CRP Sign-Up Starts soon

USDA will conduct a four-week general sign-up for the Conservation Reserve Program (CRP), beginning May 20 and ending on June 14. CRP protects the nation's natural resources through voluntary participation, while providing significant economic and environmental benefits to rural communities across the United States.

Currently, about 27 million acres are enrolled in CRP. Producers that are accepted in the program can receive cost-share assistance to plant long-term, resource-conserving covers and receive an annual rental payment for the length of the contract which is 10-15 years.

Contracts on 3.3 million acres of CRP are set to expire on Sept. 30, 2013. Producers with expiring contracts or producers with environmentally sensitive land are encouraged to evaluate their options under CRP.

For more information on CRP and other FSA programs, visit a local FSA service center or www.fsa.usda.gov.

DCP/ACRE Sign-Up Continues

The sign-up period for DCP and ACRE are still open. Producers are encouraged to sign up for DCP before the Aug. 2, 2013, deadline. An even earlier deadline is for ACRE, which will end June 3, 2013.

The 2013 DCP and ACRE program provisions are unchanged from 2012, except that all eligible participants in 2013 may choose to enroll in either DCP or ACRE for the 2013 crop year. This means that eligible producers who were enrolled in ACRE in 2012 may elect to enroll in DCP in 2013 or may re-enroll in ACRE in 2013. Likewise producers who were enrolled in DCP may opt for ACRE enrollment.

[Read more about DCP and ACRE](#) or contact the FSA county office for more information, or an appointment to enroll.

Acres Certification

After spring planting, producers should certify their 2013 acreage. Filing an accurate acreage report for all crops and land uses, including failed acreage and prevented planting acreage, can prevent the loss of benefits for a variety of programs.

Failed acreage must be reported within 15 days of the disaster event and before disposition of the crop. Prevented planting must be reported no later than 15 days after the final planting date.

Acreage reports are required for many Farm Service Agency programs. For crops enrolled in programs other than NAP (Noninsured Crop Disaster Assistance Program), acreage reports are to be certified by the November 15th deadline on fall seeded grains and hay and a July 15th deadline on all other crops.

Acreage reports on crops covered by NAP are due in the county office by the earlier of November 15 for small grains and hay and July 15th for all other crops, or 15 calendar days before the onset of harvest or grazing of the specific crop acreage being reported.

Farm Safety

Flowing grain in a storage bin or gravity-flow wagon can be fatal. It takes less than five seconds for a person caught in flowing grain to be trapped.

The mechanical aspects of grain handling equipment, also presents a real danger. Augers, power take offs, and other moving parts can grab people or clothing.

These hazards, along with pinch points and missing shields, are dangerous enough for adults; not to mention children. It is always advisable to keep children a safe distance from operating farm equipment. Always use extra caution when backing or maneuvering farm machinery. Ensure everyone is visibly clear and accounted for before machinery is engaged.

FSA wants all farmers to have a productive crop year, and that begins with putting safety first.

Microloans Are Cultivating Big Dreams on a Small Scale

Microloans are helping small, niche and beginning farmers and ranchers meet their goals. The less burdensome and more simplified loan process allows producers to apply for a maximum of \$35,000 to pay for initial start-up expenses such as hoop houses, essential tools, irrigation, delivery vehicles and annual expenses such as seed, fertilizer, utilities, land rents, marketing and distribution expenses. Producers interested in applying for a microloan should contact Paul Wagner, Farm Loan Manager at 616-842-5852.

Farm Record Changes

June 1, 2013 is the deadline to provide changes to your farm records at the local FSA office for the current crop year. If you are changing your operation entity type, adding or dropping cropland or farms, or adding entities to your operation, contact the FSA county office by June 1.

Hispanic and Women Farmers and Ranchers Claims Process Extended

Agriculture Secretary Tom Vilsack has announced the extension of the voluntary claims process for Hispanic and women farmers and ranchers who allege discrimination by the USDA in past decades. All claims must now be filed by **May 1, 2013**.

USDA urges potential claimants to contact the Claims Administrator for information and mail their claim packages on or before May 1, 2013.

The process offers a voluntary alternative to litigation for each Hispanic or female farmer and rancher who can prove that USDA denied his or her application for loan or loan servicing assistance for discriminatory reasons for certain time periods between 1981 and 2000. As announced in February 2011, the voluntary claims process will make available at least \$1.33 billion for cash awards and tax relief payments, plus up to \$160 million in farm debt relief, to eligible Hispanic and women farmers and ranchers. There are no filing fees to participate in the program.

Claimants may register for a claims package by calling the telephone number below Monday through Friday 9 a.m. to 8 p.m. Eastern Time or by downloading the forms from the website.
