3 CCC-770 ELIG 2008

A Background

County Offices have come under close scrutiny because of audits and reviews:

- performed externally by Price-Waterhouse
- done internally by CORP checking improper payments.

The National Office was mandated to assemble a checklist to assist County Offices in entering determinations into the web-based Subsidiary System. This checklist is CCC-770 ELIG 2008.

*--For 2009 and subsequent years, CCC-770 ELIG 2008 is:

- **not** mandatory
- considered a management tool to help address deficiencies identified by a review or spot check.

B CCC-770 ELIG 2008 Farm Bill Information

CCC-770 ELIG 2008 does **not** supersede or replace procedure. County Offices:

- are not mandated to complete CCC-770 ELIG 2008 unless required by SED, STC or designee, DD, or CED
- may use CCC-770 ELIG 2008 as a reminder of the most frequent errors in determinations and certifications when dataloading the web-based subsidiary system
- should recognize that the questions asked on CCC-770 ELIG 2008 are very general in--* nature and may not address every conceivable situation about eligibility.

3 CCC-770 ELIG 2008 (Continued)

C Completing CCC-770 ELIG 2008

*--SED, STC or designee, DD or CED shall determine:

- when County Offices are to complete CCC-770 ELIG 2008 if apparent internal control deficiencies are found during CED, STC representative, or DD Reviews
- whether the CCC-770 ELIG 2008 is necessary to avoid findings indicated by CORP reviews
- when additional internal controls are necessary to reduce improper payments.

As required by SED, STC or designee, DD or CED, County Offices shall complete CCC-770 ELIG 2008 for producers who request a payment or members of entities who are required to meet payment eligibility provisions.--*

Notes: Members of joint operations or entities that have no other farming interest are not required to have a separate CCC-770 ELIG 2008. For joint operations or entities that have members that have no other farming interest, County Offices shall do either of the following:

- enter the name of **each** member of the joint operation or entity in CCC-770 ELIG 2008, item 14
- print the AGI Entity/Member Report and attach to CCC-770 ELIG 2008.

Note: To print the AGI Entity/Member Report on Subsidiary Main Menu MAD000:

- ENTER “11”, “Adjusted Gross Income”
- ENTER “2”, “Print Entity/Member Report”.

Beside each member **that does not have any other farming interest**, ENTER:

- “Yes” if:
 - CCC-926 has been completed in its entirety and signed by an authorized individual
 - the correct certifications have been entered into the web-based Eligibility System, Adjusted Gross Income section

3 CCC-770 ELIG 2008 (Continued)

C Completing CCC-770 ELIG 2008 (Continued)

- “No” if:
 - CCC-926 has not been completed in its entirety and has been signed by an authorized individual
 - the correct certifications have **not** been entered into the web-based Eligibility System, Adjusted Gross Income section.

If any member is an embedded entity or joint operation, each embedded member **must** be entered in CCC-770 ELIG 2008, item 14.

--SED, STC or designee, DD, or CED may require CCC-770 ELIG 2008 to be completed-- every time a new determination or certification is recorded for a producer in 1 of the following fields:

- “Actively Engaged”
- “Cash Rent Tenant”
- “AD-1026”
- “Adjusted Gross Income – Commodity Program”
- “Adjusted Gross Income – Direct Payment”
- “Adjusted Gross Income – Conservation Program”.

Note: If only 1 of these fields has a determination or certification updated, then no entry is required in the other fields on CCC-770 ELIG 2008.

Example: A producer files documentation that requires a new actively engaged determination and cash rent tenant rule determination. After the determinations are made and entered into the web-based Subsidiary System, an FSA employee is only required to complete CCC-770 ELIG 2008, items 7A, 7B, 8A, and 8B. All other items should be left blank. Enter any remarks in item 14 to clarify.

--When required by SED, STC or designee, DD, or CED, CCC-770 ELIG 2008:--

- shall be completed by the recording county
- shall be maintained in the recording county only

* * *

- is **not** required for producers who are NRCS customers only

Important: CCC-770 ELIG 2008 was developed by the National Office. * * * County Offices may supplement CCC-770 ELIG 2008 with additional checklists if approved by the State Office.

3 CCC-770 ELIG 2008 (Continued)

D CED Spot Checks

*--SED, STC or designee, or DD may require CED or their designated representative to:

- randomly spot check CCC-770 ELIG 2008--*
- use the State Committee Eligibility Change Report to randomly select spot checks of the updated determination or certification changes

* * *

- spot check STC and COC member's and/or employee's CCC-770 ELIG 2008

* * *

- check the "Concur" or "Do Not Concur" box, item 12A, for the randomly selected updated determination or certification changes
- sign and date CCC-770 ELIG 2008, items 12B and 12C
- report to COC and the STC representative any CCC-770 ELIG 2008 that is checked "Do Not Concur".

* * *

3 CCC-770 ELIG 2008 (Continued)

- apparent internal control deficiencies are found during CED, STC representative, or DD reviews
- necessary, to avoid findings indicated by CORP reviews
- additional internal controls are necessary to reduce improper payments.

Part 2 Web-Based Subsidiary System General Information**11 Get Change Alert Message System****A Change Alert Messages**

A change alert message is generated by the web-based system to notify affected County Offices of changes for a producer. A change alert message can be viewed by clicking the “Get Change Alert” button appearing on the left side in the blue portion of the main screen.

At this time, change alert messages only notify County Offices of recording county changes. When new processes are added to the subsidiary system, then it is anticipated that more change alert messages will be added.

B Viewing Change Alert Messages

A message will be generated and sent to affected County Offices when a change to a recording county is made. An icon will be displayed when a new message is received. The icon will continue to be displayed until the message is read by the County Office.

Each county to which the producer is linked in SCIMS will receive this change alert message, to notify all users of this recording county change. The only county that can change a recording county is the recording county. If the change is not correct, then the new recording county must make the correction.

After a change alert message is read it will remain in the lists of alerts for 30 calendar days. During the 30 calendar day period the message can be accessed and read as many times as necessary. After the 30 calendar day period the message will automatically disappear.

C Change Alert Report

At this time there is no change alert report, however users can print the report by accessing the “Print” option from the “File” menu option at the top of the web page.

D Deletion of Change Alert

Users do not have the capability to delete change alert messages. Messages will automatically be removed 30 calendar days after the message was generated.

Part 3 Producer Eligibility Information

20 General Information

A Introduction

This part provides information and procedure for accessing and updating the web-based Eligibility System.

