## USDA Bingham County FSA

725 Jensen Grove Dr.  
Ste. #2  
Blackfoot, ID 83221

Phone: 208-785-2090  
Fax: 208-785-5847  
www.fsa.usda.gov/id

### Hours

Monday - Friday  
8:00 a.m. - 4:30 p.m.

### County Office Staff

Steve Fullmer, CED  
Elise Cumpton, PT  
Sheila Rigby, PT  
Dorese Cornelison, PT

### Farm Loan Staff

Bradley J. McMurtrey, FLM  
Dustin Carter, FLO  
Ben Young, FLO  
Nikki Roberts, FLPT

## County Committee Election Results

Congratulations to Ray Tominaga. Ray was re-elected to represent farmers from the Blackfoot/Rockford/Fort Hall area on the county committee. Ray was elected to his second consecutive term. The election results for Local Administrative Area 2 are:

- Ray Tominaga - Elected to the county committee (COC)
- Dillon VanOrden — 1<sup>st</sup> alternate to COC,

FSA appreciates all of the voters for taking the time to complete the election ballot. The county committee system works only because of your participation. The total number of ballots counted were 166.

The committee members held their organizational meeting in January and Ray will serve as the county committee chairman and Chris Pratt as vice-chairman.

## County Committee Meeting Dates

The public is welcome to attend the regular session of each County Committee meeting. Executive sessions are closed to the public.

The scheduled Bingham County Committee meetings are set for the second Thursday of each month, beginning at 10:00 am. The dates for the meetings are:

- February 11
- March 11
- April 8
- May 13
- June 10
- July 8
- August 12
- September 9
- October 14
- November 10 (Wednesday)
- December 6 (Monday)

Individual meetings may be cancelled or changed due to business items or time frames

for programs.

Please call ahead before attending to verify time and date of the meeting.

## 2010 DCP Signup

Enrollment for the 2010 Direct and Counter-cyclical Program (DCP) has begun and will continue through June 1, 2010. USDA urges producers to make use of the eDCP automated website to sign up, or producers can visit any USDA Service Center to complete their 2010 DCP contract.

USDA computes DCP Program payments using base acres and payment yields established for each farm. Eligible producers receive direct payments at rates established by statute regardless of market prices. For 2010, eligible producers may request advance direct payments based on 22 percent of the direct payment.

## 1099-G: Note Changes

Producers who have received payments in 2009 from FSA should have received a CCC-1099-G. A CCC-1099-G is a report to the Internal Revenue Service about FSA payments made to producers during the previous calendar year. The CCC-1099-G is to help participating producers report taxable income. It is not intended to replace the program participant's responsibility to report income to the IRS.

When the CCC-1099-G is received, it should be checked with your records to see that the amounts are correct. Refunds will no longer be reported on the 1099-G, but will be available online from the FSA Financial Inquiries (FSA-FI) web-based database. Program participants with an eAuthentication user ID and password may access their refund information at FSA-FI and select "Inquiry Type 1099/Refund Reports". Refund amounts are displayed on the Producer's Year-to-Date Activity web page.

---

If you have questions concerning the 1099-G refund information, contact your local FSA office for assistance locating the correct payment data.

## **SURE**

Currently SURE Program sign ups are being taken for the 2008 Crop Year. The Supplemental Revenue Assistance Program (SURE) provides benefits for farm revenue losses due to natural disaster that incurred starting in the crop year 2008 through September 30, 2011. To be eligible for SURE payments, a producer is required to obtain crop insurance on all crops of economic significance in all counties or, if crop insurance is not available, to participate in the Non-Insured Assistance Program (NAP) except for grazed acreage.

Eligible farmers and ranchers who meet the definition of Socially Disadvantaged, Limited Resource, or Beginning Farmer or Rancher are exempt from the risk management purchase requirement.

The following are the conditions that trigger SURE payments:

- At least one crop of economic significance must suffer a 10% production loss due to an eligible disaster condition
- The crop of economic significance must be a crop that has contributed or would have contributed at least 5% or more of the total expected revenue from all crops on the farm
- The farm experiencing the loss must be in a county declared a disaster county by the Secretary of Agriculture, or in contiguous counties. Those who show proof of an individual loss of at least 50% are also eligible to receive SURE payments for production losses or crop quality losses.

Losses are measured with consideration to the whole-farm revenue, which includes crop insurance indemnities and commodity program payments, so that producers are not paid more than once for the same loss.

A SURE calculator is available at: [http://www.fsa.usda.gov/Internet/FSA\\_File/sure\\_calculator\\_2008.xls](http://www.fsa.usda.gov/Internet/FSA_File/sure_calculator_2008.xls). The calculator is not official, but is intended for educational use. A fact sheet and Q & A are also available online at [www.fsa.usda.gov](http://www.fsa.usda.gov).

