Hours
Monday - Friday
8:00 a.m. - 4:30 p.m.

Idaho County Staff:

Julie Fowler, Acting CED
Erica Baldus, PT

Idaho County Committee:

Chris Arnzen
Joe Chicane
Bill Kimzer
Karen Lustig, Advisor

FSA Committee meetings are open to the public. The next regular COC meeting will be April 17th at the Idaho USDA Service Center, beginning at 8:00 a.m.

County Committee Advisors

Idaho FSA County Office Committee (COC) has named Karen Lustig as COC Advisor. As the COC Advisor she will be a voice for under-represented groups and socially disadvantaged farmers and ranchers in the community. County committee members and their county executive directors, reach out to producer groups who are under-represented on county committees to find the right person to serve as Advisor. Karen has served the Idaho County producers as advisor since 2009.

Advisors serve for a 12 month period not to exceed nine consecutive years. They attend each COC meeting, including executive sessions and they participate. One of their primary responsibilities is to increase awareness of and participation in FSA activities, including elections. They help develop interest and incentives for socially disadvantaged group members to consider FSA work as a career. Advisors also solicit candidates from socially disadvantaged groups for nomination during the election process.

CRP General Sign-Up

There will be a four-week Conservation Reserve Program (CRP) general signup which will begin on March 12, 2012 and end on April 6, 2012.

CRP is a voluntary program available to agricultural producers to help them use environmentally sensitive land for conservation benefits. Producers enrolled in CRP plant long-term, resource-conserving covers to improve the quality of water, control soil erosion and develop wildlife habitat. In return participants receive rental payments and cost-share assistance. Contract duration is between 10 and 15 years. Producers with expiring contracts and producers with environmentally sensitive land are encouraged to evaluate their options

under CRP. Producers also are encouraged to look into CRP's other enrollment opportunities offered on a continuous, non-competitive, signup basis.

For more information on CRP and other FSA programs, visit a local FSA service center or go online at www.fsa.usda.gov.

New Continuous CRP Initiative

FSA has announced a new conservation initiative to protect up to 750,000 acres of the nation's most highly erodible croplands. This initiative will assist producers with targeting their most highly erodible cropland (land with an erodibility index of 20 or greater) by enabling them to plant wildlife-friendly, long-term cover through the Conservation Reserve Program (CRP).

Producers can enroll land on a continuous basis beginning this summer at their local Farm Service Agency (FSA) county office. With the use of soil survey and geographic information system data, local FSA staff can quickly determine a producer's eligibility for the initiative.

Producers are encouraged to contact the local FSA office or visit FSA's website at www.fsa.usda.gov/crp for additional information regarding CRP.

Loans: Land Contract Guarantee Program

The new FSA Land Contract Guarantee Program provides help to beginning farmers by offering guaranteed payments to landowners willing to sell and finance a land purchase to a beginning or socially disadvantaged farmer. The national program has two options. One guarantees up to three annual installment payments on the contract and the other guarantees 90% of the unpaid principal of the contract. This program can be used in the purchase of land for up to \$500,000. Contact your local FSA office for further details.

NOTICE TO HISPANIC AND/OR WOMEN FARMERS OR RANCHERS

COMPENSATION FOR CLAIMS OF DISCRIMINATION

If you believe that the United States Department of Agriculture (USDA) improperly denied farm loan benefits to you between 1981 and 2000 because you are Hispanic, or because you are female, you may be eligible to apply for compensation.

To register your name to receive a claims packet, call the Farmer and Rancher Call Center at 1-888-508-4429 or visit: www.farmerclaims.gov

The claims package will have detailed information about the eligibility and claims process.

USDA is an equal opportunity provider and employer.

DCP/ACRE Sign-Up

2012 Direct and Counter-Cyclical Program (DCP) enrollment runs from Jan. 23, 2012 through June 1, 2012. Here are some IMPORTANT REMINDERS:

- All producers planting on **DCP base** acres must be identified on the DCP/ACRE contract and receive a proportionate share of DCP/ACRE payment for the farm.

