F Forms

Forms, worksheets, applications, and other documents other than those provided in this handbook or issued by the National Office will **not** be used for Pandemic Programs.

Any document that collects data from a producer or handler, regardless of whether their signature is required, is subject to the Privacy Act and information collection procedures, including clearance of these documents by the following offices:

- National Office program area
- MSD, Directives, Forms, and Records Management Branch, Forms Management Section
- OMB.

Forms, worksheets, and documents developed by State or County Offices **must** be submitted to the National Office for review and approval.

Important: State and/or County Office-developed forms, worksheets, or other documents will **not** be used for Pandemic Programs unless approved by the National Office.

2 Outreach

A General Information

Program outreach is a critical component of FSA's objective in ensuring access of information and programs to interested producers and potential producers is provided. FSA outreach activities are National, State, and County Office informational and educational efforts made to promote program benefits and eligibility criteria. Employees are required to conduct outreach activities on programs that align with the Agency's FY outreach goals, which includes programs administered in this handbook.

The following types of outreach activities may be conducted to market the program:

- informational meetings
- program workshops and conferences
- stakeholder meetings
- electronic producer newsletters
- press releases
- web announcements and other broadcast media formats.

Example: Radio and television public service announcements.

2 Outreach (Continued)

A General Information (Continued)

Outreach efforts are designed to increase participation from potential and current agricultural producers such as underserved communities; outreach efforts are not guaranteed to reach all producers. Employees are encouraged to work with partners to assist with outreach efforts.

State and County outreach coordinators, and designated State organic champions, shall engage closely with partnering stakeholders organizations, non-profit organizations, community based organizations, associations and other USDA agencies to participate in and support collaborative outreach activities to promote the program.

Notes: All county and State eligible outreach activity types are required to be recorded in OTIS to report the county's outreach accomplishments that support the Agency's strategic outreach goals.

As resources permit, COC will ensure specific pandemic program provisions are publicized and maintain a record of all public information efforts, including posting in Service Centers, according to public information and program policies.

3 NEPA Requirements

A Background

NEPA of 1969, as amended, requires that Federal agencies must consider all potential environmental impacts before implementing activities that have the potential to significantly impact the human environment; all environmental processes must be fully completed before an action can be approved; and agencies must consult with and obtain comments from Federal agencies that manage or have expertise about resources that are potentially affected. FSA's environmental compliance program's mission is to use all practicable means to ensure FSA compliance with all applicable environmental laws, regulations, and procedures. FSA uses an environmental review process to determine the appropriate level of NEPA analysis and documentation required.

B Programmatic Determination of Environment Compliance

The National Office has determined that the programs in this handbook do not constitute a major Federal action that would significantly affect the quality of the human environment, individually or cumulatively. Therefore, FSA-850 will not be completed.

4 Erroneous Information and Misrepresentation

A Impact of Providing Erroneous Information and Misrepresentation

If any application for a Pandemic payment resulted from erroneous information reported by the producer, the payment will be recalculated, and the producer must refund any excess payment to USDA. If the error was the producer's error, the refund must include interest to be calculated from the date of the disbursement to the producer.

If USDA determines that the producer's application misrepresented total amount of gross revenue, or if the Pandemic payment would exceed the payment as calculated based on the correct amount of gross revenue the application will be disapproved and the participant must refund to USDA all applicable Pandemic payments made to the producer with interest from the date of disbursement.

If any corrections to the ownership interest in the crop are made and would result in a lower pandemic payment, the producer must refund the difference with interest from date of disbursement.

Any required refunds must be resolved according to debt settlement regulations in 7 CFR Part 3.

B Perjury

In either applying for or participating in pandemic programs, or both, the producer is subject to laws against perjury and any penalties and prosecution resulting therefrom, with these laws including but not limited to 18 U.S.C. 1621. If the producer willfully makes and represents as true any verbal or written declaration, certification, statement, or verification that the producer knows or believes not to be true, in the course of either applying for or participating in pandemic programs, or both, then the producer is guilty of perjury and, except as otherwise provided by law, may be fined, imprisoned for not more than 5 years, or both, regardless of whether the producer makes such verbal or written declaration, certification, statement, or verification within or without the United States.

C Joint and Several Liability

All persons and legal entities with a financial interest in an operation or in an application for payment determined to have been paid incorrectly are jointly and severally liable for any refund, including related charges, that is determined to be due CCC for any reason.

- ensure that FSA assist persons by providing program information as it becomes available, using a variety of methods.

Note: Because of the limits of FSA resources, publication of program information may or may not be by direct mail or on an individual basis. FSA meets its publication responsibilities by making broad program announcements in press releases, print and electronic media, Federal Register documents, radio and television announcements, and through posting program information in USDA Service Centers.

The reality of limited resources has increased the participant's responsibility for being aware of program provisions. FSA cannot be responsible for reaching out to every potential program participant with all program information. Participants must seek information on program details and not wait for FSA to individually contact them about program provisions. As resources permit, COC will ensure that program provisions are publicized and maintain a record of all publicity efforts, including postings in Service Centers.

The PATHH Fact Sheet:

- may be used to provide general program information
- is available at <https://www.fsa.usda.gov/news-room/fact-sheets/index>.

E CED Responsibilities

- ensure that FSA assists persons by providing program information as it becomes available, in a variety of different methods.

F PT Responsibilities

Within the authorities and limitations in this handbook and PATHH NOFA, PT's will:

- fully comply with all PATHH provisions
- immediately notify CED of software problems, incomplete or incorrect procedures, or specific problems
- ensure that all program eligibility requirements have been met by producers before issuing any payment to ensure that IPIA provisions are met.

16 Responsibilities (Continued)**G Applicant Responsibilities**

The applicant is responsible for being aware of program provisions and accurately reporting all required information, as applicable, on FSA-1118.

Applicants who are approved for participation in PATHH are required to retain documentation in support of their application for 3 years after the date of approval.

Participants receiving PATHH payments or any other person who furnishes information to USDA must permit authorized representatives of USDA or GAO during regular business hours, to enter the operation and to inspect, examine, and to allow representatives to make copies of books, records or other items for confirming the accuracy of the information provided by the participant.

- the applicant(s) being liable under any civil or criminal fraud statute or any statute or provision of law.

17-29 (Reserved)

Section 2 PATHH Policies and Provisions**30 PATHH General Program Policies and Provisions****A Definitions**

Gross revenue means the business's gross receipts. Do **not** include sale of physical assets, such as machinery or equipment, when calculating gross revenue.

Gross receipts mean the total amounts the timber harvesting business or timber hauling business received from timber harvesting and timber hauling activities, without subtracting any costs or expenses.

Note: See paragraph 49 for guidance on identifying gross receipts.

Legal entity means, for the purposes of administering PATHH, a timber harvesting business or timber hauling business that is a corporation, joint stock company, association, limited partnership, irrevocable trust, estate charitable organization or other similar organization including any such organization participating in a business structure as a general partnership, a joint venture, a grantor of a revocable trust or as a participant in a similar organization, is considered a legal entity, subject to the payment limitation and payment eligibility requirements for PATHH. A business operating as a sole proprietorship is considered a legal entity.

NAICS means the 2017 North American Industry Classification System (NAICS). It is the standard used by Federal statistical agencies in classifying business establishments for the purpose of collecting, analyzing, and publishing statistical data related to the U.S. business economy.

Person means an individual, natural person and does not include a legal entity.

Principal business code means a 6-digit number that classifies the main type of product a business sells, or service offered. It is based on NAICS codes and is synonymous in this handbook with NAICS.

Timber means trees or logs harvested from forest land. It includes trees or logs that have been minimally processed onsite in the forest before transportation from the forest land (for example, chipping, grinding, converting to biochar, cutting to smaller lengths, etc.)

30 PATHH General Program Policies and Provisions (Continued)

A Definitions (Continued)

Timber harvesting business means a business, also known as a logging business, with its gross revenue derived from 1 or more of the following:

- cutting timber
- cutting and transporting timber
- producing wood chips on forest land.

In addition, the business must be classified under NAICS Code 113310 for tax purposes; or as otherwise determined by DAFP.

Note: See paragraph 47 for policy when NAICS Code 113310 is not provided.

Timber hauling business means a business, also known as a log hauling business, with its gross revenue derived from transporting products harvested from forest land with vehicles registered (under the laws of the State or States in which the vehicle is required to be registered) as highway motor vehicles used in the transportation of timber. The business must also be classified under NAICS Code 484220 or 484230 for tax purposes and have filed IRS Form 2290 for logging vehicles for 2019 and 2020 or operated on Tribal land only and did not submit IRS Form 2290, or otherwise determined by DAFP.

Note: See paragraph 47 for policy when NAICS Codes 484220 or 484230 or IRS Form 2290 are not provided.

31 Program Eligibility Requirements

A Program Eligibility

To be eligible for PATHH, the applicant must:

- be in operation as a timber harvesting business or timber hauling business during some portion of both:
 - January 1, 2019, through December 1, 2019
 - January 1, 2020, through December 1, 2020

Reminder: The applicable gross revenue time periods for PATHH are 11 months and not full calendar years.

Note: Timber operations that experience normal seasonal fluctuations during the applicable time periods will be considered in operation during the entire PATHH period.

31 Program Eligibility Requirements (Continued)**A Program Eligibility (Continued)**

- have at least a 10 percent timber harvesting and/or timber hauling gross revenue loss when comparing the 2020 period with the 2019 period
- have 50 percent or more of its gross revenue derived from timber harvesting, timber hauling, or both during the periods of:
 - January 1, 2019 through December 1, 2019
 - January 1, 2020 through December 1, 2020
- be 1 of the following:
 - citizen of the United States
 - resident alien, which for purposes of PATHH, means “lawful alien” as defined in 5-PL and 7 CFR Part 1400
 - partnership of citizens or resident aliens of the United States
 - corporation, limited liability company, or other organizational structure organized under State law and solely owned by U.S. citizens or resident aliens
 - Indian Tribe or Tribal organization, as defined in section 4(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304)
- provide the name and taxpayer identification number for each person and/or legal entity that held an ownership interest in an applicant that is a legal entity according to 5-PL.

31 Program Eligibility Requirements (Continued)**B Eligible Operations That Have Changed From 2019 to 2020**

The following business structure changes that occurred between 2019 and 2020 are exceptions to allow for PATHH program eligibility:

- **Sole-Member Business Changes**

Applicants that are a sole-member business structure may be considered eligible if there was a change in the organizational business structure, including a new TIN, from 2019 to 2020. COC will determine if the operation is still being conducted by the same individual person using the same equipment and management.

Example: An individual person conducted a timber harvesting and hauling business in 2019 using their SSN. In 2020, the same person created a sole proprietorship, sole member LLC, or revocable trust. The only change is that the business, conducted by the same individual, is organized differently in 2020 compared to 2019. The new entity will be the PATHH applicant and use its revenue from 2020 compared to the revenue of the individual person in 2019 to determine eligibility for PATHH and the payment amount for qualifying losses.

- **Legal Entity or Joint Operation Changed TIN**

When a legal entity applying for PATHH reports their business changed TIN between 2019 and 2020, COC or designee may consider this a valid exception for accepting the revenue certification and documentation providing the operation's members, equipment, and management remain the same.

Example: In 2019, ABC LLC had 3 members and changed to a General Partnership in 2020 with the same members. COC may accept the revenue certification and program documentation for both TIN's for each year in determining PATHH eligibility and payment amounts for qualifying losses.

31 Program Eligibility Requirements (Continued)**B Eligible Operations That Have Changed From 2019 to 2020 (Continued)**

- Business Adds Family Members and Changes TIN

COC must review and scrutinize changes to membership and TIN to determine whether the operation is the same business in 2020 as it operated in 2019. In some cases, the applicant's ownership structure may have resulted in the addition or removal of family members, including TIN changes, yet the operation is still conducting its business the same way.

An operation comprised solely of family members as defined in 5-PL, from 2019 to 2020, which may also subsequently change the business TIN may be considered eligible upon COC review. In considering this exception, COC will determine whether the business itself is the same and not a new business.

Example: A father has DEF Logging, LLC in 2019. In 2020, his 2 children become shareholders and the operation incorporates in 2020. The 2020 business is ABC Logging, Inc. with 3 members. ABC Logging Inc will apply for PATHH using their 2020 gross revenue and the 2019 revenue from DEF Logging LLC. COC may determine this a valid exception.

- Business Adds Non-Family Members and Changes TIN

COC may consider an exception when the business entity TIN changed from 2019 to 2020, and the business added or removed non-family members. COC must determine whether the business's 2020 revenue was derived from the same or similar source(s) as in 2019 using the same equipment and management.

Example: In 2020 HIJ LLC added non-family members to the operation and changed its TIN. In this case, the operation stayed the same in terms of its revenue-generating capability, including using the same equipment and management used to conduct the operation in 2019.

31 Program Eligibility Requirements (Continued)**C Ineligible Applicants**

The following applicants are ineligible for PATHH:

- person who is not a citizen of the United States or a lawful alien
- legal entity or joint operation (including general partnership or joint venture) with a member, or members, at any level of ownership in the entity's ownership structure who is not a citizen of the United States or a lawful alien
- legal entity (including members of a legal entity) that fails to provide names and taxpayer identification numbers for persons and legal entities that hold an ownership interest in the legal entity
- person who is a minor child who is not 18 years of age at the time of application.

D Ineligible Businesses

The following businesses are ineligible for PATHH:

- residential or commercial tree care, including businesses which apply arboricultural methods like pruning, trimming, and felling/thinning in residential and/or commercial built environments
- landscape services, including businesses which construct, install, and maintain lawns, trees, yards, shrubs, gardens, patios, related grounds, and outdoor areas which are owned by others
- trucking businesses that do not transport trees or logs
- timber broker

Note: Timber buyers and/or brokers are people who buy and sell standing timber and logs, but may not have accredited education or training in the timber industry. They can work independently (as middle persons) or directly for mills.

- United States Federal, State, and local Governments, including public schools, as defined in 5-PL.

31 Program Eligibility Requirements (Continued)

E Ineligible Operations That Have Changed From 2019 to 2020

The following situations are not allowed as exceptions when considering TIN changes:

- entities that operated separately in 2019 and then combined in 2020

Example: In 2019, KLM, LLC and Timber, Inc. both were operating as separate businesses, with separate tax returns, equipment, and resources. In 2020, the 2 companies merged to form KLM Timber, Inc. COC would not consider this 1 business with member or TIN changes to meet the exemption.

- any other situation when the tax ID changed from 2019 to 2020 is not exempted in this handbook.

32 Customer Records for PATHH Applicants

A Overview

All individual persons and legal entities (including joint operations) and its members, seeking PATHH benefits must have a customer record established in BP that includes a valid taxpayer identification number.

B Collecting Customer Data

An applicant that is a new customer must complete AD-2047 to provide information that positively identifies the customer. An applicant that is a legal entity or joint operation must provide the customer information for each member holding an ownership interest in the business structure.

Applicants that are existing customers may update their profile by completing AD-2047, as applicable.

The customer information must be recorded in Business Partner (BP) according to 11-CM.

C Farm Record

An applicant is not required to be associated with a farm to be eligible for PATHH.

33 Payment Limitation and Attribution of Payments

A Payment Limitation

A person or legal entity, including a joint venture or general partnership, cannot receive directly, payments of more than \$125,000 under PATHH. Unlike other programs administered by FSA, applicants that are a joint venture or general partnership will be treated like a corporation and will be eligible to receive a single payment limitation per entity.

FSA may reduce the maximum payment limitation after all applications are received based on available funding.

Payments made to a program applicant that is an Indian Tribe or Tribal organization, as defined in section 4(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304), will not be subject to attribution of payments or payment limitation.

B Payment Attribution

Rules for limiting payments by direct attribution do not apply to PATHH. Accordingly, rules for common attribution do not apply.

C Administration of PATHH's Payment Limitation

To facilitate the administration of payment limitation, applicants that are a legal entity or joint operation (including a general partnership or joint venture) **must** file CCC-901 to provide entity member information for FY 2020.

The Business File application will be used to record the required member information in FY 2020 for the timber harvesting and/or timber hauling business according to 3-PL (Rev. 2). Only the entity member information, signature authority, and authorized representative's signature date collected on CCC-901 is required to be recorded.

Note: CCC-903 is not required to be completed and COC determination will not be made.

D Conservation Compliance

AD-1026 applicable to 2020 **must** be on file for the applicant and applicable affiliates according to 6-CP.

Conservation compliance provisions apply to applicants seeking USDA benefit subject to conservation compliance on all agricultural land (cropland, rangeland, pastureland, forestland) tied to them as owner, operator, or other producer, as defined in 10-CM. PATHH participants or affiliates with no interest in agricultural land may certify using AD-1026, Box 5A.

33 Payment Limitation and Attribution of Payments (Continued)**D Conservation Compliance (Continued)**

If an applicant has a farming interest, they will not be permitted to certify with Box 5A and will complete AD-1026 as applicable (must certify full form and establish farm records for their agricultural land interests).

If AD-1026 applicable for 2020 is:

- already on file for the applicant and its affiliates, if applicable, it is not necessary to obtain a new AD-1026 for PATHH
- not on file for the applicant and its affiliates, if applicable, the County Office will obtain a completed AD-1026 for 2020.

E Average Adjusted Gross Income (AGI)

Average Adjusted Gross Income (AGI) and 75 percent average Farm AGI provisions do not apply to PATHH.

F Controlled Substance

Controlled Substance provisions apply to PATHH according to 1-CM.

G Actively Engaged and Cash Rent Tenant Rules

Actively Engaged in Farming and Cash Rent Tenant requirements do not apply to PATHH.

H Payment Eligibility Requirements

An applicant must meet all of the following requirements before a payment will be issued.

- File the following forms with their local USDA Service Center as applicable:
 - FSA-1118
 - CCC-901 for legal entities according to 5-PL, if applicable

Note: A manual CCC-901 is not required if member information is recorded in Business File and the authorized representative of the legal entity signs the automated CCC-902.

33 Payment Limitation and Attribution of Payments (Continued)

H Payment Eligibility Requirements (Continued)

- AD-2047 for each applicant and entity member, if applicable

Note: Existing customers may also complete AD-2106 to report demographic information, including race, ethnicity and gender.

- AD-1026 according to 6-CP

Note: Follow 1-CM provisions for persons who have died, disappeared, or been declared incompetent.

- Not be in violation of fraud provisions, including FCIC fraud provisions, according to 1-CM
- Be in compliance with the controlled substance provisions according to 1-CM.

I Timeframe for Filing Eligibility Documents

The applicant **must** submit all payment eligibility forms within 60 days from the date of signing the PATHH application (FSA-1118).

When an applicant does not submit the required eligibility documentation, FSA will not issue a payment.

Failure to timely provide all eligibility documents may result in no payment or a reduced payment.

34-44 (Reserved)

Section 3 PATHH Application Processing and Review**45 Signup****A PATHH Signup**

Timber harvesting and timber hauling businesses can apply for PATHH benefits at any County Office nationwide. The applicant must complete FSA-1118 to receive a payment.

The signup period for PATHH is July 22, 2021, through October 15, 2021.

B Late-Filed Provisions

If a timber hauling business or timber harvesting business submits an application after October 15, 2021, the application is late. Appeal rights must be provided if the application is disapproved according to 1-APP. COC, STC, or DAFP's refusal to exercise discretion and grant acceptance of the late-filed application will not be considered an adverse decision and is not appealable.

COC may consider relief. The applicant must provide a written explanation as to why the application was filed after the deadline and if COC and STC determine relief is warranted, the case may be submitted to DAFP for consideration according to 7-CP.

46 Applying for PATHH and Reasonable Documentation**A Applying for PATHH**

Applicants will submit FSA-1118 for their entire operation nationwide. See paragraph 50 for FSA-1118 and instructions.

An applicant may submit an application using any of the following methods:

- in person
- by mail
- electronically by:
 - FAX
 - email with a scanned or photocopy of the signed FSA-1118 attached

46 Applying for PATHH and Reasonable Documentation (Continued)

A Applying for PATHH (Continued)

- other authorized method such as online at www.farmers.gov or via Box or other authorized means
- online application.

Note: Submitting FSA-1118 online requires an active Level 2 eAuthentication account. Individual applicants can register for a Level 2 eAuthentication account at www.eauth.usda.gov.

By signing FSA-1118, Part D, the applicant is:

- certifying:
 - all information is true and correct to the best of their knowledge
 - they are a US citizenship or lawful alien
 - they agree to all the conditions in Part A of FSA-1118
 - they are not any of the ineligible applicants as listed in paragraph 31
- acknowledging and understanding that a false certification to FSA is cause for disapproval of FSA-1118 and is punishable by imprisonment, fines, and other penalties.

A complete FSA-1118, including the applicant's signature, must be received or postmarked by October 15, 2021.

For timber hauling businesses, a copy of the applicant's IRS Form 2290 Heavy Highway Vehicle Use Tax Return for 2020 and 2019 must be provided. An example of this form can be found on the IRS website at <https://www.irs.gov/forms-pubs/about-form-2290>.

Exception: If a timber hauling business is only operating on Tribal land, IRS Form 2290 is not required.

Notes: When an IRS Form 2290 is not available and the hauling business operates on non-Tribal land, the case may be submitted to COC and appealed to DAFP for consideration. COC may request documentation that allows them to decide if the timber hauling applicants should be exempt from submitting this form.

Under Part C of the FSA-1118 for Harvesters & Haulers, if the applicant is both a timber harvester and hauler, they should enter the NAICS code that is reported on their tax return. If the applicant has multiple NAICS codes on their tax return, they should enter the code representing the majority of the business's gross revenue.

46 Applying for PATHH and Reasonable Documentation (Continued)**B Reliance on Applicant Records and Certifications**

PATHH requires accurate information from applicants. Applicants must understand that failure to provide complete and accurate information and records may result in the following:

- an application for PATHH assistance being disapproved, COC adjusted, or approved but ineligible for payment
- the applicant or applicants being liable under any civil or criminal fraud statute or any other statute or provision of law.

