Part 1 Basic Information

1 Handbook Purpose, Related Handbooks, and Source of Authority

A Handbook Purpose

This handbook provides instructions for using the 2014 and future year web-based ARCPLC software.

B Related Handbooks

Handbooks related to the ARCPLC software include the following.

IF question is about...	THEN see...
acreage determinations	2-CP.
administering the ARC and PLC Program	1-ARCPLC.
appeals	1-APP.
assignments and joint payees	63-FI.
constitution of farms and maintaining farm, tract, and crop data through maintenance	10-CM.
equitable relief	7-CP.
HEL and WC provisions	6-CP.
information available to the public	2-INFO.
payment limitations and subsidiary files	5-PL.
payment reductions and violations	4-CP.

web-based subsidiary files	3-PL.

C Sources of Authority

Authority for the 2014 through 2018 ARC and PLC Program is mandated by the Agricultural Act of 2014 (Pub. L. 113-79) and 7 CFR Part 1412.

2-5 (Reserved)

Part 2 ARCPLC Software**6 Overview****A Basic Information**

ARCPLC software is intuitive web-based software with a centralized database. CCC-861 and CCC-862 will be updated by:

- County Office employees
- State Office employees that have been granted access to ARCPLC.

All State and County Office employees that have access to ARCPLC software will be able to load CCC-861 or CCC-862 for any customer nationwide. FSA customers with Internet access and eAuthentication Level 2 security access can load CCC-861's or CCC-862's for all farms to which they are linked. See Part 2 for additional information.

Note: Producers with eAuthentication Level 2 security access, and a representative role established in RLMS, have the ability to view and modify CCC-861's or CCC-862's on behalf of the producer they represent.

ARCPLC software will read farm and tract maintenance files.

B Definitions

In this part, user means County Office employees and producers **except** where specifically noted.

Home county means administrative county in the web-based environment.

Subsection 1 ARCPLC Software Access

11 Access to the ARCPLC Web Site

A Accessing the ARCPLC Web Site

To access the ARC/PLC Main Menu, go to FSA's Applications Intranet web site at <http://fsaintranet.sc.egov.usda.gov/fsa/applications.asp>. From the FSA Intranet Screen, under "FSA Applications", "Applications Directory", CLICK "A-C". The FSA Intranet Screen will be redisplayed with applications with names starting with A to C. CLICK "ARC/PLC Contract".

Note: Internet Explorer shall be used when accessing ARCPLC software.

The ARC/PLC Login Screen will be displayed.

B ARC/PLC Login Screen

After users click "ARC/PLC Contract", the following ARC/PLC Login Screen will be displayed. CLICK "ARC/PLC Login" to continue.

Users will be prompted to login through the USDA eAuthentication Login Screen. Click "**Login with LincPass (PIV)**" or enter user ID and password and CLICK "**Login**".

12 State, County, and Year Selection

A Overview

To access nationwide customer service, from the left navigation menu under “Sign-Up”, CLICK “**Nationwide Customer Service**”. When users are logged in and have been authenticated, users **must** select a State, county, and program year to process CCC-861 or CCC-862 in the home county. This provides **all** users nationwide the ability to create and load CCC-861’s or CCC-862’s for **any** producer. See paragraph 49 for more information on nationwide customer service access.

Subsection 4 CCC-861 and CCC-862 Modifications**38 CCC-861's and CCC-862's Automatically Canceled When Farm Maintenance is Modified****A Overview**

ARCPLC software reads farm and tract records for base acres, PLC yields, OP's, OT's, and OW's. CCC-861's and CCC-862's will be **automatically** canceled if any of the following are changed in the Farm Records system:

- DCP cropland, if reduced below the farm level base acres
- farm level base acres
- farm level PLC yield with base acres greater than zero
- OP's
- OT's, with shares greater than zero for CCC-861's or with a signature type present for CCC-862's.
- OW's.

Note: Adding OT to a farm will **not** automatically cancel CCC-861.

B Action

County Offices shall:

- initiate new CCC-861 or CCC-862
- obtain applicable producers signatures
- provide new CCC-861's or CCC-862's to COC for approval.

C Report

A report to identify CCC-861's and CCC-862's that have been canceled is provided on the Reports Menu. "Farm Record Modification" will be listed as the cancel reason. See paragraph 51.

39 Business Partner Changes

A Overview

ARCPLC software reads SCIMS for customer information. SCIMS is populated based on data entered or modified in Business Partner. Changes to customer data in Business Partner may affect CCC-861 and CCC-862. These changes include, but are **not** limited to, the following:

- ID number changes
- duplicate resolutions.

B ID Number Changes

ID numbers shall be corrected in Business Partner.

CCC-861's and CCC-862's will **not** be automatically updated with a corrected ID number. Do **not** update CCC-861's and CCC-862's with a corrected ID number. ARCPLC does **not** use ID numbers as a basis for issuing payment.

C Duplicate Resolutions

CCC-861's and CCC-862's **may** be automatically canceled when a duplicate record is resolved by the State security officer and the customer being resolved is associated with CCC-861 and CCC-862.

If CCC-861 or CCC-862 is canceled, County Offices **must** re-access CCC-861 or CCC-862 to reenter share (if applicable), signature, and payment selection.

39 Business Partner Changes (Continued)**D Entity Using Individual's SSN Changes to Business Using EIN**

When an entity that is using an individual's SSN receives an EIN from IRS, the BP record for the entity using SSN is maintained and a new record is added in BP for the entity using EIN. Therefore, both the entity using SSN and the business using EIN will be maintained in Business partner.

CCC-861's and CCC-862's associated with the business using the individual's SSN, may need to be updated to the business using an EIN. If it is necessary to correct CCC-861 or CCC-862, County Offices **must** take the following action:

- access current year farm records
- remove the entity using individual's SSN from all applicable farms.

Notes: Current year CCC-861's and CCC-862's will be automatically canceled because of farm record modifications and receivables will be automatically created for entity using individual's SSN. Follow existing FI policy to satisfy the receivable for entity using individual's SSN, as follows:

- add the entity using an EIN to any applicable farms
- access current year CCC-861's and CCC-862's
- reenter share (if applicable), signature, and payment selections.

Signature **must** still meet 1-ARCPLC signature rules.

ARCPLC payments will be processed for an entity using EIN when CCC-861 and/or CCC-862 contain an approval date.

40 Approve Contracts Screen

A Overview

Users can either enter:

- the same approval date for multiple CCC-861's or CCC-862's
- approvals by specific farm number on the Summary by Producer Screen, Summary by Crop Screen, or ARC-Individual Summary Screen.

Note: This option will only display farms that have already been enrolled.

To access the multiple CCC-861's or CCC-862's approval process, from the navigation menu under "Sign-Up", CLICK "**Approve Contracts**".

B Example of the Approve Contracts Screen

Following is an example of the Approve Contracts Screen.