B Purpose of the Data in the Eligibility System

The eligibility system is designed to record information needed to ensure that only producers who comply with applicable program provisions receive USDA program benefits.

Therefore, it is critical that information in the eligibility system be updated properly. Data in the eligibility system is used to determine producer program benefit eligibility for, but not limited to, the following programs:

- ad-hoc disaster programs
- Agricultural Management Activities
- ACRE Program
- Conservation Security Program
- Conservation Stewardship Program
- CRP
- DCP
- ECP
- Emergency Assistance for Livestock, Honey Bees, and Farm-Raised Fish
- EQIP
- FLP
- GRP
- LFP
- LIP
- NAP
- price support loans and LDP's
- Supplemental Revenue Assistance Payments Program
- TAP
- Wildlife Habitat Incentives Program.

21 Web-Based System Eligibility Records

A Introduction

In the web-based system, an eligibility record is created for each customer recorded in SCIMS that is also linked to at least one FSA County Office. Like SCIMS, only 1 eligibility record will exist for each customer in the web-based environment.

B Creating Eligibility Records for New FSA Customers

Eligibility records will be created with default values for new FSA customers when the required name and address information is updated in SCIMS. This process occurs automatically when “Submit” is clicked and the record information is updated in SCIMS.

Note: An eligibility record will not be created unless the customer is linked to at least one FSA County Office.

See each applicable paragraph for information on the default values for each eligibility determination.

21 Web-Based System Eligibility Records (Continued)

C Availability of Subsidiary Eligibility Data

The following is a guide to show the eligibility value and the years to be displayed. As new programs are announced, the system will be updated.

21 Web-Based System Eligibility Records (Continued)

D BIA ID Number 52-1176810

An eligibility record will not be created for BIA ID number 52-1176810. Indians represented by BIA are the producers requesting program benefits and as such eligibility records should be created and updated for the Indian represented by BIA, not BIA. BIA does not actually own land or participate in FSA programs. Therefore, there is no reason to create and update eligibility data for BIA.

E Downloading Eligibility Data to System 36

Eligibility data must be downloaded to System 36 to process program benefits. See Exhibit 6 for information on how data is downloaded from the web-based application.

22 Recording County

A Introduction

Every producer recorded in SCIMS will have an eligibility record and recording county. This is important because only the recording county will have the ability to update subsidiary customer records. However, there will be an option that will allow the recording county to be changed. When the recording county gives up their responsibility, the right to update that producer record will be lost.

Regardless of how the recording county is established, once it is established, only the existing recording county can request a change to assign another county as the recording county.

B Recording County for New FSA Customers

When a new FSA customer is entered in SCIMS, the system must establish a recording county. A new FSA customer is someone added to SCIMS for the first time, and linked to a county at that time. The linked county will be the recording county. If a new FSA customer is linked to 2 counties at the same time, the system will use the ZIP code process to assign the recording county.

IF...	AND is linked to...	THEN...
a new FSA customer is added to SCIMS	a county in SCIMS	that county is assigned as the recording county.
	2 or more counties at the same time in SCIMS	the ZIP code process is used to assign the recording county.

22 Recording County (Continued)

C Changing Recording County

Change a recording county according to the following.

Step	Action	Result	
1	The recording county calls up the Recording County Screen, which lists all the counties the producer is currently "linked to".	A list of all the counties the producer is linked to will be displayed with the recording county radio button selected.	
2	Click on the new recording county to change the recording county.	The new recording county will be displayed with the radio button selected.	
3	Select the update function.	The message, "Is this the new recording county? Yes or No", will be displayed.	
4	Answer either "Yes" or "No".	IF...	THEN the system will...
		yes	automatically update the new county as the recording county.
		no	return to start and wait for action. Go to step 1.
5	Whenever a recording county change is completed, the system will generate a message to be sent out to all the producer's counties on the County Message Log. The notification of an existing message will be displayed on each county's system the message is read.	The message, "Producer's name, SS# and type, Recording County has changed from ST CTYA to ST CTYB on ___date___.", will be displayed to all counties on the County Message Log.	

Note: Only the recording county can make a change. Only 1 county can be selected as the new recording county. A CMA county is ineligible to be the recording county.

22 Recording County (Continued)

D ZIP Code Process

When all other methods fail, the system will use the ZIP code process to assign an FSA customer a recording county according to the following.

Step	Action	Results
1	From the FSA producer’s home address ZIP code subtract individually each County Office ZIP code with a link to the FSA customer.	Arrange the results in ascending order.
2	Find the result with the smallest difference between ZIP codes.	This County Office is the recording county.
3	If 2 County Offices have the same result, then find the County Office ZIP code with the lowest numerical ZIP code.	

Note: Only 1 county can be assigned as the recording county. A CMA county is ineligible to be the recording county.

E Error Messages

The following error messages will be displayed if the user does not enter a valid recording county data.

IF the user is...	THEN the following message will be displayed...
making a change and is the current recording county	“This is the current recording county.”
trying to highlight 2 or more counties	“Only 1 county can be recording county.”
a nonrecording county trying to make a change	“Only the recording county can make this change.”

23 Security

A Overview

Only very limited access to the system is granted because the data in the FSA subsidiary file is very sensitive. This is an attempt to prevent the release or reading of this sensitive data. Security will determine who:

- can make updates to records
- has view-only authority
- has no access at all.

B Security Set Up

All levels within the FSA organization are required to set up security accounts for employees who are to have access to FSA records on the new system. When establishing these security accounts, the level of authority to access data must be considered. The following are the levels of security in the new system:

- full access to update records
- view-only authority
- no access at all.

C System Security

In the web-based eligibility system, the security level is verified at the time of signing on the system. When a user signs onto the system, security checks the authenticity of the user. When authenticity has been verified, then the security process sends back a code as to the controlled membership group that particular user has been assigned. That code then controls the user's access only to their level of security until they sign off.

The security application process provides service access by user group. Currently, the following groups have been identified for access control:

- those not allowed any access
- those allowed view-only access
- those that are allowed general update access, if they are the recording county
- those that are allowed general update access, if their State contains the recording county
- those with special update access privilege
- system administrator
- persons with authority to initiate rollover and data migrations.

Note: The system is capable of handling more groups as the need arises.

23 Security (Continued)**D Determining User Update Capability**

Only FSA personnel who are in the recording county for that producer can change and modify the data. In other words, recording county FSA users have full “update” capability. All nonrecording county FSA personnel will have “view-only” capability.

At the State Office level, selected personnel will have update capability only for those producers whose recording county is in that State. National Office level personnel will have restricted update capability of the “Fraud – Including FCIC Fraud” records.

