DCP/ACRE Sign-up Continues

Enrollment for 2013 DCP and ACRE sign-up continues. The DCP sign-up period will end on Aug. 2, 2013; and the ACRE sign-up period will end on June 3, 2013.

The 2013 DCP and ACRE program provisions are unchanged from 2012, except that all eligible participants in 2013 may choose to enroll in either DCP or ACRE for the 2013 crop year. This means that eligible producers who were enrolled in ACRE in 2012 may elect to enroll in DCP in 2013 or may re-enroll in ACRE in 2013. Likewise producers who were enrolled in DCP may opt for ACRE enrollment.

For more information the ACRE program Fact Sheet [can be found here](#) and the DCP Fact Sheet [can be found here](#). Contact the Wyandot County FSA office for more information, or to setup an appointment to enroll at 419-294-2127.

2011 Supplemental Revenue Assistance Program Applications

The Farm Service Agency (FSA) will continue to accept SURE applications for 2011 crop losses through **June 7, 2013**. The SURE Program provides payments to producers when crop revenues are less than the crop guarantee. The SURE Program payment is equal to 60 percent of the difference between the crop guarantee and revenue.

To determine the guarantee and revenue for the SURE Program, all crops on all farms for a producer are included in the calculation. Payments under the SURE Program are limited to \$100,000.

To be eligible for the 2011 SURE Program, producers must have crop insurance on all insurable crops. For crops that are not covered by crop insurance such as pumpkins and cucumbers, producers must have purchased Non Insured Crop Disaster Assistance Program (NAP) coverage from FSA. The Crop Insurance and NAP purchase requirement is waived for crops that are not economically significant to the farming operation. To be eligible, the producer must have at least one crop with a 10 percent production loss.

For more information on SURE program eligibility requirements contact the Wyandot County FSA office at 419-294-2127 or visit the website at <http://www.fsa.usda.gov/sure>.

45th CRP General Sign-Up

USDA will conduct a four-week general sign-up for the Conservation Reserve Program (CRP), beginning May 20 and ending on June 14. CRP protects the nation's natural resources through voluntary participation, while providing significant economic and environmental benefits to rural communities across the United States.

Currently, about 320,000 acres are enrolled in CRP in Ohio. Producers that are accepted in the sign-up can receive cost-share assistance to plant long-term, resource-conserving covers and receive an annual rental payment for the length of the contract (10-15 years).

Contracts on approximately 55,000 acres of CRP in Ohio are set to expire on Sept. 30, 2013. Producers with expiring contracts or producers with environmentally sensitive land are encouraged to evaluate their options under CRP.

More information about the CRP general sign-up [can be found here](#) or contact the Wyandot County FSA office at 419-294-2127.

HWFRCP Ends March 25

Agriculture Secretary Tom Vilsack reminds Hispanic and women farmers and ranchers who allege discrimination by the USDA in past decades that the filing period will close March 25, 2013.

USDA urges potential claimants to contact the Claims Administrator for information and mail their claim packages on or before March 25, 2013.

The process offers a voluntary alternative to litigation for each Hispanic or female farmer and rancher who can prove that USDA denied his or her application for loan or loan servicing assistance for discriminatory reasons for certain time periods between 1981 and 2000. As announced in February 2011, the voluntary claims process will make available at least \$1.33 billion for cash awards and tax relief payments, plus up to \$160 million in farm debt relief, to eligible Hispanic and women farmers and ranchers. There are no filing fees to participate in the program.

Claimants may register for a claims package by calling the telephone number below Monday through Friday 9 a.m. to 8 p.m. Eastern Time or by downloading the forms from the website.

- Website: www.farmerclaims.gov
- Phone: 1-888-508-4429
- Claims Period: September 24, 2012 - March 25, 2013.

Independent legal services companies will administer the claims process and adjudicate the claims. Although there are no filing fees to participate and a lawyer is not required to participate in the claims process, persons seeking legal advice may contact a lawyer or other legal services provider.