The screenshot displays the 'Approve Contracts' screen within the USDA Farm Service Agency's ARC/PLC Signup system. The interface includes a top navigation bar with links like 'ARC/PLC Home', 'About ARC/PLC', 'Help', 'Contact Us', 'Exit ARC/PLC', and 'Logout of eAut'. A left-hand menu lists various actions such as 'Welcome:', 'Role: Admin', 'Sign-Up', 'State County Selection', 'Search Selection', 'Update Signatures', 'Approve Contracts', 'CCC Representative', 'Electronic Approval', and 'Cancel Contract'. The main content area is titled 'Approve Contracts' and features search filters for 'Program Year: 2014', 'State: Missouri(29)', and 'County: Johnson(101)'. Below these filters is a table with columns for 'Farm Number', 'Operator', and 'Approval Date'. The table lists three farms with farm numbers 0, 7, and 9, all with operator 'TEST AFORP1' or 'TEST N4PFULL1'. Each row has a checkbox labeled 'Apply to Contract'. At the bottom of the table are buttons for 'New Search', 'Select All', 'Clear All', and 'Approve'.

Clear All	All CCC-861's or CCC-862's that have been selected to be included in the multiple CCC-861 or CCC-862 approval will be deselected.	
Approve	Applies the entered approval date to all CCC-861's or CCC-862's that have been selected. Search Selection Farm Screen will be displayed.	

41 CCC Electronic Approval Screen

A Overview

CCC-861's and CCC-862's can be electronically approved. To access the CCC electronic approval process, from the navigation menu under "Sign-Up", CLICK "**CCC Representative Electronic Approval**".

All County Office employees have access to the CCC electronic approval process; however, **only employees designated to approve CCC-861's and CCC-862's shall access and electronically approve CCC-861's and CCC-862's**. No paper COC approval signature is required if this option is taken.

The approving official's name will be printed in the CCC representative signature block and the system date will be entered for the approval date.

Note: This option will only display farms that have already been enrolled.

*--46 Generic Share Override Screen

A Overview

An alternative enrollment option for contract years 2014 and 2015 for farms with generic base acres was available according to 1-ARCPLC, Part 8.5. The alternate option was based on producer agreement and not from attribution using FSA-578 shares. Users must override the generic attributed shares on CCC-861 in the automated system on contracts that used this alternative enrollment option. To override generic shares, from the left navigation menu under “Sign-Up”, CLICK “**Generic Share Override**”. Users will search by farm number or producer name.

*--47 Physical County Payment Share Selection Screen

A Overview

A waiver of the administrative county method of determining ARC-CO eligibility for 2014 or 2015 program year is available according to 1-ARCPLC, Part 8. The effect of the waiver is to calculate the farm's 2014 and/or 2015 ARC-CO benchmarks, guarantees, and actual revenues based on the physical location of a tract(s) as determined by FSA, weighted for each tract's base acres of the covered commodity (including any attributed base acres). The weighted revenues will then be summarized at the farm level to determine if an overall revenue shortfall occurred for each covered commodity on the administrative farm that is enrolled in ARC-CO. Users will need to set a physical county override for all farms granted this waiver and record the physical location of the base acres on the contract by the physical location. To set the physical location of the base acres, from the left navigation menu under "Sign-Up", CLICK **"Physical County Override"**. Users will search by farm number or producer name on the Physical County Override Screen before being taken to the Physical County Payment Share Selection Screen.

E Physical County Payment Share Selection Screen Options -Generic Attributed Base Acres (Continued)

Field/Button	Description	Action
Generic Attributed Base Acres	Displays the loaded generic base acres, the total will update as the user enters values.	Enter total attributed base acres by physical county
Calculate % of Base Acres	Displays the loaded base acres by physical location as a percentage.	
HIP %	This field will only be displayed if the crop county combination of an added physical county is HIP eligible and the administrative location of the contract is not. Note: If the administrative location of the county crop is HIP eligible, the HIP value will be pulled from the Farm Records System and applied to all counties.	Enter HIP percentage value between 0-100 in whole numbers when applicable.
Remove Physical Payment Election	This will remove the prior recorded physical county override. The contract will return to be paid based on the administrative location of the farm and not the physical location of the tracts.	CLICK "Remove Physical Payment Election".

--47 Physical County Payment Share Selection Screen (Continued)*F Search Contract Screen Error Messages**

The following error message may be displayed on the Physical County Override Screen. Users **must** correct these conditions before proceeding to the next applicable page.

Error Message	Description	Corrective Action
No ARC-CO Contract Found	There are no crops with an ARC-CO election on the farm number or producer that was searched.	Revise search criteria.
Total Contract Base Acres should match Crop Base Acres for XXX(Crop)	The total base acre value loaded for the identified crop does not equal the total base acres for that crop on the farm.	Revise contract base acre values to match the total contract base acres in the farm.
Total Attributed Base Acres should match Crop Attributed Base Acres for XXX (Crop) on Generic Attributed Base Acres screen.	The total base acre value loaded for the identified crop from CARS does not equal the total attributed base acres for that crop on the farm.	Revise generic attributed base acre values to match the total attributed acres for that crop.

G Impact of Contract and CARS Changes to the Physical County Payment Share

If an ARC/PLC contract is canceled in the web application either by the user or because changes in the Farm Records Systems, the physical county waiver designation and details will be removed. Users will need to reload the physical county details if the contract is reapproved and the waiver is still applicable.

For contracts with generic base acres attributed, if a change is made to the farm's FSA-578 in CARS to either remove, add, increase, or decrease the acres of any covered commodity, the physical county waiver for payment shares will be removed. If still applicable the user will need to reload the waiver and record the necessary adjustments to attributed base acres.

If the contract with generic base acres has the generic shares override applied according to paragraph 46, the crops displayed for generic attribution will be based off the loaded generic shares and not the FSA-578 in CARS. If subsequent changes are made to FSA-578 in CARS both the physical county payment shares and generic share override will be removed.--*

Subsection 5 Additional Information

49 Nationwide Customer Service State and County Selection Screen

A County Office User Access

ARCPLC software provides nationwide customer service for County Office users. County Office users have the ability to load and access CCC-861's or CCC-862's for any producer nationwide. This is extremely beneficial for travelers, absentee landowners, etc. County Office employees loading nationwide CCC-861's or CCC-862's have limited authority.

To access nationwide customer service, from the left navigation menu under "Sign-Up", CLICK "**Nationwide Customer Service**".

B Example of the Nationwide Customer Service State and County Selection Screen

Following is an example of the Nationwide Customer Service State and County Selection Screen.

The screenshot displays the ARC/PLC Signup interface. At the top, the USDA logo and "United States Department of Agriculture Farm Service Agency" are on the left, and "ARC/PLC Signup" is on the right. A navigation bar includes links: "ARC/PLC Home", "About ARC/PLC", "Help", "Contact Us", "Exit ARC/PLC", and "Logout of eAut". On the left is a vertical "ARC/PLC Menu" with options: "Welcome:", "Role: Nation Wide", "Sign-Up" (highlighted), "State County Selection", "Search Selection", "Update Signatures", "Approve Contracts", "CCC Representative Electronic Approval", "Cancel Contract", "Reports", "Producer Violations", "Email Address", "Nationwide Customer Service", "Blank CCC-861", and "Blank CCC-862". The main content area is titled "Nationwide Customer Service State and County Selection". It contains three dropdown menus: "Program Year:" with "2015" selected, "State:" with "----SELECT----", and "County:" with "----SELECT----". A "Submit" button is located below these fields.

49 Nationwide Customer Service State and County Selection Screen (Continued)

C Nationwide Customer Service State and County Selection Screen Options

The following table provides the field descriptions and actions on the Nationwide Customer Service State and County Selection Screen.

