Farm Service Agency Washington, DC 20250

Special Programs	
1-SP (Revision 1)	Amendment 2

Approved by: Acting Deputy Administrator, Farm Programs

Lynn Geerdame

Amendment Transmittal

A Reasons for Revision

Subparagraph 16 C has been amended to reference reasons that FSA-229-1's or payments may be disapproved.

Subparagraph 16 D has been amended to include 1-PL as a reference.

Subparagraph 27 A has been amended to clarify that FSA-232 amounts count toward the \$65,000 payment limitation.

Subparagraph 28 A has been amended to provide that mailings of FSA-230's are at the discretion of FSA State Office depending on available staff resources.

Subparagraph 42 E has been amended to clarify that recertified petitions are assigned a new petition number for subsequent years.

Subparagraph 44 A has been amended to provide that the FAS petition registry lists **only** certified petitions and omits any submitted, but not certified.

Paragraph 51 has been amended:

- to remove Alaska State Office direction because it no longer applies
- provide that FSA-229-1's are submitted in the producer's Administrative County Office.

Subparagraph 52 A has been amended to remove reference to any actively engaged requirements.

Subparagraphs 52 B and 72 C have been amended to:

- remove reference to actively engaged, cash-rent tenant, and permitted entity for both 2008 and 2009 in the tables of eligibility provisions
- add a footnote to the entries for Conservation Compliance to clarify that applicants are compliant if they are without land association.

Amendment Transmittal (Continued)

A Reasons for Revision (Continued)

Subparagraph 53 C has been amended to clarify that tax records may be acceptable documentation, if they show price received.

Subparagraph 53 D has been added to establish that:

- County Offices shall review any submitted price and production documentation to ensure that it relates to the appropriate certified commodity and crop year
- County Offices may elect to copy and retain copies at the time the documents are submitted, but there is no requirement to copy or retain copies of documentation
- documentation is required to be copied and retained **only** for applicants selected for spot check.

Subparagraph 55 A has been amended to:

- remove reference to the actively engaged requirement
- identify CCC-502, CCC-901, or CCC-902 items or parts that are required to be completed
- add a statement about required documentation when members of joint ventures or partnerships apply as individuals.

Subparagraph 72 A has been amended to:

- remove reference to any actively engaged and permitted entity requirements
- clarify combined producer files for 2008 and 2009 and subsequent crops.

Subparagraph 72 B has been amended to edit the farm-plan forms and applicable items/parts that are referenced in subparagraph 55 A.

Subparagraph 73 C has been amended to:

- remove the reason codes for actively engaged and cash-rent tenant provisions
- renumber the remaining codes
- remove the separate code for FCIC fraud.

Subparagraph 73 D has been amended to:

- switch the order of events 3 and 4 in the table for conformity to their numbering in the application software
- remove the event 4 inference that a travel reimbursement is needed to be eligible for additional training or payments
- remove the words "after notification by FAS" from event 5.

Amendment Transmittal (Continued)

A Reasons for Revision (Continued)

Subparagraph 74 A has been amended to reflect that travel reimbursements are processed **only** through web-based software and **not** entered into the Excel files.

Subparagraph 75 B has been amended to remove the words "and initials" from the FAS process used to disapprove payments.

Subparagraph 76 A has been amended:

- for clarity by referencing "Hot Links" at the URL for the Excel file
- to specify in the first bullet that FSA-229-1's are entered into **only** 1 Excel spreadsheet to be used for FSA-229-1's under 1 or more petitions and under 1 or more FY's.

Exhibit 6 has been amended to list certified commodities.

Part 1 General Provisions

1 Overview

A Purpose

This handbook provides the following:

- State and County Offices with policy and instructions for special programs administered by PSD
- policy and procedure for the TAA for Farmers Program.

Instructions for other programs will be added as needed.

B Source of Authority

The source of authority for TAA for Farmers is the American Recovery and Reinvestment Act of 2009 (Pub. L. 111-5), that reauthorized and modified provisions in the Trade Act of 2002 (Pub. L. 107-210), that amended the Trade Act of 1974. The American Recovery and Reinvestment Act of 2009 (Pub. L. 111-5) directs the Secretary of Agriculture to administer a program of business-plan education and cash payments.

C Program Regulations

Regulations for TAA for Farmers are established at 7 CFR Part 1580.

•

Part 1 Trade Adjustment Assistance (TAA) for Farmers Program

Section 1 General Provisions and Responsibilities [7 CFR Part 1580]

16 General Provisions

A Purpose

This part provides State and County Offices with policy and procedures for administering the TAA for Farmers Program.

B TAA for Farmers Funding

The statute authorizes an appropriation of not more than \$90 million per FY for 2009 and 2010 FY's, and \$22.5 million for the period beginning October 1, 2010, and ending December 31, 2010.

Appropriated funds will be used for various costs of administering TAA for Farmers, including costs of software development and maintenance, training by instructors under contract, and staffing costs of FAS, FSA, ERS, and NIFA.

C Program Availability

Any group of agricultural commodity producers may petition the FAS Administrator for a determination of eligibility for TAA for Farmers benefits.

After FAS-930 has been certified (approved for benefits) for a commodity, individual producers of the commodity may apply at their local County Office for cash benefits. Producers who otherwise meet the production or price requirements for benefit eligibility are:

- eligible for educational assistance (business-plan training) even if they cannot receive cash payments because of payment limitation
- ineligible for educational assistance if they exceed AGI limits for the program year
- •*--see subparagraph 73 C for reasons that FSA-229-1's or payments may be disapproved.--*

16 General Provisions (Continued)

D Related Handbooks

Handbooks related to TAA for Farmers include:

- 1-CM for signatures; estates, trusts, or minors; controlled substance violations, and fraud provisions
- 61-FI for prompt payment provisions
- •*--1-PL and 4-PL for payment limitations and AGI--*
- 3-PL for web-based subsidiary files
- 6-CP for HELC/WC.

17 Agency Responsibilities

A Responsibilities

The following table lists agency responsibilities for TAA for Farmers.

Agency	Responsibility
CFFM	Oversees technical education to each producer of an approved FAS-930 who submits FSA-229-1. Educators will be under contract with CFFM.
ERS	Conducts a market study and economic analysis of each filed FAS-930 to determine whether or not increases in imports contributed importantly to declining prices, cash receipts, or production.
FAS	Has overall management responsibility for TAA for Farmers, including program regulations and appeals. Receives, analyzes, and reviews FAS-930's and determines and announces commodity eligibility for TAA for Farmers benefits. Provides all benefit or eligibility disapproval decisions. Accepts and remediates appeals of all disapproval actions.
	Assists potential petitioners to complete FAS-930.
FSA	 According to FAS policy, implements TAA for Farmers by: assisting producers to complete and submit FSA-229-1's providing outreach service to petitioners and producers by providing program information and services, including possible mailing of written notices of TAA for Farmers benefits to producers believed covered by a certified FAS-930
	• entering FSA-229-1's into TAA for Farmers Excel spreadsheet or web-based software, as applicable; payment disbursement; and payment servicing, including reporting to IRS.

18 STC and County Office Responsibilities and CCC-770 TAAF's

A STC Responsibility

STC's shall supervise and monitor TAA for Farmers to ensure that policies and procedures in this handbook are being uniformly followed by County Offices.

B COC Responsibility

COC's shall:

- inform potential petitioners of the commodity approval process, if requested
- administer TAA for Farmers at the county level under STC supervision
- inform TAA for Farmers applicants about benefits and eligibility requirements
- approve FSA-229-1's (all disapprovals will be made by FAS)
- refer to FAS, FSA-229-1's, business plans, and payments that cannot be approved by FSA.

Responsibilities are listed in detail in CCC-770 TAAF (subparagraph 34 C).

Note: COC may delegate the authority to approve FSA-229-1's to CED or designee. ***

Section 2 Administrative Provisions

26 General TAA for Farmers Program Provisions

A Commodity Eligibility [7 CFR 1580.203]

Before producers can submit FSA-229-1's, a commodity must be determined as eligible under TAA for Farmers. See paragraph 41 for commodity eligibility requirements.

B Producer Eligibility Requirements

See paragraph 52 for a summary of producer eligibility requirements.

C Reimbursing Authorized Travel

See paragraph 74 for requesting reimbursement for travel expenses.

D Assigning Payments [7 CFR Part 1404 and 1580.303(b)]

TAA for Farmers payments are assignable according to 63-FI.

26 General TAA for Farmers Program Provisions (Continued)

E Cash Payment Levels and Potential for Reduction

Producers of certified commodities are eligible for a cash payment of up to \$4,000 for completing an approved initial business plan and an additional \$8,000 for completing an approved long-term business plan.

