Note: Eligible producers who did not plant or own trees will not be eligible for TAP payments for replanting practices.
TAP Practice Completion and Expiration

A Practice Completion

Eligible owners are required to replant and rehabilitate only the qualifying eligible trees, bushes, or vines, on that portion where they seek payment. All practices must be completed, and actual cost receipts provided on each stand before payments can be issued.

B Practice Expiration

Eligible owners must complete approved replacement and rehabilitation practices within 12 months from the date CCC-899 is approved for payment by COC or designee. If an applicant is unable to complete the approved practice within 12 months from the date CCC-899, Part E is approved, STC’s may grant an extension of up to 1 additional year. All practice request extensions must be requested by the applicant in writing prior to the established practice completion date.

Note: If the producer still cannot complete the practice within the 1-year STC extension, the State Office must submit the request to DAFP along with supporting documentation, such as COC minutes, weather data, etc., indicating reasons why the practices could not be completed within the allotted time, and the timeframe required for practice completion.

C Replanting Different Eligible Trees, Bushes, or Vines

When eligible trees, bushes, or vines are replanted, the eligible tree, bush, or vine:

• types planted may be different than types lost as long as the new eligible trees, bushes, or vines have the same general end use, as determined by COC

Note: Payments to eligible owners who replant different eligible trees, bushes, or vines will not exceed the established maximum payment rates to re-establish the eligible trees, bushes, or vines that were actually lost, as determined by COC.

• types planted may be replanted on the same farm in a different location than the lost stand.

If applicant chooses to replant different eligible trees, bushes, or vines than those initially lost, CCC-889, Part F must reflect the new crop, applicable practice codes, trees and/or acres completed, and actual cost.

Example: CCC-899, Part B indicates a loss of 500 orange trees on 3 acres in stand number 344 on September 12, 2020. COC determines applicant is eligible for practice codes 01, 02, 10, 11, and 14.

On August 1, 2021, applicant visits the County Office to report practice completion. Applicant reports their decision to replant blueberry bushes instead of oranges.