C Software Location

The PATHH application is located on the FSA Applications Page and can be accessed by clicking <https://intranet.fsa.usda.gov/fsa/applications.asp>.

D PATHH User Guides

The County Office user guide for the PATHH software is located on the DAFP website <https://inside.fsa.usda.gov/program-areas/dafp/dap/pathh/index>.

The applicant user guide for the PATHH software is located at farmers.gov/pathh.

E Manual Applications

Manual applications may be accepted but must be entered into the automated software immediately upon receipt. Once loaded, the computer-generated application must be printed and attached to the manual application.

F Electronically Initiated Application

If an applicant initiates an application using Level 2 eAuthentication, the recording County Office will receive an email notification. This application will need to be accessed to complete the process. Follow applicable user guide instructions.

G IRS Form 2290

Timber haulers must provide a copy of their entire 2019 and 2020 IRS Form 2290 for logging vehicles with their PATHH application.

The IRS Form 2290 goes from July 1, through June 30 of each applicable year.

46 Applying for PATHH and Reasonable Documentation (Continued)

G IRS Form 2290 (Continued)

Part D (Timber Harvester/Timber Hauler Certification) of the FSA-1118 requires only timber haulers to check “Yes” or “No” to certify that they have provided the IRS Form 2290, Heavy Highway Vehicle Use Tax Return, for logging vehicles or that they hauled timber on tribal land and are not required to complete the IRS Form 2290. The yes or no certifications are year specific for 2019 and 2020 respectively. If the applicant only has the 2020 IRS Form 2290, the applicant will not need to supply the 2019 IRS Form 2290 for PATHH. The applicant will check “No” for providing a copy of their 2019 IRS Form 2290 for logging vehicles. This action will not make the applicant ineligible for PATHH.

If the applicant checks “No” for providing a copy of their 2020 IRS Form 2290, and checks “Yes” for providing a copy of their 2019 IRS Form 2290, then the policy in paragraph 47 is applicable in all cases.

A timber hauler applicant who did not file a 2020 IRS Form 2290 must provide 1 or more of the primary documents listed in paragraph 47 to support their certifications as a timber hauler.

Note: Under Part D of the FSA-1118, the applicant may check “No” for providing a copy of their 2020 IRS Form 2290 and can still be deemed eligible by COC if they provide primary documentation.

H Additional Documentation Requested for Review

Applicants are responsible for providing, upon request, additional documentation to verify eligibility of information reported on FSA-1118.

Note: PATHH participants are required to retain documentation in support of their application for 3 years after the date of approval.

The following documentation may be requested by COC or its designee for reasonableness:

- tax records to support verification of NAICS 113310 or 484220 or 484230
- tax records to support gross revenue received from timber harvesting or hauling
- payment receipts for timber harvesting or hauling
- other documentation deemed acceptable by FSA.

46 Applying for PATHH and Reasonable Documentation (Continued)**H Additional Documentation Requested for Review (Continued)**

Applicants may use the following information to find their gross receipts amounts to determine their 11-month applicable program period gross revenue. Amounts reported to IRS would need to be reduced to exclude revenue from December 1 to December 31 for each year 2019 and 2020 as applicable.

- A sole proprietor would report gross receipts on Schedule C, Line 1 (<https://www.irs.gov/pub/irs-pdf/f1040sc.pdf>).
- Sale of equipment should be reported on Schedule 1, Line 4 (<https://www.irs.gov/pub/irs-pdf/f1040s1.pdf>).
- Gross receipts are reported on Form 1065, line 1 for an LLC and on Forms 1120, line 1 or 1120S for a corporation. See the following links:
 - <https://www.irs.gov/pub/irs-pdf/f1065.pdf>
 - <https://www.irs.gov/pub/irs-pdf/f1120.pdf>
 - <https://www.irs.gov/pub/irs-pdf/f1120s.pdf>

Note: An LLC can in some circumstances, file using Forms 1120 or 1120S.

47 Additional NAICS Codes Consideration, No NAICS Code, No IRS Form 2290**A Eligibility Consideration if Different NAICS Code, No NAICS Code, or No IRS Form 2290**

PATHH eligibility may still be determined when an applicant has a different or no NAICS code, and/or no 2020 IRS Form 2290. For applicants to be considered eligible in these circumstances, primary documentation, listed in subparagraph B, must be submitted with the application and reviewed by COC. Applicants who do not have an eligible NAICS code as listed on their tax return, have no NAICS code, or did not file a 2020 IRS Form 2290 must provide 1 or more of the primary documents listed in subparagraph B to support their application certification as a timber harvester and/or timber hauler. COC will determine whether the applicant is eligible considering the documentation as evidence in lieu of 1 of the 3 eligible NAICS codes and/or IRS Form 2290.

Note: Valid NAICS codes are not required to be loaded in the PATHH software.

47 Additional NAICS Codes Consideration, No NAICS Code, No IRS Form 2290 (Continued)**A Eligibility Consideration if Different NAICS Code, No NAICS Code, or No IRS Form 2290 (Continued)**

Secondary documentation (subparagraph C) may be provided to support the applicant's claim but does not provide sufficient evidence on its own to support their claim, primary documentation does own its own support their claim. Therefore, if the applicant only provides documents listed under the secondary documentation, the application and all documentation to support the claim will be sent to the National Office for DAFP and Forest Service to review and to determine if the application can be eligible for PATHH.

Note: Under FSA-1118, Part D, the applicant may check "No" for providing a copy of their 2020 IRS Form 2290 and can still be deemed eligible by COC if they provide primary documentation.

B Primary Documentation

The following documentation will support an applicant's claim that 50 percent or more of their gross income came from timber harvesting and/or timber hauling, which may be provided in lieu of eligible NAICS codes. Any of the primary documentation may be provided on its own merit to support the applicant's claim.

Primary documentation will include 1 the following:

- documents showing detailed timber harvesting equipment or ownership of log-hauling truck(s), bank loan or mortgage, lease, ad valorem tax documents, and/or insurance coverage
- for loggers and haulers who work on Federal lands (Forest Service or Bureau of Land Management) Federal lands documentation may be provided

Note: This includes contracts, scale tickets, or insurance or safety inspection documents.

- for businesses that work with State, private lands, or other landowners, similar/equivalent documentation as stated could be available for federal lands, private landowners, or the mills with which they do business.

Note: This includes receipts or scale tickets indicating the applicant harvested or hauled certain amounts of logs on particular dates, purchased timber access from a landowner, and/or sold or delivered logs to mills.

47 Additional NAICS Codes Consideration, No NAICS Code, No IRS Form 2290 (Continued)

C Secondary Documentation

Secondary documentation and the PATHH application must be reviewed by the National Office.

Secondary documentation must include 1 of the following:

- letter from certified public accountant noting applicant's business structure and reason for deviating from the NAICS codes listed in the PATHH program
- logger safety training certification
- professional logging association membership
- State employment job worker's compensation classifications of employees.

D Submitting Cases to National Office

Applicants requesting to use secondary documentation and/or additional documents to support their claim that are not listed in either the primary or secondary documentation, must be sent to the National Office for DAFP and Forest Service to review and decide the applicant's program eligibility.

The following table provides the steps if a National Office review is needed.

Step	Action
1	County Office will send all documentation and justification provided by the applicant to the State Office in 1 email.
2	State Office will submit this to the National Office by creating a single PDF with all documentation and justifications combined. Note: There should be one PDF per applicant.
3	Submitted cases will be formatted using standard title: "[State_Name], [Applicant_Name], [OtherNAICSCode, NoNAICSCode, or IRSForm2290] Consideration". Example: "VTSmithNoNAICSCode".

47 Additional NAICS Codes Consideration, No NAICS Code, No IRS Form 2290 (Continued)**D Submitting Cases to National Office (Continued)**

Step	Action
4	The file will be uploaded to the corresponding file folder (for example, “Different NAICS Code Considerations,” “No IRS Form 2290 Considerations,” or “No NAICS Code Considerations”) under “Files” in the “General” section of the FPAC-FSA-PATHH Microsoft Team.
5	For applicant’s privacy, encrypt the PDF and email jody.kenworthy@usda.gov and cc jamie.garriott@usda.gov the password to the uploaded document and the document’s name in the email. Use the subject line “PATHH Applicant for DAFP Review Password.”

Note: An official decision of the applicant’s eligibility from DAFP will be sent to the State as a memo.

48 Tax Record Clarifications**A Individual Files Taxes Using SSN But Operates the Business Under an EIN**

When an operation files taxes under a Tax Schedule embedded in their individual IRS-1040 tax filing, the TIN’s do not match per PATHH rules. This operation is considered eligible and should apply under the EIN for their business. The business has the risk in the operation, and they may submit paperwork, such as tax documents reported to IRS on the individual’s tax return, to meet gross revenue certification or NAICS code requirements.

B Joint Tax Returns

Individuals or legal entities applying for PATHH may file taxes jointly where a joint tax return results in gross revenue calculation being less than 50 percent from timber harvesting and/or hauling activities or less than 10 percent gross revenue loss.

An exception for eligibility consideration is to allow the applicant to certify what their revenue would have been had the applicant filed taxes separately. If required by COC, the applicant would need to submit documentation acceptable to COC that proves the applicant meets 50 percent or more gross revenue and 10 percent gross revenue loss if taxes were filed separately. Documentation may include, and is not limited to, tax returns, 3rd party certification statements such as from a CPA or attorney, or any other documentation considered acceptable to COC.

48 Tax Record Clarifications (Continued)**B Joint Tax Returns (Continued)**

Example: A husband operates a logging business where greater than 50 percent of his business gross revenue is derived from logging. He operates as an individual and files taxes jointly with his wife. The husband's logging income reported on the 2019 and 2020 tax return is \$30,000 and the wife's income as a nurse is \$100,000. In this case, the joint tax return reflects his logging gross revenue is less than 50 percent of their combined gross revenue. If requested by COC, the husband applying for PATHH may provide a CPA certification stating what his gross revenue would have been for the logging business had he filed taxes separately in 2020.

C Applicant with Multiple Businesses Under One TIN

A timber harvesting and/or hauling business may have multiple businesses under a single TIN. COC will consider each business individually when determining PATHH program requirements for 10 percent or greater revenue loss and 50 percent gross revenue from timber harvesting and/or hauling activities. Gross revenue from all eligible operations will be certified and filed under the single TIN on 1 application. Payment will only be processed and paid to the single TIN.

Note: This only applies for multiple timber harvesting and/or hauling businesses under the same TIN.

49 Gross Revenue**A Reporting Gross Revenue**

An applicant must have 50 percent or more of their gross revenue derived from timber harvesting, timber hauling, or both during the periods of January 1, 2019, through December 1, 2019, and January 1, 2020, through December 1, 2020.

When reporting gross revenue loss on FSA-1118, the applicant will separate their receipts for timber harvesting and timber hauling transactions from the rest of their business and report only that revenue amount (timber harvesting and timber hauling) for the PATHH program. The applicable time periods for PATHH are 11 months and not full calendar years. Applicants should not use their total profit and loss report to report revenue unless all profit and loss is from timber harvesting and/or timber hauling or the specific timber harvesting and/or hauling profit and loss can be extracted from the report.

49 Gross Revenue (Continued)

B What Is Included in Gross Revenue

The following benefits received in both 2019 and 2020 must be included when determining the 50 percent eligibility requirement and 10 percent loss.

- Unemployment benefits.
- CFAP 1 and CFAP 2 payments.
- Any other pandemic assistance in the form of a direct payment to the business.

Do **not** include revenue from these sources in the applicant's certification of revenue from timber harvesting or hauling.

Gross revenue is the sum of all monies received by the business for timber harvesting and/or hauling activities. It does not include costs or expenses associated with revenue generated by the business. Stumpage, which is generally the price paid by a business to have the right to cut and remove standing trees (sometimes referred to as the value of those standing trees), is not included in or accounted for when determining gross revenue because stumpage is considered an expense or cost to the business. Once standing trees are cut and sold, the sale of the timber by the business is money received by the business and included as part of gross revenue.

C What Is Not Included in Gross Revenue

PATHH applicants will not include the following revenue used for determining the 50 percent eligibility requirement, 10 percent loss, or certifying revenue from timber harvesting and/or hauling activities.

- **Insurance indemnity payments.** Insurance indemnity payments are not counted because PATHH is not compensating for a commodity loss as done under insurance coverage.
- **Paycheck Protection Program (PPP) funds.** PPP funds are loans and not direct payments.
- **Income from pass-through entities such as an LLC or S-Corporation.** Distribution of income from the passthrough entities such as an LLC or S-corporation may include income from sources other than timber harvesting or hauling, therefore must not be included in determining the 50 percent eligibility requirement, 10 percent loss, or gross revenue certification.

49 Gross Revenue (Continued)**D 2020 Gross Revenue of Zero**

COC may determine an exception applies when the 2020 gross revenue from timber harvesting and/or hauling is reported as zero for the business. In this case, the business may be determined to meet the 50 percent requirement, 10 percent loss and eligible for PATHH. The applicant will certify and record a zero entry on FSA-1118, Part C, Column 9, as their 2020 Gross Revenue.

E 2020 Gross Revenue Is Less Than 50 Percent From Timber Harvesting and/or Hauling

COC will disapprove FSA-1118 when an applicant does not show a business's gross revenue was at least 50 percent or more from timber harvesting and/or hauling activities and does not meet the exception of zero revenue described in subparagraph D. COC will disapprove the application even when the timber gross revenue comparison between 2020 and 2019 meets the required loss of 10 percent or greater.

Example: Loggers R Us, Inc. applied for PATHH certifying all 2019 gross revenue from timber harvesting totaling \$500,000. In 2020, the mill closed because of COVID and their 2020 timber revenue was reported as \$100,000. Loggers R Us, Inc. found other work using equipment to perform excavating services and suburban tree care. Their gross revenue from non-timber related work in 2020 was \$300,000. Although their overall gross revenue and timber business revenue meets the 10 percent pandemic loss threshold, the 2020 business gross revenue was not more 50 percent or more from eligible timber harvesting and/or hauling activities. COC will disapprove this application.

Note: County Offices will follow 1-APP to provide applicable appeal rights.

51 Approvals and Disapprovals (Continued)**B Approvals (Continued)**

Before approval COC may request additional documentation according to paragraph 46; however, if evidence provided by the applicant differs from the information certified, COC may make appropriate adjustment, document in COC minutes, and notify the applicant.

52-62 (Reserved)

Section 4 PATHH General Payment Provisions**63 General Payment Information, Rates, and Reductions****A Prevention of Improper Payments**

Payment Integrity Information Act of 2019 (PIIA) requires Federal agencies to evaluate programs to determine whether internal controls are sufficient to prevent improper payments. County Offices must take all steps necessary to ensure that program and payment eligibility requirements have been met before issuing any payments.

Improper payment, as defined by OMB, means any payment that should **not** have been issued or was issued in an incorrect amount under statutory, contractual, administrative, or other legally applicable requirement.

B Equitable Relief and Finality Provisions

Equitable relief and finality provisions of 7 CFR 718, subpart D, apply to determinations under PATHH, as well as appeal regulations in 7 CFR parts 11 and 780. See 7-CP for additional information.

C Payment Calculation

For eligible applicants if gross revenue for the period January 1, 2020, through December 1, 2020, decreased by at least 10 percent compared to the gross revenue for the period January 1, 2019, through December 1, 2019, the payment calculation will be the gross revenue for the period stated previously for 2019, minus the gross revenue for the period stated previously for 2020, multiplied by 80 percent.

See subparagraph G for calculation examples.

D Initial Payment

As applications are received, FSA will issue an initial payment equal to the lesser of either of the following:

- the amount calculated from subparagraph C
- \$2,000.

63 General Payment Information, Rates, and Reductions (Continued)**E Final Payment**

After the close of the application period, FSA will issue a final payment equal to the amount calculated from subparagraph C minus the amount of the applicant's initial payment. If the total calculated payments exceed the total funding available for PATHH, final payment amounts will be factored and/or the maximum payment limitation may be reduced to stay within available funding.

Exception: If the initial payment is \$2,000 or less, there will be no additional (final) payment or reduction applied.

PATHH payments are not subject to administrative offset.

F Payment Calculation for New 2019 Operations or 2020 Dissolved Operations

For applicants for which the business either originated in 2019 after January 1, 2019, or dissolved in 2020 before December 1, 2020, the applicant must report the number of days they were in business during the eligible period on their application and FSA will adjust gross revenue proportionally for the purpose of the calculating the payment.

G Payment Calculation Examples

Example 1: A business that has been in operation for all of 2019 and 2020.

Timber Business N was created in 1987 and is still in operation today. The gross revenue for the business is \$600,420 for 2019 and \$235,000 in 2020. The business had a gross revenue loss of 61%.

Gross Revenue Loss = $((2019 \text{ gross revenue} - 2020 \text{ gross revenue}) / 2019 \text{ revenue}) \times 100\%$

Payment Calculation: $(2019 \text{ Gross Revenue} - 2020 \text{ Gross Revenue}) \times 80\%$
 $(\$600,420 - \$235,000) \times 80\% = \$292,336$

Initial Payment = **lesser of \$2,000 or the payment amount**
 Initial Payment = \$2,000

Final Payment = **$\$292,336 - \$2,000 = \$290,336$**

Will be reduced to payment limitation, which is equal to \$125,000 - \$2,000 (initial payment). The final payment = \$123,000.

63 General Payment Information, Rates, and Reductions (Continued)

G Payment Calculation Examples (Continued)

Example 2: A business that has been in operation for all of 2019 and 2020.

Timber Business L was created in 1943 and is still in operation today. The gross revenue for the business is \$5,672 for 2019 and \$4,389 in 2020.

The business had a gross revenue loss of 23%.

Payment Calculation: $(2019 \text{ Gross Revenue} - 2020 \text{ Gross Revenue}) \times 80\%$
 $(\$5,672 - \$4,389) \times 80\% = \$1,026.40$

Initial Payment = lesser of \$2,000 or the **payment amount**

Initial Payment = \$1,026.40

There will be no final **payment because the initial payment is less than (or equal to) \$2,000.**

Example 3: Seasonal timber business.

ABC Logging was in business for the entire year of 2019 and 2020.

ABC Logging was unable to complete any timber harvesting or hauling because of “mud season” in the month of March of 2019 as well as during part of February and March of 2020. They certified gross revenue in 2019 of \$300,000, and a gross revenue in 2020 of \$150,000. The business had a gross revenue loss of 50%.

Note: Because the business was seasonal, but in existence during all of 2019 and 2020, the gross revenue for each year does not need to be adjusted because of the seasonality. The business should certify FSA-1118, items 8 and 9, Part C.

Payment Calculation: $(2019 \text{ Gross Revenue} - 2020 \text{ Gross Revenue}) \times 80\%$
 $(\$300,000 - \$150,000) \times 80\% = \$120,000$

Initial Payment = lesser of \$2,000 or the payment amount

Initial Payment = \$2,000.00

Final Payment = $\$120,000 - \$2,000 = \$118,000$ excludes a final program **factor or reduced payment limitation**

63 General Payment Information, Rates, and Reductions (Continued)

G Payment Calculation Examples (Continued)

Example 4: A business was created in 2019.

Timber Business A was created on July 17, 2019, and is still in operation today; therefore, it was in operation during PATHH program periods January 1, 2020 – December 1, 2020 (336 days) and from July 17, 2019, to December 1, 2019 (138 days). The gross revenue for the business is \$140,000 for 2019 and \$200,000 in 2020. The business had a gross revenue loss of 41%.

Payment Calculation: (2019 Gross Revenue (proportioned to be equal to 11 months (335 days)) – 2020 Gross Revenue) x 80%

$$(((\$140,000 / 138 \text{ days}) \times 335 \text{ days}) - \$200,000) \times 80\% = \$339,855.072 \text{ (not rounded)} - \$200,000 \times 80\% = \$111,884.06$$

Initial Payment = lesser of \$2,000 or the payment amount

Initial Payment = \$2,000

Final Payment = \$111,884.06 - \$2,000 = \$109,884.06 without a final factored amount or lowered payment limit

Example 5: A business dissolved in 2020.

Timber Business B started operating in 1979, because of the pandemic the business dissolved on August 23, 2020. The gross revenue for the business in 2019, which was in operation for the entire 335 day PATHH period in 2019 was \$500,000 and its gross revenue in 2020 for the 236 days from January 1, 2020, to August 23, 2020 (236 days) was \$100,000. The business has a gross revenue loss of 72%.

Payment Calculation: (2019 Gross Revenue – 2020 Gross Revenue (proportioned to be equal to 11 months (336))) x 80%

$$(\$500,000 - ((\$100,000 / 236 \text{ days}) \times 336 \text{ days}) \times 80\% = \$500,000 - \$142,372.88 \times 80\% = \$286,101.70.$$

Initial Payment = lesser of \$2,000 or the payment amount

Initial Payment = \$2,000.00

Final Payment = \$286,101.70 - \$2,000 = \$284,101.70. Will be reduced to payment limitation, which is equal to \$125,000 - \$2,000 (initial payment).

The final payment = \$123,000

63 General Payment Information, Rates, and Reductions (Continued)**G Payment Calculation Examples (Continued)**

Example 6: A business was created in 2019 and dissolved 2020.

Timber Business C was created on March 15, 2019 (March 15 – December 1 = 262 days) and dissolved on July 5, 2020 (January 1 – July 5 = 187 days). If the business is not in operation for the entire 11-month period for either 2019 or 2020, then the year it was in business the greater number of days should be used as the standard number of days for both years.

The gross revenue for the business in 2019 (March 15 to December 1) was \$250,000 and its gross revenue in 2020 (January 1 to July 5) was \$25,000.

