Jerry Spickerman

**Program Technicians:**  
Becky Dickman  
Connie Moeggenborg  
Heather Hadder  
Colleen Schuldt

**Farm Loan Trainee:**  
Matt Peacock

**County Committee:**  
Beth Bryant - Chair  
John Kampf - Vice Chair  
Kevin Faber - Member  
Carol Neyer - Advisor

**Next County Committee Meeting:** To be determined

### BEGINNING FARMER LOANS

FSA assists beginning farmers to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

- \* Has operated a farm for not more than 10 years
- \* Will materially and substantially participate in the operation of the farm
- \* Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA
- \* Does not own a farm in excess of 30 percent of the county's average size farm.

Additional program information, loan applications, and other materials are available at your local USDA Service Center. You may also visit [www.fsa.usda.gov](http://www.fsa.usda.gov).

### USDA'S FARM SERVICE AGENCY (FSA) OFFERS FARM BILL WEBSITE AND ONLINE OVERVIEW OF FARM BILL PROGRAMS

The Agricultural Act of 2014 (the Act), also known as the 2014 Farm Bill, was signed by President Obama on Feb. 7, 2014. The Act repeals certain programs, continues some programs with modifications, and authorizes several new programs administered by the Farm Service Agency (FSA). Most of these programs are authorized and funded through 2018.

For the latest on 2014 Farm Bill programs administered by FSA, please visit our Farm Bill website at [www.fsa.usda.gov/farmbill](http://www.fsa.usda.gov/farmbill) and for an FSA program overview please read, download and/or print our recently posted FSA Farm Bill Fact Sheet titled, [What's in the 2014 Farm Bill for Farm Service Agency Customers?](#)

For more information on FSA, please contact your local USDA Service Center or visit us online at [www.fsa.usda.gov](http://www.fsa.usda.gov).

---

## 2014 MAL AND LDP REQUESTS

The USDA Farm Service Agency (FSA) is accepting requests for marketing assistance loans (MALs) and loan deficiency payments (LDPs) for eligible 2014 commodities.

MALs and LDPs for the 2014 crop year become available to eligible producers beginning with harvest/shearing season and extending through a specific commodity's final loan availability date. Sugar commodity loans for the 2014 crop will be available to sugar processors beginning Oct. 1, 2014.

MALs and LDPs provide financing and marketing assistance for wheat, feed grains, soybeans, and other oilseeds, pulse crops, rice, peanuts, cotton, wool, mohair and honey. MALs provide producers interim financing after harvest to help them meet cash flow needs without having to sell their commodities when market prices are typically at harvest-time lows. A producer who is eligible to obtain a loan, but agrees to forgo the loan, may obtain an LDP if such a payment is available. Marketing loan provisions and LDPs are not available for sugar and extra-long staple cotton.

The 2014 Farm Bill also establishes payment limitations per individual or entity not to exceed \$125,000 annually on certain commodities for the following program benefits: price loss coverage payments, agriculture risk coverage payments, marketing loan gains (MLGs) and LDPs. These payment limitations do not apply to MAL loan disbursements.

Adjusted Gross Income (AGI) provisions were modified by the 2014 Farm Bill, which states that a producer whose total applicable three-year average AGI exceeds \$900,000 is not eligible to receive an MLG or LDP.

National and county loans rates for 2014 crops are posted on the FSA website at: [www.fsa.usda.gov/pricesupport](http://www.fsa.usda.gov/pricesupport).

For more information, please visit a nearby USDA Service Center or FSA's website [www.fsa.usda.gov](http://www.fsa.usda.gov).

---

## HIGHLY ERODIBLE LAND AND WETLAND COMPLIANCE

Landowners and operators are reminded that in order to receive payments from USDA, they must be compliant with Highly Erodible Land (HEL) and Wetland Conservation (WC) provisions. Farmers with HEL determined soils must apply tillage, crop residue and rotation requirements as specified in their conservation plan.

Producers should notify FSA prior to conducting land clearing or drainage projects to ensure compliance. If you intend to clear any trees to create new cropland, these areas will need to be reviewed to ensure any work will not jeopardize your eligibility for benefits.

Landowners and operators can complete form AD-1026 Highly Erodible Land Conservation (HELC) and Wetland Conservation (WC) Certification to determine whether a referral to Natural Resources Conservation Service (NRCS) is necessary.

For more information on Highly Erodible Land and Wetland Conservation provisions, contact a FSA County Office or visit the FSA website at [www.fsa.usda.gov](http://www.fsa.usda.gov).

---

## FARM RECONSTITUTIONS

When changes in farm ownership or operation take place, a farm reconstitution may be necessary. The reconstitution — or recon — is the process of combining or dividing farms or tracts of land based on the farming operation.

Reporting any changes to your farming operation such as farming new land, ownership changes, or no longer associated with a farm is vitally important to keeping your records up to date. Having current information will save you time when certifying or enrolling in programs.

---

## FARM SAFETY

Summer is an exciting and hectic time for farmers. Isabella County FSA employees care about our customers, and want to remind them to practice farm safety.

Remember to: Walk around machinery and check shields and guards; make sure the PTO's master shield is in place; make sure Slow Moving Vehicle signs are on machinery.

If you are taking medicine, take it at the appropriate time and eat on schedule.

If you are working in grain bins know that flowing grain can kill, and it can kill quickly. It takes less than five seconds for a person caught in flowing grain to be trapped. Try not to work alone in bins or confined spaces, and if that's not possible let someone know where you are by checking in regularly by cell phone.

The American Society of Safety Engineers (ASSE) offers the following safety tips for farmers:

1. Educate yourself on farm equipment. Read and follow instructions according to the equipment's manuals about safety.
2. Conduct regular equipment inspections.
3. Don't wear loose clothing while entering confined spaces such as grain bins, silos and hoppers as this can prevent entanglements.
4. Install Rollover Protective Structures (ROPS) on tractors.
5. Use seat belts while operating tractors with a ROPS. Do not allow additional passengers on the tractor with you.
6. While operating tractors and other farm equipment, be very cautious on rural roadways.
7. Use protective gear when operating machinery: Be familiar with hazardous chemicals. Take extra precaution when handling chemicals such as anhydrous ammonia, carbon dioxide, methane gas and hydrogen sulfide.
8. Consistently educate your family and co-workers about safety practices, especially children.
