### **3** Sources of Authority and Related References

### A Legislative History

- \*--The current source of authority for DIPP is the Agricultural Act of 2014 (Pub. L. 113-279) that authorizes DIPP through 2018.
  - **Note:** FY 2016 funding is authorized by the Consolidated Appropriations Act of 2016, (Pub. L. 114-113).

### **B DIPP Duration**

DIPP is authorized through September 30, 2018.--\*

### **C** Federal Regulations

Regulations governing administering DIPP are provided in 7 CFR Part 760, Subpart A.

### **D** Related Handbooks

Handbooks related to DIPP include the following.

Subject	Handbook

Signatures, estates, trusts, minors, or powers of attorney	1-CM
Misaction, misinformation, or equitable relief	7-CP
Scheme, device, or failure to fully comply	7-CP

### 4 Administration and Responsibilities

### A DIPP Administration

DIPP is administered under DAFP general supervision, through PSD, with STC's and COC's having the primary responsibilities.

### **B** STC Responsibilities

STC's shall:

- supervise and monitor DIPP to ensure that policies and procedures authorized in this handbook are uniformly followed by County Offices
- review FSA-373's/memorandums/letters received from County Offices for completeness and accuracy
- take any action required by this handbook that has not been taken by COC
- send FSA-373/memorandum/letter to PSD, through State Office, for approval or disapproval
- correct, or require COC to correct, any action taken by COC that is **not** authorized according to this handbook.

### C COC Responsibilities

COC's shall:

- administer DIPP at the county level through CED under STC supervision
- inform producers and manufacturers about the eligibility requirements for DIPP payments
- determine, to the extent possible, the source of the contamination in each case
- determine whether the submitted documentation provides the required information needed for the base and claim periods
- complete and review applicable DIPP forms and documentation for completeness and accuracy
- send FSA-373/memorandum/letter to PSD through the State Office for approval.
- **Note:** FSA-373/memorandum/letter may be disapproved by COC if all eligibility requirements and conditions for payment are not met by the applicant.

### 5 Determining Dairy Indemnity (Continued)

### **F** Removal From Commercial Market

The commercial market is the market to which the DIPP applicant normally delivers whole milk produced by their dairy operation.

Removed from the commercial market includes milk produced and:

- destroyed or fed to livestock
- delivered to a handler who destroyed it or disposed of it as salvage (such as separating whole milk, destroying the fat, and drying the skim milk)
- otherwise diverted to other than the commercial market.

### **G** Duration of Indemnity Payments

Indemnity payments shall continue until the earliest of the following:

- producer has been reinstated and is again allowed to sell milk in commercial markets
- manufacturer has removed all the contaminated products from commercial markets
- appropriated funds for making DIPP payments have been expended.

### 6 Determining Fair Market Value of Milk

### A Fair Market Value

The fair market value of a DIPP applicant's normal milk marketings is determined from the sum of the net proceeds the DIPP applicant would have received for their normal marketings during the pay period for the claim period. Once the fair market value of the milk is determined, the net proceeds the DIPP applicant would have received for the pay period for the milk removed from the commercial market can be calculated.

### **B** Net Payment Price

The net payment price is determined by deducting the following from the gross payment price:

- transportation or hauling fees
- \*--Note: The base hauling fee is the only charge allowed to be claimed. Stop charges and mileage costs must **not** be included in the allowable hauling fee.
- promotional fees.
  - **Note:** Promotional fees must be equivalent to the industry standard rate of 0.1500 percent.--\*
- **Note:** The net payment price provided on the applicant's milk marketing statement (subparagraph C) may be used to calculate the final payment to the DIPP applicant using the appropriate spreadsheet calculator, according to subparagraph 41 D.

Payment pricing is based on component pricing rather than a butterfat base to reflect the dairy industry change in the formula used to calculate the payment price producers receive.

#### 17 Filing FSA-373's

### A Where to File

Producers may file FSA-373's in either of the following:

- the County Office where the dairy operation affected by the contamination is physically located
- the producers' administrative County Office.
- **Note:** If a producer sustains a loss more than once during FY at the same dairy operation, all subsequent FSA-373's must be filed in the same County Office as the initial FSA-373.

### **B** Final Filing Date

FSA-373's must be filed by December 31 following the FY-end in which the loss occurred.

#### **C** Example of Final Filing Date

The following table provides an example of the final filing date.