Field/Button	Description	Action
Program Year	Drop-down list with program years.	Select the applicable program year.
State	Drop-down list with State names.	Select the applicable State. Only 1 State can be selected at a time.
County	Drop-down list with county names applicable to the State selected.	Select the applicable county. Only 1 county can be selected at a time.
Submit	Search by Selection Screen will be displayed.	

D Search Selection Screen

To switch to the home county, from the left navigation menu under “Sign-Up”, CLICK “**Home Counties**”.

Search Selection Screen functionality for nationwide customer service is the same as when CCC-861’s or CCC-862’s are being loaded in the home county. See paragraph 13 for searching by producer or farm number. After a farm has been selected, the Contract Signup Screen or the Individual Producer Screen will be displayed.

E Contract Signup Screen

Contract Signup Screen functionality for nationwide customer service is the same as when CCC-861’s or CCC-862’s are being loaded in the home county. See paragraph 16. Based on the actions taken on the Contract Signup Screen, 1 of the following screens will be displayed:

- Individual Producer Screen
- Summary by Crop Screen
- Summary by Producer Screen.

49 Nationwide Customer Service State and County Selection Screen (Continued)**F Individual Producer Screen**

Individual Producer Screen functionality for nationwide customer service is the same as when CCC-861's or CCC-862's are being loaded in the home county. See paragraph 21 for ARC-CO and paragraph 31 for ARC-IC.

G Summary by Producer Screen

Summary Producer Screen functionality for nationwide customer service is the same as when CCC-861's or CCC-862's are being loaded in the home county, **except** as follows:

- enrollment date **cannot** be loaded
- approval date **cannot** be entered
- CCC-861's or CCC-862's **cannot** be canceled.

All of these activities **must** be done in the producer's home county, See paragraph 22 for Summary by Producer Screen functionality.

H Summary by Crop Screen

Summary by Crop Screen functionality for nationwide customer service is the same as when CCC-861's or CCC-862's are being loaded in the home county, **except** as follows:

- enrollment date **cannot** be loaded
- approval date **cannot** be entered
- CCC-861 **cannot** be canceled.

All of these activities **must** be done in the producer's home county. See paragraph 23 for Summary by Crop Screen functionality.

I County Office Action

County Offices that process nationwide customer service CCC-861's or CCC-862's **must**:

- immediately FAX or e-mail a copy of the signed CCC-861 or CCC-862 to the producer's home county
- mail the original signed CCC-861 or CCC-862 to the producer's home county
- maintain a copy of the signed CCC-861 or CCC-862.

50 Contract Change Detected Screen After Enrollment

A Overview

ARCPLC software is designed to identify changes made to CCC-861 or CCC-862 after the enrollment date has been entered. The enrollment and approval, if applicable, will be removed when any of the following changes are made to CCC-861 or CCC-862:

- shares change on CCC-861
- signature type or date changed on CCC-861 or CCC-862
- enrollment date is changed.

When a change is detected, the Contract Changed Detected Screen will be displayed with the message, “We have detected this contract for Farm XXXX is currently enrolled and the contract has been modified. The enrollment date and/or approval dates need to be modified.”

B Example of the Contract Changed Detected Screen

Following is an example of the Contract Changed Detected Screen.

The screenshot displays the ARC/PLC Signup interface. At the top left is the USDA logo and text: "United States Department of Agriculture Farm Service Agency". At the top right is the title "ARC/PLC Signup". Below this is a navigation bar with links: "ARC/PLC Home", "About ARC/PLC", "Help", "Contact Us", "Exit ARC/PLC", and "Logout of eAuth". On the left is a sidebar menu titled "ARC/PLC Menu" with options: "Welcome:", "Role: Admin", "Sign-Up", "State County Selection", "Search Selection", "Update Signatures", "Approve Contracts", "CCC Representative Electronic Approval", "Cancel Contract", "Reports", and "Producer Violations". The main content area has a blue header "Contract Changed Detected". Below this, it shows "Program Year: 2014", "State: Missouri(29)", and "County: Johnson(101)". A red message states: "We have detected this contract for Farm 7 is currently enrolled and the contract has been modified. The enrollment date and/or approval dates need to be modified." At the bottom are two buttons: "Modify Contract Dates" and "Submit Initiated Contract".

Section 2 State Office Access**55 State Office Access to ARCPLC Software****A Requesting Web-Based ARCPLC State Office Administrative Access**

State Office administrative access will be granted based on the office location tied to the user's EAS account.

To add or remove ARCPLC access for State level administrative access, FSA-13A **must** be completed to add the OIP Access Code for “All Counties” to each user’s profile in the ERSR system.

55 State Office Access to ARCPLC Software (Continued)

B Adding DD as a State User

In many States, DD is **not** a “State User” in the ERSR system. For the administrative access granted according to subparagraph A to be valid, each DD **must** be given access by adding the OIP Access Code, “All Counties”, to each user’s profile in the ERSR system.

To obtain this access, FSA-13-A **must** be submitted to SLR.

Important: FSA-13-A, item 18 **must** be completed to obtain access.

After FSA-13-A is approved, SLR shall:

- access the ERSR system
- find and click employee’s name
- CLICK “**Extensible Authorization System (EAS)**”
- enter employee’s eAuthentication user ID and highlight “*OIP Office Codes”, “**104795 - All Counties**” as displayed in the following example
- CLICK “**Done**”
- CLICK “**Submit**”.

The screenshot displays the ERSR system interface. On the left, a sidebar contains links: View Requests, View User Info, New Employee, Contact Info, ERSR Help, and Logoff. Below these are buttons for Actions: Done, Cancel, and Reset. The main content area shows a message about revoking roles for a user, followed by a link to 'EAS Roles, OIP Codes and Attributes (PDF)'. Below this, there is a field for '*Employee eAuth ID:' with the value 'AB123456' and a link for 'EAS Roles Descriptions (PDF)'. A section titled 'Select a User ID:' shows a dropdown menu with 'AB123456' selected, followed by the name 'Brown, Adam'. Below this, there are two columns: '*EAS Roles' and '*OIP Office Codes'. The '*EAS Roles' column lists various roles like 'app.fsa.agcredit.admin', 'app.fsa.cdp.state', etc. The '*OIP Office Codes' column lists codes like '104795 - All Counties', '104795 - Clarke', etc. At the bottom, a note states: 'A full listing of OIP codes can be found on the FSA intranet here' with a link to 'http://intranet.fsa.usda.gov/fsa/Files/StateCountyNameAddressListing.pdf'.

55 State Office Access to ARCPLC Software (Continued)

C Accessing ARCPLC Software Overview

State Office users shall access ARCPLC software according to paragraph 11. After entering an eAuthentication user ID and password, and clicking “Login”, the State User State and County Selection Screen will be displayed.

Note: If a State user has a dual County Office and State Office role they will see the counties associated to their profile on the State and County Selection Screen. State users with only a State role will need to select the “**State Menu**” at the bottom of the screen.

D Example of “State Menu” Selection

The following is an example of the State and County Selection Screen indicating where users may click “State Menu”.

