The final availability date is March 31.

E Warehouse-Stored Eligibility

The following table provides the general eligibility requirements for wheat stored in authorized warehouse storage according to 8-LP, Part 5, Section 3.

Note: CCC will not adjust loan rates for farm- and warehouse-stored loans using premiums and discounts at loan making. If the loan is not repaid and is forfeited to CCC, grading factors affecting premiums and discounts will be applied at settlement or forfeiture.

Eligible	Low Quality (All Wheat)
Grade of U.S. No. 5 or better. Note: Class of mixed wheat must consist of mixtures of grades 5 or better of eligible wheat if these mixtures are a result of natural conditions.	Sample Grade.
Moisture of 13.5 percent or less. Exception: A warehouse receipt showing moisture exceeding 13.5 percent may be eligible if accompanied by KC-350 (Grain) showing moisture content of 13.5 percent or less.	
Special grade designations of the following: <ul style="list-style-type: none"> • garlicky • smutty • light smutty • infested, if accompanied by KC-350 (Grain) that does not show the special grade "Infested". 	Special grade designations of the following: <ul style="list-style-type: none"> • ergoty • infested • treated.

Notes: The commodity must not contain moisture levels exceeding the maximum eligible level for warehouse-stored loans.

Low quality wheat is eligible for a nonrecourse loan at a reduced loan rate according to 8-LP, paragraphs 225 and 520.

1400 General Information (Continued)**F Farm-Stored Eligibility**

Commodities with moisture levels at or below the STC-established moisture level are eligible for nonrecourse loans. The quantity of a commodity pledged for a nonrecourse loan must be reduced to reflect the applicable standard moisture level.

Farm-stored collateral that meets the low quality criteria according to subparagraph E is eligible for a nonrecourse loan at a reduced rate according to 8-LP, paragraphs 225 and 520.

Exception: See 8-LP, Part 5, Section 2 for applicable procedure when it is determined that the moisture is exceeding the low quality level.

See 8-LP, Part 12, Section 1 for recourse loans.

G Wheat Protein Content Determination

Protein content determinations are required, at **no** cost to CCC, for Hard Red Winter, Hard White, Durum, Hard Red Spring, and Soft White wheat delivered to an approved warehouse from farm storage in settlement of a farm-stored loan.

H Falling Numbers Factor

If the warehouse determines a falling numbers factor for wheat, that number must be included in “Other Quality Factors” on:

- USWA, UGRSA, or State authorized warehouse receipt
- CCC-691.

1402 Warehouse Receipt Requirements

A Specific Wheat Requirements

In addition to the general warehouse receipt requirements in 8-LP, paragraph 548, each wheat warehouse receipt will show **all** of the following:

- gross weight in pounds and net bushels with fractions of a bushel in decimal hundredths
- class and subclass

Example: HRS-DNS.

- grade, including special grades
- test weight expressed to the nearest tenth of a percent
- moisture
- dockage rounded to the nearest tenth percent
- protein content **required** for the following classes:
 - **HRW**
 - **HWW**
 - **HRS**
 - **Durum**
 - **SWW**
- bulblet count, if indicated “garlicky”
- grading factors, including total cumulative sample grade factors, if these factors and **not** test weight determined the grade.

Notes: Total defects are also required if entries were made for **any** of the following:

- damaged kernels
- foreign materials
- shrunken and broken kernels.

Total defects = damaged kernels + foreign material + shrunken and broken kernels.

Heat damage is not added to total defects because it is included in damaged kernels (total).

Grading factors will be entered as whole numbers and tenths, such as 5.0, 5.1, and 5.2.

1402 Warehouse Receipt Requirements (Continued)**B Receipts Showing Infested or Moisture Over 13.5 Percent**

Wheat warehouse receipts will be accompanied by KC-350 (Grain) if the warehouse receipt tendered for loan shows either or both of the following conditions:

- infested
- moisture over 13.5 percent.

Note: County Offices will verify that the attached KC-350 (Grain) shows an eligible quality.

See 8-LP, paragraph 549 for examples of infested or excess moisture entries on KC-350 (Grain).

C Wheat Shipped by Rail or Barge

A warehouse receipt for wheat shipped by rail or barge **must** be accompanied by KC-350 (Grain) containing freight information.