- Changes on the farm after enrolling June 1 in DCP/ACRE **must** be reported to your local FSA office. Changes may include:

- Ownership changes
- Producer changes (Individuals and Entities)
- Change in crop shares arrangements

Note: Changes cannot be made after Sept. 30, 2012.

Supplemental Revenue Assistance Program (SURE)

The Supplemental Revenue Assistance Program (SURE) provides benefits for farm revenue losses due to natural disasters that incurred in the crop year 2010.

Sign-up for 2010 SURE losses continue through **June 1, 2012**. SURE is available to eligible producers on:

- Farms in counties with Secretarial disaster declarations, including contiguous counties, that have incurred crop production or quality losses, or both, and includes all crops grown by a producer nationwide, except grazed crops.

- Any farm in which, for the crop year, the actual production on the farm because of disaster-related conditions is 50 percent or less than normal production of the farm.

Actively Engaged

USDA has amended the rules that govern the requirements to be 'actively engaged' in farming. These rules apply to eligibility for payments under the Direct and Counter-cyclical Program (DCP) or Average Crop Revenue Election (ACRE) program administered by FSA.

Normally the stockholder or a member of a legal entity **must** make contributions of active personal labor and/or active personal management for the farming operation. The contributions are to be performed on regular basis, must be identifiable, and separate from the contributions of others. The exception to this rule for a stockholder or member of a

legal entity only occurs when both of the following apply:

- At least half of the interest in the legal entity is held by stockholders or members who are providing active personal labor or active personal management;

- The total direct payments received by the legal entity and each of the members can't exceed \$40,000.

NAP Enrollment

Producers must apply for coverage before a disaster strikes. Noninsured Crop Disaster Assistance Program (NAP) applications for coverage must be filed using Form CCC-471 and the applicable service fees by the closing date. Application closing dates vary by crop. Idaho County producers can contact the FSA Office for specific crop application sales closing dates at 208-983-1050 Ext. 2.

Producers are reminded about the need for insurance coverage on crops in order to remain eligible for the agency's Disaster Assistance Programs such as SURE, Livestock Forage Program, Tree Assistance Program, and Emergency Livestock Assistance Program. Producers must purchase at least catastrophic (CAT) level of insurance for all insurable crops.

NAP provides coverage to producers for non-insurable crops when low yields, loss of inventory, or prevented planting occurs due to natural disasters. Crops eligible for NAP coverage are those for which crop insurance is not available, including fruits and vegetables, aquaculture, pecans, turf grass and forage crops just to name a few.

More information about NAP may be found on the FSA web site located at <http://www.fsa.usda.gov>

1099-G - Advisory

Producers who have received payments from FSA should have received a CCC-1099-G. This is a report to the Internal Revenue Service about FSA payments to producers during the previous calendar year. The CCC-1099-G helps producers report taxable income. It is not intended to replace the program participant's responsibility to report income to the IRS.

When the CCC-1099-G is received, it should be checked with your records to see that the amounts are correct. Refunds will no

Continued on Page 3: CCC 1099-G

longer be reported on the 1099-G, but will be available online from the FSA Financial Inquiries (FSA-FI) web-based database. Program participants with an eAuthentication user ID and password may access their refund information at FSA-FI and select “*Inquiry Type 1099/Refund Reports*”. Refund amounts are displayed on the Producer’s Year-to-Date Activity web page.

Contact your local FSA office for assistance with the 1099-G refund and in locating the correct payment data.

Farm Storage Facility Loan Program

The Farm Storage Facility Loan (FSFL) program allows producers of eligible commodities to obtain low-interest financing to build or upgrade farm storage and handling facilities.

The new maximum principal amount of a loan through FSFL is \$500,000. Participants are now required to provide a down payment of 15%, with CCC providing a loan for the remaining 85% of the net cost of the eligible storage facility and permanent drying and handling equipment. New loan terms of 7, 10 or 12 years are available depending on the amount of the loan. Interest rates for each term rate may be different and are based on the rate which CCC borrows from the Treasury Department.

