Gladwin/Clare County FSA Updates

Gladwin/Clare County FSA Office

1501 N State Street
Gladwin, MI 48624

Phone: 989-426-9461
Fax: 855-647-4847

County Executive Director:
Dave Claerhout

Farm Loan Manager:
Jerry Spickerman

Program Technicians:
Jessie Engelhard
Brenda Inscho

**Next County Committee
Meeting: TBA**

USDA Notifies Producers on Acreage History and Yields

Written notifications from USDA are underway to farmers that provide updates on their current base acres, yields and 2009-2012 planting history.

Please cross check the letter from USDA with your farm records. If the information is correct, no further action is needed at this time, but if our letter is incomplete or incorrect, contact your local FSA office as soon as possible.

Verifying the accuracy of data on a farm's acreage history is a required early step for enrolling in the upcoming Agriculture Risk Coverage (ARC) program and the Price Loss Coverage (PLC) program. Later this summer, farmers and ranchers will have an opportunity to update their crop yield information and reallocate base acres.

By mid-winter all producers on a farm will be required to make a one-time, unanimous and irrevocable election between price protection and county revenue protection or individual revenue protection for 2014-2018 crop years. Producers can expect to sign contracts for ARC or PLC for the 2014 and 2015 crop years in the spring of 2015.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (includes short grain rice and temperate japonica rice), safflower seed, sesame, soybeans, sunflower seed, and wheat. Upland cotton is no longer a covered commodity.

Visit www.fsa.usda.gov or the local FSA office for information about FSA and the 2014 Farm Bill programs.

Margin Protection Program for Dairy Producers

The 2014 Farm Bill authorized the Margin Protection Program (MPP-Dairy) for dairy producers. The new, voluntary risk management program replaces the Milk Income Loss Contract (MILC) program which expires on Sept. 1, 2014.

MPP-Dairy offers protection to dairy producers when the difference (the margin) between the all-milk price and national average feed cost falls below a certain producer selected amount.

Eligible producers may purchase coverage for their dairy operation by paying an annual administrative fee of \$100 and a premium, as applicable, for higher levels of coverage. Producers in the dairy operation will have to select a desired coverage level ranging from \$4.00 to \$8.00, in \$0.50 increments and a desired coverage percentage level ranging from 25 to 90 percent, in 5 percent increments. Producers will also have to decide whether or not to participate in the MPP-Dairy Program or the Livestock Gross Margin program administered by the Risk Management Agency (RMA), but they will not be allowed to participate in both.

A decision tool will be made available in the fall of 2014 to help producers make coverage level decisions. Enrollment will also begin this fall. Dairy operators will establish their production history during signup. Verification of the production records will be required. The regulations for MPP-dairy are still being developed. Additional information will be provided as it becomes available.

NAP Coverage Not Available For Annually Planted Crops Used For Mechanically Harvested Livestock Feed

Producers are reminded that NAP coverage will not be available for 2015 annually planted forage crops used for mechanically harvested livestock feed that includes, but is not limited to: small grains, forage sorghums, mixed forages, turnips and other annually planted crops with the following intended uses: "fg," "gc," "Hy," and "sg." The Risk Management Agency (RMA) announced a pilot program last year that offers a CAT level Rainfall Index-Annual Forage Insurance Plan to producers in Texas, Kansas, Nebraska, North Dakota, Oklahoma and South Dakota.

Producers were allowed to use NAP coverage for 2014 annual forage crops because there was limited time for producers in the pilot states to transition from NAP to the new RMA pilot program. However, NAP coverage will not be available for 2015 annual forage crops used for mechanically harvested livestock feeds.

NAP Coverage Available for 2015 Crops for Livestock Feed Intended for Grazing:

It is important that producers note that NAP coverage WILL be available for annually planted crops for livestock feed intended for grazing because RMA is not offering CAT level coverage under the Rainfall Index-Annual Forage Insurance Plan. The NAP sales closing date for this insurance is **September 1st for crops planted in the fall and December 1st or March 15th (depending on the crop) for crops planted in the spring.**

Please contact your local FSA office for questions concerning NAP or your crop insurance agent for questions concerning RMA crop insurance. A list of agents can be found at www.rma.usda.gov/.

Producers were allowed to use NAP coverage for 2014 annual forage crops because there was limited time for producers in the pilot states to transition from NAP to the new RMA pilot program. However, NAP coverage will not be available for 2015 annual forage crops used for mechanically harvested livestock feeds.

