Amy Brown  
Kim Deming  
Jamie Maier  
Brenda Nichol  
Sherri Sadro  
Felicia Schulte

**County Committee:**  
Mike Bender  
Constance Kreger  
Sharon Rockwell

## USDA URGES PRODUCERS TO COMPLETE AND RETURN THE 2012 CENSUS OF AGRICULTURE

The USDA National Agricultural Statistics Service (NASS) mailed the 2012 Census of Agriculture during the last week of December and is asking for the help of farmers and ranchers in collecting accurate data.

The Census of Agriculture is only conducted once every five years and captures a count of all U.S. farms, ranches and those who operate them. Everyone who receives a Census form is required to return the Census form, even if they no longer farm or have never been involved in agriculture. Retired operators who own land enrolled in the Conservation Reserve Program (CRP) or Wetland Reserve Program (WRP) are counted as farms and should complete the Census form.

Results of the Census are used by USDA, university research and extension, state and local officials, agribusinesses, farm organizations and commodity groups to make important policy and business decisions that impact people across the nation.

Please return the Census by February 4, 2013. Producers can also complete the Census online at [www.agcensus.usda.gov](http://www.agcensus.usda.gov) after receiving the Census form through the mail. Information reported by producers is confidential. The results of the Census show the strength and diversity of U.S. agriculture.

Your answers to the Census can help grow your farm future, shape farm programs and boost services for you, your community and your industry.

For questions or help completing the Census, contact NASS at (888) 424-7828.

---

## **FARMING OPERATION CHANGES**

Producers who have bought or sold land, or added or dropped rented land from their operation must report those changes to the FSA office as soon as possible. A copy of the deed or recorded land contract for purchase property is needed to maintain accurate records with FSA. Failure to do so can lead to possible program ineligibility. While making record updates, be sure to update signature authorizations. Making record changes now will save time in the spring.

---

## **IRS 1099 CHANGES**

In past years, IRS Form 1099-G was issued to show all program payments received from the Farm Service Agency, regardless of the amount. For calendar year 2012, the 1099-G reporting will change.

IRS Form 1099-G (Report of Payments to Producers) will only be issued to producers whose reportable payments total \$600 or more for the calendar year. Additionally, if the producer has at least \$600 in reportable payments received from multiple FSA offices, only one Form 1099-G will be issued. Producers subject to voluntary withholding or backup (involuntary) withholding will receive the appropriate IRS form, even if combined payments are less than \$600.

The same changes will apply to producers and vendors who normally receive IRS Form 1099-MISC from FSA. Any producer who receives less than \$600 in combined payments should consult a tax advisor to determine if these payments must be reported on their tax return. For more information regarding IRS reporting changes, please contact the Sanilac County FSA office at 810-648-2998.

---

## **MARKETING ASSISTANCE LOANS (MAL)**

Short-term financing is available by obtaining low interest commodity loans for eligible harvested production. A nine-month Marketing Assistance Loan provides financing that allows producers to store production for later marketing. The crop may be stored on the farm or in the warehouse.

Loans are available for producers who share in the risk of producing the eligible commodity and maintain beneficial interest in the crop through the duration of the loan. Beneficial interest means retaining the ability to make decisions about the commodity, responsibility for loss because of damage to the commodity and title to the commodity. Once beneficial interest in a commodity is lost, it is ineligible for a loan, even if you regain beneficial interest.

---

## **NONINSURED CROP DISASTER ASSISTANCE PROGRAM (NAP)**

The noninsured crop disaster assistance program (NAP) is a federally funded program that helps producers reduce their risk when growing food and fiber crops, specialty crops and crops for livestock feed. These benefits are only available for crops for which the catastrophic level of crop insurance is not available. Application for coverage must be filed by the applicable crop's application closing date.

Production records for all crops must be reported to FSA no later than the acreage reporting date for the crop for the following year. FSA requires that any production reported in a loss year be verifiable according to Agency specifications. NAP Losses must be reported within 15 days of the date the loss became apparent.

The following crops have a NAP application closing date of March 15, 2013: beans, corn, cucumbers, eggplant, guar, melons (cantaloupe, honeydew, watermelon, etc.), millet, okra, peanuts, peas, pecans, peppers, potatoes, pumpkins, sesame, sorghum, sorghum forage, soybeans, squash, sunflowers and tomatoes.

---

## **POWER OF ATTORNEY**

For those who find it difficult to visit the county office because of work schedules, distance, health, etc..., FSA has a power of attorney form available that allows producers to designate another person to conduct business at the office. If interested, contact our office or any Farm Service Agency office for more information.

---

## **SPECIAL ACCOMMODATIONS**

Special accommodations will be made upon request for individuals with disabilities, vision impairment or hearing impairment. If accommodations are required, individuals should contact the county FSA office staff directly or by phone.

---

## **CONTROLLED SUBSTANCE**

Any person convicted under federal or state law of a controlled substance violation could be ineligible for USDA payments or benefits. Violations include planting, harvesting or growing a prohibited plant. Prohibited plants include marijuana, opium, poppies and other drug producing plants.