Applications for FSFL must be submitted to the FSA county office that maintains the farm’s records. An FSFL must be approved before any site preparation or construction can begin.

The following commodities are eligible for farm storage facility loans:

- Corn, oats, wheat, barley or minor oilseeds harvested as whole grain
- Corn, wheat, oats or barley harvested as other-than-whole grain
- Pulse crops – lentils, small chickpeas and dry peas
- Hay
- Renewable biomass
- Fruits (including nuts) and vegetables – cold storage facilities

For more information about FSFL please visit your FSA county office or www.fsa.usda.gov.

IMPORTANT - AGI Reconciliation Process

FSA’s *Adjusted Gross Income (AGI) Reconciliation Process* begins when FSA is notified that the IRS has not received a valid “*Consent to Disclosure of Tax Information*” form. There are two distinct reasons why a producer appears on an FSA AGI Reconciliation Report: 1) IRS did not receive a consent form from the producer or 2) IRS rejected the consent form.

In these cases the IRS notifies the FSA National Office which then directs the producer’s recording FSA County office to reconcile the report. The county office then contacts the producer to complete a **CCC-931 “Average Adjusted Gross Income (AGI) and Consent to Disclosure of Tax Information”**.

It is then the FSA County Office responsibility to mail the completed CCC-931 consent form to IRS. Failure to provide the required “*Consent to Disclosure of Tax Information*” forms may render a producer ineligible for FSA program benefits and require repayment of benefits received.

Marketing Assistance Loans

Marketing Assistance Loans, also referred to as Commodity Loans, are available to producers who share in the risk of producing the crop. To be eligible, you must maintain beneficial interest in the crop through the time of application.

Once beneficial interest in a commodity is lost, the commodity is ineligible for loan — even if you regain beneficial interest.

Violating provisions of a marketing assistance loan may trigger administrative actions, such as assessing liquidated damages, calling the loan and denial of future farm-stored loans. The most common violations are removing or disposing of a commodity being used as loan collateral without prior authorization and providing an incorrect quantity certification.

Beginning and Limited Resource Farmers

FSA assists beginning farmers and or members of socially disadvantaged groups to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

Continued on Page 4: Beginning and Limited . . .

- Has operated a farm for not more than 10 years
- Will materially and substantially participate in the operation of the farm
- Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA
- Does not own a farm in excess of 30 percent of the county's median size.

Additional program information, loan applications and other material are available at your local USDA Service Center. You may visit www.fsa.usda.gov.

GovDelivery – Your next step to save time and increase efficiency

The USDA Farm Service Agency offices are moving toward a paperless operation that saves tax payer dollars. Producers can now enroll in the new GovDelivery email system which provides electronic deadline reminders, bulletins and newsletters instead of printed paper documents through the mail.

County Committee ballots will continue to be mailed to all eligible producers. Producers can subscribe to receive free e-mail updates by visiting www.fsa.usda.gov/subscribe. Give it a try right now.

Loans for the Socially Disadvantaged

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating expenses or help purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for socially disadvantaged applicants.

A socially disadvantaged applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of a group.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

Selected Interest Rates for March 2012	
90-Day Treasury Bill	0.125%
Farm Operating - Direct	1.375%
Farm Ownership - Direct	3.375%
Limited Resource	5%
Farm Ownership - Direct Down Payment, Beginning Farmer or Rancher	1.50%
Emergency (Actual Loss)	3.75%
Farm Storage Facility (7-Year loan term)	1.375%

Dates to Remember	
March 12	General CRP Signup Opens
March 15	Deadline for most spring-planted crop insurance purchase or change
March 15	Deadline for non-insured (NAP) spring crop coverage purchase at FSA
March 31	Last day to obtain commodity loan on 2011 wheat, barley, oats, oilseeds
April 6	General CRP Signup Ends
May 31	Last day to obtain commodity loan on 2011 peas, garbanzo beans, lentils
June 1	2012 DCP/ACRE Enrollment closes
June 1	SURE Sign up closes for 2010
June 30	Crop Reporting Deadline
