCC requires a first lien on the real estate security. All prior mortgagees or other lienholders **must** provide a subordination of their respective prior liens to CCC on a form acceptable to CCC. The subordination agreements **must** be recorded.
- b) Under certain circumstances CCC does **not** require a first lien, but will accept a junior lien position at least equivalent to the loan amount (if applicable). If CCC accepts a Junior lien, the following is **required**:
- all prior mortgagees **must** provide for FSA-2319, Agreement with Prior Lienholder
 - CCC-297, Severance Agreement, from all mortgagees and parties with an interest in the real estate.

Other - Please advise what date this loan can be closed. The CCC-186, Farm Storage Facility Loan Program Promissory Note and Security Agreement, and drafts will be prepared at that time.

Sincerely,

County Executive Director

L Review of FSFL Documents After Closing

After FSFL closing, the closing agent **must** return the appropriate FSFL documents, including CCC-186, to the County Office. CCC-299 with Part C **must** be timely completed or the Title Insurance Policy **must** be provided by the closing agent.

On receipt of all FSFL documents in the County Office, the FSA employee shall:

- review documents to ensure that all items have been completed and returned
- immediately properly close FSFL in DLS according 2-FSFL, paragraph 401
- sign and date the statement at the end of the letter to document the review.

188-194 (Reserved)

Section 2 Disbursing FSFL's

195 Preparing CCC-186

A Preparing CCC-186

See 2-FSFL, Part 6 for the following DLS FSFL automation procedures:

- disbursement
- check request
- preparation of CCC-186
- FSFL closing.

The CCC-186 shall be generated in DLS and **must** be prepared according to 2-FSFL, paragraph 401.

See Exhibit 67 for an example of CCC-186.

195 Preparing CCC-186 (Continued)**B FSA Representative Execution of Note**

CCC or FSA representative **must** execute CCC-186. This may be CED, acting CED, or COC member. If STC has delegated authority to execute FSFL documents according to subparagraph 10 A, an FSA loan approval official may execute CCC-186.

C Process Loan Closing

Immediately after all required signatures and dates are obtained on the CCC-186, the applicable State and/or County Office **must** input the loan closing in DLS. See 2-FSFL, paragraph 401.

196 CCC-297

A When CCC-297 Is Required

CCC-297 is used to sever FSFL storage structure collateral from real estate.

If necessary, each State shall issue a State supplement to provide additional CCC-297 guidance obtained from the regional OGC.

CCC-297 is **required**, regardless of FSFL amount or the down payment amount, for:

- FSFL's where the structure is placed on real estate security that is owned by someone other than the borrower
- **all** FSFL assumptions signed by the assuming borrowers and co-borrowers.

Note: If FSFL is being assumed and the remaining co-borrowers will continue to meet the FSFL eligibility requirements, CCC-297 may not be required.

Unless waived in subparagraph B, County Offices shall obtain CCC-297 from:

- superior lienholders, including FSA, **unless** waived by regional OGC
- the lienholder of the property, where the facility is located, if constructed on leased or rented land
- all landowners on the real estate where the facility is located.

CCC-297 shall be signed by the owner of the real estate and filed with the appropriate county real estate records **before** FSFL closing. See Exhibit 68 for guidance on completing CCC-297.

196 CCC-297 (Continued)

B When CCC-297 Is Not Required

CCC-297 is **not** required if any of the following apply:

- collateral is considered a nonfixture
- an FSFL is secured by a first lien on the underlying real estate, **except** when the borrower is **not** the owner of the real estate.

Note: In most instances, when CCC has a mortgage on the underlying real estate, the facility is **not** severed from the real estate.

- the loan is secured with an Irrevocable Letter of Credit for the full value of the FSFL unless determined necessary by the regional OGC and/or STC.
- the regional OGC waives the requirement for CCC-297 because State law makes using such an agreement unnecessary

196 CCC-297 (Continued)

B When CCC-297 Is Not Required (Continued)

- the borrower agrees to do either of the following for FSFL's where the aggregate outstanding balance will be equal to \$100,000, or less:
- increase the downpayment on the storage facility from 15 to 20 percent or more of the FSFL amount

Notes: Based on the additional security authorization provided to STC's in paragraph 121, the borrower may increase the downpayment from 15 to 20 percent, and CCC-297 will **not** be **required**. The borrower **must** be informed of and request this option when CCC-185 is submitted.

The borrower may request after approval to increase the downpayment from 15 percent to 20 percent; however, COC or STC approval is **required** to amend FSFL conditions and no longer require CCC-297. STC may delegate approval to SED only. The initial FSFL interest rate will remain the same.

If the borrower requests to use this option, notate in CCC-185, item 18, and have the borrower sign and date. At FSFL closing, proof that the entire 20 percent downpayment was made is **required**. FSFL **cannot** be closed until either CCC-297 is provided or additional documentation showing that the 20 percent downpayment has been made is received by the County Office.

- provide another form of security acceptable to the Secretary to completely secure the entire FSFL, such as an Irrevocable Letter of Credit.

Notes: If an Irrevocable Letter of Credit is used in addition to the FSFL structure to secure the \$100,000 or less FSFL, CCC-297 is **not** required if the Irrevocable Letter of Credit is 20 percent or greater than the FSFL amount. See subparagraph 121 E for guidance.

Based on authorization provided to STC's in paragraph 121, additional security may be **required** for FSFL's with an aggregate outstanding FSFL balance of \$50,000 or more.

STC has authority to establish a more restrictive policy.

C State Office Action

State Offices shall:

- request changes and instructions to CCC-297 from the regional OGC
- make CCC-297 a State form, if **required** by OGC
- provide a copy to PSD.

196 CCC-297 (Continued)

D County Office Action

County Offices shall:

- for FSFL's where a real estate lien is:
 - **required**, have the closing agent obtain the properly completed and signed CCC-297

Notes: For FSFL's secured with real estate security, the closing agent should perform
--the lien search before loan closing.--

County Offices **must** ensure that properly completed CCC-297's are obtained at or before FSFL closing.

- **not** required, conduct a real estate lien search to identify holders of liens on real estate underlying the intended storage facility and obtain properly executed CCC-297's (Exhibit 68)
- file CCC-297's before FSFL closing in the appropriate county real estate records **unless** the regional OGC waives the filing requirement.

Note: If COC initially approves CCC-185D before receiving the necessary CCC-297's, CCC-185D, item 3 **must** be checked as a condition of approval.

197 Storing Original Security Documents**A Document Storage Requirement**

Original security documents must be stored in a locked, fireproof cabinet until authorized to release according to paragraph 218.

B Security Document Examples

Examples of original security documents include, but are **not** limited to, CCC-186 and Irrevocable Letter of Credit.

198 Overdisbursements and Underdisbursements**A Collecting Overdisbursements**

County Offices shall collect overdisbursements when any of the following apply:

- error was made by CCC
- error was made by the borrower and FSFL will **not** be called
- error was made by a third party and the borrower is **not** at fault.

Example: Total FSFL cost was \$10,000. FSFL was disbursed for \$9,500, but it was later found that because of a mistake by the contractor on the final cost documentation, the correct amount was \$8,500. The overdisbursed amount **must** be refunded.

The overdisbursement collection will **not** be considered towards the borrower's installment. State Offices should contact the National Office for further guidance on applying the overdisbursement collection in DLS.

B Error by CCC

If the overdisbursement was because of an error by CCC, County Offices shall:

- obtain COC determination that the error was made by CCC
- ~~*--issue a demand letter according to subparagraph 262 D and pursue collection--*~~

Note: Modify the demand letter as applicable.

- process the refund as a regular payment according to 2-FSFL, paragraph 462, **except** do **not** charge interest. Use the disbursement date as the payment date. Contact PSD for additional guidance.