In this scenario, the applicant was in business for 262 days during the 2019 eligibility period and for 187 days during the 2020 eligibility period; therefore, 2020 will be adjusted to account for 262 days.

The business had a gross revenue loss of 86%.

Payment Calculation: (2019 Gross Revenue – 2020 Gross Revenue (proportioned to be equal to 262 days)) x 80%
 $(\$250,000 - ((\$25,000 / 187 \text{ days}) \times 262 \text{ days})) \times 80\%$
 $(\$250,000 - \$35,026.738 \text{ (not rounded)}) \times 80\% = \$171,978.61$

Initial Payment = lesser of \$2,000 or the payment amount

Initial Payment = \$2,000.00

Final Payment = \$171,978.61 - \$2,000 = \$169,978.61. Will be reduced to payment limitation, which is equal to \$125,000 - \$2,000 (initial payment).

The final payment = \$123,000

- enter the results of the first five DD reviews for PLIP on the FSA Pandemic Assistance Internal Control SharePoint, according to paragraph 93, no later than 5 workdays after all eligibility documents are received
- take any oversight actions necessary to prevent County Offices from issuing any improper payments
- STC's may approve or disapprove any PLIP application except those in which an STC member has a monetary interest
- comply with all PLIP provisions.

C DD Responsibilities (Continued)

- based on the reviewed documentation received, provide CED's authority to enter COC (or delegated) actions in the software upon completing the first five PLIP applications (reviewed by CED) from each county

92 Responsibilities (Continued)

D COC Responsibilities (Continued)

- handle appeals according to 1-APP
- thoroughly document all actions taken in the COC minutes
- ensure that the County Office publicizes PLIP provisions
- take any oversight actions necessary to prevent the County Office from issuing any improper payments
- ensure that FSA assists persons by providing program information as it becomes available, using a variety of different methods.

Note: Because of the limits of FSA resources, publication of program information may or may not be distributed by direct mail or on an individual basis. FSA meets its publication responsibilities by making broad program announcements in press releases, print and electronic media, Federal Register documents, radio, and television announcements, and through posting program information in USDA Service Centers.

The reality of limited resources has increased the participant's responsibility for being aware of program provisions. FSA cannot be responsible for reaching out to every potential program participant with all program information. Participants must seek information on program details and not wait for FSA to individually contact them about program provisions. As resources permit, COC will ensure that program provisions are publicized and that the County Office maintains a record of all publicity efforts, including postings in Service Centers.

The PLIP Fact Sheet:

- may be used to provide general program information
- is available at <https://www.fsa.usda.gov/news-room/fact-sheets/index>.

- immediately notify CED of software problems, incomplete or incorrect procedures, or specific problems
- ensure that all program eligibility requirements have been met by producers and completeness of applications before submitting to CED for accuracy and issuing any payments made
- ensure compliance with regulations, policies, and procedures throughout program delivery.

G Producer Responsibilities

The producer is responsible for being aware of program provisions and accurately reporting all required information as applicable on FSA-620.

Producers who are approved for participation in PLIP are required to retain documentation in support of their application for 3 years after the date of approval.

Participants receiving PLIP payments or any other person who furnishes such information to USDA must permit authorized representatives of USDA or GAO during regular business hours, to enter the agricultural operation and to inspect, examine, and to allow representatives to make copies of books, records or other items for the purpose of confirming the accuracy of the information provided by the participant.

Programs administered by DAFP require accurate information from producers. Producers must understand that failure to provide complete and accurate information and records could result in the following:

- an application for PLIP assistance being disapproved, COC adjusted, or approved but ineligible for payment
- the producer(s) being determined ineligible for FSA programs for the year or multiple years
- the producer(s) being liable under civil or criminal fraud statute or any statute or provision of law.

Even though this is a producer certification program, attention to detail is required to ensure both program integrity and workload accountability.

Important: The initial review of the first 5 completed applications must be completed and all eligibility requirements must be met before DD can authorize the County Office to make payments.

The initial review completed by CED must include all documents required to issue payments, including eligibility documents and COC approvals. If the eligibility documentation is not available for 1 or more of the first 5 applications approved, CED will select the next available completed application until 5 applications are available for review.

The following must be reviewed by CED during the initial review.

- application form to ensure it is completed properly
- all signatures obtained, including representative signature authorities
- applicant eligibility
- applications are qualified to be paid without errors.

Upon completion, CED will certify to the DD/State Office designee that the first 5 completed applications have been reviewed and provide the application package for DD/State Office designee review. The County Office may **not** issue any payments until written approval is received from the DD/State Office designee.

Note: CED does not have to wait until all 5 applications have been reviewed to submit to DD. Upon DD review and approval of each completed application up to the first 5, the payment can be issued. Once the first 5 applications have been reviewed and payment has been authorized by DD, all additional applications may be processed by the County Office unless otherwise directed by DD.

106 PLIP General Program Policies and Provisions (Continued)**B AGI Requirements**

Rules for AGI as found in 5-PL apply to PLIP payments.

To be eligible for payment, a person or legal entity (including members, stockholders, or partners of the legal entity) must have an average AGI for program year 2020 that does not exceed the \$900,000 limitation. The 3 base years used to compute the average AGI are 2016, 2017, and 2018.

CCC-941 must be completed by all PLIP applicants.

Persons and legal entities (including members of the legal entities) applying for PLIP benefits must certify to meeting AGI requirements not in excess of \$900,000. County Office will:

- accept CCC-941 for program year 2020 from livestock and poultry owners requesting benefits
- update the producer's certification and the "Date Documentation Filed by Producer" in Subsidiary according to 3-PL (Rev. 2)
- send CCC-941 to IRS according to 5-PL.

Note: Seventy-five percent average farm AGI does **not** apply to PLIP.

106 PLIP General Program Policies and Provisions (Continued)**C Direct Attribution and Common Attribution**

If not already on file, an FY 2020 CCC-902, or CCC-901 (if applicable) is required to collect information necessary to facilitate administration of payment attribution and AGI provisions. Information collected on CCC-902 must include names, taxpayer identification numbers, and citizenship status for all persons and legal entities, including members of a legal entity to be eligible for payment. An applicant that fails to provide the names and taxpayer identification numbers for all persons and legal entity holding an ownership interest is ineligible for payment.

The Business File application must be used to record the required information for the farming operation. When an applicant completes a manual CCC-902, the information collected on the manual form must be immediately recorded in Business File for 2020.

Payments are attributed to persons, legal entities and its members, and members of general partnerships and joint ventures according to 5-PL. Payments to a legal entity will be reduced based on the proportionate ownership share of a legal entity's member who is not an individual person at the 4th level of ownership in the business structure.

Common attribution does **not** apply to PLIP. For example, payments to a minor child will not be combined with earnings of the parent or legal guardian.

COC must record determination on CCC-903. County Offices will:

- record producer certifications in Business Partner according to 11-CM
- record COC determination in Business File according to 3-PL (Rev. 2)
- update eligibility flags in Subsidiary according to 3-PL (Rev. 2).

D Payment Limitation

PLIP does **not** have a maximum payment limitation.

Note: 5-PL substantive change requirements do **not** apply to PLIP.

E Assignments and Joint Payments

A producer entitled to a PLIP payment may assign the payment according to 63-FI. A PLIP payment may be assigned, provided CCC-36 is submitted by the applicant or made to a joint payee, provided CCC-37 is submitted by the applicant before payment is made. County Offices will follow 63-FI to process assignments and joint payment authorizations.

For PLIP, offsets do **not** apply.

106 PLIP General Program Policies and Provisions (Continued)

F Obtaining FSA-325 for Deceased, Disappeared, or Incompetent Producers

Section 4 General Payment Provisions for PLIP

135 General Payment Information, Rates, and Reductions

A Payment Calculation

PLIP payments compensate participants for 80 percent of both the loss of the eligible livestock and/or poultry depopulated and for the cost of depopulation and disposal based on a single payment rate.

PLIP payments are calculated as follows:

- result of multiplying:
 - number of head of eligible livestock or poultry depopulated, times
 - payment rate per head for the eligible livestock or poultry, by kind, type, and weight range, as provided in subparagraph C
- minus applicable payment reductions as provided in subparagraph B.

B Payment Reductions

An eligible livestock and/or poultry owner's PLIP payment will be reduced by the amount of any payments the eligible livestock and/or poultry owner has received:

- for disposal of the livestock or poultry under:
 - 2020 EQIP, if applicable, or
 - State-funded program, if applicable
- **for swine only**, under CFAP 1 (Part 2) and CFAP 2 on the same inventory of swine that were depopulated and claimed on the PLIP application (FSA-620, item 7).

Important: COC's are required to complete the PLIP Payment Reductions Worksheet, found at <https://inside.fsa.usda.gov/program-areas/dafp/dap/plip/index>, to calculate the total PLIP reductions for all PLIP applicants.

After completing the PLIP Payment Reductions Worksheet, COC's will enter the livestock and/or poultry owner's total payment reductions on FSA-620, item 10, "COC Total Calculated Reduction for 2020 EQIP, State-Funded Program, CFAP 1 and/or CFAP 2 Payments".

FSA-620, item 10, is a required field that COC must complete for all PLIP applications.

135 General Payment Information, Rates, and Reductions (Continued)**B Payment Reductions (Continued)**

Eligible livestock and/or poultry owners will self-certify to the amount received from 2020 EQIP and/or State-funded program for the livestock and/or poultry depopulated, on FSA-620, item 9. However, County Offices must verify:

- 2020 EQIP payment reduction amounts certified by livestock and poultry owners using a forthcoming 2020 EQIP Report that will be provided by the National Office available at <https://inside.fsa.usda.gov/program-areas/dafp/dap/plip/index>
- State-funded program payment reductions amounts certified by the producer using applicable State program resources.

If applicable, COC adjustments to 2020 EQIP and/or State-funded program payment reductions must be:

- captured on the PLIP Payment Reductions Worksheet
- reflected on FSA-620, item 10.

After County Offices complete the PLIP Payment Reductions Worksheets, user must do the following:

- navigate to S:\ServiceCenter\FSA
- within S:\ServiceCenter\FSA, create the subfolder “2020 PLIP Payment Reductions Worksheet”
- enter the file name as “PLIP Payment Reductions Worksheet – Version 1.0 (State abbr County code ProducerName Application number)”

Note: “[State abbr]” is 2-alpha State abbreviation, such as VA for Virginia. “[County code]” is 2-numeric recording county code from FSA-620, item 3. “[Application number]” is numeric application number from FSA-620, item 4.

- CLICK “Save”
- print and file the PLIP Payment Reductions Worksheet in the producer’s PLIP folder.

135 General Payment Information, Rates, and Reductions (Continued)

C Payment Rates

PLIP payments compensate participants for both the loss of the eligible livestock and/or poultry and for the cost of depopulation and disposal. To simplify administration of PLIP, FSA has determined a single payment rate per head for each of the categories in the table. The categories and market values are consistent with the categories and nationwide prices used to administer the Livestock Indemnity Program (LIP), 7 CFR Part 1416, Subpart D, for 2020. The estimated cost of depopulation is based on USDA's estimates of the average costs of common methods used to depopulated animals. The estimated cost of disposal is based on the costs of common disposal methods and rates used in EQIP. The disposal rates are weighted based on the number of participants paid under EQIP by disposal method.

Payment rates for livestock and poultry owners are based on 80 percent of the average fair market value for the specific livestock category. The following table provides PLIP per head payment rates, by livestock category, for eligible livestock and poultry owners.

Eligible Livestock or Poultry Category	Market Value per Head	Depopulation & Disposal Cost per Head (After 80% Reduction)	Depopulation Payment Rate per Head (After 80% Reduction)
Swine: boars and sows; 451 lbs. or greater	\$173.25	\$85.32	\$258.57
Swine: sows, boars, barrows, and gilts; 251-450 lbs.	\$111.74	\$47.13	\$158.88
Swine: sows, boars, barrows, and gilts; 151-250 lbs.	\$87.97	\$34.13	\$122.10
Swine: lightweight barrows and gilts; 50-150 lbs.	\$68.38	\$20.32	\$88.70
Swine: suckling nursery pigs; less than 50 lbs.	\$48.81	\$6.50	\$55.31
Chickens: chicks	\$0.26	\$0.06	\$0.32
Chickens: super roasters and parts; 7.76 lbs. or greater	\$4.17	\$1.14	\$5.31
Chickens: roasters; 6.26 - 7.75 lbs.	\$3.17	\$0.87	\$4.04
Chickens: broilers, pullets; 4.26-6.25 lbs.	\$2.50	\$0.68	\$3.18
Chickens: pullets, Cornish hens; less than 4.26 lbs.	\$1.70	\$0.46	\$2.16
Chickens: layers	\$3.64	\$1.30	\$4.94
Turkeys: poults	\$1.33	\$0.82	\$2.15
Turkeys: toms, fryers, and roasters	\$12.85	\$2.72	\$15.57

135 General Payment Information, Rates, and Reductions (Continued)**D Payment Eligibility Forms**

Applicants must submit all of the following items, if not previously filed with FSA, before payments may be issued:

- CCC-902

Notes: Only the following elements are required to be completed for PLIP purposes:

- names, addresses, and TIN's
- citizenship status.

CCC-902's completed in the automated system will not require information collection on manual CCC-901's.

- CCC-901 will be completed by legal entities and joint operations to collect the following:
 - member names, addresses and TIN's
 - citizenship status
- CCC-941
- AD-1026.

The following forms may be required for persons and entities requesting benefits:

- AD-2047, if applicable
- AD-2106
- SF-3881.

E Deadline for Filing Eligibility Documents

PLIP applicants must file all PLIP eligibility documents, as outlined in subparagraph D, within 60 calendar days from the date of signing a PLIP application. Failure to timely provide all eligibility forms may result in no payment or a reduced payment.

135 General Payment Information, Rates, and Reductions (Continued)**F Conservation Compliance**

AD-1026 applicable to the year for which PLIP benefits are requested must be on file for the participant and affiliates, if applicable according to 6-CP.

AD-1026 applicable for the year for which PLIP benefits are requested is:

- already on file for the participant, and affiliates, if applicable, it is not necessary to obtain a new AD-1026 for PLIP
- not on file for the participant, and affiliates, if applicable, County Office will obtain a completed AD-1026 applicable to the year for which PLIP benefits are requested.

If a new AD-1026 is required to be filed, payments may be issued to eligible participants upon signing AD-1026, item 10A. It is not necessary to withhold payments pending NRCS highly erodible land or wetland determinations. The continuous certification statement on AD-1026 requires participants to refund program payments if an NRCS determination results in the discovery of a HELC/WC violation.

Conservation compliance provisions apply to producers seeking USDA benefit subject to conservation compliance on all agricultural land (cropland, rangeland, pastureland, forestland) tied to them as owner, operator, or other producer, as defined in 10-CM. PLIP participants with no interest in agricultural land may certify in box 5A of AD-1026.

If an applicant has a farming interest, they will not be permitted to certify with box 5A and will complete AD-1026 as applicable (must certify full form and establish farm records for their agricultural land interests).

G Prevention of Improper Payments

IPIA requires Federal agencies to evaluate programs to determine whether internal controls are sufficient to prevent improper payments. County Offices must take all steps necessary to ensure that program and payment eligibility requirements have been met before issuing payments.

H Definition of Improper Payment

Improper payment, as defined by OMB, means any payment that should not have been issued or was issued in an incorrect amount under statutory, contractual, administrative, or other legally applicable requirement.

Calculation: <i>Step 7 (rounded to cents) = Step 2 x Step 6 (unrounded)</i> If <i>step 3</i> is "No", the number of swine depopulated that received a CFAP 1 payment (<i>step 2</i>) will be multiplied by the CFAP 1 standard payment rate per head for swine (<i>\$17.00</i>).	PLIP is auto-calculated using the CFAP 1 standard payment rate for swine (\$17.00). 25 head (Step 2) x \$17.00/head (standard rate) ----- = \$ 425.00 (rounded to cents)
CFAP 2	8	How many depopulated swine , as certified by the producer on the PLIP application, received a CFAP 2 payment?	20	Record the number of swine recorded in <i>step 1</i> that also received a CFAP 2 payment. Validations: * required entry, if <i>step 1</i> is greater than 0 (zero); * must be greater than or equal to 0 (zero); * must not be greater than <i>step 1</i> . If the CFAP 2 swine head count recorded in Part D, FSA-620 , is equal to 0 (zero), record 0 (zero), and <i>step 13</i> will be auto-populated with \$0.00 (zero); skip to <i>step 14</i> .	PLIP Notice/Training Example 1 (Step 8): Floyd certifies on FSA-620, Part D, that as of the date he signed the PLIP application, that his CFAP 2 payment was based on 20 head of swine in inventory (item 16, AD-3117) and that the same 20 head of swine were depopulated and included in inventory on FSA-620, item 7 (200 head of swine: sows/bears/bears/barrowweigths, 151 - 250 lbs). Record 20 head of swine included in.
	9	Were any payment reductions applied to the producer's CFAP 2 payment for swine ?	No	Select "Yes", if any payment reductions (i.e. payment limitations, AGI, etc.) were applied to the producer's CFAP 2 payment for swine (all weight ranges); otherwise, select "No". Refer to the producer's CFAP 2 Detailed Payment History Report. Validations: * required selection, if <i>step 8</i> is greater than 0 (zero); * must be "Yes" or "No". If "Yes", go to <i>step 10</i> . If "No", skip to <i>step 13</i> .	PLIP Notice/Training Example 1 (Step 9): Floyd did not have any payment reductions (payment limitation, AGI, etc.) applied to his CFAP 2 payment. Select "No" to CFAP 2 payment reductions.
	10	What was the total of the producer's highest owned inventory claimed on their CFAP 2 application for all swine weight ranges?		Manually calculate and record the total of the producer's highest owned inventory from item 16, AD-3117 , Inventory (excluding breeding stock, highest on date between April 16, 2020 and August 31, 2020), or item 17, AD-3117 , COC Adjusted Inventory, if applicable, for all CFAP 2 weight ranges of swine , not to exceed the depopulated swine for which a CFAP 2 payment was received (<i>step 8</i>). Validations: * required entry, if <i>step 9</i> is "Yes"; * must be greater than or equal to <i>step 8</i> .	PLIP Notice/Training Example 1 (Step 10): Floyd certified on his CFAP 2 application, AD-3117, that his highest owned inventory on a date between April 16, 2020, and August 31, 2020, was 20 head of hogs/pigs. Because Floyd did not have CFAP 2 payment reductions (Step 9 was answered "No"), the highest owned inventory is not applicable to the calculation used to determine the CFAP 2 payment reduction for PLIP.
	11	What was the producer's CFAP 2 swine net payment amount?		Manually calculate and record the producer's CFAP 2 total net payment for all weight ranges of swine using the CFAP 2 Common Payment Report and CFAP 2 Detailed Payment History Report. Validations: * required entry, if <i>step 9</i> is "Yes"; * must be greater than or equal to \$0.00 (zero); * must be less than <i>step 10 x \$23.00 (CFAP 2 swine standard rate)</i> .	PLIP Notice/Training Example 1 (Step 11): Because Floyd did not have CFAP 2 payment reductions (Step 9 was answered "No"), the producer's CFAP 2 swine net payment is not applicable to the calculation used to determine the CFAP 2 payment reduction for PLIP.

--Part 4 Pandemic Assistance Revenue Program (PARP)*Section 1 Basic PARP Provisions****150 General Information****A Purpose**

This part provides instructions for administering PARP.

PARP provides direct financial assistance to producers of agricultural commodities who suffered at least a 15 percent decrease in allowable gross revenue in calendar year 2020 because of the COVID-19 pandemic. Payments to eligible producers will be based on a comparison of the producer's allowable gross revenue from 2020 compared to a base year of either 2018 or 2019, as elected by the producer.

B Sources of Authority

Following are the sources of authority for PARP:

- the Consolidated Appropriations Act, 2021 (Pub. L. 116-260)
- 7 CFR Part 9, subpart D.

C Funding

PARP payments will be issued using the Consolidated Appropriations Act, 2021 (Pub. L. 116-260) funds.

D Delegations of Authority and Approvals

The authority to approve PARP applications prepared according to this handbook may be redelegated, in writing according to 16-AO, by COC to CED, except forms and documents in which CED has a monetary interest.

Follow this table for delegated authority for approval of PARP applications.

IF the producer is...	THEN the approval authority is
a Federal or non-Federal, State, or County Office employee	CED.
COC member

Any producer in a recording county	

Note: Questionable cases may be referred to the next higher authority for determination. Any employee serving as Acting CED is viewed as CED.--*

Person means an individual, natural person and does not include a legal entity.

--Section 2 PARP Producer Eligibility Policies and Provisions*170 Producer Eligibility****A Eligible Producer**

[7 CFR 9.303] A producer is a person or legal entity who was in the business of farming to produce an agricultural commodity during a part of calendar year 2020, and who was entitled to a share in the agricultural commodity available for marketing or would have shared had the agricultural commodity been produced and marketed. For PARP, “producer” also includes cattle feeder operations.

To be eligible for a PARP payment, a producer must be 1 of following:

- citizen of the United States
- resident alien or “lawful alien” (possessing a Resident Alien Card (I-551)
- partnership organized under State Law
- corporation, LLC, or other organizational structure organized under State law
- Indian Tribe or Tribal organization, as defined in section 4(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304)
- foreign person or foreign entity who meets Foreign Person Rules as described in 5-PL.--*

***--170 Producer Eligibility**

B Ineligible Producers

The following producers are **ineligible** for PARP payments:

- Federal, State, and local governments, including public schools as described in 5-PL
- producers who did not have a reported ownership interest in an agricultural commodity, excluding cattle feeder operations.
- producers who have been suspended, debarred, or otherwise excluded from participating in Federal programs (1-CM, paragraph 823)
- producers who do not meet payment limitation, payment eligibility, AGI and HELC/WC requirements for PARP.--*

--171 Notification of Interest Requirements*A Names, Addresses, and Taxpayer Identification Numbers**

To be eligible to receive a PARP payment and facilitate administration of payment limitation, payment attribution, and other payment eligibility requirements, a person or legal entity must provide their name, address, and taxpayer identification number to USDA. In addition, a legal entity must provide the name, social security number (SSN) or individual taxpayer identification number (ITIN), address and ownership share of each person, or the name, employer identification number (EIN), address and ownership share of each legal entity that holds or acquires an ownership interest in the legal entity.

