Producers Must Report Crop Losses to FSA

Producers must report crop losses resulting from a weather-related disaster event within 15 days of the disaster or when the loss first becomes apparent, this includes crops covered by crop insurance, the Noninsured Crop Disaster Assistance Program (NAP) and crops without insurance coverage. Prevented planting must be reported no later than 15 days after the final planting date.

Crop losses are acres that were timely planted with the intent to harvest, but the crop failed because of a natural disaster. It is important that producers file accurate and timely loss reports to prevent the potential loss of FSA program benefits.

Producers who have NAP coverage will be required to report crop losses on an FSA form CCC-576 - "Notice of Loss and Application for Payment Noninsured Crop Disaster Assistance Program."

Ohio FSA Authorizes Additional CRP Practices for Emergency Grazing and Haying

In response to the continued drought conditions, the Ohio Farm Service Agency (FSA) announced the addition of 5 CRP practices that livestock producers and other participants in the Conservation Reserve Program (CRP) will now be able to emergency hay and graze. Many of these additional acres have wetland-related characteristics and are likely to contain better quality hay and forage than on other CRP acres.

The list of eligible practices has been expanded to include:

- CP8A (grass waterways) – haying and grazing available
- CP23 (wetland restoration) – haying and grazing available
- CP23A (wetland restoration, non-floodplain) – haying and grazing available
- CP25 (rare and declining habitat (oak savanna, wetland complexes, tall grass prairies))
 - Oak Savannas – **haying only**
 - Wetland Complexes – haying and grazing
 - Tall Grass Prairies – haying and grazing
- CP27/CP28 (farmable wetlands pilot wetland and buffer) – haying and grazing available

Eligible producers who are interested in haying or grazing CRP under the emergency authorization, and current CRP participants who

choose to provide land for haying or grazing to an eligible livestock producer, must first request approval from their local FSA office and obtain a modified conservation plan from the Natural Resources Conservation Service (NRCS).

Prior to implementation of emergency haying or grazing, a conservation plan must be developed that complies with National Environmental Policy Act (NEPA) and all other applicable federal and state laws and regulations. This plan must be completed by NRCS. If potential negative impacts of haying and grazing on threatened or endangered species or critical habitat are identified, it is not likely the land would be approved for these activities.

Emergency haying is authorized through August 31, 2012. Emergency grazing is authorized through September 30, 2012. At least 50% of each field shall be left unhayed for wildlife. At least 25% of each field shall be left ungrazed for wildlife (or graze not more than 75 percent of the stocking rate determined by NRCS).

CRP is a voluntary program that provides producers annual rental payments on their land in exchange for planting resource conserving crops on cropland to help prevent erosion, provide wildlife habitat and improve the environment.

Producers must file a request and receive approval from their local FSA office before starting emergency haying and grazing activity.

Juan M. Garcia FSA Administrator Wyandot County Farm Service Agency Provides Free Online News Service

Juan M. Garcia has been appointed as the Farm Service Agency (FSA) Administrator, effective July 15, 2012. Garcia previously served as deputy administrator for Farm Programs where he managed all FSA programs under the Production Emergencies and Compliance Division, Conservation and Environmental Programs Division, and Price Support Division.

Garcia served as state executive director for Texas and as the agricultural program manager (APM) for the Farm Service Agency in Texas. Prior to his selection as the APM, Garcia worked as a district director and served earlier in his career as county executive director. During his 35-year career with USDA, Garcia has received numerous honors and is a three-time recipient of the prestigious FSA Administrator's Award for Service to Agriculture.

A native of Lyford, Texas, Garcia was raised on his family's 500-acre farm. Garcia received a Bachelor of Science degree in Animal Science from Texas A&I in Kingsville (now Texas A&M University-Kingsville).

Maintaining Stored Grain Quality

With the high temperatures this summer, producers are reminded to keep an eye on the condition and quality of the stored grain. Remember to contact your local FSA office if you notice changes in the condition and quality of the stored grain.

MILC Payments Dairy Producers

Producers participating in USDA's Milk Income Loss Contract (MILC) program will receive payments for the month of June. USDA makes MILC payments on a monthly basis when the Boston Class I milk price falls below \$16.94 per hundredweight after adjustment for the cost of dairy feed rations.

The MILC payment trigger price of \$16.94 is adjusted upward when the National Average Dairy Feed Ration Cost for a month is greater than \$7.35 per cwt. USDA's National Agricultural Statistics Service releases the data for determining the Average Dairy Feed Ration Cost monthly. Using this information, the MILC payment trigger for the month of June has been adjusted to \$21.53, for a final MILC payment rate of \$1.3677491 per hundredweight.

For more information about the MILC program, please visit your local FSA office or go online to: http://www.fsa.usda.gov/Internet/FSA_File/milc2011.pdf.

Keeping up with the times is a little easier using Farm Service Agency's (FSA's) GovDelivery system. Gov Delivery is a one-stop shop for the most up-to-date USDA program information. Through FSA's GovDelivery electronic news service, participants can choose to receive federal farm program information by topic, state & county.

"Producers can select as many subscriber options as they want, which allows producers who farm in multiple counties or across state lines to receive updates from each county in which they operate or have an interest," stated Vicki Orians, FSA Executive Director in Wyandot Co.

Anyone can sign-up for the GovDelivery system to receive free USDA information. The GovDelivery system allows farmers, bankers, crop insurance agents, practically anyone interested in receiving program updates and reminders within USDA agencies to sign-up to receive information electronically. FSA is utilizing GovDelivery to electronically provide agency news updates and program reminders directly to the customer's inbox, Smartphone and through text messaging.

"Customers who do not wish to use the GovDelivery system will still receive some information in the mail, however it will be severely reduced," said Orians. FSA will rely on free local radio and newspaper media to get information out.