Selected Interest Rates for March 2013	
90-Day Treasury Bill	0.125%
Farm Operating Loans — Direct	1.250%
Farm Ownership Loans — Direct	3.250%
Limited Resource Loans	5.000%
Farm Ownership Loans — Down Payment	5.000%
Emergency Loans	2.250%
Farm Storage Facility Loan -- 7 year	1.375%
Farm Storage Facility Loan -- 10 year	2.000%
Farm Storage Facility Loan -- 12 year	2.250%
Sugar Storage Facility Loans	2.500%
Commodity Loans 1996-Present	1.125%

NAP Coverage Deadline

March 15th is the last day for producers to apply for Non-Insured Crop Disaster Assistance Program (NAP) coverage using Form CCC-471, Application for Coverage, and pay the service fee at the FSA county office. The application and service fee must be filed **by March 15th**, the deadline date for 2013 spring planted crops which include: forage sorghum, oats, potatoes, sunflowers and all spring planted specialty crops grown for food.

The service fee is \$250 per crop per county or \$750 per producer per county. The fee cannot exceed a total of \$1875 per producer with farming interest in multiple counties. Limited resource producers may request a waiver of service fees.

To qualify, a producer must be a landowner, tenant or sharecropper who shares in the risk of producing an eligible crop.

Microloan Program

The Farm Service Agency (FSA) offers applicants a Microloan designed to help farmers with credit needs of \$35,000 or less. The loan features a streamlined application process built to fit the needs of new and smaller producers. This loan program will also be useful to specialty crop producers and operators of community supported agriculture (CSA).

Eligible applicants can apply for a maximum amount of \$35,000 to pay for initial start-up expenses such as hoop houses to extend the growing season, essential tools, irrigation and annual expenses such as seed, fertilizer, utilities, land rents, marketing, and distribution expenses. As financing needs increase, applicants can apply for a regular operating loan up to the maximum amount of \$300,000 or obtain financing from a commercial lender under FSA's Guaranteed Loan Program.

In addition to microloans, FSA offers several farm loan programs that provide funding to purchase land, livestock, equipment, feed, seed, and supplies, or can be used to construct buildings or make farm improvements.

Individuals interested in applying for a microloan or would like to discuss other farm loan programs available, should contact the Logan County FSA office to setup an appointment with Greg Koerner, a loan approval official. The Microloan program Fact Sheet can be [found here](#).

Maintaining Stored Grain Quality

With spring right around the corner, producers are reminded to keep an eye on the condition and quality of the stored grain. Remember to contact your local FSA office if you notice changes in the condition and quality of the stored grain.

Honey Loans Available

Marketing assistance loans and loan deficiency payments for 2012 crop year honey are available **until April 1, 2013**. The national loan rate for honey is \$.60 per pound. Market prices currently exceed the loan rate; so LDPs are not available right now.

To be eligible for a loan, the producer must have produced honey in the United States during the calendar year for which the loan is requested, and extracted the honey on or before Dec. 31 of the applicable crop year; have continuous beneficial interest in the honey through date of repayment of the loan; and been responsible for the financial risk of keeping the honey. Producers are responsible for maintaining the quality of farm-stored honey during the term of the loan.

The honey must be produced in the United States by an eligible producer, from an approved floral source, and stored in approved containers.

The containers must be marked with the producer's name, type of honey, number of container and net weight. Pre-loan inspections are required before the loans can be disbursed.

Honey used as collateral may not be disposed of without approval of the county office staff.

County Committee Advisors

Wyandot FSA County Office Committee (COC) has just named Connie Iles of Harpster as COC Advisor. Advisors play an important role by providing diverse viewpoints and by representing the interests of minorities and women in decisions made by county committees. County committee members and their county executive directors, reach out to producer groups who are under-represented on county committees to find the right person to serve as Advisor.

Advisors serve for a 12 month period not to exceed nine consecutive years. They attend each COC meeting, including executive sessions and they participate in FSA activities, including elections. They help develop interest and incentives for socially disadvantaged group members to consider FSA work as a career. Advisors also solicit candidates from socially disadvantaged groups for nomination during the election process.

Unauthorized Disposition of Grain

If loan grain has been disposed of through feeding, selling or any form of disposal without prior written authorization from the county office, it is considered unauthorized disposition. The financial penalties for unauthorized dispositions are severe and a producer will be placed on a loan violation list for a two-year period. Always call the county office before you haul any grain under loan.

Farm Storage Facility Loan Program

The Farm Storage Facility Loan (FSFL) program allows producers of eligible commodities to obtain low-interest financing to build or upgrade farm storage and handling facilities.