B Payment Reductions

A PARP payment to a legal entity will be reduced in proportion to a member's ownership share when the social security number (SSN) or individual taxpayer identification number (ITIN) for a person, or employer identification number (EIN) for a legal entity, holding less than a 10 percent direct, or indirect ownership interest is not provided to USDA. Additionally, a legal entity will not be eligible to receive a payment when a valid taxpayer identification number for a person or legal entity that holds a direct or indirect ownership interest of 10 percent or greater, at or above the fourth level of ownership in the business structure, is not provided to USDA.

172 PARP Payment Limitation and Payment Attribution**A Payment Limitation**

[7 CFR 9.307(e)] The total amount of PARP payments that a person or legal entity (excluding general partnerships and joint ventures) may receive is \$125,000.

USDA may establish a lower maximum payment limitation after the application period has ended if the calculated payment amounts exceed the available funding.

Payments to a program applicant that is a joint operation, including a general partnership or joint venture, cannot exceed \$125,000 (or the reduced maximum payment limitation if applicable) per person or legal entity that comprise first level ownership of the general partnership or joint venture, unless the first level member is another joint operation.--*

*--172 PARP Payment Limitation and Payment Attribution (Continued)

B Attribution of Payments

[7 CFR 9.307(f)] A PARP payment made to a legal entity will be considered in combination with other PARP payments attributed to every person or legal entity with a direct or indirect ownership interest in the legal entity. The maximum limitation described in subparagraph A for a legal entity is determined based on payments to the legal entity and members who are an individual person or a legal entity. If a member's combined PARP payments reach the maximum payment limitation when summed from all business in which the person or legal entity has an ownership interest, then subsequent payments to the legal entity will be reduced by the proportionate ownership interest of the member. A payment to a legal entity will be attributed to those members who have a direct or indirect ownership interest in the legal entity, unless the payment of the legal entity has been reduced by the proportionate share of the member because of that member reaching the payment limitation. Attribution of payments made to legal entities will be tracked through 4 levels of ownership in the legal entity and will be reduced based on ownership interest of members below the fourth level as follows.

- First level of ownership – any payment made to a legal entity that is owned in whole or in part by a person will be attributed to the person in an amount that represents the direct ownership interest in the first-level or payment legal entity.
- Second level of ownership – any payment made to a first-level legal entity that is owned in whole or in part by another legal entity (referred to as a second-tier legal entity) will be attributed to the second-level legal entity in the first-level legal entity; if the second-level legal entity is owned in whole or in part by a person, the amount of the payment made to the first-level legal entity will be attributed to the person in the amount that represents the indirect ownership interest in the first-level legal entity by the person.
- Third and fourth levels – except as provided in the second-level ownership, any payments made to a legal entity at the third and fourth levels of ownership will be attributed in the same manner as specified in the second level of ownership.
- Fourth-tier ownership – if the fourth level of ownership is that of a legal entity and not that of a person, a reduction in payment will be applied to the first-level or payment legal entity in the amount that represents the indirect ownership interest in the first-tier or payment legal entity by the fourth-level legal entity.

Payments made directly or indirectly to a person who is a minor child will **not** be combined with the earnings of the minor child's parent or legal guardian.--*

--173 AGI Requirements*A \$900,000 Average AGI and \$900,000 2020 AGI**

[7 CFR 9.307(b)] Rules for average AGI, as found in 5-PL, apply to PARP.

To be eligible for payment, a person or legal entity (including members, stockholders or partners of the legal entity) must have an average AGI for program year 2020 that does not exceed the \$900,000 limitation, **unless** the person's or legal entity's 2020 AGI is \$900,000 or less.

The 3 base years used to compute the average AGI are 2016, 2017, and 2018. CCC-941 must be completed by all PARP applicants and entity members to the fourth level of ownership in the business structure.

A PARP applicant that previously filed FY2020 CCC-941 is not required to submit a new certification unless the certification on file does not represent the applicant's income level.

Applicants exceeding the \$900,000 limitation may complete FSA-1123 and obtain a certification from a licensed CPA or attorney verifying that their 2020 AGI is less than \$900,000.

Instead of signing FSA-1123, a CPA or attorney may provide a written statement acceptable to FSA according to subparagraph C.--*

- 2020 AGI is \$900,000 or less.

Note: A legal entity's payment will be reduced for AGI ineligibility of any member at, or above the 4th level of ownership in the entity's ownership structure based on the ineligible member's ownership share.

Instead of signing form FSA-1123, a certification statement may be provided and will only be accepted from licensed certified public accountants (CPA's) and attorneys. 5. If applicable, detailed explanations of how the applicable AGI limitation was not exceeded even though the information on the tax return indicates otherwise.
6. For a person filing a joint tax return, the certification of the amount reported as "adjusted gross income" on the final federal income tax return specifies the manner in which such income would have been declared and reported if the persons had filed two separate returns and that the calculation is consistent with the information supporting the filed joint return.

--173 AGI Requirements (Continued)*G Verifying AGI Certifications**

COC or reviewing authority may do the following:

- question all or part of an AGI certification provided by an individual or legal entity
- request documentation, such as tax records, from the individual or legal entity
- use requested information to verify certification made by the individual or legal entity for AGI certification purposes.

COC or reviewing authority shall record the following in COC or STC minutes:

- individuals and entities reviewed
- findings and results of reviews
- determinations of compliance or noncompliance with each AGI limitation.

COC or reviewing authority must provide the following:

- written notice to the individuals and entities of review results
- appeal rights according to 1-APP.

174 Indian Tribes and Tribal Organizations**A Payments to Indian Tribes and Tribal Organizations**

Payments made to a PARP applicant that is an Indian Tribe or Tribal organization, as defined in section 4(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304), are not subject to:

- payment limitation described in subparagraph 172 A
- attribution of payments described in subparagraph 172 B
- AGI requirements described in subparagraph 173 A.--*

--175 Other Eligibility Provisions*A HELC/WC Compliance**

Certification of conservation compliance (HELC/WC compliance), AD-1026, and provisions of 6-CP statutorily apply to PARP. The producer applying for PARP agrees to conservation compliance provisions on FSA-1122, Part A, items 6, 6A, 6B, and 7.

PARP applicants that have AD-1026 continuous certification with box 5B, agreeing to FSA-1122, Part A, item 6A, do not have to file new AD-1026. PARP applicants filing AD-1026 for the first time can certify AD-1026 with box 5B if they meet those provisions.

These producers do not have to establish farm records for which their certification of compliance applies (6-CP, subparagraph 641 D). A producer's certification of box 5B for PARP is a certification that the producer:

- does not participate in any USDA benefits subject to HELC and WC compliance except Federal Crop Insurance **or PARP**
- only has interest in land devoted to agriculture that is exclusively used for perennial crops (excluding sugar cane), such as tree fruits, tree nuts, grapes, olives, native pasture, and perennial forage

Note: If the applicant produces alfalfa, the applicant must contact NRCS to determine whether this production qualifies as the production of a perennial crop.

- has not converted a wetland after **December 23, 1985**.

Note: The December 23, 1985, FSA-1122 wetland **conversion** certification date is used as low risk assessment of conservation compliance violation to forego farm records establishment for producers that have perennial crops only. A wetland converted December 24, 1985, through November 28, 1990 (determination of CW) is not a conservation compliance violation (those acreages may incur a wetland planting violation but not a conversion violation).--*

--175 Other Eligibility Provisions (Continued)*A HELC/WC Compliance (Continued)**

Applicants that do not have any interest in agricultural land (such as cropland, pastureland, rangeland, or forestland) certify to compliance by checking box 5A of AD-1026 (discussed in FSA-1122, Part A, item 6B), as they do with other USDA benefits subject to conservation compliance (farm records are not required; see 6-CP, subparagraph 641 D).

All other producers (discussed in FSA-1122, Part A, item 6) that do not have continuous AD-1026 certification of compliance on file, must file a complete AD-1026 according to provisions in 6-CP (including certification of Part B HELC/WC compliance questions). 6-CP, subparagraph 641 D states these producers must establish farm records to which their certification of compliance applies before recording AD-1026 as “certified”. However, for PARP, County Offices will record AD-1026 as “certified” when received. County Offices will keep these AD-1026’s in a “need to establish farm records folder” if information is not readily available to establish them. The producers will be contacted to do so as workload and time allows. Certification of AD-1026, recorded in subsidiary, is still required for the PARP payment to process.

B Controlled Substance

State- or Federal-controlled substances convictions for planting, cultivating, growing, producing, harvesting, storing, trafficking, and possession apply to PARP. See 1-CM, paragraph 871.--*

--176 Eligibility Form Requirements*A Payment Limitation, Payment Eligibility, and AGI Forms**

The automated CCC-902 will be completed according to 5-PL and 3-PL (Rev. 2) by **all** PARP applicants to collect:

--Section 3 PARP Policy and Provisions*190 PARP Eligibility****A General Eligibility for PARP**

PARP provides financial assistance to eligible producers and for a wide variety of agricultural commodities including crops, aquaculture, livestock, livestock byproducts, and other animal or animal byproducts that are produced as part of a farming operation and intended to be marketed commercially.

Assistance is available to producers who suffered at least 15 percent gross revenue decrease in calendar year 2020 because of the COVID-19 pandemic, including those producers who produced agricultural commodities that were not eligible for CFAP 1 and CFAP 2.

Eligible producers for PARP must have been in the business of farming for at least a part of the 2020 calendar year to produce an agricultural commodity and have been entitled to a share of the agricultural commodity available for marketing or would have shared had the commodity been produced and marketed.

B Eligible Commodities

PARP provides direct payments to eligible producers for **all** agriculture commodities that have been impacted by COVID-19 except for:

- wild free-roaming animals
- horses and other animals used or intended to be used for racing or wagering
- aquatic species that do not meet the definition of aquaculture
- *Cannabis sativa L.* and any part of that plant that does not meet the definition of hemp
- timber.--*

191 Signup Period**A PARP Signup Period**

The signup period for PARP begins January 23, 2023, and will end on July 14, 2023. Producers must timely file FSA-1122 (and FSA-1122A, if applicable) at any USDA Service Center during the enrollment period.

--FSA-1122's submitted or postmarked after 07-14-2023, will be disapproved. The-- following language is provided as guidance and may be modified to fit individual situations. A letter must be sent, and a copy of the letter filed in the case file. This letter is intended for a COC decision.

Dear (enter name of applicant),

This letter acknowledges receipt of FSA-1122, Pandemic Assistance Revenue Program (PARP) application. You submitted the application after the end of the signup period.

The signup period for PARP ended on 07/14/2023. You filed your FSA-1122 PARP application on (enter the applicable date).

Accordingly, the (enter applicable county) County Committee (COC) has determined you did not timely file your FSA-1122 PARP application; therefore, your application is denied.

If you believe the facts of this decision are not correct, you may file a written appeal of this determination with the county FSA committee within 30 days of your receipt of this decision. To file an appeal of this decision (insert appropriate language from 1-APP (Rev. 2) for a COC decision and include all appropriate and applicable review rights according to 1-APP (Rev. 2) for a COC decision).

Sincerely,

If necessary, County Offices will use registers according to 1-CM.

192 Allowable Gross Revenue**A Determining Allowable Gross Revenue**

*--Allowable gross revenue includes all revenue a producer received on a “cash basis method” during the applicable calendar year and reportable to IRS on Schedule F or similar Federal tax form. Allowable gross revenue does **not** include costs or expenses associated with revenue generated by the farming operation.

Note: An applicant is not required to have filed a Schedule F to determine Allowable Gross Revenue. If an applicant did not file a Schedule F, the applicant will determine Allowable Gross Revenue in the same manner as if a Schedule F was filed.--*

Allowable gross revenue must have been received from the production or sale of an agricultural commodity including crops, aquaculture, livestock, livestock byproduct or other animal or animal byproduct. The agricultural commodity must have been produced in the United States or produced outside the United States by a producer located in the United States and marketed in the United States.

193 Allowable Gross Revenue Certification**A Producer Allowable Gross Revenue Certification Requirements**

A producer applying for PARP benefits will self-certify either 2018 or 2019 allowable gross revenue as elected by the producer, and 2020 allowable gross revenue on FSA-1122. The producer's certification must exclude revenue from sources of ineligible commodities identified in subparagraph 190 B. The applicant's certification must be based on the producer's nationwide ownership interest in agricultural commodities, regardless of where a commodity was grown or stored, or an eligible cattle feeder operation's nationwide revenue.

Note: Ownership interest does not mean interest as a landowner. In this context, ownership interest means as owner of the commodity with both control of and title to the commodity.

Applicants who file a Federal tax return with another person or legal entity will self-certify their allowable gross revenue based on what their allowable gross revenue would have been had they filed taxes separately for the applicable year.

--PARP participants must maintain documentation for 3 years after the date of approval, to-- support all certifications of allowable gross revenue.

Participants receiving PARP payments must permit authorized representatives of USDA or GAO, during regular business hours, to enter the agricultural operation and to inspect, examine, and allow representatives to make copies of books, records, or other times for the purpose of confirming the accuracy of the information provided by the participant.

--193 Allowable Gross Revenue Certification (Continued)*B Supporting Documentation and COC Allowable Gross Revenue Adjustments**

COC may request additional documentation to support the allowable gross revenue certifications made by the producer before approving the application. COC will notify the applicant in writing, requesting supporting documentation be provided within 30 calendar days from receiving notification.

If the applicant fails to timely provide acceptable documentation, COC will disapprove the application, notify the producer, and provide appeal rights according to 1-APP.

Based on the supporting documentation, COC may determine to adjust the applicant's allowable gross revenue certification(s). In these cases, COC must thoroughly document its reason and basis for the adjustment in the COC minutes, notify the applicant in writing of its determination and provide appeal rights according to 1-APP.

Note: COC adjustments made according to this subparagraph may result in the 15 percent trigger not being met to qualify for a PARP payment.--*

C Changes in Farming Operations From 2018 or 2019 to 2020

A producer's farming operation may have undergone a structural change in its business operations from 2018 or 2019 to 2020, but not to the extent the farming operation is a new operation described in subparagraph D. The following table provides situations that would **not** be considered a new farming operation for PARP.

IF...	THEN...
an individual person conducted a farming operation in 2018 or 2019 and created an LLC (using the SSN of the person or an EIN) wholly owned by the individual that started to farm beginning in 2020	LLC would be the PARP applicant and the allowable gross revenue to count for 2018 or 2019 would be that of the individual person and the 2020 gross revenue would be that of the LLC.
a producer conducted a farming operation in 2018 or 2019 as an individual person and created a revocable trust (using the SSN of the person or an EIN) where the person is the sole grantor/beneficiary	the revocable trust would be the PARP applicant and the allowable gross revenue to count for 2018 or 2019 would be that of the individual person and the 2020 gross revenue would be that of the revocable trust.
a producer conducted a farming operation in 2018 or 2019 as an individual person and created a sole proprietorship in 2020	the sole proprietorship would be the PARP applicant and the allowable gross revenue to count for 2018 or 2019 would be that of the individual person and the 2020 gross revenue would be that of the sole proprietorship.
a non-family legal entity conducted its farming operation in 2018 or 2019 and the legal entity's membership changed beginning in 2020 (increased or decreased members or shares) and may or may not have changed its TIN	providing the 2020 gross revenue is received from the same sources and the operation stayed the same in terms of equipment and management used in the operation compared to 2018 or 2019, the legal entity would be the PARP applicant. Allowable gross revenue to count for 2018 or 2019 and 2020 would be the gross revenue reported to IRS associated with the legal entity's TIN.

--*

--193 Allowable Gross Revenue Certification (Continued)*C Changes in Farming Operations From 2018 or 2019 to 2020 (Continued)**

IF...	THEN...
a legal entity, owned 50/50 by mom and dad conducted its operation in 2018 or 2019 and in 2020, the legal entity was reorganized, added family members described in 5-PL, and obtained a new TIN	the new legal entity would be the PARP applicant. Because the entity is wholly owned by family members, the change in TIN is not recognized as a new legal entity and the gross revenue to count would be the 2018 or 2019 gross revenue of the old entity and the 2020 gross revenue of the new legal entity.
a legal entity changes to a joint operation or vice versa, and the members holding an ownership interest do not change	the new legal entity or joint operation would be the program applicant and the allowable gross revenue to count for 2018 or 2019 would be that of the prior year entity or joint operation and the 2020 gross revenue would be that of the new legal entity or joint operation.

Any situations not described in this table may be forwarded to the State Office for consideration. The State Office will evaluate and submit the situation to the PARP Program Manager through DAFP by e-mail to **RA.FSA.DCWA2.ppb@wdc.usda.gov**. In the subject line, include State abbreviation, PARP, and date. For example: NY/PARP/02-01-2023.--*

--193 Allowable Gross Revenue Certification (Continued)*D New Producer in 2020**

A new producer in 2020 is a producer who began farming in 2020 and who does not have gross revenue to report from a prior year. The producer will self-certify their **actual** allowable gross revenue for 2020 on FSA-1122, Pandemic Assistance Revenue Application (PARP) Application and self-certify their **expected** allowable gross revenue for 2020 on FSA-1122A, Continuation Sheet for Pandemic Assistance Revenue Program (PARP) Adjusted Revenue.

Note: See exceptions to “new operations” described in subparagraph C.

The producer **must** provide documentation to COC to support their certification of **expected** allowable gross revenue within 30 calendar days of submitting FSA-1122 and FSA-1122A. Acceptable documentation includes, but is not limited to:

- financial documents such as a business plan or cashflow statement that demonstrates an **expected** level of gross revenue
- sales contracts or purchase agreements that demonstrates an **expected** level of gross revenue
- documentation supporting production capacity, use of existing production capacity, or physical alterations that demonstrate production capacity.

COC will:

- adjust the 2019 allowable gross revenue on FSA-1122 to equal the producer’s certification of **expected** allowable gross revenue in 2020 when the documentation supports what the producer’s **expected** allowable gross revenue would have been for 2020
- thoroughly document its decision in the COC minutes
- notify the producer of its determination and afford appeal rights according to 1-APP.

A new producer in 2020 who does not timely provide documentation acceptable to COC will not receive a COC adjustment to the 2019 allowable gross revenue.--*

193 Allowable Gross Revenue Certification (Continued)

E New Producer in 2019

A new producer in 2019 is a producer who began farming in 2019 that does not have a full year's gross revenue to report for 2019. The producer will self-certify their **actual** allowable gross revenue for both 2019 and 2020 on FSA-1122 and complete FSA-1122A.

The producer may seek an adjustment to their 2019 allowable gross revenue. The producer **must** provide documentation to COC to support their certification of production they could have expected in 2019 had they been in operation for the full calendar year. The documentation must be provided within 30 calendar days of submitting FSA-1122 and FSA-1122A.

Acceptable documentation includes the following types of evidence and examples.

Basis or Reason for Increase	Examples and Evidence Include, But Are Not Limited to	Unit of Measure Includes, But Is Not Limited to
Added production capacity to the farm operation	Added land (purchase or lease agreements, FSA-578)	Acres
	Added livestock (purchase documents)	Head
	Added greenhouse (purchase documents, construction contracts)	Number
Increased the use of existing production capacity	Double-cropping existing land (FSA-578)	Acres
	Beginning production on high density *--blocks for orchards (evidence that--* supports farming practices)	Bushels, pounds, tons
Making physical alterations to existing production capacity	Adding irrigation to existing land (FSA-578, equipment purchases)	Bushels, pounds, tons
	Beginning production on certified organic acreage (FSA-578, OCCSP, Organic Certification documents)	Bushels, pounds, tons

Increase in production capacity does not include:

- crop rotation from year to year
- changes in farming practices such as converting from conventional tillage to no-till
- increasing the rate of fertilizers or chemicals.

--193 Allowable Gross Revenue Certification (Continued)*E New Producer in 2019 (Continued)**

A producer that generates revenue from multiple agricultural enterprises (for example, crop and a livestock enterprise) will self-certify to the **overall** percent increase in production across all agricultural enterprises.

COC may determine either of the following:

- the producer's certification is acceptable if the documentation reasonably supports the percent of increase
- to adjust the producer's certification when the documentation does not support the producer's certification.

COC will:

- adjust the 2019 allowable gross revenue on FSA-1122 when the documentation supports the **overall** percent of increase in production across all agricultural enterprises when comparing the 2020 operating capacity to the 2019 operating capacity had the producer been in operation for the full 2019 calendar year
- thoroughly document its decision in the COC minutes
- notify the producer of its determination and afford appeal rights according to 1-APP.

A new producer in 2019 who does not timely provide documentation acceptable to COC will not receive a COC adjustment to the 2019 allowable gross revenue.--*

193 Allowable Gross Revenue Certification (Continued)

F Increased Production Capacity in 2020 Compared to 2019 or 2018

A producer who increased the production capacity of their farming operation will not have 2018 or 2019 gross revenue reflective of the 2020 operating capacity and gross revenue. The producer will self-certify their **actual** allowable gross revenue for both 2018 **or** 2019 and for 2020 on FSA-1122 and complete FSA-1122A.

The producer may seek an adjustment to their 2018 or 2019 allowable gross revenue (as applicable). The producer must provide documentation to COC to support their certification of production level an expansion can be expected to generate. The documentation must be provided within 30 calendar days of submitting FSA-1122 and FSA-1122A. Acceptable documentation includes the following types of evidence and examples.

