Part 4   Electronic Records

Section 1   System Requirements

66   Electronic Communications Requirements

A   Overview

The TCP/IP protocol using FTP is used to electronically exchange data between CMA's or LSA's and ACRS processed by the USDA NITC. CMA's and LSA's will obtain TCP/IP connectivity by contracting with a private ISP or other means. Once a valid TCP/IP connection is established, an FTP session to the FSA FTP server is started to exchange data with ACRS.

When exchanging data with ACRS, all files transmitted will be encrypted using Secure PKWARE application.

Users are responsible to scan, detect, and disinfect any files they retrieved by FTP. The FSA FTP server does not perform any virus scan, detection, or disinfection on files or data transported by customers.

Technical support for CMA's or LSA's using the FSA FTP server is provided by FSA as indicated in the following table.

Item	Data
National Help Desk	*--1-800-255-2434, select option "**3**", "Hardware".--*
Technical Support Hours	Monday through Friday 8 a.m. to 6 p.m. e.t.
ACRS Availability	7 days a week, 24 hours a day, except for the following NITC scheduled down times: • Sunday 1 a.m. through 9 a.m. e.t. • Sunday 5 p.m. through Monday 6 a.m. e.t. There may periodically be additional down time on Sundays. These will be communicated as they occur.

B   ACRS Input File

When creating the bale detail input file:

• create the archive filename: "ACRSDATA" as the get file
• transmit file through internal script to IZBLEDTL file described in subparagraph I.

66   Electronic Communications Requirements (Continued)

C   TCP/IP Connection Requirements

To establish a TCP/IP session, the following is required:

- ID and password issued by ISP
- modem standards according to ISP
- circuits or telephone lines supported by ISP
- TCP/IP software:

  - such as Telnet and FTP, any IP-based applications
  - capable of connecting through point-to-point protocol or serial line Internet protocol.

*--D   Establishing a Secure Zip Password

Secure zip password:

- is a file encryption password separate from the NITC/COPS password
- may be reset anytime by the user.

Establish a secure zip password according to the following. The pass phrase:

- must contain a single word, several words, a phrase, special characters, and numbers
- may be any length up to 250 characters
- **must** be left justified and right filled with zeroes, if it contains fewer than 250 characters.

Create a file that contains the "new1" secure zip password and 1 record 250 bytes long. Zip and encrypt the file that contains the "new1" secure zip password using the "old2" secure zip password.

Note: This will be the password change file.

FTP the password change file to the following dataset name at NITC:

MFO900.CMSPPDT.AC.CMA*nnnnn*.IZPSWORD (+1).

Note: In the dataset name ("*nnnnn*" = the CMA/LSA number).**--***

66   Electronic Communications Requirements (Continued)

E   ID and Password Information

Once the TCP/IP connection has been made, the following information applies to ID's and passwords used by NITC and the FSA FTP server. New users must obtain an NITC user ID and a temporary password (good 1 time only) by accessing COPS at
 *--**www.fsa.usda.gov/cotton** or by calling Shannon Fulghem at 816-926-1533.

If experiencing password difficulties, contact the Security Support Desk at 800-255-2434, and listen for the appropriate option for NITC.**--***

Passwords must follow these guideline standards:

- must be 6 to 8 alpha and/or numeric characters
- must be changed every 35 calendar days
- must be in effect at least 4 calendar days before a new password is accepted
- cannot be repeated for 1 year.

F   Password Change Instructions

Follow instructions in the table to create and change passwords:

- upon initialization of service with temporary password
- before user password expiration
- when prompted on screen after expiration.

Password Change Instructions		
Select the appropriate option below.		
Option 1: Using FTP	• Initiate an FTP session with NITC. At this time, 165.221.4.12 is the actual TCP/IP address for an FTP session, subject to change at any time. Additional address sites are 165.221.4.22 and 165.221.4.32. • It is recommended that command-line FTP be used to change the password rather than a Graphical User Interface FTP package. For example, from Windows 95 under START, PROGRAMS, MS-DOS Prompt, enter the following.	
	Screen Prompt	**User Entry**
	C:\WINDOWS>	FTP
	FTP>	OPEN FTP.NITC.USDA.GOV
	User (ftp.nitc.usda.gov:(none):)	user's NITC user ID
	PASSWORD:	old password/new password/new password
Option 2: Using Telnet	• Initiate a Telnet session with NITC, using the address TELE.NITC.USDA.GOV (at this time, 165.221.4.2 is the actual TCP/IP address for Telnet, subject to change at any time). • TAB between entries below.	
	USERID	user's NITC user ID
	PASSWORD	temporary or old password
	NEW PASSWORD	new password
	NEW PASSWORD	new password (PRESS "Enter")

66   Electronic Communications Requirements (Continued)

G FTP Connection Instructions

The following table provides instructions for starting an FTP session with the ACRS FTP server.

