Livestock Disaster Programs Signup Approaching

With the upcoming signup for the Livestock disaster programs for 2012 and 2013, it is very important that your farm records be correct.

Please read the following and if any corrections need to be made, contact our office as soon as possible to complete these actions:

Changes to Farming Operation

Producers who have bought or sold land, or added or dropped rented/leased lands from their operation must report those changes to the FSA office as soon as possible. **An acreage report must be completed within 30 days after purchase or acquiring the lease.** A copy of the deed or recorded land contract for purchase property is needed to maintain accurate records with FSA. Failure to do so can lead to possible program ineligibility and penalties.

Signature Authorizations

While making record updates, be sure to update signature authorizations.

Bank Account Changes

Current policy mandates that FSA payments be electronically transferred into a bank account. In order for timely payments to be made, producers need to notify the FSA county office when an account has been changed or if another financial institution purchases the bank where payments are sent. Payments can be delayed if the FSA office is not aware of updates to bank accounts and routing numbers.