Basis or Reason for Increase	Examples and Evidence Include, But Are Not Limited to	Unit of Measure Includes, But Is Not Limited to
Added production capacity to the farm operation	Added land (purchase or lease agreements, FSA-578)	Acres
	Added livestock (purchase documents)	Head

--193 Allowable Gross Revenue Certification (Continued)*F Increased Production Capacity in 2020 Compared to 2019 or 2018 (Continued)**

Increase in production capacity does not include:

- crop rotation from year to year
- changes in farming practices such as converting from conventional tillage to no-till
- increasing the rate of fertilizers or chemicals.

A producer who generates revenue from multiple agricultural enterprises (for example, both crop and livestock enterprises) will self-certify to the **overall** percent increase in production across all agricultural enterprises.

COC may determine either of the following:

- the producer's certification is acceptable if the documentation reasonably supports the percent of increase
- to adjust the producer's certification when the documentation does not support the producer's certification.

COC will:

- adjust the 2018 or 2019 allowable gross revenue on FSA-1122 when the documentation supports the **overall** percent of increase in production across all agricultural enterprises when comparing the 2020 operating capacity to the 2018 or 2019 operating capacity
- thoroughly document its decision in the COC minutes
- notify the producer of its determination and afford appeal rights according to 1-APP.

A producer seeking an adjustment to the 2018 or 2019 allowable gross revenue who does not timely provide documentation acceptable to COC will not receive a COC adjustment to the 2018 or 2019 allowable gross revenue.--*

--194 Applying for PARP*A Application Submission**

Producers will submit 1 application for their entire operation nationwide.

A producer may submit an application using any of the following methods:

- in person, when available
- by mail
- electronically by:
 - FAX
 - email with a scanned or photocopy of FSA-1122 and FSA-1122A, if applicable, attached

Note: Submitting FSA-1122 and FSA-1122A online requires an active Level 2 eAuthentication account. Individual producers can register for a Level 2 eAuthentication account at **www.eauth.usda.gov**. A fillable format of FSA-1122 and FSA-1122A will also be available for applicants to sign and submit by 1 of the methods in this subparagraph.--*

--194 Applying for PARP (Continued)*B Signing and Certifying FSA-1122**

By signing FSA-1122, Part D, the individual is:

- applying for a PARP payment for the producer listed on Part B
 - self-certifying all the information provided on FSA-1122 is true and correct and that they were in the business of farming at some point during 2020
 - agreeing to:
 - provide all information that is necessary to verify that the information provided on FSA-1122 is accurate
 - allow USDA representatives access to all documents and records, including those in the possession of a third-party such as a warehouse operator, processor or packer
 - comply with maximum payment limitation and adjusted gross income provisions applicable to PARP by submitting the required forms
 - provide to USDA all eligibility documentation required within 60 calendar days from the PARP application deadline
- Note:** Applicants filing for an adjustment to their allowable gross revenue must provide documentation to support the adjusted amount within 30 days of filing their PARP application.
- comply with the provisions of the Food Security Act of 1985 that protect highly erodible land and wetlands
 - acknowledging that:
 - providing false certification to FSA is cause for disapproval of FSA-1122 and is punishable by imprisonment, fines, and other penalties
 - a PARP payment will only be made with respect to a commodity produced in the United States, and commodities produced outside the United States by a producer located in the United States and marketed inside the United States.--*

194 Applying for PARP (Continued)**C Signature Requirements**

A complete FSA-1122 and FSA-1122A, if applicable, including the applicant's signature
***--must** be received no later than the Deadline of July 14, 2023.--*

See 1-CM for signature requirements.

D Recording Receipt of FSA-1122's and Accessing PARP Application

Offices must make every effort to process FSA-1122 in the Automated PARP Application Software system and then have the producer sign the application. If the PARP application system is not available, a manual FSA-1122 must be completed.

Note: COC's are not to approve any FSA-1122 until **after** FSA-1122 has been loaded into the PARP system.

County Office will date stamp FSA-1122, and FSA-1122A if applicable, upon receipt of signed FSA-1122 and FSA-1122A. If a producer submits a signed manual FSA-1122 to the County Office, enter the application in the system accurately, as completed by the producer. -

If a producer submits an application to a County Office that is not the producer's recording County Office, the receiving County Office will date stamp the signed application, record it in the system and send a copy by email or FAX to the recording County Office.

See paragraph 197 for examples of and instructions on completing FSA-1122 and FSA-1122A.

Note: Follow 1-RSF for creating a receipt for service and customer interaction.

--195 Reviewing and Acting on FSA-1122's and FSA-1122A's*A Redelegation of Authority for FSA-1122's and FSA-1122A's**

COC may redelegate authority to CED to approve routine FSA-1122's and FSA-1122A's; however, CED **cannot** further redelegate authority to PT.

All adverse actions must go to COC for review.

Important: PARP is subject to prompt pay interest; therefore, once the payment software is available, every effort must be made to complete the payment process as soon as possible for approved FSA-1122's.

B Reviewing FSA-1122's for Reasonableness

Allowable gross revenue will be a self-certification by the producer and is subject to spot check. COC's may request additional documentation from a PARP applicant to support a producer's certification of allowable gross revenue. The following are a list of examples of production evidence:

- sales receipts from eligible gross revenue sources
- third-party documents (i.e., CPA statements)
- IRS schedule F or other Federal tax documents
- other sales documents indicating when a commodity was sold
- ledgers of income
- income statements of deposit slips
- crop insurance, NAP, and WHIP+ records
- register tapes
- other records determined acceptable by COC.

Note: If a producer fails to submit additional documentation in response to a request to substantiate allowable gross revenue, COC will make the applicable COC adjustments on the application for the allowable gross revenue and will either disapprove or approve the application, as applicable.--*

***--195 Reviewing and Acting on FSA-1122's and FSA-1122A's (Continued)**

C Acting on FSA-1122's and FSA-1122A's

The recording county's COC, or CED if delegated, will act on all completed and signed FSA-1122's and FSA-1122A's submitted.

Important: The CED's review of the first five FSA-1122's and FSA-1122A's, if
--applicable, must be completed according to subparagraph 154 A before--
acting on FSA-1122 and FSA-1122A, if applicable. Although FSA-1122 is
approved, payments will not be issued until the end of the program signup
period.

--195 Reviewing and Acting on FSA-1122's and FSA-1122A's (Continued)*D Approving FSA-1122's**

Before approving FSA-1122's, COC or CED, if delegated, must ensure that:

- all program eligibility requirements are met
- the person or legal entity applying for PARP is determined to be eligible according to subparagraph 170 A
- signature requirements are met according to 1-CM, signed FSA-1122, Part D and FSA-1122A, Part E
- allowable gross revenue as certified is reasonable
- FSA-1122 and FSA-1122A, if applicable, was received or postmarked **by** the end of the signup period.

If all program eligibility requirements are met and COC or delegate has determined that the information on FSA-1122 and FSA-1122A, if applicable, is reasonable and accurate, COC or delegate will approve FSA-1122 and FSA-1122A, if applicable, and thoroughly document approval in the COC minutes.

Notes: Situations may occur when application approval is not available in the software. Application approval is also not allowed “on paper” during these times.

Completing eligibility forms (AD-1026, CCC-902, CCC-941, etc.) are not a condition of COC, or CED, approving FSA-1122. However, these forms must be filed within 60 calendar days of the PARP application deadline. Failure to timely provide all eligibility forms may result in no payment or a reduced payment. County Offices must immediately update the Business File and Subsidiary record when the eligibility forms are filed.--*

--195 Reviewing and Acting on FSA-1122's (Continued)*E COC Adjusting or Disapproving FSA-1122's and FSA-1122A's**

If it is determined that any of the information as certified on FSA-1122 and FSA-1122A, if applicable, is not reasonable or is questionable, evidence may be requested from the participant according to subparagraph 193 B. If evidence provided by the participant differs from the information certified, COC's do have authority to make adjustments. See subparagraph 152 G on producer responsibilities.

COC will disapprove FSA-1122 and FSA-1122A, if applicable, if **any** of the following occur:

- program eligibility requirements are not met
- person or legal entity applying for PARP is determined to not to be an eligible producer according to subparagraph 170 A
- information on FSA-1122 and FSA-1122A, if applicable, or supporting documentation provided by the participant is not accurate or reasonable
- evidence indicates that applicant did not have a reported ownership share interest in the eligible commodity
- signature requirements were not met according to 1-CM, signed FSA-1122, Part D and FSA-1122A, Part E, if applicable

Note: If FSA-1122 or FSA-1122A was completed but never signed by the producer or someone on behalf of the producer, take **no** action on FSA-1122 or FSA-1122A. FSA-1122 and FSA-1122A are not considered filed unless signed.

- FSA-1122 and FSA-1122A, if applicable, was submitted or postmarked **after** the announced signup deadline.

If COC disapproves FSA-1122 or FSA-1122A for any reasons listed, or adjusts FSA-1122 or FSA-1122A for any reason then COC must take the following actions:

- adjust or disapprove FSA-1122 or FSA-1122A as applicable
- notify the participant of the adjustment or disapproval
- provide participant applicable appeal rights according to 1-APP
- thoroughly document reasons for the adjustment of disapproval in the COC minutes.--*

--196 Revised FSA-1122's, FSA-1122A's, and Signature Requirements*A Revised FSA-1122's and FSA-1122A's**

FSA-1122's and FSA-1122A's, if applicable, can be revised after filing and after FSA-1122 and FSA-1122A was approved before the end of the signup period. The reasons for revision can vary. Some reasons may include:

- allowable gross revenue reported was incorrect or entered in error
- additional allowable gross revenue was not reported on original application
- addition of information for allowable gross revenue determined eligible.

For any revision to an approved FSA-1122 or FSA-1122A, thoroughly document the reason for the revision in the COC minutes and provide the producer a copy of the revised FSA-1122 or FSA-1122A.

B Revisions That Require New Producer Signatures and Approval

Any revision to a previously approved FSA-1122 or FSA-1122A that would increase the calculated payment amount requires a new producer signature and new approval date entered.

C Revisions That Do Not Require New Producer Signature

A revision that adversely affects an application does not require a new producer signature. Notify the participant in writing of the revision, provide participant applicable appeal rights according to 1-APP, and thoroughly document reason for the revision in the COC minutes.

Any revised FSA-1122 or FSA-1122A must have a new approval entered.--*

General Form Instructions

PARP applicants that are a new producer in 2020, new producer in 2019, or a producer who increased production capacity from 2018 or 2019 to 2020 may seek a COC adjustment to the 2018 or 2019 revenue as applicable. The producer will complete this form in addition to form FSA-1122 and provide acceptable documentation to COC within 30 calendar days of submitting the PARP application. Failure to timely provide acceptable documentation will result in the COC denying the 2018 or 2019 allowable gross revenue adjustment.

New Producer in 2020:

Producers who began their farm operation in 2020 will certify their **actual** allowable gross revenue from 2020 on form FSA-1122 and their **expected** allowable gross revenue in 2020 on this form. Acceptable documentation must be provided within 30 calendar days of filing the PARP application. Acceptable documentation includes, but is not limited to financial documents, sales contracts or purchase agreements, documentation supporting production capacity, use of existing production capacity or physical alterations that demonstrate production capacity. The documentation must demonstrate the expected level of gross revenue prior to the impact of the COVID-19 pandemic. Acceptable documentation must have been generated in the ordinary course of business and dated prior to the impact of the COVID-19 pandemic.

New Producer in 2019:

A new producer in 2019 is a producer who began farming in 2019 that does not have a full year's gross revenue to report for 2018 or 2019. The producer will certify their 2019 and 2020 **actual** allowable gross revenue on form FSA-1122. The producer may seek a COC adjustment to their 2019 gross revenue by completing this form.

Increased Operating Capacity from 2018 or 2019 to 2020

A producer who increased the operating capacity of their farming operation will not have 2018 or 2019 gross revenue that reflects their 2020 operating capacity and gross revenue. The producer will certify their 2018 or 2019 and 2020 **actual** allowable gross revenue on form FSA-1122. The producer may seek a COC adjustment to their 2018 or 2019 revenue by completing this form.

The following table describes the types of evidence and provides examples that document the expected revenue had:

- the new producer in 2019 been operating at full capacity in 2019
- the same capacity in 2018 or 2019 as in 2020 if the operation increased capacity.

Basis or Reason for Increase	Examples and Evidence include but not limited to	Unit of Measure includes but not limited to
Added production capacity to the farm operation	Added land (<i>purchase or lease agreements, FSA-578</i>)	Acres
	Added livestock (<i>purchase documents</i>)	Head
	Added greenhouse (<i>purchase documents, construction contracts</i>)	Number
Increased the use of existing production capacity	Double-cropping existing land (<i>FSA-578</i>)	Acres
	Beginning production on high density blocks or orchards (<i>evidence that supports farming practices</i>)	Bushels, pounds, tons, etc.
Making physical alterations to existing production capacity	Adding irrigation to existing land (<i>FSA-578, equipment purchases</i>)	Bushels, pounds, tons
	Beginning production on certified organic acreage (<i>FSA-578, OCCSP, Organic Certification documents</i>)	Bushels, pounds, tons

F Examples of Completing FSA-1122A

The following provides examples of completing FSA-1122A.

Example 1 – New Producer 2020

Producer A:

- began farming in 2020 and had no sales during calendar year 2020 but had an expected 2020 calendar year revenue of \$100,000.
- certifies \$0 “actual allowable gross revenue” for calendar year 2019 and 2020 on FSA-1122 and \$100,000 “2020 expected gross revenue” on FSA-1122A.
- provides a 2020 cashflow statement indicating the expected gross revenue would have been \$100,000 in 2020 had it not been for gross revenue losses.

The COC determines the cashflow statement is acceptable and adjusts the 2019 allowable gross revenue to be \$100,000. COC documents its approval on FSA-1122A and records the COC adjustment on FSA-1122.

The following is an example of producer completed FSA-1122.

F Examples of Completing FSA-1122A (Continued)**Example 2 – New Producer in 2019**

Producer B:

- began farming in the fall of 2019 with 75,000 chickens, generating a total revenue of \$125,000 and in 2020 increased the number of chickens to 100,000, generating a total revenue of \$135,000.
- certifies “actual allowable gross revenue” of \$125,000 for calendar year 2019 and \$135,000 for calendar year 2020 on FSA-1122. The basis for increase (sold 25,000 more chickens in 2020) and the overall percent increase in production from 2019 to 2020 ($25,000/75,000 = 33.33$ percent increase) are also certified on FSA-1122A.
- provides purchase documents verifying the purchase of 25,000 more chickens in 2020.

The COC reviews the documents provided and determines the 33.33 percent overall increase is reasonable and documents its approval on FSA-1122A.

The COC approved increase of 33.33 percent and Producer’s B certified 2019 allowable gross revenue of \$125,000 is entered into the Producer Exception Workbook and the COC records a 2019 allowable gross revenue adjustment of \$166,662.50 on FSA-1122.

Calculation example:

- $33.33\% (.3333) \times \$125,000 = \$41,662.50$
- $\$41,662.50 + \$125,000 = \$166,662.50$.

Producer C:

- began farming in the fall of 2019 with 75,000 chickens and 400 acres of corn generating a total revenue of \$445,000. In 2020, Producer C farmed the same 400 acres of corn and increased the number of chickens to 100,000 generating a total revenue of \$450,000.
- certifies “actual allowable gross revenue” of \$445,000 for calendar year 2019 and \$450,000 for calendar year 2020 on FSA-1122. The basis for increase (sold 25,000 more chickens in 2020) and the overall percent increase in production from 2019 to 2020 (25% increase) are also certified on FSA-1122A.
- provides purchase documents verifying the purchase of 25,000 more chickens in 2020.

The COC reviews the documents provided and determines the 25% overall increase is reasonable and documents its approval on FSA-1122A.

The COC approved increase of 25% and Producer’s B certified 2019 allowable gross revenue of \$445,000 is entered into the Producer Exception Workbook and the COC records a 2019 allowable gross revenue adjustment of \$556,250 on FSA-1122.

Section 4 General Payment Provisions for PARP

211 PARP Payment Components

A Basis for Payments

PARP will provide payments to producers who suffered eligible 2020 gross revenue losses because of the COVID-19 pandemic.

The PARP payment is not subject to either of the following:

- offset
- sequestration.

A PARP payment will be made without regard to questions of title under State law and without regard to any claim or lien against the agricultural commodity or proceeds from the sale of the agricultural commodity.

B Payment Trigger

To be eligible for payment, the applicant must have suffered a 15 percent or greater decrease in allowable gross revenue when comparing the producer's 2020 allowable gross revenue to either 2018 or 2019 allowable gross revenue as elected by the producer.

An applicant whose decrease in allowable gross revenue is less than 15 percent is ineligible for a PARP payment.

Example: Producer certified:

2019 Allowable Gross Revenue = \$275,000

2020 Allowable Gross Revenue = \$250,000

Trigger:

$\$275,000 - \$250,000 = \$25,000$

$\$25,000 / \$275,000 = 9.09\% \text{ Loss}$

$9.09\% < (\text{less than}) 15\%$

***--Result:** Producer is not eligible for a PARP payment because the 15 percent trigger is not met.--*

--211 PARP Payment Components (Continued)*C Program Factor**

PARP payments are subject to the availability of funds. Once the program enrollment period ends, payments will be computed, and a program factor will be applied if needed.

D Payment Calculation

If the trigger described in subparagraph B is met, FSA will use the applicant's 2018 or 2019 allowable gross revenue elected by the producer (or COC adjusted gross revenue if applicable); minus the applicant's 2020 allowable gross revenue (or COC adjusted gross revenue if applicable); multiplied by a factor of either of the following:

- 90 percent for beginning farmers and ranchers, limited resource farmers and ranchers, socially disadvantaged farmers and ranchers, or veteran farmers and ranchers who have submitted CCC-860 certifying they meet the definition of at least 1 of the applicable groups
- 80 percent for all other applicants.

The factored amount will be further reduced by payments the applicant received, or will receive, from all the following programs:

- CFAP 1 and CFAP 2
- PLIP
- SMHPP
- 2020 ERP payments.--*

--211 PARP Payment Components (Continued)*D Payment Calculation (Continued)****Example 1: (SDA, Veteran, Beginning, or LR Farmer or Rancher)**

Producer certified:

2019 Allowable Gross Revenue = \$275,000

2020 Allowable Gross Revenue = \$200,000

CFAP 2 payment = \$50,000 (not included in 2020 allowable gross revenue)

Trigger:

\$275,000 minus \$200,000 = \$75,000 or 27.27% Loss (\$75,000/\$275,000)

Payment Calculation (\$275,000 minus \$200,000) = \$75,000; times 90% = \$67,500

\$67,500 minus \$50,000 (prior pandemic assistance) = \$17,500 net PARP payment

Example 2: (all other producers)

Producer certified:

2019 Allowable Gross Revenue = \$275,000

2020 Allowable Gross Revenue = \$200,000

CFAP 2 payment = \$50,000 (not included in 2020 allowable gross revenue)

Trigger:

\$275,000 minus \$200,000 = \$75,000 or 27.27% Loss (\$75,000/\$275,000)

Payment Calculation: (\$275,000 minus \$200,000) = \$75,000; times 80% = \$60,000

\$60,000 minus \$50,000 (prior pandemic assistance) = \$10,000 net PARP payment--*

--212 Payment Eligibility and Limitation*A Payment Eligibility**

To be considered eligible for PARP payment, in addition to submitting a completed FSA-1122 and FSA-1122A, if applicable, persons or legal entities must have filed the following forms for the 2020 program year:

- AD-1026 according to 6-CP and items 6 and 7 of FSA-1122
- applicable CCC-902 and CCC-901 (if required) according to 5-PL
- CCC-941 and FSA-1123 (if applicable) for AGI certification according to 5-PL.

Note: Tax years 2016, 2017, and 2018 are used to calculate average AGI for 2020 PARP. All required eligibility forms **must** be filed before a PARP payment can be issued.

B Payment Limitation Provisions

PARP has its own per person or legal entity payment limitation separate from other programs. The per person or legal entity payment limitation for PARP is provided in subparagraphs 172 A and B and will be attributed through direct attribution.

As each payment is processed, the available payment limitation for the person or legal entity will be reduced until:

***--218 PARP Spot Check (Continued)**

D Failure to Provide Documentation for Spot Check

Failure to timely provide acceptable documentation in the time prescribed will result in COC determining the participant ineligible for program benefits and the producer will be required to refund all payments issued under PARP. COC must:

H Discrepancy in Certified Gross Revenue and Documentation Provided for Spot Check

The following provides guidance when there is a discrepancy between the documentation provided by the producer for spot check and the amount of allowable gross revenue certified on FSA-1122 for:

- 2018 or 2019, as applicable
- 2020.--*

--218 PARP Spot Check (Continued)*H Discrepancy in Certified Gross Revenue and Documentation Provided for Spot Check (Continued)**

COC must determine whether the PARP payment resulted from an erroneous certification by the applicant, or any person acting on behalf of the program applicant. If COC determines the certification was erroneous, the trigger and payment will be recalculated, and the participant must refund any excess payment with interest calculated from the date of disbursement.

If COC determines that the applicant intentionally misrepresented information provided on their application, the application will be disapproved, and the applicant must refund the full payment to FSA with interest from the date of disbursement.

The following language is provided as guidance and may be modified to fit individual situations. A letter must be sent, and a copy of the notification filed in the case file. This letter is intended for a COC decision. Receivable letters must be provided in addition to this letter.

Dear (Enter Name of Applicant)

This letter is about an application you filed under the Pandemic Revenue Assistance Program (PARP). When you filed your application, you were advised that your certifications were subject to spot check by FSA.

The records you provided substantiated most of the allowable gross revenue you certified to on the FSA-1122 PARP application. However, the documentation reviewed shows you certified more allowable gross revenue than supported by your records. You remain eligible for PARP payments; however, your PARP application has been adjusted for the amount of allowable gross revenue supported by the records you provided. You will be notified by separate letter of any amounts owed as a result of the adjustment.

