Officer
Annette VonBargen, FL PT

SURE

Currently SURE Program sign ups are being taken for the 2008 Crop Year. The Supplemental Revenue Assistance Program (SURE) provides benefits for farm revenue losses due to natural disaster that incurred starting in the crop year 2008 through September 30, 2011. To be eligible for SURE payments, a producer is required to obtain crop insurance on all crops of economic significance in all counties or, if crop insurance is not available, to participate in the Non-Insured Assistance Program (NAP) except for grazed acreage.

Eligible farmers and ranchers who meet the definition of Socially Disadvantaged, Limited Resource, or Beginning Farmer or Rancher are exempt from the risk management purchase requirement.

The following are the conditions that trigger SURE payments:

- at least one crop of economic significance must suffer a 10% production loss due to an eligible disaster condition
- the crop of economic significance must be a crop that has contributed or would have contributed at least 5% or more of the total expected revenue from all crops on the farm
- the farm experiencing the loss must be in a county declared a disaster county by the Secretary of Agriculture, or in contiguous counties. Those who show proof of an individual loss of at least 50% are also eligible to receive SURE payments for production losses or crop quality losses.

Losses are measured with consideration to the whole-farm revenue, which includes crop insurance indemnities and commodity

program payments, so that producers are not paid more than once for the same loss.

A SURE calculator is available at: http://www.fsa.usda.gov/Internet/FSA_File/sure_calculator_2008.xls. The calculator is not official, but is intended for educational use. A fact sheet and Q & A are also available online at www.fsa.usda.gov.

SURE/ACRE/DCP/BCAP Meetings

Nez Perce County producers are invited to attend a general informational meeting on SURE/ACRE/CRP/BCAP to be held in Genesee on February 24th. The meeting is at the Genesee Senior Center 8:00 AM to Noon.

After February 24th the informational meetings will be small group meetings held at the Lewiston USDA Service Center on a weekly basis. Generally they will be Tuesday and Thursday mornings from 8:00 AM to 10:00 AM. Call for an appointment because the space will be limited and the meeting times may change. The format will be to have a general overview with questions followed by a work session with the producer's actual farm information.

ACRE

The optional ACRE Program provides a safety net based on revenue losses and acts in place of the price-based safety net of counter-cyclical payments under DCP. The June 1, 2010, signup deadline is mandatory for all participants. USDA will not accept any late-filed applications.

A farm's payment is based on a revenue guarantee calculated using a 5-year average state yield and the most recent 2-year national price for each eligible commodity. For 2010, the 2-year price average will be based on the 2008 and 2009 crop years.

Continued from Page 1 ACRE

Payments are based on planted or prevented planted acres of commodity crops. In order to receive a payment for the crop, there must be both a state and farm revenue loss. The total number of planted acres for which a producer may receive ACRE payments may not exceed the total base on the farm. In exchange for participating in ACRE, in addition to not receiving counter-cyclical payments, a farm's direct payment is reduced by 20%, and marketing assistance loan rates are reduced by 30%.

The decision to enroll in the ACRE Program is irrevocable. The owner(s) of the farm and all producers on the farm must agree to enroll in ACRE. Once enrolled, the farm shall be enrolled for that initial crop year and will remain in ACRE through the 2012 crop year.

ACRE participants are required to provide the farm's actual production by July 1 of the following year. ACRE participants must also provide actual production for the 5 previous years for all base acre crops to establish the Benchmark Farm Yield. The deadline to establish the Benchmark Farm Yield for 2009 ACRE farms is July 1, 2010.

Adjusted Gross Income

USDA has a Memorandum of Understanding with the Internal Revenue Service to establish an electronic information exchange process for verifying compliance with the adjusted gross income (AGI) provisions for farm programs. Written consent will be required from each producer or payment recipient for the IRS review process. No actual tax data will be included in the report that IRS sends to USDA.

The agreement ensures that payments are not issued to producers whose AGI exceeds certain limits. The limits set in the 2008 Farm Bill are \$500,000 nonfarm average AGI for commodity and disaster programs; \$750,000 farm average AGI for direct payments; and \$1 million nonfarm average AGI for conservation programs.

Participants in CCC programs subject to average AGI rules must submit form CCC-927 (Individual) and/or CCC-928 (Legal Entity) to the Internal Revenue Service by June 15 to avoid interruption of program benefits. These forms may be obtained from local FSA and NRCS offices or online at: <http://forms.sc.egov.usda.gov>.

