Reporting Crop Acreage Deadline – June 30 Small Grains & July 15 All Other Crops

It goes by different names — crop report, acreage report, crop certification — but regardless of what you call it, filing an accurate and timely acreage report for all crops and land uses, including failed acreage, can prevent loss of benefits for a variety of Farm Service Agency programs. **ALL** cropland on the farm (including ALL HAY reports) must be reported to receive benefits from the Direct and Counter-cyclical Program (DCP), marketing assistance loans, Loan Deficiency Payments (LDPs), and NAP (Non Insured Crop Disaster Program).

Conservation Reserve Program acreage must be reported to receive annual rental payments. And, crop acreage that is enrolled in Non-insured Crop Disaster Assistance Program (NAP) must be reported.

Crop reports, form FSA-578, Report of Acreage, must account for all cropland on a farm, whether idle/fallow or planted. Producers are required to file reports by **June 30th** for small grains and **July 15th** for all other crops.

Please call to set up an appointment.

Failed Acreage: Reports of failed acreage must be filed before disposition of the crop, and producers must be able to establish, to the satisfaction of the County Committee, that the crop failed and was prevented from being replanted through the normal planting period because of a natural disaster.

Crop reports made after July 15 may be accepted but are considered late reports and fees apply. Be timely!

Planting Dates

Please keep track of your planting dates as these are needed when you certify your crop acreage. Those dates are helpful to you in the event of a disaster program. Planting dates are required for farmers enrolled in NAP and crop insurance.

DCP and ACRE Sign UP- Deadline August 14, 2009

Signup for the 2009 Direct and Counter-cyclical Payment (DCP) Program has been extended until August 14, 2009. FSA will not accept any late-filed applications. Signup in the ACRE option is also available through August 14, 2009.

FSA computes DCP Program payments using base acres and payment yields established for each farm. Eligible producers receive direct payments at rates established by statute regardless of market prices. For 2009, you may request to receive advance direct payments based on 22 percent of the direct payment for each commodity associated with the farm. Counter-cyclical payment rates vary depending on market prices and are issued only when the effective price for a commodity is statutorily set below its target price.

The Average Crop Revenue Election (ACRE) is a new program authorized by the 2008 Farm Bill. The ACRE program signup began April 27, 2009, and runs through August 14, 2009. The ACRE alternative provides eligible producers a state-level revenue guarantee, based on the 5-year state Olympic average yield and the 2-year national average price.

Producers who elect the ACRE program for a farm agree to:

- forgo counter-cyclical payments;
- accept a 20-percent reduction of the direct payments; and
- accept a 30-percent reduction in loan rates for all commodities produced on the farm

Commodities eligible for ACRE payments include wheat, corn, grain sorghum, barley, oats, soybeans, sunflower seed, canola, flaxseed, safflower, mustard seed, rapeseed, sesame seed, crambe, dry peas, lentils, small chickpeas and large chickpeas, and additional crops. (Please call the county office for further details)

Nominations for County Committee

The election of agricultural producers to Farm Service Agency (FSA) county committees is important to ALL farmers and ranchers, whether beginning or long-established, with large or small operations. It is crucial that every eligible producer participate in these elections because FSA county committees are a link between the agricultural community and the U.S. Department of Agriculture (USDA).

County committee members are a critical component of the operations of FSA. They help deliver FSA farm programs at the local level. Farmers and ranchers who serve on county committees help with the decisions necessary to administer the programs in their counties. They work to make FSA agricultural programs serve the needs of local producers.

Nominations for candidates to run for the Farm Service Agency County Committee election will be accepted from June 15 through Aug. 3, 2009.