The (enter applicable county) County Committee (COC) has also determined that one or more exceptions to application of the finality rule (7 CFR 718.306) apply, as you have either intentionally or unintentionally misrepresented facts concerning your PARP eligibility, your certified allowable gross revenue cannot be substantiated, or you had reason to know that FSA erred in determining your payment eligibility. You will be notified by separate communication of amounts owed FSA as a result of this determination.

If you believe the facts of this decision are not correct, you may file a written appeal of this determination within 30 days of your receipt of this determination. You have the following administrative appeal operations: (insert appropriate language from 1-APP (Rev. 2) for a COC decision and include all appropriate and applicable review rights according to 1-APP (Rev. 2) for a COC adverse decision).

Sincerely,

County Executive Director

I Discovery of Fraud or Abuse

During the spot check, if COC suspects a discrepancy or violation may rise to the level of fraud or abuse with the intent to defeat the purpose of PARP, COC will handle these cases according to 1-CM, Part 29.--*

Producers and/or handlers who are approved for participation in OTECP are required to retain documentation in support of their application for 3 years after the date of approval. Producers and/or handlers receiving OTECP payments or any other person who furnishes such information to USDA must permit authorized representatives of USDA or GAO during regular business hours, to enter the agricultural operation and to inspect, examine, and to allow representatives to make copies of books, records or other items for the purpose of confirming the accuracy of the information provided by the producer and/or handler. Programs administered by DAFP require accurate information from producer and/or handler. Participants must understand that failure to provide complete and accurate information and records could result in any or all the following:

- an application for OTECP assistance being disapproved, COC adjusted, or approved but ineligible for payment
- the participant(s) being determined ineligible for FSA programs for the year or multiple years
- the participant(s) being liable under any civil or criminal fraud statute or any statute or provision of law.

232 Equitable Relief Requests and Appeals

A Equitable Relief and Finality

Equitable relief and finality provisions in 7-CP apply to OTECP.

If an application is submitted after the end of the application period, the County Office will accept the late-filed application with a written request from the applicant and take to COC to consider the request for programmatic relief according to 7-CP.

B Appealable Determinations

Applicants have the right to appeal FSA decisions on FSA-883's when there is a question of fact or a factual dispute or an assertion about correctly applying a rule or generally applicable provision to a set of facts. See 1-APP for appealable determinations.

County Offices will issue a letter to applicants about the result of processing FSA-883 when a payment is either **not** computed or determined **not** to be owed to the applicant. This decision will be considered to be a decision of a COC employee and must provide appeal rights according to 1-APP.

See subparagraph 263 C for an example of a letter advising an applicant that a payment was not computed, or will **not** be issued, in response to FSA-883.

C Nonappealable Determinations

Cases involving FSA decisions on FSA-883's that have no disputes of fact are not appealable. Generally applicable provisions are not appealable according to 1-APP, including but not limited to the following:

- eligibility conditions or criteria
- signature requirements
- payment calculations.

Letters notifying applicants that a decision is not appealable must clearly explain to the applicant the reasons that the decision is not appealable.

Note: Avoid using general and vague statements that do not sufficiently demonstrate the reasons that a decision is not appealable. Applicants may request that SED or NAD director review FSA's determination that an adverse decision is not appealable.

233 Misrepresentation, Scheme, or Device**A Determining Misrepresentation, Scheme, or Device**

An applicant who is determined to have deliberately misrepresented any fact affecting a program determination or otherwise used a scheme or device with the intent to receive benefits, to which the applicant would not otherwise be entitled, will **not** be entitled to any OTECP payments.

Scheme and device may include, but is not limited to, any of the following:

- concealing any information having a bearing on the application of the program provisions
- submitting false information to FSA
- any fraudulent representation.

B Liability

The liability of any producer for any payment or refund which is determined to be due FSA is in addition to any other liability of the producer under any civil or criminal fraud statute or any other statute or provision of law.

234 Internal Controls**A CED Reviews**

The purpose of this review is to ensure applications and eligibility forms are completed correctly and demonstrate the County Office understands program policy and is following the policy correctly. CED is required to review the **first 5 completed applications** as part of their supervisory responsibility to ensure program integrity and accountability requirements are met in administering OTECP.

Even though this is a producer certification program, attention to detail is required to ensure both program integrity and workload accountability.

Important: The initial review of the first 5 completed applications must be completed and all eligibility requirements must be met before DD can authorize the County Office to make payments.

The initial review completed by CED must include all documents required to issue payments, including eligibility documents and COC approvals. If the eligibility documentation is not available for 1 or more of the first 5 applications approved, CED will select the next available completed application until 5 applications are available for review.

The following must be reviewed by CED during the initial review.

- application form to ensure it is completed properly
- all signatures obtained, including representative signature authorities
- applicant eligibility
- applications are qualified to be paid without errors.

Upon completion, CED will certify to the DD/State Office designee that the first 5 completed applications have been reviewed and provide the application package for the DD/State Office designee review. The County Office may **not** issue any payments until written approval is received from DD/State Office designee.

Note: CED does not have to wait until all 5 applications have been reviewed to submit to DD. Upon DD review and approval of each completed application up to the first 5, the payment can be issued. Once the first 5 applications have been reviewed and payment has been authorized by DD, all additional applications may be processed by the County Office unless otherwise directed by DD.

235 OTECP General Provisions and Policies (Continued)

A Definitions (Continued)

Micronutrients not to be used as a defoliant, herbicide, or desiccant. Those made from nitrates or chlorides are not allowed. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by the certifying agent.

235 OTECP General Provisions and Policies (Continued)

A Definitions (Continued)

Transitional operation means a crop or livestock production operation that is transitioning to organic production in anticipation of obtaining USDA organic certification, and that has an organic system plan or written documentation from a certifying agent accredited by the National Organic Program.

USDA organic certification means a determination made by a certifying agent that a production or handling operation is in compliance with the OFPA and the NOP's regulations in 7 CFR part 205, which is documented by a certificate of organic operation.

Wild crop includes any plant or portion of a plant that is collected or harvested from a site that is not maintained under cultivation or other agricultural management.

B Payment Amount and Limitations

OTECP payments **must** be calculated separately by category. For 2020, 2021, and 2022 program years, cost share assistance will be reimbursed as follows.

Eligible Applicants	Category of Expenses	Payment Amount of Eligible Costs per Category
Certified operations	Certification – crops	25 percent, up to \$250
	Certification – livestock	25 percent, up to \$250
	Certification – wild crop	25 percent, up to \$250
	Certification – handling	25 percent, up to \$250
	State Organic Program fees	25 percent, up to \$250
Transitional operations	Eligible transitional expenses	75 percent, up to \$750
Certified and transitional operations	Educational event registration fees	*--75 percent, up to \$200
	Soil testing	75 percent, up to \$100--*

The amount of the applicant's OTECP payment plus the reported additional cost share assistance cannot exceed 50 percent of the total amount of eligible expenses for crop, livestock, wild crop, handling, and State organic program fees (that is, the portion of the costs not covered by OCCSP), or 100 percent of the total amount of eligible expenses for transitional expenses, educational event registration fees, and soil testing.

Cost share assistance will be issued after the application period for each crop year. If calculated payments exceed the amount of available funding, payments will be prorated.

235 OTECP General Provisions and Policies (Continued)**B Payment Amount and Limitations (Continued)**

Persons or entities with more than 1 certified operation (such as more than 1 organic certificate) or transitional operation may receive an OTECP payment of up to maximum payment per scope for each operation.

Note: For applicants applying for crops, wild crops, livestock, handling, or State organic program fees who have not applied for a OCCSP payment in the same program year, reference 1-OCCSP, subparagraph 30 E.

C Sequestration

Sequestration does **not** apply to OTECP.

D Obtaining FSA-325

FSA-325 will be completed, according to 1-CM, by individuals or entities requesting payments **earned** by a producer who has died, disappeared, or been declared incompetent subsequent to applying for program benefits. Payments will be issued to the individuals or entities requesting payment using the deceased, incompetent, or disappeared producer's ID number.

Note: If FSA-883 has been filed by the producer, a revised FSA-883 is **not** required when payments are issued under the deceased, incompetent, or disappeared producer's ID number.

E Administrative Offset

OTECP payments issued by FSA are **not** subject to administrative offsets.

F Bankruptcy

Bankruptcy status does **not** exclude a producer from requesting OTECP benefits. **Contact the OGC regional attorney for guidance on issuing OTECP payments on all bankruptcy cases.**

G Assignments and Joint Payments

County Offices shall process assignments and joint payments according to 63-FI.

236-245 (Reserved)

OTECP cost share assistance is available for certified and transitional producers and handlers located in:

- all 50 States
- District of Columbia
- Commonwealth of Puerto Rico
- Guam

At this time, **only** California has an approved State Organic Program. Producers and handlers located outside of California do **not** incur State Organic Program fees and are **not** eligible to receive OTECF assistance for this scope.

Some States are accredited by the NOP to act as organic certifying agents; however, this role is different than administering an approved State Organic Program. Amounts paid to a State agency for USDA organic certification services should be reported according to the appropriate category in subparagraph B.

247 Eligible Categories (Continued)**D Transitional Expenses**

For transitional crop and livestock operations, eligible expenses include fees charged by a certifying agent or consultant for pre-certification inspections and development of an organic system plan. Operations that incur eligible costs before USDA organic certification but became certified before the end of the FY may not receive cost share for the same expense as both a certified and a transitional operation.

E Soil Testing

Both certified and transitional operations are eligible for soil testing expenses. This category includes **only** soil testing to document micronutrient deficiency as required by the National ~~Organic Program~~ regulations at 7 CFR 205.601(j)(7) as well as postage for the specific soil test. Soil testing for other purposes is not covered by OTECP.~~---~~*

F Educational Event Registration Fees

Both certified and transitional operations are eligible registration fees for educational events, such as conferences, training programs, or workshops, that provide educational content addressing topics related to organic production and handling, such as farming and production methods, NOP requirements, and marketing. It includes both in-person and remote events. Educational events that cover other topics in addition to organic production and marketing are still considered eligible.

248 Eligible Expenses

A Payment in Program Year

OTECF eligibility is based on the date expenses are **paid** by the certified operation or transition operation, rather than on the date the organic certification is effective.

Eligible expenses include **only** expenses that are **paid** from:

- October 1, 2019, through September 30, 2020, for the 2020 program year
- October 1, 2020, through September 30, 2021, for the 2021 program year
- October 1, 2021, through September 30, 2022, for the 2022 program year.

Note: Expenses that have been **incurred** during the program year but **not paid** by the applicant are **not eligible** for cost share assistance.

Example: A certified organic producer is inspected by their certifying agent on September 1, 2021, and receives a bill from the certifier on September 15, 2021, indicating the amount due for certification services. The producer pays all expenses related to their certification on October 5, 2021. The producer may apply for cost share assistance for these expenses for the 2022 program year.

B Eligible Expenses

Certified organic operations may receive reimbursement for:

- certification application fees
- inspection costs
- fees related to equivalency agreement/arrangement requirements
- travel/per diem for inspectors
- user fees
- certifier sales assessments
- postage
- soil testing
- educational event registration fees.

Transitional operations may receive reimbursement for:

- fees charged by a certifying agent or consultant for pre-certification inspections
- fees charged for the development of an organic system plan
- soil testing
- educational event registration fees.

248 Eligible Expenses (Continued)**C Ineligible Expenses**

Ineligible expenses for both certified organic and transitional operations include:

- inspections necessary to address National Organic Program regulatory violations
- expenses related to non-USDA organic certifications
- expenses related to any other labeling program
- expenses related to materials/supplies/equipment
- late fees
- membership fees
- consultant fees (except as described above for transitional operations)
- expenses related to educational event attendance other than registration fees
- expenses for tests other than soil testing for micronutrient deficiencies.

D Questionable Invoice Costs

Certifiers can answer questions about eligible certification fees, and explain which fees are mandatory and which are optional. Each certifier has a unique fee schedule, which may use different terms to describe itemized expenses. If a certifier mandates certain fees, such as export certification, then those mandatory fees would be eligible for cost share reimbursement. If a certifier includes optional fees, such as consulting or application preparation, then those optional fees would not be eligible for reimbursement (except as described in subparagraph B for transitional operations).

State and County Offices should direct the applicant to contact the certifier with questions about which fees are mandatory versus optional for that certifier.

249-260 (Reserved)

Section 3 Application Process**261 Applying for Payment****A Application Periods**

OTECF program years will be on an FY basis. Producers and handlers may apply for
--OTECF from November 8, 2021, through February 4, 2022, for the 2020 and 2021--
program years. Program year 2022 will be announced at a later date.

Cost share assistance is provided on a **factored basis**, until all available funds are obligated. Applications received after all funds are obligated will **not** be paid. After the signup period concludes the National Office will provide guidance to State Offices as to how much of a factor will be applied to the calculated payments.

261 Applying for Payment (Continued)

B Application Package

A complete application includes the following:

- FSA-883 which includes a certification of the applicant's status as a certified operation or transitional operation and their eligible expenses
- AD-2047, if not previously filed
- SF-3881, if not previously filed

Note: The policy allowing hardship waivers of the EFT requirement applies to OTECP. See 63-FI.

- CCC-901, Part A, if not previously filed and the applicant is an entity.

Notes: CCC-901 is required for legal entities to identify individuals with signature authority according to 1-CM. If the entity chooses not to provide a completed CCC-901, Part A, the legal entity must provide sufficient documentation to support the authority of the individual signing on behalf of the entity.

Apply the maximum payment per organic certificate and consider entities with separate certificates to be separate producers/handlers. For stores that have separate certificates for different locations, each location is considered a separate handler and may obtain up to max by category as specified in subparagraph 235 B.

Applicants may be required to provide additional documentation to FSA, if necessary, to verify eligibility or issue payment. Eligible expenses are based on applicant certification and are subject to spot check. If an application must be verified, certified operations that previously applied for the OCCSP through an FSA local office and provided documentation of eligible expenses are not required to resubmit that documentation to FSA. However, those applicants must submit documentation of any additional eligible expenses included on their OTECP application that were not previously included in their OCCSP application. Certified operations that previously applied for OCCSP through a participating State Agency must submit the required documentation of their eligible expenses if requested by FSA.

Note: OTECP applicants are **not** required to file an acreage report; however, County Offices may encourage producers who apply for OTECP to file an acreage report to facilitate participation in other FSA programs and for use in their Organic System Plans.

261 Applying for Payment (Continued)

C Submitting Applications

Applicants may submit OTECP application packages to any County Office:

- in person when available
- by mail
- electronically by:
 - FAX
 - email with scanned or photocopy of signed FSA-883 attached
 - other authorized method (provided by supplemental notice or other guidance) online at www.farmers.gov/otecp
- online application.

Notes: Questions from producers and handlers who have submitted an application will be referred to the office that is processing that application.

If a County Office receives an OTECP application from an applicant that is **not** located in their county, the office receiving the application must send the application to the County Office where the operation is located to be processed.

Submitting FSA-883 online requires an active Level 2 eAuthentication account. Individual producers can register for a Level 2 eAuthentication account at www.eauth.usda.gov. A fillable format of FSA-883 will also be available to sign and submit by 1 of the methods in this subparagraph.

D Incomplete Applications

COC **cannot** act on FSA-883 until the applicant has completed the application and signed Part C.

Note: Incomplete applications or applications that are **not** signed do **not** require action by FSA. Applicants will receive decisions by FSA **only** on complete applications.

County Offices will notify an applicant that their application package is incomplete and give the applicant 30 days from the date of notification to submit any additional required documentation before disapproving FSA-883. An example notification letter is provided in subparagraph 263 D.

261 Applying for Payment (Continued)

E Late-Filed Applications

COC and STC do not have authority to approve programmatic relief for late-filed FSA-883's. However, a late-filed FSA-883 will be reviewed according to the following table.

Note: Neither COC nor STC are under any obligation to recommend relief. COC is not required to submit cases to STC that COC believes do not warrant relief, nor is STC required to submit cases to DAFP that STC believes do not warrant relief. If relief is not recommended by either COC or STC, the late-file application will be disapproved and the County Office will notify the applicant in writing of the decision on the applicant's request for late-filed FSA-883 with appropriate appeal rights according to 1-APP (based on the reviewing authority's decision that the FSA-883 was late and that relief was not appropriate). Cases do not have to be submitted to STC or DAFP for disapproval of relief.

IF FSA-883 is submitted...	THEN...
after the deadline but it is not accompanied by a written request of the applicant for late-filing	County Office will issue a letter to the applicant explaining that FSA cannot process FSA-883 because it was filed after the deadline. The letter must advise the applicant that the applicant may, within 30 calendar days of the receipt of the letter advising that FSA-883 was filed late, file a written appeal with COC of the notification by County Office according to 1-APP.
after the application deadline and is either accompanied by a written request for late-filing or the applicant has filed a timely appeal of the FSA County Office's notification that the application cannot be processed	<p>COC will review and make a determination of whether relief is appropriate and, if so, forward a recommendation to STC for final action. STC will review the applicant's request and COC recommendation.</p> <p>Note: If the matter comes to COC by appeal, follow 1-APP for acknowledging and scheduling an appeal.</p> <p>Neither COC nor STC are under any obligation to recommend relief. COC or STC can disapprove FSA-883 and choose not to forward a recommendation for relief of approval of the late-filed FSA-883 to DAFP. STC will forward an appropriate recommendation to DAFP to grant programmatic relief.</p>

261 Applying for Payment (Continued)

E Late-Filed Applications (Continued)

IF FSA-883 is submitted...	THEN...
after the application deadline and is either accompanied by a written request for late-filing or the applicant has filed a timely appeal of the FSA County Office's notification that the application cannot be processed (Continued)	<p>DAFP may:</p> <ul style="list-style-type: none"> grant relief to approve the late-filed FSA-883 <p>Note: The FSA representative will sign and date FSA-883 with the effective DAFP decision date.</p> <ul style="list-style-type: none"> deny relief and disapprove the FSA-883. <p>Note: State Offices will advise COC to notify the applicant in writing that relief has been disapproved by DAFP. The letter must include appropriate appeal rights according to 1-APP.</p>

Funding is available on a **prorated basis** as determined by the National Office. Applications approved after all available funding has been obligated will **not** be paid.

F Amending or Withdrawing FSA-883

Applications may be amended or withdrawn at any time until the end of the application period; however, copies of all submitted FSA-883's **must** be kept in the file.

Applicants may, at any time during the application period, amend FSA-883 to:

- add additional categories and/or expenses
- remove categories and/or expenses from OTECP.

--Part 6 Food Safety Certification for Specialty Crops (FSCSC)*Section 1 Basic FSCSC Provisions****276 General Information****A Purpose**

This part provides instructions for administering FSCSC.

FSCSC provides assistance to specialty crop operations that incur eligible on-farm food safety program expenses to obtain or renew a food safety certification in calendar years 2022 and 2023.

Specialty crops intended for human consumption are subject to concerns about safety, particularly since specialty crops sold as raw agricultural commodities do not undergo a “kill step” like cooking, canning, or pasteurizing used for other agricultural commodities, such as meat or dairy products. As a result, specialty crop operations face increasing demand from grocery stores, schools, and other institutional buyers and retailers to obtain certification through programs that address the safe growing, harvesting, packing, and holding of their crops. The need to develop, implement, and maintain on-farm food safety programs has resulted in additional costs for many specialty crop operations that seek alternate markets for their products because of changes in demand from traditional markets, such as restaurants and food service. As they identify new markets, many specialty crop operations also find they need to undergo food safety audits and absorb the additional costs to achieve food safety certification through a private or government-based certification program to meet buyers’ requirements to sell their products.

277 Responsibilities**A STC Responsibilities**

Within the authorities and limitations in this handbook and NOFA, STC's will:

- direct the administration of FSCSC
- ensure that State and County Offices follow FSCSC provisions
- thoroughly document all actions taken in the STC meeting minutes
- handle appeals according to 1-APP and 7 CFR Parts 11 and 780
- require reviews be conducted by STC representative according to paragraph 303 to ensure that County Offices comply with FSCSC provisions

Note: STC's may establish additional reviews to ensure that FSCSC is administered according to FSCSC provisions.

- take any oversight actions necessary to prevent County Offices from issuing any improper payments
- approve or disapprove any FSA-888 except those in which an STC member has a monetary interest
- comply with all FSCSC provisions.--*

--277 Responsibilities (Continued)*B SED Responsibilities**

Within the authorities and limitations in this handbook and NOFA, SED's will:

- ensure that County Offices follow FSCSC provisions
- ensure that County Office employees and COC's are adequately trained
- thoroughly document all actions taken in the STC minutes
- handle appeals according to 1-APP
- handle requests for equitable relief according to 7-CP
- ensure that STC representatives conduct reviews according to paragraph 303

Note: SED may establish additional reviews to ensure that FSCSC is administered according to FSCSC provisions.

- ensure that FSCSC provisions are publicized
- immediately notify the National Office of problems, incomplete or incorrect procedures, specific problems, or findings
- take any oversight actions necessary to ensure that IPIA provisions are met to prevent County Offices from issuing any improper payments
- comply with all FSCSC provisions.

C DD Responsibilities

Within the authorities and limitations in this handbook and NOFA, DD's will:

- ensure that COC's and CED's follow FSCSC provisions
- ensure that CED's review the first 5 completed FSA-888's and other required documents for completeness and accuracy from each county to confirm:
 - signatures are included
 - values on FSA-888 are correct in the software based on the producer's certification
 - eligibility requirements are understood and met--*

--277 Responsibilities (Continued)*C DD Responsibilities (Continued)**

- based on the review documentation received, provide COC or CED authority to complete approvals and actions in the software upon completing review of the first five FSA-888's

Note: If the initial documentation received contains evidence of misunderstood policy, DD will provide clarification of that policy to the County Office employees and withhold authority until authorization to approve FSA-888's is warranted.