2010 DCP Signup

Enrollment for the 2010 Direct and Counter-cyclical Program (DCP) has begun and will continue through June 1, 2010. USDA urges producers to make use of the eDCP automated website to sign up, or producers can visit any USDA Service Center to complete their 2010 DCP contract.

USDA computes DCP Program payments using base acres and payment yields established for each farm. Eligible producers receive direct payments at rates established by statute regardless of market prices. For 2010, eligible producers may request advance direct payments based on 22 percent of the direct payment.

Actively Engaged

USDA has amended the rules that govern the requirements to be 'actively engaged' in farming. These rules apply to eligibility for payments under the Direct and Counter-cyclical Program (DCP) or Average Crop Revenue Election (ACRE) program administered by the FSA.

Every stockholder or member of a legal entity, such as a corporation, does not have to contribute labor or management if both of the following apply:

- At least half of the interest in the legal entity is held by stockholders or members who are providing active personal labor or active personal management that altogether qualifies as a significant contribution to the farming operation;
- The total direct payments received, both directly and indirectly, by the legal entity and each of the members can not exceed \$40,000.

2009 County Committee Elections

Ralph Schwartz was re-elected to the Nez Perce County FSA Committee. Ralph will serve a three year term. A total of 63 ballots were received.

BCAP

The Biomass Crop Assistance Program (BCAP) provides financial assistance to producers or entities that sell and deliver eligible biomass material to qualified biomass conversion facilities (BCF) for use as heat, power, bio-based products or bio-fuels. Initial assistance will be for the collection, harvest, storage and transportation (CHST) costs associated with the delivery of eligible materials. Producers or entities who sell and deliver these materials can apply for FSA matching payments up to \$45 per dry ton.

An application must be submitted before the eligible material is sold and delivered to a BCF. After the product is delivered, a producer must provide FSA with documentation of product quantity, quality and payment rate. County offices will validate payment requests with information in the county office. For more information, find the BCAP page of details at www.fsa.usda.gov.

1099-G: Note Changes

Producers who have received payments in 2009 from FSA should have received a CCC-1099-G. A CCC-1099-G is a report to the Internal Revenue Service about FSA payments made to producers during the previous calendar year. The CCC-1099-G is to help participating producers report taxable income. It is not intended to replace the program participant's responsibility to report income to the IRS.

When the CCC-1099-G is received, it should be checked with your records to see that the amounts are correct. Refunds will no longer be reported on the 1099-G, but will be available online from the FSA Financial Inquiries (FSA-FI) web-based database. Program participants with an eAuthentication user ID and password may access their refund information at FSA-FI and select "Inquiry Type 1099/Refund Reports". Refund amounts are displayed on the Producer's Year-to-Date Activity web page.

If you have questions concerning the 1099-G refund information, contact your local FSA office for assistance locating the correct payment data.

NAP Coverage Deadlines

March 15th is the deadline to request and pay for Noninsured Crop Disaster Assistance Program (NAP) filing deadlines for your spring planted crops

The current service fee is \$250 per crop per county with a maximum of \$750 per producer per county. The fee cannot exceed a total of \$1875 per producer for individuals with farming interests in multiple counties. Limited resource producers may request a waiver for service fees. Limited Resource producers receive an APH equal to 65% of the county yield.

To qualify, a producer must share in the risk of producing an eligible crop.

Remember – Multi-peril insurance and NAP are required on all but De Minimus crops to remain eligible for the SURE (disaster) program.

Note: Marrofat peas must be covered by special agreement with multi-peril insurance or with NAP. They are not covered by a standard dry green pea policy.

Farm Loan Programs

The FSA offers loans for eligible farmers and ranchers to purchase farmland and finance agricultural operations. FSA loan programs are designed to help producers who are temporarily unable to obtain private or commercial credit.

Farm ownership loans or farm operating loans may be obtained as direct loans for a maximum of up to \$300,000. Guaranteed loans can reach a maximum indebtedness of \$1,112,000.

For details please contact the county office staff for an appointment with a farm loan officer.

Loans for the Socially Disadvantaged

While all qualified producers are eligible to apply for loan programs, the FSA has provided priority funding for members of Socially Disadvantaged Applicants.

A socially disadvantaged applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.
