## County Committee Nominations

The election of agricultural producers to the Farm Service Agency (FSA) county committees is important to all farmers and ranchers, whether beginning or long-established, large or small operation. It is crucial that every eligible producer participate in these elections because FSA county committees are a link between the agricultural community and the U.S. Department of Agriculture.

County committee members are a critical component of the operations of FSA. They help deliver FSA farm programs at the local level. Farmers and ranchers who serve on county committees help with the decisions necessary to administer the programs in their counties. They work to ensure FSA agricultural programs serve the needs of local producers.

FSA county committees operate within official regulations designed to carry out federal laws. County committee members apply their judgment and knowledge to make local decisions.

The COC nomination period runs from June 15, 2012 through August 1, 2012. For more information just contact your local FSA office.

## DCP/ACRE Sign-Up Deadline

Enrollment for the 2012 Direct and Counter-Cyclical Program (DCP) will continue through June 1, 2012. USDA urges producers to make use of the eDCP automated website to sign-up or visit any USDA Service Center to complete the 2012 DCP contract.

USDA computes DCP Program payments using base acres and payment yields established for each farm. Eligible producers receive direct payments at rates established by statute regardless of market prices. For more information on this or other programs, contact the nearest FSA office.

The Average Crop Revenue Election (ACRE) offers producers an alternative to Direct and Counter-Cyclical (DCP) payments. The ACRE alternative provides eligible producers a state-level revenue guarantee, based on the five-year state Olympic average yield and the two-year national average price.

ACRE payments are made when both state- and farm-level triggers are met. By participating in ACRE, producers elect to forgo counter-cyclical payments. Producers also agree to receive a 20 percent reduction in direct

payments and a 30 percent reduction in loan rates.

A decision to elect ACRE binds the producer to the program through the 2012 crop year, the last crop year covered by the 2008 Farm Bill. For more details contact the local FSA office.

## **Deadline for Reporting Crop - July 15th**

The annual, timely and accurate reporting of acres for all crops and land uses, including failed acreage, can prevent loss of benefits for a variety of FSA programs. All cropland on the farm must be reported to receive benefits from the Direct and Counter-Cyclical Program, marketing assistance loans and Loan Deficiency Payments.

Conservation Reserve Program acreage must be reported to receive annual rental payments. Crop acreage for Non-Insured Crop Disaster Assistance Program (NAP) also must be reported.

Crop reports — form FSA-578, Report of Acreage — must account for all cropland on a farm, whether idle or planted. Producers need to file their acreage reports by July 15, 2012.

## **MILC Program**

FSA's Milk Income Loss Contract Program (MILC) compensates dairy producers when domestic milk prices fall below a specified level. MILC payments are made when the Boston Class I milk price falls below \$16.94 per hundredweight (cwt) as adjusted by the dairy feed ration adjustment. The monthly Boston price is posted online at:

[http://www.fmmone.com/Northeast\\_Order\\_Prices/NE\\_Prices\\_main\\_new.htm](http://www.fmmone.com/Northeast_Order_Prices/NE_Prices_main_new.htm).

Eligible producers should submit the current MILC (Milk Income Loss Contract) statements for payment. Eligibility for 2012 must be completed before payments can be disbursed. Please contact the office to check the status of your eligibility. New producers are encouraged to apply for the program any time before Sept. 30, 2012.