- conduct reviews as determined by SED according to paragraph 303

Note: DD may establish additional reviews to ensure that FSCSC is administered according to these provisions.

- load the results of FSCSC reviews on the SharePoint site, according to paragraph 303, no later than 30 workdays after FSA-888 is reviewed for FSCSC
- ensure that all County Offices publicize FSCSC provisions
- immediately notify the State Office specialist responsible for FSCSC of software problems, incomplete or incorrect procedures, specific problems, or findings
- take any oversight actions necessary to ensure that IPIA provisions are met to prevent County Offices from issuing any improper payments.

D COC Responsibilities

Within the authorities and limitations in this handbook and NOFA, COC's will:

- fully comply with all FSCSC provisions
- ensure that CED's direct the County Office to follow all FSCSC provisions
- handle appeals according to 1-APP--*

--277 Responsibilities (Continued)*D COC Responsibilities (Continued)**

- review and take action on FSA-888's

Note: COC may redelegate authority to CED to review and approve routine FSA-888's. Redlegation of authority must be documented in the COC minutes. All adverse actions must go to COC for review.

- thoroughly document all actions taken in the COC minutes
- ensure that the County Office publicizes FSCSC provisions
- take any oversight actions necessary to ensure that IPIA provisions are met to prevent County Offices from issuing any improper payments
- ensure that FSA assists persons by providing program information as it becomes available, using a variety of methods.

Note: Because of the limits of FSA resources, publication of program information may or may not be direct mail or on an individual basis. FSA meets its publication responsibilities by making broad program announcements in press releases, print and electronic media, Federal Register documents, radio and television announcements, and through posting program information in USDA Service Centers.

The reality of limited resources has increased the participant's responsibility for being aware of program provisions. FSA cannot be responsible for reaching out to every potential program participant with all program information. Participants must seek information on program details and not wait for FSA to individually contact them about program provisions. As resources permit, COC will ensure that program provisions are publicized and that the County Office maintains a record of all publicity efforts, including postings in Service Centers.

The FSCSC Fact Sheet:

- may be used to provide general program information
- is available at www.farmers.gov/food-safety.--*

--277 Responsibilities (Continued)*E CED Responsibilities**

CED's will:

- fully comply with all FSCSC provisions
- ensure that County Office employees are adequately trained and fully comply with all FSCSC provisions
- follow procedure in subparagraph 304 B for redelegation of authority
- review the first 5 completed FSA-888's and other required documents for completeness and accuracy and send to DD to obtain authority for approval
- if so delegated, promptly review and approve routine FSA-888's

Notes: All adverse actions **must** go to COC for review.

CED **may not** redelegate authority to review and approve routine FSA-888's for any other County Office employees.

- handle appeals according to 1-APP
- thoroughly document all actions taken in the COC minutes
- ensure that producers receive complete and accurate FSCSC information
- immediately notify SED, through DD, of problems and incomplete or incorrect procedures
- take any oversight actions necessary to ensure that IPIA provisions are met to prevent County Offices from issuing any improper payments.

F PT Responsibilities

Within the authorities and limitations in this handbook and NOFA, PT's will:

- fully comply with all FSCSC provisions
- immediately notify CED of problems, including incomplete or incorrect procedures
- ensure that all program eligibility requirements have been met by producers and completeness of FSA-888's for accuracy before submitting to CED
- ensure that producers receive complete and accurate FSCSC information.--*

--277 Responsibilities (Continued)*G Applicant Responsibilities**

The applicant is responsible for being aware of program provisions and accurately reporting all required information, as applicable, on FSA-888.

Applicants who are approved for participation in FSCSC are required to retain documentation in support of their FSA-888 for 3 years after the date of approval. Applicants receiving FSCSC payments or any other person who provides this information to USDA must permit authorized representatives of USDA or GAO, during regular business hours, to enter the agricultural operation and inspect, examine, and allow representatives to make copies of books, records, or other items for the purpose of confirming the accuracy of the information provided by the applicant.

Programs administered by DAFP require accurate information from the applicant. Participants must understand that failure to provide complete and accurate information and records could result in any or all the following:

- FSA-888 for FSCSC assistance being disapproved, COC adjusted, or approved but ineligible for payment
- participant or participants being determined ineligible for FSA programs for the applicable program year or multiple years
- participant or participants being liable under any civil or criminal fraud statute or any statute or provision of law.

278 FSCSC General Provisions and Policies**A Definitions**

Beginning farmer or rancher means a farmer or rancher who has not operated a farm or ranch for more than 10 years and who materially and substantially participates in the operation. For a legal entity to be considered a beginning farmer or rancher, at least 50 percent of the interest must be beginning farmers or ranchers.

Certification upload fee means the fee paid by a specialty crop operation to upload reports and other documentation to a commercial database.

Certifier means either a private entity accredited for the purpose of providing food safety certification or a government-based certifier.

Food safety certification means certification that a specialty crop operation meets regulatory or market-driven food safety standards.--*

*--278 FSCSC General Provisions and Policies (Continued)

A Definitions (Continued)

Food safety management system means a documented system developed by a group of specialty crop operations to obtain food safety certification, also referred to as a “quality management system”.

Food Safety Plan means a documented plan implemented by a specialty crop operation to obtain food safety certification.

FSMA means the FDA Food Safety Modernization Act (Pub. L. 111-353).

Historically underserved farmer or rancher means a beginning farmer or rancher, limited resource farmer or rancher, socially disadvantaged farmer or rancher, or veteran farmer or rancher.

Limited resource farmer or rancher means a farmer or rancher who is **both** of the following:

- a person whose direct or indirect gross farm sales did not exceed either of the following:
 - for the 2022 program year, \$189,200 in each of the 2019 and 2020 calendar years
 - for the 2023 program year, the amount identified through the Limited Resource Farmer and Rancher Online Self Determination Tool in each of the 2020 and 2021 calendar years
- a person whose total household income was at or below the national poverty level for a family of 4 in each of the same 2 previous years referenced in the first bullet of this definition.

For an entity to be considered a limited resource farmer or rancher, all members who hold an ownership interest in the entity must meet the criteria in both bullets of this definition.

Note: Limited resource farmer or rancher status can be determined using a website available through the Limited Resource Farmer and Rancher Online Self Determination Tool through NRCS at <https://lrftool.sc.egov.usda.gov>.--*

--278 FSCSC General Provisions and Policies (Continued)*A Definitions (Continued)**

Monetary Value means the amount that would be paid in cash for a specialty crop if it were to be sold to a third party. In the annual calculation of total produce sales, include the following:

All produce sold, not just produce covered by the Produce Safety Rule:

- produce that was purchased or otherwise obtained and then resold
- produce sold directly to consumers or online
- produce sold at farmers' markets or to grocery stores
- produce sold by a third-party on the applicant's behalf, such as through a cooperative that takes possession, but not ownership, of applicants produce
- retail sales, wholesale sales, intrastate sales, and interstate sales (including produce offered for import to the U.S. or exported from the U.S.).

Do not include the following in the calculation:

- produce for which no payment was received (i.e., produce held without sale, or produce donated)
- the value of produce from other entities when a third-party is selling produce on the applicant's behalf along with produce from other entities.

Example: When produce is sold by a cooperative, along with produce from other growers, the applicant should only consider the value from the produce sales.

Produce Safety Rule means the final rule titled "Standards for the Growing, Harvesting, Packing, and Holding of Produce for Human Consumption" published on November 27, 2015 (80 FR 74353-74668).--*

--278 FSCSC General Provisions and Policies (Continued)*A Definitions (Continued)**

Small business means an applicant that had an average annual monetary value of specialty crops the applicant sold during the 3-year period preceding the program year of more than \$250,000, but not more than \$500,000.

Socially disadvantaged farmer or rancher means a farmer or rancher who is a member of a group whose members have been subjected to racial, ethnic, or gender prejudice because of their identity as members of a group without regard to their individual qualities. For entities, at least 50 percent of the ownership interest must be held by individuals who are members of such a group. Socially disadvantaged groups include the following and no others, unless approved in writing by DAFP:

- American Indians or Alaskan Natives
- Asians or Asian-Americans
- Blacks or African Americans
- Hispanics or Hispanic Americans
- Native Hawaiians or other Pacific Islanders

Specialty crop means any fruit or vegetable (including mixes of intact fruits and vegetables) and includes mushrooms, sprouts (irrespective of seed source), tree nuts, and herbs. A fruit is the edible reproductive body of a seed plant or tree nut (such as apple, orange, and almond), such that fruit means the harvestable or harvested part of a plant developed from a flower. A vegetable is the edible part of an herbaceous plant (such as cabbage or potato) or fleshy fruiting body of a fungus (such as white button or shiitake) grown for an edible part, such that vegetable means the harvestable or harvested part of any plant or fungus whose fruit, fleshy fruiting bodies, seeds, roots, tubers, bulbs, stems, leaves, or flower parts are used as food and includes mushrooms, sprouts, and herbs (such as basil or cilantro). "Specialty crop" does not include peanuts or food grains, meaning the small, hard fruits or seeds of arable crops, or the crops bearing these fruits or seeds, that are primarily grown and processed for use as meal, flour, baked goods, cereals, and oils rather than for direct consumption as small, hard fruits or seeds (including cereal grains, pseudo cereals, oilseeds, and other plants used in the same fashion). Examples of food grains include barley, dent- or flint-corn, sorghum, oats, rice, rye, wheat, amaranth, quinoa, buckwheat, and oilseeds (for example, cotton seed, flax seed, rapeseed, soybean, and sunflower seed).--*

291 Eligible Expenses

A Program Year Expenses

FSCSC eligibility is based on the date the certification is effective, rather than on the date the expenses are paid.

Eligible expenses include **only** expenses that are **paid** related to certifications from:

- June 21, 2022, through December 31, 2022, for the 2022 program year
- January 1, 2023, through December 31, 2023, for the 2023 program year.

Note: Expenses that have been **incurred** but **not paid** by the applicant are **not eligible** for cost share assistance.

Example: An operation is inspected by their certifying agent on December 1, 2022, and receives a bill from the certifier on December 15, 2022, indicating the amount due for certification services. The producer pays all expenses related to their certification on January 5, 2023. The producer receives their Food Safety Certification dated April 6, 2023. The producer may apply for cost share assistance for these expenses for the 2023 program year.--*

--291 Eligible Expenses (Continued)*B Eligible Expenses**

For FSCSC purposes, the following are considered eligible expenses.

- **Development of a Food Safety Plan for first-time food safety certification.** The specialty crop operation may develop its own plan, or it may hire a consultant, or a combination of both. FSCSC will cover a percentage of all approaches. For specialty crop operations that develop their own plans, FSCSC will cover a percentage of the costs of seminars and tools used to create a Food Safety Plan. For those that hire a consultant, FSCSC will cover a percentage of the consulting fees and other associated expenses. For specialty crop operations certified through a group, this category of expenses will cover a percentage of their share of the cost for developing a food safety or quality management system for the group.
- **Maintaining or updating an existing Food Safety Plan.** This is the costs of maintaining and updating existing Food Safety Plans. For specialty crop operations certified through a group, this category of expenses will cover a percentage of their share of the cost for maintaining or updating an existing food safety management system for the group.
- **Food safety certification.** This is the cost of obtaining food safety certification issued by a certifier, including application fees, inspection costs, inspection fees (including travel costs and per diem for certifiers), and user fees or certifier sales assessments.
- **Certification upload fees.** This is the cost to upload audit reports and certification documentation into commercial audit databases, which may be required by buyers of specialty crops.
- **Microbiological testing.** Microbiological testing is for products, soil amendments, and water as specified by a Food Safety Plan or food safety management system.
- **Training.** This is the cost of food safety training for the specialty crop operation.

Each expense submitted for assistance must be categorized according to the 6 categories in this subparagraph.

Note: Any associated postage is eligible and should be included with the category of expense for which it was incurred.--*

***--291 Eligible Expenses (Continued)**

C Ineligible Expenses

For FSCSC purposes, the following are considered ineligible expenses:

- infrastructure improvements, such as improvements to buildings, cold storage, flooring, restrooms, and handwashing stations
- supplies, such as sanitation and cleaning supplies and personal protective equipment
- equipment, such as grading or packing lines and sanitation equipment
- salaries and benefits of employees or other costs for labor, except for expenses for consultants described in subparagraph B
- fees or penalties for late payment.

D Group Certifications

Specialty crop operations that obtain certification through a group model are eligible to apply for assistance for their share of eligible expenses paid by the group, in addition to any eligible expenses they incur individually. The applicant should obtain an invoice or other documentation from the group that indicates the applicant's share of the expenses for each eligible category.--*

292-300 (Reserved)

Section 3 Application Process

301 Signup

A FSCSC Signup

Applicants can apply for FSCSC benefits at any County Office nationwide. The applicant must complete FSA-888 to receive a payment.

The signup period for FSCSC is as follows.

Program Year	Certification Date	Application Period
2022	June 21, 2022, through December 31, 2022	June 27, 2022, through January 31, 2023
2023	January 1, 2023, through December 31, 2023	*--February 1, 2023, through January 31, 2024--*

B Application Package

A complete application package includes the following:

- FSA-888
- CCC-860, if not previously filed

Note: An applicant who has filed CCC-860 certifying their status as a socially disadvantaged, beginning, or veteran farmer or rancher for a prior program year is not required to submit a subsequent certification of their status for a later program year because their status as socially disadvantaged would not change in different years, and their certification as a beginning or veteran farmer or rancher includes the relevant date needed to determine for what program years the status would apply. Because an applicant's status as a limited resource farmer or rancher may change annually depending on their direct and indirect gross farm sales, those applicants must submit CCC-860 for each applicable program year.

- AD-2047, if not previously filed
- SF-3881, if not previously filed.

Note: The policy allowing hardship waivers of the EFT requirement applies to FSCSC. See 63-FI.

--301 Signup (Continued)*C Submitting FSA-888**

For each program year, applicants will submit one FSA-888 per operation nationwide to any County Office:

- in person
- by mail
- electronically by:
 - FAX
 - emailed with a scanned or photocopy of signed FSA-888 attached
 - Box or OneSpan
- online application at <https://apps.fsa.usda.gov/fscsc/index.jsp>

Note: Submitting FSA-888 online requires an active Level 2 eAuthentication account. Individual producers can register for a Level 2 eAuthentication account at www.eauth.usda.gov. A fillable format of FSA-888 will also be available to sign and submit by 1 of the methods in this subparagraph.

D Incomplete FSA-888's

COC cannot act on FSA-888 until the applicant has completed FSA-888 and signed Part C.

Note: Incomplete FSA-888's or FSA-888's that are not signed do not require action by FSA. Applicants will receive decisions by FSA only on complete FSA-888's.

County Offices will notify an applicant that their application package is incomplete and give the applicant 30 calendar days from the date of notification to submit any additional required documentation before disapproving FSA-888.--*

--301 Signup (Continued)*E Late-Filed Provisions**

DAFP has the authority to waive or modify application deadlines and other requirements or program provisions not specified in law, in cases where DAFP determines it is equitable to do so and where the lateness or failure to meet these other requirements or program provisions do not adversely affect the operation of FSCSC.

DAFP has delegated this authority to STC. COC does not have authority to approve programmatic relief for late-filed FSA-888's. However, a late-filed FSA-888 will be reviewed according to the following table.

Note: Neither COC nor STC are under any obligation to recommend relief. COC is not required to submit cases to STC that COC believes do not warrant relief, nor is STC required to approve cases that STC believes do not warrant relief. If relief is not recommended by either COC or STC, the late-filed FSA-888 will be disapproved, and the County Office will notify the participant in writing of the decision on the participant's request for programmatic relief with appropriate appeal rights according to 1-APP (based on the reviewing authority's decision that FSA-888 was late and that relief was not appropriate). Cases do not have to be submitted to STC or DAFP for disapproval of relief.

--303 Internal Controls*A CED Reviews**

The purpose of this review is to ensure that FSA-888's and eligibility forms are completed correctly and demonstrate that the County Office understands program policy and is implementing it correctly. CED is required to review **completed FSA-888's** from the **first 5 producers per Service Center** as part of their supervisory responsibility to ensure that program integrity and accountability requirements are met. Only one FSA-888 per producer counts towards the first five.

The initial review completed by CED must include all documents required to issue payments, including eligibility documents. If the eligibility documentation is not available for 1 or more of the first 5 producers, CED will select the next available completed FSA-888 until five FSA-888's are available for review.

During the initial review, CED will:

- ensure that FSA-888 is completed properly
- review all signatures obtained, including representative signature authorities
- ensure that FSA-888 is qualified to be paid without errors.

Upon completion, CED will certify to the DD/State Office designee that the first 5 completed FSA-888's have been reviewed and provide the application package for DD/State Office designee review. The County Office or COC may **not** approve any FSA-888's until written approval is received from the DD/State Office designee.

Note: CED does not have to wait until all five FSA-888's have been reviewed to submit to DD. For the first five FSA-888's, approvals can be completed upon DD review and approval of each one. Once the first five FSA-888's have been reviewed and approval has been authorized by DD, all additional FSA-888's may be processed by the County Office unless otherwise directed by DD.--*

--304 Processing FSA-888*A Reviewing and Processing FSA-888**

County Offices will process FSA-888 for each eligible applicant according to the following table.

Step	Action
1	Confirm that the applicant has submitted the following, either with FSA-888 or previously on file: <ul style="list-style-type: none"> • AD-2047 • SF-3881 • CCC-860, if applicable • CCC-901, Part A, if the applicant is an entity.
2	See 1-CM for applicant signature on FSA-888.
3	COC will determine applicant overall eligibility according to Part 6.
4	COC will: <ul style="list-style-type: none"> • act on FSA-888 according to subparagraph 304D • sign and date Part D of the FSA-888.
5	Retain a copy of the completed FSA-888.
6	If FSA-888 has been adjusted or disapproved, provide a written determination according to subparagraph 304F.

B Delegation of Authority

The authority to approve routine FSA-888's prepared according to this handbook may be redelegated, in writing according to 16-AO, by COC to CED, except forms and documents in which CED has a monetary interest.

The following table provides the delegated authority for approval of FSA-888's.

IF the producer is...	THEN the approval authority is...
a Federal or non-Federal, State, or County Office employee	CED.
COC member	
DD	
SED	
STC member	
CED	COC.
any producer in a recording county	

Note: Questionable cases may be referred to the next higher authority for determination. Any employee serving as Acting CED is viewed as CED.--*

--304 Processing FSA-888 (Continued)*C COC Adjustments**

COC should make any adjustments to expenses or other reimbursements for expenses received before taking action on FSA-888.

Example: FSA-888 was submitted for \$1,000 for 10 water tests. The maximum number of tests per category is 5; this expense will need to be reduced by COC. The average cost per test is \$100 and COC would enter \$500 in FSA-888, item 10D.

Note: If adjustments are made on FSA-888, the applicant must be notified in writing of the adjustment with the COC determination and appeal rights included.

D FSA-888 Approval or Disapproval

COC is responsible for acting on all FSA-888's. This authority may be delegated to CED to approve FSA-888's with the delegation recorded in the COC minutes. FSA-888 will **not** be approved until a complete application package has been submitted and Internal Control reviews are completed. COC **must** act on **all** completed and signed FSA-888's.

Important: No entries will be made on FSA-888 by FSA employees, except entries designated for CCC representative use **after** the applicant signs FSA-888. Any additions or corrections **must** be initialed and dated by the applicant.

If FSA-888 is disapproved, County Offices **must** immediately notify the applicant in writing of the disapproval. See subparagraph F for an example notification letter. The letter to the applicant **must** include the following:

- notification that FSA-888 was disapproved
- the reason or reasons for disapproval
- applicable appeal rights according to 1-APP.

Notes: COC will **not** make any determinations about whether an applicant is following the requirements of the Food Safety Plan. If a County Office employee suspects that an applicant is violating Food Safety Plan requirements, they should contact their State Office for guidance.

Within 30 calendar days of FSA-888 being submitted, COC's should take action and County Offices should load the determination in the automated software.

E Amending or Withdrawing FSA-888

FSA-888's may be amended or withdrawn at any time until the end of the application period; however, copies of all submitted FSA-888's **must** be kept in the file. Applicants may, at any time during the application period, amend FSA-888 to:

- add additional categories and/or expenses
- remove categories and/or expenses from FSCSC.

Note: Any revision to a previously approved FSA-888 that would change the calculated payment amount requires a new signature and approval.--*

B Program Factor

FSCSC payments are subject to the availability of funds. Payments will be issued nightly after FSA-888 approval for program year 2022 and after the application period ends for program year 2023. If calculated payments exceed the amount of available funding, payments will be factored for 2023.

C Payment Calculation

FSCSC payments are calculated by multiplying:

- the applicant's eligible expenses by
- the percentage for the applicable category in the table in subparagraph A.

Note: The amount of the applicant's FSCSC payment plus the reported additional cost share assistance cannot exceed the total amount of eligible expenses for each category.--*

--316 FSCSC Payment Examples*A Payment Example 1**

A representative of Pumpkins Inc. submits FSA-888 for expenses for certification upload fees in the amount of \$1,000. That is the only category included on FSA-888. The corporation does not meet the requirements for socially disadvantaged, limited resource, beginning, or veteran farmer or rancher.

$\$1,000 \times 50\% = \500 (maximum payment amount for this category is \$250)

Total Payment = \$250

B Payment Example 2

Fruity Farms LLC has submitted CCC-860 certifying its status as a socially disadvantaged farmer or rancher, and certifies to the following expenses on FSA-888:

- \$5,000 for the food safety certification
- \$3,000 for development of a Food Safety Plan for the first time
- \$1,000 for certification upload fees
- \$500 for training.

