## Critical DCP Deadline!!!!!!

Enrollment for the 2010 Direct and Counter-cyclical Program (DCP) will continue until **June 1, 2010** with no late signup provision to allow you to enroll after that date. What that means is if you don't have all signatures representing 100% of the DCP payment shares the contract payment will be lost with no options for appeal as this is a statutory deadline.

As of May 1, Bannock County had 15% of its contracts signed up for the 2010 season. That leaves 30 days to complete more than 300 contracts. With limited staff resources we will only be mailing or faxing contracts that have special circumstances and due to the busyness of the office, mailings may not be timely enough to sign and return them to the office by June 1st. All returned contracts being mailed back to the FSA office are required to be postmarked by June 1<sup>st</sup> or will be ineligible regardless of the date of signature.

It is the responsibility of the Farm Operator to get all the required signatures back to the Office by 4:30 PM on June 1<sup>st</sup>. Faxes will be received until 4:30 PM as well on June 1<sup>st</sup>.

To avoid the lines and long waits the last week of DCP signup, please call as soon as possible for an appointment. For more information on DCP rules contact the office.

## ACRE Program Deadline!!!

The Average Crop Revenue Election (ACRE) is a revenue based program that looks at farm and state guarantee price and yield triggers. If both triggers are below the guarantee threshold additional payments are made for the actual acres of commodities raised on the farm up to the total amount of base acres on the farm.

Typical eligible commodities in Bannock County are wheat, grain corn, barley, and oats. Each crop has its own guaranteed price. The deadline for ACRE is the same **June 1<sup>st</sup>** deadline as the DCP program. For more information contact the office.

## Average Gross Income – Deadline!!!

**June 15<sup>th</sup>, 2010** is the deadline for submitting the simple form CCC-927 (individuals ) or CCC-928 (Entity including Trusts) to the IRS that gives permission for FSA to audit the gross income statement completed by all Owners & Operators who received any FSA payment in 2009.

If you haven't submitted these for all entities and individuals any payments received from FSA, NRCS or other USDA agencies will be required to be refunded. You can get these forms at your FSA Office or Online at the web address at the bottom of Page 2 of this newsletter.

## Crop Reporting Deadline!!!!

The acreage reporting deadline for 2010 is **June 30<sup>th</sup>**. Crops that are not reported to the FSA office by 4:30 PM on June 30<sup>th</sup> will be subject to late-filed provisions that include inspection fees for each farm.

Filing an accurate acreage report for all crops and land uses, including failed acreage and prevented planting acreage, can prevent the loss of benefits for a variety of programs.

Only crops planted after June 30<sup>th</sup> have 15 days where they can still be reported to FSA without late filed provisions & fees being assessed.

Failed acreage must be reported within 15 days of the disaster event and before disposition of the crop. Prevented planting must be reported no later than 15 days after the final planting date.

## 2010 FSA County Committee Elections

The election of agricultural producers to Farm Service Agency (FSA) county committees is important to ALL farmers and ranchers.

---

This year's election will be for LAA #1. (Pocatello/Inkom area) FSA county committees are a link between the agricultural community and the U.S. Department of Agriculture.

County Committee (COC) members are a critical component of FSA operations. The intent is to have the COC reflect the makeup of the producers and to represent all constituents. This means wherever possible, minorities, women or lower income producers need to be on the committee to speak for these underrepresented groups.

FSA county committees operate within official regulations designed to carry out federal laws. County committee members apply their judgment and knowledge to make local decisions.

### **Early Land Preparation for CRP**

Beginning May 1 for arid areas, or July 1, of the final year of a Conservation Reserve Program (CRP) contract, cover may be destroyed on certain acreage before the contract expires to prepare a seedbed for fall seeded crop. A CRP general signup may occur in Fiscal Year (FY) 2010. Questions have arisen concerning the general signup eligibility of land that is expiring from CRP that is approved for early land preparation.

CRP participants that signed CRP-1G, Addendum, Modification To Allow Early Land Preparation, approved before April 22, 2010, to begin early land preparation were informed that beginning early land preparation activity will affect general signup eligibility.

If early land preparation activity is performed, the land is not eligible to be offered for the anticipated FY 2010 general signup. However, the CRP-1G may be withdrawn provided cover has not been damaged or destroyed because of early land preparation.

If no early land preparation activity was

**Measurement Service**

Farmers who would like a guarantee on their crop plantings and land use acreages can make it official by using the FSA measurement

service. Producers must file a request with the county office staff and pay the cost of a field visit to have stake and referencing done on the farm. Measurement service is available using digital imagery and where an on-site visit is not required are charged at a reduced rate.

Incorrect acreage self-certification can result in reduced program payments, penalty, or loss of eligibility.

Producers can request ortho-imagery and CLU covering their land (commonly referred to as a clip) at no charge. This would provide the acreage of an entire field.

## Farm Reconstitutions

At FSA, farms are “constituted” to group all tracts having the same owner and the same operator under one farm serial number. When changes in ownership or operation take place, a farm reconstitution is necessary. If an owner or operator cannot agree about program participation, like in the case of the new ACRE program, then producers should inquire about a reconstitutions at the local FSA office.

The reconstitution—or recon—is the process of combining or dividing farms or tracts of land based on the farming operation. Remember, to be effective for the current year, recons must be requested by August 2, 2010 for farms enrolled in specific programs.