Step	Action
1	Initiate an FTP session with the ACRS FTP server using 1 of the IP addresses in subparagraph F. **Note:** Either an ISDN or Remote Access Service connection may be used.
2	ENTER "**OPEN 206.122.115.70**".
3	ENTER "**USER (Local FTP server user name)**".
4	ENTER "**PASS (Local FTP server password)**".
5	If using PKZIP, ENTER "**BINARY**".
6	Upload or download fields as applicable.

H NITC Filename Standards

Each entity using NITC is assigned a range of filenames to use in transferring data. There are 2 different formats of the filename, relative and absolute, distinguished by the final sequence number. This sequence number serves as a file identifier, allowing the same filename to be used repeatedly for the same purpose at different times. Multiple usage of a filename using the identifier creates GDG.

Relative Format Filename Example:

x.AC.tttnnnnn.abrecordid(s#).

Absolute Format Filename Example:

.AC.tttnnnnn.abrecordid.GxxxxV00.

B   Examples of Determining Storage Stop Date

The following table provides examples of determining the storage stop date for ACRS transactions when cotton has been transferred.

*--

Date Documents Received or Advance Date for CMA's	New EWR Issue Date	Redemption Date	Storage Stop Date
2/1/10	2/10/10	2/20/10	2/18/10
2/1/10	2/10/10	2/11/10	2/9/10
2/1/10	2/10/10	2/10/10	2/8/10
2/1/10	3/1/10	7/2/10	If indicator is: • "Y" – 5-12-10 (3/1/10+ 72 days) • "N" – 6/29/10.

C   Example Calculations

The number of days a bale is eligible/ineligible for storage credits will be based on the bale's CCC storage-start date and the loan-notification date; both dates are CCC-determined. Both the warehouse-reported as-of dates for inside-stored and yard-stored loan bales will also be used. Storage credits will:

•   be provided for all days the bale is inside-stored including the storage-start date

•   not be provided for all days the bale is yard-stored including the storage-start date, except the 15-calendar-day grace period.

IF yard-stored bale was…	THEN software will calculate storage credits from the storage-start date to the repayment date, and subtract storage credits for all yard-stored periods…
inside-stored on the last day of the 15-calendar-day grace period	after the end of the 15-calendar-day grace period.
yard-stored during the 15-calendar-day grace period	from the storage-start date.
inside-stored during the 15-calendar-day grace period, but not inside-stored on the last day of the 15-calendar-day grace period

147 Field 60, Storage Forgiven

A Definitions of Acquisition Value and Preliminary Forgiven

The following terms are used to determine upland cotton repayment amounts.

- Acquisition value is the sum of:

  - accrued unpaid storage charges during the loan period
  - plus Principal + Interest [56].

  Notes: For accrued storage charge calculation instructions for warehouses charging a:

  - monthly storage rate, see subparagraph C
  - daily storage rate, see subparagraph D.

  Accrued storage applies to the time period between the Storage Stop Date [34] and the:

  - Advance/LDP Date [31] for CMA's
  - Document Received/Gin Date [32] for LSA's.

- Preliminary forgiven is the total amount of all forgiven fields (storage, interest, and principal). The following table provides instructions on how to calculate preliminary forgiven.

Step	Action	AWP Bale Value
1	- Accrued unpaid storage charges for the initial loan period, plus - Principal + Interest [56], equals - **Acquisition Value**	5.75 +253.80 259.55
2	- Acquisition Value, minus - AWP Bale Value * * *, equals - **Preliminary Forgiven**	259.55 - 148.67 110.88

The following table provides ACRS procedures for CMA's, LSA's, ACRS, and CCB's. These procedures apply to all transaction codes, except as specified.