198 Overdisbursements and Underdisbursements (Continued)**C Error by Borrower or Third Party**

If the overdisbursement was because of an error by the borrower or a third party, County Offices shall:

- obtain COC determination that the error was made in good faith by the borrower or third party, and is **not** a program violation to the extent FSFL should be called
- issue a demand letter according to subparagraph 262 D and pursue collection

Note: Modify the demand letter as applicable.

- process the refund as a regular payment with interest, according to 2-FSFL, paragraph 462. Contact PSD for additional guidance.

D Correcting Underdisbursed FSFL's

For underdisbursed FSFL's because of errors by CCC or the borrower, contact PSD for guidance on correcting FSFL.

199 Correcting Real Estate Lien Instruments**A Annotations and Date**

When it is necessary to file and record new instruments to correct real estate security instruments previously recorded, County Offices shall:

- prepare the new instrument according to paragraph 187 and applicable State law
- ENTER “**Corrective**” immediately beneath the title on the new documents
- use the execution date as the date of the corrective instrument.

B Inserting Correction Phrase

County Offices shall insert the following phrase immediately **before** the signature lines of each corrective document.

“This instrument is intended to be corrective of an earlier instrument dated (*insert date*), filed or recorded in Volume (*insert volume*), Page (*insert page number*), as Document Number (*insert document number*), and is **not** intended to change in any way the rights, duties, or obligations of the parties hereto as to such rights, duties, or obligations set in the original instrument hereto recorded, except insofar as said instrument is corrected hereby.”

Part 12 Basic Servicing Policies

Section 1 Routine Servicing

209 Producer Reminder Notification

A Payment Reminder Report

County Offices **must** use the FSA Enterprise Data Warehouse Reports, Payment Reminder Report to identify when FSFL installments are due.

See 2-FSFL, paragraph 602 for additional information on the Payment Reminder Report.

B Sending Reminder Notification

It is **important** the Reminder and Notification Letter (Exhibit 70) be prepared the first workday that is 45 calendar days from the installment due date of FSFL. If the Reminder and Notification Letter should be prepared on a nonworkday, the letter should be prepared on the next workday.

Note: CCC-195 Servicing (Exhibit 71) shall be initiated at the same time the Reminder and Notification Letter (Exhibit 70) is mailed to the FSFL borrower.

The following information shall be used to prepare the Reminder and Notification Letter.

IF the DLS FSFL Loan Inquiry Screen shows the payment...	THEN use the next installment...
"Ahead"	total due or next installment amount.
"Behind"	total due.
"Current"	amount.

When the DLS FSFL Loan Inquiry Screen shows the payment status as:

- "Ahead", and the producer wants to pay the next installment amount instead of the next installment total due, the producer will continue to be displayed as "Ahead" on the annual installment payments
- "Behind", and the producer pays the next installment amount, the producer will continue to be displayed as "Behind" on the annual installment payments. The account will be serviced as **required** in Part 13.

The FSFL Loan Inquiry Screen also provides the daily interest accrual.

209 Producer Reminder Notification (Continued)**C Attachment for FSFL's With Final Installment Payment**

The final FSFL installment payment shall include interest to the date payment is received in the County Office. The following note shall be attached to the Annual Reminder and Notification Letter for the final installment payment:

“The **final** installment payment on your FSFL is due soon. The installment due date is listed in the first column of the table in the attached letter. The installment amount due is the total amount owed if the final loan payment is received in the FSA County Office on the installment due date. If payment is received on another day, the amount due will be different. Please contact the FSA County Office for the total amount due, if the installment will be received on a day different than the installment due date. Any collateral security on this loan will not be released to the borrower until the entire principal has been repaid.”

210 CCC-195 Servicing

A Completing CCC-195 Servicing

County Offices shall:

- prepare CCC-195 Servicing (Exhibit 71) 45 calendar days before the installment due date for all outstanding FSFL's

Notes: CCC-195 Servicing shall be initiated at the same time the Annual Reminder and Notification Letter (Exhibit 70) is mailed to the FSFL borrower according to subparagraph 209 B.

If the borrower pays the installment before the Annual Reminder and Notification Letter being mailed, CCC-195 Servicing shall be initiated at that time.

Example: FSFL installment due date is August 26, 2017. The County Office **must** complete CCC-195 Servicing on July 11, 2017, for items that can be answered before the installment due date. Items that **cannot** be answered before the installment due date **must** be answered within 120 calendar days after FSFL installment due date.

- maintain CCC-195 Servicing in each FSFL folder
- check, initial, and date the appropriate box for each item as it is performed.

Notes: Do **not** line through items when initials and dates are **required**.

It is **not** practical for CCC-195 Servicing to address every conceivable situation about servicing FSFL's.

See Exhibit 71 for completing CCC-195 Servicing.

B Accessing CCC-195 Servicing

CCC-195 Servicing is available from the FFAS Employee Forms/Publications Online Website at <https://intranet.fsa.usda.gov/dam/ffasforms/forms.html>.

210 CCC-195 Servicing (Continued)**C Modifying CCC-195 Servicing**

State Offices must only as necessary, and to incorporate individual State laws, modify CCC-195 Servicing for State usage by editing the document in Microsoft Word. National Office concurrence is not required.

D State Office or Designee Reviews

The State Office shall select the following every FY for the prior FY for each County Office review beginning October 1:

- three CCC-195 Servicing, if 10 or less CCC-195 Servicing's have been completed
- five CCC-195 Servicing, if 11 or more CCC-195 Servicing's have been completed.

Note: If the FSFL has been repaid in full, a spot check according to this subparagraph is not required.

Selecting the prior FY CCC-195 Servicing per County Office may be random; the reports as shown in 2-FSFL, paragraph 602 may assist with selecting CCC-195 Servicing's that **must** be reviewed.

Note: See 2-FSFL, Part 8 for further assistance.

The State Office CCC-195 Servicing Review Report is due in the National Office on or before the 4th Friday each January following the new FY.

E National Report

SED's or designee shall report the following for each County Office to the National Office:

- number of CCC-195 Servicing reviewed by State Office
- number of "Do Not Concur" signed by State Office
- reason for "Do Not Concur"
- corrective action provided to the County Office to resolve CCC-195 Servicing finding.

SED or designee shall e-mail the report to Toni Williams at **toni.williams@wdc.usda.gov**.

211 Collecting Installments

A Installment Payments

[7 CFR 1436.13] FSFL shall be payable in equal annual installments of principal and interest amortized over the FSFL term.

Installments are due and payable no later than the FSFL annual anniversary date until the principal plus accrued interest has been paid in full.

There is no grace period for FSFL annual installment payments.

FSA may be paid in full or in part at any time before maturity without penalty.

B Method of Payment

The payment of each installment may be by any of the following:

- cash
- money order
- personal, certified, or cashier's check
- setoff, when applicable.

Note: If agreed by the borrower, a milk assignment may be accepted from their milk purchaser for a periodic payment on the FSFL; however, the periodic payment does not replace the annual installment calculation of principal and interest amortized over the FSFL term.

C Application of Payment

County Offices shall process installment payments according to 2-FSFL, paragraph 462.

The date the check is received in the County Office **must** be entered in DLS as payment date for the annual installment payment.

Interest is calculated from the date disbursed to the date payment is made or from 1 payment date to the next payment date. Payment shall be applied first to accrued interest through the date of payment and then to principal. DLS will accurately apply the payment.

When the payment received does **not** cover the next installment due, the payment status will be displayed as "Behind" when the installment due date arrives. The account shall then be serviced according Part 13.

