## County Committee Elections "FSA Counts on You" Nomination Form Page 3

Since COC elections happen only once a year, here is an election refresher. For election purposes, counties are divided into *local administrative areas*, or LAAs. Each LAA selects one producer to serve a three-year term on the Farm Service Agency county committee.

Each year, an election is held in an LAA to replace the committee member whose three-year term is expiring. In counties with three LAAs, one seat is up for election. In combined counties in some years, two seats may be up for election.

### Nominations

Candidate nominations for the FSA county committee election will be accepted June 15 through Aug. 3, 2009.

Producers who are residents in the LAA holding the election and who participate or cooperate in an FSA program and are of legal voting age may be nominated to serve on the county committee.

Individuals may nominate themselves or others as candidates. Also, organizations representing socially disadvantaged minorities and women farmers or ranchers may also nominate candidates.

The nomination form, FSA-669A, is available at the county office or may be downloaded from <http://www.fsa.usda.gov/FSA/webapp?area=newsroom&subject=landing&topic=cce>.

To be valid, the nomination form must be signed by the person being nominated, indicating agreement to serve if elected. The completed nomination form must be returned to the county office by the close of business on Aug. 3, or postmarked by midnight Aug. 3, 2009.

## DCP & ACRE Signup Deadline

Signup for the 2009 Direct and Counter-cyclical Payment (DCP) Program has been extended until August 14, 2009. FSA will not accept any late-filed applications. Signup in the ACRE option is also available through August 14, 2009.

FSA computes DCP Program payments using base acres and payment yields established for each farm. Eligible producers receive direct payments at rates established by statute regardless of market prices. For 2009, you may request to receive advance direct payments based on 22 percent of the direct payment for each commodity associated with the farm. Counter-cyclical payment rates vary depending on market prices and are issued only when prices fall below a threshold level.

The electronic DCP (or eDCP) service will save you time, reduce paperwork and speed up contract processing at FSA offices. It is available to anyone eligible to participate in the DCP Program. To access this on-line service, you must have an active USDA eAuthentication Level 2 account, which requires filling out an online registration form at <http://www.eauth.egov.usda.gov> followed by a visit to the local USDA Service Center for identity verification.

## Crop Reporting Deadline June 30, 2009

The annual requirement of reporting to the FSA office can be referred to as crop reporting, acreage reporting, or crop certification. Filing an accurate and timely report for all crops and land uses, including failed acreage, can prevent loss of benefits for a variety of Farm Service Agency programs. All cropland on the farm must be reported to receive benefits from the Direct and Counter-cyclical Program, marketing assistance loans and Loan Deficiency Payments. The certification form FSA-578, Report of Acreage, must account for all cropland on a farm, whether idle or planted. The producer certification deadline for ALL CROPS is **June 30, 2009**.

## Crop Reporting cont.

### **CRP & NAP Certification**

Conservation Reserve Program acreage must be reported to receive annual rental payments. And, crop acreage for Non-insured Crop Disaster Assistance Program (NAP) must also be reported.

### **Prevented Planting:**

Prevented planting is to be reported no later than 15 calendar days after the final planting date.

### **Failed Acreage:**

Reports of failed acreage must be filed before disposition of the crop, and producers must be able to establish to the satisfaction of the county committee that the crop failed and was prevented from being replanted through the normal planting period because of natural disaster conditions.

## **Banking Changes?**

Almost all Farm Service Agency payments are made electronically using Direct Deposit. This innovation has cut down on the number of missing and late payments and reduced the time required to move funds. It has been calculated that having a problem with a payment is 20 times greater with checks than with Direct Deposit. Another benefit is that Direct Deposit to your account can be made within 48 hours.

To keep the system running smoothly, it's critical to keep the county office staff up to date on changes you might make in your financial institutions. If you have changed accounts or institutions that might affect the direct deposit of your FSA payments, contact the FSA county office so we can update our files.

## **Power of Attorney**

For those who find it difficult to visit the county office personally because of work schedules, distance, health, etc., FSA has a power of attorney form available that enables you to designate another person to conduct your business at the office

If you are interested, please contact our office or any Farm Service Agency office near you for more information. If you want a crop loan, a power of attorney form will need to be completed for husband and wife, if both do not come into the office to sign the forms on the day the loan is disbursed.

## **Farm Reconstitutions**

For FSA program purposes, tracts having the same owner and the same operator are grouped under one farm serial number. When changes in ownership or operation take place, a farm reconstitution is necessary.

The reconstitution—or recon—is the process of combining or dividing farms or tracts of land based on the farming operation. Remember, to be effective for the current year, recons must be requested by **August 1** for farms enrolled in specific programs.

The following are the different methods used when doing a farm recon:

**Estate Method** — the division of bases, allotments and quotas for a parent farm among heirs in settling an estate;

**Designation of Landowner Method** — may be used when (1) part of a farm is sold or ownership is transferred; (2) an entire farm is sold to two or more persons; (3) farm ownership is transferred to two or more persons; (4) part of a tract is sold or ownership is transferred; (5) a tract is sold to two or more persons; or (6) tract ownership is transferred to two or more persons. In order to use this method the land sold must have been owned for at least three years, or a waiver granted, and the buyer and seller must sign a Memorandum of Understanding;

**DCP Cropland Method** — the division of bases in the same proportion that the DCP cropland for each resulting tract relates to the DCP cropland on the parent tract;

**Default Method** — the division of bases for a parent farm with each tract maintaining the bases attributed to the tract level when the reconstitution is initiated in the system.