Payments for business plans may be reduced if total payment obligations, after expenditures for program administrative expenses, training, software, and applicant travel reimbursements, exceed available funds.

Example: If out of the \$90 million made available for TAA for Farmers for FY 2010, \$80 million is available after administrative expenses, the \$80 million would be sufficient to pay the maximum \$12,000 TAA for Farmers payment for business plans (subparagraph 27 A) to 6,666 applicants. However, if there are 25,000 applicants, the maximum payment to any 1 applicant for completing both initial and long-term business plans would be reduced to approximately \$3,200.

Any payment reductions under TAA for Farmers will be announced by press release as soon as possible following decisions about payment reductions.

27 Payment Limitations [7 CFR 1580.301(e) and 1580.302(j)]

A Two Payment Limitations

TAA for Farmers payments for FSA-232's and business plans are applicable to the countercyclical:

- payment limitation of \$65,000 per crop year for 2008-crop commodities
- and ACRE-option payment limitation of \$65,000 per crop year for 2009 and subsequent crop commodities.

TAA for Farmers payments for business plans **cannot** exceed \$12,000 within any 36-month period following FAS-930 certification. FSA-232 amounts do **not** count toward the \$12,000 payment limitation.

Note: Producers who meet the production or price requirements for TAA for Farmers benefit eligibility, but who are ineligible for cash payments because of payment limitation are eligible for educational assistance (business-plan training).

B Payment Limitation Calculations

Payment limitations are applied by program software. County Offices do **not** calculate any payment reductions resulting from the limitations.

Note: For FSA-229-1's submitted before web-based software is functional (and the Excel spreadsheet is being used) the applicant's remaining payment limit is manually determined and entered into the Excel spreadsheet.

27 Payment Limitations [7 CFR 1580.301(e) and 1580.302(j)]

Par. 27

A Two Payment Limitations

TAA for Farmers payments for FSA-232's and business plans are applicable to the counter-cyclical:

- payment limitation of \$65,000 per crop year for 2008-crop commodities
- and ACRE-option payment limitation of \$65,000 per crop year for 2009 and subsequent crop commodities.

TAA for Farmers payments for business plans **cannot** exceed \$12,000 within any 36-month period following FAS-930 certification. FSA-232 amounts do **not** count toward the \$12,000 *--36-month limit, but do count toward the \$65,000 payment limitation.--*

Note: Producers who meet the production or price requirements for TAA for Farmers benefit eligibility, but who are ineligible for cash payments because of payment limitation are eligible for educational assistance (business-plan training).

B Payment Limitation Calculations

Payment limitations are applied by program software. County Offices do **not** calculate any payment reductions resulting from the limitations.

Note: For FSA-229-1's submitted before web-based software is functional (and the Excel spreadsheet is being used) the applicant's remaining payment limit is manually determined and entered into the Excel spreadsheet.

28 TAA for Farmers Program Outreach to Producers (Continued)

B Example of FSA-230

State Offices, or County offices at the direction of the State Office, shall mail FSA-230 to producers thought to be eligible for TAA for Farmers training and payments under any certified FAS-930's.

29 Prompt Payments and Powers of Attorney

A Prompt Payment Interest

TAA for Farmers payments are **not** subject to prompt payment interest.

B Acceptable Powers of Attorney

Producers may not designate a power of attorney for TAA for Farmers using FSA-211.

County Offices may accept a properly executed power of attorney by which the grantor provides authority to an attorney-in-fact to act on the grantor's behalf.

County Offices must ensure that the power of attorney is properly signed and dated by the grantor, and either witnessed by an FSA employee or a Notary Public.

30 Appeals and Corrections

Applicants who are disapproved by FAS for TAA for Farmers benefits are informed of their rights for judicial review in FAS-931 (subparagraph 75 C) from FAS.

Appeal regulations used by FSA for other programs (7 CFR Part 780) do **not** provide NAD or STC jurisdiction over TAA for Farmers because FSA will **not** make any adverse TAA for Farmers determinations. FSA will not disapprove FSA-229-1's. Any FSA-229-1's that FSA cannot approve will be referred to FAS for disapproval.

B Delivery Instructions for Sending Disapproved FSA-229-1's

If disapproval is appealed by the applicant, COC may be asked to submit the original FSA-229-1 to FAS. If FSA-229-1 is requested by FAS, COC shall:

- copy the original FSA-229-1 and retain the **copy** in the file
- send the original FSA-229-1 to FAS
- send any requested documentation.

Requested copies shall be sent to the following address using commercial delivery service:

Attention: Pete Burr USDA, Foreign Agricultural Service 1250 Maryland Ave SW Suite 400 Washington DC 20024 Telephone: 202-720-3274.

30 Appeals and Corrections (Continued)

C Applicant Appeal Procedure

An applicant may appeal any adverse FAS determination, **except** for the following:

- any general program provision or policy or any statutory or regulatory requirement that applies to similarly situated applicants
- disapprovals or denials because of a lack of funding.

An appeal may be filed by the applicant within 30 calendar days of the date of the adverse determination letter. The appeal letter should be mailed to:

DEPUTY ADMINISTRATOR, OFFICE OF TRADE PROGRAMS 1250 MARYLAND AVE SW WASHINGTON DC 20024.

Additional information about the appeal process can be obtained by calling TAA for Farmers staff at 202-720-0638.

To appeal, the applicant **must**:

- prepare an appeal letter that includes the following:
 - applicant name, address, telephone number, and e-mail address
 - statement advising why the FAS determination is in error
 - the date, next to applicant's **original** signature
- mail the appeal letter using USPS by certified mail (return receipt requested); USPS postmark on the appeal letter will be used to determine whether the appeal letter was received by the 30-calendar-day deadline for filing appeal letters.

FAS will inform applicants whether their appeal is approved or denied and the following:

- identify the records that were reviewed
- cite the statutory and regulatory language supporting the determination
- provide instructions for filing an appeal with the U.S. Court of International Trade if a negative determination
- include the date that the determination was rendered and original signature of the Deputy Administrator, FAS, or designee.

30 Appeals and Corrections (Continued)

C Applicant Appeal Procedure (Continued)

If FAS disapproves an appeal, the producer may request seeking a judicial review of the FAS disapproval within 60 calendar days of the determination by mailing a letter of complaint by USPS certified mail (return receipt requested) to:

Clerk's Office U.S. Court of International Trade One Federal Plaza New York NY 10278-0001 telephone: 212-264-1611.

To seek judicial review, the appellant **must** prepare a letter that includes the following:

- producer name, address, and telephone number
- statement affirming a desire to appeal and why the decision by FAS is in error
- the industry and time period under which the appellant is claiming benefits
- copies of any decision or denial letter sent to the appellant by USDA
- the date, next to the appellant's original signature
- check made payable to "Clerk of the Court" for the required filing fee of \$25.

When filing an action with the U.S. Court of International Trade, an individual may act *pro se*, that is, on one's own behalf **without** the assistance of counsel. However, the U.S. Court of International Trade encourages petitioners to be represented by counsel. USDA is represented by DOJ.

Note: Any attorney that wants to file documents with or otherwise practice before the U.S. Court of International Trade **must** first be admitted to practice before the U.S. Court of International Trade.

If a petitioner is unable to afford counsel, he/she may make a motion for court appointed counsel. If, after filing an action, a petitioner makes a motion for court appointed counsel and that motion is granted by the U.S. Court of International Trade, an attorney will be appointed to represent the petitioner at no cost to the petitioner.

D Correcting Misactions/Misinformation

FSA errors that occur when administering TAA for Farmers, commonly referred to as misaction/misinformation, may be corrected at the direction of CED or STC **without** using the appeals process. See 7-CP if FSA deprived an otherwise eligible producer of benefits because of any of the following:

- errors
- misaction
- misinformation
- omissions.

31 Finality Rule, Equitable Relief, and IRS Reporting

A Finality Rule and Equitable Relief

Trade Act of 1974, Chapter 6, Section 297 provides authority for:

- collecting overpayments that occur under TAA for Farmers
- considering equitable relief and good conscience in recovering overpayments.

The finality rule and equitable relief provisions, as provided by 7-CP, apply to TAA for Farmers. Regulations governing administering the finality rule and equitable relief are located in 7 CFR Part 718, Subpart D.

B Overpayments and Collections

Any erroneous overpayments to TAA for Farmers applicants are subject to collection.

C Reporting Payments to IRS

TAA for Farmers payments shall be reported to IRS for Federal tax assessment purposes.