211 Collecting Installments (Continued)

D IRS-1098

All checks and/or payments received in the County Office **must** immediately be entered in DLS correctly by December 31 for calendar year IRS-1098 reporting.

When December 31 falls on a nonworkday, County Offices **must** ensure that the annual installment payment is entered on the last workday of the year.

Kansas City will prepare and mail IRS-1098's for FSFL interest.

E Later Payment of an Installment

FSA recognizes that installment due dates may **not** always coincide with dates by which crops are harvested and income is available. Borrowers who **cannot** pay on the due date may request up to an additional 120 calendar days to pay an installment, if they submit **all** of the following:

- a request, in writing, for COC consideration within 60 calendar days before or after the installment due date
- a current balance sheet
- a current cash flow statement demonstrating that the installment can be paid within 120 calendar days after the due date.

Payment after the installment due date:

- does **not** change the original FSFL and DLS-calculated due date
- does **not** change the due date of the next installment
- allows borrowers more time to pay an installment and allows the County Office to cease further collection action **except** for offset opportunities
- may be requested 1 time only for each installment during the FSFL term.

211 Collecting Installments (Continued)**E Later Payment of an Installment (Continued)**

County Offices shall:

- notify borrowers of the late payment option in the first demand letter (Exhibit 72) sent the next workday after an installment is unpaid and subsequent letters sent within 60 calendar days of the due date
- process requests for COC approval or disapproval by obtaining:
 - the borrower's request, in writing, including a reason why the installment **cannot** be paid on time
 - a recommendation about the borrower's ability to repay at a later date from an FSA employee with loan approval authority
- notify borrowers of COC decision in writing
- resume collection activity according to Part 13, if the installment is **not** paid by COC-determined date
- **continue** to collect payment of the installment due by administrative offset of any CCC payments due the borrower.

212 FSFL Balances**A Determining Outstanding Debt**

DLS maintains information on principal and interest balances.

See 2-FSFL, paragraph 461.

B How to Detect Existing Installment Balances

For FSFL's where installments have been paid, County Offices shall:

- review FSFL installment information according to 2-FSFL, paragraph 461
- identify FSFL's with installment balances that require further collection action.

Note: The "Payment Status" will identify if a borrower is "Ahead", "Current", or "Behind" in their installments.

C Collection Actions

For FSFL installments that are **not** fully satisfied and installment balances exist greater than \$100 after the installment due date, County Offices shall begin servicing the delinquent account according to Part 13.

D Small Balance Remaining After Final Payment on Loan

If it is the borrower's last payment and the outstanding amount due is \$24.99 or less, authorization is provided to write-off the outstanding balance in DLS, according to 2-FSFL, paragraph 554.

213 Real Estate Taxes**A Borrower's Responsibility**

[7 CFR 1436.14] On FSFL's where real estate is used as security, the borrower **must**:

- pay all real and personal property taxes that may affect CCC's security interest in all collateral securing the note
- provide proof of payment of taxes, applicable to collateral securing FSFL, to the County Office annually.

Note: STC's have discretionary authority to **require** proof that real estate taxes are current for FSFL's **not** requiring additional security.

B Unpaid Taxes

County Offices shall:

- monitor the real estate tax status applicable to collateral securing FSFL
- pay any unpaid taxes with respect to the collateral securing FSFL when it appears CCC's security interest is in jeopardy

Note: See subparagraph 242 B.

- bill the borrower for the amount of the tax paid

Note: See paragraph 303 for depositing borrower reimbursement of CCC-paid taxes.

- begin proper servicing action and contact the National Office for additional guidance.

214 Monitoring Insurance Requirements

A Annual Verification of Insurance Requirements

County Offices **must** annually:

- verify all-peril structural and flood insurance policies by:
 - ensuring that CCC is listed as a loss payee or mortgage payee
- **Note:** Listing FSA as loss payee or mortgage payee is not authorized for FSFL.
- reviewing proof of insurance provided to FSA by insurance companies
- obtain proof and file multi-peril crop insurance, or NAP, or dairy insurance coverage for each applicable crop year for the entire FSFL term, **unless** a waiver was provided
- ***--Note:** If sufficient information to verify crop insurance compliance can be obtained from the CIMS Policy Holder Report, the report may be used to satisfy the annual requirement.--*
- verify automobile insurance coverage, if applicable.

Before calling FSFL for lapse of all-peril structural or flood insurance, COC's, according to paragraph 25, may request a waiver for failure to fully comply with FSFL requirements, if borrowers obtain insurance before the waiver is requested.

If an exception was authorized, according to paragraph 157, multi-peril crop insurance or NAP, or dairy insurance coverage may **not** be required.

B Failure to Obtain Multi-Peril Crop Insurance, NAP, or Dairy Insurance Coverage

County Offices shall:

- monitor the borrower's crop insurance or NAP, dairy insurance coverage status
- consider a lack of crop insurance or NAP, dairy insurance coverage to be an FSFL violation
- take action to call FSFL's when borrowers do **not** maintain insurance or NAP, dairy insurance coverage.

Before calling FSFL's for lapse of insurance, COC's may request a waiver for specified crop years according to paragraph 157.

214 Monitoring Insurance Requirements (Continued)

C Automobile Insurance

County Offices shall:

- monitor borrower's automobile insurance status
- consider the lack of automobile insurance to be an FSFL violation
- take action to call FSFL's when borrowers do **not** maintain automobile insurance.

A waiver is **not** allowed for FSFL's required to have automobile insurance according to paragraph 98.

D Flood Insurance

The borrower is **required** to immediately purchase flood insurance if it is later discovered that:

- the county flood map was updated after FSFL disbursement
- flood insurance should have been **required** before FSFL disbursement.

215 Inspections**A Required Inspections**

[7 CFR 1436.15] The borrower **must** maintain the FSFL collateral in a suitable condition.

County Offices shall perform collateral checks:

- at least once every other year for all FSFL's using asphalt flooring, according to subparagraph B
- for the following terms:
 - 3-year term, the 2nd year of FSFL
 - 5-year term, the 3rd year of FSFL
 - 7-year term, the 4th year of FSFL
 - 10-year term, the 4th and 8th years of FSFL
 - 12-year term, 4th and 9th years of FSFL

Important: If there is reason to believe CCC's collateral is at risk, STC or COC may authorize the County Office to perform a collateral check at any time.

- where the full annual installment payment is **not** made within 30 calendar days after the installment due date
- if possible, in conjunction with other FSA loan program collateral checks.

215 Inspections (Continued)

A Required Inspections (Continued)

Example: Producer Berry has an FY 2016 FSFL with a 10-year term and the annual installment payment is due on May 1. The following table is a schedule of when collateral checks are **required** based on the date the annual installment payment is received in the County Office.

Note: Future dates of annual installment payments were used for example **only**.

FSFL Term	Date Annual Installment Payment Received in the County Office	Collateral Check Required
Year 1	April 30, 2017	No
Year 2	May 1, 2018	No
Year 3	June 19, 2019	Yes
Year 4	April 30, 2020	Yes
Year 5	May 10, 2021	No
Year 6	April 27, 2022	No
Year 7	May 1, 2023	No
Year 8	June 3, 2024	Yes
Year 9	April 27, 2025	No
Year 10	May 31, 2026	No

County Offices shall have right of access where the collateral is located according to a term in CCC-186 whether or **not** there is a real estate mortgage.

The results of the **required** annual inspection **must** be documented in the FSFL folder in CCC-195 Servicing, item 12.

B Asphalt Flooring Inspections

To ensure that asphalt flooring is being properly maintained, County Offices **must**:

- make a field visit and conduct a collateral check of all FSFL's using asphalt flooring at least once every other year or as determined by STC
- complete CCC-195 Servicing, item 12 E to document the field visit, and item 16 to record remarks.

