

UNITED STATES DEPARTMENT OF AGRICULTURE

Farm Service Agency
Washington, DC 20250

Acreage and Compliance Determinations
2-CP (Revision 15)

Amendment 80

Approved by: Deputy Administrator, Farm Programs

Amendment Transmittal

A Reasons for Amendment

Paragraph 18 has been amended to clarify policy on acreage reporting dates.

Subparagraph 21 B has been amended to add an exception for using physical existence of the crop for FSFL history purposes.

Subparagraph 21 D has been amended to update policy for late-filed crop acreage reported between July 1, 2012, and September 15, 2013.

Subparagraph 301 A has been amended to remove procedure that restricts specific value loss crops from being loaded into CARS.

Subparagraph 305 C has been amended to clarify that the "Refresh Farm Data" option does not apply to farm/tract reconstitutions.

Subparagraph 306 A has been amended to update the paragraph reference for the "Refresh Farm Data" option.

Paragraph 311 has been amended to add procedure for deleting farms from CARS because of Farms Records Reconstitutions.

Subparagraph 318 B has been amended to add the description for new report "Farms with Deleted Producers with Active Share".

Exhibit 6.5 has been amended to reflect updates in crop acreage reporting dates.

Amendment Transmittal (Continued)

18 Reporting Dates

A Final Reporting Dates

To be eligible for FSA benefits according to subparagraph 16 A, crops must be reported by the final reporting dates in Exhibit 6 or 6.5, as applicable.

Note: Exhibit:

- 6 shall be used for reporting crops until June 30, 2012
- 6.5 shall be used for reporting crops beginning July 1, 2012.

*--The following provides guidance on reporting crop acreage not specified in Exhibit 6 or 6.5.

- Acreage insured as PRF with crop insurance must be reported to FSA by the date specified with PRF, if applicable, in Exhibit 6.5. PRF refers to Pasture Rangeland Forage, a program administered by RMA.

Note: Perennial Forage crops shall be reported by the same date as specified for PRF when fall-seeded and in years subsequent to seeding in States with a PRF specification, unless otherwise designated for the State. This includes, but is not limited to, alfalfa, birdsfoot trefoil, clover, grass, and mixed forage. See subparagraph 18 C for applicable exceptions.

- Where “Forage Seeding” is specified, the acreage reporting date applies to perennial forage crops for the year the crop is initially seeded.

Note: For subsequent years, the perennial forage must be reported by the perennial forage ARD.

- If a measurement service has been requested timely, but not performed by the final reporting date, then the acreage must still be reported by the final reporting date. If the measured acreage differs from reported acreage, the acreage report shall be revised within 5 workdays of the notification of the measurement service results.
- If the crop is apiculture, use the crop code for “honey” with the applicable apiculture acreage reporting date as listed in Exhibit 6.5.
- The planting date ranges used in Exhibit 6.5 do **not** represent the planting periods defined by 1-NAP.

Example: California has multiple reporting dates for potatoes depending on when they were planted. The range of dates used to identify these reporting dates are not the same as the planting periods used for NAP.--*

18 Reporting Dates (Continued)

A Final Reporting Dates (Continued)

- *--For the crops that have a planting date range or a series of planting date ranges within a program year specified in Exhibit 6.5, and the crop is planted on a date that is **not** included within a date range, then the reporting date would be the earlier of:
 - 15 calendar days before the onset of harvest or grazing
 - the subsequent planting date range's acreage reporting date.
- Crops that have a date range or a series of date ranges within a program year, and the reported planting date is both after the acreage reporting date for “all other crops” for that State and **not** within the date range specified, shall be reported within 15 calendar days before the onset of harvest.
- If the crop is a repeat crop and the crop reporting date has passed, then the subsequent plantings shall be reported 15 calendar days before the onset of harvest.

B Final Acreage Reporting Dates for NAP Eligibility

The final date for reporting any specific crop acreage for NAP eligibility is the earlier of the following:

- the established acreage reporting date for that crop/commodity in Exhibit 6 or 6.5, as applicable
- 15 calendar days before the onset of harvest or grazing of the specific crop acreage being reported
- the established normal harvest date for the end of the coverage period.

The established final reporting date for value loss and controlled environment crops is September 30 for the ensuing crop year.

Exceptions: The final reporting date for honey is:

- January 2 of the same crop year

Example: January 2, 2013, for the 2013 crop year.

Note: The crop year for honey production is the calendar year January 1 through December 31.

- within 30 calendar days of the date colonies of bees are acquired, brought into, or removed from the county.

The final reporting date for nursery is May 31.--*

18 Reporting Dates (Continued)

***--B Final Acreage Reporting Dates for NAP Eligibility (Continued)**

Tropical Region provisions apply according to 1-NAP for Hawaii, Puerto Rico, American Samoa, Guam, the U.S. Virgin Islands, and the former Trust Territory of the Pacific Islands (the Commonwealth of Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau).--*

C Exceptions

The following provides exceptions to reporting dates in Exhibit 6 or 6.5, as applicable.

IF...	THEN * * * this acreage must be reported by...
the crop has not been planted by the final reporting date in Exhibit 6 or 6.5, as applicable	15 calendar days after planting is completed.
* * *	* * *
the producer has acquired a lease for the acreage after the final acreage reporting date for the crop, such as perennial forage	30 calendar days after acquiring the lease. Appropriate documentation must be date-stamped and provided to the County Office to the County Office's satisfaction.
--a perennial forage crop is reported with an intended use of "cover only," "green manure," "left standing," or "seed"	the acreage reporting date associated with "all other crops" in the State, unless otherwise specified.--

D Reporting Acreage by Appointment

If appointments are used to report acreage, sufficient personnel shall be assigned to ensure that all appointments can be scheduled before the applicable final reporting dates.

18 Reporting Dates (Continued)**E Using Registers**

An acreage report register shall be used, according to 1-CM when a certification register is necessary. County Office shall maintain a copy of the acreage report register for future reference.

All automated FSA-578's with a certification signature from the farm operator, owner, or duly authorized representative dated more than 10 workdays after the final reporting date shall be listed by FSN, operator's name, and reason for accepting the report after the final reporting date. DD shall review and initial this list and forward a copy to the State Office.

Notes: DAFP may request the State Office to provide a list of County Offices that needed to prepare a list of FSA-578's certified more than 10 workdays after the final reporting date.

A copy of the register or registers shall be filed in the CP folder and remain on file according to 25-AS.

F Requesting Changes to Crop Acreage Reporting Dates

Use Exhibit 6.8 when requesting a change to crop acreage reporting dates. To validate the request, State Offices shall:

- complete Exhibit 6.8, indicating the following:
 - crop/commodity name and crop/commodity type, if applicable, for the request
 - current crop/commodity reporting date
 - proposed crop/commodity reporting date
 - crop years to which the proposed reporting date apply
- prepare a written document to justify the change of crop/commodity reporting date(s).

18 Reporting Dates (Continued)

F Requesting Changes to Crop Acreage Reporting Dates (Continued)

The justification should address the following criteria:

- provide reasoning behind why approving the change would reduce the burden on producers
- if the proposed acreage reporting date conflicts with requirements already established for farm programs or crop insurance associated with the crop/commodity

Note: Proposed acreage reporting dates that conflict with FSA, RMA, or other USDA requirements will still be considered for approval depending on the nature of the conflict.

- if other similar or closely related crops/commodities are associated with the proposed final acreage reporting date
- the proposed acreage reporting date should not increase, and ideally would reduce the total number of crop acreage reporting dates established for the State

Note: If the proposed acreage reporting date does increase the total number of dates for the State, explain the reasoning why it would further reduce the burden on producers.

- if the proposed reporting date for the crop/commodity significantly differs from the established reporting date for the crop/commodity in any neighboring State, provide the reasoning behind why the discrepancy does not pose a burden on producers, including multi-State producers.

State Offices shall submit **both** of the following to Todd Anderson by e-mail at todd.anderson@wdc.usda.gov:

- completed Exhibit 6.8
- written justification based on State Office research and analysis.

Notes: Requests for changes will **not** be considered unless all required parts are included.

Requests are **not** guaranteed approval and will be reviewed and approved or disapproved by a USDA Acreage Reporting Dates review board consisting of members of multiple USDA Agencies, including NASS, NRCS, and RMA.

21 Late-Filed Report of Acreage (Continued)

*--B Late-Filed FSA-578 for FAV History, NAP APH, CRP Cropping History, FSFL History, or 2008 SURE

A late-filed FSA-578 may be accepted after physical existence of the crop or crop residue is gone if the producer:

- is reporting acreage for establishing FAV history, APH data base for NAP eligibility purposes, cropping history for CRP purposes, FSFL history, or 2008 SURE--*
- provides acceptable evidence, to COC's satisfaction, to prove existence and disposition of the crop, according to subparagraph F.

C Late-Filed FSA-578 for Nursery and Aquaculture

FSA-578 filed after the reporting deadline for the ensuing nursery or aquacultural crop year may be accepted if all of the following occur:

- producer was prevented by circumstances beyond the producer's control from timely filing the report
- late-filed FSA-578 is for the inventory for the remaining months of the crop year
- late-filed FSA-578 is filed before the date of disaster, which is the basis for an application for payment.

Note: The acreage reporting date for:

- nursery is May 31
- aquaculture is September 30.

A late-filed FSA-578 shall **not** be accepted after either of the following:

- end of the crop year for which FSA-578 is required
- natural disaster occurs, which is the basis for an application for payment.

Note: The crop year for:

- nursery begins June 1 and ends May 31
- aquaculture begins October 1 and ends September 30.

Follow 1-NAP, Part 4, Section 2 for NAP Unit reporting requirements applicable to each kind of value loss crop.

21 Late-Filed Report of Acreage (Continued)

D Late-Filed Fees and Acreage Verification

A late-filed FSA-578 requires the assessment of a late-filed fee to verify and determine the crop, acreage, and use, except as provided below. The fee shall be equal to the measurement service fee according to paragraph 460. FSA-409 is required to be completed according to paragraph 461.

Exceptions: A late-filed fee will not be assessed, and completion of FSA-409 will not be required, for a late-filed acreage report if any of the following apply:

- the FSA-578 is filed for a crop with a final reporting date between July 1, 2012, and September 15, 2013, inclusive

Notes: Field visits will **not** be required for crops with final reporting dates during this timeframe; however, RMA data and current year's NAIP imagery shall be used, when available, to verify and determine the crop, acreage, and use.

If CCC-576 is late-filed according to subparagraph 24 G in conjunction with the acreage report, a late-filed fee shall be assessed according to paragraph 460 for the late-filed CCC-576.

--Producers who late-file crop acreage after September 15, 2013, are subject to late-filed provisions, unless other exceptions apply according to this subparagraph.--

- COC determines the reason for the late-filed acreage report is beyond the producer's control
- the reason for the late-filed acreage report is for 1991 through 1995 FAV history, CRP cropping history, or to establish NAP APH-approved yield.

Note: Once the producer has an FAV history or APH-approved yield established, annual acreage reports are required by the final reporting date or a late-filed fee will be charged and physical evidence required.

Part 2.5 Crop Acreage Reporting System (CARS)

301 Overview

A Background

CARS is a web-based system that provides the capability to perform the following functions:

- load an acreage report
- record a zero acreage report
- review an acreage report
- revise an acreage report
- print an acreage report
- delete an acreage report
- certify acreage report data
- summarize acreage
- set the cropland comparison flag
- generate status reports.

* * *

B Accessing CARS

Users shall access CARS through the Intranet, which will be accessed using the eAuthentication log-in.

C Security Accessibility

The following table provides a list of the approved users that security will check before allowing access.

Group	User	Access Capability
	Administrative County Personnel	Update
	Nonadministrative County Personnel	View-Only
	Specified State Office Personnel	View-Only
	Other State Office Personnel	View-Only
	Specified National Office Personnel	View-Only
	Other National Office Personnel	View-Only
	Specified Kansas City Computer Personnel	Update/Override
	Other Kansas City Computer Personnel	View-Only
Others	Specified Non-FSA Personnel	View-Only
All	Anyone not listed in this table	Denied

302 Access to the CARS Web Site**A Accessing the CARS Home Page**

To access the CARS Home Page, go to FSA's Applications Intranet web site at http://intranet.fsa.usda.gov/fsa/FSAIntranet_applications.html. Under "Common Applications", CLICK "**Crop Acreage Reporting System (CARS)**".

The USDA eAuthentication Warning Screen will be displayed.

B USDA eAuthentication

On the USDA eAuthentication Warning Screen, CLICK "**I Agree**" to proceed or "**Cancel**" to end the process. When the user clicks "I Agree", the USDA eAuthentication Login Screen will be displayed.

On the USDA eAuthentication Login Screen, the user **must** do the following:

- enter the eAuthentication user ID
- enter the eAuthentication password
- CLICK "**Login**".

After the user successfully completes the eAuthentication login, the Crop Acreage Reporting System (CARS) Login Screen will be displayed.

305 Farm Selection Process

A Overview

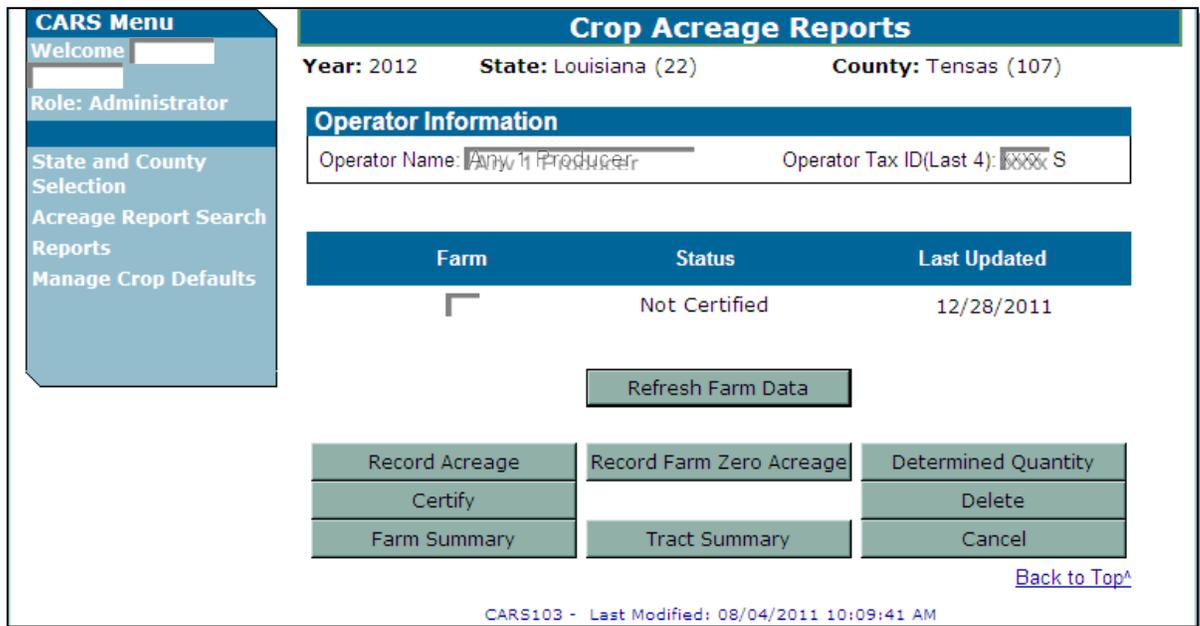

Based on the search method selected on the Acreage Report Search Screen, the Crop Acreage Reports Screen will display the following:

- farm numbers, associated with the producer, or a specific farm number
- status indicator to show if an acreage report is not created, certified, or not certified
- date the acreage report was last updated, if applicable.

Note: If a selected producer is associated with multiple farms, **all** farms with which the producer is associated will be displayed for selection on the Crop Acreage Reports Screen.

B Crop Acreage Reports Screen

The following is an example of the Crop Acreage Reports Screen.

--Note: The “Record Farm Zero Acreage” button will be available for 2012 and prior years only.--

305 Farm Selection Process (Continued)

C Options Available on the Crop Acreage Reports Screen

The following table provides a list of options available on the Crop Acreage Reports Screen.

Button	Result
Refresh Farm Data	<p>Click this button to update farm records data in CARS.</p> <p>Example: A producer is added to farm records, but is not available in CARS.</p> <p>Notes: After users CLICK “Refresh Farm Data”, user must CLICK “Add Producer” to assign the share to the updated producer.</p> <p>*--The "Refresh Farm Data" option does not apply to farm/tract reconstitutions. See subparagraph 311 C for information on farm/tract reconstitutions.--*</p>
Record Acreage	Click this button to record acreage and share information for the farm.
Record Farm Zero *--Acreage	Click this button to record a farm zero acreage report for a specific crop. The option will be available for 2012 and prior years only.
Determined Quality <u>1</u> /--*	Click this button to record determined acreage for a specific crop.
Certify <u>1</u> /	Click this button to set the certification flag for crops or commodities that have been reported.
Delete <u>1</u> /	Click this button to delete a farm that has been recorded in CARS.
Farm Summary <u>1</u> /	Click this button to display a summary of crops or commodities reported by farm.
Tract Summary <u>1</u> /	Click this button to display a summary of crops or commodities reported by tract.
Cancel	Click this button to return the user back to the Acreage Report Search Screen.

1/ These options are **not** present until a crop or commodity is loaded for the farm.

D Action

The user shall click the radio button next to the applicable farm number. Only 1 farm can be selected.

Note: If only 1 farm number is displayed, the user shall click the applicable button to begin the acreage reporting process.

306 Producer Shares

A Overview

From the Tract Selection Screen, the Report of Acreage Screen will be displayed that provides users the ability to enter crop share for producers associated with tract/field. The shares can be modified between the producers shown. After producer shares have been entered, the recorded shares will be automatically set by default to the next reported tract or field until changed by the user.

CARS is validating against producer information contained in Farm Records at the tract level. The producer(s) must be associated to the specific tract in Farm Records to receive a share of the crop/field in CARS. If the producer **is not** associated to the tract in Farm Records, the producer **will not** be available in CARS. To ensure that producers are available on **all tracts** they are associated with in CARS, producers must be added to **all tracts** they are associated with in Farm Records.

--Note: See subparagraph 305 C for information on the "Refresh Farm Data" button.--

***--307 Selecting Tracts**

A Overview

The Tract Selection Screen will be displayed after the users CLICK “**Record Acreage**” on the Crop Acreage Reports Screen, if there are multiple tracts on the farm. If there is only 1 tract on the farm, the Report of Acreage Screen will be displayed.

B Tract Selection Screen

The following is an example of the Tract Selection Screen.

C Options Available on the Tract Selection Screen

The following table provides a list of options available on the Tract Selection Screen.

Button	Results	
Continue	IF...	THEN the...
	no crops have previously been recorded for the tract	Report of Acreage Screen will be displayed.
	crops have previously been recorded for the tract	Crop Review Screen will be displayed.
Revise Tract	Revise Tract Screen will be displayed to allow user to move crop from 1 tract to another.--*	
Back	Returns the user back to the Crop Acreage Reports Screen.	

310 Revising Crop/Commodity and Share Information (Continued)

C Revising Specific Crop/Commodity Information (Continued)

Field	Action	
Planting Period	*--Planting periods carrying capacity are retrieved from NCT.	
	IF...	THEN...
	no planting period, carrying capacity is available on NCT for the crop	this field is defaulted to "01".
	only 1 planting period carrying capacity is available on NCT for the crop, type, practice and intended use	this field is defaulted as the planting period carrying capacity listed on NCT.
more than 1 planting period carrying capacity is available on NCT for the crop, type, practice and intended use	a drop down list with applicable NCT planting periods carrying capacity will be available for selection.	
Field ID	<p>This is not a required field. Enter up to 4 characters to record additional information about the crop acreage being reported.</p> <p>Example: No Till, wetlands, etc.</p> <p>This field is used for informational purposes only.--*</p>	
NAP Unit	<p>After the user clicks "Submit" on the Report of Acreage Screen, this field will be automatically populated based on available NAP units from the NAP Unit Table.</p> <p>Notes: NAP units will be populated for all producers since NAP units are created using farming relationships as reported in CARS.</p> <p>To access the option to manually override the populated NAP unit, users must click "Revise" on the Crop Review Screen.</p> <p>The populated NAP unit number shall be manually overridden only when the relationship based on producer type documented on FSA-578 does not match the actual farming relationship.</p>	
RMA Unit	This is not a required entry. Enter the correct RMA unit.	
Share %	<p>Enter the correct share percentages for each respective producer.</p> <p>*--Note: Shares must equal 100 percent. See subparagraph 306 A for additional information on producer shares.--*</p>	

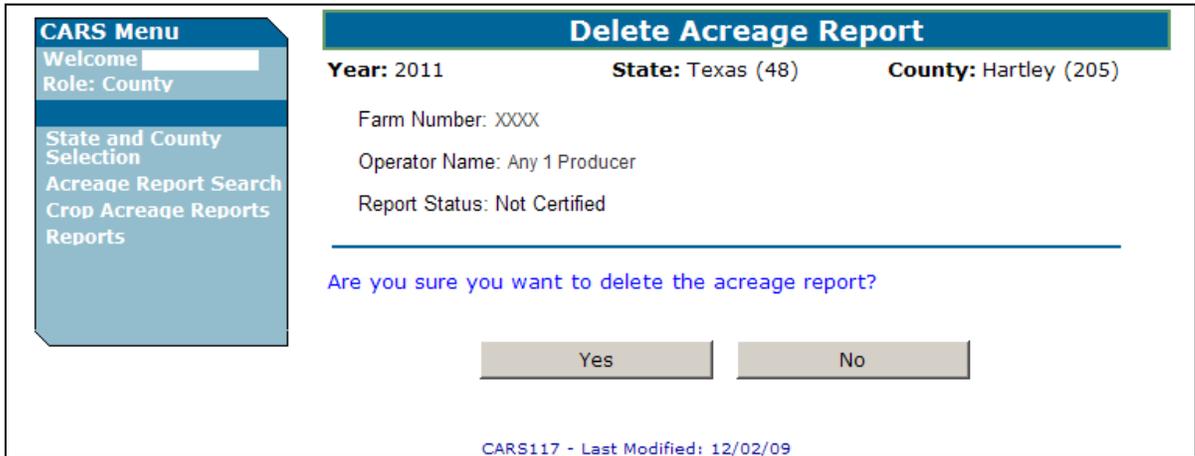

311 Deleting Acreage Report Information

A Overview

Users have the capability to delete an acreage report record, including a zero acreage report, by farm or field.

B Delete Acreage Report Screen

The following is an example of the Delete Acreage Report Screen.

*--C Deleting Farms From CARS Because of Farm Records Reconstitutions

A farm must be deleted from CARS before a reconstitution is performed in Farm Records. Before the release of MIDAS Farm Records, if FSA-578 for a farm was available in CARS, Farm Records displayed a message that FSA-578 must be deleted before the reconstitution can be performed. Since the release of MIDAS Farm Records, the message to delete the pre-existing FSA-578 is no longer being displayed.

Beginning with 2013, a farm will be automatically deleted from CARS when a reconstitution is performed for the farm/tract in MIDAS Farm Records.--*

D Deleting Acreage Report by Farm

This option will provide the user the capability to select a farm record to delete. Once that farm number is selected, the farm number, operator name, and report status will be displayed. The user will have the option to delete the farm record from CARS or cancel the delete process.

Farm deletion will result in the permanent elimination of all crop records from CARS for a specified farm.

311 Deleting Acreage Report Information (Continued)

E Accessing the Farm Report “Delete” Option

Access the farm report “Delete” option on the Crop Acreage Reports Screen as follows.

Step	Action	Result
1	On the Acreage Report Search Screen, do either of the following and CLICK “Submit”: <ul style="list-style-type: none"> • select the farm to be deleted by entering the applicable farm number • select the farm by searching for the producer in SCIMS. 	The Crop Acreage Reports Screen will be displayed. If the user searched for the producer, the user will have to select the applicable farm by clicking the radio button to the left of the farm.
2	Once the farm has been selected by either method in step 1, the user shall CLICK “Delete”.	The Delete Acreage Report Screen will be displayed.
3	The user will be prompted to answer the question, “Are you sure you want to delete the acreage report?”	If: <ul style="list-style-type: none"> • “No” is selected, the user will be returned to the Crop Acreage Reports Screen • “Yes” is selected, the user will receive the message, “The acreage report has been successfully deleted for farm number XX”, on the Crop Acreage Reports Screen.

F Deleting Acreage Report Records by Field

This option will provide a complete list of all crop data associated with a farm and tract. The user will have the capability to select a crop record to delete. The user will have the option to delete the crop record or cancel the delete process. The crop record will display the farm number, tract number, crop, crop type, practice, intended use, report unit, crop status, supplemental status, and acreage.

Field deletion will result in the permanent elimination of all crop records for a specified field.

311 Deleting Acreage Report Information (Continued)

318 Status Reports (Continued)

B Report Descriptions

The following table provides the report and the description of the results that will be obtained when the report is run.

Reports	Description
Farms with Fully Reported Cropland	Provides a list of farms with all cropland reported and certified.
Farms with Unreported Cropland	Provides a list of farms with cropland on the farm record that has not been reported in CARS.
Farms with Uncertified Crops	Provides a list of farms that does not have the certification flag set to "Y" for all crops.
Farms with Incomplete Determined Acres	Provides a list of farms where determined acreage is loaded for a specific crop and all acreage of that crop does not have determined acreage entered.
Farms with Reported Acres on Noncropland	Provides a list of farms with acres recorded on noncropland.
Farms with Prevented Planted Acres	Provides the following information for each farm with reported prevented planted acreage: <ul style="list-style-type: none"> • farm number • operator • crop/commodity • acreage quantity • variety/type • intended use • irrigation practice.
Crops with End Date	Provides a report of all crops with end dates for the farm number entered.
Farms with End Date	Provides a list of farms with crops entered with an end date.
Farms with No FSA-578	Provides a list of active farms with no FSA-578 on file.
Farms with DCP Contract and Unreported Cropland	Provides a list of farms with an active DCP contract and unreported cropland.
Farms with ACRE Contract and Unreported Cropland	Provides a list of farms with an active ACRE contract and unreported cropland.

318 Status Reports (Continued)

B Report Descriptions

Reports	Description
Farms with Cropland Override	Provides a list of farms with the cropland comparison flag set by the cropland override.
Farms with No NAP Unit	Provides list of farms with 1 or more fields with no identified NAP unit.
--Farms with Deleted Producers with Active Shares	<p>Provides a list of farms when the producer is no longer associated with the farm in Farm Records, but an active share record for the producer exists in CARS. This could be the result of a:</p> <ul style="list-style-type: none"> • SCIMS merge • farm/tract reconstitution • producer being deleted from Farm Records.--

C Action

To access the Reports Screen:

- CLICK “**Reports**” under “CARS Menu” on the left side of an opened screen in CARS
- select the radio button next to the report to be printed
- CLICK “**Generate Report**”.

The selected report will be:

- created in a “PDF” format
- available for the user to save, view, and/or print.

319 Determined Acreage

A Overview

Users will have the capability to record the determined acreage quantity for crops loaded in CARS.

B Determining Acreage

Acreage can be determined according to Part 4 using any of the following:

- verifying official acreage
- planimetering areas on projected slide images on the hard copy aerial photograph
- digitizing areas on rectified digital imagery
- computations from scaled dimensions or ground measurements.

C “Determined Acreage” Option

The “Determined Acreage” option is available on the Crop Acreage Reports Screen. The following is an example of the Crop Acreage Reports Screen.

Delegations of Authority

This table lists the redelegation of authority in this handbook.

Redelegation	Reference
<p>In routine cases, COC may redelegate to CED, in writing, the authority to act on, or sign, as applicable, CCC-576, Parts C and H.</p> <p>Note: The redelegation:</p> <ul style="list-style-type: none"> • must define what COC considers routine • shall be recorded in COC minutes. 	1-NAP, paragraph 401

Crop Reporting Dates Beginning July 1, 2012, for 2012 and Subsequent Crop Years

A Introduction

*--This exhibit lists FSA farm program crop reporting dates. The alignment of crop reporting dates is a cooperative effort among multiple USDA agencies.

See paragraph 18 for acreage reporting dates policy and paragraph 21 for late-filed FSA-578 policy.--*

* * *

B List of Crop Reporting Dates Beginning July 1, 2012, for 2012 and Subsequent Crop Years

*--The following table lists crop reporting dates for farm programs, including NAP. See paragraphs 18 and 21 for exceptions to acreage reporting dates and/or late-filed FSA-578 provisions, as applicable.

The following table provides crop/commodity reporting dates applicable to all States for applicable program eligibility.

Note: This list of ARD's may not be fully inclusive of every crop/commodity ARD applicable to all States.

States	Crop/Commodity	Date
All	Value-loss and controlled environment crops (except Nursery)	September 30
	CRP	July 15

--*

Crop Reporting Dates Beginning July 1, 2012, for 2012 and Subsequent Crop Years (Continued)

B List of Crop Reporting Dates Beginning July 1, 2012, for 2012 and Subsequent Crop Years (Continued)

*--The following tables provide crop/commodity reporting dates by State.

State	Crop	Date
Alabama	Blueberries, Canola, Rapeseed, Fall Oats, Peaches, Fall Wheat	January 15
	Pecans, Potatoes (Planted 1/1-3/1)	March 15
	Sweet Corn, Potatoes (Planted 3/2-4/15), Tobacco, Tomatoes	May 15
	all other crops	July 15
	Apiculture, PRF/Perennial Forage	November 15
Alaska	all other crops	July 15
	Perennial Forage, Fall-Seeded Small Grains	December 15
Arizona	Apples, Grapefruit, Lemons, Oranges, Tangelos, Tangerines	January 15
	Pecans, Pistachios, Potatoes, Small Grains	March 15
	all other crops	July 15
	Grain Sorghum	August 15
	Apiculture, PRF/Perennial Forage, Onions	November 15
Arkansas	Apples, Grapes, Peaches	January 15
	Tomatoes	May 15
	all other crops	July 15
	Fall-Seeded Small Grains	December 15
