Noninsured Crop Disaster Assistance Program (NAP)

The Noninsured Crop Disaster Assistance Program (NAP) is a federally-funded program that helps producers reduce their risk when growing food and fiber crops, specialty crops and crops for livestock feed. These benefits are only available for crops for which the catastrophic level of crop insurance is not available. Application for coverage must be filed by the applicable crop's application closing date.

Production records for all crops must be reported to FSA no later than the application closing date for the crop for the following year. FSA requires that any production reported in a loss year be verifiable according to Agency specifications. *NAP losses must be reported within 15 days of loss. **Spring seeded crops, pasture and forage deadline to purchase NAP insurance is March 15, 2011.***

County Committee Election Results

Congratulations to Nancy Roberts! Nancy was re-elected to represent farmers from the Southwestern part of Reynolds County on the county committee. Nancy was elected to her second consecutive term. The election results for Local Administrative Area 3 are:

Nancy Roberts — Elected to the county committee (COC)

Lela E. Albert -1st alternate to COC

Congratulations to Lloyd Detwiler! Lloyd was elected to represent farmers from Shannon County South of Jack's Fork River and Current River on the county committee. Lloyd was elected to his first consecutive term. The election results for Local Administrative Area 1 are:

Lloyd Detwiler — Elected to the county committee (COC)

Katie Dowler -1st alternate to COC

FSA appreciates all of the voters for taking the time to complete the election ballot. The county committee system works only because of your participation. The committee members held their organizational meeting in January. David Barnett is serving as County Committee Chairman and Gary Gant is serving as Vice-Chairman.

CRP GENERAL SIGNUP BEGINS MARCH 14

The Conservation Reserve Program (CRP) is offering a general signup period from March 14, 2011 through April 15, 2011. This is the second consecutive year that USDA has offered a general CRP signup. Landowners enrolled in the CRP program receive annual rental payments and cost-share assistance to establish long-term, resource conserving covers on eligible farmland. Land that is not currently enrolled in CRP can be offered during sign-up if all eligibility requirements are met. CRP participants with contracts expiring this fall can make new contract offers during the signup period. Contracts awarded during this general signup will become effective October 1, 2011. For more information, please contact the Shannon/Reynolds County Office at (573) 226-3241 Ext. 2 or visit <http://www.fsa.usda.gov/crp>.

CONSERVATION LOAN PROGRAM

The Farm Service Agency makes and guarantees conservation loans on farms and ranches to help conserve our natural resources. The Conservation Loan (CL) Program provides farmers with the credit necessary to implement conservation measures on their land. The direct CLs loan limit is up to \$300,000 and guaranteed CLs up to \$1,119,000 (amount adjusted for

inflation), may be available by applying with lenders working with FSA to obtain a guarantee. Conservation practices must be approved by NRCS before FSA can provide financing. Producers who do not currently have an existing conservation plan should visit NRCS to develop one prior to requesting Conservation Loan Program assistance. Examples of conservation practices include installation of conservation structures; establishment of forest cover; installation of water conservation measures; establishment or improvement of permanent pastures; transitioning to organic production; manure management, including manure digestion systems; etc.

CCC-927 OR CCC-928 MUST BE SENT TO IRS

Producers who participated in 2009 or 2010 programs subject to adjusted gross income limitations (AGI) had to certify compliance with AGI rules. The average AGI verification process for 2009 and 2010 payment eligibility requires all program participants to provide written consent to IRS for the disclosure of certain information to FSA. On October 6, 2010, a letter was mailed to producers who have not submitted:

CCC-927: "Consent to Disclosure of Tax Information-Individual Form" and CCC-928: "Consent to Disclosure of Tax Information-Legal Entity"

Individuals and legal entities, including members of legal entities, that certified to average AGI compliance for 2009 and/or 2010 payment eligibility must submit a completed CCC-927 or CCC-928 to IRS regardless of whether they received program benefits directly or as a member of a joint operation or entity. These forms must be submitted to IRS in order to avoid a demand for refund of program payments and benefits received.

Foreign Buyers Notification

The Agricultural Foreign Investment Disclosure Act (AFIDA) requires all foreign owners of U.S. agricultural land to report their holdings to the Secretary of Agriculture. The Farm Service Agency administers this program for USDA. All individuals who are not U.S. citizens, and have purchased or sold agricultural land in the county are required to report the transaction to FSA with 90 days of the closing. Failure to submit the AFIDA form (FSA-153) could result in civil penalties of up to 25 percent of the fair market value of the property. County government offices, Realtors, attorneys and others involved in real estate transactions are reminded to notify foreign investors of these reporting requirements.