C HELC and WC Provisions

If a violation of HELC and/or WC provisions is determined after FSFL has been disbursed, FSFL may remain outstanding as long as the producer continues to make the annual installment payments timely.

216 Maintaining UCC Lien**A Continuing UCC Filings**

UCC-1 filings (chattel and fixture) will lapse after 5 years, **unless** continued for an additional 5-year period. The continuance shall be accomplished with a UCC-3 “Continuation”.

The only time UCC-3 “Continuation” may be filed is during the last 6 months of the 5-year effective filing period. The continuation is effective from the date the original UCC-1 would have expired, even though the continuation is filed up to 6 months before the expiration.

Example: UCC-1 was filed May 1, 2012.

UCC-3 “Continuation” may be filed anytime from November 1, 2016, through May 1, 2017.

If UCC-3 “Continuation” is filed timely within this period, UCC-1 is considered effective until May 1, 2022.

B County Offices Monitoring UCC Lien Expiration

County Office **must** ensure that a monitoring system is used so that UCC documents are continued timely.

Updating the DLS Dashboard is 1 option available for monitoring UCC documents.

C Fees for UCC Lien Continuance or Amendment

All fees associated with continuing or amending UCC documents will be paid by CCC.

See paragraph 302 for guidance on processing UCC document filing fees.

217 FSFL Structures, Equipment and Trucks Used for Purposes Other Than Originally Intended

A Original Authorization

FSFL drying and handling equipment, storage structures and trucks are authorized for eligible commodities that were used to determine the eligibility of the FSFL request. Producers must use the FSFL collateral for the intended purpose of storing, handling and/or transporting their eligible commodities.

B Using FSFL Collateral After FSFL Commodities Have Been Marketed

After the stored commodity has been marketed, the collateral may, with **prior** approval, be used by the borrower to **temporarily** store other agricultural-related items until the next harvest season.

C Temporary Reuse Authorization

Producers must use the FSFL collateral for the intended purpose in which was originally requested.

STC's are authorized to provide approval and guidance for situations where a producer may temporarily use the storage structure, drying and handling equipment, and/or storage and handling truck for other purposes. The STC guidance, at a minimum **must** include the following:

- when the producer must request, in writing, authorization to use the FSFL collateral
- frequency (seasonal, quarterly, or annual) of the written request
- situations where authorization is not required
- designated approval authorization when authorization is required.

The STC authorization must be documented in the STC Regular Meeting minutes.

D FSFL Borrower Actions

An FSFL borrower **must**:

- submit a written request to the County Office for approval to store or handle anything other than an eligible FSFL commodity
- have written approval from CED **before** storing or handling anything other than an eligible FSFL commodity.

217 FSFL Structures, Equipment and Trucks Used for Purposes Other Than Originally Intended (Continued)

E FSA Monitoring

COC's shall closely monitor FSFL structures temporarily storing other agricultural-related items to ensure that the structure is used for the purpose for which it was constructed for a good portion of every year during the FSFL term. If it is discovered that a borrower consistently fails to obtain approval from the County Office before storing another agricultural-related item in an FSFL structure, the State Office shall contact PSD for guidance.

218 FSFL's Paid in Full and Releasing Security**A Original CCC-186**

The original CCC-186 **must** be marked "Paid" and forwarded to the borrower after 30 calendar days from the date of payment.

If the borrower requests release before 30 calendar days, see subparagraph B.

B Releasing FSFL Security Earlier Than 30 Calendar Days

Security documents may be released 30 calendar days after the FSFL is paid in full. The release may be earlier than 30 calendar days after FSFL is paid in full, if after SED review, it is determined FSFL has been satisfied and paid in full and the payment was by cash, certified check, or money order. The authority for this release may **not** be redelegated.

If final FSFL payment is made by cash, certified check, or money order, the borrower may request an accelerated release of security documents from SED. Included with the request, the County Office will send a copy of the final FSFL payment receipt showing FSFL has been paid in full, and a copy of CCC-257 showing the remittance has been deposited. SED, after reviewing the documents, may advise the County Office, in writing, to proceed with releasing the security documents. The authority for this release may **not** be redelegated.

If a release of security request is received from the borrower for immediate release at the time of a bank loan closing, SED is authorized to release the security documents only after it is confirmed at the bank that closing certified funds will be used to pay the outstanding FSFL in full.

218 FSFL's Paid in Full and Releasing Security (Continued)**C Releasing FSFL Security Documents**

After FSFL is paid in full, County Offices must wait 30 calendar days and then:

- release or obtain the release of security documents, as **required** by State law, on request by the borrower

Note: See subparagraph D for releasing an Irrevocable Letter of Credit and subparagraph E for specific information on discharging the mortgage or Deed of Trust.

- require the borrower to pay all release fees.

If the borrower requests a release before 30 calendar days, follow the guidance in subparagraph B.

Note: FSA-2071 may be used to record documents and/or forms being returned to the borrower after the FSFL has been paid in full.

D Releasing Irrevocable Letter of Credit

The original Irrevocable Letter of Credit must be marked paid in full and returned to the financial institution. The County Office must maintain a copy of the Irrevocable Letter of Credit marked paid in full in the producer's file folder.

218 FSFL's Paid in Full and Releasing Security (Continued)

 - 30 calendar days from the date of final payment of FSFL have lapsed
- borrower pays all costs associated with the discharge.

A prior lienholder executes CCC-297 at FSFL closing. If the prior lienholder is refinanced, CCC-297 may be released, provided FSA has obtained CCC-297 from the new lender.

B Partial Release of CCC-297

County Offices, after DD or State Office review, are authorized to complete a partial discharge of CCC-297 when CCC's security interest will **not** be jeopardized. The release must **not** include the real estate where the FSFL collateral is located.

Example: Real estate listed on CCC-297 is larger than necessary. The original CCC-297 described the entire 80 acres owned by the borrower. Section 2 Other Servicing

231 Changes to a Farming Operation

A Farming Operation Changes

FSFL's are approved and disbursed to a farming operation that is an eligible entity or eligible producer at the time of approval.

B Borrower Action

If any changes are made to a farming operation with an outstanding FSFL, the borrower **must** do 1 of the following:

- find an eligible borrower or entity to assume FSFL according to paragraph 234
- repay FSFL
- submit current financial documents so that a financial analysis can be completed to ensure that CCC's interests are protected and that the current borrower is in a position to continue making the scheduled FSFL payments.

***--Exception:** If the FSFL is secured with an Irrevocable Letter of Credit a financial analysis is not required unless required by STC.--*

If the borrower is no longer farming and is approved to continue making the FSFL payments by the original approval official, the multi-peril crop insurance, NAP, or dairy insurance coverage requirement, according to paragraph 96 may **not** be required. CCC-195 Servicing, "Remarks" section **must** be noted each year that crop insurance, NAP, or dairy insurance coverage is **not** required.

The only way TIN can be changed on an outstanding FSFL is through the FSFL assumption process. If an individual borrower changes their farming operation to a corporation, the corporation **must** assume FSFL for IRS-1098 to report the interest paid to the new TIN. All the steps for FSFL assumption **must** be completed for the corporation.

The FSFL collateral is still prohibited from being used as a commercial facility or operation as long as FSFL is outstanding.

232 Relocating FSFL Collateral**A Applicability**

Requests by borrowers to move FSFL collateral are permissible when either:

- the borrower wants to move collateral to a new location
- another producer wants to buy the collateral and assume FSFL.