E Determining View-Only Update Capability

All FSA and NRCS personnel will have view-only capability. The system will have to authenticate the user as FSA or NRCS personnel.

F Denied Access

At this time, all other persons will be denied both “update” and “view-only” capability. The security system built in the new system is flexible, because other groups may be added to the list of users in the future.

G User Update Restriction by Level

For control purposes, each level of users will be restricted in their update capability. At the:

- County Office level, their authority will be to update records for all producers for whom they are the recording county
- State Office level, select personnel will have the authority to update any producer whose recording county is in their State
- National Office level, select personnel will have the authority to update any producer record for Fraud – Including FCIC Fraud” and all personnel will have “view-only” capability.

23 Security (Continued)

H Security Accessibility Table

The following is a summary of the approved users that security will check before allowing access.

Group	User	Access Capability
FSA	Recording county personnel.	Update
	Nonrecording county personnel.	View-Only
	State Office personnel.	View-Only Note: Select employees may be granted permissions to update any producer whose recording county is in the State.
	National Office personnel.	View-Only Note: Select employees may be granted permissions to update any producer nationwide and have the capability to update Fraud – Including FCIC Fraud flag.
	Kansas City computer personnel.	View-Only
NRCS	All personnel.	View-Only
Others	CMA employees.	View-Only (future)
All	Non-FSA and nongovernment.	Denied

C Viewing and/or Updating Eligibility

Any FSA employee can view data in the subsidiary eligibility system. However, only the following designated users have the authority to update subsidiary eligibility data:

- FSA County Office employees associated with the producer’s recording county
- FSA State Office employees in which the producer’s recording county is associated with a County Office in their State
- National Office employees have update responsibility for “Fraud – Including FCIC Fraud” determinations.

The following describes the process for updating data in the subsidiary eligibility system.

Note: See paragraphs 25 through 39 for additional information about each type of eligibility determination.

Step	Action
1	<p>Update the applicable eligibility information and CLICK “Submit” at the bottom of the screen.</p> <p>If the updated data:</p> <ul style="list-style-type: none"> • passes the applicable validations for the eligibility information being updated, proceed to step 2 • does not pass the applicable validations, then an informational message will be displayed at the top of the web page. See paragraphs 25 through 39 for additional information on applicable error messages.

C Viewing and/or Updating Eligibility (Continued)

Step	Action
2	An informational web page is displayed that summarizes the changes that have been submitted for update. The original information is displayed along with the new information so a comparison can be made to determine if the data being updated is correct.
	IF the user wants to... THEN CLICK...
accept the changes and continue with the update process	<p>“Accept”.</p> <p>The data will be updated to the eligibility database and the message; “This Customer was successfully updated.” will be displayed at the top of the Producer’s Eligibility Screen.</p>

D Screen Tips

The Subsidiary Eligibility Screen uses short definitions for each applicable determination. For example, “Actively Engaged” designates the producer has been determined to be “actively engaged in farming”.

Each field on Subsidiary Eligibility Screen includes “screen tip” information that further defines the applicable option and/or information that should be recorded in the field. The screen tip:

- can be accessed by placing the mouse over the applicable option
- will be displayed for approximately 5 seconds.

The following are examples of screen tips used on the Subsidiary Eligibility Screen, Actively Engaged section.

Option/Field	Screen Tip
Actively Engaged	Producer had been determined to be actively engaged in farming.
Not Filed	Producer has not filed all documentation required for an actively engaged in farming determination.
Awaiting Determination	Producer has filed all documentation required for an actively engaged in farming determination; however, the COC determination has not been completed.
Awaiting Revision	Producer has filed all documentation required for a revised actively engaged in farming determination; however, the COC determination has not been completed.
Not Actively Engaged	Producer is not actively engaged in farming on the entire farming operation.

24 Accessing and Updating Eligibility File Records (Continued)

E Date Format

All of the following formats will be acceptable date entries in the web-based Eligibility System for all years:

- “mmddyyyy”

Example: “02012008” where “02” represents the month, “01” represents the day of the month, and “2008” represents the year.

- “mm/dd/yyyy”

Example: “02/01/2008” where “02” represents the month, “01” represents the day of the month, and “2008” represents the year.

- “mmddy”

Example: “020108” where “02” represents the month, “01” represents the day of the month, and “08” represents the year.

If data is not entered in 1 of these 3 formats or an invalid date is entered, a validation message will be displayed. After a valid date is entered, the field will automatically update to the “mm/dd/yyyy” format.

Note: Users may also click the arrow beside the date field to display a drop-down calendar for date selection.

Important: Future payment processes will use the dates entered in eligibility to process payments and calculate prompt payment interest, if applicable. Therefore it is **imperative** the correct date is entered in the date fields.

25 Foreign Person Determination Information

A Introduction

*--Data in the Subsidiary Eligibility Screen, Foreign Person section is used to determine producer eligibility based on the foreign person provisions. See 4-PL, subparagraph 11 A for a list of program benefits covered by foreign person provisions.

Foreign person provisions do not apply to producers that meet the following conditions:

- individuals that are United States citizens
- individuals that are legal resident aliens
- businesses that originate in the United States.

B Example of Subsidiary Eligibility Screen Foreign Person Section

The following is an example of the Foreign Person section.

C Summarizing Data From SCIMS Record

SCIMS data is summarized to determine the default COC Determination for Foreign Person. Eligibility records are year specific; however, SCIMS data is not year specific. Therefore, SCIMS data may only be summarized to populate **current year** foreign person determinations. The foreign person “COC Determination” is defaulted according to the following.

IF the SCIMS customer’s...	AND the SCIMS customer’s “Resident Alien” flag is...	THEN foreign person “COC Determination” for the current year is defaulted to...
“Citizenship Country” is “United States”		“Not Applicable”.
“Citizenship Country” is anything other than “United States”	“Yes”	“Not Applicable”.
	“No”	“Pending” indicating that COC has not made a foreign person determination.
	“Unknown or N/A”	
“Originating Country” is “United States”		“Not Applicable”.
“Originating Country” is anything other than “United States”		“Pending” indicating that COC has not made a foreign person determination.

25 Foreign Person Determination Information (Continued)

*--C Summarizing Data From SCIMS Record (Continued)

Changes to SCIMS “Citizenship Country”, Originating Country”, or “Resident Alien” fields may result in changes to the current year foreign person determination in eligibility. It is imperative that County Offices ensure that the citizenship country, originating country, and resident alien data is recorded accurately in SCIMS.