32 Requesting Overpayment Refunds

A Refund Policy

Any request for a refund of overpayments is considered a "negative determination" and will be made by FAS. This policy is consistent with policy that any FSA-229-1 disapproval **must** be made by FAS and **not** FSA.

B Submitting FAS-932's

All requests for refunds of TAA for Farmers payments, regardless of the reason, shall be made using FAS-932, with the County Office completing the entries for:

- date
- name and address
- amount of refund
- TAA for Farmers Program year, State, and commodity
- reason for overpayment.

32 Requesting Overpayment Refunds (Continued)

35 Administrative Expense Reimbursement

A Reporting Administrative Expenses

Funds have been apportioned to FSA to reimburse State Offices or County Service Centers for costs of administering TAA for Farmers. Some State and individual counties may experience high levels of program enrollment that stress their existing budgets for travel, postage, delivery, and other miscellaneous expenses.

State Offices can elect to submit claims for TAA for Farmers Program expense reimbursement using the spreadsheet format in subparagraph B.

Note: Federal and non-Federal expenses are separately reported.

An Excel version of the spreadsheet in subparagraph B will be sent to States administering TAA for Farmers. Employee's time spent on TAA for Farmers activities are **not** needed on this report; that will be collected from the activity reporting system when they report their time and attendance. Recording and submitting TAA for Farmers expense claims optional at each State Office.

Expense claims are submitted by the State Office to Jeff Beringer, Office of Budget and Finance, by either of the following:

- e-mail to jeff.beringer@wdc.usda.gov
- telephone at 202-720-7205.

Section 3 Commodity Eligibility and FAS-930 Process

41 Commodity Eligibility [7 CFR 1580.203]

A FAS-930 Submission and Approval Requirements

Producers or commodity organizations may request a commodity of a specific crop year to be certified as eligible for TAA for Farmers by submitting FAS-930 (paragraph 42). FAS-930's must be submitted within the application period announced by FAS in FR.

Applicants that submit FAS-930, if not an organization, must be 3 or more producers who are not members of the same family.

FAS-930 is available online at **http://forms.sc.egov.usda.gov**. For a commodity to qualify, the FAS Administrator must determine that increased imports of the agricultural commodity seriously affected domestic production or prices. Specifically, the commodity must have experienced a 15 percent decline from the average of the 3 preceding MY's in 1 of the following:

- commodity's national average price
- quantity of production
- value of production
- cash receipts.

41 Commodity Eligibility [7 CFR 1580.203] (Continued)

B Commodity Eligibility Requirements

To be eligible, a commodity must be in its raw or natural state and identified in HTS, Chapters 1, 3-8, 10, 12, 14, 23, 24, 41, 51, or 52. HTS is available at www.usitc.gov/tata/hts/bychapter/index.htm; under "Quicklinks", CLICK "Harmonized Tariff Schedule".

FAS-930's may be filed for **only** the most recent full MY for which data is available for national average prices, quantity of production, value of production, or cash receipts.

Commodities approved under the TAA Program for the 2002 through 2004 crop years may petition for approval for the most recent crop year for which supporting data is available.

TAA for Farmers benefits are available based on a specific MY or marketing period within a 12-month period for:

- field crops or pond-raised aquaculture, if produced in the approved State
- commodities such as wild-salmon or shrimp, if **marketed in** the approved State.

42 Petitioning for TAA for Farmers Benefits [7 CFR 1580.201]

A Petition Period

The FAS Administrator accepts FAS-930's only during a period as announced by notice in FR.

FAS-930's received after the end of the announced petition period will be returned to the sender. If the last day of the petition period falls on a weekend, FAS-930's will be accepted the next workday.

B Submitting FAS-930's

COC shall:

- instruct petitioners to submit FAS-930 to FAS according to instructions provided on FAS-930
- **not** accept FAS-930's in the FSA County Office.

To assist petitioners to understand the TAA for Farmers Program and correctly submit FAS-930 on behalf of producers, COC shall advise petitioners to access the web site at **www.fas.usda.gov/itp/taa/taa.asp** for general information about the TAA for Farmers Program.

C FAS-930 Receipt and Acceptance [7 CFR 1580.202]

FAS will:

- review submitted FAS-930's for general appropriateness, accuracy, and timeliness
- return FAS-930's that fail to meet minimum general requirements
- publish notice in FR that:
 - FAS is reviewing an accepted FAS-930's to determine the commodity's eligibility for TAA for Farmers benefits
 - within 10 calendar days of the date of FR notice, producers residing outside of the impacted area identified in FAS-930 may file to become a party to the request for benefits; following these requests, FAS Administrator may:
 - amend the original FAS-930 to expand the impacted area or include other producers
 - establish the request as a separate FAS-930's.

42 Petitioning for TAA for Farmers Benefits [7 CFR 1580.201] (Continued)

D FAS-930's Review and Certification (Approval) [7 CFR 1580.203]

ERS conducts a market study of each accepted FAS-930's to:

- verify the decline in producer prices
- assess possible causes, taking account of any special factors that may have affected prices of the commodity in FAS-930.

Based on FAS-930 review by ERS, FAS Administrator may:

- disapprove FAS-930
- certify FAS-930 as approved.

FAS notifies the petitioner of approval or disapproval by notice in FR.

FAS-930 certification date is:

- the earlier of the date of the FR notice or press release by which the FAS Administrator announces a certification of eligibility
- no later than 40 calendar days after FAS-930 acceptance date.

E Subsequent Year FAS-930's [7 CFR 1580.401]

The FAS Administrator may recertify FAS-930 based on data provided for the most recent MY by the original petitioner for the commodity.

To have the original FAS-930 recertified, petitioners may submit price information at any time, but no later than 1 year from the certification by FAS of the previous approved FAS-930.

Only eligible producers who did not receive training or payments under the original FAS-930 may apply for benefits under a recertified FAS-930.

--Software will handle recertified petitions as new petitions by assigning a new petition number to the recertified petitions.--

44 Online Petition Registry

A Petition Registry Location

FAS maintains a registry of approved * * * commodity petitions for TAA for Farmers at **www.fas.usda.gov/itp/taa/taa.asp**.

B Registry Content

For approved FAS-930's, the online registry provides:

- commodity petition number assigned by FAS
- the impacted States
- FAS-930 filing date
- FAS-930 approval (certification) date
- deadline for producer FSA-229-1's
- market prices used for calculating the payment rate.

For disapproved FAS-930's, the registry explains the reasons for denial in the "Notes" column.

45-50 (Reserved)

51 Submitting FSA-229-1's

*--A Where to File

Applicants in all States shall submit FSA-229-1 in the producer's Administrative County Office.--*

* * *

B Who May Submit FSA-229-1's

FSA-229-1's may be submitted by:

- any individual meeting the eligibility requirements explained in paragraph 52
- an entity meeting eligibility requirements such as a partnership, corporation, trust, etc., but only if individual members of that entity are **not** applying as individuals; if an entity is approved for payments, the payments will be disbursed to the entity and reported according to the entity's TIN
- an entity member applying as an individual if the applicant meets the eligibility requirements explained in paragraph 52, but only if the entity is **not** applying; payments will be disbursed to the individual and reported according to the individual's TIN
- husbands and wives separately.

When members of entities, or husbands and wives separately, apply for TAA for Farmers training and payments, they must individually attend the training and must individually develop and submit business plans to receive separate payments.

51 Submitting FSA-229-1's (Continued)

B Who May Submit FSA-229-1's (Continued)

Individuals are permitted to authorize a family member on FSA-229-1 to attend the required training session.

Applicants who **cannot** attend the scheduled training are permitted to authorize an alternative family member or an entity representative to attend the required initial or intensive training sessions. Using FSA-229-1, item 13 to identify a primary and/or secondary alternate person to attend training in the place of the applicant is optional.

Any person authorized by the applicant to attend TAA for Farmers training on behalf of the applicant is permitted to represent **only 1** applicant, regardless of whether the applicant is an individual or an entity.

It is the responsibility of TAA for Farmers applicant to assure that any authorized person will represent **only** the applicant and **no other** TAA for Farmers applicant.

FSA-229-1's may be disapproved by FAS if an authorized alternate is found to be representing more than one TAA for Farmers applicant.