B Destination County Office Action

County Offices may approve requests to move collateral when:

- the collateral is movable and **not** secured by a real estate lien
- COC determines that the move will **not** impair CCC's security interest
- all moving expenses are paid by the borrower
- before the collateral is moved:
 - necessary changes to CCC-186 are made according to OGC advice
 - a lien and deed search is performed
 - an amended UCC-1 describing the new location is filed at the borrower's expense
 - CCC-297's are obtained as necessary
- an on-site inspection at the new location is performed by the administrative or destination County Office
- environmental conditions have been reviewed.

When collateral is moved outside the county that administers FSFL, the destination County Office shall assist the administrative County Office with lien and deed searches and with an on-farm inspection.

Note: Do **not** transfer FSFL's from 1 County Office to another under this provision.

233 Repairing or Replacing FSFL Collateral**A Liability**

Until FSFL has been repaid, the borrower shall be liable for all damages to or destruction of the collateral. CCC shall **not** assume any loss of the FSFL collateral.

B Occurrences

Requests for repairing or replacing FSFL collateral may occur when:

- equipment wears out before reaching the end of its useful life
- equipment is damaged or destroyed by insurable loss
- insured structures and equipment are damaged or destroyed by insurable causes of loss, such as, but **not** limited to, wind storms and fire.

C Collateral Will Not Be Repaired

When collateral is destroyed or damaged and **will not be repaired**, County Offices shall:

- inspect collateral to assess damage
- apply insurance proceeds as a regular FSFL payment
- create a claim for outstanding amounts after CCC has disposed of FSFL collateral, according to 58-FI provisions
- discuss with the approving authority if FSFL should be called according to paragraph 263 and/or determine whether DAFP waiver is needed to allow FSFL to remain outstanding until paid in full.

State Offices may contact the National Office for additional guidance when FSFL collateral will **not** be repaired.

233 Repairing or Replacing FSFL Collateral (Continued)

D Collateral Will Be Repaired

When collateral is damaged and **will be repaired** County Offices shall:

- notify producers that approval is **required** before existing FSFL security documents are amended for repair or replacement
- inspect collateral to assess damage
- advise borrowers that they may apply for a new FSFL for replacement facilities and equipment
- inspect collateral after repairs have been completed
- release insurance proceeds to borrower when borrower presents evidence of cost of repairs.

County Offices shall hold insurance proceeds until repairs are completed **unless** other guidance is provided by the National Office. Insurance proceeds shall **not** be deposited. **Do not let the check expire.** State specialists shall contact PSD, at least 30 calendar days before a check expires, for instructions on how to proceed.

When a portion of the insurance proceeds are needed by the borrower before the collateral can be repaired, the borrower **must** submit a written request to COC to release up to 20 percent of the insurance proceeds. After COC approval, the borrower **must** work with the insurance provider to have 2 checks issued. The County Office may then endorse 1 check for up to 20 percent to the borrower to repair the collateral. The second check **must** be held until all repairs are completed. After repairs are completed, the County Office **must** inspect the ~~*-collateral~~ and document the results on CCC-295A or CCC-295C. If the inspection verifies--* the collateral was repaired properly, the second check in the amount of 80 percent may be released to the borrower.

Note: If the insurance company is **not** willing to issue 2 checks, contact the National Office for guidance.

233 Repairing or Replacing FSFL Collateral (Continued)**D Collateral Will Be Repaired (Continued)**

County Offices **must** ensure that acceptable evidence and CCC-191's are collected and reviewed to substantiate the repair costs. Collecting this information will ensure that FSA does **not** encounter a future liability or mechanics lien.

The borrower is responsible for the cost of amending and refiling FSFL security documents. The original approving authority **must** provide authorization to amend FSFL security documents.

Note: For questionable cases, contact Toni Williams by e-mail to **toni.williams@wdc.usda.gov**.

234 Assumptions**A When Authorized**

An assumption of FSFL may be approved by CCC. The approval authority for FSFL assumption is the same as for a regular FSFL.

Assumptions are authorized, but **not** limited to, when the following situations occur:

- borrower requests an assumption to convey the secured property to another eligible producer
- borrower is deceased and an eligible heir or another eligible producer who is **not** liable for FSFL requests an assumption.

B Application Package

The new applicant **must** apply for FSFL by completing CCC-185. The supplemental application package information, according to paragraph 69, shall also be provided.

C Application Fees for Assumptions

Application fees are **required** for assumptions according to paragraph 58 with 1 exception. A new application fee is **not** required, if the remaining co-borrowers will continue to meet FSFL eligibility requirements and demonstrate the need for the FSFL. For this situation, CED, COC, or FSA employee with loan approval authority may approve CCC-298.

Record application fees for assumptions in DLS according to 2-FSFL.

234 Assumptions (Continued)

D Accrued Interest

Interest due on FSFL from the date of disbursement or date of last payment, as applicable, to the effective date of the assumption may be paid either by the original borrower or by the new applicant. CCC-298, item 11 C relates to “unpaid interest to be assumed”.

IF the interest due is to be...	THEN...
paid by the original borrower	<ul style="list-style-type: none"> • calculate the interest due according to 2-FSFL • apply the interest payment before processing the assumption <p>Note: This payment:</p> <ul style="list-style-type: none"> • may be interest only with no principal repaid • must be applied before dataloading the assumption to credit the interest payment amount to the original borrower’s TIN. <ul style="list-style-type: none"> • in CCC-298, item 11 C, ENTER “0.00” to indicate the buyer is not assuming unpaid interest.
assumed by the buyer	<ul style="list-style-type: none"> • calculate the interest due according to 2-FSFL • complete CCC-298, item 11 C, by entering the calculated interest due to indicate the buyer is assuming unpaid interest. <p>Note: This “unpaid interest to be assumed” must be entered on CCC-298 before buyers and co-buyers sign CCC-298 and the assumption is approved. When the next payment is applied to FSFL, interest will be calculated from the date of disbursement or date of last payment, as applicable. This assumed interest is not collected at the time of the assumption.</p>

234 Assumptions (Continued)

235 UCC-1 Partial Releases Before FSFL Is Paid in Full

A UCC-1 Partial Releases

Occasionally a borrower will sell a specific piece of equipment that is described on UCC-1. County Offices, after DD or State Office review, are authorized to complete a partial release of UCC-1, if the borrower pays the principal and interest cost of the equipment for release.

Example: FSFL UCC-1 describes 2 Sukup round steel grain bins 27 foot diameter, 6 rings height, drying equipment including fan, motor, and an unloading auger. The borrower requests the auger be released.

The borrower shall submit the request in writing. DD or State Office **must** determine the release will **not** jeopardize CCC's security value in the FSFL collateral.

B County Office Action

County Offices shall:

- review the borrower's written request with the DD or State Office
- calculate the principal and interest that will be paid
- determine outstanding FSFL amount and value of the security after payment is received

Note: Review by an FSA employee with loan approval authority is **required** for FSFL's with additional security.

- after DD or State Office approval, review with COC
- collect the payment for the principal plus interest cost of the equipment being released
- apply producer's payment in DLS
- ensure that 30 calendar days from the date of payment of FSFL have lapsed according to paragraph 218
- complete UCC-3 to terminate the UCC filing for the partial release.

236 Partial Release of Real Estate**A General Information on Partial Releases**

Partial releases of real estate are allowed. After necessary information is obtained, COC shall make a determination on whether the partial release is approved.

STC's have authority to establish a more restrictive Statewide policy for partial releases. This **must** be a Statewide basis and **not** on case-by-case basis.

B Information Required by Borrower

Borrower shall:

- submit a written request providing information about the release
- provide a survey of the real estate to be released, if necessary to ensure that the property being released is easily identifiable
- pay all costs associated with the release, including but **not** limited to, survey costs, appraisal fees, and filing fees.

