2011 FSA County Committee Elections

The election of agricultural producers to Farm Service Agency (FSA) county committees is important to ALL farmers and ranchers, whether beginning or long-established, large or small. It is crucial that every eligible producer participate in these elections because FSA county committees are a link between the agricultural community and the U.S. Department of Agriculture.

County Committee (COC) members are a critical component of FSA operations. The intent is to have the COC reflect the makeup of the producers and to represent all constituents. This means wherever possible, minorities, women or lower income producers need to be on the committee to speak for these underrepresented groups.

County committees provide local input on commodity price support loans and payments, conservation programs, incentive, indemnity and disaster payments for some commodities, emergency programs and payment eligibility.

FSA county committee members apply their judgment and knowledge to make local decision and operate within official regulations designed to carry out federal rules, regulations and laws.

NOTICE TO HISPANIC AND/OR WOMEN FARMERS OR RANCHERS

COMPENSATION FOR CLAIMS OF DISCRIMINATION

If you believe that the United States Department of Agriculture (USDA) improperly denied farm loan benefits to you between 1981 and 2000 because you are Hispanic, or because you are female, you may be eligible to apply for compensation.

To register your name to receive a claims packet, call the Farmer and Rancher Call Center at 1-888-508-4429 or visit: www.farmerclaims.gov

The claims package will have detailed information about the eligibility and claims process.

USDA is an equal opportunity provider and employer.

Signing DCP/ACRE Contracts
June 1st is the deadline to sign the 2011 DCP/ACRE contracts. This is less than a month away. Do not put this off because it will be even more crowded in the office the closer it gets to the deadline. You may need to wait in line for quite some time. Those that keep their appointments will be served first.

Reporting Planted Acres
June 30th is the deadline for reporting your planted acres. Between now and June 1st, you may sign your DCP/ACRE contract and report planted acres. What a deal – two items completed in one trip! Please take advantage and come in. **No appointment cards will be mailed out for 2011.**

2010 Crop Production Report
Producers in the ACRE program must bring in 2010 production evidence to establish their proved yield for wheat, barley, corn, oats, canola, and chick peas. This production will be used to determine payments for 2010 and to establish the 5-year average for 2011.

AGI and the IRS
USDA has a Memorandum of Understanding with the Internal Revenue Service to establish an electronic information exchange process for verifying compliance with the adjusted gross income (AGI) provisions for farm programs. Written consent will be required from each producer or payment recipient for the tax review process. No actual tax data will be included in the verification report that IRS sends to FSA.

The agreement ensures that payments are not issued to producers whose AGI exceeds certain limits. The limits set in the 2008 Farm Bill are \$500,000 nonfarm average AGI for commodity and disaster programs; \$750,000 farm average AGI for direct payments; and \$1 million nonfarm average AGI for conservation programs.

Participants in CCC programs subject to average AGI rules must submit form CCC-927 (Individual) and/or CCC-928 (Legal Entity) to the Internal Revenue Service by June 15 to avoid interruption of program

benefits. These forms may be obtained from local FSA and NRCS offices.

Farm Reconstitutions

At FSA, farms are “constituted” to group all tracts having the same owner and the same operator under one farm serial number. When changes in ownership or operation take place, a farm reconstitution is necessary. If multiple owners and/or operators do not agree about program participation and want to separate acres by programs, for example to enter only a segment of property into the new ACRE program, then producers should inquire about a reconstitution of the farm at the local FSA office.

The reconstitution—or recon—is the process of combining or dividing farms or tracts of land based on the farming operation. NOTE: to be effective for the current year, recons must be requested by August 1, 2011, for farms enrolled in specific programs.

Farm Loan Programs

The Farm Service Agency is committed to providing family farmers with credit to meet their business needs. Farmers having trouble obtaining financing have both direct and guaranteed loan options.

Farm ownership loans or farm operating loans may be obtained as direct loans for a maximum of up to \$300,000. Guaranteed loans can reach a maximum indebtedness of \$1,119,000. Producers are encouraged to apply early so that a loan can be processed and funded in a timely manner prior to production credit needs.

Attention Farm Loan Program Borrowers

If you are currently a Farm Loan Program borrower, please remember to submit the following information to FSA in order for your annual classification and/or year-end analysis to be completed.

- Current balance sheet
- Copy of 2010 actual income or a copy of your 2010 income taxes

Crop Reporting

The annual, timely and accurate reporting of acres for all crops and land uses, including failed acreage, can prevent loss of benefits for a variety of Farm Service Agency programs. All cropland on the farm must be reported to receive benefits from the Direct and Counter-cyclical Program, marketing assistance loans and Loan Deficiency Payments.

Conservation Reserve Program acreage must be reported to receive annual rental payments. And, crop acreage for Non-insured Crop Disaster Assistance Program (NAP) must also be reported.

Crop reports, form FSA-578, Report of Acreage, must account for all cropland on a farm, whether idle or planted. Producers need to file their acreage reports by June 30, 2011.

Prevented Planting: Prevented planting needs be reported no later than 15 calendar days after the final planting date.

Failed Acreage: Reports of failed acreage must be filed before disposition of the crop, and producers must be able to establish to the satisfaction of the county committee that the crop failed and was prevented from being replanted through the normal planting period because of natural disaster conditions.
