Peggy Papoi
Charlie Mater

**County Executive
Director**

Mark Van Buren

County Committee (COC)

Tom Eckert, Chairman
Darrell Newton, Vice Chair
Kenneth Osborne, Member
Nianne Jarrard, Advisor

2012 DCP/ACRE Sign-up

2012 Direct and Counter-Cyclical Program (DCP) and Average Crop Revenue Enhancement (ACRE) enrollment started January 23, 2012 and will end June 1, 2012. Here are some IMPORTANT REMINDERS:

All producers with an interest in the DCP base acres must be included on the DCP/ACRE contract and receive a proportionate share of the DCP/ACRE payment.

All producers receiving a share greater than zero on the DCP/ACRE contract must sign the contract no later than June 1, 2012

Changes on the farm after enrollment must be reported to the FSA office such as:

- Ownership changes
- Producer changes

Change in share arrangements

Changes cannot be made after September 30, 2012.

Supplement Revenue Enhancement Assistance Program (SURE)

The sign-up for 2010 losses runs through June 1, 2012. The Supplement Revenue Enhancement Program provides benefits for farm revenue losses due to natural disasters that occurred during the 2010 crop year. SURE is available to eligible producers on:

Farms in counties with Secretarial disaster declarations, including contiguous counties, that have incurred crop production or quality losses, or both, and includes all crops grown by a producer nationwide except grazed crops.

Any farm in which for a crop year, actual production on the farm because of disaster related conditions is 50 percent or less than normal production of the farm.

Annual Acreage Report of Planted Crops

Each year participants are required to file a complete and accurate acreage report to remain eligible for benefits under a number of programs, including the Direct and Counter-Cyclical Program (DCP), Average Crop Revenue Election (ACRE), Conservation Reserve Program (CRP), and marketing assistance loans.

Field work and planting is now underway all around the country. As soon as your planting is complete, do not forget to stop by our office and report your planted acres. Wheat is to be reported by June 30, all other crops by July 15.

2011 ACRE Yields Due by July 15

Producers enrolled in ACRE are required to submit yields for each farm enrolled in the program by July 15 of the following year. Yields are used to establish the producer's yield history. The yield history is used as an element in calculating the farm's expected revenue to determine benefits under the program. Failure to submit yields by the deadline will result in ineligibility for all 2011 payments on the farm.

Prevented Planting and Failed Acreage

Prevented planting reports are due within 15 days of the final planting date for the crop. Failed acreage reports are due within 15 days of the date the failed acreage becomes apparent. Reports filed after these time frames will be accepted, however, a late filing fee of \$46 will be assessed.

Wetland Compliance Rules

Beginning with the 1985 Farm Bill compliance with wetland rules has been required as a condition of eligibility for USDA and FSA benefits. Planting an agricultural commodity on a wetland converted after December 1985, or converting a wetland after November 1990 by draining, dredging, filling, leveling, or any other means for the purpose, or to have the effect of making the production of an agricultural commodity possible will result in the loss of eligibility for USDA and FSA benefits.

USDA is an equal opportunity provider and employer. To file a complaint of discrimination, write to USDA, Assistant Secretary for Civil Rights, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, S.W., Stop 9410, Washington, DC 20250-9410, or call toll-free at (866) 632-9992 (English) or (800) 877-8339 (TDD) or (866) 377-8642 (English Federal-relay) or (800) 845-6136 (Spanish Federal-relay).
