ONLINE NEWSLETTERS:

Don't forget to provide the Owyhee County FSA Office with your email address so you won't miss our monthly newsletters.

Critical DCP Deadline!!!!!!

Enrollment for the 2010 Direct and Counter-cyclical Program (DCP) will continue until **June 1, 2010** with no late signup provision to allow you to enroll after that date. What that means is if you don't have all signatures representing 100% of the DCP payment shares the contract payment will be lost with no options for appeal as this is a statutory deadline.

As of May 5, Owyhee County had 32% of its contracts signed up for the 2010 season. That leaves less than 30 days to complete more than 240 contracts. With limited staff resources we will only be mailing or faxing contracts that have special circumstances and due to the short time frame, mailings may not be timely enough to sign and return them to the office by June 1st. All returned contracts being mailed back to the FSA office are required to be postmarked by June 1st or will be ineligible regardless of the date of signature.

It is the responsibility of the Farm Operator to get all the required signatures back to the Office by 4:30 PM on June 1st. Faxes will be received until 4:30 PM as well on June 1st.

To avoid the lines and long waits the last week of DCP signup, come in today and sign this year's contract!! For more information on DCP rules contact Gwen Miller DCP program lead technician for more information.

ACRE Program Deadline!!!

The Average Crop Revenue Election (ACRE) is a revenue based program that looks at farm and state guarantee price and yield triggers. If both triggers are below the guarantee threshold additional payments are made for the actual acres of commodities raised on the farm up to the total amount of base acres on the farm.

The ACRE program has the same **June 1st** deadline as the DCP program. For more information contact the office.

Average Gross Income – Deadline!!!

June 15th, 2010 is the deadline for submitting form CCC-927 (individuals) or CCC-928 (Entity including Trusts) to the IRS that gives permission for FSA to audit the gross income statement completed by all Owners & Operators who receive any FSA payments in 2009 & 2010.

If you haven't submitted these for all entities and individuals any payments received from FSA, NRCS or other USDA agencies will be **required to be refunded**. You can get these forms at your FSA Office or by clicking on the forms link at the top of the following web address

<http://www.fsa.usda.gov/FSA/webapp?area=home&subject=landing&topic=landing>

Crop Reporting Deadline!!!!

The acreage reporting deadline for 2010 is **June 30th**. Crops that are not reported to the FSA office by 4:30 PM on June 30th will be subject to late-filed provisions that include inspection fees for each farm.

Filing an accurate acreage report for all crops and land uses, including failed acreage and prevented planting acreage, can prevent the loss of benefits for a variety of programs.

Only crops planted after June 30th have 15 days where they can still be reported to FSA without late filed provisions & fees being assessed.

Failed acreage must be reported within 15 days of the disaster event and before disposition of the crop. Prevented planting must be reported no later than 15 days after the final planting date.

Tree Assistance Program (TAP)

TAP provides financial assistance to qualifying orchardists and nursery tree growers to replant or rehabilitate trees, bushes or vines that were lost by natural disasters occurring on or after Jan. 1, 2008 and before Oct. 1, 2011. Sign-up has begun for losses from Jan. 1, 2008 through May 7, 2010 and will close on July 6, 2010.

2010 FSA County Committee Elections

The election of agricultural producers to Farm Service Agency (FSA) county committees is important to ALL farmers and ranchers. It is crucial that every eligible producer participate in these elections because FSA county committees are a link between the agricultural community and the U.S. Department of Agriculture.

County Committee (COC) members are a critical component of FSA operations. The intent is to have the COC reflect the makeup of the producers and to represent all constituents. This means wherever possible, minorities, women or lower income producers need to be on the committee to speak for these under-represented groups.

FSA county committees operate within official regulations designed to carry out federal laws. County committee members apply their judgment and knowledge to make local decisions.

Measurement Service

Farmers who would like a guarantee on their crop plantings and land use acreages can make it official by using the FSA measurement service. Producers must file a request with the county office staff and pay the cost of a field visit to have stake and referencing done on the farm. Measurement service is available using digital imagery and where an on-site visit is not required are charged at a reduced rate.

Incorrect acreage self-certification can result in reduced program payments, penalty, or loss of eligibility.

Producers can request ortho-imagery and CLU covering their land (commonly referred to as a clip) at no charge. This would provide the acreage of an entire field.

Northwestern Owyhee Conservation District (Marsing – Homedale area)

Northwestern Owyhee Conservation District is sponsoring the NOCWMA –weed management area again for 2010. We started by spraying for puncture vine with a pre-emergent. Watch for notices in the Owyhee Avalanche for the next spray day which will target white top, or call the district office (896-4544 ext 102). NOCWMA meetings are the 1st Wednesday of the month. Thanks to all the participants in 2009 we did a great job knocking back those dreadful goat heads.

Eastern Owyhee Conservation District (Bruneau – Grandview area)

Eastern Owyhee Cooperative Weed Management Area (EOCWMA): Thanks to the support of the BRSCD (Bruneau River Soil Conservation District), the EOCWMA was formed and runs a program to control noxious weeds on private property within its boundaries that include about two thirds of the BRSCD. This program furnishes producers with chemicals to control noxious weeds on the Idaho Noxious Weed List. The producer is responsible for applying the chemical properly, reporting his time and equipment used, and the GPS coordinates of the area being sprayed. It is now time to be spraying puncture vine, pre-emerge and White top at the pre-bloom and early bloom stage. For more information about this program please call Duane La Fayette at 250-6007, or the BRSCD office at 845-2299.

Farm Reconstitutions

At FSA, farms are “constituted” to group all tracts having the same owner and the same operator under one farm serial number. When changes in ownership or operation take place, a farm reconstitution is necessary. If an owner or operator cannot agree about program participation, like in the case of the new ACRE program, then producers should inquire about a reconstitutions at the local FSA office.

The reconstitution—or recon—is the process of combining or dividing farms or tracts of land based on the farming operation. Remember, to be effective for the current year, recons must be requested by August 2, 2010 for farms enrolled in specific programs.
