County Committee Nominations

The election of agricultural producers to Farm Service Agency (FSA) county committees is important to ALL farmers and ranchers. It is crucial that every eligible producer participate in these elections because FSA county committees are a link between the agricultural community and the U.S. Department of Agriculture (USDA).

County committee members are a critical component of the operations of FSA. They help deliver FSA farm programs at the local level. Farmers and ranchers who serve on county committees help with the decisions necessary to administer the programs in their counties. They work to ensure FSA agricultural programs serve the needs of local producers.

FSA county committees operate within official regulations designed to carry out federal laws. County committee members apply their judgment and knowledge to make local decisions.

The COC nomination period runs from June 15, 2012 through August 1, 2012. For more information just contact your local FSA office.

Payment Limitations

Anyone that plans to participate in 2012 programs is required to submit a completed CCC-902, CCC-926, and CCC-901, if applicable, for payment eligibility and payment limitation purposes. The form used previously was called a CCC-502.

Contributions

All partners, stockholders or members with an ownership interest in the legal entity must make a contribution, whether compensated or **not** compensated, for active--*

- personal labor,
- active personal management,

- or a combination of active personal labor and active personal management to the farming operation;

*Note: there are exceptions for spouses.

Additional information on payment limitations is available at FSA county offices or online at: www.fsa.usda.gov

Compliance

Compliance and spot checks will be utilized during the 2012 crop year. Instead of locally selecting farms, contracts, deficiency loans, etc. for spot check and review, a nationwide selection of producers is used to achieve a statistical sampling of participating producers. Spot check selections are to be conducted based on a producer's participation in the Conservation Reserve Program, Direct and Counter-cyclical Program, Loan Deficiency Program, etc.

State and county offices shall view and print their producer spot check lists as posted on the designated website. If an entity is selected from the national database that is no longer farming or participating in the 2012 crop year, a notation shall be made on the spot check list. For more information about the new spot check selection procedure, feel free to contact your local office for additional clarification.

Loans for the Socially Disadvantaged

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating or help purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for socially disadvantaged applicants.

Continued Page 2 Loans

Continued from Page 1 Loans

A socially disadvantaged applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of a group.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

Crop Reporting

The annual requirement of reporting to the FSA office can be referred to as crop reporting, acreage reporting or crop certification. Filing an accurate and timely report for all crops and land uses, including failed acreage, can prevent loss of benefits for a variety of Farm Service Agency programs. All cropland on the farm must be reported to receive benefits from the Direct and Counter-Cyclical Program, marketing assistance loans and Loan Deficiency Payments.

The certification form FSA-578, Report of Acreage, must account for all cropland on a farm, whether idle or planted. The producer certification deadline for fall seeded crops is June 30th, 2012, all other crops July 15, 2012.

CRP & NAP Certification

Conservation Reserve Program acreage must be reported to receive annual rental payments. Crop acreage for Non-insured Crop Disaster Assistance Program (NAP) must be reported.

Prevented Planting / Failed Acreage

Prevented planting is to be reported no later than 15 calendar days after the final planting date. Failure to report prevented planting acreage could result in loss of benefits for the SURE program or possibly other disaster assistance programs.

Reports of failed acreage must be filed before disposition of the crop and producers must be able to establish to the satisfaction of the county committee that the crop failed and was prevented from being replanted through the normal planting period because of natural disaster conditions.

Sodbusting

Farmers and ranchers should be aware that if they use highly erodible land for crop production without proper conservation measures, they risk losing eligibility to participate in Farm Service Agency programs.

Before producers clear, plow or otherwise prepare areas not presently under crop production for planting, they are required to file an AD-1026, indicating the area to be brought into production.

If Natural Resources Conservation Service indicates that the area will be highly erodible land, the producer will be required to develop and implement a conservation plan on the affected acreage before bringing land into production.

Farm Storage Facility Loan Program

The Farm Storage Facility Loan Program (FSFLP) allows producers of eligible commodities to obtain low-interest financing to build or upgrade farm storage and handling facilities.

The new maximum principal amount of a loan through FSFL is \$500,000. Participants are now required to provide a down payment of 15 percent, with CCC providing a loan for the remaining 85 percent of the net cost of the eligible storage facility and permanent drying and handling equipment. New loan terms of 7, 10 or 12 years are available depending on the amount of the loan. Interest rates for each term rate may be different and are based on the rate which CCC borrows from the Treasury Department.

Payments are available in the form of a partial disbursement and the remaining final disbursement. The partial disbursement will be available after a portion of the construction has been completed. The final fund disbursement will be made when all construction is completed. The maximum amount of the partial disbursement will be 50 percent of the projected and approved total loan amount.