The screenshot displays the ARC/PLC Signup interface. At the top, the USDA logo and 'United States Department of Agriculture Farm Service Agency' are on the left, and 'ARC/PLC Signup' is on the right. A navigation bar below contains links: ARC/PLC Home, About ARC/PLC, Help, Contact Us, Exit ARC/PLC, and Logout of eAuth. On the left, an 'ARC/PLC Menu' sidebar lists: Welcome, Role: County, Sign-Up, Blank CCC-861, Blank CCC-862, Appendix, Nationwide Customer Service, and a circled 'State Menu' link. The main content area features a yellow warning icon and the message 'No county office Id found for this user.' Below this is a 'State and County Selection' section with a 'Program Year' dropdown set to 2015 and a 'State-County' dropdown. A 'Submit' button is positioned below these fields. At the bottom, it shows 'Screen ID: ArcSignupWebApplication-Web-2' and 'Last Modified: 04/24/2015'. A 'Back to Top' link is in the bottom right. The footer contains a series of links including 'ARC/PLC Home', 'State Menu' (circled), 'Admin Menu', 'FSA Internet', 'FSA Intranet', 'USDA.gov', 'Site Map', 'Policies and Links', 'FOIA', 'Accessibility', 'Privacy', 'Non-Discrimination', 'Information Quality', 'USA.gov', and 'White House'.

State Summary	Select report.	Report will be displayed with a summary count of CCC-861's or CCC-862's that are initiated, enrolled, approved, canceled, and have electronic signatures for each county in the State.

57 Nationwide Customer Service, for State Office Users**A Overview**

ARCPLC software provides nationwide customer service for State Office users. State Office users have the ability to load and access CCC-861's or CCC-862's for any producer nationwide. State Office users loading nationwide CCC-861's or CCC-862's have limited authority.

B Accessing Nationwide Customer Service

To access nationwide customer service, from the left navigation menu under "Sign-Up", CLICK "**Nationwide Customer Service**". The Nationwide Customer Service State and County Selections Screen will be displayed. See paragraph 49 for additional information.

*--58 State Override

A Overview

State Office users have the ability to record contract enrollment dates and approval dates for contracts that are being enrolled with less than 100 percent share. These contracts must meet the exception in 1-ARCPLC, subparagraph 202 C. To record contract enrollment and approval dates of less than 100 percent, from the left navigation menu under “Sign-Up”, CLICK “State Override On/Off”.

Once the State Office user has selected “State Override On/Off” the indicator under the user’s name in the ARC/PLC Menu in the left navigation menu will be updated to display the current status of “On” or “Off”.

With the indicator to “On” users will search for a contract on this screen and record contract enrollment and approval dates according to paragraph 43.

To record shares of less than 100 percent, State Office users must ensure the following items are correct in the software.

Step	Action
1	Ensure contract shares are loaded for all producers that signed CCC-861.
2	Ensure signature types and dates are loaded for all producers that signed CCC-861.
3	Ensure contract shares are removed for all producers that did not sign CCC-861.
4	If the farm has generic attributed base acres shares, select the applicable refused payment flag for all producers that did not sign the CCC-861.

ARC-CO Yields**A Overview**

The ARC-CO program relies on county yields for the payment calculation of each crop in the county. County yields are needed to calculate the ARC-CO benchmark and actual revenue. A county yield is computed by calculating the crop year production of a covered commodity divided by the commodity's total planted acres in that crop year.

In determining the yield for a county, FSA uses data, in order, from the following data sources to determine yields:

- NASS
- RMA
- yields calculated by STC's.

In certain situations, NASS or RMA county yield data is not available to establish the actual year yield according to 1-ARCPLC, subparagraph 121 D.

Once those STC yields are determined they must be loaded into the ARC/PLC Contract application for use in the payment process. State Offices will only be responsible for loading STC determined yields, NASS and RMA values as determined by EPAS will be loaded by other methods.

A list of required ARC-CO county and crop entries, as well as a list of the NASS and RMA loaded yields, will be provided to the State Office by the National Office. Once this list is provided, State Office users will see the option available in the ARC/PLC application to complete the loading of the STC determined yields.

State Office users will only have the ability to add a yield for a crop that is not currently present or modify a yield in a pending status. Users will not be able to modify any yield in an approved status. If it is determined that an approved yield is incorrect, the State must contact the National Office.

The ARC-CO Yields Loading Screen can only be accessed by State Office users according to paragraph 55. To access the ARC-CO yields, from the navigation menu under "Sign-Up", CLICK "**Yields**".--*

Section 3 Producer Access

Subsection 1 eARCPLC Software Access

61 Producer Access to eARCPLC

A Overview

eARCPLC allows producers to enroll in ARC-CO, ARC-IC, and PLC online. Producers can choose payment options, assign crop shares, and sign and submit their CCC-861's or CCC-862's from any computer with Internet access. Producers **no** longer have to travel to their local FSA office to complete these tasks and can view and print submitted CCC-861 or CCC-862 options at any time.

The eARCPLC voluntary service:

- is available to all producers who are eligible to participate in ARC-CO, ARC-IC, or PLC
- is offered as an additional ARC-CO, ARC-IC, or PLC enrollment option

Note: Producers can still complete CCC-861's and CCC-862's in person at the County Office.

- does **not** alter any ARC and PLC Program provisions.

Example: For a farm to be enrolled in ARCPLC, **all** OW's and producers with a share on the farm **must** sign CCC-861 or CCC-862, as applicable.

B eARCPLC Benefits

The easy-to-use eARCPLC software offers many advantages for ARC-CO, ARC-IC, and PLC participants as follows:

- provides maximum flexibility to complete CCC-861's and CCC-862's, 24 hours-a-day, 7 days-a-week
- eliminates or reduces travel time to the County Office
- reduces paperwork
- offers quick access to CCC-861's and CCC-862's and other ARCPLC information
- speeds up processing time at County Offices
- maintains all data in a central location
- protects private information through strict security measures.

61 Producer Access to eARCPLC (Continued)**C Obtaining eAuthentication Accounts**

To use the eARCPLC software, a producer **must** have an active USDA eAuthentication Level 2 account. This account allows producers to complete online transactions and, if they choose, to electronically sign CCC-861 or CCC-862. To obtain an eAuthentication account, producers shall:

- complete the online registration form located at <http://www.eauth.usda.gov>
- visit their local County Office for identity verification.

If the producer has previously completed these steps, **no** action is needed.

D Accessing eARCPLC

--Producers access eARCPLC by going to <http://www.fsa.usda.gov/online-services/index>.--
The Online Services Screen will be displayed.

Producers shall CLICK:

- “**Electronic ARC/PLC Program (eARC/PLC) Service**” and the eARC/PLC Online Services Screen will be displayed
- “**Access eARC/PLC Service**” and the USDA eAuthentication Warning Screen will be displayed
- “**Continue**” to proceed or “**Cancel**” to end the process.

If users click “Continue”, the USDA eAuthentication Login Screen will be displayed. Producers **must**:

- enter eAuthentication user ID
- enter eAuthentication password
- CLICK “**Login**”.

62 CCC-861 and CCC-862 Appendix

A Overview

Immediately after a producer's eAuthentication information has been accepted, the CCC-861 and CCC-862 Appendix will be displayed.

B Accepting CCC-861 and CCC-862 Appendix Terms and Conditions

The producer **must** accept the terms and conditions contained in the CCC-861 and CCC-862 Appendix **before** continuing into the eARCPLC software. By electronically completing and signing CCC-861 or CCC-862, producers:

- acknowledge receiving the CCC-861 and CCC-862 Appendix
- agree to abide by the CCC-861 and CCC-862 Appendix terms and conditions.