D Fields Applicable to Foreign Person Determinations

The following provides the fields applicable to foreign person determinations.

Option	Explanation
Yes	Foreign person provisions are applicable and the producer has filed the required documentation. Based on the documentation filed the COC has determined that the producer meets the foreign person provisions by providing land, capital, and active personal labor.
No	Foreign person provisions are applicable and the COC has determined the producer does not meet the foreign person provisions because the producer is not providing land, capital, and active personal labor.
Pending	<p>Foreign person provisions are applicable; however, the COC has not made a foreign person determination for either of the following reasons:</p> <ul style="list-style-type: none"> • Producer has not filed the documentation necessary for a foreign person determination • Producer has filed the required documentation; however COC has not completed their determination.
Not Applicable	Foreign person provisions are not applicable.

Users will be allowed to change foreign person COC determinations to any value for all years. Web-based eligibility must be set to accurately reflect COC determinations for foreign person.

E Error Messages

Users are required to select 1 of the displayed options as the “COC Determination”. The “COC Determination” will initially be set as a default value and users cannot de-select those options without selecting another option. Since an option is always selected, there are no error messages applicable to the foreign person determination information.--*

30 Conservation Compliance Determination Information

A Introduction

Data in the Subsidiary Eligibility Screen, Conservation Compliance section is used to determine producer eligibility based on compliance with HELC and WC provisions. The Conservation Compliance section includes information from farm and tract files to determine eligibility for HEL and wetland determinations provided by NRCS. Data for each type of violation is summarized into 1 overall eligibility determination for conservation compliance.

See 6-CP, Part 5 for additional information on HELC and WC provisions.

30 Conservation Compliance Determination Information (Continued)**C Uploading Farm and Tract Data to the KC-ADC Mainframe**

Conservation compliance eligibility is automatically updated in the eligibility system based on data recorded in FRS for HEL, PCW, and CW.

To determine nationwide eligibility with HEL, PCW, and CW provisions, a process has been developed to upload farm and tract data to the mainframe in KC. The initial process ran to upload all farm and tract data nationwide. Subsequent changes to farm and tract data are uploaded immediately.

Note: During the initial subsidiary migration process, some records were not automatically uploaded to the KC-ADC mainframe. This problem primarily affects new producers. To trigger an update for these producers County Offices shall:

- access FRS according to 3-CM
- update the farm identifier on the Farm Data Screen.

This action should trigger the summarization process to the subsidiary eligibility system.

D Summarizing HELC Eligibility from Farm Records

The HELC subsection in the eligibility record reflects the producer's overall status for HEL compliance for all farms and tracts associated with the producer nationwide. HELC data is automatically determined and updated to the eligibility file based on the producer exceptions recorded for a farm that contains HEL but a conservation system is not being applied.

If the data in the eligibility system is not summarized correctly, County Offices:

- shall ensure that the data in the FRS application for the producer is updated properly
- do not have the ability to override the summarized eligibility data.

30 Conservation Compliance Determination Information (Continued)

D Summarizing HELC Eligibility from Tract Data (Continued)

The following provides the process used to determine overall compliance with HEL provisions.

IF...	AND...	THEN the “Highly Erodible Land Conservation” field is updated to...
the producer is not associated with any farm or tract		“No Association”.
no tracts to which the producer is associated have an HEL determination of “HEL: conservation system is not being applied”		“Compliant”.
the producer is associated with 1 or more tracts with an HEL determination of “HEL: conservation system is not being applied”	any HEL producer exception for the producer is equal to “Has Appeal Rights” or “Appeals Exhausted”	“Not Compliant”.
	there are no HEL producer exceptions equal to “Has Appeal Rights” or “Appeals Exhausted” and at least 1 HEL producer exception for the producer is equal to “Landlord/Tenant”	“Landlord/Tenant Exemption”.
	all HEL producer exceptions for the producer are equal to anything other than “Has Appeal Rights” or “Appeals Exhausted”	“Compliant”.

30 Conservation Compliance Determination Information (Continued)

E Summarizing PCW Eligibility from Tract Data

The PCW subsection in the eligibility record determines whether the producer is associated with a tract with a planted converted wetland violation. PCW data is automatically determined and updated to the eligibility file based on the producer exceptions recorded for a farm that contains a PCW.

If the data in the eligibility system is not summarized correctly, County Offices:

- shall ensure that the data in the FRS application for the producer is updated properly
- do not have the ability to override the summarized eligibility data.

The following provides the process used to determine overall compliance with PCW provisions.

IF...	AND...	THEN the “Planted Converted Wetland” field is updated to...
the producer is not associated with any farm or tract		“No Association”.
no tracts to which the producer is associated have a planted converted wetland		“Compliant”.
the producer is associated with 1 or more tracts with a planted converted wetland	any PCW producer exception for the producer is equal to “Has Appeal Rights” or “Appeals Exhausted”	“Not Compliant”.
	all PCW producer exceptions for the producer are equal to anything other than “Has Appeal Rights” or “Appeals Exhausted”	“Compliant”.

30 Conservation Compliance Determination Information (Continued)

F Summarizing CW Eligibility from Farm Records

The CW subsection in the eligibility record determines whether the producer is associated with a tract with a wetland that was converted after November 28, 1990.

The following provides the process used to determine initial compliance with CW provisions.

IF...	AND...	THEN the “Converted Wetland” field is updated to...
the producer is not associated with any farm or tract		“No Association”
no tracts to which the producer is associated have a converted wetland		“Compliant”
the producer is associated with 1 or more tracts with a converted wetland	any CW producer exception for the producer is equal to “Has Appeal Rights” or “Appeals Exhausted”	“Not Compliant”
	All CW producer exceptions for the producer are equal to anything other than “Has Appeal Rights” or “Appeals Exhausted”	“Compliant”

Note: In some cases, the CW determination was set to “No Association” during the subsidiary migration process for producers that are active on 1 or more farms and/or tracts. This has caused the 6-CP flag on System 36 to be set to “N”, making the producer ineligible for payment. When attempting to correct invalid 6-CP flags, it is recommended that County Offices check the CW determination in the web-based application **first** to determine if that option has been migrated properly. If CW option is:

- set correctly, then the problem is probably the result of how the producer exceptions have been summarized from FRS and County Offices shall review producer exceptions to determine if they are set correctly
- not set correctly, then County Offices shall access FRS according to 3-CM
- update the farm identifier on the Farm Data Screen.

This action should trigger the summarization process to the subsidiary eligibility system.