52 Producer Eligibility Requirements [7 CFR 1580.301]

A General Eligibility

To be eligible for TAA for Farmers benefits, applicants must:

* * *

- at the option of STC, provide acceptable identification issued by a State or Federal Government agency
- provide to FSA, TIN that is **not** temporary
- provide acceptable documentation to verify the production and quantity of the commodity entered on FSA-229-1 and satisfy the eligibility requirements listed under Part C
- be a U.S. citizen or a lawful alien possessing a valid I-551 (1-PL, paragraph 235)
- comply with AGI requirements that establish the following applicant income limits for eligibility:
 - for 2008-crops, the applicant's average AGI for 2005-2007 shall average \$2.5 million or less
 - for 2009 and subsequent crops, the applicant's average adjusted gross nonfarm income must be \$500,000 or less, and average adjusted gross farm income must be \$750,000 or less for the 3 taxable years preceding the most immediately preceding complete taxable year for which the petition is certified; following are examples of selecting the correct years for which AGI is averaged

Crop Year of Approved TAA for Farmers Commodity	3 Years for Which AGI is Averaged for Determining AGI Compliance

2009	2005, 2006, 2007
2010	2006, 2007, 2008

- submit a properly completed FSA-229-1 and the following, as applicable:
 - CCC-526 or CCC-926 according to subparagraph 54 A
 - •*--CCC-502, according to subparagraph 55 A (including member information if requested).--*

Minors may submit FSA-229-1's if requirements in 1-CM, paragraph 882 are met.

52 Producer Eligibility Requirements [7 CFR 1580.301] (Continued)

B Payment Eligibility

FSA payment eligibility software operates differently for 2008-crop payments than for 2009 and subsequent crops because of changes provided by the Food, Conservation, and Energy Act of 2008. Use the following summary table as a guide to applicable eligibility requirements based on the crop year of a certified TAA for Farmers commodity.

Note: Producers who satisfied TAA for Farmers eligibility requirements, but who are ineligible for cash payments because of payment limitation are **eligible** for educational assistance (business-plan training).

--1/ Applicants are compliant if they are without land association.--

C Ineligible Applicants

Applicants ineligible for training and payments are producers who:

- do **not** submit a completed FSA-229-1 by deadline
- have **not** satisfied 1 of the 3 eligibility options on FSA-229-1
- have violated HELC/WC provisions according to 6-CP
- have a controlled substance violation according to 1-CM, Part 30
- have a temporary TIN
- did **not** share in the risk of producing the applicable commodity
- exceed AGI limits.

52 Producer Eligibility Requirements [7 CFR 1580.301] (Continued)

D Production Eligibility Requirements

To be eligible for TAA for Farmers benefits, an applicant **must**:

- have produced the commodity in both :
 - MY for which the commodity is certified for benefits
 - at least 1 of the 3 MY's immediately before the certified MY
- satisfy 1 of the production or price requirements listed in subparagraph E.

Producers without production in the certified MY are ineligible, even if they have a record of producing the crop in alternate years, but had no production in the certified MY.

E Producer Eligibility Production or Price Requirement

In addition to the production requirements in subparagraph B, an applicant **must** document having satisfied **1** of the following 3 eligibility requirements; presented on FSA-229-1 as options 1, 2, and 3:

- option 1: production in the certified MY was less than production in the most recent production year of the 3 prior MY's
- option 2: there has been a decrease in the applicant's price received for the commodity in the certified MY from the average price received by the producer in the most recent 3 years of production
- option 3: there has been a decrease in USDA's county-level price on the date FAS-930 for the commodity was filed from the average of USDA's county prices in the 3 MY's preceding the date on which FAS-930 is filed.
 - **Note:** Regarding option 3, USDA does not necessarily collect and record county-level prices for all commodities. If USDA prices are not available, prices from any verifiable source, such as university, cooperative, or marketing point may be used.

6-1-10

F Example Eligibility Determinations Based on the Production History

TAA for Farmers applicants shall submit production evidence for the certified MY and at least 1 of the immediately 3 prior MY's. The following examples show that eligibility can be either established or denied based on whether or not the applicant produced as follows:

- the commodity in the certified MY
- the crop in 1 of the 3 MY's immediately before the certified MY
- less in the certified MY than in the immediately prior MY's.

If production increased in the certified MY from the level of the prior MY's, then the producer may still be eligible if 1 of the 2 price conditions is met (see examples in subparagraph H).

	Producer

determination based on	_	Determination:	Determination:	_	_		
production quantity:		Go to Price	Go to Price				
		Conditions	Conditions				

Producer A is eligible because 3 eligibility requirements are met as follows:

- crop was produced in the certified MY
- crop was produced in 1 of the 3 prior MY's
- the certified MY level of production is less than the most recent MY for which production data is available.

F Example Eligibility Determinations Based on the Production History (Continued)

Producers B and C met the 2 mandatory production tests, but must meet 1 of the 1 price tests to be eligible. Specifically, they met the requirements that the crop was produced in the certified MY and the crop was produced in 1 of the 3 prior MY's. However, because production in the certified MY is greater than for the most recent MY, 1 of the 2 price conditions **must** be met for the producers to be eligible.

Producer D is ineligible because there was no production of the commodity in MY for which the commodity is certified. Having been a producer of the commodity in MY's before the certified MY is not, by itself, sufficient to establish eligibility.

Producer E is ineligible because there was no production of the commodity in 1 of the 3 MY's immediately before MY for which the commodity is certified. The production in 2004 does not apply because it was not 1 of the 3 MY's immediately preceding the certified MY for the commodity.

G Example Eligibility Determinations Based on Prices Received

H Eligibility Determinations based on Producer-Documented Prices Received

The following table provides examples of eligibility determinations based on prices received and documented by the individual applicant. The prices used for the average calculation are shaded. The price received during the certified MY must be less than the prior 3-MY's average price. The prices used for the average calculation are shaded.

When using prices received by the individual producers:

- a 3-MY average price can be calculated from prices for **any** 3 prior MY's; the prices are **not** required to be from the 3 MY's immediately before the certified MY
- producers must use prices from the most recent production years; they **cannot** skip over prices received from production years.

H Eligibility Determinations based on Producer-Documented Prices Received (Continued)

Producer F is ineligible because the certified MY price is **not** less than the 3-MY average price.

Note: The comparison of prices is based on the most-immediate 3 MY's, 2005 through 2007, before the certified MY for which the applicant received payment for production. The producer is **not** allowed to average prices from 2004 through 2006 (\$7), because a price from a production year (2007) would have to be skipped.

Producer G is eligible because the certified MY price is less than the average price received for the 3 most immediate production years. The producer had no production and; therefore, no prices to report for the 2003, 2004, and 2006 crops.

Producer H **cannot** establish eligibility because a 3-MY average of prior prices received could not be established. Producer H may establish eligibility by comparing the certified MY price received with USDA official prices for the 2005 through 2007 MY's.

Producer I is eligible because the certified MY price is less than the average price of the immediately prior 3 MY's.

Producer J **cannot** establish eligibility because a 3-MY average of prior prices received could not be established. Producer J may establish eligibility by comparing the certified MY price received with USDA official prices for the 2005 through 2007 MY's.

I Eligibility Determinations based on USDA Official County Prices

It is specifically:

- **not** the responsibility of FSA staff to research and determine official USDA prices for any day or period of time
- the responsibility of the applicant to determine and provide official prices on their FSA-229-1.

The following table provides examples of eligibility determinations based on a decline in the USDA county price on the date FAS-930 was filed from the average of official USDA county prices for the immediately 3 prior MY's.

In this example, the certified MY is 2008, so the prior 3-MY average must be based on USDA county prices from 2005, 2006, and 2007. The prices used for the average calculation are shaded.

Note: When official USDA county prices are used to compute a 3-year average, the average is computed using the 3 immediately preceding MY prices.

Eligib	ility determination based on prices:	Ineligible	Ineligible	Eligible	

Producers K and L are ineligible because the official USDA county price on the date FAS-930 was filed was **not** less than the average of USDA county prices for the immediately prior 3 MY's.

I Eligibility Determinations based on USDA Official County Prices (Continued)

Producer M is eligible because the USDA county price on the date FAS-930 was filed was less than the average of USDA official county prices for the commodity for the immediately preceding 3 years.

TAA for Farmers regulations provide that if USDA county prices are not available, producers may document prices from other verifiable sources under this option.

If the County Office has reason to doubt official prices entered by the producer, many commodity MY prices can be obtained as follows:

- go to FSA Intranet at http://fsaintranet.sc.egov.usda.gov/fsa
- under "Links", CLICK "FSA Applications"
- under the "Production Adjustment & Disaster Programs", CLICK "**NCT National Crop Table**" for 2001-2008 or 2009-2010, as applicable, that will provide prices for the 3 MY's before FAS-930 filing date.

53 Acceptable Documentation

A Acceptable Production Documentation

Production evidence must be provided within the application period. It is **not** the responsibility of County Office staff to compute production quantities from multiple documents provided. Documents must show that production occurred in both of the following:

- certified MY or period
- at least 1 of the immediately 3 prior MY's.

