<b>Farm, Tract, and Crop Data 3-CM (Revision 4)</b>	<b>Amendment 6</b>
---	--------------------

Approved by: Deputy Administrator, Farm Programs

**Amendment Transmittal**

**A Reasons for Amendment**

Paragraphs 51, 52, and 53 have been restructured. These paragraphs have been amended to provide:

- that transfer requests shall be made on FSA-179 and signed by all owners and operators
- instructions on completing FSA-179, item 5
- correct paragraph references.

Subparagraph 63 A has been amended to correct paragraph references.

Subparagraph 131 C has been amended to include new farm producer exceptions.

Subparagraph 153 C has been amended to remove notes that incorrectly stated that farm level CRP acres are updated automatically when tract level CRP acres are modified.

Subparagraph 154 C has been amended to include new tract producer exceptions.

Subparagraph 172 B has been amended to include State Offices in requests for base restoration.

Subparagraph 245 G has been amended to provide an example of the current FSA-156EZ that prints acres in tenths.

Exhibit 18 has been amended to correct field names.

**Section 1 Selecting Administrative County Office**

**51 Location of Farm’s Administrative Records**

**A Determining a Farm’s Administrative County**

This table explains how to determine a farm’s administrative county.

<b>Situation</b>	<b>General Rule</b>
All of the land on the farm is physically located in 1 county and the county where the farm is physically located has an FSA office.	The farm records shall be administratively located in that county.
All of the land on the farm is physically located in 1 county, but the County Office where the farm is physically located has been closed and the timeframe to request a change of administrative county has not yet passed.	Follow procedure in paragraph 52 for handling County Office closures.
<p>All of the land on the farm is physically located in 1 county, but the County Office where the farm is physically located:</p> <ul style="list-style-type: none"> <li>• has been closed and the timeframe to request a change of administrative county has passed</li> <li>• has never had a County Office.</li> </ul>	The farm records shall be administratively located in the County Office designated by FSA.
The land on the farm is physically located in more than 1 county.	<p>The farm operator and COC’s must agree on the county where the farm shall be administratively located.</p> <p>If no agreement is reached, the administrative county for the farm shall be where the:</p> <ul style="list-style-type: none"> <li>• principal dwelling of the operator is situated</li> <li>• major portion of the farm is located, if the principal dwelling of the operator is not situated in any county in which the farm is located.</li> </ul>
The land on the farm is part of an Indian reservation.	<p>If the farm is part of an Indian reservation and is operated by a grazing association, the farm’s administrative county shall be the county where the grazing association has its headquarters if <b>all</b> of the following apply:</p> <ul style="list-style-type: none"> <li>• COC’s and the farm operator agree</li> <li>• the person using the land does not live on it</li> <li>• the geographic features are such that the administrative access would be more practical.</li> </ul>

## \*--52 Changing a Farm's Administrative County

### A Changing Without a Farm Combination--\*

A change in a farm's administrative county may be permitted without completing a farm combination in the receiving county if at least 1 of the following applies:--\*

- the principal dwelling of the farm operator has changed
- a change has occurred in the operation of the land
- there has been a change that would cause the changed administrative County Office to be more accessible, such as a new highway, relocation of the County Office, building site, etc.
- the producer documents that the changed administrative County Office is **significantly** more convenient.

\*--In and out transfers shall be:

- requested on FSA-179
  - Note:** On FSA-179, item 5, write in, "significantly more convenient", if transfer is done because of convenience.
- signed by the farm operator and **all** owners
- a 1-time option for the producer if done because of convenience
- made only to a county that is contiguous to the county where the farm is physically located.

Approving the request will change the administrative County Office originally designated by FSA for all purposes. See paragraph 65 for the timing of the transfer.

For County Office closures, see paragraph 53. For reduced hours of operation of an office--\* and reduced staffing, see paragraph 54 for procedure in changing the administrative County Office.

**Notes:** Refer to 15-AO for determinations of which LAA the producer should be placed in the new county.

A change in the administrative County Office may not impact FLP. FLP applications will be submitted in the County Office serving the area in which the farm is, or will be, located according to 7 CFR 1910.3. Files will be maintained according to 16-AO, paragraph 286.