C Processing Request for Partial Release of Real Estate

Items to consider on whether the release will jeopardize CCC's security interest include:

- property released will **not** interfere with access to or operation of remaining real estate
- real estate on which the FSFL structure is located shall **not** be released.

A valuation of the remaining real estate shall be obtained as described in paragraph 122. The methodology used to determine the security value for the outstanding FSFL amount **must** be maintained in the FSFL folder.

Partial release of real estate used to secure FSFL's is authorized when COC (or STC and/or SED if determined on a Statewide basis) determines that the:

- partial release will **not** jeopardize CCC's security interest
- remaining real estate has sufficient value to secure the outstanding FSFL principal amount
- remaining real estate is a saleable unit.

236 Partial Release of Real Estate (Continued)

- County Offices shall monitor local legal publications to determine whether an estate is being administered
- if applicable, an assumption is processed to eligible parties
- if an estate is **not** probated and the heirs show no indication of resolving FSFL, State Office shall make a determination whether to proceed to service FSFL according to Part 13 by calling FSFL and liquidating the security.

Part 13 Delinquent Servicing**262 Delinquent FSFL's****A STC Review of Payment Status**

STC or representative shall ensure that County Offices are:

- sending **required** demand letter the next workday after the installment due date
- sending other **required** demand letters timely
- following correct procedure for collecting any delinquent payments
- documenting all delinquent servicing on CCC-195 Servicing.

FSA Enterprise Data Warehouse reports are available to identify FSFL loans that are delinquent. These include:

- FSFL Delinquency Report
- Status of Farm Storage Facility Loans Report.

See 2-FSFL, Part 8.

B Failure to Pay Installments Policy

[7 CFR 1436.13] If installments are **not** paid by the due date, County Offices shall:

- consider FSFL's delinquent for FSFL purposes and eligible for offset from any payments due the borrower on the next workday after the due date, when the delinquent "behind" installment balance remaining after payment exceeds \$100
- prepare and mail a first demand letter (Exhibit 72) to the contact borrower and all co-borrowers on the next workday after the due date, describing actions that may be taken against the borrower if the installment is **not** paid within 30 calendar days of the date of the letter
- on the next workday after the due date, set the "Other Debt Offsets" flag in the borrower's customer profile through FSA-FS
- in addition to the first demand letter (Exhibit 72), prepare and mail 2 subsequent demand letters at 30-calendar-day intervals if the installment is **not** paid
- complete an inspection according to subparagraph 215 A if the payment is not made within 30 days of the due date

262 Delinquent FSFL's (Continued)

B Failure to Pay Installments Policy (Continued)

- initiate collection action against a borrower's pro rata share of payments due any entity that the borrower participates in, either directly or indirectly
- initiate collection action against related persons or entities, irrespective of the borrower's share when CCC determines that the borrower has established an entity or reorganized, transferred ownership, or changed their operation for the purpose of avoiding payment of the debt
- cease collection activity until any appeal activity by the borrower is complete, but withhold any FSA or CCC payments to the borrower for later offset

Note: Delinquent installments **cannot** be moved out of FSFL and a receivable established in NRRS. This is because a portion of the outstanding principal is **not** due and because collateral that could be foreclosed on exists.

- for delinquent installment balances greater than \$500, initiate foreclosure actions only after all efforts to collect the installment have been exhausted under delinquency policy.

Delinquent FSFL's will be referred to TOP 120 calendar days after the installment due date. National Office will initiate the referral to TOP.

Notes: If determined necessary, County Offices should discuss with the producer, the option to have FSFL assumed by another eligible producer.

Contact the National Office for additional guidance.

262 Delinquent FSFL's (Continued)**C Updating Flags for Delinquent FSFL Borrowers**

On the next workday after the installment due date, County Offices shall set the "Other Debt Offset" flag in FSA-FS, under Customer Profile, on all borrowers listed on the delinquent FSFL, according to 63-FI. Remarks **must** be provided with the reason for the flag and the County Office contact information.

A screen shot verifying the "Other Debt Offset" flag was set must be maintained in the borrower's FSFL folder.

D Demand Letters

Demand letters for delinquent FSFL installment payments (Exhibit 72) are manually prepared by County Office employees.

This subparagraph also applies to collecting over disbursements, according to paragraph 199.

E Delinquent FSFL's for DCIA Purposes

DCIA specifies that no person may obtain any Federal financial assistance in the form of a loan (other than a disaster loan) or a loan guarantee if such person has an outstanding Federal non-tax debt that is in a delinquent status. Further, any such person may obtain additional Federal financial assistance only after such delinquency is resolved.

County Offices shall consider FSFL's delinquent for DCIA purposes when either of the following occurs:

- a due and payable FSFL installment is **not** paid in full within 90 calendar days after the due date
- the installment principal balance, after a due and payable installment is applied, exceeds \$500 within 90 calendar days after the due date.

When FSFL's are over 90 calendar days delinquent, and delinquent amount is greater than \$500, then County Offices shall, in the web-based Subsidiary Eligibility Screen, Delinquent Debt Section, CLICK "Yes" to the question, "Does the producer have an outstanding delinquent Federal non-tax debt?", according to 3-PL, paragraph 33.

262 Delinquent FSFL's (Continued)**F FSFL Acceleration**

CCC may:

- declare the entire indebtedness immediately due and payable if the borrower:
 - violated any of the terms and conditions of the application and/or note and security agreement
 - abandons the FSFL collateral
 - breaches any of the terms and conditions of any of the instruments executed in connection with FSFL
- call FSFL if the collateral is used in connection with any commercial operation, including but **not** limited to, elevators, warehouses, dryers, or processing plants during the life of FSFL. See paragraph 263.

Note: FSFL may be paid in full or in part at any time before maturity without penalty.

262 Delinquent FSFL's (Continued)

263 Calling FSFL's

A Basis for Calling

COC shall call outstanding FSFL's and declare the entire debt due and payable when any of the following apply:

- the borrower:
 - has **not** paid an installment when due (due process **must** be provided)
 - has **not** requested deferral of an installment
 - does **not** maintain the **required** auto, crop, flood or structural insurance
 - has made representations or warranties about FSFL that prove to be false
 - does **not** comply with any covenants or agreements in connection with FSFL or in the application for FSFL
 - dies or becomes incompetent and there is no one to continue FSFL
 - abandons the FSFL collateral and has **not** repaid FSFL or authorized CCC to sell the FSFL collateral
- the FSFL collateral is relocated without COC approval
- the mortgaged property is attached or levied by execution, decree, or other court process
- CCC has sound reasons to consider itself insecure about FSFL.

Example: The condition of the FSFL collateral, such as a storage structure, has deteriorated to the extent it has little or no value, and there are several years remaining on the FSFL term.

If it is determined the borrower is no longer farming, the County Office should discuss with the borrower the option of having another eligible producer assume the outstanding FSFL.

Note: If there are questionable situations, State Offices should contact the National Office for guidance.

263 Calling FSFL's (Continued)**B COC Action**

COC shall:

- follow subparagraph A when considering calling FSFL's to protect CCC's interests
- consult State Office
- take action to call any FSFL approved by COC
- provide recommendations by memorandum to STC to call any FSFL approved by STC.

C Potential Violations

If the reasons for calling FSFL involve potential civil or criminal violations, County Offices shall:

- report the case to OIG through the State Office
- provide a full statement of the facts of the case with applicable documentation through the State Office to OIG
- **not** make recommendations about any administrative action according to 9-AO, subparagraph 50 D
- take action only after receiving legal advice from OGC.

D Notifying Borrower

On final determination to call FSFL, County Offices shall:

- notify the borrower using the letter in subparagraph E
- file a copy of the letter in the FSFL folder.