## **Actively Engaged**

USDA has amended the rules that govern the requirements to be 'actively engaged' in farming. These rules apply to eligibility for payments under the Direct and Counter-cyclical Program (DCP) or Average Crop Revenue Election (ACRE) program administered by the FSA.

Every stockholder or member of a legal entity, such as a corporation, does not have to contribute labor or management if both of the following apply:

- At least half of the interest in the legal entity is held by stockholders or members who are providing active personal labor or active personal management that altogether qualifies as a significant contribution to the farming operation;
- The total direct payments received, both directly and indirectly, by the legal entity and each of the members can not exceed \$40,000.

## **BCAP**

The Biomass Crop Assistance Program (BCAP) provides financial assistance to producers or entities that sell and deliver eligible biomass material to qualified biomass conversion facilities (BCF) for use as heat, power, bio-based products or bio-fuels. Initial assistance will be for the collection, harvest, storage and transportation (CHST) costs associated with the delivery of eligible materials. Producers or entities who sell and deliver these materials can apply for FSA matching payments up to \$45 per dry ton.

An application must be submitted before the eligible material is sold and delivered to a BCF. After the product is delivered, a producer must provide FSA with documentation of product quantity, quality and payment rate. County offices will validate payment requests with information in the county office. For more information, find the BCAP page of details at [www.fsa.usda.gov](http://www.fsa.usda.gov).

## **Adjusted Gross Income**

USDA has a Memorandum of Understanding with the Internal Revenue Service to establish an electronic information exchange process for verifying compliance with the adjusted gross income (AGI) provisions for farm programs. Written consent will be required from each producer or payment recipient for the IRS review process. No actual tax data will be included in the report that IRS sends to USDA.

---

The agreement ensures that payments are not issued to producers whose AGI exceeds certain limits. The limits set in the 2008 Farm Bill are \$500,000 nonfarm average AGI for commodity and disaster programs; \$750,000 farm average AGI for direct payments; and \$1 million nonfarm average AGI for conservation programs.

Participants in CCC programs subject to average AGI rules must submit form CCC-927 (Individual) and/or CCC-928 (Legal Entity) to the Internal Revenue Service by June 15 to avoid interruption of program benefits. These forms may be obtained from local FSA and NRCS offices or online at: <http://forms.sc.egov.usda.gov>.

### **Farm Loan Programs**

The FSA offers loans for eligible farmers and ranchers to purchase farmland and finance agricultural operations. FSA loan programs are designed to help producers who are temporarily unable to obtain private or commercial credit. In many cases, applicants are beginning farmers who have insufficient net worth to qualify for financing through a commercial lender. In other instances, borrowers might have suffered setbacks from natural disasters or might be persons with limited resources.

Farm ownership loans or farm operating loans may be obtained as direct loans for a maximum of up to \$300,000. Guaranteed loans can reach a maximum indebtedness of \$1,112,000. Emergency loans are always direct loans for farmers who may have suffered physical or production losses in disaster areas designated by a Presidential or Secretarial disaster declaration. Rural Youth Loans, Loans to Beginning Farmers and loans for socially disadvantaged applicants are also available.

### **Loans for the Socially Disadvantaged**

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for members of Socially Disadvantaged Applicants.

A socially disadvantaged applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, socially disadvantaged groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans, and Pacific Islanders.

If producers or their spouses believe they would qualify as socially disadvantaged, they should contact their local FSA office for details. FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

### **ACRE**

The optional ACRE Program provides a safety net based on revenue losses and acts in place of the price-based safety net of counter-cyclical payments under DCP. The June 1, 2010, signup deadline is mandatory for all participants USDA will not accept any late-filed applications.

A farm's payment is based on a revenue guarantee calculated using a 5-year average state yield and the most recent 2-year national price for each eligible commodity. For 2010, the 2-year price average will be based on the 2008 and 2009 crop years.

Payments are based on planted or prevented planted acres of commodity crops. In order to receive a payment for the crop, there must be both a state and farm revenue loss. The total number of planted acres for which a producer may receive ACRE payments may not exceed the total base on the farm. In exchange for participating in ACRE, a farm's direct payment is reduced by 20%, and marketing assistance loan rates are reduced by 30%. Counter-cyclical payments are not earned under the ACRE program.

The decision to enroll in the ACRE Program is irrevocable. The owner of the farm and all producers on the farm must agree to enroll in ACRE. Once enrolled, the farm shall be enrolled for that initial crop year and will remain in ACRE through the 2012 crop year.