Applications for FSFL must be submitted to the FSA county office that maintains the farm's records. An FSFL must be approved before any site preparation or construction can begin. For more information about FSFL please visit your FSA county office or www.fsa.usda.gov.

FSA Signature Policy

Husbands and wives may sign documents on behalf of each other for FSA and Commodity Credit Corporation programs in which either has an interest. This option is automatically available unless a written request for exclusion is made to the county office staff by either spouse.

There are exceptions to the rule, where
Continued on Page 3 FSA Signature

Continued from Page 2 FSA Signature spouses may not sign on behalf of each other for partnerships, joint ventures, corporations or other similar entities.

Individual signatures are also required on certain Farm Loan Program and Farm Storage Facility Loan documents.

For more clarification on spousal signature authority, contact the local FSA office.

Beginning and Limited Resource Loans

FSA has a program to assist beginning farmers and or members of socially disadvantaged groups to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

- Has operated a farm for not more than 10 years
- Will materially and substantially participate in the operation of the farm
- Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA
- Does not own a farm in excess of 30 percent of the county's median size.

Each member of an entity must meet the eligibility requirements. Loan approval is not guaranteed.

Additional program information, loan applications and other materials are available at the local USDA Service Center or visit www.fsa.usda.gov and www.nrcs.usda.gov.

Controlled Substances

Program participants convicted under federal or state law of any planting, cultivating, growing, producing, harvesting or storing a controlled substance are ineligible for program payments and benefits.

If convicted of one of these offenses, the program participant shall be ineligible during that crop year and the four succeeding crop years for Direct and Counter-Cyclical payments, price support loans, loan deficiency payments, market loan gains, storage payments, farm facility loans, Non-Insured Crop Disaster Assistance Program payments or disaster payments.

Program participants convicted of any federal or state offense consisting of the

distribution (trafficking) of a controlled substance shall, at the discretion of the court, be ineligible for any or all program payments and benefits:

- For up to 5 years after the first conviction
- For up to 10 years after the second conviction
- Permanently for a third or subsequent conviction.

Program participants convicted of federal or state offense for the possession of a controlled substance shall be ineligible, at the discretion of the court, for any or all program benefits as follows:

- up to one year upon the first conviction
- up to five years after a second or subsequent conviction.

Direct and Guaranteed Loans

The Farm Service Agency is committed to providing family farmers with loans to meet their farm credit needs. If you are having trouble getting the credit you need for your farm, or regularly borrow from FSA, direct and guaranteed loans are currently available.

Ask your lender about an FSA loan guarantee if you've had a setback and your lender is reluctant to extend or renew your loan.

Farm ownership loans or farm operating loans may be obtained as direct loans for a maximum of up to \$300,000. Guaranteed loans have a maximum limit of \$1,214,000. This makes the maximum combination of direct and guaranteed loan indebtedness \$1,514,000.

The one-time loan origination fee charged on FSA guaranteed farm ownership and operating loans is 1.5 percent of the guaranteed portion of the loan.

For more information call the FSA staff.

Special Accommodations

Reasonable accommodations will be made, upon request, for individuals with disabilities, vision impairment, or hearing impairment to attend or participate in meetings or events sponsored by the Farm Service Agency. If you require special accommodations to attend or participate in one of our events, please call the FSA county office and we will be happy to make any needed arrangements.

Processing Collections and Payments Due FSA/CCC

In the coming months, FSA will begin to use scanners to process all checks that are received in local county offices.

These new scanners will process collections electronically. This means that funds will be pulled more quickly from accounts on which the checks are drawn. Contact your local FSA office for more information on this new process and when it will begin in your area.

Banking Changes?

If you changed banks and did not notified FSA, your payment could be delayed. Payments are electronically transferred into your bank account, if we are not aware of changes to your account and routing numbers, there could be problems. In order to make timely payments, you need to notify the office if you close your account or if another financial institution purchases your bank. It is important that any changes in a producer's account such as type account, bank mergers, routing number or account numbers, be provided to the county office promptly to avoid possible payment delay.

Dates to Remember	
June 15	COC Nomination Period Opened
June 30	Acreage reporting deadline for 2012 fall seeded crops
July 15	Acreage reporting deadline for all other 2012 crops
July 15	Deadline to report Actual 2011 ACRE production
Aug. 1	Last Day to file COC nomination form
Aug. 1	Last day to request farm reconstitutions
NEW DATES FOR 2013 CROPS	
October 20, 2012	Deadline to report prevented planted wheat for 2013 crop year
November 15, 2012	Deadline to certify fall-seeded small grains, including winter wheat AND perennial