Farming Operation Changes

If you have bought or sold land, or if you have added or dropped rented land from your operation, make sure you report the changes to the office as soon as possible. You need to provide a copy of your deed or recorded land contract for purchased property. Failure to maintain accurate records with FSA on all land you have an interest in can lead to possible program ineligibility and penalties. Making the record changes now will save you time in the spring. Update signature authorization when changes in the operation occur. Producers are reminded to contact the office of a change in operations on a farm so that records can be kept current and accurate.

Highly Erodible Land and Wetland Conservation Compliance

Landowners and operators are reminded that in order to receive payments from USDA, compliance with Highly Erodible Land (HEL) and Wetland Conservation (WC) provisions are required. Farmers with HEL determined soils are reminded of tillage, crop residue, and rotation requirements as specified per their conservation plan. Producers are to notify the USDA Farm Service Agency prior to conducting land clearing or drainage projects to insure compliance. Failure to obtain advance approval for any of these situations can result in the loss of eligibility and all Federal payments.

Controlled Substance

Any person who is convicted under federal or state law of a controlled substance violation could be ineligible for USDA payments or benefits. Violations include planting, harvesting or growing a prohibited plant. Prohibited plants include marijuana, opium, poppies and other drug producing plants.

Special Accommodations

Special accommodations will be made upon request for individuals with disabilities, vision impairment or hearing impairment. If accommodations are required, individuals should contact the county FSA office staff directly or by phone.

Power of Attorney

For those who find it difficult to visit the county office personally because of work schedules, distance, health, etc., FSA has a power of attorney form available that enables you to designate another person to conduct your business at the office. If you are interested, please contact our office or any Farm Service Agency office near you for more information.

Bank Account Changes

Current policy mandates that FSA payments be electronically transferred into your bank account. In order for timely payments to be made, producers need to notify the FSA county office if your account has been changed or if another financial institution purchases your bank. Payments can be delayed if the FSA office is not aware of updates to your account and routing numbers.

Appeal Process

After an FSA official makes a decision on your request for USDA services or application, you will be sent a letter informing you of the decision and options you can pursue if you disagree.

Generally, program participants have three choices — an informal review with the original agency decision-maker, an opportunity for mediation and finally an appeal to the next level of authority within the agency.

FSA Signature Policy

Husbands and wives may sign documents on behalf of each other for FSA and Commodity Credit Corporation programs in which either has an interest. This option is automatically available unless a written request for exclusion is made to the county office staff by either spouse.

There are exceptions to the rule, where spouses may not sign on behalf of each other for partnerships, joint ventures, corporations or other similar entities.

Individual signatures are also required on certain Farm Loan Program and Farm Storage Facility Loan documents.

For more clarification on spousal signature authority, feel free to contact your local FSA office.

Financial Management Information

January signals the beginning of a new year and a time to starting thinking about filing taxes. Producers who have signed up for a USDA eAuthentication Level 2 account will be able to access their farm data via the Financial Inquiries webpage.

FSA has created for the customer a new Financial Management Information webpage with links to Financial Inquiries, Financial Services and includes:

- how to get financial applications
- walk-through instructions on financial applications
- Financial Fact Sheet
- Examples of Disbursement Statements
- Electronic Form Link

A link to the new Financial Management Information webpage can be found on the Missouri Public Home Page at <http://www.fsa.usda.gov/mo> on the right side of the screen under "I Want to ..." View my Financial Information.

IRS Form 1099-G

Producers annually receive CCC-1099-Gs detailing payments producers have received from the Commodity Credit Corporation. The annual report of program payments on CCC-1099-Gs is a service intended to help our customers report taxable income. It is not intended to replace the producers' responsibilities to report income to IRS. FSA staff cannot interpret IRS regulations or advise producers about which payments to report on their income tax returns. However, county office staff can review payments for accuracy.

SORGHUM CHECKOFF REFERENDUM SCHEDULED

USDA will conduct a referendum on the Sorghum Checkoff Program Feb. 1-28, 2011, at local Farm Service Agency (FSA) offices. Ballots may be obtained in person, by mail or facsimile at county FSA offices, or via the Internet at www.ams.usda.gov/sorghumpage.

Any eligible person engaged in the production or importation of sorghum from July 1, 2008, to December 31, 2010, is eligible to participate. Individuals must prove they sold grain sorghum during the eligible period. Individuals are required to provide documentation such as a sales receipt or remittance form that shows they engaged in the production or importation of sorghum. Sorghum Checkoff is a national, coordinated, self-help marketing program designed to strengthen the position of sorghum in the market place, maintain and expand existing domestic and foreign markets and uses for sorghum, and develop new markets and uses for sorghum.

Selected Interest Rates for February 2011	
90-Day Treasury Bill	0.125%
Farm Operating Loans — Direct	2.25%
Farm Ownership Loans — Direct	4.75%
Limited Resource Loans	5.00%
Farm Ownership Loans — Direct Down Payment, Beginning Farmer or Rancher	1.50%