IF the loss occurred on or after	THEN the final filing date to apply is	
*October 1, 2014, but by September 30, 2015	December 31, 2015.	
October 1, 2015, but by September 30, 2016	December 31, 2016*	

### 17 Filing FSA-373's (Continued)

#### **D** Signature Requirements

All producers who share in the risk of a dairy operation's total production must certify to the information on FSA-373 before FSA-373 will be considered complete or approved by CCC.

County Offices shall follow 1-CM for the following:

- producer signatures and authorization provisions
- persons signing FSA-373 in a representative or fiduciary capacity
- paying amounts due persons who have died, disappeared, or have been declared incompetent.

**Example:** ABC Dairy Operation has 4 partners and:

- does **not** have a signature authority on file in the County Office; therefore, all producers who share in the risk of the dairy operation's total production must certify to the information on FSA-373
- has a signature authority on file the County Office; therefore, shall follow 1-CM.

### 41 Calculating DIPP Payments (Continued)

### **D** Spreadsheet Calculator

The following electronic spreadsheet calculators have been developed to compute DIPP payments:

- DIPP Calculator, used according to subparagraph 42 A to perform the full calculation
- Net Payment Price Calculator, used according to subparagraph 42 C when the net payment price is known.

When completed FSA-373's are received, County Offices shall access the appropriate spreadsheet calculator, according to this subparagraph, and enter applicable data from FSA-373 and applicants supporting documentation to compute the DIPP payment.

**Note:** County Offices must attach a printout of the completed spreadsheet calculator for **each** applicant to the DIPP case file.

Manual calculation of the DIPP payment must **only** be used when the spreadsheet calculators are unavailable or for circumstances the spreadsheet calculators do not address.

### **E** Accessing the Spreadsheet Calculators

The spreadsheet calculators can be accessed from the PSD web site at **www.fsa.usda.gov/FSA/webapp?area=home&subject=prsu&topic=landing** under \*--"Additional Resources". Click either of the following:--\*

- "DIPP Calculator"
- "Net Payment Price Calculator".

### 42 Calculating DIPP Payments Using Spreadsheet Calculator

### A Using the DIPP Calculator

Using the DIPP Calculator, County Offices must enter the following required data in the applicable white, unshaded fields:

- number of cows milked during the base period
- number of pounds marketed during the base period
- number of days milk was commercially marketed during the base period
- number of cows milked during the claim period
- number of pounds commercially marketed during the claim period
- gross payment price from handler sheet
- promotional fees from handler sheet
- hauling fees from handler sheet
- normal milkings per day
- date of last pickup before removal from the commercial market
- date of first pickup after reinstatement to the commercial market
- total pounds of production marketed on last day of pickup
- total pounds of production marketed on first day after reinstatement
- additional milkings not included in total number of missed milkings
- number of milkings that need to be subtracted from total number of missed milkings.

#### 43 DIPP Payment Provisions

#### **A** Assignments

DIPP payments may **not** be assigned.

### **B** Offsets

DIPP payments are subject to offset (58-FI). The balance due the applicant after offset, if applicable, must be entered on FSA-373, item 46, according to paragraph 18.

### C Payments Subject to Refund

If an applicant receives an indemnity payment and is later compensated for the same loss by the party responsible for the loss, the applicant **must** refund to FSA within 14 calendar days, the lesser of the following:

- amount of the payment for the loss
- amount of compensation from the other source.

### **D** Advance Payments

Advance payments will **not** be issued for DIPP.

### **E** Direct Deposit Requirement

DCIA requires any recipient of Federal payments who becomes eligible for that payment after July 25, 1996, to receive the payment by EFT. All producers receiving benefits under DIPP **must** file SF-3881 or retain SF-1199A according to 1-FI, Part 7.

**Note:** New ACH/direct deposit information shall be obtained on SF-3881 only. County Offices may retain prior SF-1199A.

### **F** Other Legal Recourse

County Offices must **not** make an indemnity payment for contamination resulting from chemicals or toxic substances, if DAFP determines within 30 calendar days after the date of FSA-373, that other legal recourse is available to the DIPP applicant.

#### \*--G Sequestration

Payments under DIPP may be reduced by a certain percentage because of a sequester order required by Congress and issues pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985, as amended by the Budget Control Act of 2011. Should a payment reduction be necessary, FSA will reduce the payment by the required amount. The sequester rate for FY 2016 DIPP is 6.8 percent.--\*

\* \* \*