Step	Action
1	CMA or LSA: • prepares individual Bale Detail records according to Part 4 • transmits Bale Detail records to NITC per paragraph 66 instructions • FAXes to KCFO a signed CCC-719 for "S" * * * transactions • prepares, if applicable, SF-LLL or CCC-674. **Note:** See paragraph 422 for instructions.
2	ACRS: • performs up-front edits on Bale Detail record to determine valid bales by confirming that: • CCC is the holder on EWR • no duplicate bale is in COPS • transactions are sequential and are not duplicated ("A" before redemption) • correction corresponds to prior transactions • fields are formatted correctly •*--creates Failed Output Report as described in subparagraph 66 I--* • processes Bale Detail records in the nightly batch cycle according to this handbook • totals money for accepted bales plus any "S" * * * trailers, then sends a corresponding authorization code to the CMA or LSA for CCB use • creates an Error Report on valid bales.
3	CMA and LSA authorizes its CCB to electronically transfer funds to or from CCC's account at FRB using the authorization code and amount provided by ACRS. **Note:** CMA's and LSA's must designate a single bank account that will be used at CCB for all transfers to ACRS.
4	CCB transfers funds to or from CMA's or LSA's bank account from or to CCC's FRB using the authorization codes provided by the applicable CMA or LSA.

B   Signature Authorizations Required

CMA's and LSA's shall provide CCB's and KC-ADC/PSCAO/CLG sample signatures of officials authorized to certify CCC-719's.

420   Formatting and Transmitting CCC-719's

   A   Rules

   CCC-719 trailers are not required in ACRS. CCC-719 trailers transmitted with a Bale Detail
   Record for any transaction **except * * *** "S" are not used. The Bale Detail Record will be
   processed and ACRS will generate for valid bales a Transmission Report with the
   authorization code and money amount to be wired.

RETURN COMPLETED FORM TO THE DIRECTOR, PRICE SUPPORT DIVISION, USDA, FSA, STOP 0512, WASHINGTON, D.C. 20013

This agreement is entered into on the date indicated above by and between the Commodity Credit Corporation, Washington, DC, an agency of the United States (hereinafter called "CCC") and the authorized cooperative indicated above (hereafter referred to as the "Cooperative").

WITNESSETH:

WHEREAS, loans and LDP's for upland cotton and loans for extra long staple cotton of any crop will be made available by CCC under applicable program regulations; and

WHEREAS, on the basis of represenations by the Cooperative pursuant to 7 CFR Part 1425, the Cooperative has been approved to enter into a Cotton Cooperative Loan Agreement with CCC under which the Cooperative may utilize a Servicing Agent Bank to obtain loans and loan deficiency payments on behalf of its members with respect to cotton produced by its members.

NOW THEREFORE, in consideration of the premises, the parties hereto agree as follows:

1. Basis for CCC Loan. CCC, or an agent of CCC acting on behalf of CCC, shall make a loan to the cooperative with respect to eligible cotton, as defined in 7 CFR 1427.5, which is pledged as collateral for such a loan. The amount of the loan shall be determined in accordance with 7 CFR Part 1427. The terms and conditions of this Agreement incorporate by reference the regulations set forth in title 7 of the Code of Federal Regulations.

2. Tender of Loan Documents. In order to obtain advances on cotton of a particular crop under this Agreement, the Cooperative shall tender warehouse receipts, or amend electronic warehouse receipts (EWR) to show CCC as holder, and other such documents as directed by CCC.

3. Loan Indebtedness. The loan indebtedness payable by the Cooperative to CCC shall consist of: (A) principal advances; (B) all charges and expenses set forth in 7 CFR Part 1427 including handling, compression, transportation, reconcentration, and storage charges; and (C) interest which has accrued with respect to such advances and charges as provided in 7 CFR Part 1427.

Exhibit 4
(Par. 1)

CCC-Cotton G, Cotton Cooperative Loan Agreement (Continued)

CCC-Cotton G, (10-09-96), Page 2

4. <u>Right to Redeem</u>.

   (a) Prior to maturity of the loan indebtedness with respect to cotton of a particular crop, the Cooperative shall have the right to redeem all or any part of the cotton of such crop upon payment to CCC of the loan indebtedness with respect to the cotton being redeemed and providing such documents as directed by CCC. The Cooperative shall not enter into any agreement limiting its right to redeem and market any cotton pledged to CCC under this Agreement. Cotton redeemed by the Cooperative will be ineligible for retender to CCC for any loan or LDP.

   (b) CCC may release warehouse receipts to the Cooperative or amend EWR's to show Cooperative as holder against trust receipts acceptable to CCC provided the Cooperative has furnished to CCC, to assure performance by the Cooperative of its obligations under the trust receipts, a certified or cashier's check payable to CCC or irrevocable commercial letter of credit acceptable to CCC in an amount equal to the estimated loan indebtedness with respect to the cotton represented by the warehouse receipts to be released on trust. Warehouse receipts released against trust receipts shall be returned or EWR's amended to show CCC as holder within the period provided in the trust receipts unless the Cooperative has redeemed such cotton.

5. <u>Obligation to Redeem</u>.