"With so much discussion about the Farm Bill this year, it will be important for FSA to communicate with our customers about new program announcements or if legislation has extended our current programs," added Orians.

Farmers can visit their local FSA office and register for free email updates or go online to www.fsa.usda.gov/subscribe and follow the online options. Participants will be asked to provide their email addresses and cell phone numbers.

For more information contact the Wyandot County FSA office at 419 294 2127.

Preventing Fraud

The Farm Service Agency supports the Risk Management Agency in the prevention of fraud, waste and abuse of the Federal Crop Insurance Program. FSA has been, and will continue to, assist RMA and insurance providers by monitoring crop conditions throughout the growing season. FSA will continue to refer all suspected cases of fraud, waste and abuse directly to RMA.

Producers can report suspected cases to the FSA office, RMA, or the Office of the Inspector General.

Highly Erodible Land Initiative

The Farm Service Agency (FSA), announced that continuous sign-up for the Highly Erodible Land (HEL) Initiative under the Conservation Reserve Program (CRP) started on July 23, 2012. Ohio received a total allocation of **24,300 acres** to enroll in the HEL CRP program. Offers will be accepted until either the state acreage allocation limit is reached or September 30, 2012, whichever occurs first.

“CRP is a voluntary program that has protected environmentally sensitive land for more than 25 years,” said CED Orians. “This initiative will accept offers with an erosion rate of at least 20 tons per acre per year for new cropland or CRP acres that expire on September 30, 2012; however, existing grass stands that are not expiring CRP will not be considered eligible,” she said.

Producers can stop by their local FSA office to determine if their land qualifies for the Highly Erodible Land Initiative and to receive additional location-specific details.

Landowners enrolled in CRP receive annual rental payments and cost-share assistance to establish long-term, resource conserving covers on eligible farmland. Incentive payments are not authorized under this initiative.

New land contracts approved during this continuous sign-up initiative will become effective the first day of the month following the month of approval and are valid for 10 years.

CRP contracts set to expire on September 30, 2012, may be offered for consideration and approved contracts will become effective October 1, 2012, and are also valid for 10 years.

For more information, please contact your local FSA office.

Selected Interest Rates for August 2012	
90-Day Treasury Bill	0.125%
Farm Operating Loans — Direct	1.250%
Farm Ownership Loans — Direct	3.000%
Farm Ownership Loans -- Down Payment	1.500%
Emergency Loans	2.250%
Farm Storage Facility Loan -- 7 year	1.000%
Farm Storage Facility Loan -- 10 year	1.625%
Farm Storage Facility Loan -- 12 year	1.875%
Sugar Storage Facility Loans	2.000%
Commodity Loans 1996-Present	1.250%

Electronic Services Available

Producers, if you have Internet access you can electronically log on, fill out and print a variety of FSA paper forms in the comfort of your home as your schedule allows. You can also register for secure electronic access that will allow you to electronically sign and transmit some forms directly to the county office staff. If you are new to the website, first you will want to obtain a Level 2 USDA Service Center Customer ID and password at: <https://identitymanager.eems.usda.gov/registration/index.aspx> then click "Register for a Level 2 Account" link.

USDA eAuthentication is the system used by USDA agencies to enable customers to obtain accounts that will allow them access USDA Web applications and services via the Internet. This includes submitting forms electronically, completing surveys online, and checking the status of your USDA accounts.

If you already have a Customer ID and password, then click on the following eForms website at: <http://forms.sc.egov.usda.gov/eForms/welcomeAction.do?Home> and select "Login". A disclaimer will open and after you read the "Warning message" click "I Agree".

Then the USDA Web services page will open to the eAuthentication login page. Enter your login User ID and Password and then click on the "Login" button. To sign and transmit forms electronically, you must sign-up and get a User ID and password.

Submitting an e-Form is convenient. Access information anytime day or night seven days a week. Forms and applications can be submitted fast and received in the county office in a matter of minutes, not days or weeks.

Adjusted Gross Income

USDA and the Internal Revenue Service have established an electronic information exchange process for verifying compliance with the adjusted gross income (AGI) provisions for farm programs. Written consent is required from each producer or payment recipient for the tax review process. No actual tax data will be included in the report that IRS sends to FSA.

This ensures that payments are not issued to producers whose AGI exceeds certain limits. The limits set in the 2008 Farm Bill are \$500,000 nonfarm average AGI for commodity and disaster programs; \$750,000 farm average AGI for direct payments; and \$1 million nonfarm average AGI for conservation programs.

Participants in CCC programs subject to average AGI rules must submit form CCC-931 to their local FSA County Office to avoid interruption of program benefits. This form may be obtained from local FSA and NRCS offices or online at: <http://www.fsa.usda.gov/ccc931>.

Farm Safety

Flowing grain in a storage bin or gravity-flow wagon is like quicksand, it can kill quickly. It takes less than five seconds for a person caught in flowing grain to be trapped.

The mechanical aspects of grain handling equipment, also presents a real danger. Augers, power take offs, and other moving parts can grab people or clothing.

These hazards, along with pinch points and missing shields, are dangerous enough for adults; not to mention children. It is always advisable to keep children a safe distance from operating farm equipment. Always use extra caution when backing or maneuvering farm machinery. Ensure everyone is visibly clear and accounted for before machinery is engaged.

FSA wants all farmers to have a productive crop year, and that begins with putting safety first.

Dates to Remember	
Sept. 3	Labor Day Holiday. FSA Offices Closed.
Sept. 30	HEL Initiative sign-up concludes.
Oct. 8	Columbus Day Holiday. FSA Offices Closed.
Continues	Farm Storage Facility Loan Program.
Continues	Continuous Conservation Reserve program.