Acceptable production documentation can include:

- copies of sales receipts
- invoices that show quantity
- scale or delivery tickets.

In circumstances, as determined by CED * * *, FSA may accept as production evidence for the commodity, a signed, dated statement (see subparagraph B for an example) from another party, such as a ship captain or business partner, if the applicant:

- was paid in cash based on an agreed share of the production
- was at risk in producing the commodity
- does not have conventional evidence of production, such as sales receipts.

This statement of production provided by a third party shall specify:

- name of the crew member or partner
- total production of the commodity before any distributions
- weight or share of production distributed to each member, such as ship crew member
- crop year of the production
- for fish, basis of the weight, such as head-on, head-off.

53 Acceptable Documentation (Continued)

B Example Statement

The following is an example of the type of production evidence that can be supplied by applicants who were paid in cash for their share of production, but who were not involved in selling the crop. This example provides an example of what needs to be included, according to subparagraph A.

Share of TAA for Farmers Commodity Production Provided to Employees by Cash Payment The undersigned employer certifies that the individuals identified in item 3 received payment on the basis of the production share entered in either item 5a or 5b for the commodity identified in items 2a-c. The undersigned additionally certifies that employees who were compensated by daily, weekly, or seasonal cash wages regardless of production are excluded from this list.

53 Acceptable Documentation (Continued)

C Acceptable Price Documentation

If an applicant establishes eligibility for TAA for Farmers by satisfying 1 of the price requirements as described in subparagraph 52 H or I, then the producer must provide documentation of such prices within the application period announced for the commodity.

Producers are **not** required to provide any documentation about prices received for the certified commodity if they establish eligibility based **only** on production records.

Acceptable documentation of prices received can include:

- copies of sales receipts
- invoices that show price
- •*--tax records that show price received--*
- supporting documents provided by certified public accountant or attorney.

FSA staff is **not** responsible for:

- researching and obtaining official USDA prices to be used by producers to establish payment eligibility
- validating producer entries by recalculating price averages or production quantities from producer records.

*--D Retaining Price and Production Documentation

With the production and/or price documentation required of applicants to support their eligibility, FSA County Office staff:

- shall review the documentation to establish that it is for the relevant commodity and crop years under the petition
- at the time documentation is submitted, may elect to copy and retain the documentation at the option of the County Office staff
- are not required to copy and retain copies of the documentation in the applicant's folder
- shall advise the applicant that, if the applicant is selected for spot check, the documentation must be resubmitted, will be copied, and copies will be retained by FSA.--*

54 Documenting AGI Certification

A General Certification Requirement

Complying with average AGI limitations is an eligibility requirement for both TAA for Farmers training and payments. For 2009 and subsequent crops, all TAA for Farmers applicants **must** certify their compliance with AGI requirements and **must** submit CCC-927 or CCC-928, as applicable, to IRS.

FSA will determine AGI compliance for:

- 2008-crop benefits based on CCC-526; applicants may be requested to document the AGI certification if:
 - selected by the county * * * for spot check
 - FSA determines that further verification is needed
- 2009 and subsequent-crop benefits based on CCC-926 and information provided to FSA by IRS based on CCC-927 or CCC-928, as applicable, submitted to IRS by the applicant.

Use the following table to determine which forms are required to be submitted to either FSA or directly to IRS, based on the crop-year of the TAA for Farmers petition certification.

Crop Year of TAA for Farmers Commodity Petition Certification				
IF for	THEN producers submit the following			
2008-crop petitions	to FSA, CCC-526.			
2009 and subsequent-crop petitions	 to FSA, CCC-926 to IRS for: individuals, CCC-927 			
	• entities, CCC-928.			

B Native American Waiver

Native Americans applying for TAA for Farmers must certify to AGI compliance. However, for Native Americans exempt from Federal taxes, DAFP has waived the requirement that any documentation that may be requested from such individuals under subparagraph A must be based on Federal income tax returns.

Native Americans who are exempt from Federal taxes may document their AGI certification using certified public accountant or attorney-submitted documentation that is not based on a Federal tax return.

55 Producers Applying for Benefits

A Producer Request for TAA for Farmers Benefits

Producers of certified commodities request benefits by submitting:

- FSA-229-1
- AD-1026
- •*--either of the following according to 1-FI, Part 3:
 - SF-1199A for direct deposit
 - FFAS-12 for a hardship waiver request for EFT
- for 2008 crops, the applicable CCC-502, if not already on file, which is for:
 - individuals, CCC-502A, items 1 through 11, 18, and 19 (check and sign), or CCC-502EZ, items 1 through 8 and 14
 - joint venture or general partnership, CCC-502B, only items 1 through 14, 21, and 22
 - corporations, limited partnerships, or similar entities CCC-502C, only items 1 through 14, 21, and 22
 - estate or trust, CCC-502D, only items 1 through 14, 21, and 22
 - for certifying AGI, CCC-526
- for 2009 and subsequent crops:
 - an entity, CCC-902E, Parts A, B, and C, and sign in Part L (supplement with CCC-901, if required)
 - an individual, CCC-902I Short Form, only parts A, B, and F
- for certifying AGI, CCC-926 for 2009 and subsequent crops.

A member of a joint venture or partnership may apply as an individual for TAA for Farmer benefits, in which case the applicant may document eligibility by submitting the production records and applicable CCC-502 of the joint venture or partnership.--*

55 **Producers Applying for Benefits (Continued)**

B Acceptable Methods for Submitting Documents

Applicants may submit forms at the FSA office where the producer's records are maintained as follows:

- in person
- as an e-mail attachment
- by FAX.

C One FSA-229-1 Per FAS-930

Producers may apply and are eligible for benefits under only one FAS-930. Once benefits are provided to a producer, subsequent TAA for Farmers benefits will be blocked and the status of any subsequent FSA-229-1 submitted shall be set to "Refer to FAS" for disapproval by FAS.

56 FSA-229-1 Deadlines

A Deadlines for Submitting Initial FSA-229-1 and Documentation

For each approved FAS-930, FAS establishes a 90-calendar-day application period that is announced by press release and issued in an SP notice to FSA offices. Generally, the application period begins the day FAS-930 certification is published in FR.

See Exhibit 6 for information about FAS-930 that has been approved.

Producers are required to submit FSA-229-1 and all documentation needed to determine their eligibility for benefits by the application deadline.

Complying with the application deadline is **required** for the following reasons:

- County Offices must enter FSA-229-1 information into the Excel spreadsheet or web-based software, as applicable, within **3 workdays** after the close of the application period
- State TAA for Farmers specialists must send any Excel spreadsheet-recorded information to CFFM at **taainfo@umn.edu** within **5 workdays** after the close of the application period.

Par. 55

56 FSA-229-1 Deadlines (Continued)

A Deadlines for Submitting Initial FSA-229-1 and Documentation (Continued)

Although FSA shall encourage applicants to submit all forms within the 90-calendar-day period applicable to FSA-229-1, the only deadline that legally applies to TAA for Farmers applicants is that by the last day of the 90-calendar-day application period, the applicant must submit or have on file:

- FSA-229-1
- evidence of production or prices needed to determine eligibility under 1 of the 3 options
- the following as applicable:
 - •*--CCC-502A, CCC-502B, CCC-502C, CCC-902E for an entity, or CCC-902I Short Form for an individual--*
 - CCC-526 or CCC-926
- completed AD-1026.

B Requirements for Payment Documentation

The following documents or notifications are not required by the application deadline but must be submitted before disbursement of payments, as applicable:

- SF-1199A or FFAS-12
- notification from NIFA of having attended initial training for travel reimbursement
- notification from NIFA of having submitted initial and/or long term business plans recommended for approval.

C Processing Late/Incomplete FSA-229-1's

FSA-229-1's that that are submitted:

- after the 90-calendar-day application period shall be accepted, entered into the TAA for Farmers Excel spreadsheet or web-based software, as applicable, and referred to FAS for disapproval
- within the 90-calendar-day application period, but without documentation to establish eligibility shall be accepted, entered into the TAA for Farmers Excel spreadsheet or web-based software, as applicable, and referred to FAS for disapproval after the 90-calendar-day application period.

57 FSA-229-1's

A Completing FSA-229-1's

County Offices shall:

- provide instructions for the producer to complete FSA-229-1, if necessary
- require the applicant to complete Parts A, B, C, and D.
- require that applicants submit documentation for both of the following:
 - Part C, items 11 C and D, to document that production occurred in both the petition MY and 1 of the 3 prior years; an applicant only needs to document some production from each of those years, it is **not** required to document the total level of production unless the applicant elects to document eligibility under option 1 of the following 3 options:
 - 1 of the following 3 options
 - option 1: that the applicants total production in the petition MY was less than produced in the most recent of the prior 3 years
 - option 2: the applicant's prices received in the petition MY is less than the average price received in the 3 most recent prior years
 - option 3: the USDA county price on the petition filing date was less than the average price for the prior 3 MY's.
 - **Note:** For option 3 **only**, if USDA does not have a posted county price, then prices for another verifiable source may be submitted.