263 Calling FSFL's (Continued)**E Preparing Call Letter**

Prepare the following Call Letter for **all** borrowers who signed CCC-186 and file a copy in the FSFL folder. Send the Call Letter by certified mail, return receipt requested, 30 calendar days after the date of the last demand letter sent according to subparagraph 262 D, if:

273 Liquidating FSFL's Not Secured by Real Estate With Nonmovable or Nonsaleable Collateral

A Liquidating Actions

When FSFL's have been called and a Liquidation Letter has been issued to borrower, the collateral **must** be sold to liquidate FSFL. However, for FSFL's with nonmovable or nonsaleable collateral and no real estate lien, the County Office shall:

- obtain COC determination that the collateral **cannot** be moved or **cannot** be sold
- have COC establish a fair market value for the collateral and document in COC minutes
- obtain OGC advice through the State Office
- if farm has been sold and the new landowner:
 - meets FSFL eligibility requirements, ask the new landowner to assume FSFL according to paragraph 234
 - does **not** assume FSFL, ask the new landowner to buy the collateral by private sale from CCC
- if the collateral **cannot** be sold or there is a balance remaining after a sale, establish a ~~re~~receivable in NRRS for the outstanding balance, including interest and applicable sales costs, and notify the National Office of the amount liquidated in DLS.--*

274 Liquidating FSFL's Secured With Real Estate Liens**A COC Action**

When FSFL's secured with real estate have been called and a Liquidation Letter has been issued to borrower, the real estate **must** be foreclosed on and sold to liquidate FSFL. COC shall:

- obtain OGC advice through the State Office
- obtain an appraisal of the property with State Office approval
- establish a fair market value or resale value before sale of the collateral and real estate.

B State Office Action

The State Office shall:

- consult with OGC on what actions to take
- coordinate foreclosure action with advice from OGC.

C Foreclosure Sale

If a foreclosure judgment is awarded by a court and a foreclosure sale is court-ordered and held, the County Office shall:

- **not** be obligated to bid at the sale
- enter a bid only if it is considered to be in the best interest of CCC.

Note: Any bid entered by CCC shall **not** exceed the fair market value of the collateral and the real estate established by COC or the borrower's outstanding debt, including interest.

D Distributing Sales Proceeds

Sales proceeds shall be distributed in the following order:

- satisfying borrower's indebtedness to CCC, including cost of sale and appraisal
- payment to junior lienholders if approved by OGC
- payment to the borrower.

Note: Establish a claim if the borrower's debt is **not** completely liquidated by sale of the FSFL collateral.

274 Liquidating FSFL's Secured With Real Estate Liens (Continued)**E If CCC Acquires Property**

Under certain circumstances, it may be in CCC's best interest to bid at the foreclosure sale *--and acquire the real estate. FSA-851 processes should be completed to determine if there are environmental factors present which could impact value and influence the amount of FSA's bid at foreclosure sale or, which must be disclosed to prospective buyers, or for which FSA needs to be indemnified as provided by 2-EQ should the agency become the owner of the property. See 5-FLP, Exhibit 60 for a worksheet of how to calculate net recovery value of a property and the appropriate amount of FSA's bid.--*

Example: If at a foreclosure sale, other bids are **not** equal to the fair market value or the borrower's outstanding debt.

If CCC acquires the real estate, the State Office shall:

- obtain a copy of the entire FSFL folder, send to PSD, and include the following information in a cover memorandum:
 - name of borrower and FSFL number
 - description of property
 - amount of accrued interest to date
 - resale value established by COC
 - amount of any bids received plus amount paid by CCC
 - STC recommendations for disposing of property
- instruct the County Office to dispose of the property as authorized by PSD and OGC
- instruct the County Office to transfer any outstanding balance to claims after disposing of the real estate.

275-290 (Reserved)

Part 14 Bankruptcy**291 Bankruptcy Actions****A Notification**

After notification by a bankruptcy court that a borrower has filed or is filing for bankruptcy, County Offices shall:

- perform a UCC chattel and fixture lien search to verify CCC's lien position , according to subparagraphs 144 A and B
- send a copy of the notice of filing to the State Office for forwarding to the regional OGC
- **not** take any action:
 - to possess or sell the collateral
 - prohibited by the Bankruptcy Code
- obtain advice from OGC through the State Office **before** taking any action against the person or property filing a petition for bankruptcy.

Notes: With the approval of the regional OGC, it is strongly suggested that the State Office file a Proof of Claim (Form 410) on **all** FSFL's in bankruptcy with the bankruptcy court by the due date, including copies of the following:

- CCC-186
- CCC-190
- CCC-295A
- *--CCC-295C--*
- CCC-297
- equipment lists
- UCC-1's and amendments.

<http://www.uscourts.gov/services-forms/forms?k=&c=67&=Apply> or at
http://www.uscourts.gov/sites/default/files/form_b_410_16.pdf.

291 Bankruptcy Actions (Continued)**A Notification (Continued)**

After receiving notification of a bankruptcy filing, the State Office shall e-mail the following bankruptcy information to Toni Williams at **toni.williams@wdc.usda.gov**:

- name and address of borrower
- State and county
- year and FSFL number
- date of bankruptcy filing
- bankruptcy chapter filed
- FSFL principal balance at bankruptcy filing

The following cite should be considered when a FSFL debtor has filed bankruptcy and Form B10 is **required**.

“11 U.S.C. § 502(b)(9) (“a claim of a governmental unit shall be timely filed if it is filed before 180 days after the date of the order for relief or such later time as the Federal Rules of Bankruptcy Procedure may provide”); Fed. R. Bankr. P. 3002(c)(1) (“A proof of claim filed by a governmental unit, other than for a claim resulting from a tax return filed under § 1308, is timely filed if it is filed **not** later than 180 days after the date of the order for relief. A proof of claim filed by a governmental unit for a claim resulting from a tax return filed under § 1308 is timely filed if it is filed no later than 180 days after the date of the order for relief or 60 days after the date of the filing of the tax return. The court may, for cause, enlarge the time for a governmental unit to file a proof of claim only on motion of the governmental unit made before expiration of the period for filing a timely proof of claim.”).”

291 Bankruptcy Actions (Continued)**C Reorganization Plans**

After the court notifies either the State or County Office that a confirmed plan of reorganization has been approved and the terms and conditions of CCC-186 and supplemental documents are changed by court order, County Offices shall:

- maintain FSFL in DLS

Notes: If the terms and conditions of CCC-186 and supplemental documents are changed by court order, the County Office through the State Office, shall contact PSD for the correct and up-to-date procedures to follow to revise FSFL terms.

A copy of the reorganization plan **must** be provided by e-mail to **toni.williams@wdc.usda.gov**.

- accept payments according to the reorganization plan
- refer the claim to OGC for legal action if a borrower defaults on the payment schedule or any provision of the court-approved plan.

291 Bankruptcy Actions (Continued)**D Selling Collateral**

If the bankruptcy court authorizes CCC to sell the collateral, rather than accepting payments according to a reorganization plan, County Offices shall:

- ask the borrower to sign CCC-400:
 - prepared according to paragraph 246
 - revised with OGC advice
- sell FSFL collateral according to Part 13
- apply sales proceeds to the outstanding FSFL amount
- if sales proceeds exceed the amount due CCC, refund the excess amount to the producer
- transfer the unpaid FSFL balance to claims if:
 - there is an unpaid FSFL balance
 - collateral has been sold
 - FSFL has been discharged by the bankruptcy court.

When FSFL collateral is sold under a bankruptcy plan, the following information **must** be sent to PSD:

- fair market value determined by COC
- sales proceeds received
- date sales proceeds received
- sales expenses
- date FSFL liquidated.