30 Conservation Compliance Determination Information (Continued)

G Summarizing HELC, PCW, and CW to Determine Overall Eligibility

After the HELC, PCW, and CW information is summarized for the producer, these determinations are used to determine the producer’s overall conservation compliance eligibility. This determination is equivalent to the 6-CP flag on System 36.

Data in the Farm/Tract Eligibility subsection reflects the producer’s overall eligibility and is determined according to the following.

IF the highly erodible land conservation is...	AND the planted converted wetland is...	AND the converted wetland is...	THEN the farm/tract eligibility is automatically updated to...
“No Association”	“No Association”	“No Association”	“No Association”, indicating the producer is not associated with a farm or tract.
“Compliant”	“Compliant”	“Compliant”	“In Compliance”, indicating the producer is associated with 1 or more farms and/or tracts and meets the conservation compliance provisions on all farms and tracts.
		“Not Compliant”	“In Violation”, indicating the producer is in violation of the conservation compliance provisions.
“Not Compliant”	any option	any option	“In Violation”, indicating the producer is in violation of the conservation compliance provisions.
Landlord/Tenant Exemption	“Compliant”	“Compliant”	“Partial Compliance”, indicating the producer is associated with 1 or more farms and/or tracts but does not meet the conservation compliance provisions on all farms and tracts.
		“Not Compliant”	“In Violation”, indicating the producer is in violation of the conservation compliance provisions.

32 **Controlled Substance Determination Information**

A Overview

Controlled substance eligibility, which is the Controlled Substance FSA flag in System 36, is read by several programs for eligibility purposes. This is a year specific flag.

B Business Rule

The rule for controlled substance eligibility is any person who is convicted under Federal or State Law of a controlled substance violation, shall be ineligible for payments or benefits. The general term “growing”, which includes planting, cultivating, growing, producing, harvesting, or storing, has a set violation period of the crop year of violation and 4 succeeding years. For trafficking and possession the violations are at the discretion of the court. The court may determine the conviction to be from 1 year to “permanent” ineligibility of all government program benefits.

See 1-CM, Part 30 for additional information on controlled substance provisions.

C Example of the Subsidiary Eligibility Screen, Controlled Substance Section

Following is an example of the Controlled Substance section.

Controlled Substance

Growing Number of Years of Ineligibility

Trafficking Number of Years of Ineligibility

Possession Number of Years of Ineligibility

Year of Conviction

32 **Controlled Substance Determination Information (Continued)****D Values**

The following provides options that are provided to update the controlled substance eligibility for producers in the system.

Option	Notification of Determination	Short Form Name	Legacy Flag Value
1	Producer has not been convicted of a controlled substance violation.	No Violation	Y
2	Producer has been convicted of planting, cultivating, growing, producing, harvesting, or storing of a controlled substance.	Growing	N
3	Producer was convicted of Federal or State offense consisting of the distribution (trafficking) of a controlled substance.	Trafficking	
4	Producer was convicted of Federal or State offense for the possession of a controlled substance.	Possession	
5	Producer had been convicted of a controlled substance violation. Additional information must be entered regarding this violation.	Action Required	

E Other Required Data

Data from the court records on the conviction of the producer is entered in the system. First, the year of conviction as set by the court is required. This year may be before the current system year; however, it cannot be later than the current system date. Second, the sentencing period set by the court is required. The length of the sentencing period can be from 1 year to “permanent” ineligibility of all government program benefits. This court record must be filed in the County Office as supporting documentation.

If option 2, 3, or 4 is selected, then the starting year of the violation must be entered. This starting year is important for the system to track the violation period. The year entered cannot be greater than the current subsidiary year. The year must be entered or the system will not allow the user to continue.

Also, if option 3 or 4 is selected, then the number of years the court determined that the producer was ineligible for benefits must be entered. Because this ineligibility period is set by the court system, this is a required entry. The system will automatically calculate the ineligibility period and change the option at rollover when the ineligible period is over. This is a required entry.

Note: The system will automatically calculate the ineligibility period in option 2, 3, and 4 based on the year and violation period entered.

32 **Controlled Substance Determination Information (Continued)****F Error Messages**

If invalid or no data is entered the following error messages are displayed.

IF this message is displayed...	THEN the user entered...
“Invalid Year”	an invalid year.
“Year cannot be later than current year”	a year that is later than the system year.
“No more entry is needed.”	option 1 for “not been convicted”.
“Only the year of conviction is required for a growing conviction.”	option 2 for “growing”.
“Both the year of conviction and number of years are required entries.”	option 3 for “drug trafficking”, but did not enter the year of conviction or period of conviction.
“Both the year of conviction and number of years are required entries.”	option 4 for “possession”, but did not enter the year of conviction or period of conviction.
“A year between 1 and 5 must be selected.”	anything except a number from 1 to 5 for the violation period.
“A year between 1 and 10 must be selected.”	anything except a number from 1 to 10 for the violation period.
“Invalid Entry.”	anything except a valid entry.

G New Producer Default Value

When a new producer or a new eligibility record is created the system will use the default value to establish the record. Option 1, “No Violation”, is the default value for controlled substance eligibility. Therefore, the year of conviction and sentencing period are blank, because these are not required entries for Option 1. After the record is created, then updates can be made at anytime.

33 NAP Noncompliance Determination Information

A Overview

NAP noncompliance eligibility, which is the NAP noncompliance flag in System 36, is used to show eligibility for NAP. This started with the year 2000. This is a year specific flag.

B Business Rule

The rule for NAP noncompliance eligibility is that any producer who is determined by FSA to not be in compliance with NAP procedures is ineligible for NAP benefits. The penalty period is the year of the violation plus 2 years for a total of 3 years.

C Values

The following provides options that are provided to update the NAP noncompliance eligibility for producers in the system.

Option	Notification of Determination	Short Form Name	Legacy Flag Value
1	Producer is in compliance with NAP procedures.	Certified	Y
2	COC has determined that the producer violated NAP compliance provisions.	Not Compliant - COC	N

D Other Required Data

If option 2 is selected, then the starting year of the violation must be entered. This starting year is important, for the system to track the violation period. The year entered cannot be greater than the current subsidiary year. A year must be entered or the system will not allow the user to continue.

33 NAP Noncompliance Determination Information (Continued)

E Error Messages

If invalid or no data is entered, the following error messages will be displayed.

IF this message is displayed...	THEN the user entered...
“Must enter the COC disapproval year”	“2” and made no entry.
“Invalid year”	an invalid year.
“Year cannot be later than current year”	a year that is later than the system year.

