

## Texas FSA Today

April 2013

An Online Monthly Newsletter Covering the Hottest Topics in Federal Farm Programs

### DCP/ACRE SIGN-UP CONTINUES

The sign-up period for DCP and ACRE are still open. The DCP sign-up period will end on Aug. 2, 2013; and the ACRE sign-up period will end on June 3, 2013.

The 2013 DCP and ACRE program provisions are unchanged from 2012, except that all eligible participants in 2013 may choose to enroll in either DCP or ACRE for the 2013 crop year. This means that eligible producers who were enrolled in ACRE in 2012 may elect to enroll in DCP in 2013 or may re-enroll in ACRE in 2013. Likewise producers who were enrolled in DCP may opt for ACRE enrollment.

Contact your local FSA office for more information or to make an appointment to enroll.

### CRP SIGN-UP STARTS SOON

USDA will conduct a four-week general sign-up for the Conservation Reserve Program (CRP), beginning May 20 and ending on June 14. CRP protects the nation's natural resources through voluntary participation, while providing significant economic and environmental benefits to rural communities across the United States.

Currently, about 27 million acres are enrolled in CRP. Producers that are accepted in the program can receive cost-share assistance to plant long-term, resource-conserving covers and receive an annual rental payment for the length of the contract which is 10-15 years.

Contracts on 3.3 million acres of CRP are set to expire on Sept. 30, 2013. Producers with expiring contracts or producers with environmentally sensitive land are encouraged to evaluate

their options under CRP.

For more information on CRP and other FSA programs, visit a local FSA service center or [www.fsa.usda.gov](http://www.fsa.usda.gov).

### HISPANIC AND WOMEN FARMERS AND RANCHERS CLAIMS PROCESS EXTENDED

Agriculture Secretary Tom Vilsack has announced the extension of the voluntary claims process for Hispanic and women farmers and ranchers who allege discrimination by the USDA in past decades. All claims must now be filed by May 1, 2013.

USDA urges potential claimants to contact the Claims Administrator for information and mail their claim packages on or before May 1, 2013.

The process offers a voluntary alternative to litigation for each Hispanic or female farmer and rancher who can prove that USDA denied his or her application for loan or loan servicing assistance for discriminatory reasons for certain time periods between 1981 and 2000. As announced in February 2011, the voluntary claims process will make available at least \$1.33 billion for cash awards and tax relief payments, plus up to \$160 million in farm debt relief, to eligible Hispanic and women farmers and ranchers. There are no filing fees to participate in the program.

Claimants may register for a claims package by calling the telephone number below Monday through Friday 9 a.m. to 8 p.m. Eastern Time or by downloading the forms from the website.

Website: [www.farmerclaims.gov](http://www.farmerclaims.gov)

Phone: 1-888-508-4429

Fax: (855) 626-8343

Email: [claims@hwfr.org](mailto:claims@hwfr.org)

Claims Period: September 24, 2012 – May 1, 2013.

Claim packages and other documentation may be mailed to Hispanic and Women Farmers and Ranchers Claims Administrator, PO Box 4540, Portland, OR 97208-4540. Claim packages and other documentation may also be emailed to [claims@hwfr.org](mailto:claims@hwfr.org). Claimants may also fax claims packages and other documentation to (855) 626-8343. Completed forms and documentation must be received no later than 11:59 p.m. PDT on May 1, 2013.

### MICROLOAN PROGRAM

The Farm Service Agency (FSA) developed the Microloan (ML) program to better serve the unique financial operating needs of beginning, niche and the smallest of family farm operations.

The program will operate similar to the Operating Loan program but will include reduced requirements for managerial experience and loan security, as well as reduced paperwork.

The microloan program can be used for such expenses as annual crop inputs, marketing and distribution expenses, purchase of livestock and equipment, and minor farm improvements such as wells and coolers.

Eligible applicants may obtain a microloan for up to \$35,000. The repayment term may vary and will not exceed seven years. Annual operating loans are normally repaid within 12 months or when the agricultural commodities produced are sold. Interest rates will be the same as the regular Direct Operating Loan rates.