**\*--52 Changing a Farm's Administrative County (Continued)****B Changing With a Farm Combination**

A change in administrative County Office may be permitted if both of the following apply:

- all owners agree with the transfer
- the transferred farm will be combined with another farm in the receiving office.

If a County Office determines that the farm transfer and combination are being requested to evade program rules, the farm transfer and farm combination shall **not** be approved.

**Note:** Administrative county changes shall only be made to counties that are contiguous to the county where the farm is physically located. If there are no offices in the contiguous counties, the producer may select a noncontiguous office that is **significantly** more convenient.

In and out transfers shall be:

- requested on FSA-179
- signed by the farm operator and **all** owners
- between contiguous counties when possible.

Approving the request will change the administrative County Office originally designated by FSA for all purposes. See paragraph 65 for the timing of the transfer.

**53 County Office Closures--\*****A Background**

County Office closures may create a significant disadvantage for some producers in obtaining reasonable availability and accessibility to services.

Producers (owners and operators) on farms that were transferred to an administrative County Office because of County Office closure may request a new administrative County Office, if the producer documents that a new administrative County Office is significantly more convenient.

**B Timeframe for Request**

Producers on farms in County Offices that close shall have 60 calendar days from the date of \*--the letter sent according to subparagraph 53 D to select a new administrative County Office.--\*

**C Requesting a New Administrative County**

Producers who select a new administrative County Office, shall request an in or out transfer to accomplish the change. Process these requests according to Section 2.

**\*--53 County Office Closures (Continued)--\*****D Producer Letters**

When a County Office closes, FSA designates a new administrative County Office. The new administrative County Office designated by FSA shall provide a letter within 60 calendar days of being notified of the closure to all producers whose records were originally serviced by the closed County Office. The letter shall allow producers 60 calendar days from the date of the letter to select a different administrative County Office. See Exhibit 7 for an example of the letter.

**E In and Out Transfer**

In and out transfers shall be:

- requested on FSA-179

**\*--Note:** On FSA-179, item 5, check “county office closure”.--\*

- signed by the farm owner(s) and operator
- between contiguous counties when possible.

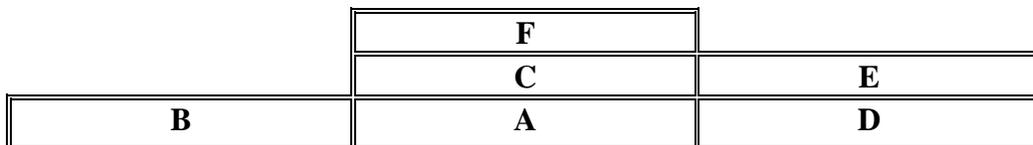

Approving the request will change the administrative County Office originally designated by FSA for all purposes. See paragraph 65 for the timing of the transfer.

**\*--53 County Office Closures (Continued)--\***

**F No Contiguous County Office**

If there is no contiguous County Office, the producer may select a noncontiguous County Office that is significantly more convenient.

**Example:** County Office B is closed. County Office A is the administrative County Office. Contiguous counties do not have a County Office. The producer may then select a noncontiguous County Office as the new administrative County Office.

Following is an explanation of the example.

County Office	Explanation
B	County Office closed.
A	Administrative County Office designated by FSA.
C, D, and E	No County Office located in these counties.
F	Producer may select this as the new administrative County Office if it is significantly more convenient.

**54 County Offices With Reduced Hours of Operation**

**A Background**

Reduced hours at some County Offices may create a significant inconvenience for some producers in obtaining reasonable availability and accessibility to services.

Producers on farms that are administered in County Offices who have reduced their hours of operation may request a new administrative County Office, if the producer documents the new administrative County Office is significantly more convenient.

The County Office with reduced hours of operation shall notify producers of this option in their next newsletter.

**Note:** If SED determines that reduced staffing in a County Offices has caused an inconvenience to producers, SED may use this procedure to allow all producers in the county to choose a new administrative County Office even though the county may not have reduced work hours. After SED has made this decision, the County Office shall notify the producers in the county of the option to choose another administrative County Office in their next newsletter.

