6 Loan Rates

A Rates for Peanut Type

*--For the 2023 crop year, the loan rates are as follows.

Peanut	Support Rate Per Ton	Value Per 1 Percent of SMK
Runner	\$354.41	\$4.796
Spanish	\$344.27	\$4.772
Valencia	\$359.76	\$5.422
Virginia	\$359.76	\$4.892
National	\$355.00	

--*

The MAL value for peanuts will be calculated using the loan rates for each type of peanut regardless of the area where the peanuts are produced. Virginia peanuts will use the Virginia loan rate regardless of the percent fancy and Valencia peanuts will use the Valencia loan rate regardless of the percent cracked/broken and discolored.

Warehouse-stored loans involving Segregation 1 peanuts will be adjusted for the applicable premiums and discounts.

B Rates for Segregation of Peanuts

*--The MAL rate for Segregation 2 and 3 peanuts will be discounted to 35 percent of the 2023 NLR for the applicable type with no additional premiums and discounts.

Peanut Type	Seg. 2 & Seg. 3 Loan Rates Per Ton (No Additional Premiums or Discounts Apply)
Runner	\$124.04
Spanish	\$120.49
Valencia	\$125.92
Virginia	\$125.92

--*

7 Receipts Loan Value, Premiums, and Discounts

A Calculating Receipt Loan Value

The manner of calculating the receipt value of Segregation 1, warehouse-stored peanuts is the same as previous crop years to calculate the value per percent of total kernels. This is obtained by:

- adding the value of the total SMK, including SS, value of OK and value of ELK for Virginia peanuts.
- deducting the discounts for DK, excess FM, and Excess SS.
- adding the value of LSK.

See Exhibit 9 for an example of how the MAL rate is determined for a warehouse receipt of Segregation 1 peanuts. To determine the loan value for price support loan, the receipt value will **not** be reduced by the amount of unpaid storage through loan maturity.

B MAL's Premiums and Discounts

The MAL peanut premium and discount tables are shown in Exhibits 10 and 11. The rate for LSK's will be \$140 per ton (7 cents per pound), which is unchanged from the previous crop *--year. The ELK premium for Virginia peanuts is \$0.35 per percent, and the OK premium for all types of peanuts is \$1.40 per percent.--*

41 Warehouse Charges and Other Costs (Continued)

B In-Handling Charges and Grading and Inspection

The Agriculture Improvement Act of 2018 authorizes CCC to pay handling and other associated costs (other than storage) incurred at the time the peanuts are placed under MAL for the 2018 through 2023 crop years. In-handling charges will be paid to the storing warehouse **monthly** unless transmission is submitted after the month end cutoff, but prior to the third day of the month. It will then be a separate payment. Subsequently, the charges must be repaid when the MAL is redeemed.

Shellers/warehouses will receive a peanut load-in register each month. If you have * * *
 --specific questions related to load-in registers or a transaction listed, please contact the PMP Administrator according to subparagraph 2 C.--

* * *

Reimbursement for these charges will be processed through a direct deposit process. File the Direct Deposit Sign-Up Form, (SF-3881, ACH Vendor/Miscellaneous Payment Enrollment Form), see Exhibit 38. All new submissions or changes will need to be submitted using this form. If there are no changes, the previous direct deposit on file will remain in place. Provide all required information and have your financial institution complete and sign accordingly.

Note: New handlers **must** submit SF-3881 (Exhibit 38) prior to beginning the season to ensure timely payments.

Upon completion, scan and e-mail the SF-3881 to Nanteza Shakes by e-mail to **nanteza.shakes@usda.gov**.

41 Warehousing Charges and Other Costs (Continued)

B In-Handling Charges and Grading and Inspection (Continued)

*--The following table provides the 2023 crop approved rates.

State	Warehouse Charges and Grading and Inspection Rates
Alabama	\$37.50
Arkansas	\$37.50
Florida	\$35.70
Georgia	\$36.00
Mississippi	\$38.50
Missouri	\$37.50
New Mexico	\$36.00
North Carolina	\$37.10
Oklahoma	\$39.00
South Carolina	\$38.00
Texas	\$37.10
Virginia	\$37.95

--*

Note: The rates include **\$30** plus the initial grading and inspection fee as determined by the physical location of the buying point where the official farmer's stock inspection was conducted. Since the receiving rate in the table includes the cost for grading the peanuts, the cost of this service is the warehouse operator's responsibility and **must** be paid **timely** to AMS, FSIS from the receiving fees.