## ACREAGE CERTIFICATION

After spring planting, producers should certify their 2013 acreage. Filing an accurate acreage report for all crops and land uses, including failed acreage and prevented planting acreage, can prevent the loss of benefits for a variety of programs.

Failed acreage must be reported within 15 days of the disaster event and before disposition of the crop. Prevented planting must be reported no later than 15 days after the final planting date.

Acreage reports are required for many Farm Service Agency programs. Contact your local FSA office for a list of acreage certification deadlines.

## ADJUSTED GROSS INCOME

USDA and the Internal Revenue Service have established an electronic information exchange process for verifying compliance with the adjusted gross income (AGI) provisions for farm programs. Written consent is required from each producer or payment recipient for the tax review process. No actual tax data will be included in the report that IRS sends to FSA.

This ensures that payments are not issued to producers whose AGI exceeds certain limits. The limits set in the 2008 Farm Bill are \$500,000 nonfarm average AGI for commodity and disaster programs; \$750,000 farm average AGI for direct payments; and \$1 million nonfarm average AGI for conservation programs.

Participants in CCC programs subject to average AGI rules must submit form CCC-933 to their local FSA Office to avoid interruption of program benefits. This form may be obtained from local FSA and NRCS offices or online at: <http://forms.sc.egov.usda.gov/eforms/mainervlet>.

## DCP AND ACRE FRUITS AND VEGETABLES (FAV) EXEMPTION

Producers enrolled in the Direct and Counter-Cyclical Program (DCP) or the Average Crop Revenue Election (ACRE) program can plant any crop on base acres except for fruits, vegetables and wild rice other than mung beans and pulse crops.

Fruits and Vegetables (FAVs) and wild

rice can only be planted if the commodity is destroyed without benefit before harvest unless one of the following exceptions applies:

- In a double-cropping practice with covered commodities or peanuts in any region designated as having a history of double-cropping covered commodities or peanuts with fruits, vegetables, or wild rice
- On a farm with a history of planting FAV's or wild rice, except that direct and counter-cyclical payments shall be reduced by an acre for each acre of base acreage planted to a fruit, vegetable, or wild rice
- If the producer has an established history of planting a specific fruit, specific vegetable, or wild rice. If you meet this exception, please check with your county office for additional requirements.

Failure to comply with FAV and wild rice provisions is a CCC-509 violation that could result in termination or a reduction in direct, counter-cyclical and ACRE program payments. Compliance and payment reductions will be determined on wild rice and all FAVs planted on base acres, with the following exemptions:

- FAVs that are designated as and meet the definition of a home garden
- FAVs planted and reported with an intended use and the producer pays a fee to cover the cost of a farm visit to verify that the crop has not been harvested as FAV cover only, foraging, green manure, grazing, left standing or silage.
- Mung beans and pulse crops

The intentions must be declared when the acreage report is filed. These exemptions can't be used to negate CCC-509 violations or payment reductions.

## FSA MOVES TO ELECTRONIC CHECK PROCESSING

FSA is moving towards an electronic method for processing check payments from customers. All paper checks submitted for payment, either in person or through the mail, will be converted into an Electronic Funds Transfer (EFT) using Over the Counter Channel (OTCnet), a web-based

application.

The electronic transfer of funds could occur within 24 hours. FSA will hold the paper check for up to 14 calendar days to ensure that the transaction was successfully processed and then the check will be shredded. The producer will not receive the paper check back from FSA.

All counties will be transitioned into OTCnet by the end of 2013.

The new electronic check processing system will benefit the Agency and producers. The new system will reduce the possibility of losing or misplacing checks, speed up the check clearing process and reduce the potential for human error.

## HAY NET

Producers are encouraged to use Hay Net on the FSA website (<http://www.fsa.usda.gov/haynet>). This online service allows producers with hay and those who need hay to post ads so they can make connections. Hay Net is a popular site for farmers and ranchers who have an emergency need. Individual ads can be posted free of charge by producers who complete a simple online registration form the first time they use the site.