C Example of CCC-861 and CCC-862 Appendix Acceptance

The following is an example of the bottom of the displayed appendix where producers **must** CLICK "**Accept**" after reading the terms and conditions.

11 PROJECTED PRICES AND OTHER RELEVANT MATERIAL

Additional information referenced by this appendix regarding the programs, including, but not limited to average and projected prices and market year average prices and national loan rates can be found at:

Enter share from 1 to 100 percent with 2 decimal places, if needed. Example: Producers A and B share 33 1/3 and 66 2/3 percent. Shares would be loaded as 33.33 and 66.67 percent. Shares for all crops must equal 100 percent before the farm can be enrolled or approved.
Base Acres	Base acres associated with each crop.	
PLC Yield	PLC yield associated with each crop	
Election	Election associated with each crop.	
Producer Signatures	If a producer signs electronically, ARCPLC software will update the producer signature block.	All other signature types must be updated by the County Office. Producer shall click checkbox to electronically sign CCC-861 or CCC-862.

Subsection 4 Additional Information**91 Producer Notifications****A Overview**

If the producer clicks the checkbox to electronically sign CCC-861 or CCC-862 and clicks “Submit”, the producer will receive an automatic e-mail notification to the e-mail address on file in MIDAS Business Partner that CCC-861 or CCC-862 has been received in the County Office.

B Example of an E-mail Received by the County Office

Following is an example of the e-mail that will be received by the producer when CCC-861 or CCC-862 is submitted:

“The 201X (ARC/PLC) contract you submitted for farm number XXXXX through USDA eARC/PLC has been received.

If you have any questions concerning this contract, please contact the XXXXX County FSA Office. Please do **not** reply to this e-mail.”

The producer will also receive an automatic e-mail notification to the e-mail address that is on file in SCIMS when CCC-861 or CCC-862 that was electronically signed is approved by the County Office.

Following is an example of the e-mail that will be received by the producer when the electronically signed CCC-861 or CCC-862 is approved:

“The 201X (ARC/PLC) contract you submitted for farm number XXXXX through USDA eARC/PLC has been approved.

If you have any questions concerning this contract, please contact the XXXXX County FSA Office. Please do **not** reply to this e-mail.”

--Part 4 ARC and PLC Payment Provisions*Section 1 Program Payment Provisions****250 General Provisions****A Introduction**

This part contains the following:

- general provisions applicable to ARC and PLC payments
- provisions for processing ARC and PLC payments and overpayments
- information about the following Common Payment Reports:
 - Estimated Calculated Payment Report
 - Submitted Payments Report
 - Submitted Overpayments Report
 - Pending Overpayment Summary Report
 - Pending Overpayment Report
 - Nonpayment/Reduction Report
 - Failed Obligations / Insufficient Funds Report
 - Payments Computed to Zero Report
 - Payment History Report - Summary
 - Payment History Report - Detail.

B Obtaining FSA-325

FSA-325 shall be completed, according to 1-CM, by individuals or entities requesting payments **earned** by a producer who has died, disappeared, or been declared incompetent subsequent to applying for program benefits. Payments shall be issued to the individuals or entities requesting payment using the deceased, incompetent, or disappeared producer's ID number.

Note: If CCC-861 or CCC-862 has been filed by the producer, a revised CCC-861 or CCC-862 is **not** required when payments are issued under the deceased, incompetent, or disappeared producer's ID number.

C Administrative Offset

ARC and PLC payments are subject to administrative offsets.--*

250 General Provisions (Continued)

D Bankruptcy

Bankruptcy status does **not** exclude a producer from requesting ARC and PLC benefits.

Contact the OGC Regional Attorney for guidance on issuing ARC and PLC payments on all bankruptcy cases.

E Assignments

County Offices shall process assignments and joint payments according to 63-FI.

F Payment Due Date

61-FI provides general guidance for determining payment due dates for various programs. The ARC and PLC payment system sends the current system date to NPS as the payment due date. The system **cannot** determine the payment due date because of numerous factors. County Offices shall manually determine the payment due date by determining the later of the following:

- date producer signed CCC-861 or CCC-862
- date producer filed payment eligibility documentation, including the following:
 - AD-1026
 - CCC-902
 - CCC-941
- if the producer is an entity or joint operation, date members filed the requisite payment eligibility documentation
- availability of software to process the payment
- *--when the payment rate is determined and updated in the system.--*

If the payment is **not** issued within 30 calendar days after the later of the dates in this subparagraph, then prompt payment interest is payable to the producer. County Offices shall:

- manually determine the payment due date based on the factors identified in this subparagraph
- follow the provisions of 61-FI for issuing the interest payment.

250 General Provisions (Continued)

G Processing Payments

Payments shall be issued as soon as **all** of the following conditions exist:

- ARC and PLC payment software is available
- producer has provided all required program documentation
- CCC-861 and/or CCC-862 is approved
- program regulations are published
- payment rate is determined.

H Payments Less Than \$1

ARC and PLC payment processes will:

- issue payments that round to at least \$1
- **not** issue payments less than 50 cents.

I Funds Control Process

ARC and PLC payments use the Obligation Process through the e-Funds accounting process, which controls funding allotments by program year, monitors program spending, and halts program disbursements when the funding allocation has been exhausted. The funding is reserved through the Obligation Process at the time CCC-861 is approved. For ARC-IC and Pilot ARC-CO, the funding is reserved before processing the payment in the Common Payment Reports System.

The funds for ARC and PLC payments will be controlled at the National level. If adequate funding is not available, those producers who cannot be paid will be listed on the Failed Obligations / Insufficient Funds Report in the Common Payment Reports System.

J e-Funds Access

Funding for ARC and PLC is established with the following accounting codes:

- ARC-CO – 2838
- *--Pilot ARC-CO – 2862 --*
- ARC-IC – 2840
- PLC – 2837.

The funding will be maintained at the National level and will **not** be allotted to individual counties; therefore, State Office specialists will **not** need access to these program funds.

--250 General Provisions (Continued)*K General Payment Policy**

See 9-CM, Part 2 for general payment policy for the following:

- eligible ID types and business types
- payment eligibility
- cropland factor
- payment limitation
- joint operations and entities
- general provisions for overpayments.

L Submitting Payment Problems

If there is an issue with an ARC and PLC payment, then State Office specialists should update the applicable information to the payment problem SharePoint web site. The link for the payment problem SharePoint web site is

https://sharepoint.fsa.usda.net/mgr/dafp/PECD/Payment_Issues/default.aspx.

M Providing State Office Access to the Payment Problem SharePoint Site

State Office specialists should request access to the payment problem SharePoint web site by:

- e-mailing a request to Tina Nemec at **tina.nemec@wdc.usda.gov**
- providing the specific program areas of responsibility.

251 Payment Limitation Provisions**A Payment Limitation Information for ARC and PLC Payments**

ARC and PLC payments are limited to a maximum payment limitation amount per person or legal entity, and will be attributed through direct attribution.

See 5-PL, paragraph 17 for payment limitation amounts for a person or legal entity.