County Office staff is **not** required to calculate any of these entries on behalf of applicants. For the timely processing of FSA-229-1's, it may not be possible to "do the math" for applicants.

B Instructions for Completing FSA-229-1's

Complete FSA-229-1 according to this table.

Item	Instruction
	Items 1 through 4 are completed by FSA.
1A	Enter State and county code of County Office where FSA-229-1 has been
	submitted for processing.
1B	To determine Congressional District, go to
	writerep.house.gov/writerep/welcome.shtml. Enter applicable State and ZIP
	Code; for post office box addresses, use ZIP Code of the applicant's residence, not
	the post office. The Congressional District entry format is: SSxx, where SS is the
	State abbreviation and xx is the district number; for example, the 8th District of
2	Texas is entered as, "TX08". Every application number shall be in the format: SSCCCxxxxx where SSCCC is
	the numeric State and county code for that office and xxxxx is a sequential number
	starting with 00001 and ending with 99999. However, each County Office shall
	use this same sequential numbering sequence for each individual commodity
	petition.
	Example: FSA-229-1 numbers for the first fifteen FSA-229-1's under a carrot
	petition would be numbered SSCCC00001 through SSCCC00015, and
	in the same County Office, the first fifteen FSA-229-1's under a
	blueberry petition would also be numbered SSCCC00001 through
	SSCCC00015. A separate numbering ledger is established for each commodity petition.
3	The application deadlines under various approved commodity FAS-930's will be
5	provided in an exhibit to this handbook and SP notice, when approved. Deadlines
	are provided in the press release announcing FAS-930 certification.
4	Enter date FSA-229-1 was received by the FSA County Office.
	Parts A, B, C, and D are to be completed by applicant.
	Note: Documentation of items 11C through N is required and FSA-229-1's
	entries are the responsibility of the applicant and not the responsibility
	of FSA staff. FSA staff is not required to validate production or price quantities from submitted documentation.
5 \	Enter first name of an individual applicant or the name of entity, corporation, joint
5A	operation, or partnership that is applying (see subparagraph 51 C). Members of
	entities and husbands and wives may apply as individuals. Members of
	corporations cannot apply as individuals.
5B	Entering the applicant's e-mail is optional. CFFM and FAS will use e-mail to
	provide quicker notifications in addition to mailed letters.
5C	Enter phone number (land-line or cell phone) of the applicant.

Section 5 Processing FSA-229-1's and Benefit Decisions

71 General Policy for Approvals/Disapprovals

A General Policy

Approvals or disapprovals are recorded in the TAA for Farmers Excel spreadsheet or web-based software, as applicable, for each of the following events:

- FSA-229-1, including all eligibility issues
- reimbursement of travel expenses (must attend initial training and submit FSA-232 to the County Office)
- initial business-plan payment (must attend training and submit an approved plan within 36 months from FAS-930 certification date)
- final business-plan payment (must attend training and submit an approved plan within 36 months from FAS-930 certification date).

71 General Policy for Approvals/Disapprovals (Continued)

B DAFP Authority to Waive Deadlines and Requirements

USDA agencies administering TAA for Farmers shall take every reasonable and legal opportunity to maximize producer eligibility for training and benefit approval.

TAA for Farmers regulations at 7 CFR 1580.501(e) provide authority to DAFP to waive or modify nonstatutory deadlines or other program requirements in cases where lateness or failure to meet other program requirements by applicants does **not** adversely affect program operation.

Some instances where FSA-229-1's do **not** strictly meet program requirements, but can be approved, include the following:

- FSA misaction or misinformation
- producer planted the crop or attempted to produce the crop, but sustained zero-production during the petition-certified marketing year because of natural disaster, hail or other weather-related damage, crop failure, or other extraordinary circumstances beyond control of the producer; in such cases, zero production is acceptable as the production level for the year
- price received in the petition marketing year did **not** decline (and may have increased overall) compared to the prior 3-year average price because of changes in the variety or quality of production.

If FSA State Office staff is aware of any other circumstances that appear to unfairly limit applicant eligibility, they shall request a waiver or modification of nonstatutory requirements from DAFP.

73 Processing FSA-229-1's

A Recording the 6 Events Comprising One FSA-229-1

FSA or CFFM **must** record an applicant's compliance with each of the following 6 events for the applicant to obtain all TAA for Farmers benefits:

- Event 1: Submission of FSA-229-1.
- Event 2: Attendance at mandatory initial training.
- Event 3: Attendance/completion of intensive training.
- Event 4: Optional submission of claim for travel/per diem expenses.
- Event 5: Submission of approved initial business plan.
- Event 6: Submission of approved long-term business plan.

FSA will record compliance for Events 1 and 4.

CFFM will record compliance for Events 2, 3, 5, and 6.

B Using Compliance Status Codes

FSA or CFFM will record compliance with each event by assigning the event an alphabetical "Status Code." These entries will be made to the Excel spreadsheet until the web-based software is available.

B Using Compliance Status Codes (Continued)

CFFM has **no** authority to approve or disapprove benefits, and CFFM's entries are always recommendations to FAS. FSA can approve FSA-229-1's and, if recommended by CFFM, business-plan payments. Only FAS can disapprove benefits. The codes to be assigned to these events are 1 of the following.

Compliance		
Status Code	Meaning of Code	
А	Applicant has successfully completed the event requirements (such as	
(Approved)	submitting an approved FSA-229-1, attending training, etc.).	
Р	Additional information is required, or action by CFFM or FSA is	
(Pending)	incomplete. Used as default status for new FSA-229-1's. The event	
	eventually is to be set to either "A" or "R" status by either FSA or CFFM.	
PF	Used, by FAS only, to reset an event status previously set to "R by the	
(Pending by	County Office, or "D" by FAS.	
FAS)		
	Example: A previously disapproved training attendance is successfully	
	appealed and credit for attendance must be provided. FAS	
	would reset the status of the event from "D" to "PF" so the	
	County Office can process any additional payment that might be	
	approved.	
R	Used to refer the action to FAS and FAS will, in turn, reset the code for the	
(Refer to FAS)	event to "D". Only FAS can disapprove any FSA-229-1 or deny a cash	
	benefit payment because of nonattendance at training or not completing a	
	business plan.	
D	Used, by FAS only, to indicate that the applicant is ineligible for all	
(Disapproved)	training and cash payments following the disapproval.	

C Using Numeric "Reason Codes" for Events Referred to FAS for Disapproval

FSA or CFFM must inform FAS of the reason for recommending that FAS disapprove FSA-229-1 by entering, into the Excel spreadsheet or the web-based software, as applicable, 1 of the following reason codes that represents the reason approval cannot be granted.

Notes: Reason codes may be amended by FAS if additional reasons are needed.

Reason codes are entered:

- as 1 or 2-digit **only**
- **only** if an event status is set to "R"
- as code 99 if the reason is **not** stated in the provided list; if Code 99 is used, then a text explanation **must** be entered in Column "Z" of the Excel spreadsheet or in a designate field in the web-application process.

E Notifying Applicants of Disapprovals

FAS will initiate FAS-931 if FAS disapproves:

- FSA-229-1
- further participation in training for failure to attend the initial training
- reimbursement of the total value of claimed travel expenses
- payment for an initial business plan
- payment for a long-term business plan.

When FAS sets an event status code to "D" disapproved, the web software will complete FAS-931 reflecting the disapproved event and reasons for the disapproval. An e-mail will be sent to the County Office informing them of the availability of FAS-931 that will be dated and signed.

The County Office prints FAS-931 and mails it to the applicant. Instructions for accessing FAS-931 are included in the web-process instructions.

F Example of FAS-931

The following is an example FAS-931 by which FAS notifies an applicant of a disapproval of FSA-229-1, eligibility for further participation, or a business plan payment.

74 Processing FSA-232's

A Approving FSA-232's

Producers may request reimbursement of local travel expenses incurred to attend the initial TAA for Farmers orientation training, subject to the maximum Federal travel rates and verification of attendance by the instructor. The statutory authority for TAA for Farmers provides that travel costs are **not** reimbursed for attending the intensive training even though intensive training may be longer and more costly to the producer.