## FARM SAFETY

Flowing grain in a storage bin or gravity-flow wagon can be fatal. It takes less than five seconds for a person caught in flowing grain to be trapped.

The mechanical aspects of grain handling equipment, also presents a real danger. Augers, power take offs, and other moving parts can grab people or clothing.

These hazards, along with pinch points and missing shields, are dangerous enough for adults; not to mention children. It is always advisable to keep children a safe distance from operating farm equipment. Always use extra caution when backing or maneuvering farm machinery. Ensure everyone is visibly clear and accounted for before machinery is engaged.

FSA wants all farmers to have a productive crop year, and that begins with putting safety first.

## 2011 SUPPLEMENTAL REVENUE ASSISTANCE PROGRAM APPLICATIONS

The Farm Service Agency (FSA) will continue to accept SURE applications for 2011 crop losses through June 7, 2013. Under the 2008 Farm Bill, SURE authorizes assistance to farmers and ranchers who suffered crop losses caused by natural disasters occurring through Sept. 30, 2011.

During 2011, all Texas counties received a Secretarial Disaster Designation, whether primary or contiguous, and producers are eligible to apply for SURE benefits if they experienced at least a 10 percent production loss that affects one crop of economic significance.

To meet program eligibility requirements, producers must have obtained a policy or plan of insurance through the Federal Crop Insurance Corporation or obtained Noninsured Crop Disaster Assistance Program (NAP) coverage for all economically significant crops. Eligible farmers and ranchers who meet the definition of a socially disadvantaged, limited resource or beginning farmer or rancher do not have to meet this requirement. Forage crops intended for grazing are not eligible for SURE benefits.

For more information on SURE program eligibility requirements contact your local FSA office or visit the website at <http://www.fsa.usda.gov/sure>.

### MARKETING ASSISTANCE LOANS (MAL)

Short-term financing is available by obtaining low interest commodity loans for eligible harvested production. A nine-month Marketing Assistance Loan provides financing that allows producers to store production for later marketing. The crop may be stored on the farm or in the warehouse.

Loans are available for producers who share in the risk of producing the eligible commodity and maintain beneficial interest in the crop through the duration of the loan. Beneficial interest means retaining the ability to make decisions about the commodity, responsibility for loss because of damage to the commodity and title to the commodity. Once beneficial interest in a commodity is lost, it is

ineligible for a loan, even if you regain beneficial interest.

### FINAL AVAILABILITY DATES FOR MARKETING ASSISTANCE LOANS & LOAN DEFICIENCY PAYMENTS

- May 31 - Corn, Cotton, Grain Sorghum, Rice, Soybeans

### FARM STORAGE FACILITY LOAN PROGRAM

The Farm Storage Facility Loan Program (FSFLP) allows producers of eligible commodities to obtain low-interest financing to build or upgrade farm storage and handling facilities.

The new maximum principal amount of a loan through FSFL is \$500,000. Participants are now required to provide a down payment of 15 percent, with CCC providing a loan for the remaining 85 percent of the net cost of the eligible storage facility and permanent drying and handling equipment. Additional security is required for poured-cement open-bunker silos, renewable biomass facilities, cold storage facilities, hay barns and for all loans exceeding \$50,000. New loan terms of 7, 10 or 12 years are available depending on the amount of the loan. Interest rates for each term rate may be different and are based on the rate which CCC borrows from the Treasury Department.

Payments are available in the form of a partial disbursement and the remaining final disbursement. The partial disbursement will be available after a portion of the construction has been completed. The final fund disbursement will be made when all construction is completed. The maximum amount of the partial disbursement will be 50 percent of the projected and approved total loan amount.

The following commodities are eligible for farm storage facility loans:

- Corn, grain sorghum, rice, soybeans, oats, peanuts, wheat, barley or minor oilseeds harvested as whole grain
- Corn, grain sorghum, wheat, oats or barley harvested as other-than-whole grain
- Pulse crops - lentils, small chickpeas, dry beans and dry peas
- Hay

- Renewable biomass
- Fruits (including nuts) and vegetables - cold storage facilities
- Honey

For more information about FSFL please visit your FSA county office or [www.fsa.usda.gov](http://www.fsa.usda.gov).