292-300 (Reserved)

Part 15 Fees

301 Program-Related Codes

A Collecting Application Fees

An FSFL application fee of \$100 per FSFL applicant **must** be collected according to paragraph 58. Record the application fee as soon as it is collected in DLS. See 2-FSFL for correctly recording the FSFL application fee.

In addition to the FSFL application fee, the applicant is responsible for paying for certain filing fees associated with their FSFL as identified in subparagraph 58 C.

The application fee for FSFL assumption **must** be collected when the assumption is requested, according to paragraph 234.

302 Issuing Payments for Lien Searches and Recording Fees**A Fees Responsibilities**

CCC is responsible for **paying** fees for:

State and County Offices must use DLS for paying all fees for FSFL lien searches and financing statements.

B Paying Fees

County Offices must submit payment requests for FSFL lien search and recording fees according to current 2-FSFL procedures.

***--Note:** Recoverable fees can only be processed using the “pay now” or “pay later” options. Therefore, the user is not authorized to select “credit card” for FSFL recoverable fees.--*

303 Reimbursable Fees**A Reimbursable Fee**

An example of a reimbursable fee is the borrower repaying the County Office for CCC-297 filed for the producer. According to subparagraph 58 C, the borrower is responsible for the cost associated with the filing of CCC-297. Other examples include, but are **not** limited to, the following:

- filing and recording CCC-297 and other forms related to a lien on real estate
- filing a release or discharge of a real estate mortgage or deed of trust
- filing a discharge of CCC-297
- terminating a financing statement using a UCC document.

FSFL recoverable and/or reimbursable costs are the responsibility of the borrower, but in some instances may be paid on behalf of the borrower by CCC because of timing issues, and then collected back from the borrower. See 2-FSFL for guidance on entering recoverable fees in DLS.

303 Reimbursable Fees (Continued)

B Payments for Reimbursable Fees Submitted by County Office

County Offices must:

- *--use DLS to **pay** for FSFL reimbursable fees that will be reimbursed by the applicant/borrower, according to 2-FSFL--*

- *--submit the payment request for reimbursable fees according to current 2-FSFL procedures.--*

* * *

C UCC Recording Fee

CCC is responsible for payment of lien searches on collateral and UCC-1 recording fees for *--financing statements on collateral. See 2-FSFL.

When FSFL's are paid in full, the UCC termination fee is the responsibility of the borrower, and the UCC termination fee **must** be processed according to subparagraphs A and B.--*

Upon default, the Borrower will receive any rents in trust for Beneficiary, and Borrower will not commingle the rents with any other funds. Any amounts collected shall be applied at Beneficiary's discretion first to costs of managing, protecting and preserving the property, and to any other necessary related expenses. Any remaining amounts shall be applied to reduce the debt evidenced by the note(s). **ADVERSE DETERMINATION NOTIFICATION LETTER
BASED ON ENVIRONMENTAL REVIEW**

Date:

Name
Address

Dear:

The Farm Service Agency (FSA) has carefully considered your FSFL application dated *(insert date)* in the amount of \$ *(amount)*. We regret to inform you that your request can not be approved at this time. The specific reasons for this decision are:

- All applicants for FSA assistance are required to meet the environmental requirements of 7 CFR Part 799, and as specified by 7 CFR 799.7 (a) (7) to "provide information necessary for FSA to evaluate a proposed action's potential environmental impacts and alternatives."
 - 7 CFR 799.1(a) (i) provides for compliance with National Environmental Policy Act (NEPA) of 1969, as amended (42 U.S.C. 4321 through 4370.) Therefore 7 CFR 799.11 (a) in keeping with 40 CFR 1506.1 specifies that the Agency or a program participant must not take any action, implement any component of a proposed action, or make any final decision until after the NEPA environmental compliance review process has been concluded and a record of the decision issued.
 - As provided by 40 CFR 1506.6 the public must be informed of and allowed to comment on proposed activities as part of the environmental review process. *(Insert only when a floodplain or wetland is present or may be impacted or an environmental assessment is prepared.)*
- It has been established that site work was completed and related construction activity for this project begun prior to completion of the environmental review and issuance of a record of decision.
 - Requisite consultations *and solicitation of public comments* regarding potential impacts of the project cannot be completed after the fact.
 - The range of possible alternatives and possible mitigation considerations has been limited.
 - Potential impacts may have been triggered as a result of the predecisional action.

As the requisite information necessary for FSA to be able to complete the appropriate level of environmental review for NEPA compliance is not available, the request must be denied.

If you believe this decision is not correct, you have the following options:

Worksheet for Determining Hay and Biomass Storage Capacity in a Structure

An applicant's needed storage can be determined with NIFA and land-grant university assistance or with the following worksheet that is available electronically in a fillable format on the FFAS Employee Forms/Publication Online Website in fillable format at <https://intranet.fsa.usda.gov.dam/ffasforms/forms.html>. CLICK "Find Current Forms Using Our Form Number Search". For "Form Number", ENTER "1-FSFL Exhibit 20"

The following is a completed example worksheet for determining hay storage capacity in a structure.

1-FSFL Exhibit 20	
WORKSHEET FOR DETERMINING HAY STORAGE CAPACITY IN A STRUCTURE	
1) Average acres of hay planted: _____	
2) COC determined reasonable yield: _____ tons per acre	
3) Production: _____ average acres of hay x _____ tons per acre = _____ tons x 2 years production = _____ tons of storage needed for 2 years production	
4) Size of proposed structure: _____ ft. x _____ ft. x _____ ft. = _____ cu. ft. Width Length Height to Plate	
5) Tons of storage: _____ cu. ft. of storage divided by 250 cu. ft./ton = _____ tons of storage in proposed structure.	
Use either of these conversion factors: 1 pound of hay requires 0.125 cubic ft. of space or 1 short ton of hay requires 250 cubic ft. of space.	
Note: COC's shall use either of these conversion factors unless the applicant supplies the County Office detailed documentation of a higher yield.	
6) Compare the tons of storage in proposed structure with the tons of storage needed for 2 years production minus the existing hay storage to determine if applicant is eligible for additional storage.	
Tons of storage needed for 2 Years production: _____	
Tons of storage in proposed structure: _____	
Existing hay storage: _____	

Worksheet for Determining Capacity of a Cold Storage Structure

The following worksheet can be used to compute the storage need requirement and capacity of a cold storage structure. This worksheet is available on the FFAS Employee Forms/Publication--* Online Website in fillable format at <https://intranet.fsa.usda.gov.dam/ffasforms/forms.html>. CLICK "Find Current Forms Using Our Form Number Search". For "Form Number", ENTER "1-FSFL Exhibit 21"

The following is a completed example worksheet for determining capacity of a cold storage structure, as follows.

Example: Producer has $\frac{1}{2}$ acre of apples that yield about **330** bu. of apples per year. An application is submitted for an **8 ft. x 8 ft. x 12 ft.** cold storage facility. A tray pack carton, storing a bu. of apples, takes **1.67** cu. ft. of storage space.

How much of the producer's production can be stored at 1 time?

 $\text{_____ percent non-useable space} = \text{_____ square ft. of non-useable space.}$
- 5) _____ square ft. of useable space - _____ square ft. of non-useable space =
 _____ square ft. of total useable space.
- 6) Available height after subtracting shelves and 1.5 ft. of space between containers
 and ceiling: $\frac{\text{Inside Height}}{\text{ft.}} - 1.5 \text{ ft.} - \frac{\text{Total Shelves}}{\text{ft.}} = \text{_____ ft. useable height.}$
- 7) Cubic ft. available for storage: _____ square ft. of usable space x
 _____ ft. useable height = _____ cu. ft.
- 8) _____ total cu. ft. divided by _____ capacity per cu. ft. container or bushel =
 _____ total storage capacity in bu.