42 Warehouse Receipts

A General Warehouse Receipts Requirements for MAL's

For Price Support purposes each warehouse receipt should represent farmers stock peanuts inspected in the same state. Peanut warehouse receipts will be submitted to an approved CMA, DMA, or the FSA County Office for obtaining a warehouse-stored MAL. The AMS, Warehouse and Commodity Management Division/License and Storage Contract Branch is responsible for approving peanut warehouses used to store loan collateral peanuts.

Further, the buying point number must be entered on the warehouse receipt. Commodity Operations Division will issue additional instructions for warehouse receipts. A list of CCC approved warehouses can be viewed at

https://internet-dotnet.fsa.usda.gov/approved_whses/peanuts/approved_peanut_whses.asp.

All warehouse receipts must:

- represent eligible commodity actually stored in an authorized warehouse
- be a paper receipt, or EWR issued through an AMS-approved provider

Note: All receipts **must** have a valid CCC warehouse code.

- be negotiable, if paper receipt, or loanable, if EWR
- be issued to the eligible producer or CCC, as applicable, or in the case of loans made to CMA's, the receipt should be to issued to CMA
- be endorsed on the back by the producer, if receipt is paper
- for EWR's, CCC must be made holder of EWR
- show ownership, if commodity is owned by the warehouse operator, solely, jointly, or in common with others
- contain a statement that commodity is insured.

B Calculation of Warehouse Receipts (EWR's and Paper Receipts)

For 2020 and subsequent crop years, all warehouse receipts pledged for a MAL **must** be calculated using an **average** value of all FSA-1007's applicable to the receipt. See Exhibit 39 for an example of receipt calculation using average value.

42 Warehouse Receipts***--C Shrinkage Applied to Receipted Peanuts**

Shrinkage can be applied to peanut tonnage stored in approved warehouses and in which a warehouse receipt has been issued for marketing loan purposes.

Shrinkage can be applied:

- to both contracted and uncontracted peanuts
- by type
- as a flat percentage regardless of type
- to tonnage **before** the creation of the warehouse receipt.

Note: When applied to peanuts offered for loan, a statement showing that shrinkage has been applied must be added to the bottom of the warehouse receipt.

Shrinkage:

- is determined by the peanut handler
- must be listed on the warehouseman tariff.--*

Part 4 FSA-1007

50 Inspection Certificate and Calculation Worksheet**A SC-95, FSIS Inspection Note Sheet**

The initial report of inspection of farmers stock peanuts is reported on the SC-95. This SC-95 is designated for the inspection report and the inspector's signature, while the lower portion is designed to be used by the applicant. See Exhibit 6.

B FSA-1007, Inspection Certificate and Calculation Worksheet

FSA-1007 is the Inspection Certification and Calculation Worksheet. In 2005, the FSA-1007 template was developed and approved for use by FSA, PSD. FSA-1007 was enhanced to also include HMG conversion in Section II. FSA/AMS will continue the use of this form during the 2019 and subsequent crop years.

The results may be calculated and printed in dollars per ton or cents per pound when determining the value of the load. Copies will be distributed as follows:

- applicant
- FSIS
- *--seller--*
- AMS, if applicable
- other, if applicable.

The official results of farmer's stock inspection will be recorded in FSA-1007, Section I and require the signature of the FSIS inspector before transmission. Buying points will generate a corresponding FSA-1007 for each load of peanuts delivered and inspected. If the producer, handler/sheller, and buying point agree that the HMG process will be used, the converted HMG should be placed in the applicable grade factor categories of marketing in FSA-1007, Section II. See subparagraph F.

Important: Data on FSA-1007, Section I (Inspection Certificate - Farmers Stock Peanuts) must be identical to data on the SC-95 which is transmitted in the MP1 file (FSA-1007) to PMP-DC.