## 54 County Offices With Reduced Hours of Operation (Continued)

**B Requesting a New Administrative County Office**

Producers, who select a new administrative County Office, shall request a farm transfer to accomplish the change. These requests shall be approved by STC.

In and out transfers shall:

- be requested on FSA-179

**Note:** On FSA-179, item 5, check “Other” and enter “reduced hours of operation” or “reduced staffing”, as applicable.

- be signed by the farm owner and operator
- occur between contiguous counties when possible
- be a 1-time option for the producer
- be submitted to STC for approval.

Approving the request will change the administrative County Office originally designated by FSA for all purposes. See paragraph 65 for the timing of transfers. There is no set timeframe for producers to make a request to change their administrative County Office.

**Note:** DAFP has delegated its authority to approve requests **only** for selecting a new administrative County Office in cases where County Offices have reduced hours of operation and reduced staffing.

55-61 (Reserved)

Section 2 In and Out Transfers

**62 Initiating Transfer**

**A Who Initiates Transfer**

A farm transfer may be initiated by:

- either the receiving or the transferring COC
- the operator or owner.

**B Completing FSA-179**

Complete FSA-179, according to Exhibit 10, to initiate the transfer. Prepare:

- 3 copies for within-State transfers
- 4 copies for out-of-State transfers.

**Note:** All owners and operator **must** sign FSA-179.

63 Transfers Between Counties

**A Approving Transfers Between Counties**

A transfer between counties **cannot** be approved unless 1 of the following applies:

- land is combined in the receiving county and meets criteria for being a farm according to 3-2-CM; see subparagraph 52 B for additional information.

**Note:** Farms being transferred according to paragraph 52, where all the land on the farm is physically located in 1 county but the County Office where the farm is physically located has been closed and the timeframe to request a change of administrative county has not yet passed, do not need to be combined with any other farm in the receiving county.

- any of the situations in subparagraph 52 A, or paragraphs 53 or 54 are met.

**B Authority**

COC may delegate to CED the authority to approve in and out transfers of land between counties.

**C DAFP Approval**

Any requests for in- and out-transfers that do not meet the criteria in subparagraph A can be submitted to DAFP for approval.

## 172 Base Reductions Before CLU Certification

### A Background

Many CCC-505's have been completed to reduce base acres to prevent out-of-balance farms. These base reductions were permanent.

In some cases, farm acreage increases after CLU certification. In most cases, this acreage increase will **not** have any effect on base acres. However, if CCC-505 was completed before CLU certification to prevent an out-of-balance farm, and after CLU certification that farm now has additional acreage because of more accurate measurements to support bases, acres reduced on CCC-505 may be able to be restored even though the base reduction was previously considered permanent. Yields may also be restored if base acres and yields were reduced to zero as a result of CCC-505.

### B Base Acreage Restoration Requests

\*--Base acreage restorations are not automatic. County Office requests for base acreage restoration must be submitted to their State Office. State Office reviewed requests shall be FAXed to PECD, Common Provisions Branch, Attn: Jeremy Nalder, at 202-720-0051 for--\* approval.

The following documentation shall be provided with each request:

- a cover letter that provides an explanation of the request
- FSA-156EZ printed before CCC-505 base reduction
- CCC-505 showing the base reduction
- FSA-156EZ printed after CCC-505 base reduction
- FSA-156EZ printed before CLU certification
- FSA-156EZ printed after CLU certification.

Base acres **shall not** be restored until approval is received. Approval will not be granted for cases showing additional land cleared or actual land changes. This approval will only apply if the new measurement reflects a more accurate measurement.

**173 Rules for Yields When Tract Acreages Are Adjusted****A Background**

Yields for a crop may change as base acres for the crop increase or decrease. The following changes to farms may result in an increase or decrease of the farm program payment yield:

- land is enrolled in CRP
- existing CRP-1's expire or are terminated
- DCP cropland acres decrease
- out-of-balance tracts are resolved using CCC-505.

