COC Election Nominations

The election of agricultural producers to Farm Service Agency (FSA) county committees is important to ALL farmers and ranchers. It is crucial that every eligible producer participate in these elections because FSA county committees are a link between the agricultural community and the U.S. Department of Agriculture (USDA).

County committee members are a critical component of the operations of FSA. They help deliver FSA farm programs at the local level. Farmers and ranchers who serve on county committees help with the decisions necessary to administer the programs in their counties. They work to ensure FSA agricultural programs serve the needs of local producers.

FSA county committees operate within official regulations designed to carry out federal laws. County committee members apply their judgment and knowledge to make local decisions.

The COC nomination period runs from **June 17, 2013 through August 1, 2013**. The nomination form is available at USDA Service Centers and online. Two Local Administration Areas (LAAs) will be holding elections this year. LAA 1, which includes the towns of New Durham, Middleton, Milton, Farmington and Rochester and LAA 4 which includes the towns of Candia, Raymond, Epping, Auburn, Chester, Fremont, Londonderry, Derry, Sandown, Danville, Kingston, Windham, Salem, Atkinson, Hampstead, Plaistow, Newton and South Hampton.

Crop Reporting

After spring planting, producers should certify their 2013 acreage. Filing an accurate acreage report for all crops and land uses, including failed acreage and prevented planting acreage, can prevent the loss of benefits for a variety of programs.

Failed acreage must be reported within 15 days of the disaster event and before disposition of the crop. Prevented planting must be reported no later

Website:
www.fsa.usda.gov/NH

than 15 days after the final planting date.

Acreage reports are required for many Farm Service Agency programs. Perennial forage reports for the 2013 crop year were due November 15, 2012, but for 2013, late reports will be accepted without a fee until September 15, 2013. Corn, fresh market sweet corn, spring forage seeding and all other crops must be certified **by July 15, 2013**.

DCP/ACRE Sign-Up Continues

The sign-up periods for DCP and ACRE are still open. Producers are encouraged to sign up for DCP before the Aug. 2, 2013, deadline. An even earlier deadline is for ACRE, which will end June 3, 2013.

The 2013 DCP and ACRE program provisions are unchanged from 2012, except that all eligible participants in 2013 may choose to enroll in either DCP or ACRE for the 2013 crop year. This means that eligible producers who were enrolled in ACRE in 2012 may elect to enroll in DCP in 2013 or may re-enroll in ACRE in 2013. Likewise producers who were enrolled in DCP may opt for ACRE enrollment.

Highly Erodible Land and Wetland Compliance

Landowners and operators are reminded that in order to receive payments from USDA, they must be compliant with Highly Erodible Land (HEL) and Wetland Conservation (WC) provisions. Farmers with HEL determined soils must apply tillage, crop residue and rotation requirements as specified in their conservation plan.

Producers should notify FSA prior to conducting land clearing or drainage projects to ensure compliance. If you intend to clear any trees to create new cropland, these areas will need to be reviewed to ensure any work will not jeopardize your eligibility for benefits.

Landowners and operators can complete form AD-1026 Highly Erodible Land Conservation (HELC) and Wetland Conservation (WC) Certification to determine whether a referral to Natural Resources Conservation Service (NRCS) is necessary.

For more information on Highly Erodible Land and Wetland Conservation provisions, contact a FSA County Office or visit the FSA website at www.fsa.usda.gov.

Online Data Tool for Public

The USDA Race, Ethnicity, and Gender Program Statistics query tool, known as REGStats, is the official new tool of the United States Department of Agriculture (USDA) for making program application and participation rate data available to the public on the Internet.

The REGStats website provides summary information about the number of individuals and entities that apply for, and receive, federal assistance from four USDA agencies or mission areas – the Farm Service Agency (FSA), the Natural Resources Conservation Service (NRCS), Rural Development (RD), and the Risk Management Agency (RMA).

The information available in REGStats includes the number of applicants and recipients, by fiscal year, for USDA programs available to agricultural producers and landowners, categorized by race, ethnicity, and gender. Summary totals may be obtained nationally, or by state and county for the 50 states, as well as the U.S. territories.

Visit the online site: <http://www.regstats.usda.gov>

2011 Supplemental Revenue Assistance Program Applications

The Farm Service Agency (FSA) will continue to accept SURE applications for 2011 crop losses through June 7, 2013. The SURE Program provides payments to producers when crop revenues are less than the crop guarantee. The SURE Program payment is equal to 60 percent of the difference between the crop guarantee and revenue.

To determine the guarantee and revenue for the SURE Program, all crops on all farms for a producer are included in the calculation. Payments under the SURE Program are limited to \$100,000.

To be eligible for the 2011 SURE Program, producers must have crop insurance on all insurable crops. For crops that are not covered by crop insurance such as pumpkins and cucumbers, producers must have purchased Non Insured Crop Disaster Assistance Program (NAP) coverage through FSA. The Crop Insurance and NAP purchase requirement is waived for crops that are not economically significant to the farming operation. In addition, the producer must have at least one crop with a 10 percent production loss in order to be eligible. Note: Eligible farmers and ranchers who meet the definition of "Socially Disadvantaged," "Limited Resource," or "Beginning Farmer or Rancher," do not have to meet this requirement.

For more information concerning the 2011 SURE program or other Farm Service Agency programs, contact your local FSA office or visit the Farm Service Agency website at www.fsa.usda.gov/pas/.

CRP Sign-Up Starts May 20th

USDA will conduct a four-week general sign-up for the Conservation Reserve Program (CRP), beginning May 20 and ending on June 14. CRP protects the nation's natural resources through voluntary participation, while providing significant economic and environmental benefits to rural communities across the United States.

Currently, about 27 million acres are enrolled in CRP. Producers that are accepted in the program can receive cost-share assistance to plant long-term, resource-conserving covers and receive an annual rental payment for the length of the contract which is 10-15 years.

Contracts on 3.3 million acres of CRP are set to expire on Sept. 30, 2013. Producers with expiring contracts or producers with environmentally sensitive land are encouraged to evaluate their options under CRP.

For more information on CRP and other FSA programs, visit a local FSA service center or www.fsa.usda.gov.

Interest Rates for May

Farm Operating Loans - Direct, including Microloans - 1.375%
Farm Ownership Loans - Direct 3.50
Farm Ownership Loans - Direct, Joint Financing 5.00%
Emergency Loans - 2.375%
Farm Storage Facility Loans - 7 year 1.25%

Dates to Remember

May 20 through June 14 - CRP Sign-up

May 27 - Memorial Day Holiday: Office Closed

June 3 - ACRE sign-up ends

June 7 - Signup Deadline for 2011 SURE Program

June 17 through August 1 - COC nomination period opens

July 15 - Acreage Reporting Deadline for Corn, Spring Forage Seeding, and All Other Crops

Aug. 2 - DCP sign-up Ends
