## Montcalm County FSA Updates

---

### Montcalm County FSA Office

77 S State St  
Stanton MI 48888

Phone: 989-831-4212  
Fax: 855-663-1381

**County Executive Director:**  
Wayne Stickler

**Farm Loan Manager:**  
Paul Wagner

**Farm Loan Officer:**  
Sara Possehn

**County Committee:**  
Jack Jeppesen, Chairperson  
Judy Johnston, Vice-Chair  
Dan Ryan, Member  
Mary Waldron, Advisor

**Program Technicians:**  
Becky Proctor  
Pam Brooks  
Heather Hadder

**Next County Committee  
Meeting:** TBD

### USDA NOTIFIES PRODUCERS ON ACREAGE HISTORY AND YIELDS

Written notifications from USDA are underway to farmers that provide updates on their current base acres, yields and 2009-2012 planting history.

Please cross check the letter from USDA with your farm records. If the information is correct, no further action is needed at this time, but if our letter is incomplete or incorrect, contact your local FSA office as soon as possible.

Verifying the accuracy of data on a farm's acreage history is a required early step for enrolling in the upcoming Agriculture Risk Coverage (ARC) program and the Price Loss Coverage (PLC) program. Later this summer, farmers and ranchers will have an opportunity to update their crop yield information and reallocate base acres.

By mid-winter all producers on a farm will be required to make a one-time, unanimous and irrevocable election between price protection and county revenue protection or individual revenue protection for 2014-2018 crop years. Producers can expect to sign contracts for ARC or PLC for the 2014 and 2015 crop years in the spring of 2015.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (includes short grain rice and temperate japonica rice), safflower seed, sesame, soybeans, sunflower seed, and wheat. Upland cotton is no longer a covered commodity.

Visit [www.fsa.usda.gov](http://www.fsa.usda.gov) or the local FSA office for information about FSA and the 2014 Farm Bill programs.

## DISASTER ASSISTANCE FOR 2012 FROST OR FREEZE FRUIT CROP LOSSES ANNOUNCED

Producers who experienced losses to bush or tree fruit crops due to frost or freeze during the 2012 crop year may be eligible for assistance through the Noninsured Crop Disaster Assistance Program (NAP). The program,

authorized by the 2014 Farm Bill, provides supplemental NAP payments to eligible producers.

Farmers who did not have access to crop insurance and are in primary and adjacent counties that received a Secretarial disaster designation because of frost or freeze in 2012 are eligible for NAP assistance. Losses due to weather damage or other adverse natural occurrences may also qualify for program assistance.

NAP enrollment begins July 22, 2014. Applications must be submitted to FSA county offices by Sept. 22, 2014.

To expedite applications, producers who experienced losses are encouraged to collect records documenting these losses in preparation for sign-up. Producers also are encouraged to contact their FSA county office to schedule an appointment. Limited resource, socially disadvantaged, and beginning producers are eligible for premium reductions and also may be eligible for fee reductions.

Interested producers can view the 2012 NAP Coverage for Frost, Freeze or Weather Related Fruit Losses Fact Sheet at <http://go.usa.gov/5kSQ>, or visit a local FSA office. To find out if land is located in an eligible frost/freezing county, visit <http://go.usa.gov/53rz>.

## MARGIN PROTECTION PROGRAM FOR DAIRY PRODUCERS

The 2014 Farm Bill authorized the Margin Protection Program (MPP-Dairy) for dairy producers. The new, voluntary risk management program replaces the Milk Income Loss Contract (MILC) program which expires on Sept. 1, 2014.

MPP-Dairy offers protection to dairy producers when the difference (the margin) between the all-milk price and national average feed cost falls below a certain producer selected amount.

Eligible producers may purchase coverage for their dairy operation by paying an annual administrative fee of \$100 and a premium, as applicable, for higher levels of coverage. Producers in the dairy operation will have to select a desired coverage level ranging from \$4.00 to \$8.00, in \$0.50 increments and a desired coverage percentage level ranging from 25 to 90 percent, in 5 percent increments. Producers will also have to decide whether or not to participate in the MPP-Dairy Program or the Livestock Gross Margin program administered by the Risk Management Agency (RMA), but they will not be allowed to participate in both.

A decision tool will be made available in the fall of 2014 to help producers make coverage level decisions. Enrollment will also begin this fall. Dairy operators will establish their production history during signup. Verification of the production records will be required. The regulations for MPP-dairy are still being developed. Additional information will be provided as it becomes available.

## USDA REMINDS FARMERS OF 2014 FARM BILL CONSERVATION COMPLIANCE CHANGES

Changes mandated through the 2014 Farm Bill require producers to have a Highly Erodible Land Conservation and Wetland Conservation Certification (AD-1026) on file.

For farmers to be eligible for premium support on their federal crop insurance, a completed and signed AD-1026 form must be on file with the FSA. Since many FSA and Natural Resource Conservation (NRCS) programs have this requirement, most producers should already have an AD-1026 on file. If producers have not filed, they must do so by June 1, 2015.

When a farmer completes the AD-1026, FSA and NRCS staff will outline any additional actions that may be required for compliance with the provisions. The Risk Management Agency, through the Federal Crop Insurance Corporation (FCIC), manages the federal crop insurance program that provides the modern farm safety net for American farmers and ranchers.

Since enactment of the 1985 Farm Bill, eligibility for most commodity, disaster, and conservation programs has been linked to compliance with the highly erodible land conservation and wetland conservation provisions. The 2014 Farm Bill continues the requirement that producers adhere to conservation compliance guidelines to be eligible for most programs administered by FSA and NRCS. This includes the new price and revenue protection programs, the Conservation Reserve Program, the Livestock Disaster Assistance programs and Marketing Assistance Loans implemented by FSA. It also includes the Environmental Quality Incentives Program, the Conservation Stewardship Program, and other conservation programs.

FSA recently released a revised form AD-1026, which is available at USDA Service Centers and online at: [www.fsa.usda.gov](http://www.fsa.usda.gov). USDA will publish a rule later this year that will provide details outlining the connection of conservation compliance with crop insurance premium support. Producers can also contact their local USDA

Service Center for information. A listing of service center locations is available at [www.nrcs.usda.gov/wps/portal/nrcs/main/national/contact/local/](http://www.nrcs.usda.gov/wps/portal/nrcs/main/national/contact/local/).

## LOANS FOR THE SOCIALLY DISADVANTAGED

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for members of socially disadvantaged applicants.

A socially disadvantaged applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, socially disadvantaged groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

## KNOW YOUR FARMER, KNOW YOUR FOOD

The Know Your Farmer, Know Your Food (KYF2) initiative is a USDA-wide effort focused on strengthening local and regional food systems.

In recent years, consumers have shown an increased interest in purchasing locally-produced foods and many farmers and ranchers followed the trend and offer fresh foods through local markets.

USDA followed suit, developing KYF2, which helps connect consumers with producers in their community. USDA offers a wide range of programs that can assist farmers, ranchers, businesses, communities and individuals. To learn more about grants, loans and support that is available, visit [http://www.usda.gov/wps/portal/usda/usdahome?navid=KYF\\_GRANTS](http://www.usda.gov/wps/portal/usda/usdahome?navid=KYF_GRANTS).

These USDA programs stimulate economic development in agricultural communities, foster new opportunities for farmers and ranchers, promote locally and regionally grown and processed foods, cultivate healthy eating habits and educated consumers, expand access to affordable fresh and local food and develop a connection between food, agriculture, community and the environment.

For more information on KYF2, visit <http://www.usda.gov/wps/portal/usda/knowyourfarmer?navid=KNOWYOURFARMER>