USDA Reminds Farmers of 2014 Farm Bill Conservation Compliance Changes

Changes mandated through the 2014 Farm Bill require producers to have a Highly Erodible Land Conservation and Wetland Conservation Certification (AD-1026) on file.

For farmers to be eligible for premium support on their federal crop insurance, a completed and signed AD-1026 form must be on file with the FSA. Since many FSA and Natural Resource Conservation (NRCS) programs have this requirement, most producers should already have an AD-1026 on file. If producers have not filed, they must do so by June 1, 2015.

When a farmer completes the AD-1026, FSA and NRCS staff will outline any additional actions that may be required for compliance with the provisions. The Risk Management Agency, through the Federal Crop Insurance Corporation (FCIC), manages the federal crop insurance program that provides the modern farm safety net for American farmers and ranchers.

Since enactment of the 1985 Farm Bill, eligibility for most commodity, disaster, and conservation programs has been linked to compliance with the highly erodible land conservation and wetland conservation provisions. The 2014 Farm Bill continues the requirement that producers adhere to conservation compliance guidelines to be eligible for most programs administered by FSA and NRCS. This includes the new price and revenue protection programs, the Conservation Reserve Program, the Livestock Disaster Assistance programs and Marketing Assistance Loans implemented by FSA. It also includes the Environmental Quality Incentives Program, the Conservation Stewardship Program, and other conservation programs.

FSA recently released a revised form AD-1026, which is available at USDA Service Centers and online at: www.fsa.usda.gov. USDA will publish a rule later this year that will provide details outlining the connection of conservation compliance with crop insurance premium support. Producers can also contact their local USDA Service Center for information. A listing of service center locations is available at www.nrcs.usda.gov/wps/portal/nrcs/main/national/contact/local/.

Disaster Assistance for 2012 Frost or Freeze Fruit Crop Losses Announced

Enrollment Begins July 22

Producers who experienced losses to bush or tree fruit crops due to frost or freeze during the 2012 crop year may be eligible for assistance through the Noninsured Crop Disaster Assistance Program (NAP). The program, authorized by the 2014 Farm Bill, provides supplemental NAP payments to eligible producers.

Farmers who did not have access to crop insurance and are in primary and adjacent counties that received a Secretarial disaster designation because of frost or freeze in 2012 are eligible for NAP assistance. Losses due to weather damage or other adverse natural occurrences may also qualify for program assistance.

NAP enrollment begins July 22, 2014. Applications must be submitted to FSA county offices by **Sept. 22, 2014**.

To expedite applications, producers who experienced losses are encouraged to collect records documenting these losses in preparation for sign-up. Producers also are encouraged to contact their FSA county office to schedule an appointment. Limited resource, socially disadvantaged, and beginning producers are eligible for premium reductions and also may be eligible for fee reductions.

Interested producers can view the 2012 NAP Coverage for Frost, Freeze or Weather Related Fruit Losses Fact Sheet at <http://go.usa.gov/5kSQ>, or visit a local FSA office. To find out if land is located in an eligible frost/freezing county, visit <http://go.usa.gov/53rz>.

USDA Farm Service Agency (FSA) Announces Online Hay and Grazing Acres Locator Tool

For many years, FSA's **Hay Net** website www.fsa.usda.gov/haynet has been the "go to" online resource for agricultural producers to list information concerning the need for hay or the availability of hay.

Now, in response to requests from livestock producers and landowners, FSA has expanded the site to include the option to list a need for grazing acres or to list acres available for grazing.

If, due to extenuating circumstances, producers are in need of hay and/or grazing acres to support livestock, please use **Hay Net** to post an advertisement seeking these resources. Likewise, landowners who have hay and/or grazing acres available for livestock producers should post a Hay Net advertisement as well.

A few things to remember when using the **Hay Net** website:

- There is a one-time registration process that should be completed by all users who want to an ad online.
- Users who just want to browse ads DO NOT NEED to have an eAuthentication user id.
- Hay and grazing acre ads will be automatically removed after a period of 13 months.
- Please help your fellow farmer and rancher by keeping ads current and up to date and remove ads you no longer need or want advertised on **Hay Net**. Please, no corporate advertisements on this site.

Hay Net is brought to you by FSA as a public service. The sole purpose of this online resource is to provide a site for the exchange of information. FSA does not endorse, guarantee, or otherwise make representations of any kind regarding any user of this site and FSA is not responsible for defining the terms of grazing agreements or lease contracts.

For more information about **Hay Net** and other FSA services and programs, please contact your local FSA office. For local FSA Service Center contact information, please visit: <http://offices.sc.egov.usda.gov/locator/app>.