As each payment is processed through NPS, the available payment limitation for the person or legal entity will be reduced until:

- all ARC and PLC payments are issued for the person or legal entity
- the maximum payment limitation has been attributed to a person.--*

252 Payment Subsidiary Eligibility Provisions

A Introduction

The payment process reads the web-based eligibility system, for the program year associated *--with CCC-861 for ARC-CO/PLC or the program year of the ARC-IC or Pilot ARC-CO --* payment being processed, to determine whether a producer or member of a joint operation is eligible to be paid for that year. If the producer or member is ineligible to be paid, the payment will not be issued for that year and the producer or member will be listed on the Nonpayment Report with the applicable message.

Reminder: Eligibility determinations/certifications should accurately reflect COC determinations and producer certifications, as applicable.

B ARC and PLC Subsidiary Eligibility

The following table identifies web-based eligibility determinations applicable to ARC and PLC payments and how the system will use the web-based subsidiary eligibility data for payment processing.

If a producer has multiple invalid subsidiary eligibility conditions, only the highest priority ineligible condition will be printed on the Nonpayment Report.

Section 2 Processing ARC and PLC Payments

260 ARC and PLC Payments

A Supporting Files for Integrated Payment Processing

The ARC and PLC payment process is a web-based integrated process that uses a wide range of information and other program determinations and values to determine whether a payment should be issued and the amount of gross payment, applicable reductions, and the net payment amount. For payments to be calculated correctly, all supporting files must be updated correctly, including **all** the following.

Type of Information	How Information Is Used for Payment Processing	Source
CCC-861 Data	The information from CCC-861 is used to compute the ARC-CO or PLC payment amount for the producer.	Web-Based ARC-CO/PLC Contract System
CCC-862 Data	The information from CCC-862 is used to complete the spreadsheet to determine the ARC-IC payment amount for the producer.	Web-Based ARC-IC Contract System
Payment Eligibility Information	Used to determine whether the producer and/or member of a joint operation is eligible for payment for the year in which CCC-861 or CCC-862 was filed.	Web-Based Eligibility System
General Name and Address Information	Used to determine the producer's business type and general name and address information.	Business Partner/ SCIMS
Entity and Joint Operation Information	Used to determine the following for the year in which CCC-861 or CCC-862 was filed: • member contribution value • substantive change value • members and member's share of the following: • entities • general partnerships • joint ventures.	Business File
Combined Producer Information	Used to determine whether ARC and PLC producers or members of entities or joint operations are combined with other producers. This information is used to ensure that the payment limitation is controlled properly.	Combined Producer System
Available Payment Limitation	Used to determine payment limitation availability.	Payment Limitation System
Cropland Reporting Indicator	Used to determine whether the producer has met Cropland Reporting provisions.	Compliance System
*--FAV acre for acre reduction acres	FAV acre for acre reduction acres are subtracted from the payment acres in the payment calculation.	FAV Payment Reduction System
Maintenance reduction amount	Maintenance reduction amount is reduction to the payment amount	4-CP
Financial Related Information	• Calculated payment information is provided to NPS. • Determined overpayment amount may be provided to NRRS.	NPS or NRRS

260 ARC and PLC Payments (Continued)

B Prerequisites for Payments

Certain actions must be completed to ensure that the producer is eligible for payment. The following table provides actions that must be completed to issue payments properly. COC, CED, or designee shall ensure that the actions are completed.

Step	Action
1	Ensure that CCC-861 and/or CCC-862 has been approved and that the approval date has been recorded in the system according to paragraph 40.
2	Ensure that AD-1026 is on file for the applicable year for producers seeking benefits and the eligibility information is recorded in the web-based eligibility system.
3	Ensure that the applicable CCC-902 is on file and actively engaged determinations are completed according to 5-PL for the applicable year for producers and members of joint operations seeking benefits.
4	Ensure that CCC-941 is on file for the applicable year for producers seeking benefits and the certification information is recorded in the web-based eligibility system. See 5-PL.
5	Ensure that all other eligibility determinations have been updated according to the determinations made by COC for producers and members of joint operations. See 5-PL.
6	Ensure that joint operation and entity ownership structure information is updated in Business File for the applicable year. See 3-PL (Rev. 2).
7	Ensure that the member contribution and substantive change values are updated according to 5-PL.
8	Ensure that the combined producer files are updated correctly for the applicable year. See 5-PL.
9	Ensure that all assignments and joint payees have been updated in NPS if CCC-36, CCC-37, or both were filed for ARC and PLC.
--10	Ensure that FAV acre for acre reductions and maintenance reductions are entered in the FAV Payment Reduction System.--

--260 ARC and PLC Payments (Continued)*C ID and Business Type Eligibility**

--261 Payment Processing*A Computing Payment and Overpayment Amounts**

The ARC and PLC payment process is an integrated process that reads a wide range of files to:

- determine whether a payment should be issued or if an overpayment has occurred
- calculate the following:
 - gross payment amount
 - reduction amounts
 - net payment amount
 - overpayment amount.

The following table describes the high level system processing sequence to calculate ARC and PLC payments for producers.

Step	Action
1	Payment is triggered according to subparagraph B.
2	Determine whether there is an unsigned payment for the farm and producer in NPS, and if so, cancel the payment in NPS.
3	Determine the gross payment amount for the farm and producer.
4	Determine whether the producer is an entity or joint operation, and if so, obtain member information from Business File, if applicable.
5	Determine whether the producer and/or members are eligible for payment.
6	Provide the following to direct attribution for each farm and producer: • gross payment amount • program specific reductions • 1 reason, if producer is ineligible because of subsidiary eligibility provisions.
7	Direct attribution will determine the following: • reduction amounts • payment limitation availability • net payment or overpayment amount • reasons for nonpayments or overpayments.
8	Provide the payment amount to NPS, or update the overpayment amount to the Pending Overpayment Report.
9	Update applicable information to the Common Payment Reports. See 9-CM, Part 5 for information about the Common Payment Reports.

--*

261 Payment Processing (Continued)

B Triggering Payments

Payment will be triggered through events that occur throughout the system. As a result, processing will now be behind the scenes for the most part. Calculations and determinations will occur during the evening and nighttime hours without users intervention. The following table provides trigger types and descriptions.

Trigger Type	Description	
Initial	ARC-CO and PLC	After release of the payment software, a process will automatically run to determine all CCC-861's that are approved for payment. This will initiate the process described in subparagraph A and does not require any County Office user interaction. • Payments will be sent to NPS for certification and signature. • Overpayment will be updated to the Pending Overpayment Report.
	ARC-IC	Users will enter the gross payment amount according to paragraph 266.
	-- Pilot ARC-CO	Users will enter the gross payment amount according to Paragraph 267.--
Primary	ARC-CO and PLC	Once the initial payments are triggered, subsequent payments will be initiated when County Office users approve CCC-861 for ARC-CO/PLC. Entering the COC approval date initiates the payment process for the selected CCC-861's.
	ARC-IC	Subsequent payments will be initiated when County Office users modify the payment amount.
	-- Pilot ARC-CO	Subsequent payments will be initiated when County Office users modify the payment amount.--
Secondary	Payments that cannot be issued during any payment process are sent to the Nonpayment Report. If a condition causing the producer to be on the Nonpayment Report is corrected, the payment will be triggered to reprocess to determine whether the payment can be issued.	
Tertiary	The payment system will periodically recalculate all payments.