Only local travel costs are reimbursable. International travel expenses incurred to attend the initial training will not be reimbursed; domestic expenses for air travel or travel to another State will only be reimbursed if the specific expense is approved **in advance** by FAS's Import Policy and Export Reporting Division or PSD.

Producers request reimbursement of costs to attend the initial training by submitting FSA-232 to the same County Office where they submitted FSA-229-1. All FSA-232 disbursements are made to the applicant. FSA-232 is:

- completed by the person who attends the training
- validated in item 10 A by the instructor at initial training
- submitted by the attendee by mail, FAX, or e-mail to FSA County Office. ***
- **Note:** FSA-232's submitted by producers are paid from TAA for Farmers Program funds. Do **not** enter any producer into GovTrip for reimbursement of travel claims from FSA travel funds.

FSA enters FSA-232 amount into the * * * web-based software * * *. FSA-232's can be approved by FSA, if:

- applicant submits a completed FSA-232 within 60 calendar days from the last travel date
- FSA-232 has been signed by the TAA for Farmers instructor
- claim amount is within Federal limits.

If claimed amount exceeds the amount authorized by Federal travel guidelines, COC shall:

- enter in FSA-232, item 8A an explanation for reducing the claimed amount
- approve the request for the correct amount and enter the corrected amount into the web-based software, when available, for payment
- notify the producer of the:
 - correction to the claim amount
 - producer's right to appeal the reduction.

Note: Paying FSA-232 for less than the full amount of FSA-232 is administratively preferred to denying the entire FSA-232. To avoid appeals, properly explain the correction (reduction) of the claimed amount.

C Disapproving FSA-232's

COC may **not** approve FSA-232 if either of the following is true:

- applicant is determined ineligible by either the AGI or PL routines
- FSA-232 is not validated by the instructor (to verify attendance at training) and the applicant.

Lodging expenses or travel by public conveyance may **not** be reimbursed unless supported by a receipt. The travel claim may be placed in "Pending" status, if it is submitted without required receipts.

Only FAS is authorized to disapprove FSA-232's. For each FSA-229-1 that FSA **cannot** approve, the County Office shall, on FSA-232:

- in item 8A, explain why the claim **cannot** be approved
- in item 11B, CHECK (✓) "Refer to FAS" and set travel claim statuses in software to "Refer to FAS"
- sign item 11A and enter signature date in item 11C.

FAS disapproves FSA-232 by:

- in the web-based software, when available, changing FSA-232 payment status from "Refer to FAS" to "Disapproved"
- entering a date and initials into the TAA for Farmers Excel spreadsheet or web-based software, as applicable, to record the disapproval.
 - **Note:** This initiates an e-mail to the County Office informing it that the status has been set to, "Disapproved" and to send FAS-931 to the producer.

75 Processing Initial and Long-Term Business-Plan Payments

A Approving Business-Plan Payments

Business-plan payments are approved only **after** the following sequence of events:

- producer attends initial training
- producer attends intensive training
- producer submits a business plan that meets approval requirements
- instructor/center notifies FSA of its recommendation to approve the plan
- FSA approves the business plan
- FAS has determined and announced payment rates for FAS-930 based on any needed payment-rate reductions.

75 Processing Initial and Long-Term Business-Plan Payments (Continued)

B Disapproving Business-Plan Payments

Only FAS provides disapproval of business-plan payments. The web-based software is being designed to process each business plan and its payment separately from the other business plan.

Any disapproval of a business plan and its associated payment consists of 3 steps as follows:

- instructor indicates in web-based software, when available, that the initial or long-term business plan does **not** meet minimum requirements
- FSA sets the business plan/payment status indicator to "Refer to FAS"
- FAS sets the business plan/payment status indicator to "Disapproved".

COC may **not** approve an applicant to receive a business-plan payment if the:

- instructor did **not** recommend approval of the business plan
- applicant is determined ineligible by either AGI or PL routines
- FSA-229-1 cannot be approved.

Only FAS is authorized to disapprove a business-plan payment. FAS disapproves the business-plan payments by:

- changing the business-plan payment status in the web-based software, when available, from "Refer to FAS" to "Disapproved"
- entering a date * * * into the web-based software, when available, to record the disapproval.
 - **Note:** This initiates an e-mail to the County Office informing it that the status has been set to, "Disapproved" and to send FAS-931 to the producer (subparagraph 73 E).

C Example of FAS-931

FAS-931 is a system-generated form that will be sent by FAS to County Offices for each disapproval action taken by FAS. FAS-931's will be:

- sent as an e-mail attachment from FAS to the County Office
- initially transmitted to the e-mail specified by the County Office
- subsequently printed by the County Office and mailed to the TAA for Farmers applicant.

FAS-931 is used to provide notifications to producers that FAS has disapproved:

- "the TAA for Farmers producer application" (Event 1)
- "further participation for failure to attend or complete initial training" (Event 2)
- "further participation for failure to attend/ complete intensive training" (Event 3)
- "reimbursement of the full value of claimed travel/per diem expenses" (Event 4)
- "payment for an initial business plan" (Event 5)
- "payment for a long-term business plan" (Event 6).

Note: County Offices specify the e-mail address to which FAS sends FAS-931's by entering it into either the Excel spreadsheet or web-based software, as applicable, (subparagraph D).

75 Processing Initial and Long-Term Business-Plan Payments (Continued)

D Establishing E-Mail Addresses

When changing FSA-229-1's status to, "Refer to FAS", County Offices must provide FAS the e-mail address for the County Office to receive the notification that FSA-229-1 was disapproved.

County Offices inform FAS of their e-mail address when changing FSA-229-1's status to, "Refer to FAS", through the following steps.

Step	Action
1	On the TAA for Farmers Application Menu, CLICK "Change Status".
2	CLICK "Refer to FAS".
3	Enter the e-mail address in the space provided opposite to, "E-mail address to send
	FAS notice".

After FAS has changed FSA-229-1 status to "Disapproved", a message is sent to the e-mail address specified when changing FSA-229-1's status to "Refer to FAS". County Offices will be able to generate FAS-931's that are ready for mailing and will contain the following:

- applicant name and address
- date of disapproval
- reasons for disapproval
- signature of approved FAS official.

A Policy

Until the web-based software is available for loading FSA-229-1 data, the TAA for Farmers *--Excel spreadsheet, available at **www.fsa.usda.gov/pricesupport**, under "Hot Links", will be used as an interim tool for recording FSA-229-1 information. County Offices shall:

- enter information from each FSA-229-1 into 1 Excel spreadsheet--*
- e-mail encrypted spreadsheets to State Offices.

State and County Office staff shall not reformat the Excel spreadsheet; it must be used by all State and County Office staff in exactly its original format.

B Entering FSA-229-1's Into Excel Spreadsheet

All FSA-229-1's shall be entered into the Excel spreadsheet. When entered, each FSA-229-1 is assigned 1 of 3 alphabetical status indicators in Excel spreadsheet, Column S as follows:

- "P", for pending (awaiting approval or producer documentation)
- "A", for approved
- "R", for referred to FAS (awaiting disapproval).

FSA-229-1's that have been submitted with production evidence, but are pending approval because of outstanding documentation, shall be entered into the TAA for Farmers Excel spreadsheet at the earliest possible date. FSA-229-1's in pending status **must** eventually have their status changed by FSA to either of the following:

- "A", for approved, if required documentation is received
- "R", for referred to FAS, if deadlines are not met, required documentation is not provided, or an eligibility requirement is not met.
- **Note:** Only FAS will assign "D", for disapproved status to any FSA-229-1 or other program event.

C Using Status Codes

TAA for Farmers applicants **must** complete 6 events for full benefits, as follows.

- Event 1: Must apply and be determined eligible.
- Event 2: Must attend initial training.
- Event 3: Must attend intensive training.
- Event 4: May request reimbursement of travel expenses (initial training only).
- Event 5: Must submit an approved initial business plan.
- Event 6: Must submit an approved long-term business plan.

County Offices are responsible for recording whether Events 1 and 4 are completed.

CFFM is responsible for recording whether Events 2, 3, 5, and 6 were completed.

The completion of these events will be recorded in either the Excel spreadsheet or web-based software, as applicable, by entering a status code for the event.

The Status Code meanings are as follows:

- "A", **approved/completed** is used by:
 - FSA to approve FSA-229-1, a partial or full travel expense reimbursement, or a business plan (based on CFFM recommendation)
 - CFFM to indicate attendance at training or its recommendation that FSA approval a business plan
- "P", **pending** is used (optionally) by:
 - FSA to indicate FSA-229-1 is pending some additional information or to approve a partial or full travel expense reimbursement
 - CFFM to indicate that training attendance or business-plan completion has started, but is **not** complete
- "R", refer to FAS is used by:
 - FSA to refer FSA-229-1 that FSA **cannot** approve to FAS for disapproval, whether for being submitted late, failed eligibility, or any other reason
 - CFFM to indicate lack of attendance at training or failure to submit a business plan that CFFM can recommend for approval

C Using Status Codes (Continued)

- "D", **disapproved** is used **only** by FAS to disapprove:
 - FSA-229-1 or the full amount of a claimed travel expense based on FSA's recommendation
 - further program participation because of nonattendance at training, as recommended by CFFM
 - a business plan as recommended by CFFM.