The new maximum principal amount of a loan through FSFL is \$500,000. Participants are now required to provide a down payment of 15 percent, with CCC providing a loan for the remaining 85 percent of the net cost of the eligible storage facility and permanent drying and handling equipment. New loan terms of 7, 10 or 12 years are available depending on the amount of the loan. Interest rates for each term rate may be different and are based on the rate which CCC borrows from the Treasury Department.

Payments are available in the form of a partial disbursement and the remaining final disbursement. The partial disbursement will be available after a portion of the construction has been completed. The final fund disbursement will be made when all construction is completed. The maximum amount of the partial disbursement will be 50 percent of the projected and approved total loan amount.

Applications for FSFL must be submitted to the FSA county office that maintains the farm's records. An FSFL must be approved before any site preparation or construction can begin.

The following commodities are eligible for farm storage facility loans:

- Corn, grain sorghum, rice, soybeans, oats, peanuts, wheat, barley or minor oilseeds harvested as whole grain;
- Corn, grain sorghum, wheat, oats or barley harvested as other-than-whole grain;
- Pulse crops - lentils, small chickpeas and dry peas;
- Hay;
- Honey;
- Renewable biomass; and
- Fruits (including nuts) and vegetables - cold storage facilities

For more information about FSFL please visit the Wyandot County FSA or go online to read the [FSFL Fact Sheet](#).

Highly Erodible Land and Wetland Conservation Compliance

Landowners and operators are reminded that in order to receive payments from USDA, compliance with Highly Erodible Land (HEL) and Wetland Conservation (WC) provisions is required. Farmers with HEL-determined soils are reminded to comply with tillage, crop residue, and rotation requirements specified in their conservation plan. Farmers are to notify the USDA Farm Service Agency prior to conducting land clearing or drainage projects to insure compliance. Failure to obtain advance approval for any of these activities can result in the loss of eligibility for certain USDA program benefits.

Wyandot County Farm Service Agency Provides Free Online News Service

Keeping up with the times is now a little easier using the Farm Service Agency's (FSA's) GovDelivery system. GovDelivery is a one-stop shop for the most up-to-date USDA program information. Through FSA's GovDelivery electronic news service, participants can choose to receive federal farm program information by topic, state and/or county.

"Producers can select as many subscriber options as they want, which allows producers who farm in multiple counties or across state lines to receive updates from each county in which they operate or have an interest," stated Charlotte Schmachtenberger, FSA Executive Director for Wyandot County.

Anyone can sign-up for the GovDelivery system to receive free USDA information. The GovDelivery system allows farmers, bankers, crop insurance agents, practically anyone interested in receiving program updates and reminders within USDA agencies to sign-up to receive information electronically. FSA is utilizing GovDelivery to electronically provide agency news updates and program reminders directly to the customer's inbox, Smartphone and through text messaging.

FSA will rely on free local radio and newspaper media to get information out.

Changes to IRS Forms 1099-G and 1099-Misc for Calendar Year 2012

In past years, IRS Forms 1099-G were issued to show all program payments received from the Farm Service Agency, regardless of the amount. For calendar year 2012, the 1099-G reporting has changed.

IRS Form 1099-G (Report of Payments to Producers) will only be issued to producers whose reportable payments total \$600 or more for the calendar year. Additionally, if the producer has at least \$600 in reportable payments received from multiple FSA offices, only one Form 1099-G will be issued. Producers subject to voluntary withholding or backup (involuntary) withholding will receive the appropriate IRS form, even if combined payments are less than \$600.

The same changes will apply to producers and vendors who normally receive IRS Form 1099-MISC from FSA. Any producer who receives less than \$600 in combined payments should consult a tax advisor to determine if these payments must be reported on their tax return.

For more information regarding IRS reporting changes, please contact the Wyandot County FSA office at 419-294-2127.

Dates to Remember	
Mar. 15	Deadline to obtain 2012 NAP coverage on spring planted crops.
Mar. 25	Hispanic and women farmers and ranchers claims deadline to file a claims packet.
April 1	Final Availability for 2012 crop wheat, barley, oats, honey loans and LDPs.
May 20	CRP General Sign-up Period starts and continues through June 14.
May 27	Memorial Day Holiday. FSA Offices Closed.
May 31	Deadline to apply for 2012 commodity loans and LDP's on feed grains, soybeans, pulse crops.
June 3	Deadline to sign-up for 2013 ACRE program.
June 7	Deadline to sign-up for the 2011 SURE program.