F New Producer Default Value

When a new producer or a new eligibility record is created the system will use the default value to establish the record. Option 1 is the default value for NAP noncompliance eligibility. After the record is created, then updates can be made at anytime.

34 Delinquent Debt Determination Information

A Introduction

The Debt Collection Improvement Act of 1996 specifies that no person may obtain any Federal financial assistance in the form of a loan, other than a disaster loan, or a loan guarantee if such person has an outstanding Federal nontax debt which is in a delinquent status. Further, any such person may obtain additional Federal financial assistance only after such delinquency is resolved.

Data in the Subsidiary Eligibility Screen, Delinquent Debt section is used to determine producer eligibility based on the delinquent debt provisions.

35 Socially Disadvantaged Farmer or Rancher

A Introduction

Data in the Subsidiary Eligibility Screen, Socially Disadvantaged Farmer or Rancher section is used to determine whether a producer meets the requirements to be considered socially disadvantaged. Additional provisions for a socially disadvantaged farmer or rancher are applicable to 2008 and subsequent years.

Notes: See 1-CM for the definition of socially disadvantaged farmer or rancher.

Producers will be required to indicate their socially disadvantaged farmer or rancher status on applicable program applications/contracts to be eligible for applicable program exceptions or waivers.

The Food, Conservation, and Energy Act of 2008 provides for socially disadvantaged farmers and ranchers to qualify for exemptions based on definitions provided under the following:

- Consolidated Farm and Rural Development Act of 2003 (includes racial, ethnic, and gender)
- Food, Agriculture, Conservation and Trade Act of 1990 (includes racial, ethnic, but **not** gender).

The Subsidiary Eligibility Screen, Socially Disadvantaged Farmer or Rancher section captures the socially disadvantaged farmer and rancher determination as it relates to the following:

38 Fraud – Including FCIC Fraud Determination

A Introduction

The Subsidiary Eligibility Screen, Fraud – including FCIC Fraud section was formerly called the “FCIC Fraud” determination. The Fraud – including FCIC Fraud section is used to record action taken because of a producer or group of producers being disqualified or debarred from participating in FSA- and/or RMA-administered programs.

B Example of Subsidiary Eligibility Screen, Fraud – Including FCIC Fraud Section

Following is an example of the Fraud – including FCIC Fraud section.

B Process

The process for updating fraud determinations is handled by PECD in the National Office. PECD receives a memorandum from ALS about participation eligibility. PECD enters the determination information into the web-based system along with:

- year of disqualification
- number of years that the producer is ineligible for benefits.

Note: The number of years a producer is determined ineligible is based on the information received from ALS and can be for 1 or more years.

Disqualification and ineligibility information is not updated by PECD until ALS notification is received. Once received from ALS, PECD notifies the applicable State Office. State Offices shall notify affected County Offices.

Note: There may be instances where PECD will notify certain State Offices referenced in documentation received from ALS about ineligible producers even though the producers may not be linked in SCIMS to a county in that State.

38 Fraud – Including FCIC Fraud Determination (Continued)

C Who to Contact

If a State Office believes information has not been entered for a producer, contact 1 of the following.

IF the case is an...	THEN the State Office shall contact...
RMA case	Tim Witt by: <ul style="list-style-type: none"> • e-mail at tim.witt@usda.gov • telephone at 816-926-7394.
OIG case	Jack Welch, Director, ALS, by: <ul style="list-style-type: none"> • e-mail at gwen.sellman@wdc.usda.gov • telephone at 202-690-3297.

D Locally Obtained Debarment/Disqualification Information About FCIC Fraud

County Offices provide a vital role in obtaining information about possible debarment or disqualification information. If SED or CED has reason to believe that a producer might be convicted of a crime that would cause that producer to be debarred or disqualified, the following actions should be taken:

- contact the clerk of the court for which the County Office has reason to believe that the producer was convicted and ask for a copy of the court’s decision
- if, **after** reading the decision, CED has reason to believe that the producer might be debarred or disqualified from FSA programs, then forward the court’s decision to Jack Welch, Director, ALS, through the State Office using the process in subparagraph C.

39 FCI Determination Information

A Introduction

Data in the Subsidiary Eligibility Screen, Federal Crop Insurance section is used to specify either or both of the following:

- based on review of FCI-12's and other applicable forms, the County Office has determined that the producer has obtained at least catastrophic level coverage on all crops of economic significance in which the producer has an interest
- producer has signed FSA-570.

See 1-CM, paragraph 801 for additional information on linkage requirements and a list of program benefits covered by FCI provisions.

Note: With enactment of the 2002 Farm Bill, FCI eligibility provisions only apply to CRP.

B Example of Subsidiary Eligibility Screen, Federal Crop Insurance Section

Following is an example of the Federal Crop Insurance section.

The image shows a screenshot of a web form. At the top, the title "Federal Crop Insurance" is displayed in blue. Below it, a sub-section titled "Certification/COC Determination" is shown. This section contains two radio button options: "Requirements Met" (which is selected, indicated by a green dot) and "Requirements Not Met" (which is unselected, indicated by a grey dot).

39 FCI Determination Information (Continued)**C Fields Applicable to FCI Determinations**

The “Certification/COC Determination” field is the only field provided to designate whether the producer is in compliance with the FCI linkage requirements. The following provides options applicable for this field.

Option	Explanation
Requirements Met	Producer has met the minimum crop insurance eligibility requirements or has filed FSA-570.
Requirements Not Met	Producer has not met the minimum crop insurance eligibility requirements and/or has not filed FSA-570.

D Error Messages

Users are required to select 1 of the displayed options as the “Certification/COC Determination”. However, the “Certification/COC Determination” field will initially be set either through the migration process or as a default value and users cannot de-select those options without selecting another option. Therefore, since an option is always selected, there are no error messages applicable to the FCI determination information.

E Field Default Values

When new eligibility records are created, the FCI “Certification/COC Determination” field will be set to “Requirements Not Met” indicating the producer has not met the minimum crop insurance eligibility requirements and/or has not filed FSA-570.

COC Determination	“Not Filed” indicating the producer has not filed all documentation required for an actively engaged in farming determination.
Date Documentation Filed by Producer	“Blank”.
COC Determination Date	“Blank”.
Suspended Producer	“Not Suspended” indicating the producer/member has not designated more than three entities for payment.