### MAINTAINING THE QUALITY OF LOANED GRAIN

Bins are ideally designed to hold a level volume of grain. When bins are overfilled and grain is heaped up, airflow is hindered and the chance of spoilage increases.

Producers who take out marketing assistance loans and use the farm-stored grain as collateral should remember that they are responsible for maintaining the quality of the grain through the term of the loan.

### UNAUTHORIZED DISPOSITION OF GRAIN

If loan grain has been disposed of through feeding, selling or any other form of disposal without prior written authorization from the county office staff, it is considered unauthorized disposition. The financial penalties for unauthorized dispositions are severe and a producer's name will be placed on a loan violation list for a two-year period. Always call before you haul any grain under loan.

### GUARANTEED LOAN PROGRAM

The Farm Service Agency loan limit for the Guaranteed Loan Program has increased to \$1,302,000. The limit is adjusted annually based on data compiled by the National Agricultural Statistics Service.

The lending limit increases every year according to an inflation index. The maximum combined guaranteed and direct farm loan indebtedness has increased to \$1,602,000.

As a reminder, the one-time loan origination fee charged on FSA guaranteed farm ownership and operating loans is 1.5 percent of the guaranteed portion of the loan.

Producers should contact their local FSA County Offices with questions about farm loans.

## RURAL YOUTH LOANS

The Farm Service Agency makes loans to rural youths to establish and operate income-producing projects in connection with 4-H Clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5000.

For more information you can stop by your FSA county office. Our staff can help with preparing and processing the application forms.

## BEGINNING FARMER LOANS

FSA assists beginning farmers and or members of socially disadvantaged groups to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

- Has operated a farm for not more that 10 years
- Will materially and substantially participate in the operation of the farm
- Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA
- Does not own a farm in excess of 30 percent of the county's median size.

Additional program information, loan applications, and other materials are available at your local USDA Service Center. You may also visit [www.fsa.usda.gov](http://www.fsa.usda.gov).

## LOANS FOR THE SOCIALLY DISADVANTAGED

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, FSA has provided priority funding for socially disadvantaged applicants.

A socially disadvantaged applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, socially disadvantaged groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

## LAND CONTRACT (LC) GUARANTEES

The Land Contract (LC) Guarantee Program is a valuable tool to transfer farm real estate to the next generation of farmers and ranchers. Guarantees will be offered to the owner of a farm who wishes to sell real estate through a land contract to a beginning or socially disadvantaged farmer or rancher. The guarantee reduces the financial risk to the seller.

FSA offers two types of guarantees:

- Prompt Payment Guarantee - A guarantee up to the amount of three amortized annual installments plus the cost of any related real estate taxes and insurance.
- Standard Guarantee - A guarantee of 90 percent of the outstanding principal balance under the land contract.

The guarantee period is 10 years and the contract payments must be amortized for a minimum of 20 years. The purchase price of the farm cannot exceed the lesser of \$500,000 or the market value of the property.

## FARM RECORD CHANGES

June 1, 2013 is the deadline to provide changes to your farm records at the local FSA office for the current crop year. If you are changing your operation entity type, adding or dropping cropland or farms, or adding entities to your operation, contact the FSA county office by June 1.

**Readers are advised that dates for FSA programs in Texas are often county-specific. Please contact your local FSA office for detailed information pertaining to your operation.**

90-Day Treasury Bill	.125%
Farm Operating Loans — Direct	1.375%
Farm Ownership Loans — Direct	3.50%
Farm Ownership Loans — Direct Down Payment, Beginning Farmer or Rancher	1.50%
Emergency Loans	2.375%
Farm Storage Facility Loans (7 years)	1.375%
Sugar Storage Facility Loans	2.50%
Commodity Loans 1996-Present	1.125%