C Sequestering ARC and PLC Payments

The Balanced Budget and Emergency Deficit Control Act of 1985, as amended by the Budget Control Act of 2011, requires a reduction in payments, also known as a sequester. Whether a payment is sequestered or not depends on when the funding was “obligated”. Obligations are a behind-the-scenes process where the funding is reserved based on what the total possible expenditures of the program will be or the value of the contract or application when it is approved.

Applying sequestration is the last step in the payment process after all reductions have been applied, including payment limitation, and before the payment amount is sent to NPS. The:

- payment amount for the commodity times the sequestration percentage equals the sequestration reduction amount for that commodity

Note: The resulting payment amount for all commodities is added up and the total is the
--ARC-CO, PLC, ARC-IC, or Pilot ARC-CO payment amount sent to NPS.--

- amount is applied at the payment entity level
- amount is not attributed to members.

Note: The sequestration reduction amount will be displayed on the Payment History Report.

D Sequestration Percentage

*--The sequestration percentage is based on the original approval date of the ARC/PLC contract. The original approval date is the first approval date that was entered for the ARC/PLC contract or a predetermined original approval date that was updated internally before the initial payments were processed.

This table provides the sequestration percentage based on the applicable original approval date for the ARC/PLC Contract regardless of the program year of the contract.

Original Approval Date	Sequestration Percentage
October 23, 2015 through September 30, 2016	6.8
October 01, 2016 through September 30, 2017	6.9
October 01, 2017 through September 30, 2018	6.6

--*

--261 Payment Processing (Continued)*E Common Payment Reports and Sequestered Payments**

If the payments for a program year are sequestered, the disclaimers on the various Common Payment Reports will have additional wording and the payment amounts on the Common Payment Reports will either be before or after sequestration was applied. See 9-CM for additional information on the Common Payment Reports.

The following table provides specific information about each report.

Note: Because the sequestration reduction is applied at the payment entity level, the amount displayed on the various Common Payment Reports that are attributed or reduced for members of the entity or joint operation will not add up to the payment amount for the payment entity.

Report	Sequestration Reduction Displayed on Report	Name of Payment Field	Amount Displayed Before or After Sequestration Applied
Estimated Calculated Payment Report			
Submitted Payments Report	Not Applicable Note: Payment reduced will be “Yes” only if reductions other than payment factor and/or sequestration apply.	Amount Submitted	After
Submitted Overpayments Report	Not Applicable	Amount Submitted	Not Applicable
Pending Overpayment Report	Not Applicable	Overpayment Amount	Not Applicable
Nonpayment/Reduction Report	No	Accumulated Amount	Before
Failed Obligations / Insufficient Funds Report	Not Applicable	Calculated Payment Amount	After
Payments Computed to Zero Report	Not Applicable	Not Applicable	Not Applicable
Payment History Report - Summary	Yes	Net Payment	After
Payment History Report - Detail	Yes	Net Payment	After

Note: Not applicable is listed in the table because the associated reports do **not** list reduction amounts.--*

--262 Entering ARC-IC Payment Amounts*A Introduction**

Because an automated application process is **not** available for ARC-IC, the amounts calculated through the ARC-IC spreadsheet will be recorded in the web-based ARC-IC payment process.

When a user has entered a farm number and clicked “Continue”, the Add/Modify a Payment Page will be displayed. The Add/Modify a Payment Page allows the user to select the farm number to which the payment information will be associated.

C Recording ARC-IC Payment Amounts

Record ARC-IC payment amounts according to this table.

Step	Action	Result
1	Enter the “Original Approval Date/Register Date” from the ARC-IC payment spreadsheet. Note: This date will be entered the first time payment amounts are entered. After the payment amounts are confirmed, this date cannot be changed.	
2	Select a crop for processing from the drop-down list. Note: Users can populate the table with crops and payment amounts by either of the following: - selecting and adding all crops and then entering the payment amounts for the applicable crops - selecting to add each crop and payment amount before selecting and adding the next crop and payment amount.	The crops will be added to the table.
3	Enter the payment amount for the applicable crops. After all crops and payment amounts have been entered, CLICK “Submit” to continue with the process. Notes: See paragraph 266 for additional information. Amounts shall be recorded in whole dollars without dollar signs or commas.	The Record Calculated Payment Confirmation Page will be displayed with the payment amounts recorded.
4	On the Record Calculated Payment Confirmation Page, users shall CLICK “Confirm” to record the payment amounts entered. Note: See paragraph 266 for additional information.	The ARC-IC Main Menu will be redisplayed with the message, “Payment(s) has been successfully added and/or modified.”

--266 Recording ARC-IC Payment Data (Continued)*E Effect on Previously Processed Payments**

Modifying previously recorded payment amounts impacts previously processed payments in different ways depending on whether the original payment was sent to NPS and certified and signed. The following table describes how a previously recorded payment is affected when the amounts are modified.

IF previously recorded payment amounts are...	AND previously recorded payment amounts were...	AND the payment in NPS was...	THEN...
modified to an amount greater than zero	not sent to NPS because of a nonpayment condition		system will trigger the payment to reprocess the payment transaction.
	sent to NPS	certified and signed	system will retrigger the payment to reprocess to determine whether the producer is overpaid or underpaid. A transaction will be sent to NPS or the overpayment will be listed on the Pending Overpayment Report, as applicable.
		either of the following: • not certified • certified, but not signed	• original amount in NPS will be canceled and the system will retrigger the payment to reprocess • new payment amount will be listed in NPS for certification and signature, if all eligibility requirements are met.
changed to zero	not sent to NPS because of a nonpayment condition		• payment amounts will be zero • system will retrigger the payment to reprocess to determine whether the producer is overpaid • an overpayment may be put on the Pending Overpayment Report if a portion of the original payment amount was certified or signed.
	sent to NPS	certified and signed	system will retrigger the payment to reprocess to determine the overpayment amount for the producer. The overpayment amount will be listed on the Pending Overpayment Report.
		either of the following: • not certified • certified, but not signed	original amount in NPS will be canceled.

E ARC-CO Information Displayed/Printed on the Estimated Calculated Payment Report-Physical County Override Does Not Apply

The following ARC-CO information will be displayed and/or printed on the Estimated Calculated Payment Report when the physical county override does **not** apply.

Note: The Estimated Calculated Payment Report will display when the ARC-CO contract is
--in an initiated, enrolled, or approved status.--

Field	Description
State	State as selected.
County	County as selected.
Program Year	Year associated with CCC-861 that was filed by the producer.
Program Name	Program name "Agriculture Risk Coverage Program".
Program Type	Program type "ARC-CO".
Date	*--Date the Estimated Calculated Payment Report was generated.
Approved Contract	Indicator of "Y" or "N" provides status of whether CCC-861 is approved or not approved.
Cropland Reported	Indicator of "Y" or "N" provides status of whether all applicable cropland has been certified and reported.
Farm Number	Farm number from CCC-861.
Producer Name	Name of the producer associated with the selection.
Crop Name--*	Name of the crop from CCC-861.
Average Benchmark Yield	Average benchmark yield from the Program Load Table.
Average Benchmark Price	Average benchmark price from the Program Load Table.
Benchmark County Revenue	Benchmark county revenue is determined by multiplying the following: • average benchmark yield, times • average benchmark price
Guarantee	Guarantee is determined by multiplying the following: • benchmark county revenue, times • 86 percent.
Marketing Year Average Price	Marketing year average price from the Program Load Table.
National Loan Rate	National loan rate from the Program Load Table.
County Actual Yield	County actual yield from the Program Load Table.
Actual Crop Revenue	Actual crop revenue is determined by multiplying the following: • higher of either of the following: • marketing year average price • national loan rate, times • county actual yield.