There will continue to be 3 categories on FSA-1007. **All** 3 categories are:

- commercial
- receipted
- unreceipted/stored.

50 Inspection Certificate and Calculation Worksheet (Continued)**B FSA-1007, Inspection Certificate and Calculation Worksheet (Continued)**

Commercial, receipted, and unreceipted/stored FSA-1007's **must** be transmitted **daily** to the PMP-DC. **Only the FSA/AMS officially assigned and issued FSA-1007 serial numbers** ***--should be used.** The 2023 FSA-1007 serial numbers will begin with the number "3". If--* additional numbers are needed, contact your State FSIS Office.

It is imperative that all data be transmitted to the PMP-DC is timely, for reporting purposes, accordingly a designation of marketing should be made within 72 hours and SC-95's should not be held.

Note: State FSIS offices will report the assigned FSA-1007 numbers and applicable buying points with associated sheller within 14 days after assignment.

C Handling and Buying Point Software

Handler/buying point software must **not** allow any changes to be made to the FSA-1007 after printing all of the applicable copies. Any changes or corrections would require a new FSA-1007 to be issued and the appropriate void or superseded FSA-1007 to be logged in the MP1 file for the applicable record. To void or supersede FSA-1007 must have prior approval and signature by a FSIS inspector. The proper applicant name and FSA issued handler number should be printed on the FSA-1007 in the applicable applicant name and number section.

All handlers/shellers and buying points are **required** to use the FSA developed template form or a like version which **must** be approved by PSD. All FSA-1007's that will be used for 2019 and subsequent crop years must be approved by PSD prior to use. **Only** submit new, changed, or enhanced FSA-1007's for approval.

All copies of the approved FSA-1007 will need to be signed by the Federal State Inspector prior to transmission to the PMP-DC, if the authentication program is not in use in the state where the FSA-1007 is completed.

Important: Handler/buying point software should include a warning/block to prevent the use of FSA-1007 numbers not issued to a buying point location. **Only** FSA-1007 numbers issued to a buying point by FSIS **must** be used at that location.

58 Federal State Inspection Service**A SC-95 FSIS - Peanut Inspection Note sheet**

AMS and FSIS will use the SC-95 to record the results of an official farmer's stock peanut inspection. Handlers using the electronic grading system should follow the guidelines issued *--by AMS and FSIS. The lead alpha character for the 2023 crop SC-95 will be "H", as--* applicable.

Note: If the HMG process will be used at any buying point location, the producer or the designee, before beginning the official inspection, **must** inform the Federal State Inspector if the load of peanuts is to be graded under the HMG process.

Exception: No Valencia peanuts will be graded using the HMG process. Further, if SMK grade is less than 60 percent, the HMG charts should not be used.

Instructions to First Handlers for 2019 and Subsequent Year Crop Collections for the National Peanut Board Research and Promotion Assessment (Continued)

Provisions and invoice procedures for late penalty fees

USDA mandates that the interest calculation begin with the first month the assessment was late regardless of when the assessment is received. For example, if peanuts were purchased on the first of the month, the purchaser has 60 days from the first day of the next month to forward any assessments. Similarly, if peanuts were purchased on the 20th of that month, the first handler would still have 60 days from the first day of the next month to forward assessments.

Section 1216.51 (g) of the Peanut Promotion, Research, and Information Order authorizes the NPB to impose a late payment fee in the form of interest on anyone who fails to remit the assessment in a timely manner. Specifically, a late fee will be charged against any assessments received by NPB more than 60 days after the last day of the month in which they were marketed, a 15-percent annual interest fee (1.25 percent per month) accrues on all late payments. By the direction of the peanut promotion order, NPB must forward an invoice for the penalty to the first handler upon receipt of a late assessment.

*--Following is an example of a late payment calculation fee for peanuts marketed in October 2023.

Description	Fee
Assessment due on or before December 31, 2023	\$1,000.00
Late payment fee if not paid by December 31, 2023	\$12.50
Late payment fee if not paid by January 31, 2024	\$12.50
Total due if paid by January 31, 2024 (1 month late)	\$1,012.50
Total due if paid by February 28, 2024 (2 months late)	\$1,025.00