   (a) If any lien (other than a warehouseman's lien authorized by 7 CFR Part 1427) is asserted against CCC in connection with cotton pledged to CCC under this Agreement, CCC will notify the Cooperative. The Cooperative shall redeem such cotton by payment of the loan indebtedness with respect to such cotton within 30 days after the lien is asserted against CCC, if the Cooperative has not reached a settlement with the person asserting such lien. The Cooperative shall notify CCC promptly after reaching any such agreement. The Cooperative agrees to hold CCC harmless from any liability to anyone asserting such a lien and to defend any action filed against CCC by anyone asserting such a lien. The Cooperative likewise agrees to hold purchasers of such cotton from CCC harmless from any liability to anyone asserting a lien on such cotton (other than a warehouseman's lien authorized in the storage agreement between CCC and the warehouseman) and to defend any action filed against a purchaser of such cotton by anyone asserting such a loan.

   (b) If the Cooperative does not fulfill its obligations with respect to any cotton pledged to CCC under this Agreement or makes any fraudulent representation with respect to such cotton, the Cooperative shall, upon demand by CCC, redeem such cotton by payment of the loan indebtedness with respect to such cotton.

6. <u>Performance Security</u>. When the number of bales of any crop tendered to CCC and not redeemed multiplied by $6.40 exceeds the Cooperative's net worth, the Cooperative shall furnish CCC with a certified or cashier's check payable to CCC, an irrevocable commercial letter of credit in the form approved by CCC, or a bond conditioned on the Cooperative fully discharging all of its obligations under this Agreement or such other manner as determined by CCC. Such security shall be in such an amount as is determined by CCC to be necessary to protect CCC.

7. <u>Cooperative to Bear All Servicing Fees</u>. All fees assessable by the Servicing Agent Bank shall be borne by the Cooperative.

8. <u>Reimbursement for Charges</u>. CCC may specifically authorize the Cooperative to pay charges incurred in the handling, compression, transportation, reconcentration and storage of cotton under loan to CCC. The amount of such reimbursed charges shall be added to the loan amount.

9. <u>Notification of Ineligible Cotton</u>. If the Cooperative obtains evidence that any cotton on which it has obtained a loan advance from CCC was not eligible for a loan advance from CCC, the Cooperative shall immediately make a report to the Price Support Division, Farm Service Agency, and upon demand by CCC, the Cooperative shall redeem such cotton.

CCC-Cotton G, (10-09-96), Page 3

10. Liquidated Damages. Failure of the Cooperative to comply with the eligibility requirements of this Agreement will cause serious and substantial program damages to CCC, such as damage to its loan and LDP program and the incurring of certain administrative and other special costs which are not part of the loan indebtedness, in addition to any amounts for which the Cooperative may be liable under this Agreement. Inasmuch as it will be difficult, if not impossible, to prove the exact amount of such program damages, the Cooperative shall pay to CCC as liquidated damages an amount equal to $13.00 for each bale of cotton on which an advance or LDP is obtained under this Agreement, but which is not eligible cotton. It is agreed by the Cooperative and CCC that such liquidated damages are reasonable estimates of the probably actual damages that would be incurred by CCC. Such liquidated damages shall be paid by the Cooperative promptly upon demand. Also, the Cooperative shall redeem such cotton upon demand by CCC, as provided in this Agreement, and, upon its failure to redeem such cotton, whether or not demand for redemption is made by CCC, shall be liable for any additional amounts provided in this Agreement. Notwithstanding the foregoing provisions of this paragraph, if it is determined by CCC that the Cooperative did not have knowledge of the ineligibility of the cotton when it was tendered to CCC and that the Cooperative followed a procedure which reasonably could be expected to prevent the tender of ineligible cotton to CCC, liquidated damages shall not be payable to CCC and, if the cotton is made eligible for loan within 90 days from the date notification that it is ineligible is given to the Cooperative by CCC, the cotton need not be redeemed.

11. Accounts and Records. The Cooperative shall keep such accounts and records and shall furnish such information and reports in connection with transactions relating to this Agreement as may be prescribed or requested by CCC subject to the approval of the Office of Management and Budget in accordance with the Paperwork Reduction Act of 1980. Duly authorized representatives of the U.S. Department of Agriculture may examine the accounts and records of the Cooperative for any crop at all reasonable times. All records must be kept for 5 years.

12. Continuing Agreement. This Agreement shall become effective for the 1996 crop of cotton and remain effective for each subsequent crop for which the Cooperative remains approved by CCC in accordance with 7 CFR 1425.

IN WITNESS THEREOF, the parties hereto have executed this Agreement, in duplicate to be executed on the date in Item 1.