F Correcting Suspended Producer Situations

The KC-ADC mainframe sets the “Suspended Producer” option based on the number of permitted entities counted on the mainframe. To correct a suspended producer situation, the recording county shall compare the data recorded in the system to CCC-501B filed by the producer to ensure the designations are recorded properly.

After the review and any applicable updates and/or deletions are completed, the recording county shall:

- contact all counties in which the producer is active to ensure each county has recorded the information correctly in the permitted entity files

Note: Corrected data will be uploaded to the KC-ADC mainframe and the permitted entity count process will run again. However, the updates will not be immediate because the upload/download process for the permitted entity file will continue to occur bi-weekly.

- update the “Suspended Producer” option to “Not Suspended” in the web-based subsidiary application.

Warning: If the permitted entity count on the mainframe continues to exceed 3, the eligibility application will be automatically updated back to “Suspended” and any payments issued to the producer will be listed on applicable overpayment registers.

42 Permitted Entity – 2002 Farm Bill Determination Information**A Introduction**

Data in the Subsidiary Eligibility Screen, Permitted Entity – 2002 Farm Bill section is used to specify whether the producer wants to receive payment as an individual. See 1-PL, subparagraph 16 B for a list of program benefits covered by permitted entity provisions.

In the legacy system, an “M” value for actively engaged:

- indicates the producer does not wish to receive payment as an individual
- ensures that the individual designation is not included in the permitted entity count on the mainframe.

G Determining Payment Share Based on AGI – 2002 Farm Bill Eligibility

For programs affected by AGI provisions in the 2002 Farm Bill, the percentage of the payment that can be issued to an entity is determined by:

- checking AGI – 2002 Farm Bill eligibility for the entity
- if the entity is eligible, determining the percentage of payment that can be issued based on member eligibility.

Since payments are reduced by the percentage of the interest of an ineligible member, the actual and permitted shares in the entity file are used to determine the amount that can be issued to the entity. This reduction is handled similarly to how the permitted share reduction is applied.

IF permitted entity rules...	THEN the percentage of payment that can be issued to an entity is...
apply to the program	<ul style="list-style-type: none"> • determined by checking each member’s AGI – 2002 Farm Bill eligibility status • determined by using each eligible member’s permitted share in the entity • combined with the permitted share for the eligible members to compute the payment amount for the entity.
do not apply to the program	determined by checking each member’s AGI – 2002 Farm Bill eligibility status and actual share of the entity.

43 AGI – 2002 Farm Bill Determination Information (Continued)

G Determining Payment Share Based on AGI Eligibility (Continued)

The following describes the process to determine the payment share for entities and joint operations.

Step	Action		
1	Check the AGI eligibility flag for the entity.		
	Note: Not applicable for joint operations.		
	IF the entity is...	THEN...	
	eligible	continue to step 2.	
	not eligible	<ul style="list-style-type: none"> • payment share for the entity is zero • member information is not checked because the entity is not eligible to receive payment. 	
2	Check AGI eligibility for all members of the entity or joint operation.		
	IF the member is...	AND the member is...	THEN...
	an entity	eligible	repeat step 2 until the AGI eligibility is checked for all embedded entities and members of embedded entities down to the fifth level.
		not eligible	the embedded entity and all members of the embedded entity are ineligible for payment for the percentage attributable to the embedded entity.
	individual	eligible	the entity or joint operation is eligible to receive payment on the percentage of the interest attributable to the member.
		not eligible	the entity or joint operation is ineligible to receive payment on the percentage attributable to the member.

43 AGI – 2002 Farm Bill Determination Information (Continued)

H Example 1

In this example, H & W Farming is a corporation and each member:

- has designated this entity for payment
- is eligible for payment based on AGI provisions.

Regardless of whether permitted entity rules apply, the payment share for H & W Farming is 1.0000 because all members have designated the entity for payment and meet the AGI eligibility requirements.

Entity/Member	Permitted Indicator	Actual Share	Permitted Share	AGI Indicator	Combined Permitted/AGI Share
H & W Farming		1.0000	1.0000	Y	1.0000
Mike Young	Y	0.5000	0.5000	Y	0.5000
Ronald Smith	Y	0.5000	0.5000	Y	0.5000

I Example 2

Using the same example information as in subparagraph H, except Mike Young has **not** designated H & W Farming for payment.

When AGI is checked for a program where permitted entity rules apply, the combined permitted/AGI share is 0.5000 because:

- the permitted share for the entity is 50 percent
- member Ronald Smith has designated the entity for payment and is eligible based on AGI provisions.

If permitted entity rules do not apply for the program, the AGI payment share is 1.0000 because the entity and both members meet the AGI eligibility requirements.

Entity/Member	Permitted Indicator	Actual Share	Permitted Share	AGI Indicator	Combined Permitted/AGI Share
H & W Farming		1.0000	0.5000	Y	0.5000
Mike Young	N	0.5000	0.0000	Y	0.0000
Ronald Smith	Y	0.5000	0.5000	Y	0.5000

43 AGI – 2002 Farm Bill Determination Information (Continued)

J Example 3

In this example:

- Mike Young has not designated H & W Farming for payment
- Ronald Smith is not eligible for payment based on AGI provisions.

When AGI is checked for a program where permitted entity rules apply, the combined permitted/AGI share is 0.0000 because:

- 1 member has not designated the entity for payment
- the other member does not meet the AGI eligibility requirements.

If permitted entity rules do not apply for the program, the AGI payment share is 0.5000 because the entity and 1 member meet the AGI eligibility requirements.

Entity/Member	Permitted Indicator	Actual Share	Permitted Share	AGI Indicator	Combined Permitted/AGI Share
H & W Farming		1.0000	0.5000	Y	0.0000
Mike Young	N	0.5000	0.0000	Y	0.0000
Ronald Smith	Y	0.5000	0.5000	N	0.0000

43 AGI – 2002 Farm Bill Determination Information (Continued)

K Example 4

In this example, both members:

- have designated H & W Farming for payment
- meet the AGI eligibility requirements.

However, H & W Farming does not meet the AGI eligibility requirements.

Regardless of whether permitted entity rules apply, when AGI is checked for H & W Farming, the payment share is 0.0000 because the entity does not meet the AGI eligibility requirements. In this example, the member information is not read because the entity is not eligible.

Entity/Member	Permitted Indicator	Actual Share	Permitted Share	AGI Indicator	Combined Permitted/AGI Share
H & W Farming		1.0000	1.0000	N	0.0000
Mike Young	Y	0.5000	0.5000	Y	0.5000
Ronald Smith	Y	0.5000	0.5000	Y	0.5000

Part 4 Web-Based Combination Software**Section 1 General Information****71 Overview****A Introduction**

This part provides guidance about the following:

- web-based combination software
- creating and viewing a combined producer record
- updating and decombining a combined producer record
- allocating payment limitation
- updating combined producer recording county.