$\$5,000 \times 75\% = \$3,750$ (maximum payment amount for this category is \$2,000)

$\$3,000 \times 75\% = \$2,250$

$\$1,000 \times 75\% = \$ 750$ (maximum payment amount for this category is \$375)

$\$ 500 \times 100\% = \$ 500$ (maximum payment amount for this category is \$300)

Total Payment = \$4,925

C Payment Example 3

Veggie Farms Partnership, which does not meet the definition of a socially disadvantaged, limited resource, beginning, or veteran farmer or rancher, certified to the following expenses:

- \$1,000 for maintaining a Food Safety Plan, with \$500 reimbursement received from another source
- \$800 for certification upload fees, with \$600 reimbursement received from another source
- \$500 for 3 water tests.

$\$1,000 \times 50\% = \500 (maximum payment for this category is \$250)

$\$ 800 \times 50\% = \400 (maximum payment for this category is \$250)

$\$ 500 \times 50\% = \250 --*

***--316 FSCSC Payment Examples (Continued)**

C Payment Example 3 (Continued)

The amount of the FSCSC payment plus the other reimbursement cannot equal more than 100 percent of the expenses for a category; therefore, the payment amount for the certification upload fees will be reduced.

Food Safety Plan = \$250

Certification upload fees = \$200 (\$800 - \$600 = \$200 maximum available for payment)

Water tests = \$250

Total Payment = \$700--*

317-326 (Reserved)

--Section 5 Spot Checks*327 FSCSC Spot Checks****A Spot Checks**

FSCSC spot checks will be conducted following the signup period. The National Office will supply a list of randomly selected FSA-888's to be reviewed. This list will be posted on the FSCSC Intranet page at <https://inside.fsa.usda.gov/program-areas/dafp/special-programs/fscsc/index>.

B Supporting Documentation

If requested by FSA, applicants are responsible for providing additional documentation to support the information on their FSA-888.

Examples of supporting documentation that may be used to support their FSA-888 include the following:

- Food Safety Certification
- Food Safety Plan
- paid invoices
- test results
- training certificates
- audit report
- proof of payment
- statement of audit charges.

If supporting documentation is requested, the information must be submitted to FSA within 30 calendar days from the date of request or FSA-888 will be disapproved by FSA.

C Spot Check Adjustments

If adjustments are determined to be needed on FSA-888 as a result of a spot check, enter adjusted expenses in FSA-888, item 10D or 10F. These adjustments must be loaded in the automated software and the payment will be recalculated. The County Office must issue a letter to the applicant with applicable appeal rights for any adjustments made.--*

Part 7 Spot Market Hog Pandemic Program (SMHPP)

Section 1 Basic SMHPP Provisions

346 General Information

A Purpose

This part provides policy and procedure to State and County Offices for administering the SMHPP.

--SMHPP provides assistance to producers that sold hogs through a spot market sale from--
April 16, 2020, through September 1, 2020, the period in which these producers faced the
greatest reduction in market prices due to the COVID-19 pandemic.

B Authority

SMHPP funding is provided through the Coronavirus Aid, Relief, and Economic Security
Act (CARES Act; Division B, Title I, Pub. L. 116–136).

*--Program provisions were initially published in a NOFA in the Federal Register on
December 14, 2021, which was revised and republished on March 18, 2022.--*

346 General Information (Continued)**C Delegations of Authority and Approvals**

The authority to approve SMHPP applications prepared according to this handbook may be redelegated, in writing according to 16-AO, by COC to CED, except forms and documents in which CED has a monetary interest.

Follow this table for delegated authority for approval of SMHPP applications.

IF the producer is...	THEN the approval authority is...
a Federal or non-Federal, State or County Office employee	CED.

Note: Questionable cases may be referred to the next higher authority for determination.

***--347 Responsibilities**

A STC Responsibilities

Within the authorities and limitations in this handbook and NOFA, STC's must:

- direct the administration of SMHPP
- ensure that FSA State and County Offices follow SMHPP provisions
- thoroughly document all actions taken in the STC minutes
- handle appeals according to 1-APP
- require reviews be conducted by DD's to ensure that County Offices comply with SMHPP provisions

Note: STC's may establish additional reviews to ensure SMHPP is administered according to these provisions.

- take any oversight actions necessary to ensure that PIIA provisions are met to prevent County Offices from issuing improper payments
- approve or disapprove any SMHPP application except forms or documents in which a STC member has a monetary interest
- comply with all SMHPP provisions.--*

--347 Responsibilities (Continued)*B SED Responsibilities**

Within the authorities and limitations in this handbook and NOFA, SED's will:

- ensure that County Offices follow SMHPP provisions
- thoroughly document all actions taken in the STC minutes
- handle appeals according to 1-APP
- ensure that DD's conduct reviews according to paragraph 348

Note: SED may establish additional reviews to ensure SMHPP is administered according to these provisions.

- ensure all County Offices publicize SMHPP provisions
- immediately notify the National Office SMHPP Program Manager of software problems, incomplete or incorrect procedures, specific problems, or findings
- take any oversight actions necessary to ensure that PIIA provisions are met to prevent County Offices from issuing improper payments
- approve or disapprove any SMHPP application except forms or documents in which a STC member has a monetary interest
- comply with all SMHPP provisions
- safeguard confidentiality of records according to 3-INFO.--*

***--347 Responsibilities (Continued)**

C DD Responsibilities

Within the authorities and limitations in this handbook and NOFA, DD's will:

- ensure that COC's and County Offices follow SMHPP provisions
- conduct reviews according to paragraph 348

Note: SED may establish additional reviews to ensure SMHPP is administered according to these provisions.

- ensure all County Offices publicize SMHPP provisions
- immediately notify the National Office SMHPP Program Manager of software problems, incomplete or incorrect procedures, specific problems, or findings
- take any oversight actions necessary to ensure that PIIA provisions are met to prevent County Offices from issuing improper payments.--*

--347 Responsibilities (Continued)*D COC Responsibilities**

Within the authorities and limitations in this handbook and NOFA, COC's will:

- fully comply with all SMHPP provisions
- ensure that CED directs the County FSA Office to follow all SMHPP provisions
- review, approve and/or disapprove SMHPP applications, and document in the COC minutes

Note: COC may redelegate authority to the CED to review, approve and/or disapprove routine SMHPP applications. Redlegation of authority must be documented in the COC minutes.

- handle appeals according to 1-APP
- thoroughly document all actions taken in the COC minutes
- ensure all County Offices publicize SMHPP provisions
- take any oversight actions necessary to ensure that PIIA provisions are met to prevent County Offices from issuing improper payments
- ensure that FSA assists persons by providing as much program information as it can in a variety of ways

Notes: Because of the limits of FSA resources, publication may or may not be by direct mail or on an individual basis. FSA meets its publication responsibilities by making broad program announcements in the press, print and electronic media, Federal Register documents, radio and television announcements, and through posting program information in USDA Service Centers.

The reality of limited resources has increased the producer's responsibility for being aware of program provisions. FSA cannot be responsible for reaching out to every potential program participant with all program information. Producers must seek information on program details and not wait for FSA to individually write or communicate with them about program provisions. As resources permit, COC will ensure that program provisions are publicized and maintain a record of all publicity efforts.--*

347 Responsibilities (Continued)

E CED Responsibilities

Within the authorities and limitations in this handbook and NOFA, CED's will:

- fully comply with all SMHPP provisions
- ensure that all County Office employees fully comply with all SMHPP provisions
- conduct CED reviews according to paragraph 348
- *--if so delegated, promptly review and approve routine SMHPP applications, and document in the COC minutes--*

Notes: All adverse actions **must** go to COC for review.

CED **may not** redelegate authority to review, approve and/or disapprove routine SMHPP applications to any other County Office employees.

- issue any adverse determination letter according to 1-APP
- ensure that all program eligibility requirements have been met by producers before issuing any payment to ensure that PIIA provisions are met
- handle appeals according to 1-APP
- thoroughly document all actions taken in the COC minutes
- immediately notify SED and/or State Office program specialist responsible for the administration of SMHPP, through DD, of software problems, incomplete or incorrect procedures, specific problems, or findings
- take any oversight actions necessary to ensure that PIIA provisions are met to prevent County Offices from issuing improper payments
- ensure that FSA assists persons by providing as much program information as it can in a variety of ways
- safeguard confidentiality of records according to 3-INFO.

347 Responsibilities (Continued)**F PT Responsibilities**

Within the authorities and limitations in this handbook and NOFA, PT's will:

- fully comply with all SMHPP provisions
- immediately notify the CED of software problems, incomplete or incorrect procedures, or specific problems
- ensure that all program eligibility requirements have been met by producers before issuing any payment to ensure that PIIA provisions are met
- adhere to provisions of 3-INFO.

G Producer Responsibilities

--The producer is responsible for being aware of program provisions and accurately certifying all required information as applicable on FSA-940. Producers must provide supporting documentation to verify the accuracy of information provided on the application.--
Producers who are approved for participation in SMHPP are required to retain documentation in support of their application for 3 years after the date of approval. Participants receiving SMHPP payments or any other person who furnishes such information to USDA must permit authorized representatives of USDA or GAO during regular business hours, to enter the agricultural operation and to inspect, examine, and to allow representatives to make copies of books, records, or other items for the purpose of confirming the accuracy of the information provided by the participant. Programs administered by DAFP require accurate information from producers. Producers must understand that failure to provide complete and accurate information and records could result in any or all the following:

- an application for SMHPP assistance being disapproved, COC adjusted, or approved but ineligible for payment
- the producer(s) being determined ineligible for FSA programs for the year or multiple years
- the producer(s) being liable under any civil or criminal fraud statute or any statute or provision of law.

348 Internal Controls

A CED Reviews

The purpose of this review is to ensure applications and eligibility forms are completed correctly and demonstrate the County Office understands program policy and is following the policy correctly. CED is required to review the **first 5 completed applications per Service Center** as part of their supervisory responsibility to ensure program integrity and accountability requirements are met.

***--Note:** If the CED review was completed before the addition of the supporting documentation question, a new review must be completed and previous responses revised, as appropriate.--*

The initial review completed by CED must include all documents required to issue payments, including eligibility documents and COC approvals. If the eligibility documentation is not available for one or more of the first 5 applications approved, CED will select the next available completed application until 5 applications are available for review.

During the initial review, CED will:

- ensure that the application form is completed properly
- ***--**ensure that supporting documentation was provided and reviewed to determine only eligible hogs are included on the application**--***
- review all signatures obtained, including representative signature authorities
- review producer eligibility
- ensure that the application is qualified to be paid without errors.

Upon completion, CED will certify to DD/State Office designee that the first 5 completed applications have been reviewed and provide the application package for DD/State Office designee review. The County Office may **not** issue any payments until written approval is received from DD/State Office designee.

Note: CED does not have to wait until all 5 applications have been reviewed to submit to DD. For the first 5 applications, payment can be issued upon DD review and approval of each one. Once the first 5 applications have been reviewed and payment has been authorized by DD, all additional applications may be processed by the County Office unless otherwise directed by DD.

349 Definitions for SMHPP

A Definitions

The following definitions apply to SMHPP. The definitions provided in other parts of this handbook do not apply to SMHPP. The definitions in 5-PL apply except where they conflict with the definitions used for SMHPP.

* * *

Contract grower means a person or legal entity who grows or produces eligible livestock under contract for or on behalf of another person or entity. The contract grower's income is dependent upon the successful production of livestock or offspring from livestock. The contract grower does not have ownership in the livestock and is not entitled to a share from sales proceeds of the livestock.

* * *

--Hogs means adult swine of an appropriate size and condition for slaughter if determined to be reasonable for the size for slaughter for the area from April 16, 2020, through September 1, 2020, by the applicable FSA COC.--

Negotiated sale means a sale by a producer of hogs to a packer under which the base price for the hogs is determined by seller-buyer interaction and agreement on a delivery day. The hog industry also refers to a negotiated sale as a cash or spot market sale. The hogs are scheduled for delivery to the packer not more than 14 days after the date on which the hogs are committed to the packer. A negotiated formula sale is also considered a negotiated sale.

Negotiated formula sale means a swine or pork market formula sale under which the:

- formula is determined by negotiation on a lot-by-lot basis; and
- swine are scheduled for delivery to the packer not later than 14 days after the date on which the formula is negotiated and swine are committed to the packer.

349 Definitions for SMHPP (Continued)**A Definitions (Continued)**

* * *

Ownership interest means to have both legal ownership interest and beneficial ownership interest in a legal entity. For the purposes of administering SMHPP, a person or legal entity that owns a share or stock in a legal entity that is a corporation, limited liability company, limited partnership, or similar type entity where members hold a legal ownership interest, and shares in the profits or losses of such entity is considered to have an ownership interest in such legal entity. A person or legal entity that is a beneficiary of a trust or heir of an estate who benefits from the profits or losses of such entity is also considered to have an ownership interest in such legal entity.

Packer means a packer as defined in section 201 of the Packers and Stockyards Act, 1921 (7 U.S.C. 191). Therefore, packer means any person engaged in the business of:

- buying livestock in commerce for purposes of slaughter;
- manufacturing or preparing meats or meat food products for sale or shipment in commerce; or
- marketing meats, meat food products, or livestock products in an unmanufactured form acting as a wholesale broker, dealer, or distributor in commerce.

Producer means a person or legal entity who raises hogs and whose production and facilities are located in the United States.

*--Reliable record means any non-verifiable record available that can reasonably be used to substantiate the eligible hog sales and how prices were determined for the sale, as determined acceptable by FSA COC.

Sold means the producer and buyer agreed on the negotiated price through a negotiated sales price, and the producer delivered the hogs within the time of that agreement. For SMHPP,--* a hog is considered sold on the date of the agreement, rather than when the hog or payment is delivered.

* * *

--Spot market sale means hogs marketed for slaughter to an individual or through a negotiated sale or through an intermediary who interacts with the buyer on behalf of the seller, which may include, but is not limited to, sale barns, brokers, or other intermediaries as determined by DAFP.--

Swine means a domesticated omnivorous pig, hog, or boar.

* * *

United States means all 50 States of the United States, the District of Columbia, the Commonwealth of Puerto Rico and any other territory or possession of the United States.

--Verifiable record means a document provided by the producer that can be verified by FSA COC through an independent source and is used to substantiate the eligible hog sales and how the prices were determined for the sale.--

350-363 (Reserved)

Section 2 SMHPP Producer Eligibility Policies and Provisions

364 Producer Eligibility

A Eligible Producers

An eligible producer is a person or legal entity who raises hogs and whose production and facilities are located in the United States.

To be eligible for a SMHPP payment, a producer must be 1 of following:

- citizen of the United States
- resident alien or “lawful alien” (possessing a Resident Alien Card (I-551))
- partnership of citizens or resident aliens of the United States
- corporation, LLC, or other organizational structure organized under State law solely owned by U.S. citizens or resident aliens
- Indian Tribe or Tribal organization, as defined in section 4(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304).

B Ineligible Producer

The following producers are **ineligible** for SMHPP payments:

- Federal, State, and local governments, including public schools as described in 5-PL
- *--packers (including brokers), as defined in subparagraph 349 A--*
- contract growers, as defined in subparagraph 349 A
- producers with hog purchases through all other purchase types including:
 - other market formula purchase
 - swine or pork market formula purchase
 - other purchase arrangements
 - packer-owned swine
- producers that have been suspended or debarred or otherwise excluded from participating in Federal programs (1-CM, paragraph 823)
- persons or legal entities who did not have a reported ownership interest in any of the eligible hogs
- producers that do not meet payment eligibility, AGI, and/or HELC/WC requirements for SMHPP.

--365 Notification of Interest Requirements*A Names, Addresses and Taxpayer Identification Numbers**

To be eligible to receive an SMHPP payment and facilitate administration of payment limitation, payment attribution, and other payment eligibility requirements, a person or legal entity must provide their name, address, and taxpayer identification number to USDA. In addition, a legal entity must provide the name, SSN or ITIN, address and ownership share of each person, or the name, EIN, address and ownership share of each legal entity that holds or acquires an ownership interest in the legal entity.

B Payment Reductions

An SMHPP payment to a legal entity will be reduced in proportion to a member's ownership share when the SSN or ITIN for a person, or EIN for a legal entity, that holds an ownership interest at, or above, the fourth level of ownership in the business structure is not provided to USDA.--*

366 SMHPP Payment Limitation and Payment Attribution

A Payment Limitation

Payment limitation does **not** apply to SMHPP.

B Attribution of Payments

A SMHPP payment to a legal entity will be attributed to those members who have a direct or indirect ownership interest in the legal entity, unless the payment of the legal entity has been reduced by the proportionate share of the member due to that member reaching the payment limitation. Attribution of payments made to legal entities will be tracked through four levels of ownership in the legal entity and will be reduced based on ownership interest of members below the fourth level as follows:

- **First level of ownership** – any payment made to a legal entity that is owned in whole or in part by a person will be attributed to the person in an amount that represents the direct *--ownership interest in the first-level or payment legal entity
- **Second level of ownership** – any payment made to a first-level legal entity that is owned in whole or in part by another legal entity (referred to as a second-level legal entity) will be attributed to the second-level legal entity in the first-level legal entity; if the second-level legal entity is owned in whole or in part by a person, the amount of the payment made to the first-level legal entity will be attributed to the person in the amount that represents the indirect ownership interest in the first-level legal entity by the person
- **Third and fourth levels of ownership**– except as provided in the second-level ownership, any payments made to a legal entity at the third and fourth levels of ownership will be attributed in the same manner as specified in the second level of ownership
- **Fourth level of ownership** – if the fourth level of ownership is that of a legal entity and not that of a person, a reduction in payment will be applied to the first-tier or payment legal entity in the amount that represents the indirect ownership interest in the first-level or payment legal entity by the fourth-level legal entity.--*

Payments made directly or indirectly to a person who is a minor child will **not** be combined with the earnings of the minor child's parent or legal guardian.

--367 AGI Requirements*A \$900,000 Average AGI and \$900,000 2020 AGI**

Average AGI provisions, as found in 5-PL, apply to SMHPP.

To be eligible for payment, a person or legal entity (including members, stockholders, or partners of the legal entity) must have an average AGI for program year 2020 that does not exceed the \$900,000 limitation, **unless** the person's or legal entity's 2020 AGI is \$900,000 or less.

The 3 base years used to compute the average AGI are 2016, 2017, and 2018. CCC-941 must be completed by all SMHPP producers and entity members to the fourth level of ownership in the business structure.

A SMHPP producer that previously filed FY 2020 CCC-941 is not required to submit a new certification unless the certification on file does not represent the producer's income level.

Producers exceeding the \$900,000 limitation may complete FSA-1123 and obtain a certification from a licensed CPA or attorney verifying that their 2020 AGI is less than \$900,000.

Instead of signing FSA-1123, a CPA or attorney may provide a written statement acceptable to FSA according to subparagraph C.--*

Note: 75 percent Average Farm AGI does **not** apply to SMHPP.

Section 4 General Payment Provisions for SMHPP**400 SMHPP Payment Components****A Basis for Payments**

SMHPP will provide payments to eligible producers who sold hogs through a spot market sale from April 16, 2020, through September 1, 2020.

The SMHPP payment is not subject to either of the following:

- offset
- sequestration.

An SMHPP payment will be made without regard to questions of title under State law and without regard to any claim or lien against the agricultural commodity or proceeds from the sale of the agricultural commodity.

B Payment Rate

SMHPP will use a single payment rate of **\$54 per head**.

C Program Factor

SMHPP payments are subject to the availability of funds. Payments will be issued after the application period ends. If calculated payments exceed the amount of available funding, payments will be factored.

***--Note:** SMHPP payments will not be issued until payment factor is determined by the National Office.--*

--400 SMHPP Payment Components (Continued)*D Payment Calculation**

SMHPP payments are calculated by multiplying:

- the number of head of eligible hogs, not to exceed 10,000 head, by
- the payment rate of \$54 per head.

Example: Mr. Pork's total head of hogs reported on FSA-940 exceeded the maximum of 10,000; therefore, Mr. Pork will only get paid on 10,000 head even though he sold 40,000. Mr. Pork's payment would be calculated by multiplying 10,000 head of hogs by the \$54 payment rate.

$$10,000 \times \$54 = \$540,000$$

E Payment Eligibility

To be considered eligible for SMHPP payment, in addition to submitting a completed FSA-940, persons or legal entities must have filed the following forms for the 2020 program year:

- AD-1026, according to 6-CP
- applicable CCC-902 and CCC-901 (if required) according to 5-PL
- CCC-941 and FSA-1123 (if applicable) for AGI certification according to 5-PL.

***--401 General Payment Provisions**

A Introduction

The SMHPP payment process is an automated process that determines:

- whether the producer is eligible to receive payment
- the payment amount that can be sent to NPS for disbursement
- the overpayment amount that will be updated to the Pending Overpayment Report.

B Frequency of Payment Processing

SMHPP payments are processed nightly for the following:

- applications for which an approval is updated in the software during the workday
- changes made to the application or eligibility flags that could affect the producer's payment or overpayment amount determination.

C Obtaining FSA-325 for Deceased, Disappeared, or Incompetent Producers

Follow 1-CM provisions for persons who have died, disappeared, or been declared incompetent.--*

--401 General Payment Provisions (Continued)*D Administrative Offset**

SMHPP payments are **not** subject to administrative offset.

E Assignments and Joint Payments

A producer entitled to a SMHPP payment may assign the payment according to 63-FI. SMHPP payments may be assigned, provided CCC-36 is submitted by the producer or made to a joint payee, provided CCC-37 is submitted by the producer before payment is made. County Offices will follow 63-FI to process assignments and joint payment authorizations.

F Bankruptcy

Bankruptcy status does **not** exclude a producer from requesting SMHPP benefits.

Important: Contact the OGC Regional Attorney for guidance on issuing SMHPP payments on all bankruptcy cases.

G Sequestering SMHPP Payments

SMHPP payments are **not** subject to sequestration.

H General Payment Policy

See 9-CM, Part 2 for general payment policy for the following:
