

UNITED STATES DEPARTMENT OF AGRICULTURE

Farm Service Agency
Washington, DC 20250

Acreage and Compliance Determinations
2-CP (Revision 15)

Amendment 90

Approved by: Deputy Administrator, Farm Programs

Amendment Transmittal

A Reasons for Amendment

Subparagraph 21 D has been amended to clarify and include the exception for late file fees and acreage verification.

Because the Acreage and Compliance Determination option in System 36 is no longer available, the following have been removed:

- Part 2:
 - Section 2, Creating Crop Default Records
 - paragraph 63, Accessing Option Selection Menu MEAO0101
 - paragraph 64, Initial Access to Acreage Report
 - paragraph 72, General Information About Entering Basic Data
 - paragraph 84, Entering Field and Share Data
 - paragraph 85, Using Field Review Option
 - paragraph 86, Using Crop/Share Repeat Load Screen
 - paragraph 88, Zero Acreage Reports
 - Section 4, paragraphs 99 through 101
 - Section 5, Using End Load Processing
 - Section 6, Certifying Crops on FSA-578
 - Section 7, Printing FSA-578
 - Section 11, Entering Determined Acreage and Deleting FSA-578
 - Section 12, Displaying Summary Information.

- Part 3:
 - paragraph 376, Processing FSA-468 on System 36
 - paragraph 379, Discrepancy Flags for System 36 FSA-468 Process
 - paragraph 380, Footnotes for System 36 FSA-468 Process

Part 2.5 has been amended to update all screens to include Nationwide Customer Service.

Amendment Transmittal (Continued)

A Reasons for Amendment (Continued)

Subparagraph 301 C has been amended to add Nationwide Customer Service access to allow County Office users to update acreage reports for any farm in any county in the nation.

Subparagraph 303:

- D has been added to provide procedure for Nationwide Customer Service
- E has been added to provide guidance when a farm is loaded by Nationwide Customer Service.

Subparagraph 305 A has been amended to update spelling for “Fully”.

Subparagraph 305 C has been amended to update status descriptions displayed on the Crop Acreage Reports Screen.

Subparagraph 306 A has been amended to include reference to 3-CM for adding producers to tracts producers are associated with in Farm Records.

Subparagraph 308 D has been amended to:

- clarify the field number length and entering field numbers and subdivisions according to paragraph 494
- provide that CARS has been modified to accept up to 4 decimal places
- remove the reference to not use GIS acreage until farm records are updated with certified GIS acreage
- provide reference to paragraph 393 for information on planting patterns
- add supplemental status “Not Applicable” to be used when reporting crops that are not considered planted, prevented, failed, or volunteered beginning with 2015
- provide reference to paragraph 23.7 for reporting organic crops
- update data field name from Native Pasture Conversion to Native Sod Conversion
- provide reference to 1-NAP, paragraph 379 for reporting native sod acreage.

Subparagraph 308.5 C has been amended to:

- update the Add Crop Default Screen to include “Cancel” as an available option
- provide guidance for crop default rollover.

Amendment Transmittal (Continued)

A Reasons for Amendment (Continued)

Subparagraph 308.5 D has been amended to:

- clarify only reporting unit “acres” will be considered for cropland comparison, according to paragraph 312
- add supplemental status “Not Applicable” to be used when reporting crops that are not considered planted, prevented, failed, or volunteered beginning with 2015.

Subparagraph 308.5 E has been amended to add the “Cancel” button as an available option on the Add Crop Default Screen.

Subparagraph 310 C has been amended to clarify only reporting unit “acres” will be considered for cropland comparison, according to paragraph 312.

Subparagraph 312:

- A has been amended to clarify only reporting unit “acres” will be considered for setting the cropland comparison flag
- C has been amended to update procedure for cropland comparison override process.

Subparagraph 314 A has been amended to provide guidance for certifying the acreage report in CARS.

Subparagraph 315:

- A has been amended to included farm level GIS map on the Farm Summary Screen
- B has been amended to update the Farm Summary Screen to include farm level GIS map
- C has been amended to update the information displayed on the Farm Summary Screen.

Subparagraph 316:

- A has been amended to include the tract level GIS map on the Tract Summary Screen
- B has been amended to update the Tract Summary Screen to include the tract level GIS map
- D has been amended to update information displayed on the Tract Summary Screen.

Subparagraph 317:

- A has been amended to include map printing
- C has been amended to include “Map” as an available print option
- F has been added to provide conditions resulting in acreage differences.

Amendment Transmittal (Continued)

A Reasons for Amendment (Continued)

Subparagraph 318 A has been amended to:

- clarify DCP and ACRE reports are available for 2013 and prior years only.
- add “Farms with ARC/PLC Contract and Unreported Cropland” beginning with 2015.

Subparagraph 318 B has been amended to:

- update descriptions for reports for farms with:
 - unreported Cropland
 - uncertified Crops
 - incomplete Determined Acres
- add a description for the “Farms with ARC/PLC Contract and Unreported Cropland Report
- provide guidance on using the “Farms with Deleted Producers with Active Shares” Report.

Subparagraph 319:

- A has been amended to include paragraph reference for acreage determine methods
- I has been amended to clarify procedure for loading determined acreage for unreported crops.

Subparagraph 375 E has been amended to remove procedure for using System 36.

Subparagraph 378 A has been amended to remove 1-DCP exception reference for FAV’s or wild rice violations.

Subparagraph 380.5 B has been amended to update the Report Screen.

Subparagraph 380.7 C has been amended to remove UPCN from the Covered Commodity Out of Tolerance Report.

Note: Upland cotton is no longer considered to be a covered commodity.

Subparagraph 382 B has been amended to change DCP program name to ARCPLC.

Subparagraph 494 C has been amended to clarify:

- a field number should not exceed 4 digits
- a subdivision should not exceed 2 characters.

21 Late-Filed Report of Acreage (Continued)

***--B Late-Filed FSA-578 for NAP APH, CRP Cropping History, FSFL History, or P&CP Acres and Subsequently Planted Crop Acreage for 2009 Through 2012 (Continued)**

- provides acceptable evidence, to COC's satisfaction, to prove existence and disposition of the crop, according to subparagraph F

Note: If evidence accepted and approved by RMA or another USDA Agency is provided, proof of crop disposition is **not** required.

- is reporting P&CP acres or subsequently planted crop acreage for 2009 through 2012 crop years in an attempt to correct acreage history for the farm for 2014 Farm Bill base acre reallocation purposes.

Note: If an acreage report and request for prevented planted credit was timely submitted and the prevented planting acreage credit was disapproved by FSA, a new request for prevented planting acreage credit will **only** be permitted if either of the following apply:

- the prevented planting credit request for the same crop was **not** processed and acted on by FSA
- a NAP appeal of FSA's denial of prevented planting acreage credit was timely filed by the producer upon which NAD dismissed the appeal for lack of jurisdiction.

C Late-Filed FSA-578 for Nursery and Aquaculture

FSA-578 filed after the reporting deadline for the ensuing nursery or aquacultural crop year may be accepted for processing if all of the following occur:--*

- producer was prevented by circumstances beyond the producer's control from timely filing the report
- late-filed FSA-578 is for the inventory for the remaining months of the crop year
- late-filed FSA-578 is filed before the date of disaster, which is the basis for an application for payment.

Note: ARD for:

- nursery is May 31
- aquaculture is September 30.

21 Late-Filed Report of Acreage (Continued)

C Late-Filed FSA-578 for Nursery and Aquaculture (Continued)

A late-filed FSA-578 will **not** be accepted after either of the following:

- end of the crop year for which FSA-578 is required
- natural disaster occurs, which is the basis for an application for payment.

Note: The crop year for:

- nursery begins June 1 and ends May 31
- aquaculture begins October 1 and ends September 30.

Follow 1-NAP, Part 4, Section 2 for NAP Unit reporting requirements applicable to each kind of value loss crop.

D Late-Filed Fees and Acreage Verification

A late filed FSA-578 requires payment of a late-filed fee to verify and determine the crop, *--acreage, and use, except as provided in the following table. The late-file acreage reporting fee is equal to the measurement **service fee according to paragraph 460. FSA-409 is required to be completed according to paragraph 461.**

If CCC-576 is late-filed according to subparagraph 24 in conjunction with a late-filed acreage report, a late filed fee will be assessed according to paragraph 460 for the late-filed CCC-576.

The following table provides some exceptions and policy for the exception to the late-filed fees and acreage verification.

Exception	Policy
IF...	THEN....
Producer submits a late-filed FSA-578 and requests waiver of the late-file fee claiming the report was filed late for reasons beyond the producer’s control...	COC can review the producer’s request and waive the fee if COC determines appropriate. A late-file fee will not be assessed but completion of FSA-409 is still required. Note: Denied requests for waivers of fees are administrative matters and are not program decisions. These matters and decisions are not subject to administrative appeals. The producer simply remains liable for the fee.
FSA-578 is filed late for CRP cropping history or to establish a NAP APH approved yield for the first time for a crop....	a late-file fee will not be assessed and completion of FSA-409 will not be required or completed. Note: Once a producer has a NAP APH approved yield for a crop, the producer must annually report acreage by the final acreage reporting date.

--*

21 Late-Filed Report of Acreage (Continued)

D Late-Filed Fees and Acreage Verification (Continued)

Exception	Policy
FSA-578 is filed for revising or correcting P&CP acreage or subsequently planted crop acreage for 2009 through 2012 crop years for base reallocation purposes.	a late-file fee will not be assessed and completion of FSA-409 will not be required or completed. Late-file reports under this exception and policy must be filed by August 1, 2015.
FSA-578 is filed for a 2013 crop with a final reporting date occurring from July 1, 2012, through September 15, 2013.	a late-file fee will not be assessed and completion of FSA-409 will not be required or completed. However, this exception does not apply if the 2013 crop year FSA-578 is filed after September 15, 2013.
FSA-578 is filed by December 31, 2014, for a 2014 crop that had a final reporting date on or after October 1, 2014.	a late-file fee will not be assessed and completion of FSA-409 will not be required or completed. However, this exception does not apply if the 2014 crop year FSA-578 is filed after December 31, 2014.
FSA-578 is filed by July 15, 2015, for a 2015 crop that had a final reporting date before January 1, 2015.	a late-file fee will not be assessed. Completion of FSA-409 will not be required if RMA data, current year's NAIP imagery, or other evidence deemed sufficient by the COC to verify and determine the crop, acreage, and use are available and noted in the file, COC minutes or other appropriate method.
Note: This exception does not apply to any acreage of a crop covered under Federal Crop Insurance or NAP.	However, this exception policy does not apply if the 2015 crop year FSA-578 is filed after July 15, 2015 for a crop with a final reporting date prior to January 1, 2015.

--*

E Physical Evidence Requirements

The following provides physical evidence requirements for late-filed FSA-578's.

IF the late-filed acreage report is for purposes...	THEN the crop or crop residue...
other than those in subparagraph B	must be identifiable and verified by a farm visit, except for crops meeting the new ARD provisions in subparagraph D.
in subparagraph B	verification is not required. Other satisfactory evidence must be provided.
Note: See subparagraph F for examples of acceptable evidence.	

21 Late-Filed Report of Acreage (Continued)

F Examples of Acceptable Evidence

The following are examples of acceptable nonphysical evidence.

IF the evidence is to prove...	THEN COC may accept nonphysical evidence, such as...
existence of the crop	seed receipts showing the amount, variety, and date purchased.
	receipts for cleaning, treating, etc., for seed planted on the farm.
	documentation obtained and certified by another Governmental agency indicating the acreage, location, and crop year.
	acreage reported for any crop insurance policy or loss adjustment.
	a written contract or documentation of an oral contract to produce a specific crop.
	aerial or digital slides, if a positive determination can be made of the crop's identity and boundaries.
	evidence that was accepted and approved by RMA or another USDA agency.
disposition of the crop	receipts showing number and units sold if the sale can be positively identified as sale of the crop for the farm for the year represented.
	a written contract or documentation of an oral contract to produce a specific crop.
	records showing the crop was fed to livestock.
	positive documentation of payment for custom harvesting indicating acreage, location, and crop year.
	evidence that was accepted and approved by RMA or another USDA agency.

22 Partial and Revised Reports

A Partial FSA-578's

A partial FSA-578 for a farm may exist when:

- at least 1 crop has been reported
- all acreage on the farm has not been reported.

B Revising Crop or Acres

FSA-578's may be revised at any time if the revised acreage can be verified by physical evidence to COC's satisfaction. RMA data shall **not** be accepted as verification for revising acreage information.

Note: The revised FSA-578 may not nullify the results of a spot check, if the results of the spot check have been provided to the operator.

22 Partial and Revised Reports (Continued)**C Revising Intended Use**

Once certified, the intended use field shall **not** be revised.

Notes: This is the anticipated use at the time of planting and should not need to be revised.

In situations where the actual use is different than the intended use, such as short-rated wheat, County Offices can record the actual use as indicated in paragraph 308.

D Revising Shares

Shares may be revised at anytime if the revised shares can be verified by providing documentation to COC's satisfaction. For example, a lease showing the shares.

E Accepting Revised Acreage Reports

Accepting a revised acreage report does not guarantee program eligibility.

Note: See specific program procedure for guidelines for eligibility.

F Spot Checks

Partial and revised FSA-578's shall be subject to the same compliance spot checks as other FSA-578's.

G Revising Irrigation Practice

Once certified, the irrigation practice may be changed **only** if **both** of the following are met:

- requested by the producer
- verified with acceptable RMA data, such as CIMS showing a timely filed report of acreage to RMA. If CIMS does not provide data to support the producer's irrigation practice, it is the producer's responsibility to provide proper evidence, if questioned.

H Revising Planting Date

Once certified, the planting date shall **not** be changed.

22.5 FSA-578 Corrections

A Correcting FSA-578 Information When Incorrect Information Was Entered by an FSA Representative

If the producer provided the correct information and an FSA representative entered incorrect information on FSA-578, even though it was signed by the producer, the information may be corrected at any time if the information can be verified to COC's satisfaction. Producer is **not** required to sign the corrected FSA-578.

***--Note:** This includes the intended use.--*

COC minutes must be documented to identify the following:

- specific data to be corrected on FSA-578
- crop year the error occurred
- documentation used to verify the information
- error was committed by an FSA representative
- date the error was discovered.

This information shall be available upon request by DAFP. Accepting a corrected FSA-578 does **not** guarantee program eligibility.

B Spot Checks

Corrected FSA-578's shall be subject to the same compliance spot checks as other FSA-578's.

The corrected FSA-578 will not nullify the results of a spot check, if the results of the spot check have been provided to the producer.

Section 2 Creating Crop Default Records

39, 40 (Withdrawn--Amend. 90)

41 Establishing Crop Characteristics

A Introduction

CVS is the database that maintains crop characteristics and serves as a central commodity lookup table for use by CARS, NCT, and other program software applications. Exhibit 10.5 contains select data fields from CVS; that is, all the valid current year's crops, types, intended uses, and FAV status (land use code).

All 2013 and subsequent years' CVS data is:

- included in the initial MIDAS release
- stored and maintained within CRM/Product Master.

Product Master includes all FSA commodities that are eligible for FSA transactions, such as acreage or inventory reporting. The term "product" refers to the combination of a crop and type.

Example: Lettuce, Bibb or Corn, Yellow are both products within Product Master.

FSA employees have the ability to view the full details about any product within CRM/Product Master/Search Products. Users shall refer to the Product Master work instructions for additional instructions on searching for and reviewing products.

B Requesting Additional Crops, Types, and/or Intended Uses

If a producer reports a crop, type, or intended use that is **not** currently available in Exhibit 10.5 or Product Master, the County Office shall use the "New Product Request" function in CRM/Product Master to request the addition. The automated New Product Request process:

- replaces the Request for New Crop or Intended Use Form
- shall be initiated by the County Office, in most cases.

All FSA employee users shall refer to the New Product Request work instructions (available in CRM) and CT-310 New Product Request training (available in AgLearn) for additional information.

County Offices shall:

- perform a thorough review and analysis of all available data for the crop and its characteristics before submitting the request

41 Establishing Crop Characteristics (Continued)

B Requesting Additional Crops, Types, and/or Intended Uses (Continued)

- search “Requested Products” in CRM for pending requests of the same crop, type, or intended use

Note: If a pending request is located, follow instructions in subparagraph C.

- indicate either or both of the following in the New Product Request:
 - the request is for the addition to Product Master, for purposes of acreage or inventory reporting
 - the request is for determination of NAP crop eligibility

Note: Ensure that the request is handled according to 1-NAP.

- provide sufficient information in the request, justifying the addition of the crop, type, or intended use

Note: The justification documentation should, at a minimum, answer the following questions.

- Is the crop or type currently listed in Product Master under another name or synonym?
- What specific differences are there in the product being requested and the products already available in Product Master?
- What are the differences in the characteristics of the product being requested, such as prices and yields?
- How many producers are attempting to report the new product and how many acres is each producer reporting?
- select “County Office Completed by” in the “Partner Functions” transaction block, and verify that the name of the County Office employee completing the request is loaded
- e-mail or call the State Office notifying them of the new request pending State Office review.

Note: The New Product Request is **not** a workflow transaction and will **not** automatically be sent to another FSA employee to take action. An e-mail or telephone call is required to notify the next level to review the request.

41 Establishing Crop Characteristics (Continued)**B Requesting Additional Crops, Types, and/or Intended Uses (Continued)**

State Offices shall:

- use the “Search Requested Products” query in CRM/Product Master to locate the pending New Product Request
- review the information provided by the County Office in the request
- enter the reason for the approval or rejection in the “Note” section, and attach additional supporting documentation as necessary
- edit the “Partner Functions” transaction block, select “State Action Completed by”, and load the name of the reviewing State Office employee
- edit the Interaction Log Details and change the status code to “State Approved” or “State Rejected”
- if the request is approved by the State Office, e-mail Mary Carey at **mary.carey@wdc.usda.gov** for National Office review
- if the request is rejected by the State Office, e-mail the requesting County Office to notify them of the decision.

Requests for additions will **not** be considered unless all required parts are included.

Once the National Office reviews the request, an e-mail will be sent to all parties involved in the New Product Request (State and County Offices), notifying them of National Office approval or rejection.

The status of the New Product Request can be viewed at any time within CRM. In addition to the requesting County Office, all FSA employees can view all pending and completed New Product Requests throughout the United States, and the current status of each request.

41 Establishing Crop Characteristics (Continued)**C Supplementing an Existing/Pending New Product Request**

As new products are added to Product Master and Exhibit 10.5, they are available for nationwide use in FSA transactions, and not limited for use by only the State or County Office that requested the new product.

State or County Offices may add regional supporting documentation to an existing New Product Request. Field Offices are encouraged to review the pending New Product Requests before submitting a new request.

Example: A producer in State A-County A has reported acreage on “Cinderella Pumpkins” and the County Office has determined that this is a unique product that is not currently listed in Product Master or available for acreage reporting. Before submitting a New Product Request, PT in State A-County A performs a search on the requested products in CRM and reviews the existing requests. PT finds a pending New Product Request for “Cinderella Pumpkins” that was submitted 3 workdays before by PT in State B-County B. Rather than submit a second New Product Request for the same product, PT from State A-County A may add additional notes and attachments to provide additional justification to add the product.

42-62 (Reserved)

Section 3 Entering Basic Field Data

63, 64 (Withdrawn—Amend. 90)

65-71 (Reserved)

72 (Withdrawn—Amend. 90)

73 Crop Status Codes

A Using Crop Status Code “D”, “E”, “F”, “G”, “H”, or “O”

Use crop status code “D”, “E”, “F”, “G”, “H”, or “O” in the first character field for double crop when a crop meets all of the following:

- is not the first crop in the field
- is not a repeat of the first crop in the field
- meets the double-cropping guidelines in paragraph 25.

This table defines the valid codes to be used in the first character field when entering double crop acres.

Code	Definition
D	Covered commodity followed by a different covered commodity - meets double-cropping definition.
E	Covered commodity followed by FAV or wild rice or vice versa - meets double-cropping definition.
F	FAV followed by a different FAV - meets double-cropping definition.
G	Noncovered commodity/non-FAV followed by covered commodity or vice versa - meets double-cropping definition.
H	Noncovered commodity/non-FAV followed by FAV or vice versa - meets double-cropping definition.
O	Noncovered commodity/non-FAV followed by a noncovered commodity/non-FAV meets double-cropping definition.

B Using Crop Status Code “J”, “K”, “L”, “M”, “N”, or “P”

Use crop status codes “J”, “K”, “L”, “M”, “N”, or “P” in the first character field for a subsequent crop when a crop meets all of the following:

- is not the first crop in the field
- is not a repeat of the first crop in the field
- does not meet the double-cropping guidelines in paragraph 25.

78 Entering Dates (Continued)

F Crops Without a Planting Date (Continued)

*--In addition to the crops/commodities listed in the previous table, the following crops/commodities and/or intended uses do **not** require a planting date to be entered in CARS, beginning with the 2013 crop year.

Crop/Land Use	Crop Type	Crop Code
Christmas Trees		7321
Crustacean		3002
Finfish		3000
Ginseng		0089
Grassland Reserve Program		1250
Mollusk		3001
Mushrooms		0403
Nursery		1010
Wetland Reserve Program		2006

Crops With the Intended Use of "RS" Root Stock		
Crop/Land Use	Crop Type	Crop Code
Apples		0054
Apricots		0326
Asparagus		0104
Chia		0840
Chicory		0511
Gailon		0953
Greens		4000
Peaches		0034
Pears		0144
Plumcots		0466
Plums		0254
Prunes		0086

Flowers With the Intended Use of "FH" Fresh		
Crop/Land Use	Crop Abbreviation	Crop Code
Flowers		7501

Note: Follow 1-NAP, Part 4, Section 2 for NAP Unit reporting requirements applicable to each kind of value loss crop.

G Entering Dates

Dates should be entered on FSA-578 as "MM-DD-YYYY".

78.5 Irrigation Practice Codes

A Practice Codes

Irrigation practice codes can affect eligibility for prevented planted credit. Use the following irrigation practice codes for a crop based on producer input:

- "I" for irrigated
- "N" for nonirrigated
- "O" for other; honey and TAP **only**.

Note: Rice should be reported as irrigated.

79-83 (Withdrawn--Amend. 20)

84 (Withdrawn--Amend. 90)

84.6 Recording Failed Acreage on FSA-578 (Continued)

C Recording Failed Acreage on FSA-578 When Entire Acreage Claimed on CCC-576 is Disapproved and No Measurement Service or Spot Check Is Performed

Use the following to record failed acreage on FSA-578 when the entire failed acreage is disapproved and no measurement service or spot check is performed.

IF the producer has reported failed acreage and COC...	THEN...
disapproved the entire acreage claimed on CCC-576	manually notate the disapproved acreage on CCC-576.
	Note: Do not remove the reported “F” supplemental status from the FSA-578.

85, 86 (Withdrawn--Amend. 90)

87 (Withdrawn--Amend. 2)

88 (Withdrawn--Amend. 90)

89-98 (Reserved)

Section 4 Revising Acre and Share Data

99-101 (Withdrawn--Amend. 90)

102 Revising Acreage Reports for Destruction of Crops Before Harvest

A Destruction of a Crop

Acreage reports for crops that are destroyed after they are certified but before harvested shall be revised.

See paragraph 24.5 for crops destroyed or failed because of a natural disaster. For crops destroyed for other than a natural disaster:

- the acreage will not receive credit for any purpose
- a fee to verify the destruction may be required.

Important: A paid-for farm visit must be conducted for FAV's and wild rice destroyed without benefit before harvest. See 1-DCP, paragraph 471.

B Revision of Acreage Report

If a paid-for fee is required by a program and destruction is verified, the producer shall revise the acreage report to reflect the change. A copy of FSA-409 shall be attached to FSA-578 to document the destruction of acreage.

Example: Producer A reports 7 acres of peas and requests to destroy 3 acres on a farm without benefit. The producer must notify COC of intent to destroy and pay for a farm visit. Once COC verifies the destruction of the crop, the producer must return to the County Office and revise FSA-578 by changing the 7 acres reported as peas to 4 acres. Make a new entry for the acreage that was destroyed, and report the acreage accordingly. If a subsequent or double crop is reported, an entry for the acreage destroyed is not required.

Note: If this producer had NAP coverage on peas, only the 4 acres remaining would be eligible for benefit in the event a natural disaster subsequently impacted the crop.

Section 11 Entering Determined Acreage* * ***251 Determined Acreage Process****A Determining Acreage**

Acreage can be determined according to Part 4 using any of the following:

- verifying official acreage
- planimetering areas on projected slide images on the hard copy aerial photograph
- digitizing areas on rectified digital imagery
- computations from scaled dimensions or ground measurements.

B Definition of Official Acreage

Official acreage is acreage established by FSA as an accurate measure for an area. This acreage is recorded and maintained on photography.

Note: Until CLU is certified, the acreage designated official on the hard copy map will be the official acreage. See paragraph 497 if official acreage changes as a result of new photography.

* * *

251 Determined Acreage Process (Continued)

C Producer Reported Wrong Crop

If the spot check determines that a producer reported incorrect crop in a field, record findings on FSA-578 by entering:

- zero for determined acreage in the original field
- the new field with:
 - tract
 - unique subdivision number
 - crop
 - zero reported acreage
 - applicable crop characteristics as found in the field
- acreage found during spot check, as determined acres for the new field.

Note: Annotate on FSA-578 the reason for adding subdivision, and have County Office personnel initial and date.

Section 13 (Withdrawn--Amend. 27)

295 (Withdrawn--Amend. 27)

Part 2.5 Crop Acreage Reporting System (CARS)

301 Overview

A Background

CARS is a web-based system that provides the capability to perform the following functions:

- load an acreage report
- record a zero acreage report
- review an acreage report
- revise an acreage report
- print an acreage report
- delete an acreage report
- certify acreage report data
- summarize acreage
- set the cropland comparison flag
- generate status reports.

B Accessing CARS

Users shall access CARS through the Intranet, which will be accessed using the eAuthentication log-in.

C Security Accessibility

The following table provides a list of the approved users that security will check before allowing access.

Group	User	Access Capability
	Administrative County Personnel	Update
	Nonadministrative County Personnel	View-Only
	--Administrative and/or Nonadministrative State and County Personnel by Nationwide Customer Service	Update--
	Specified State Office Personnel	View-Only
	Other State Office Personnel	View-Only
	Specified National Office Personnel	View-Only
	Other National Office Personnel	View-Only
	Specified Kansas City Computer Personnel	Update/Override
	Other Kansas City Computer Personnel	View-Only
Others	Specified Non-FSA Personnel	View-Only
All	Anyone not listed in this table	Denied

302 Access to the CARS Web Site**A Accessing the CARS Home Page**

To access the CARS Home Page, go to FSA's Applications Intranet web site at ***-<http://fsaintranet.sc.egov.usda.gov/fsa/applications.asp>. From the FSA Intranet Screen, under "FSA Applications" "Applications Directory", CLICK "A-C". The FSA Intranet Screen will be redisplayed with applications with names started from A to C. Scroll down--*** and CLICK "**Crop Acreage Reporting System (CARS)**".

The USDA eAuthentication Warning Screen will be displayed.

B USDA eAuthentication

On the USDA eAuthentication Warning Screen, CLICK "**I Agree**" to proceed or "**Cancel**" to end the process. When the user clicks "I Agree", the USDA eAuthentication Login Screen will be displayed.

-On the USDA eAuthentication Login Screen, CLICK "Login with LincPass (PIV)" or enter user ID and password and CLICK "Login".--

After the user successfully completes the eAuthentication login, the Crop Acreage Reporting System (CARS) Login Screen will be displayed.

302 Access to the CARS Web Site (Continued)

C Crop Acreage Reporting System (CARS) Login Screen

On the Crop Acreage Reporting System (CARS) Login Screen, CLICK “**Crop Acreage Reporting System Login**” to continue.

The following is an example of the Crop Acreage Reporting System (CARS) Login Screen.

Crop Acreage Reporting System (CARS) Login

This Farm Service Agency website is provided for users to enter crop information tied to specific acreage on the farm to include prevented and failed acreage and will be used to conduct acreage reporting and compliance determination via the web. Acreage reporting is year specific.

[Crop Acreage Reporting System Login](#)

USDA is committed to making its web pages accessible to all individuals. If you are a person with a disability and have trouble accessing or using our web site, please contact the FSA National Help Desk at (800)-255-2434 or the Centralized Help Desk at 800-457-3642, option 1, option 2. Please provide us with the specific URL with which you have a problem or concern.

The State and County Selection Screen will be displayed.

303 State, County, and Program Year Selection

A Overview

*--State and County Offices now have access to:

- view acreage reports for farms located in nonadministrative counties
- update acreage reports for farms located in their administrative county
- Nationwide Customer Service to update acreage reports for farms located in any State and/or county in the nation.

The State and county will be automatically set by default based on the user’s role. The user will have capability to select a different State and/or county through the normal CARS process or by Nationwide Customer Service as needed.

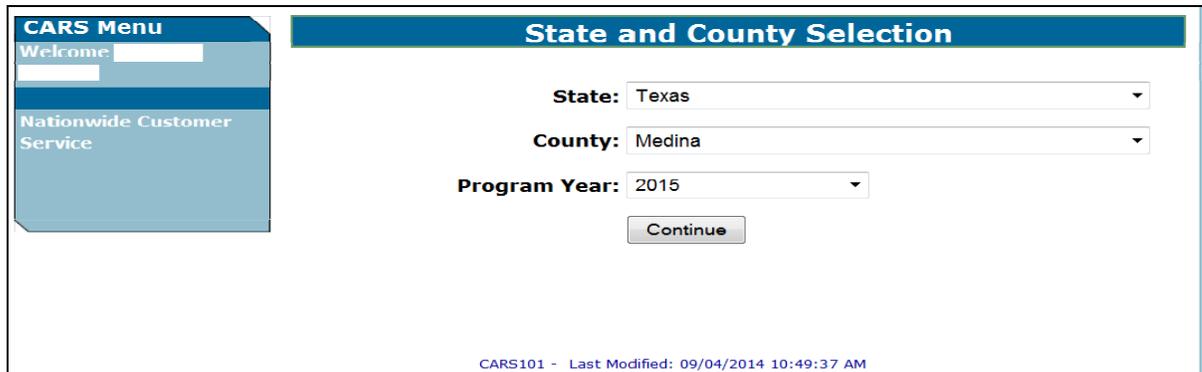

Note: All updates/changes, entered by the user, are automatically tracked for view by the National Office.--*

303 State, County, and Program Year Selection (Continued)

B State and County Selection Screen

The following is an example of the State and County Selection Screen.

*--

--*

C Action

The user shall use the drop-down lists to select the applicable:

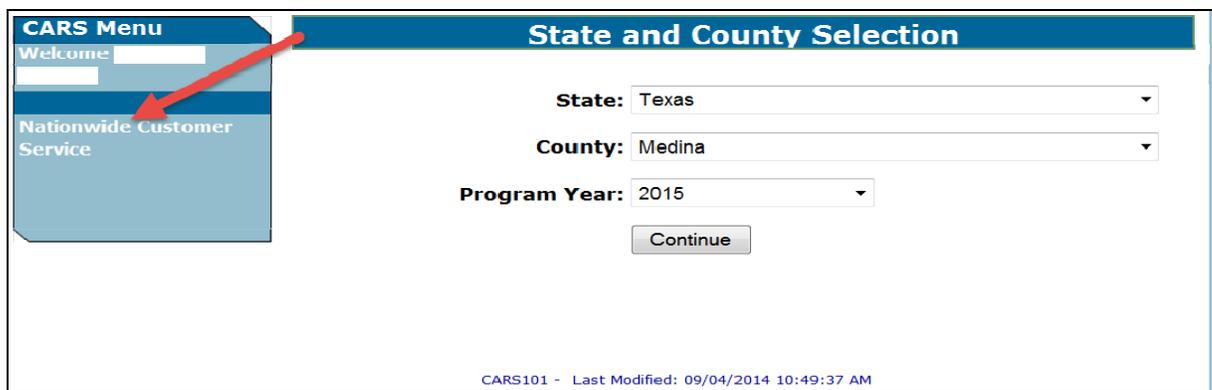

- State and county, if not previously set by default
- program year, if not previously set by default.

CLICK “Continue”. The Acreage Report Search Screen will be displayed.

***--D Nationwide Customer Service**

To access Nationwide Customer Service to update acreage reports for farms located in any State and/or county in the nation, users will click the Nationwide Customer Service option on the left of the State and County Selection Screen. The Nationwide Customer Service option will be available on the left of every screen throughout CARS.

Following is an example of the Nationwide Customer Service option on the left of the State and County Selection Screen.

--*

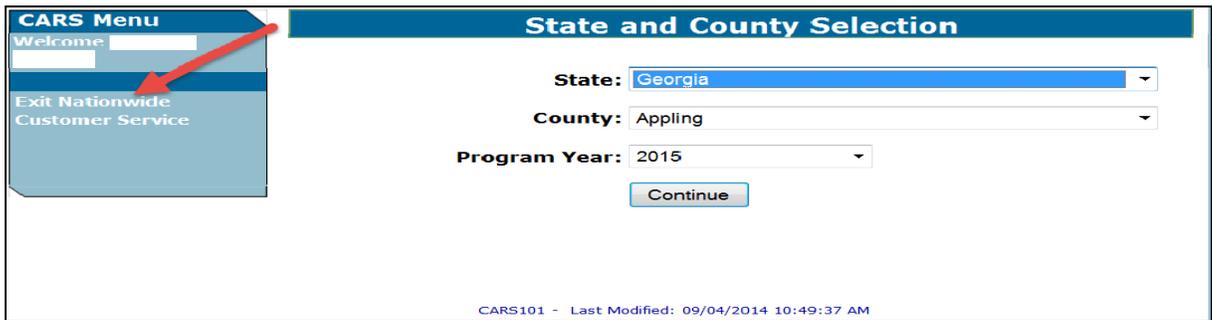

Once users click the Nationwide Customer Service option on the left, the State and County Selection Screen will be displayed for users to select and update acreage reports for farms located in any county in the nation.

303 State, County, and Program Year Selection (Continued)

***--D Nationwide Customer Service (Continued)**

The Exit Nationwide Customer Service option will be displayed on the left to indicate users are in nationwide edit mode. To exit, users shall click Exit Nationwide Customer Service.

Following is an example of the Exit Nationwide Customer Service option.

E State and County Office Action

State and County Offices that process nationwide customer service FSA-578's must:

- immediately FAX a copy of the signed FSA-578 and map to the producer's administrative county
- mail the original signed FSA-578 and map to the producer's administrative county
- maintain a copy of the signed FSA-578 and map.--*

304 Acreage Report Search Screen

A Overview

From the State and County Selection Screen, the Acreage Report Search Screen will be displayed. The Acreage Report Search Screen allows the user to enter a farm for acreage reporting through CARS by accessing a producer through SCIMS or by a specific farm number.

B Acreage Report Search Screen

The following is an example of the Acreage Report Search Screen.

*--

--*

304 Acreage Report Search Screen (Continued)

C Action

Users can search by a:

- producer by clicking:
 - the “**Producer**” radio button
 - “**Submit**”

Note: The SCIMS Customer Search Screen will be displayed. When a producer has been selected, the Crop Acreage Reports Screen will be displayed.

- specific farm number by:
 - entering the applicable farm number
 - clicking “**Submit**”.

Note: The Crop Acreage Reports Screen will be displayed.

305 Farm Selection Process

A Overview

Based on the search method selected on the Acreage Report Search Screen, the Crop Acreage Reports Screen will display the following:

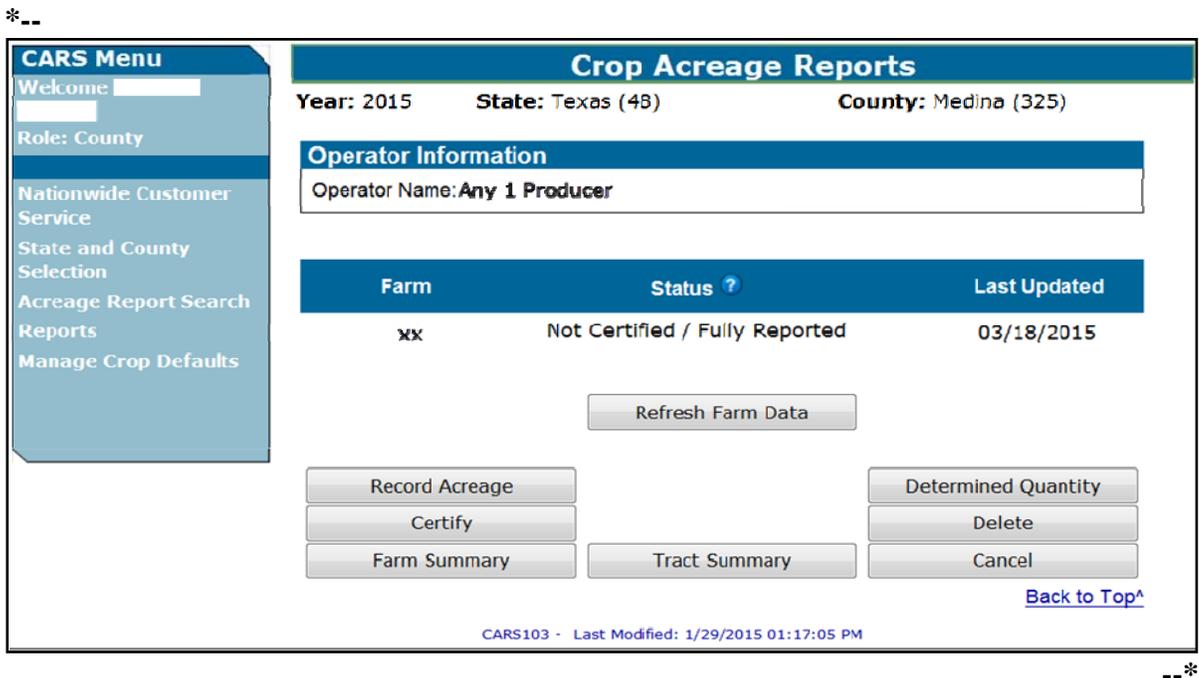

- farm numbers, associated with the producer, or a specific farm number
- status indicator to show if an acreage report is:
 - “Not Created”
 - “Not Certified / Not Reported”
 - “Partially Certified / Partially Reported”
 - *--“Partially Certified / Fully Reported”--*
 - “Fully Certified / Partially Reported”
 - “Fully Certified / Fully Reported”
- date the acreage report was last updated, if applicable.

Note: If a selected producer is associated with multiple farms, **all** farms with which the producer is associated will be displayed for selection on the Crop Acreage Reports Screen.

305 Farm Selection Process (Continued)

B Crop Acreage Reports Screen

The following is an example of the Crop Acreage Reports Screen.

Note: The “Record Farm Zero Acreage” button will be available for 2012 and prior year only.

C Options Available on the Crop Acreage Reports Screen

The following table provides a list of options available on the Crop Acreage Reports Screen.

Option/Button	Result														
Status	<p>CLICK “” next to the status header to display a list of status descriptions. The following table provides a list of available statuses and the descriptions.</p> <p>*--</p> <table border="1"> <thead> <tr> <th>Status</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>Not Created</td> <td>No acreage report is created for this farm.</td> </tr> <tr> <td>Not Certified/Not Reported</td> <td>No reported fields are certified and no cropland is reported and certified.</td> </tr> <tr> <td>Partially Certified/Partially Reported</td> <td>Not all reported fields are certified and not all cropland is reported and certified.</td> </tr> <tr> <td>Partially Certified/Full Reported</td> <td>Not all reported fields are certified and all cropland is reported and certified.</td> </tr> <tr> <td>Fully Certified/Partially Reported</td> <td>All reported fields are certified and not all cropland is reported and certified.</td> </tr> <tr> <td>Fully Certified/Fully Reported</td> <td>All reported fields are certified and all cropland is reported and certified.</td> </tr> </tbody> </table> <p>--*</p> <p>Important Note: To be considered reported, the reported cropland acreage must be certified.</p>	Status	Description	Not Created	No acreage report is created for this farm.	Not Certified/Not Reported	No reported fields are certified and no cropland is reported and certified.	Partially Certified/Partially Reported	Not all reported fields are certified and not all cropland is reported and certified.	Partially Certified/Full Reported	Not all reported fields are certified and all cropland is reported and certified.	Fully Certified/Partially Reported	All reported fields are certified and not all cropland is reported and certified.	Fully Certified/Fully Reported	All reported fields are certified and all cropland is reported and certified.
Status	Description														
Not Created	No acreage report is created for this farm.														
Not Certified/Not Reported	No reported fields are certified and no cropland is reported and certified.														
Partially Certified/Partially Reported	Not all reported fields are certified and not all cropland is reported and certified.														
Partially Certified/Full Reported	Not all reported fields are certified and all cropland is reported and certified.														
Fully Certified/Partially Reported	All reported fields are certified and not all cropland is reported and certified.														
Fully Certified/Fully Reported	All reported fields are certified and all cropland is reported and certified.														

305 Farm Selection Process (Continued)

C Options Available on the Crop Acreage Reports Screen (Continued)

Option/Button	Result
Refresh Farm Data	<p>Click this button to update farm records data in CARS.</p> <p>Example: A producer is added to farm records, but is not available in CARS.</p> <p>Notes: After users CLICK “Refresh Farm Data”, user must CLICK “Add Producer” to assign the share to the updated producer.</p> <p>The "Refresh Farm Data" option does not apply to farm/tract reconstitutions. See subparagraph 311 C for information on farm/tract reconstitutions.</p>
Record Acreage	Click this button to record acreage and share information for the farm.
Record Farm Zero Acreage	Click this button to record a farm zero acreage report for a specific crop. The option will be available for 2012 and prior years only.
Determined Quality <u>1/</u>	Click this button to record determined acreage for a specific crop.
Certify <u>1/</u>	Click this button to set the certification flag for crops or commodities that have been reported.
Delete <u>1/</u>	Click this button to delete a farm that has been recorded in CARS.
Farm Summary <u>1/</u>	Click this button to display a summary of crops or commodities reported by farm.
Tract Summary <u>1/</u>	Click this button to display a summary of crops or commodities reported by tract.
Cancel	Click this button to return the user back to the Acreage Report Search Screen.

1/ These options are **not** present until a crop or commodity is loaded for the farm.

D Action

The user shall click the radio button next to the applicable farm number. Only 1 farm can be selected.

Note: If only 1 farm number is displayed, the user shall click the applicable button to begin the acreage reporting process.

306 Producer Shares

A Overview

From the Tract Selection Screen, the Report of Acreage Screen will be displayed that provides users the ability to enter crop share for producers associated with tract/field. The shares can be modified between the producers shown. After producer shares have been entered, the recorded shares will be automatically set by default to the next reported tract or field until changed by the user.

CARS is validating against producer information contained in Farm Records at the tract level. The producers must be associated to the specific tract in Farm Records to receive a share of the crop/field in CARS. If the producer **is not** associated to the tract in Farm Records, the producer **will not** be available in CARS. To ensure that producers are available on **all tracts** they are associated with in CARS, producers must be added to **all tracts** they ***--are associated with in Farm Records according to 3-CM.--***

Note: See subparagraph 305 C for information on the “Refresh Farm Data” button.

307 Selecting Tracts

A Overview

The Tract Selection Screen will be displayed after the users CLICK “Record Acreage” on the Crop Acreage Reports Screen, if there are multiple tracts on the farm. If there is only 1 tract on the farm, the Report of Acreage Screen will be displayed.

B Tract Selection Screen

The following is an example of the Tract Selection Screen.

*--

--*

C Options Available on the Tract Selection Screen

The following table provides a list of options available on the Tract Selection Screen.

Button	Results	
Continue	IF...	THEN the...
	no crops have previously been recorded for the tract	Report of Acreage Screen will be displayed.
	crops have previously been recorded for the tract	Crop Review Screen will be displayed.
Revise Tract	Revise Tract Screen will be displayed to allow user to move crop from 1 tract to another.	
Back	Returns the user back to the Crop Acreage Reports Screen.	

D Action

The user shall select the applicable tract and CLICK “Continue”. The Report of Acreage Screen will be displayed.

307.5 Revising Tracts

A Overview

The Revise Tract Screen will be displayed after users CLICK “**Revise Tract**” on the Tract Selection Screen, if crop data has been entered for a tract on the farm. The Revise Tract Screen provides users the ability to move field/crop information from 1 tract to another. A reconciliation process will be available to ensure that only valid producers are moved. See paragraph 310 for revising crop/commodity and share information.

B Revised Tract Screen

The following is an example of the Revise Tract Screen.

*--

308 Loading Crop Acreage Information (Continued)

C Options Available on the Report of Acreage Screen

The following table provides a list of options available on the Report of Acreage Screen.

Button	Result
Submit	Click this button once all crop information is loaded. The Crop Review Screen will be displayed.
Submit and Copy	Click this button to update the crop data entered on the screen. Another data entry screen will be opened with the same entries as the field that was copied. The field number and reported quantity are the only required entries that must be made on the newly opened screen.
Submit and Bulk Copy	Click this button to save the crop data entered on the Report of Acreage Screen. The Bulk Copy Screen will be displayed to allow the same crop characteristics as the field that was copied across multiple tracts and fields.
Submit and Certify	Click this button to save the crop data entered on the Report of Acreage Screen. The Certification Screen will be displayed to allow certification of crop data entered on the Report of Acreage Screen.
Review Crops	Click this button to review crops or commodities that have been loaded for the farm. The Crop Review Screen will be displayed.
Add Producers	Click this button to display all producers associated with the tract on the Report of Acreage Screen. See subparagraph 306 A for information on producer shares.
Hide Zero Shares	This button is present only when the "Add Producers" button is clicked. When the "Hide Zero Shares" button is clicked, it removes all producers from being displayed who do not have a share greater than zero entered.

D Entering Crop/Commodity Information

On the Report of Acreage Screen, enter field data according to the following table.

Field	Action
Field Number	Enter the field number. *-- Note: This field is restricted to 6 characters for field and/or subfield numbering. Alpha characters for subfields shall not exceed 2 characters. Number values for the field shall not exceed 4 digits. See paragraph 494 for identifying fields.
Reported Quantity	Enter the reported quantity. Calculated or measured acreage can be entered or maintained in tenths, hundredths, thousandths, or ten thousandths. Managing acreage in tenths or--* hundredths on FSA-578 is at the discretion of the State Office, as long as the level of entry is consistent throughout the State. In cases where hundredths of acres are required, and acreage is only reported in tenths, a zero shall be added in the hundredths decimal place. Tobacco and other specified NAP crop acreage must be entered in hundredths in all States. * * * Acreage planted in a skip-row or strip-crop pattern must be factored and net crop entered, unless the planting practice is an approved exception according to paragraph 393.
Predominant Number	If applicable, enter the crop default number for the crop/crop characteristics to be entered. Once the predominant number is entered, all applicable fields will be automatically pre-populated.
Crop/Commodity	Select the crop from the drop-down list. The crops listed in the drop-down list are from CVS.
Variety/ Type	Select the variety and type from the drop-down list. The drop-down list is populated based on the crop that was selected in the crop/commodity drop-down list.

308 Loading Crop Acreage Information (Continued)

D Entering Crop/Commodity Information (Continued)

Field	Action
Intended Use	Select the intended use from the drop-down list. The intended uses displayed will be pulled from CVS for the crop selected.
Planting Pattern	Select the planting pattern from the drop-down list. Orchard crops and crops planted in skip/strip row patterns will need additional information loaded in data fields displayed at the bottom of the screen. See subparagraph E for skip/strip row and subparagraph F for *--orchard entries. See paragraph 393 for information on planting patterns.--*
Actual Use	This is not a required entry. This field is used to document the actual use of the reported crop/commodity when the actual use is different than the intended use.
Irrigation Practice	Select the irrigation practice from the drop-down list.
Crop Status	Select the crop status from the drop-down list. The definition of the crop status is located in Exhibit 11.
Supplemental Status	Select the supplemental status code from the drop-down list. The selection options are *-- "Not Applicable", "Not Planted", "Planted", "Prevented", "Failed", or "Volunteer". Notes: The "Not Planted" option will be available for 2011 and 2012 only. The "Not Applicable" option will be available for 2015 and subsequent years.--*
Reporting Unit	This field will be automatically defaulted based on the selected crop/commodity. Reporting unit: <ul style="list-style-type: none"> • "colonies" will be defaulted for honey • "taps" will be defaulted for maple sap • "acres" will be defaulted for all crops, except honey and taps. Note: Reporting unit "Hives" will be available for 2014 and prior years only and "Colonies" will be available for 2015 and subsequent years.
Land Use	This entry is prefilled based on data pulled from CVS.
Cropland Status	The cropland status will default to "Y", but the user shall change it to "N" if the crop/commodity being loaded is considered to be on noncropland. Note: Only fields with the indicator set to "Y" will be used in calculating total reported cropland.
Planting Date	Enter in "MMDDYYYY" format or choose the date by clicking "Calendar" icon. Note: See subparagraph 78 F for crops that do not require a planting date.
Organic Status	Automatically defaulted to "Conventional". If the organic status is not "Conventional", select the applicable status from the drop-down list. Available options are "Conventional", "Transitional", and "USDA Certified". *-- Notes: See paragraph 23.7 for reporting organic crops. "Organic" status will be available beginning with the 2015 crop year and displayed on applicable CARS screens, FSA-578, and FSA-578 (Producer Print) as "C" for conventional, "OT" for transitional, and "OC" for USDA Certified.
Native Sod Conversion	Check (✓) box only when a crop is planted on native pasture as indicated in SAP CRM Farm Records. Notes: Native pasture conversion checkbox will be available for 2015 and subsequent years. See 1-NAP, paragraph 379 for information on native sod acreage.--*

308 Loading Crop Acreage Information (Continued)

D Entering Crop/Commodity Information (Continued)

Field	Action	
End Year	This is not a required entry. Enter an end year date for a field only if that crop will maintain the exact same crop characteristics next year. This includes the same crop status, intended use, and type. County Offices shall enter the appropriate end year date, from CRP-1, in all new CRP fields for the current year. Failure to enter the date will mean the field will not be rolled over to the future year in CARS. See paragraph 78.	
Official/ Measured	This field is defaulted to “None”. Select “Official”, “Measured”, or “Staked” from the drop-down list, as applicable, according to procedure in paragraph 77.	
Concurrent Planting	This field is defaulted to “None”. Enter the applicable value from the drop-down list. Only crops with a concurrent planting value, in CVS, will be available for selection in the drop-down list. The options are “Alternate”, “Interplant”, and “Multiuse”.	
Planting Period	Planting periods carrying capacity are retrieved from NCT.	
	IF...	THEN...
	no planting period, carrying capacity is available on NCT for the crop	this field is defaulted to “01”.
	only 1 planting period, carrying capacity is available on NCT for the crop, type, practice, and intended use	this field is defaulted as the planting period carrying capacity listed on NCT.
more than 1 planting period, carrying capacity is available on NCT for the crop, type, practice, and intended use	a drop down list with applicable NCT planting periods carrying capacity will be available for selection.	
Field ID	<p>This is not a required field. Enter up to 4 characters to record additional information about the crop acreage being reported.</p> <p>Example: No Till, Wetlands, etc.</p> <p>Note: This field is used for informational purposes only.</p>	
NAP Unit	<p>After the user clicks “Submit” on the Report of Acreage Screen, this field will be automatically populated based on available NAP units from the NAP Unit Table.</p> <p>Notes: NAP units will be populated for all producers since NAP units are created using farming relationships as reported in CARS.</p> <p>To access the option to manually override the populated NAP unit, users must click “Revise” on the Crop Review Screen.</p> <p>The populated NAP unit number shall be manually overridden only when the relationship based on producer type documented on FSA-578 does not match the actual farming relationship.</p>	
RMA Unit	This is not a required entry.	

308 Loading Crop Acreage Information (Continued)

E Skip/Strip Row Information

If skip/strip row pattern is selected according to the table in subparagraph D, additional data entry fields will be displayed. Each data field is a required entry. Follow paragraph 393 to determine the data that must be entered.

The following is an excerpt from the Report of Acreage Screen displaying the data fields that must be entered.

Skip/Strip Row Information	
Number of Crop Rows	<input type="text"/>
Number of Non-Crop Rows	<input type="text"/>
Crop Row Width (in inches)	<input type="text"/>
Skip Row Width (in inches)	<input type="text"/>
Conversion Factor	<input type="text"/>

F Orchard Crop Information

If the orchard pattern is selected according to the table in subparagraph D, additional data entry fields will be displayed. Each data field is a required entry.

The following is an excerpt from the Report of Acreage Screen displaying the data fields that must be entered.

Orchard Crop Information	
Number of Trees	<input type="text"/>
Row Width (in feet)	<input type="text"/>
Spacing of Trees (in feet)	<input type="text"/>
Age Of Trees	<input type="text"/>

308 Loading Crop Acreage Information (Continued)

G Bulk Copy Screen

Users have the capability to use the bulk copy option to copy pre-existing crop information across a single tract or across multiple tracts. Crop data entered on the Report of Acreage Screen will be automatically saved when users CLICK “Submit” and “Bulk Copy” on the Report of Acreage Screen. The following is an example of the Bulk Copy Screen.

308.5 Predominant Crops and Crop Characteristic Defaults

A Overview

User will have the capability to create predominant crops and crop characteristic defaults specific to their county. Exhibit 10.5 contains the valid current year’s crops and crop characteristics. The crops in Exhibit 10.5:

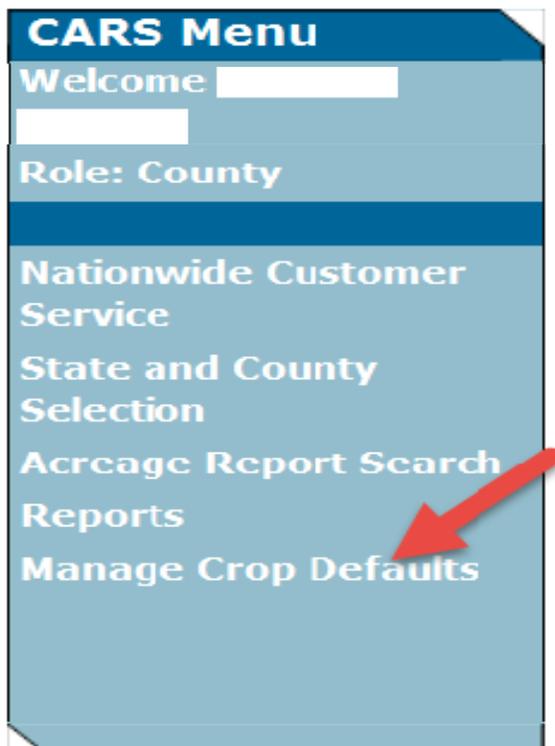

- are also known as CVS
- contain all crops for acreage reporting purposes.

Note: For a list of NAP-eligible crops, see 1-NAP.

B Accessing “Manage Crop Defaults” Option

The “Manage Crop Defaults” option is available under the CARS Menu on every screen throughout CARS beginning on the Acreage Report Search Screen. The following is an example of the “Manage Crop Defaults” option.

*--

--*

If no predominant crop and crop characteristic default is created, the Add Crop Default Screen will be displayed. If at least 1 predominant crop and crop characteristic default is created, the List Crop Defaults Screen will be displayed.

308.5 Predominant Crops and Crop Characteristic Defaults (Continued)

C Add Crop Default Screen

The following is an example of the Add Crop Default Screen. User will only see this screen when no crop defaults have been created.

*--

Note: For crop defaults to rollover from the previous year to the current year, the user must click the “Manage Crop Defaults” option on the left. Only defaults that pass validation will rollover to the current year. The previous year’s defaults with invalid crop characteristics will be displayed to the user.--*

308.5 Predominant Crops and Crop Characteristic Defaults (Continued)

D Adding Crop Default Information

On the Add Crop Default Screen, enter field data according to the following table.

Field	Action
Predominant Number	Enter the number to be assigned for the crop default information entered.
Crop/Commodity	Select the crop from the drop-down list. The crops listed in the drop-down list are from CVS.
Variety/Type	Select the variety and type from the drop-down list. The drop-down list is populated based on the crop that was selected in the crop/commodity drop-down list.
Intended Use	Select the intended use from the drop-down list. The intended uses will be pulled from CVS for the crop selected.
Irrigation Practice	Select the irrigation practice from the drop-down list.
Reporting Unit	<p>This field will be automatically defaulted based on the selected crop/commodity. Reporting unit:</p> <ul style="list-style-type: none"> • “colonies” will be defaulted for honey • “taps” will be defaulted for maple sap • “acres” will be defaulted for all crops, except honey and taps. <p>Notes: Reporting unit “Hives” will be available for 2014 and prior years only and “Colonies” will be available for 2015 and subsequent years.</p> <p style="text-align: center;">*--Only reporting unit “acres” will be considered for cropland comparison according to paragraph 312.--*</p>
Crop Status	Select the crop status from the drop-down list. The definition of the crop status is located in Exhibit 11.
Supplemental Status	<p>Select the supplemental status code from the drop-down list. The *--selection options are “Not Planted”, “Not Applicable”, “Planted”, *--* “Prevented”, “Failed”, or “Volunteer”.</p> <p>Notes: The “Not Planted” option will be available for 2011 and 2012 only.</p> <p style="text-align: center;">*--The “Not Applicable” option will be available for 2015 and subsequent years.--*</p>
Concurrent Planting	This field is defaulted to “None”. Enter the applicable value from the drop-down list. Only crops with a concurrent planting value in CVS, will be available for selection in the drop-down list. The options are “Alternate”, “Interplant”, and “Multiuse”.
Land Use	This entry is prefilled based on data pulled from CVS.
Planting Pattern	Select the planting pattern from the drop-down list. Orchard crops and crops planted in skip/strip row patterns will need additional information loaded in data fields displayed at the bottom of the screen. See subparagraph 308 E for skip/strip row and subparagraph 308 F for orchard entries.

308.5 Predominant Crops and Crop Characteristic Defaults (Continued)

E Options Available on the Add Crop Default Screen

The following table provides a description of the options available on the Add Crop Default Screen.

Button	Result
Save	The crop defaults for the applicable predominant number will be saved. The List Crop Defaults Screen will be displayed.
Save and Add	The crop defaults for the applicable predominant number will be saved. The Add Crop Default Screen will continue to be displayed for another crop to be recorded.
Save and Copy	The Add Crop Default Screen will continue to be displayed with all previously saved crop characteristics with the exception of the predominant number.
--Cancel	The List Crop Defaults Screen will be displayed.--

308.5 Predominant Crops and Crop Characteristic Defaults (Continued)

309 Reviewing Acreage Reported in CARS

A Overview

An option is available to allow users to view data already loaded in CARS. The data can be reviewed for a producer acreage report in any county where a report has already been loaded. The Crop Review Screen:

- is accessed by clicking the “Review Crops” button on the Report of Acreage Screen

Note: See subparagraph 308 B for an example of the Report of Acreage Screen.

- will be displayed when a farm and/or tract is selected to report additional crop/commodity data.

B Crop Review Screen

The following is an example of the Crop Review Screen.

*--

--*

309 Reviewing Acreage Reported in CARS (Continued)

C Options Available on the Crop Review Screen

The following table provides a description of the options available on the Crop Review Screen.

Button	Result
Add	<p>Click this button to add another field to the existing acreage report for the farm and tract selected.</p> <p>Note: This option is available when an acreage report has been loaded in CARS and an additional acreage report now needs to be loaded.</p>
Revise	<p>Click this button to revise the acreage report for the field selected.</p> <p>Note: See paragraph 310 for instructions to revise a previously loaded acreage report.</p>
Delete	<p>Click this button to delete an acreage report for the field selected.</p> <p>Note: See paragraph 311 for instructions to delete a previously loaded acreage report.</p>
Copy	<p>Click this button to copy the pre-existing attributes of a selected field for entry to a new field on the Report of Acreage Screen. Only 1 field can be copied at a time.</p>
*--Certify	<p>Click this button to certify the acreage report for the field selected.</p>
Bulk Copy	<p>Click this button to copy the pre-existing crop and crop characteristics of a selected field for entry of that same crop information across multiple fields and/or tracts on the Bulk Copy Screen.--*</p>

310 Revising Crop/Commodity and Share Information

A Overview

Users have the capability to revise applicable data loaded in CARS **only** within their administrative county, including zero acreage reports, as necessary.

B Accessing the “Revise” Option

Access the “Revise” option on the Crop Review Screen as follows.

Step	Action	Result
1	On the Acreage Report Search Screen, enter the applicable farm number or search for a producer in SCIMS. CLICK “ Submit ”.	The Crop Acreage Reports Screen will be displayed.
2	CLICK “ Record Acreage ”.	The Crop Review Screen will be displayed.
3	Select the radio button of the applicable crop or field to be revised.	
4	CLICK “ Revise ”.	The Report of Acreage Screen will be displayed.
5	A revision may be made to any entry, as applicable.	
6	After the applicable revisions have been made, CLICK “ Submit ”.	The message, “The crop acreage report has been successfully updated”, will be displayed.

310 Revising Crop/Commodity and Share Information (Continued)

C Revising Specific Crop/Commodity Information

The crop/commodity information that was previously entered in CARS can be revised by clicking the “Revise” button on the Crop Review Screen.

To revise the applicable crop information on the Report of Acreage Screen, refer to the following table.

Field	Action
Field Number	Enter the correct field number.
Predominant Number	If applicable, enter the crop default number for the crop/crop characteristics to be entered. Once the predominant number is entered, all applicable fields will be automatically pre-populated.
Crop/Commodity	Select the correct crop name from the drop-down list.
Variety/Type	Select the correct variety/type from the drop-down list.
Intended Use	Select the correct intended use from the drop-down list.
Planting Pattern	Select the correct planting pattern from the drop-down list.
Actual Use	This is not a required entry. Select the correct actual use from the drop-down list.
Irrigation Practice	Select the correct irrigation practice from the drop-down list.
Crop Status	Select the correct crop status from the drop-down list.
Supplemental Status	Select the correct supplemental status from the drop-down list.
Reporting Unit	This field will be automatically defaulted based on the selected crop/commodity. Reporting unit: <ul style="list-style-type: none"> • “colonies” will be defaulted for honey • “taps” will be defaulted for maple sap • “acres” will be defaulted for all crops, except honey and taps. <p>Notes: Reporting unit “Hives” will be available for 2014 and prior years Only “Colonies” will be available for 2015 and subsequent years.</p> <p style="text-align: center;">*--Acreage with reporting unit “acres” will be considered for cropland comparison according to paragraph 312.--*</p>
Land Use	This field cannot be revised as it is based on the crop/commodity selected.
Reported Quantity	Enter the correct quantity in reporting units.
Cropland Status	Select the correct cropland status from the drop-down list.
Planting Date	This is a required entry. Enter the correct planting date in “MM/DD/YYYY” format or using the calendar provided.
End Year	This is not a required entry. Enter the correct end year.
Official/Measured	Enter the correct value from the drop-down list.
Concurrent Planting	Enter the correct value from the drop-down list.
Planting Date	Enter in “MMDDYYYY” format or choose the date by clicking “Calendar” icon. <p>Note: See subparagraph 78 F for crops that do not require a planting date.</p>

310 Revising Crop/Commodity and Share Information (Continued)

C Revising Specific Crop/Commodity Information (Continued)

Field	Action								
Organic Status	<p>Automatically defaulted to “Conventional”. If the organic status is not “Conventional”, select the applicable status from the drop-down list. Available options are “Conventional”, “Transitional”, and “USDA Certified”.</p> <p>Notes: Shall not be modified until policy is provided on using organic crops.</p> <p>“Organic” status will be available beginning with the 2015 crop year and displayed on applicable CARS screens, FSA-578, and FSA-578 (Producer Print) as “C” for conventional, “OT” for transitional, and “OC” for USDA Certified.</p>								
Planting Period	Planting periods carrying capacity are retrieved from NCT.								
	<table border="1"> <thead> <tr> <th data-bbox="537 695 1084 730">IF...</th> <th data-bbox="1084 695 1474 730">THEN...</th> </tr> </thead> <tbody> <tr> <td data-bbox="537 730 1084 800">no planting period, carrying capacity is available on NCT for the crop</td> <td data-bbox="1084 730 1474 800">this field is defaulted to “01”.</td> </tr> <tr> <td data-bbox="537 800 1084 905">only 1 planting period carrying capacity is available on NCT for the crop, type, practice and intended use</td> <td data-bbox="1084 800 1474 905">this field is defaulted as the planting period carrying capacity listed on NCT.</td> </tr> <tr> <td data-bbox="537 905 1084 1037">more than 1 planting period carrying capacity is available on NCT for the crop, type, practice and intended use</td> <td data-bbox="1084 905 1474 1037">a drop down list with applicable NCT planting periods carrying capacity will be available for selection.</td> </tr> </tbody> </table>	IF...	THEN...	no planting period, carrying capacity is available on NCT for the crop	this field is defaulted to “01”.	only 1 planting period carrying capacity is available on NCT for the crop, type, practice and intended use	this field is defaulted as the planting period carrying capacity listed on NCT.	more than 1 planting period carrying capacity is available on NCT for the crop, type, practice and intended use	a drop down list with applicable NCT planting periods carrying capacity will be available for selection.
	IF...	THEN...							
	no planting period, carrying capacity is available on NCT for the crop	this field is defaulted to “01”.							
only 1 planting period carrying capacity is available on NCT for the crop, type, practice and intended use	this field is defaulted as the planting period carrying capacity listed on NCT.								
more than 1 planting period carrying capacity is available on NCT for the crop, type, practice and intended use	a drop down list with applicable NCT planting periods carrying capacity will be available for selection.								
only 1 planting period carrying capacity is available on NCT for the crop, type, practice and intended use	this field is defaulted as the planting period carrying capacity listed on NCT.								
more than 1 planting period carrying capacity is available on NCT for the crop, type, practice and intended use	a drop down list with applicable NCT planting periods carrying capacity will be available for selection.								
Field ID	<p>This is not a required field. Enter up to 4 characters to record additional information about the crop acreage being reported.</p> <p>Example: No Till, wetlands, etc.</p> <p>This field is used for informational purposes only.</p>								
NAP Unit	<p>After the user clicks “Submit” on the Report of Acreage Screen, this field will be automatically populated based on available NAP units from the NAP Unit Table.</p> <p>Notes: NAP units will be populated for all producers since NAP units are created using farming relationships as reported in CARS.</p> <p>To access the option to manually override the populated NAP unit, users must click “Revise” on the Crop Review Screen.</p> <p>The populated NAP unit number shall be manually overridden only when the relationship based on producer type documented on FSA-578 does not match the actual farming relationship.</p>								
RMA Unit	This is not a required entry. Enter the correct RMA unit.								
Share %	<p>Enter the correct share percentages for each respective producer.</p> <p>Note: Shares must equal 100 percent. See subparagraph 306 A for additional information on producer shares.</p>								

311 Deleting Acreage Report Information

A Overview

Users have the capability to delete an acreage report record, including a zero acreage report, by farm or field.

B Delete Acreage Report Screen

The following is an example of the Delete Acreage Report Screen.

C Deleting Farms From CARS Because of Farm Records Reconstitutions

A farm must be deleted from CARS before a reconstitution is performed in Farm Records. Before the release of MIDAS Farm Records, if FSA-578 for a farm was available in CARS, Farm Records displayed a message that FSA-578 must be deleted before the reconstitution can be performed. Since the release of MIDAS Farm Records, the message to delete the pre-existing FSA-578 is no longer being displayed.

Beginning with 2013, a farm will be automatically deleted from CARS when a reconstitution is performed for the farm/tract in MIDAS Farm Records.

D Deleting Acreage Report by Farm

This option will provide the user the capability to select a farm record to delete. Once that farm number is selected, the farm number, operator name, and report status will be displayed. The user will have the option to delete the farm record from CARS or cancel the delete process.

Farm deletion will result in the permanent elimination of all crop records from CARS for a specified farm.

311 Deleting Acreage Report Information (Continued)

E Accessing the Farm Report “Delete” Option

Access the farm report “Delete” option on the Crop Acreage Reports Screen as follows.

Step	Action	Result
1	On the Acreage Report Search Screen, do either of the following and CLICK “Submit”: <ul style="list-style-type: none"> • select the farm to be deleted by entering the applicable farm number • select the farm by searching for the producer in SCIMS. 	The Crop Acreage Reports Screen will be displayed. If the user searched for the producer, the user will have to select the applicable farm by clicking the radio button to the left of the farm.
2	Once the farm has been selected by either method in step 1, the user shall CLICK “Delete”.	The Delete Acreage Report Screen will be displayed.
3	The user will be prompted to answer the question, “Are you sure you want to delete the acreage report?”	If: <ul style="list-style-type: none"> • “No” is selected, the user will be returned to the Crop Acreage Reports Screen • “Yes” is selected, the user will receive the message, “The acreage report has been successfully deleted for farm number XX”, on the Crop Acreage Reports Screen.

F Deleting Acreage Report Records by Field

This option will provide a complete list of all crop data associated with a farm and tract. The user will have the capability to select a crop record to delete. The user will have the option to delete the crop record or cancel the delete process. The crop record will display the farm number, tract number, crop, crop type, practice, intended use, report unit, crop status, supplemental status, and acreage.

Field deletion will result in the permanent elimination of all crop records for a specified field.

G Accessing the Field Record “Delete” Option

Access the field record “Delete” option on the Crop Review Screen as follows.

Step	Action	Result
1	On the Acreage Report Search Screen, enter the applicable farm number or search for a producer in SCIMS. CLICK “ Submit ”.	The Crop Acreage Reports Screen will be displayed.
2	CLICK “ Record Acreage ”.	The Crop Review Screen will be displayed.
3	Select the radio button of the applicable crop or field to be deleted.	
4	CLICK “ Delete ”.	The Delete Crop Screen will be displayed.
5	The user will be prompted to answer the question, “Are you sure you want to delete the Crop?”.	If: <ul style="list-style-type: none"> • “No” is selected, the user will be returned to the Crop Review Screen • “Yes” is selected, the user will receive the message, “The crop has been successfully deleted”, on the Crop Review Screen.

312 Cropland Comparison

A Cropland Comparison Flag

To ensure that all cropland has been reported, the software will compare total certified reported initial (I) and experimental (X) acreage to the total cropland on the farm.

The cropland comparison flag will be automatically set to “Y” real time after all cropland on the farm has been reported and certified. Total cropland is retrieved from Farm Records.

***--Note:** Only reporting unit “acres” will be considered when setting the cropland comparison flag.--*

B Cropland Comparison Variance

To account for minor acreage differences, software will:

- automatically calculate a variance between total cropland on the farm and reported cropland
- set the cropland comparison flag accordingly.

If within the following variance, the cropland comparison flag will be set to “Y”. The variance is the larger of the following:

- 1 percent of the cropland
- .5 acre.

The maximum variance is 10 acres.

Note: The variance will not run until all reported crops are certified.

C Cropland Comparison Override * * *

***--If** the farm has no cropland, CARS will provide an override process to set the cropland comparison flag automatically to “Y” nightly. No user intervention will be allowed.

Note: At any point thereafter, if the cropland status on the farm is greater than zero, the comparison flag will be set automatically to “N”.--*

314 Certifying Acreage Report

A Overview

All crops reported in CARS are required to be certified by the applicable reporting deadline *-according to Exhibit 6 or 6.5, as applicable. County Office shall review all crops and acreage information with producers before certifying the acreage report in CARS.

B Certification Screen

The following is an example of the Certification Screen.

--*

C Options Available on the Certification Screen

The following options are available on the Certification Screen.

Button	Result
Certify	Click this button to certify the selected crop acreage.
Certify and Print	Click this button to certify and print the selected crop acreage.
Print	Click this button to print the selected crop acreage.
Uncertify	Click the button to uncertify crop acreage previously certified.
Back	Click the button to return to the Crop Acreage Reports Screen.

314 Certifying Acreage Report (Continued)

D Certifying Crops

Certify crops as follows.

Step	Action	Result
1	On the Acreage Report Search Screen, enter the applicable farm number or search for a producer in SCIMS. CLICK “Submit” .	The Crop Acreage Reports Screen will be displayed.
2	CLICK “Certify” .	The Certification Screen will be displayed.
3	Enter the signature date from FSA-578 and provide the option to certify by either of the following methods: <ul style="list-style-type: none"> •*--select the radio button in the heading bar to certify all fields in the tract--* • select the fields individually if not certifying the entire tract. 	
4	CLICK “Certify” .	On the Crop Acreage Reports Screen, the user will receive the message, “The selected crops have been certified”. The status will change from “Not Certified” to “Certified” for all fields selected. The date certified will display under the “Certification Date” column.

314 Certifying Acreage Report (Continued)

E Uncertifying Crops

Uncertify crops as follows.

Step	Action	Result
1	On the Acreage Report Search Screen, enter the applicable farm number or search for a producer in SCIMS. CLICK “Submit” .	The Crop Acreage Reports Screen will be displayed.
2	CLICK “Certify” .	The Certification Screen will be displayed.
3	Select either of the following: <ul style="list-style-type: none"> • the tract to uncertify all fields • each field individually to uncertify. 	
4	CLICK “Uncertify” .	On the Crop Acreage Reports Screen, the user will receive the message, “The selected crops have been uncertified”. The date certified will be removed from the “Certification Date” column.

315 Farm Summary Review

A Overview

Users have the capability to select a farm for viewing a complete summary of crop data attributes reported at the farm level. The summary will be displayed with a complete list of *--all crops or commodities associated with the farm and a farm level GIS map.

Users shall click the check box for cropland and/or non-cropland to view applicable cropland and/or non-cropland boundaries for tracts on the farm. Tract and field boundaries will be displayed as yellow.

Notes: Wetland points for the farm will be displayed when applicable.

Maps will be available beginning with the 2015 crop year.--*

315 Farm Summary Review (Continued)

The “Map” option will be available beginning with the 2015 crop year.--*

317 Printing FSA-578 Report of Commodities (Continued)

C Accessing FSA-578 Print Routine

Users have the capability to print FSA-578 after reported crop data has been saved. FSA-578 will print in landscape mode only.

Access the FSA-578 print routine from CARS as follows.

Step	Action	Result
1	On any screen, the user shall CLICK “Reports” under “CARS Menu” on the left side of the screen.	The Reports Screen will be displayed.
2	<p>The user has the option of printing by selecting the radio button beside 1 of the following:</p> <ul style="list-style-type: none"> • FSA-578 <p>Note: Includes both the Farm and Tract Detail Listing and Farm Summary.</p> <ul style="list-style-type: none"> •*-Map-* • FSA-578 Summary <p>Note: A farm number must be entered for the FSA-578 and FSA-578 Summary options.</p> <ul style="list-style-type: none"> • FSA-578 (Producer Print). 	The respective report will be generated.

D Reviewing the FSA-578 Summary Page

The County Office employee shall review and initial FSA-578, on the “Original” or “Revision” line, as applicable, on the summary page header, using the same page that was signed by the producer.

*-Note: This eliminates the requirement to initial and date after last entry on automated FSA-578’s.

E Reviewing the FSA-578 Farm and Tract Detail Listing

County Offices shall review all information printed on the FSA-578 Farm and Tract Detail Listing for accuracy and to determine whether reported cropland equals the cropland for the tract. The following messages will be printed on the FSA-578 Farm and Tract Detail--* Listing.

IF the farm has...	AND all cropland...	THEN the following message will be printed...
1 tract	for the tract has not been reported	<p>“All cropland has not been reported.”</p> <p>Note: Only acres reported on cropland with a crop status of (I)initial or (X)experimental and supplemental status of planted, failed, prevented, or volunteer will be considered.</p>

317 Printing FSA-578 Report of Commodities (Continued)

E Reviewing the FSA-578 Farm and Tract Detail Listing (Continued)

IF the farm has...	AND all cropland...	THEN the following message will be printed...
more than 1 tract	on all active tracts has not been reported	<p>“All cropland on all active tracts has not been reported.”</p> <p>Note: Only acres reported on cropland with a crop status of (I)initial and (X)experimental and supplemental status of planted, failed, prevented, or volunteer will be considered.</p>

*--F Conditions Resulting in Acreage Differences

The reported acreage and cropland acreage may not equal because of additional acreages of:

- double cropping
- subsequent crops
- repeat crops
- multiple crops reported on the same field
- crop reported on noncropland, such as grass, orchards, native pecans, etc.
- crop reported on noncropland that has been converted to cropland.--*

318 Status Reports

A Overview

The following reports are available to provide a status of FSA-578 data recorded in CARS. County Offices shall use these reports as a management tool to assess the information collected on FSA-578 and assist with settling data discrepancies with producers:

- Farms with Fully Reported Cropland
 - Farms with Unreported Cropland
 - Farms with Uncertified Crops
 - Farms with Incomplete Determined Acres
 - Farms with Reported Acres on Noncropland
 - Farms with Prevented Planted Acres
 - Crops with End Date
 - Farms with End Date
 - Farms with No FSA-578
 - *--Farms with DCP Contract and Unreported Cropland (available for 2013 and prior years only)
 - Farms with ACRE Contract and Unreported Cropland (available for 2013 and prior years only)
 - Farms with ARC/PLC contract and unreported cropland (available beginning with 2015 crop year)
- Note:** This report will not be available until ARC/PLC contracts become available for access--*
- Farms with Cropland Override
 - Farms with No NAP Unit.

Note: See paragraph 380.5 and 380.6 for information on accessing the web-based FSA-468 reports.

318 Status Reports (Continued)

B Report Descriptions

The following table provides the report and the description of the results that will be obtained when the report is run.

Reports	Description
Farms with Fully Reported Cropland	Provides a list of farms with all cropland reported and certified.
Farms with Unreported Cropland	<p>*--Provides a list of farms with cropland on the farm that has not been reported in CARS.</p> <p>County Office shall contact producers on the report to inform them that a full acreage report is required to remain eligible for program benefits, as applicable.</p>
Farms with Uncertified Crops	<p>Provides a list of farms that does not have the certification date entered for all crops.</p> <p>County Office shall contact producers on the report to inform them that a full acreage report is required to remain eligible for program benefits or certify crop, if already reported and/or certified by the producer and loaded in the automated system.</p>
Farms with Incomplete Determined Acres	<p>Provides a list of farms where determined acreage is loaded for a specific crop and all acreage of that crop does not have determined acreage entered.</p> <p>County Office shall determine the remainder of the fields for the crop selected for spot check.--*</p>
Farms with Reported Acres on Noncropland	Provides a list of farms with acres recorded on noncropland.
Farms with Prevented Planted Acres	<p>Provides the following information for each farm with reported prevented planted acreage:</p> <ul style="list-style-type: none"> • • farm number • operator • crop/commodity • acreage quantity • variety/type • intended use • irrigation practice.

318 Status Reports (Continued)

B Report Descriptions (Continued)

Reports	Description
Crops with End Date	Provides a report of all crops with end dates for the farm number entered.
Farms with End Date	Provides a list of farms with crops entered with an end date.
Farms with No FSA-578	Provides a list of active farms with no FSA-578 on file.
Farms with DCP Contract and Unreported Cropland	Provides a list of farms with an active DCP contract and unreported cropland. *--Note: Available for 2013 and prior years only.
Farms with ACRE Contract and Unreported Cropland	Provides a list of farms with an active ACRE contract and unreported cropland. Note: Available for 2013 and prior years only.
Farms with ACR/PLC Contract and Unreported Cropland	Provides a list of farms with an active ARC/PLC contract and unreported cropland. Note: Available beginning with 2015 crop year.--*

318 Status Reports (Continued)

B Report Descriptions (Continued)

Reports	Description
Farms with Cropland Override	Provides a list of farms with the cropland comparison flag set by the cropland override.
Farms with No NAP Unit	Provides list of farms with 1 or more fields with no identified NAP unit.
Farms with Deleted Producers with Active Shares	<p>Provides a list of farms when the producer is no longer associated with the farm in Farm Records, but an active share record for the producer exists in CARS. This could be the result of a:</p> <ul style="list-style-type: none"> • SCIMS merge • farm/tract reconstitution • producer being deleted from Farm Records. <p>*--County Office shall review other systems and adjust shares accordingly (such as SCIMS merge), or contact producers to ensure that shares are updated correctly.--*</p>

C Action

To access the Reports Screen:

- CLICK “**Reports**” under “CARS Menu” on the left side of an opened screen in CARS
- select the radio button next to the report to be printed
- CLICK “**Generate Report**”.

The selected report will be:

- created in a “PDF” format
- available for the user to save, view, and/or print.

319 Determined Acreage

A Overview

Users will have the capability to record the determined acreage quantity for crops loaded in *-CARS. See paragraph 390 for information on acreage determination methods.--*

B “Determined Quantity” Button

The “Determined Quantity” button is available on the Crop Acreage Reports Screen. The following is an example of the Crop Acreage Reports Screen.

*--

The screenshot displays the 'Crop Acreage Reports' interface. On the left is a 'CARS Menu' sidebar with options like 'Welcome', 'Role: County', 'Nationwide Customer Service', 'State and County Selection', 'Acreage Report Search Reports', and 'Manage Crop Defaults'. The main content area has a header with 'Crop Acreage Reports' and filters for 'Year: 2015', 'State: Texas (48)', and 'County: Medina (325)'. Below this is an 'Operator Information' section showing 'Operator Name: Any 1 Producer'. A table lists farm data with columns for 'Farm', 'Status', and 'Last Updated'. The table contains one entry: Farm 'xx', Status 'Not Certified / Fully Reported', and Last Updated '03/18/2015'. Below the table is a 'Refresh Farm Data' button. At the bottom, there are buttons for 'Record Acreage', 'Certify', 'Farm Summary', 'Tract Summary', 'Determined Quantity', 'Delete', and 'Cancel'. A 'Back to Top' link is located at the bottom right. The footer of the screen reads 'CARS103 - Last Modified: 1/29/2015 01:17:05 PM'.

--*

Note: The “Record Farm Zero Acreage” button will be available for 2012 and prior years.

319 Determined Acreage (Continued)

C Accessing the “Determined Quantity” Button

Access the “Determined Quantity” button on the Crop Acreage Reports Screen according to this table.

Step	Action	Result
1	On the Acreage Report Search, enter the applicable farm number or search for a producer in SCIMS. CLICK “Submit”.	The Crop Acreage Reports Screen will be displayed.
2	CLICK “Determined Quantity”.	The Determined Quantity – Crop Selection Screen will be displayed.
3	Select the radio button of the applicable crop to be determined.	
4	Click either of the following.	
	“Back”	The Crop Acreage Reports Screen will be displayed.
	“Continue”	The Determined Quantity Screen will be displayed.

319 Determined Acreage (Continued)

D Determined Quantity – Crop Selection Screen

The following is an example of the Determined Quantity – Crop Selection Screen.

*--

E Information Available on the Determined Quantity – Crop Selection Screen

The following table provides a description of the information available on the Determined Quantity – Crop Selection Screen.

Information	Description
Crop Name	Crops reported for the farm.
Number of Entries	Number of entries recorded of the crop for the farm.
Number of Entries Determined	Number of entries with determined acreage loaded for the farm.
Total Reported Quantity	Total quantity of reported acreage by crop loaded for the farm. Note: This total can represent 1 entry or multiple entries. Including entries of zero acreage.
Total Determined Quantity	Total quantity of determined acreage by crop loaded for the farm. Note: This total can represent 1 entry or multiple entries. Including entries of zero acreage.

319 Determined Acreage (Continued)

F Option Available on the Determined Quantity – Crop Selection Screen

The following options are available on the Determined Quantity – Crop Selection Screen.

Button	Result
Continue	The Determined Acres Screen will be displayed.
Back	The Crop Acreage Reports Screen will be displayed.

G Determined Quantity Screen

On the Determined Quantity Screen, user will enter the determined quantity for the applicable fields of the specified crop. The following is an example of the Determined Quantity Screen.

*--

--*

H Options Available on the Determined Quantity Screen

The following table provides descriptions of the options available on the Determined Quantity Screen.

Button	Result
Submit	The Determined Quantity Screen will be re-displayed with the message: “The selected crops have been successfully updated”.
Cancel	The Determined Quantity – Crop Selection Screen will be displayed.

319 Determined Acreage (Continued)

***--I Determined Acreage for Unreported Crops**

During routine spot checks, field or crop acreage may have been determined that were not reported on FSA-578. For these determined acres to be loaded into the determined acreage software, those fields or crops must be loaded as reported. Since FSA-578 is a report of acreage certified by the producer and the producer has not yet reported these fields or crops, the County Office must have a method for reporting these discrepancies.

The County Office shall create a field entry in CARS when a field or crop has been determined that was not reported according to the following table.--*

IF a spot check determines that the producer reported an incorrect...	THEN record findings on FSA-578 by...
<p>Zero acreage reported for the *--farm in 2012 or prior years</p> <p>Note: A farm level zero acreage report is not available for 2013 and subsequent years.--*</p>	<ul style="list-style-type: none"> • deleting the farm zero crop record from CARS • entering the determined field with: <ul style="list-style-type: none"> • tract • field number • crop • zero reported acreage • applicable crop characteristics as found in the field • acreage found during spot check, as determined acres for the new field.
<p>crop in a field</p>	<p>entering:</p> <ul style="list-style-type: none"> • zero for determined acreage in the original field • the new field with: <ul style="list-style-type: none"> • tract • unique field subdivision number • crop • zero reported acreage • applicable crop characteristics as found in the field • acreage found during spot check, as determined acres for the new field.

Note: Notate on FSA-578 the reason for modification. County Office employee must initial and date. The producer will not be required to sign.

320 (Reserved)

Section 4 Notice of Acreage Report Determinations

375 Purpose of FSA-468

A Introduction

FSA-468 is the official notification to the producer of the results of a spot check. Footnotes included on FSA-468 inform the producer of the effect, if any, that the results of the spot check may have on the program eligibility of a crop or land use.

B Timely Processing of FSA-468

FSA-468 shall be processed in a timely manner after acreage has been determined to ensure that, if the producer requests a remeasurement, evidence of the crop is still available.

C Information on FSA-468

The following information is printed on FSA-468 for crops with determined acreage.

Producer Data	Mailing Information	Program Data
<ul style="list-style-type: none"> • farm number • operator’s name and address • farm ID 	<ul style="list-style-type: none"> • mailing date • county name, address, and telephone number • form number and revision date 	<ul style="list-style-type: none"> • reported acreage • determined acreage • applicable footnotes • program year • general information

Note: FSA-468 compares reported and determined acreage and print only for crops with reported and determined acreage.

D FSA-468 Footnotes

Footnotes:

- identify discrepancies in reported and determined acreage for the crop
- are printed on FSA-468 in line with the applicable crop
- are explained in the bottom section of FSA-468.

E Web-Based FSA-468

For the 2011 program year, the FSA-468 process was incorporated into CARS. Follow procedure in paragraphs 380.5 through 380.7 for accessing the FSA-468 web-based process for 2011 and future years.

* * *

376 (Withdrawn--Amend. 90)

376.5 (Withdrawn--Amend. 41)

377 (Withdrawn--Amend. 41)

378 Tolerance

A Acreage Tolerance

If the determined acreage or production for a crop is:

- within the prescribed tolerance for the crop, the report is considered in compliance without either of the following:
 - the total loss of benefits
 - the overall accuracy of the acreage report being questioned
- not within the prescribed tolerance, follow paragraph 382.

Rule: Acreage tolerance is the larger of 1 acre or 5 percent of the reported acreage, not to exceed 50 acres for all crops, except wild rice and FAV’s.

Exceptions: For specific programs, tolerance does not apply to:

- total cropland certification
- CRP
- FAV’s or wild rice planting violations acre for acre reduction unless a FAV/WR planting exception applies according 1-ARC/PLC.--*

Note: For discrepancy purposes, wild rice and FAV’s are included for expanded samples at the 1.0 acre or 5 percent level. However, there is no tolerance on wild rice and FAV’s for program purposes.

B Tolerance Calculation

Calculate tolerance according to the following.

Step	Calculation
1	Add reported irrigated and nonirrigated crop acreage together before calculating tolerance.
2	Subtract official and measured acreage from the total reported acreage.
3	Multiply the result of step 2 times 5 percent to determine the acreage of tolerance. See tolerance rule in subparagraph A.

379, 380 (Withdrawn--Amend. 90)

***--380.6 Processing Web-Based FSA-468's Through CARS**

A Selecting Farms for FSA-468

FSA-468's can be generated and printed for a single farm or for a range of farms. Use the following table when selecting farms to generate FSA-468.

When generating FSA-468 for...	THEN enter...
specific farm	the same FSN in the "Beginning Farm Number" and "Ending Farm Number" fields.
range of farms	<ul style="list-style-type: none"> • FSN in the "Beginning Farm Number" field • greater FSN in the "Ending Farm Number" field.
specific number of farms	<ul style="list-style-type: none"> • FSN in the "Beginning Farm Number" field • the number of farms in the "Number of Farms to Print" field.

B Selecting Print Mode

Users must select a print mode for the selected farms. The following 2 print modes are available to print FSA-468:

- initial
- reprint.

Use the following table when selecting the applicable print mode.

When the selected print mode is...	THEN FSA-468's shall only print crops that...
initial	<ul style="list-style-type: none"> • have not been printed on a previous FSA-468 • were printed on a previous FSA-468 but a revision changed the footnote. <p>Note: Crops that have a change of footnote since the last printing are indicated with an asterisk (*) and the statement, "The footnote for this crop has changed since the last FSA-468 printing for this farm.", will be printed before the footnotes.</p>
reprint	were printed on a previous FSA-468 and there have been no changes since the last printing.

--*

***--380.7 Web-Based FSA-468 Reports**

A Web-Based FSA-468 Reports

The following reports are available under the FSA-468 process:

- Covered Commodity Out of Tolerance
- Missing Determined Acreage
- FAV's With Determined Acreage Greater Than Reported
- FAV's Not Reported and/or Certified.

B Report Access

To access the reports, select the applicable report from the Reports Screen and CLICK "Generate Report". The selected report will open up in a new window. All farms that meet the criteria for the selected report for the State and county selected will be displayed on the reports.

FSA-468

Beginning Farm Number

FAV's not Reported and/or Certified

--*

380.7 Web-Based FSA-468 Reports (Continued)

C Covered Commodity Out of Tolerance Report

Farms that have covered commodities that are out of tolerance shall be listed on the Covered Commodity Out of Tolerance Report.

Note: Covered commodities are printed on FSA-468 but do **not** have corresponding footnotes.

County Offices shall use the Covered Commodity Out of Tolerance Report to assist in ascertaining “good faith” status according to paragraphs 381 and 382. The following is an example of the Covered Commodity Out of Tolerance Report.

*--

State: Texas County: Medina		United States Department of Agriculture Farm Service Agency FSA-468 2015 Notice of Determined Acreage Covered Commodity out of Tolerance			Prepared Date: 04/22/2015 Page: 1 of 1 Farms on Report: 8

D Missing Determined Acreage Report

The Missing Determined Acreage Report displays a list of farms that have crops that do not have determined acreage for all reported acreage of the crop, such as farms with crops that have acreage determined for 1 or more fields but not all fields of a crop. These crops will **not** print on FSA-468 for the farm, however, will be indicated on this report. The following is an example of the Missing Determined Acreage Report.

State: Texas County: Medina		United States Department of Agriculture Farm Service Agency FSA-468 2011 Notice of Determined Acreage Missing Determined Acreage		Prepared Date: 09/09/2011 Page: 1 of 1 Farms on Report: 5

F Farms Having FAV’s Not Reported and/or Certified Report

The Farms Having FAV’s Not Reported and/or Certified Report lists farms that have crops with a land use code of “F” where reported acreage for the crop is zero “0” and determined acreage for the crop is greater than zero “0”. The following is an example of the Farms Having FAV’s Not Reported and/or Certified Report.

State: Texas County: Medina		United States Department of Agriculture Farm Service Agency		Prepared Date: 09/01/2011 Page: 1 of 1

381 Crop Acreage Discrepancies

A Discrepancies

If the acreage report for a crop is outside the tolerance for that crop, COC shall:

- determine what program benefits have been based on the specific crop acreage
- refer to the specific program procedure to determine whether:
 - program requirements have been met
 - producers remain eligible for all or a portion of the program payments or benefits.

382 Total Cropland Results of Acreage Reporting Determinations

A General Rule

County Offices shall consider all acreage reports for total cropland as filed in good faith by the producer unless COC determines that a good faith effort to accurately report the acreage was not made because the report was knowingly and willfully falsified.

B County Office Action

After spot checks are complete, County Offices shall follow this table.

Step	Action
1	<p>CED shall determine questionable cases to be forwarded to COC for review to determine whether the producer filed an acreage report for all cropland on the farm *--in good faith as required for ARCPLC, loans, and LDP's.--*</p> <p>Note: Questionable cases include cases in which CED believes the producer knowingly and willfully filed a false acreage report or failed to comply with the requirements to file an acreage report.</p>
2	<p>COC shall:</p> <ul style="list-style-type: none"> • review all questionable cases referred by CED • make “no good faith” determinations when COC determines the producer knowingly and willfully failed to submit or falsified the acreage report.
3	<p>In cases where “no good faith” determinations are made, according to step 2, the County Office shall notify producer that he or she is ineligible for all payments or *--benefits for ARCPLC, marketing loans, and LDP's, and provide the producer--* an opportunity to request reconsideration of COC's determination.</p>

494 Identifying Tracts, Fields, and Boundaries

A General Guidelines

Follow these guidelines when identifying tracts, field boundaries, and FSN’s on all current and replacement photographs.

- Structure and number the tracts and farms according to 2-CM.
- Use colors determined by STC for use on aerial photographs. STC determines colors to ensure Statewide uniformity, and may set different colors for farm, tract, and field boundaries. All land classification or land uses should be identified in 1 color that is different from the boundary colors.
- Place as few inked or penciled entries on the photographs as possible, while still maintaining accurate up-to-date data.
- Enter razor sharp lines on the photographs.
- Ensure markings do not cover landmarks needed for program determinations.

B Delineating Areas

Use this table to delineate an area on aerial photographs.

Area	Marking Photographs
Farm	Place a solid line precisely on each boundary.
Tract	Place a bracket in each corner of the tract boundary. <div style="text-align: center;"> Example:  </div>
Field	If the field boundary is not easily recognizable, place a solid line precisely on each boundary.
Subdivision	Review to determine whether the subdivision line is outside the field boundary. <ul style="list-style-type: none"> • If yes, do nothing. • If no, place a thin, dashed, easily removable line precisely on the crop boundary.

494 Identifying Tracts, Fields, and Boundaries (Continued)

C Identifying Areas

Use this table when identifying an area on an aerial photograph.

Area	Marking Photographs
FSN	Enter FSN in the upper-left corner of the farm.
Tract	Enter the tract number that was assigned according to 2-CM in the upper-left corner of the tract and precede it with "T". Example: T50
Field	Assign each field an ID number, such as "1" or "2", and enter the number in the lower-left corner of the field. Do not reuse this number. *--Notes: The field number should not exceed 4 digits.--* Ensure that any tract with cropland contains at least 1 field ID number.
Subdivision	Use the field ID number, followed by a letter suffix, such as "1A", to identify parts of the fields planted to more than 1 crop. Enter the subdivision number in the upper-right corner of the *--subdivision with an easily erasable pencil. The subdivision should not exceed 2 characters.--*
Sketched or ground measured areas	For crops and land uses, follow the same instructions as for subdivisions. For field deductions only, enter "S1", "S2", etc., relative to the area's location in the field or subdivision. Use an easily erasable pencil.

Reports, Forms, Abbreviations, and Redelegations of Authority

2003 and Subsequent Year Crops Reported on FSA-578

The following lists the crop names, crop codes, abbreviations, intended uses, and land uses for crops and aquaculture reported on FSA-578.

Notes: Except for sorghum, crops historically reported with intended uses “Sg”, “Hy”, “Gc”, or “Hg” shall now be reported with an intended use of “Fg”.

When a crop has both “Gr” and “Sd” as intended uses, the intended use of “Sd” should be used to report hybrid seed.

When a small grain crop is planted and had 2 intended uses of grain and grazing, the intended use of “Gs” shall be used.

In SAP/CRM, crop and type combinations will be represented as a single “product”.

Example: Apple, Common and Apple, Specialty are 2 different products found within Product Master. Also, the FSA crop and type codes will be included in Product Master as “CVS crop and type”, such as “0054-COM” and “0054-SPC”.

Crop Name	Crop Code	Crop Abbr	Type Name	Type Code	Intended Use	Land Use
Acerola (Barbados Cherry)	0172	AZARL			FH	F
Alfalfa	0027	ALFAL			CO, FG, GZ, LS, SD	
Algae	3003	ALGAE	Ogo (Red)	OGO	FH, PR