B Why This Part Is Important

This part is important because automated payment limitation processes use combined producer data in the web-based combination software to issue payments.

C Year-Specific File

The combined producer database is year-specific. County Offices must be sure to select the appropriate year when accessing and updating a combined producer account.

D Combinations Types

The web-based combination software is used to record COC determinations for the following 2 different combination types:

- “Attribution” that will record determinations according to 4-PL; see 4-PL, *--subparagraph 179 D for common attribution procedure--*
- “Person” that will record person determinations according to 1-PL.

***--72 Guidelines for Creating Combinations**

A Overview

County Offices shall follow the guidelines in this paragraph when creating or updating combinations.

Note: See paragraph 84 for instructions on creating combinations.

B Valid Combinations

For a combination to be valid there **must** be:

- a properly completed CCC-503A or CCC-903 on file indicating that COC has combined at least 2 producers for payment limitation purposes
- 2 separate producers
- **only** 2 producers involved in any parent combination.

Note: Subsequent combinations involving either producer in a parent combination will create a super combination.--*

--72 Guidelines for Creating Combinations (Continued)*C Combination Result**

Once the combination has been created, producers will have a combined account number assigned by the Kansas City mainframe computer. Kansas City will download the combined producer account to all counties that have a legacy link in SCIMS for producers in the common attribution combinations. County Offices may verify receiving the validated common attribution combination by printing a MABDIG, according to 2-PL, paragraph 130.

Note: “Person” type combinations are **not** application to payment processes remaining on System 36 and will **not** be downloaded to System 36.

D Who Performs Combinations

Any county may create a combination if:

- COC has approved the combination on CCC-503A or CCC-903
- 1 member of the combination is legacy-linked in SCIMS to the combining county.

The County Office whose COC approved CCC-503A or CCC-903:

- should process the combination in the web-based combination software
- would be the combined recording county for:
 - this parent combination
 - all subsequent combinations affecting either producer in this parent combination.

E Recording County When Combining Members of Super Combinations

If 2 members of 2 separate super combinations are combined together and each super combination has a separate combined recording county, then the county processing the combination is designated the combined recording county for the new super combination.--*

***--73 Security Access to the Web-Based Combination Software**

A Overview

Roles are developed in eAuthentication to provide users specific capabilities in the web-based combination software.

B Roles

The following identifies user roles for the web-based combination software.

Group	User	Access Capability

- State Office level, select personnel will have the authority to update any producer whose combined recording county is in the State
- National Office level, select personnel will have the authority to update any producer record.--*

This is known as common attribution. The persons and/or legal entities (members) under common attributions may use CCC-904 to allocate a share of the payment limitation to designated members when collectively payments issued/attribution to all members will exceed the program limitation.

***--Section 3 Combined Producer Payment Limitation Allocations and Recording County**

96 Updating Combined Producer Records

A Overview

A system has been developed to update certain functions of the web-based combination software.

B Updating Functions

The web-based combination software update functions available are the combined producer:

- payment limitation allocation (paragraph 98)
- recording county (paragraph 99 and 100).--*

--97 Combined Producer Payment Limitation Allocation*A Background**

As a function of the web-based combination software, allocation of a specific program's payment limitation to producers with common attribution will now be available for any combinations with "Attribution" type combination.

Note: Payment limitation allocation is **not** available for "Person" type combinations.

B Policy

When persons and/or legal entities (members) that are subject to common attribution collectively exceed the program's payment limitation, CCC-904 may be filed to allocate a specific share of the program's payment limitation to specific members under common attribution. Payment limitation allocation may be processed if **all** of the following apply:

- persons and/or legal entities (members) under common attribution will receive program payments for which direct attribution is applicable
- all persons and/or legal entities (members) under common attribution agree collectively to divide the program payment limitation by filing CCC-904.

Note: CCC-904 is **not** required when a State drawing is required according to 4-PL, paragraph 119.

C Using Web-Based Payment Limitation Allocation Software

The web-based combination software provides the initial release of the web-based payment limitation allocation software. Persons and/or legal entities (members) under common attribution have the option of allocating a share of the payment limitation to designated persons and/or legal entities (members) by filing CCC-904. If a CCC-904 is not filed, payments will be processed in the order in which the payments are issued/attributed until collectively the members under common attribution reach payment limitation.

Note: This web-based process does **not** allocate payment limitation to counties when a producer is multi-county. Web-based payments will be issued on a first come-first issued basis. See 2-PL for program payments issued on System 36.--*

--99 Combined Producer Recording County*A Background**

Centralization of the combined producer database allows an easier system of recording and updating combined producers. Since only 1 county establishes a combination, a need for a combined recording county was developed to control updates to the combined producer account.

B Policies/Guidelines

The combined producer recording county:

- as general rule, is the county where COC approves CCC-503A or CCC-903 and dataloads the combination in the combined software
- is assigned by the Combined Producer System as the county that first processes the combination in the web-based combination software
- is responsible for all actions relating to that combination

Note: Combined nonrecording counties may combine members into a super combination; however, the combined recording county still retains control of the combination.

- is the **only** county that may process a decombination of members in a parent or super combination
- is the **only** county that may update payment limitation allocations for members of “Attribution” type combinations
- is the **only** county that may update the combined producer recording county
- may be updated.

Note: Occasionally 2 super combinations, with previously established recording counties, may have members combined. In these cases, the recording county for the new super combination will be the county that processed the combination that created the new super combination. As with other combinations, the combined recording county may be updated.--*

Downloading Subsidiary Eligibility Data to System 36

A Introduction

Data from the centralized database is downloaded from web-based subsidiary to System 36 and users have the ability to view data on System 36; however, that data cannot be updated on System 36.

B Reason Data is Downloaded from the Central Database to System 36

Data must be downloaded to System 36 for use by applications that have not been reengineered to the web-based environment. This ensures that current payment processes are not interrupted until those applications are reengineered to the new platform.

When applications are deployed in the web-based environment, they will be programmed to read eligibility data from the centralized database.

C What Data is Downloaded to System 36

Only the data that corresponds to the data currently on System 36 will be downloaded. New information captured in the web-based environment, such as dates producer filed applicable documentation, will not be downloaded to System 36.

Note: See subparagraphs D through S for additional information on how data is downloaded to System 36.