**Note:** Changes to the farm program payment yields will only occur if the farm's tracts have different yields.

**B Yields for Farms With Expired or Terminated CRP**

CAB's released from CRP may affect the farm program payment yield for a crop. When CRP-1 for a farm that is protecting CAB reduction acres terminates, the farm program payment yield for a crop is:

- the CRP tract yield if the entire farm or the entire crop CAB was covered under CRP-1 and all CRP tract yields are the same
- a blended CRP tract yield if the entire farm or the entire crop CAB was covered under CRP-1 and the CRP tract yields are not the same
- a blended yield of the CRP tract yields and DCP tract yields if the entire farm or the entire crop CAB was not covered under CRP-1 and part of the crop was already enrolled in DCP.

\*--246 Printing AD-1026A

**A Overview**

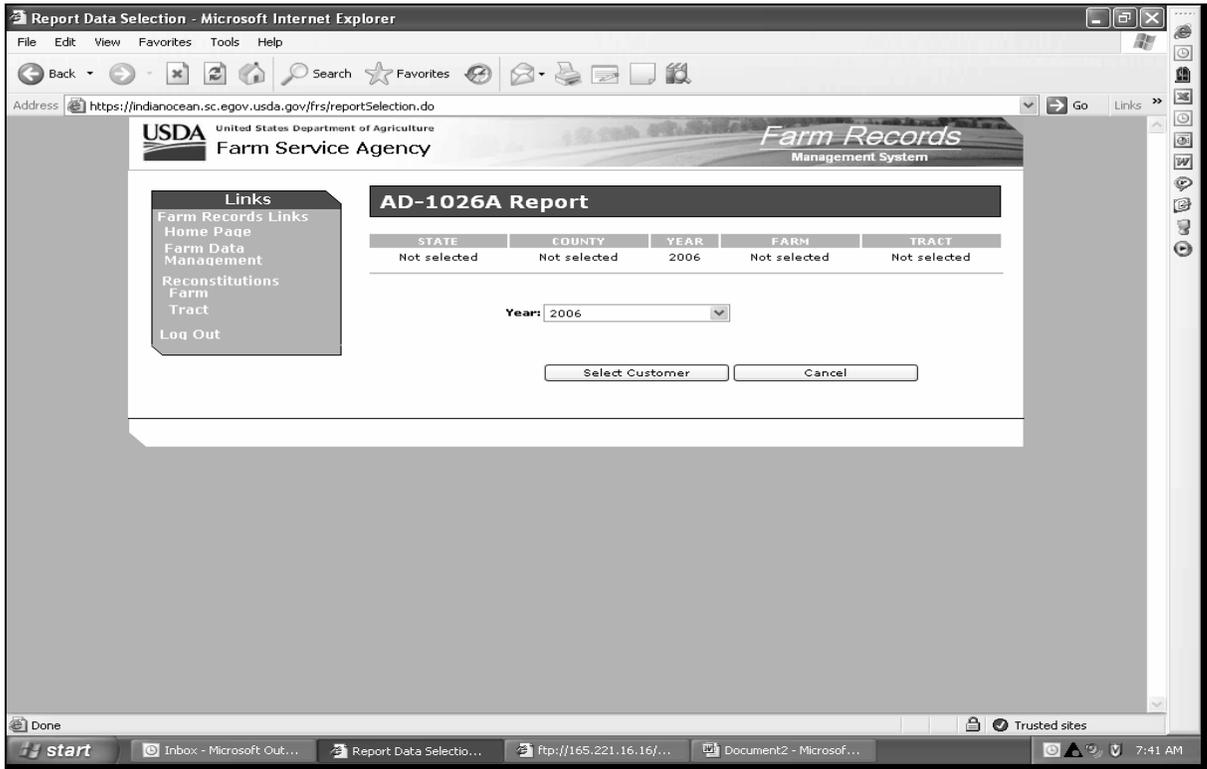

AD-1026A is designed to help producers accurately complete AD-1026 by displaying HEL and wetland determinations. Previously, this report was generated in the System 36 and contained only a single county’s information. The web-based AD-1026A now contains information from all counties in which the producer has an interest.

**B Accessing AD-1026A Selection Screen**

To print AD-1026A’s, on the Report Selection Screen, select “AD-1026A Report” and CLICK “Submit”. The AD-1026A Selection Screen will be displayed.