Field	Description
Revenue Shortfall	Revenue shortfall is determined by subtracting the following: • guarantee, minus • actual crop revenue. Note: Footnote 1 will be listed on the report with the message, “Actual Crop Revenue is greater than the Guarantee. Revenue shortfall is zero which results in a zero payment rate.”
10% CAP	10% CAP is determined by multiplying the following: • benchmark revenue, times • 10 percent.
Base Acres	Base acres for the crop from CCC-861.
Payment Acres	Payment acres are determined by multiplying the following: • base acres, times • 85 percent.
FAV Reduction Acres	FAV reduction acres from the FAV system.
Net Payment Acres	Net payment acres are determined by subtracting the following: • payment acres, minus • FAV reduction acres.
Producer Share	Producer share for the crop from CCC-861.
Payment Rate	Payment rate is the lessor of either of the following: • revenue shortfall • 10 percent CAP. *--Note: Footnote 1 may be listed on the report with the message,--* “Actual Crop Revenue is greater than the Guarantee. Revenue shortfall is zero which results in a zero payment rate.”
Calculated Payment	Calculated payment for the crop is determined by multiplying the following: • net payment acres, times • producer share, times • payment rate. Note: Footnote 2 may be listed on the report with the message, “One or more data elements used in the payment calculation is zero, resulting in a zero calculated payment.”
Total Calculated Payment	Total ARC-CO payment for the producer is determined by adding all calculated payments determined for all crops.

***--F ARC-CO Information Displayed/Printed on the Estimated Calculated Payment Report – Physical County Override Applies**

The following ARC-CO information will be displayed and/or printed on the Estimated Calculated Payment Report when the physical county override applies.

Important Notes: If any physical State/county has HIP then there will be one “crop” calculation that “blends” the calculation for the crop HIP and also if crop generic base acres have been attributed. There will be 1 payment calculation for the “crop”.

If the situation described above applies, and the shares are different between the crop base acres on the contract and the generic attributed base acres for the crop then there will be 2 separate calculations when the base acre calculation is reached.

--Section 3 Canceling ARC and PLC Payments*290 General Provisions for Canceling Payments****A Canceling Payments**

After payment processing has been completed, County Offices shall review the NPS payment worklist to ensure that the correct payments have been generated. The user should complete the following if an error is determined:

- payment should **not** be signed in NPS
- condition causing the incorrect payment should be corrected.

Notes: User intervention is not allowed for the cancellation process.

If the:

- condition causing the incorrect payment is corrected, the system will automatically cancel the unsigned payment in NPS and recalculate the payment amount due
- payment amount is determined to be incorrect and the payment has been signed in the NPS system, the payment can no longer be canceled. The producer will be underpaid or overpaid once the condition causing the incorrect payment has been corrected.--*

291-299 (Reserved)

--Section 4 Overpayments*300 General Provisions for Overpayments****A Introduction**

Overpayments will be determined during the ARC and PLC payment calculation process. Overpayment information will be updated to the Pending Overpayment Report according to 9-CM, paragraph 65. The overpayment will remain on the Pending Overpayment Report for 20 workdays to allow time for correcting the condition that caused the overpayment. If the overpayment is a legitimate debt, then the overpayment should be transferred to NRRS immediately.

301 Collecting Overpayments**A Introduction**

Overpayment amounts will be determined by farm and producer. Overpayments can occur for a number of reasons and County Offices are required to take necessary action to collect overpayments.

B Overpayments and Due Dates

The following table lists:

- situations that may cause an overpayment
- overpayment due dates.

Time of Determination	Situation	Overpayment Due Date
Any time.	Payment was issued for the wrong farm or producer.	Immediately
After something affecting the payment amount is changed on CCC-861 or CCC-862.	The payment was issued and later something affecting the payment amount changes on CCC-861 or CCC-862.	Immediately
After producer misrepresentation is determined.	Producer received a payment and COC determines that the producer misrepresented their interest on CCC-861 or CCC-862.	Immediately
After payment limitation exceeded.	It is determined that the payment issued exceeds the producer's effective payment limitation amount.	Immediately
After an eligibility value changes that make the producer ineligible for payment.	Producer's eligibility value changes that makes the producer ineligible for payment.	Immediately
After cropland acres are changed so that all acres are not reported and/or certified on FSA-578.	Payment was issued and FSA-578 information is changed so that all acres are no longer reported and/or FSA-578 is no longer certified.	Immediately
Any time CCC-861 or CCC-862 is canceled.	CCC-861 or CCC-862 was canceled after payments were issued to the producer.	Immediately.

--302 Charging Interest*A Introduction**

Interest shall be charged on all ARC and PLC overpayments to producers who become ineligible after the producer's application was approved and the payment was issued.

B Ineligible Producers

A producer is considered ineligible if:

- COC determines that the producer:
 - erroneously or fraudulently represented any act affecting a determination
 - knowingly adopted a scheme or device that tends to defeat the purposes of the program
 - misrepresented their interest and subsequently received an ARC and PLC payment
- the producer does not meet AGI provisions
- conservation compliance provisions are violated
- controlled substance provisions are **not** met
- member contribution provisions are **not** met
- substantive change provisions are **not** met.

Interest for ineligible producers shall be charged from the date of disbursement.

C When Not to Charge Interest

Interest will not be charged if the producer:

- is determined to be eligible
- returns the Treasury check without being cashed
- refunds the payment voluntarily.--*

Delegations of Authority

COC may redelegate authority to approve CCC-861's and CCC-862's, in routine cases. Redlegation shall be documented in COC minutes.

Definitions of Terms Used in This Handbook Approved Status

Approved Status

Approved status means CCC-861 or CCC-862 with:

- shares equal to 100 percent (ARC-CO and PLC only)
- producer signatures for all shares
- an enrollment date entered in the system
- a COC approval date entered in the system.

Base Acres

Base acres means, with respect to:

- a covered commodity on a farm, the number of acres of the crop established by the election of OW's of the farm according to the regulations set forth in 7 CFR Part 1412
- peanuts, the number of acres assigned to a farm by historic peanut producers according to the regulations in 7 CFR Part 1412.

Contract

Contract means CCC-861 or CCC-862 and CCC-861/862 Appendix.

Enrolled Status

Enrolled status means a contract with:

- shares equal to 100 percent (ARC-CO and PLC **only**)
- producer signatures for all shares
- an enrollment date entered in the system
- **no** COC approval date entered in the system.

Definitions of Terms Used in This Handbook (Continued)

Farm

Farm means a tract, or tracts, of land that are considered to be a separate operation with the same owner/operator.

Home County

Home county means administrative county in the web-based environment.

Operator (OP)

OP means an individual, entity, or joint operation in general control of the farming operations on the farm during the current year as determined by COC.

Owner (OW)

OW means individual, entity, or joint operation that has legal ownership of farmland.

Producer

Producer means an OW, OP, landlord, tenant, or sharecropper who shares in the risk of producing a crop and is entitled to share in the crop available for marketing from the farm, or would have shared had the crop been produced. A producer includes a grower of hybrid seed.

User

User means County Office employees and producers except where specifically noted.
