Shiawassee County Seeks a Representative for the County Committee

County Committee (COC) elections provide farmers and ranchers the opportunity to represent producers in their community by serving on their local FSA COC. All farmers and ranchers are encouraged to consider running for COC seats.

Significant emphasis continues to be placed on improving diversity on COC's. FSA is working diligently to increase the number of SDA farmers and ranchers nominated for COC using FSA-669A. State and County Offices have actively and successfully been able to place many more SDA candidates' names on ballots. Efforts must be continued and expanded to ensure that SDA farmers and ranchers have every opportunity for election to FSA COC's.

Elections this year will be held in the Local Administrative Area #2 consisting of the townships of; Caledonia, Hazelton, New Haven, Rush and Venice. Eligible persons may submit form FSA-669A, Nominating Petition to the County Office no later than August 1, 2014.

For more information regarding the County Committee System and/or election process please visit your local Farm Service Agency office or online at <http://www.fsa.usda.gov/elections>

Loans for the Socially Disadvantaged

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for members of socially disadvantaged applicants.

A socially disadvantaged applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, socially disadvantaged groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

Farm Reconstitutions

When changes in farm ownership or operation take place, a farm reconstitution is necessary. The reconstitution - or recon - is the process of combining or dividing farms or tracts of land based on the farming operation.

The following are the different methods used when doing a farm recon.

Estate Method — the division of bases, allotments and quotas for a parent farm among heirs in settling an estate;

Designation of Landowner Method — may be used when (1) part of a farm is sold or ownership is transferred; (2) an entire farm is sold to two or more persons; (3) farm ownership is transferred to two or more persons; (4) part of a tract is sold or ownership is transferred; (5) a tract is sold to two or more persons; or (6) tract ownership is transferred to two or more persons. In order to use this method the land sold must have been owned for at least three years, or a waiver granted, and the buyer and seller must sign a Memorandum of Understanding;

DCP Cropland Method — the division of bases in the same proportion that the DCP cropland for each resulting tract relates to the DCP cropland on the parent tract;

Default Method — the division of bases for a parent farm with each tract maintaining the bases attributed to the tract level when the reconstitution is initiated in the system