When FSA-229-1 **cannot** be approved by FSA, or the full amount of a travel-expense claim must be disapproved, FSA **must** set the event status code for FSA-229-1 or the travel claim to "R", indicating that event is referred to FAS for disapproval. Each FSA-229-1 set to "R" in Excel spreadsheet, Column S **must** be accompanied with the reason FSA-229-1 **cannot** be approved. The reason is entered into Excel spreadsheet, Column Y represented by a numeric code to simplify entry. Reason codes are listed in subparagraph 73 C.

Note: The Excel spreadsheet will not be used to record the status codes for travel claims.

Reason codes are a -1 or 2-digit numeric entry. During the period that the Excel spreadsheet is used, before web-based software is available, enter the appropriate reason code from subparagraph 73 C into Excel spreadsheet, Column Y for each FSA-229-1 status set to "R".

D Using Reason Codes

If the status code for any 1 of the 6 events is set to "R" (refer to FAS for disapproval), then the reason for this status decision **must** be entered into either the Excel spreadsheet or web-based software, as applicable.

Reason codes are entered into the:

- Excel spreadsheet, Column Y to explain the reason for Event 1, FSA-229-1 set to "R"
- web-based software, when available, for all events.

E Instructions for Entering FSA-229-1's Into the Excel Spreadsheet

The following table provides instructions for County Offices to enter FSA-229-1's into the Excel spreadsheet.

Column	Entry	Specifications
A County Office		Enter e-mail address of the County Office employee responsible
	Employee	for mailing FAS-931's to applicants. This will be used by
	E-Mail	CFFM if question arise about an individual's eligibility for
		training.
В	FSA State	Enter 2-digit numeric code for the State.
	Code	
	FGA G	Example: Alabama's State code is entered, "01", not "1".
C	FSA County	Enter 3-digit county code for the FSA County Office where
	Office Code	FSA-229-1 is being processed.
D	Congressional	Enter Congressional District of the applicant's address from
	District	SCIMS or by:
		• accessing https://writerep.house.gov
		• accessing inteps://winterep.induse.gov
		• selecting the State from the #1 drop-down menu
		• entering ZIP Code (use 9 digits, if known)
		• selecting "Contact my Congressman"
		• entering district in format SSxx where SS is the 2-letter
		State abbreviation and xx is a 2-digit district number; for
		example, the 8th District of Texas is entered, "TX08".
Е	Petition	Enter the petition number for which the benefit is requested in
-	Number	format, "XXXXxxx".
F	Application	County Offices shall establish a separate numbering sequence
_	Number	(ledger) for each separate TAA for Farmers commodity. Every
		application number shall be in the format: SSCCCxxxxx where
		SS is the numeric State code, CCC is the numeric county code,
		and xxxxx is a sequential number starting with 00001 for that
		commodity and ending with 99999. This same sequential
		numbering sequence must be separately established in the
		county for each individual TAA for Farmers commodity.
		Example: FSA-229-1 numbers for the first 15 applications
		under a carrot petition would be numbered from
		SSCCC00001-00015; and in the same County
		Office, the first 15 applications under a blueberry petition would also be numbered from
		SSCCC00001-00015.
<u> </u>		SSCCC00001-00013.

	Determination.	date is usually the date FSA-229-1 was signed by the
		second-party reviewer.

E Instructions for Entering FSA-229-1's Into the Excel Spreadsheet (Continued)

A Policy

FSA must promptly identify TAA for Farmer applicants to CFFM so that initial training is provided within 90 calendar days from the end of a petition application period (as required by statute).

Until the web-based software is available, FSA:

- County Office staff will enter FSA-229-1 information into an Excel spreadsheet that is to be sent as an encrypted e-mail attachment to their State Office
- State Office staff will combine the county-level Excel spreadsheet into 1 State-level file; the combined file will be:
 - saved in its entirety for possible uploading to Kansas City after the web-based software is available, relieving County Office staff from having to enter FSA-229-1 information into the web-based software
 - copied, renamed, edited by eliminating Columns U through AA, and promptly sent to CFFM.

B County Excel File Creation and Transmission

County Offices shall create **only** 1 version of the Excel spreadsheet from the format provided. Any additions, edits, or corrections shall be made to this 1 file. County Offices shall **not** created copies with different version dates.

If additions or corrections are made to the original Excel spreadsheet, County Offices shall, in **all** cases, send the amended Excel file in its **entirety** to the State Office.

The original Excel spreadsheet of applicant information shall:

- be encrypted using WinZip and password protected **before** being e-mailed (see subparagraph 77 F for encryption and password tips)
- be e-mailed to the State Office TAA specialist **within 3 workdays** following the end of a petition application period
- **not** be e-mailed directly to CFFM; county-level Excel files **must** be sent **only** to the State Office TAA specialist who will transmit them to CFFM even when only 1 county in the State is submitting an Excel file.

Any subsequent version of the entire, original Excel file shall be sent to the State Office immediately after the revision occurs. County Offices shall **not** send only the corrected or edited line; in **all** cases, County Offices shall send the entire Excel file that contains the edit, even if only 1 cell entry of the entire file has been revised.

Using the Excel spreadsheet will be discontinued as soon as the web-based software is available. State and County Offices will be notified when the transition from the Excel spreadsheet to the software can begin.

C Creating State-Level Excel File

The Excel file created in each County Office is composed of Columns A through AA. State or County Offices shall **not** change the order of the columns or the formatting of cells.

The State Office TAA specialist shall combine all county-level Excel files into 1 State-level file. The combined State Excel file may contain FSA-229-1 information from:

- more than 1 commodity petition of the same fiscal year
- petitions of different fiscal years.

The following table distinguishes the columns entries (A through AA) sent by County Offices to the State Office from the column entries that the State Office will send to CFFM.

AA	Date of Latest Status Determination.	Yes	No

D Preparing and Transmitting Excel File to CFFM

The State-level Excel file is:

- saved in its entirely for possible uploading into the web-based software
- reviewed by the State TAA specialist for accuracy; entries in Columns B, C, G, and H are **critical** to matching records into SCIMS and shall be checked for accuracy to assure that the correct number of alpha-numeric characters have been used for all entries
- copied, renamed, and edited by deleting Columns U through AA; this reduced version without Columns U through AA is the **only** version to be transmitted to CFFM
- encrypted using WinZip **before** being e-mailed to CFFM; policy for establishing the WinZip password for files sent to CFFM is provided in subparagraph 77 F
- e-mailed within 5 workdays after the end of a petition application period to taainfo@umn.edu.

There may be 1 or more updates to the Excel file originally sent to CFFM. If the file is resent to CFFM with updates, use the original password and send the entire Excel file, **not** just the line or cell that was added or edited.

E Managing Edits to Excel File

To edit a previously transmitted county-level Excel file, the County Office staff shall:

- make the change or addition to the original file and save the **entire** file
- encrypt the revised file using the original password
- send the entire file (including all records that were **not** edited) on to the State Office.

To edit a previously transmitted State-level Excel file, the State Office staff shall:

- make the change or addition to the original file containing Columns A thorough AA and save the **entire** file
- make a copy of the edited file in its entirely, then delete Columns U through AA to create the shorted file for transmittal to CFFM
- **encrypt** the edited, reduced file using the original password
- send the edited file (including **all** records) to CFFM.

F Encryption Method and Passwords for TAA Excel Files

Instructions for encrypting sensitive documents using WinZip are available at http://fsaintranet.sc.egov.usda.gov/fsatraining/.

This URL is for FSA field operation online training. From the menu on the left of the screen, scroll down and under "Other", CLICK "**How to Encrypt a Protected or Sensitive Document**."

For Excel files sent from County Offices to State Offices, the State TAA specialist may:

- elect to notify County Offices of a uniform password for the initial Excel file and any subsequent file updates
- may use the password established by the transmitting County Office.

For Excel files (original and all updates) sent to CFFM, the State TAA specialists shall:

- use the password provided by PSD or CFFM
- **not** create or use a new password unless approved by CFFM **in advance** of the file transmission, to reduce the number of passwords that CFFM will have to deal with to open multiple Excel files.
